This unit manufactures Silencers, Tubular Cross Members, Exhaust Systems from Engine to Tailpipe and Radiator tubes, CAC inlet and outlet tubes for Heavy Commercial Vehicles (HCVs), Light Commercial Vehicles (LCVs) as well as Passenger Cars. This unit has a separate painting booth for painting exhaust systems and Structural Assemblies.

C) Manufacturing facility at Plot Nos. 5, 6 & 8, Rudrapur -Uttarakhand, India:

Your Company has set up manufacturing facilities located at Plot Nos. 5, 6 and 8, Sector 11, IIE, Rudrapur, SIDCUL, Uttarakhand which manufactures various sheet metal Press components, Welded Assemblies, Load Bodies and Small Mechanical Assemblies (SMA) for various Models of Vehicles manufactured by TML, Ashok Leyland and other OEMs.

Your Company has installed the press shop which consists of 10 large presses ranging from 400 tons to 1200 tons and 14 medium presses ranging from 40 tons to 350 tons. Your Company has installed welding facility for manufacture of Low Deck Load Body, BIW parts, Foot Control Modules (FCM), Guide plates and Door Hinges.

During the year under review, the Company has set up and installed the Automated Welding Line for manufacturing of High Deck Load Body for TML's Tata Ace with installed capacity of 400 per day. The Company has started supplying High Deck Load Body from October, 2012 as per roll out requirement for this Model in TML. The said High Deck Load Body was designed and developed by your Company's Wholly Owned Subsidiary Company - Autoline Design Software Limited.

D) Manufacturing facility at Plot No. E-12-17 (7) and (8), MIDC, Bhosari, Pune, India:

Your Company is having world class Manufacturing facilities for various Pedal Control Systems (Foot Control Modules), Parking Brakes, Door Hinges, Mechanical Jacks and other Small Mechanical Assemblies for its domestic and International OEMs like TML, General Motors, India and Korea, Volkswagen India, Daimler India Commercial vehicles (Bharat Benz) and Ashok Leyland - Nissan, Ford Chennai and Sanand. This facility has been certified EMS 14001, OHSAS 18001 and TS 16949 and complies with the highest and stringent quality standards of the International OEMs. In-addition, this facility has also been qualified for General Motor's QSB and Volkswagen's formal Q Certification. This facility is equipped with a dedicated state of the art testing facility required for validating the safety of the critical product range which is being manufactured at this plant. This facility exports the GM Mini pedal systems to Korea as a part of GM global supply as single source.

Your Company has set up additional manufacturing facility at Plot No. E-12-17 (7), MIDC, Bhosari, Pune (Adjacent to Plot No. E-12-17 (8), MIDC, Bhosari, Pune). The Company has started its production for Volkswagen, Daimler and other OEMs. The press line of 6 Presses with capacity from 63 Ton to 350 Ton as well as 5 Ton overhead crane and 200 CFM compressor have been installed. Two assemblies have been set up for Volkswagen and four assemblies for Daimler. In addition to these products new awarded businesses from FORD, Ashok Leyland - Nissan and Renault Nissan will be established in this facility.

E) Manufacturing facility at Dharwad, Karnataka:

In October 2012, your Company has setup a manufacturing facility on a rented premises at Belur Industrial Area, Dharwad, Karnataka. Five major assemblies for the Commercial Vehicle are manufactured and delivered to TML, Dharwad from this plant. This plant has a capacity of manufacturing 400 Assemblies per day.

The Company also owns 2 acres land at Belur Industrial Area, Dharwad. Recently Bhumi Pooja was performed and all approvals for construction of building has been received. This proposed manufacturing facility along with a rented shed will be used to assemble the major components being supplied by your Company for the various vehicles manufactured at TML, Dharwad. Considering the proximity to Bangalore this facility will also to be used to supply Auto Components to other OEMs like - Ashok Leyland- Nissan, Toyota located in this area.

FUTURE PLANS:

Your Company proposes to set up a manufacturing facility at Chennai- "The Detroit of South Asia" which is the leading automotive hub in India with a base of over 30% of India's automotive industry and 35% of its auto components industry. The Company proposes to get assured additional business with Ashok Leyland - Nissan, Daimler India, Isuzu Motors for its Heavy and Light Commercial Vehicles and also explore the possibility of development of business for Passenger Vehicles with Ashok Leyland - Nissan, Renault Nissan, Ford, Kamaz Vectra.

Further your Company proposes to enter into the Aluminum Die Casting business which has good export potential and a thriving domestic demand. This would be a logical extension and your Company has requisite technical and marketing capabilities.

F) Autoline Industrial Parks Limited - (AIPL):

AIPL now proposes to develop infrastructure for setting up of Township under Special Township Act (STP) vide Notification No. TPS-1804/Pune R.P. DCR /UD -13 dated 16th November, 2005 at Village Mahalunge, Taluka, Khed, District Pune, State - Maharashtra, India under the Special Township Project (STP) of Government of Maharashtra.

During the year under review, AIPL has filed an application for constructing Special Township at Village Mahalunge, Taluka Khed, District Pune on its land, to Mantralaya, Mumbai. The location clearance is expected to take 4 months and then Letter of Intent and all other approvals (including Environment Clearance from Ministry Of Environment and Forest [MOEF]) within a overall period of approx. 12 months.

AIPL is continuing to explore the possibilities of a sale/ joint development in a manner most beneficial to all stakeholders. Negotiations are at different stages with few reputed corporate developers.

G) Autoline Design Software Limited, India : (ADSL)

End to end R&D support carried out during the year and its benefit to Autoline Industries Ltd and OEMs.:

Technological advancement and virtual product development process is directly involved in decrease in cost and waste. Here ADSL's R&D team plays a significant role in supporting entire product life cycle and its implementation throughout the process.

- a) ADSL has successfully carried out design and development work for Pedal system and parking brake for various OEM's like TML, General Motors, and Ford Motors during the year 2012-13. For GM (M2XX) RHD Crash Mechanism of Pedal system has been developed, Renault Nissan manual transmission pedal assembly design has been completed. Parking brake design for Nano CNG and Renault Nissan has been completed and all the projects handed over to production.
- b) Ford pedal system for manual and automatic transmission has been designed and handed over to production.
- c) Product validation is being carried out with CAE group which helped in design modifications to reduce the number of iterations during the design process. CAE enabled 'earlier' problem resolution, which reduced the costs associated with the product life cycle. The CAE team was involved in each major project of TML, Ashok Leyland, and General Motors during the year.
- d) Considering the potential requirement of sheet metal assembly line, building a team of Jigs & Fixtures initiatives has been taken for various operations like welding inspection, assembly line for pedal system for various customers like Ashok Leyland, TML, and Varroc Polymers & Daimler.
- e) On the marketing front, various R&D initiatives has been started to approach two/four wheelers OEM's, few of them are Royal Enfield, Bajaj, Renault, Fiat etc. It helps to bring new tools and technologies, design knowledge and approach to find optimum solution for the product definition.
- f) CAE (Initiative) - The mass optimization of 25% per seat of a two wheeler for VARROC has been achieved. The mass optimization done by taking the design considerations in to account. The mass optimization process with the help of CAE tools helped to reduce the overall tool modifications and hence the cost of modifications.
- g) The Non-linear analysis of small assemblies like parking break, clutch pedal and brake pedal of GM, TML and ASHOK LEYLAND is carried out to achieve optimal design. Evaluated and refined analysis using computer simulations rather than physical prototype testing helped to reduce the efforts for the design modifications and development process. The results are 85-90% in relation with physical testing.
- h) The optimization of heavy vehicle bracket for an excitation load is done. ADSL have presented this analysis in Altair national level paper seminar (HTC-2012) at Bangalore.
- i) ADSL Structural design team has done the design of High deck load body of LCV for one of the largest OEM in India and also supported Autoline Industries Ltd to set up the line for production. Design support has been provided to Autoline Industries Ltd. to develop Cab tilt and Cab stay. ADSL styling team has come with styling solutions for Helmets, lighting systems, Two wheelers, concept design for interior and exterior for 4 wheelers and concept design for Consumer Goods. Small Mechanical Assemblies team has been instrumental in providing latest Pedal Systems, Jacks and Parking Brakes for leading automobile manufacturers globally like General Motors, Ford, Chrysler, Fisker, Ashok Leyland-Nissan and Daimler etc. ADSL has also been able to get a global order working closely with DEP Autoline Inc., USA for a European Auto manufacturer.
- j) ADSL is also working closely with a leading Automobile OEM for conversion of an existing SEDAN to a LOAD CARRIER with minimum changes and cost effectiveness in close co-operation with DEP Autoline Inc., USA.

H) Autoline Industries, Inc., Butler, Indiana, USA- (Autoline -Butler):

- 1) During the year under review, Autoline -Butler continues to be a strong player in the pedal system, Park Brake

and Jack Business units. The Company is executing a \$ 92 Million USD Global Mechanical Park Brake contract over 6 years in 3 continents. Your Company now proposes to start its operations both in China and Europe through contract manufacturing partners in both of these countries. It has emerged as a key player in the Global Mechanical Park Brake segment. Your Company will now expand into these geographies and start servicing global OEMs in these regions.

- 2) During the year under review, your Company successfully implemented a \$ 1 million USD profit improvement action program. The Company is happy to report that the program is off to a great start and your Company will achieve its target in this fiscal year.
- 3) A chassis spare tyre kit and a wheel chock program was launched supplying 350,000 units / year at an estimated value of USD 1.2 Million.
- 4) Your Company through Autoline Industries USA has been accepted at two additional OEMs in the US for supplying Jacks and Pedal assemblies and new programs are being quoted currently for launch in 2016.
- 5) The Company is very delighted to report a successful negotiation of a new three year contract with the Labour Union at the Butler operations.

I) SZ Design, Srl and Zagato Srl ("ZAGATO") Milan, Italy :

The net worth of the SZ Design, Srl, (under liquidation) has been eroded due to various write offs. ANNUAL REPORT - 2013

During the period, your Company has made following efforts at its various plants:

1. Focus has been given for internal as well external logistics, to improve the in-house quality as well as elimination of dent and damage marks during the transportation.
2. The practice of use of gantry has been made mandatory during the manufacturing of Low Deck Load Body which has resulted in elimination of scratch marks on skin panel of Low Deck Load Body.
3. CO2 gas tanks for CO2 welding has been installed which has resulted in reduction in consumption of gas during CO2 welding operations.
4. The layout of 1 Ton Assembly line has been shifted and modified for the ease of Assembly manufacturing as well as better movement.
5. Robotic CO2 welding process have been commissioned for manufacturing of Volkswagen's Brake Assembly.
6. Testing & Validation system has been designed and developed for various types of Parking Brakes, which are manufactured in-house.
7. 'Super Market' concept has been introduced in High Deck Load Body Line.
8. Eliminated use of natural gas for heating parts washer water, AIL, USA went to electric water heaters. This allows AIL, USA to maintain more even heat control and also will result into cost savings of approx. \$2500/month based on past 12 months gas usage.
9. AIL, USA implemented a quarterly PM program for all its compressors which will reduce the amount of energy being consumed due to poor filtering / maintenance. AIL, USA also went with a synthetic oil that is outperforming the oil and had used this as well is a cost save as it reduces filter replacement @ \$1400 each by half. AIL, USA had 4 changes last year and 2 changes in this year.

Benefits derived as a result of above:

1. Improved quality and customer satisfaction
2. Minimize operator/ workmen fatigue
3. Increase in productivity
4. Less damages to components.

Management Discussion & Analysis

Economic Overview:

The Indian Economy, after reporting a fairly robust growth of over 9 per cent during 2005-2008, moderated to a growth of 6.7 per cent in 2008-09 because of the global financial crisis. Since there was fiscal and monetary space, it allowed the economy to recover fairly quickly to a growth of 8.4 per cent in 2009-10 and 2010-11. Since then, however, the fragile global economic recovery and a number of domestic factors have led to a slowdown once again. The slowdown is not just confined to India. There has been a general slowdown in the global economy which has been passing through a rather prolonged phase of uncertainty. The slowdown has been all pervasive and almost all the sectors have been affected.

The Global economy is going through uncertainties, with economies of most of the developed markets facing recessionary pressures. The whole world is looking at China and India to lead and bring the Global economy out of the downturn.

According to India Ratings, economic growth may improve to 6.1 per cent in the next financial year, from the decade low of 5 per cent in 2012-13, on the back of reform measures announced after mid-September 2012.

INDUSTRY STRUCTURE AND DEVELOPMENTS :

Automotive Industry of India has been recording sluggish growth over the years but is a major contributor to India's GDP. This industry employs about 19 million people both directly and indirectly. Contribution of India in Global Auto industry is important. The Automotive Industry comprises of the automobile and the auto ancillary industry.

As per data published by Department of Industrial Policy and Promotion (DIPP), Ministry of Commerce, the amount of cumulative foreign direct investment (FDI) equity inflow into the automobile industry during April 2000 to April 2013 was worth US\$ 8316.47 million, accounting for 4.25 per cent of the total FDI inflows (in terms of US\$).

Automobile Industry:

Automobile Industry includes passenger cars; light, medium and heavy commercial vehicles; Utility Vehicles, scooters, motorcycles, three wheelers, tractors etc.

Automobile Industry performance in 2012-13:

The cumulative production data for April-March 2013 shows production growth of only 1.20 percent over the same period last year.

Domestic Sales:

The overall growth in domestic sales during April-March 2013 was 2.61 percent over the same period last year.

Passenger Vehicles segment grew at 2.2 percent during April-March 2013 over same period last year. Passenger Cars declined by (-) 6.7 percent, Utility Vehicles grew by 52.20 percent during April-March 2013 as compared to the same period last year.

The overall Commercial Vehicles segment registered de-growth of (-) 2.0 percent in April-March 2013 as compared to the same period last year. While Medium & Heavy Commercial Vehicles (M&HCVs) declined by (-) 23.2 percent, Light Commercial Vehicles grew at 14.0 percent.

The industry performance in the domestic market during FY 2012-13:-

Category	Industry Growth (%)	
Segment	FY 2011-12	FY 2012-13
Passenger Cars	2.2	-6.7
Utility Vehicles	16.5	52.2
Passenger Vehicles	4.66	2.2
M&HCV	7.9	-23.2
LCVs	27.4	14.0
Total Commercial Vehicles	18.2	-2.0

During April-March 2013, overall automobile exports registered de-growth of (-) 1.34 percent compared to the same period last year.

Source: Society of Indian Automobile Manufacturers (SIAM)

The prevailing slowdown in industrial production is due to combination of domestic and external factors. While the global economic slowdown had affected the export dependent sectors, depressed sentiments, high interest rates, a slowing economy, moderation in credit growth, a deceleration in growth of investment and record fuel prices also contributed to

the reduction in growth. Monetary tightening and higher cost of borrowing have dented overall investment flow into industry and infrastructure during the current financial year.

Auto Ancillary Industry :

The fortunes of the auto ancillary sector are closely linked to those of the auto sector. Demand swings in any of the segments (cars, two-wheelers, commercial vehicles) have an impact on auto ancillary demand. Demand is derived from Original Equipment Manufacturers (OEM), as well as the replacement market.

The Indian auto ancillary industry's revenue growth in 2012-13 was the slowest in last five years as suppliers battled weak demand from domestic OEMs and sluggish export volumes starting Q2 2012-13 and tepid replacement market sales. Revenue growth was particularly weak in Q4 2012-13 due to the unusually high base of Q4 2011-12 (due to vehicle pre-buying that had happened in this period in anticipation of excise duty hike) as well as propagation of demand weakness across all automobile segments. Suppliers of parts to the Medium & Heavy Commercial Vehicle (M&HCV) segment and the Passenger Car (PC) segment were the most severely impacted; while suppliers to the Light Commercial Vehicle (LCV) and Utility Vehicle (UV) segments were relatively better off.

The aggregate net profit of auto component manufacturers in the study sample declined by around 7 per cent in 2012-13 over the previous year. One of the primary reasons for this decline was depreciation of the rupee against the dollar, besides earnings weakness due to weak demand and increase in operating costs due to lower volumes.

OPPORTUNITIES AND THREATS:**A) OPPORTUNITIES :**

The growth of Indian middle class, with increasing purchasing power, will lead to increased affordability and increasing domestic demand for vehicles, especially in the small car segment. With rising disposable income levels and changing life styles, especially in the key urban centres in India, additional purchases are being made by persons who already own vehicles. This has led to high demand for automobiles.

Indian Auto Component Manufacturers offers adequate production capacity with world class technology and that too at low cost. Domestic auto component manufacturers are increasingly complying with the internationally accepted quality standards like EMS 14001, OHSAS 18001, TS 16949, six sigma, ISO, etc. This has caught the attention of global OEMs. Global OEMs with presence in India are increasing level of localisation in products offered by them in the Indian markets. To keep costs low without compromising quality, the level of indigenisation is being increased in phased manner. Furthermore, depreciating rupee is resulting in increase of import bill for global OEMs, who source a large proportion of their inputs from overseas markets. Global OEMs are resorting to increased local sourcing so as to curtail the burden of growing import bill. Thus growing levels of indigenisation in next couple of years will contribute to growth of auto component manufacturers in the next 2-3 years, regardless of slowdown in automobile demand.

Carmakers in India are passing through their toughest ride in a decade. Yet, in coming year, five carmakers plan to invest a total of ₹ 11,000 Crore in additional capacity for one million cars, or one third of the current market size. This is a good news for auto ancillary industries as their fortunes are closely linked to those of the auto sector.

- 7 new International OEMs have set up Manufacturing facilities in India in the last 4 years and launched almost 150 new models.
- According to JD Power and Ernst & Young estimates (incorporated in Government of India's Mission Plan 2020 for Automobile Industry) -
 - i) The Indian Automobile Market is tipped to become the 3rd largest in the world by 2020.
 - ii) India's share in the Global Passenger Vehicle Market to Jump from 4% in 2010-11 to 8% by 2020.
 - iii) The Auto Component Industry to attain turnover of USD 113 billion by 2020, from USD 58 billion in 2010-11.
 - iv) The contribution of Auto Industry in 2010-11 to National GDP was 22% and Excise 21% of total collections. Hence, the Industry cannot be ignored and Government will have to provide necessary impetus & facilities to achieve above targets.

Your Company is well poised to exploit these opportunities in view of its Strengths. Your Company already has a Global Foot Print with manufacturing in India, USA, South Korea, and operations to be started in both China and Europe, as International OEMs expect supplies of Components for same Model manufactured globally at all locations.

B) THREATS:

Due to the global economic slowdown, automotive Industry sales declined significantly. Due to global meltdown and financial crisis all over the world and especially in auto sector, banks/financial institutions became more cautious while lending funds. The challenge before the industry is to face tight liquidity, low consumer sentiments, fluctuations in price of raw material especially steel, drop in industrial production, cost reduction targets of OEMs, high operating costs, overcapacity in the market, lack of availability of consumer finance etc.

The major issue that auto component makers are facing is with regard to sharply rising cheap imports of auto components

from ASEAN countries such as Thailand, China, etc.

Auto Component manufacturers of our Category are sandwiched between large OEMs (Vehicle Manufacturers) and large Steel OEMs (raw material suppliers) with less or no elbow room for negotiations and terms, unless new proprietary products with own design are launched in both Automotive and Non-Automotive Sectors. Hence, your Company is taking necessary steps to scale up more 'proprietary' products with own designs and ability to realize good margins from Customers in coming years.

Key Competitive Positioning:

Over the years, your Company has built a strong product portfolio and developed high end design and value engineering capabilities. Your Company is an integrated 'Art to Part' or 'Concept to Delivery' Company with capability right from Styling, Designing (CAD), Proto typing, Analyzing CAE (Computer Aided Engineering), for Crash Worthiness, NVH, CFD, etc. Tooling (Computer Aided Manufacturing) and finally Mass Manufacturing.

Your Company operates through 12 manufacturing facilities and four Design & Styling Centers in Pune, India's Automotive & IT hub, Chennai, USA, Italy.

At the heart of our diversification has been our innovative approach to not only produce new products but also improve our existing products and services through Value Engineering. Your Company endeavours to bring products which satisfy the end user requirements.

Today, the Company is able to provide over 2500 products across different sizes and ranges that fit into a range of SUVs, MUVs, PV's, CVs and other vehicles. Your Company has added a varied range of products like foot control modules, exhaust systems, silencers, jacks, hinges, brake assemblies, automotive axles, etc. Your Company provides a wide range of engineering enterprise services, based on a combination of business consulting, product design, and IT skills. Some of the product innovations undertaken by your Company in association with the Subsidiary Companies encompass High Deck Load Body, Load Body Weight Optimization, Pedal Assemblies, Park Brake Assemblies and Jack Assemblies. These have been well accepted by OEMs, both global and domestic. Notably your Company has also been awarded patents by the United States Patent Office and that has enabled to obtain good brand visibility world over.

Your Company has the unique capability of Offshore Designing & Manufacturing model (ODM) through DEP Autoline LLC, USA, a Detroit, USA based firm specializing in Design Engineering. Your Company, with the help of this subsidiary has focused on developing and providing high-end full vehicle engineering solutions through a suite of proprietary software tool kits and products. The high-end design engineering capabilities will enable your Company to reposition as one of the most technologically competent solutions provider in the world. With the acquisition of Autoline Design Software Limited, located at Pune, India, your Company's proposition to its customers improved as a provider of engineering-design, tooling services and mass- manufacturing capabilities that can continually innovate through process engineering, re-engineering and re-tooling to improve manufacturing efficiency. Your Company, is continuously renewing technology and upgrading quality standards, keeping in mind international benchmarks.

In the recent years, with a well-defined business strategy, your Company has won new contracts from General Motors, Volkswagen, Daimler Chrysler, Ford, Mahindra Navistar Automotive Ltd. and Ashok Leyland Nissan. Consequently, it has also led to improved and increased brand visibility and awareness for your Company. Due to excellent quality in work, cost competitiveness, timely deliveries and State of the Art Tool Room facility with latest CAD /CAE/ CAM facilities, the Company has, in a short span, become prime vendor to all the reputed Auto Manufacturers not only in Pune, but across the World.

Using the power of collaborative visualization, your Company now facilitates collaborative decision making and multi-disciplinary communications that enable companies to identify and resolve manufacturing design problems while in a virtual state with significantly reduced developmental time and money, for all the OEMs in the Automobile Industry around the world. These processes have been successfully applied while developing components/assemblies for General Motors, Daimler, Volkswagen, Ashok Leyland-Nissan, etc.

Every manufacturing facility has a tool room attached with Computerised Milling Centres, Wire-cut Machines, Horizontal Boring Machine and host of other supporting tooling machinery to take care of even the large size dies. This is supported by a state-of-the-art Design Engineering setup with the latest Hardware and Software backed by CAD/CAE/CAM facilities for optimum utilization of tool room machinery.

Moving Ahead aided by Innovation

Your Company's in-house designing team has introduced a number of new products during the year. The Adjustable & Collapsible Pedal Assembly, High Deck Load Body, Park Brake Assembly and Jack Assembly are a result of our focus on driving growth through innovation, thus exemplifying the value engineering expertise of your Company. Efforts are also on to develop Accessories for 4 wheelers & 2 wheelers, which are in high demand with new & innovative designs, to improve profit margins.

While, most of these products have been tested and approved by leading international and domestic OEMs - Volkswagen, Daimler India, Ashok Leyland - Nissan, Asia Motor Works, Mahindra Navistar and Tata Motors, your Company is now set to tap the incremental growth opportunities arising from them.

Further, your Company earned recognition for its in-house Designing & Engineering capabilities team from Volkswagen and General Motors to provide cost efficient pedal assemblies and brake assemblies.

Your Company has also set up a manufacturing plant at Dharwad in Southern India, to cater to the growing needs of Domestic and International OEMs and particularly for the various models manufactured by Tata Motors Ltd. at Dharwad.

The recognition of your Company's value engineering expertise by International OEMs like General Motors, Volkswagen, Daimler, Ashok Leyland - Nissan, Asia Motor Works, Tata Motors and Mahindra Navistar continues to propel your Company's growth, by enabling the development of newer, high performance, value added and low cost products in your Company's portfolio. This will help not only improve your Company's business performance but also strengthen your Company's relationships with the existing as well as prospective clients.

Your Company's untiring efforts of adhering to global quality standards, enhancing production efficiency, upgrading to fast changing requirements of OEMs, customization of products and solutions, and a strong focus on product innovation and improvisation have yielded an overall improvement in performance.

RISKS AND CONCERNS:

The risks to which the Company is exposed are common to most of the players in the auto components industry. Entry of new players and the launch of new models may increase market competition for automobile companies. This in turn will restrict the ability of the auto component manufacturing companies to pass on the full impact of input cost pressures to auto manufacturers.

Infrastructure plays a key role in the development of the economy and hence, infrastructural bottlenecks and delay in policy initiatives by the Government could affect the growth of the industry and the Company.

Inflation: - The Reserve Bank of India continued to follow a relatively tight monetary policy to control inflation. The cost of borrowing remains at elevated levels and this has had an impact on investment and growth in the economy, particularly that of the industry sector. Finally, bottlenecks in project implementation have made financing more difficult and investors more cautious. However as per the data released by the Commerce and Industry ministry on Monday 15th April 2013, the wholesale price inflation, the most widely-watched measure of prices, dropped to 5.96% in March 2013 from 6.84% in February 2013. This marks the lowest inflation reading since November 2009. This is a good sign of recovering of economy.

Increase in Competition: - The Indian auto components industry is currently facing formidable pricing challenge from China and South East Asian countries as they compete not only in the international markets but also on the domestic turf. At present, the cost competitiveness of Indian players is constrained on account of infrastructure inefficiencies; higher cost of power; upward pressure on wages and inflexible labour laws.

Increase in Fuel price: - The frequent hikes in fuel prices seems to have had an adverse effect on the sale of vehicles. The increased price of petrol and diesel due to new policy of Market Adjustment every fortnight has proved to be a bane for automobile companies.

The global economic slowdown, depressed sentiments, high interest rates, moderation in credit growth and a deceleration in growth of investment are also the reasons for concern.

In coming financial year, the measures taken by the Government will help the automotive industry to improve its products and performance and to achieve better cost efficiency. The measures taken by Government seems to be a step to encourage local manufacturing, value addition and employment

BUSINESS OUTLOOK:

The Indian auto component industry is one of the few sectors in the economy that has a distinct global competitive advantage in terms of cost and quality. The value in sourcing auto components from India includes low labour cost, raw material availability, technically skilled manpower and quality assurance. An average cost reduction of nearly 25-30% has attracted several global automobile manufacturers to set base since 1991. India's process-engineering skills, applied to re-designing of production processes, have enabled reduction in manufacturing costs of components. Today, India has become the outsourcing hub for several global automobile manufacturers.

However, In view of the current macro environment, both domestically and globally, a cautiously optimistic view about the Indian automobile industry's prospects can only be taken in the near term. As a result, achieving high growth rates is likely to be a major concern for the industry in 2013.

The automobile sector is cyclical and dependent on the growth of the economy and improvement in infrastructure. Factors like increased public spending, favorable interest rates, general improvement in per capita income and favourable Government policies to stimulate Growth (like defining the life for vehicles) point towards higher demand for automobiles in the future.

Strong demand from the OEM segment remains a key driver for the auto components industry. The global turmoil and tight liquidity conditions during 2012-13 had caused an unprecedented number of downgrades in the auto components industry. Although prospects of recovery of exports to developed markets remain uncertain as of now, there is the strong underlying domestic demand prevailing across automotive segments should enable the components industry to remain on an up tide over the medium term.

ANNUAL REPORT - 2013

While growth in the auto-sector globally has slowed down, your Company look at this "lean period" as a time of significant opportunity. While your Company continue to grow its business in India with traditional customers, your Company have made significant headway in diversifying customer base and expanding exposure geographically.

Your Company proposes to set up manufacturing facility at Chennai- "The Detroit of South Asia" which is the leading automotive hub in India. The Company proposes to increase its business with Ashok Leyland - Nissan, Daimler India, Isuzu Motors for its Heavy and Light Commercial Vehicles and also explore the possibility of development of business for Passenger Vehicles with Ashok Leyland - Nissan, Renault Nissan, Ford, Kamaz Vectra.

The next year promises to be one of challenge and opportunity. While your Company stands ready to face the challenges as a result of reduced growth domestically, we look at the coming period as one which will provide us the opportunity to consolidate and optimisation of production operations at Pune, innovation, cutting cost through value engineering and also productionisation or monetization of some patents, making accessories, reduce and control costs, overheads etc. resulting in optimum utilisation of resources and continue growth.

BUSINESS PERFORMANCE:

The year gone by was a tough one for the entire Automobile Industry with your Company being no exception. The standalone performance has been little down due to slow down in auto industry, reduction in overall demand, lower volumes not covering fixed costs, high interest rate, inflationary trends, increase in input costs etc.

However, on a consolidated basis, during the year under review, your Company recorded a growth of 7.04% in Net Sales at ` 8006.85 million and earned net Profit of ` 109.11 Million. This was on account of an increase in volumes & performance of US based Wholly Owned subsidiary Company - Autoline Industries USA Inc.

INDEPENDENT AUDITORS' REPORT

To the Members of
AUTOLINE INDUSTRIES LIMITED.

Report on the Financial Statements

We have audited the accompanying financial statements of Autoline Industries Limited ("the Company"), which comprise the Balance Sheet as at 31st March, 2013, and the Statement of Profit and Loss and Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the Accounting Standards referred to in sub-section (3C) of section 211 of the Companies Act, 1956 ("the Act"). This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India:

- (i) in the case of the Balance Sheet, of the state of affairs of the Company as at 31st March, 2013;
- (ii) in the case of the Statement of Profit and Loss Account, of the profit/ loss for the year ended on that date; and
- (iii) in the case of the Cash Flow Statement, of the cash flows for the year ended on that date.

Without qualifying our opinion, we draw attention to:-

- Sub-note to note no. 9 regarding non provision for diminishing in value of investment in subsidiary Koderat Investments Limited (Cyprus). The note is self-explanatory. In the given circumstances we are unable to give our opinion.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2003, as amended by the companies (Auditor's Report) Amendment order, 2004 (together the "Order"), issued by the Central Government of India in terms of sub-section (4A) of section 227 of the Companies Act, 1956 and on the basis of such checks of the books and records of the company as we considered appropriate and according to information and explanation given to us, we enclose in the annexure hereto a statement on the matters specified in paragraphs 4 and 5 of the said Order to the extent applicable to the company.
2. As required by section 227(3) of the Act, we report that:
 - a) we have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
 - b) in our opinion proper books of account as required by law have been kept by the Company so far as appears from our examination of those books
 - c) the Balance Sheet, Statement of Profit and Loss, and Cash Flow Statement dealt with by this Report are in agreement with the books of account.
 - d) in our opinion, the Balance Sheet, Statement of Profit and Loss, and Cash Flow Statement comply with the Accounting Standards referred to in subsection (3C) of section 211 of the Companies Act, 1956;
 - e) on the basis of written representations received from the directors as on 31st March, 2013, and taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2013, from being appointed as a director in terms of clause (g) of sub-section (1) of section 274 of the Companies Act, 1956.
 - f) Since the Central Government has not issued any notification as to the rate at which the cess is to be paid under section 441A of the Companies Act, 1956 nor has it issued any Rules under the said section, prescribing the manner in which such cess is to be paid, no cess is due and payable by the Company.

Note 32 Disclosures on Employee share based payments - (Guidelines notes issued by ICAI)

a) In the 12th Annual General Meeting held on 27th Sept, 2008, the shareholders approved the issue of 8,50,000 options under the Scheme titled "Autoline ESOS 2008" (ESOP A).

The ESOP allows the issue of options to employees of the Company and its subsidiaries (whether in India or abroad), & Companies Directors. Each option comprises one underlying equity share.

As per the Scheme, the Remuneration / Compensation Committee grants the options to the employees deemed eligible. The options granted vest over a period of 5 years from the date of the grant in proportions specified in the Scheme. Options may be exercised within 5 years from the date of vesting.

The difference between the fair price of the share underlying the options granted on the date of grant of option and the exercise price of the option (being the intrinsic value of the option) representing Stock compensation expense is expensed over the vesting period.

NOTES FORMING PART OF FINANCIAL STATEMENTS AS AT 31ST MARCH 2013.**35 SIGNIFICANT ACCOUNTING POLICIES****35.1 Basis of accounting and preparation of financial statements :**

The financial statements have been prepared on historical cost convention and as a going concern and in accordance with the Generally Accepted Accounting Principles in India (Indian GAAP) to comply with the Accounting Standards notified under the Companies (Accounting Standards) Rules, 2006 (as amended) and the Section 211(3C) of the Companies Act, 1956. The company follows mercantile system of accounting and recognizes income and expenditure on accrual basis except those with significant uncertainties.

Estimates and Assumptions used in the preparation of financial statements are based upon the management's evaluation of relevant fact and the circumstances as of the date of the financial statements, which may differ from the actual results at a subsequent date.

35.2 Inventories:

Inventories are valued at cost or net realizable value whichever is lower; cost is ascertained on the following basis :

- a) Raw Material, Packing Material, tools, dies, spares and consumable are valued at cost on plus direct cost incurred to bring the stock to its existing level.
- b) Work in progress/ Finished Goods are valued at cost of manufacturing based on cost of Raw material and labour and overheads cost up to the relevant stage of completion.

Tools and Dies under process has been valued on percentage compilation based on estimated cost of production and development of respective tools and dies.

- c) Cost includes taxes and duties as applicable.

35.3 Cash and cash equivalents (for purposes of Cash Flow Statement):

Cash comprises cash in hand and demand deposits with banks. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

35.4 Cash flow statement:

Cash flows are reported using the indirect method, whereby profit / (loss) before extraordinary items and tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

35.5 Events occurring after the date of Balance Sheet:

Material events occurring after the date of Balance Sheet are considered up to the date of approval of the accounts by the board of directors. There are no substantial events having an impact on the results of the current year Balance Sheet.

35.6 Prior Period Items and Changes in Accounting Policies :

There is no change in the Accounting Policies which are being consistently applied by the company. No Prior Period items have materially affected this year's financial statements. Figures of previous year have been regrouped, rearranged and stated in line with the current year's presentation.

35.7 Depreciation:

Depreciation on all tangible assets has been calculated on Straight Line Method (SLM) as per the rates and manner prescribed under Schedule XIV of the Companies Act, 1956. Intangible assets are written off over the period of 5 years & Research & development is written off over 10 years. Depreciation on fixed assets, added/ disposed off during the year, is provided on pro-rata monthly basis with reference to date of addition / disposal. In case of revalued Asset, the depreciation calculated as per above method, and the difference between revalued value and original value is reduced from the total Depreciation and same is also reduced from the Revaluation Reserve.

35.8 Revenue recognition:

Sales are accounted on net of tax less sales Returns, Rejection, Penalty on sale & Warranty failed. Revenue from sale of products is recognized upon passage of title to the customer on acceptance of goods which generally coincides with the dispatch of materials.

Dividend Income is recognized when the right to receive the dividend is unconditional at the Balance Sheet date.

Interest Income is recognized on accrual basis.

Insurance Claims receivable from Insurance Companies against risks covered are accounted on in the year of receipt of claim.

35.9 Fixed Asset:

Fixed Assets are accounted at cost of acquisition or construction. Fixed assets are capitalized net of CENVAT / VAT for which credit is taken and includes borrowing cost directly attributable to construction or acquisition of fixed assets, up to the date the asset is ready to use. Foreign Exchange gain / loss on loan taken, which is directly attributable to construction or acquisition of Fixed Assets is also capitalized.

35.10 Research & Development :

Research & Development expenditure incurred on the identified product/ process is carried forward when its future recoverability can reasonably regarded as assured. Expenditure incurred till the commencement of production / process is carried forward under capital work in process. The expenditure carried forward is amortized over the period not exceeding ten years.

35.11 Foreign currency transactions and translations:

Foreign Exchange transactions are accounted for at exchange rate prevailing on the date of transactions. Year-end monetary asset and liabilities in foreign currency are translated at the applicable year-end exchange rate and the resultant difference in case of revenue item is recognized as gain / loss for the year and in case of capital account the same is adjusted against the respective fixed asset.

The premium or discount arising on forward exchange contract including those entered into, to hedge foreign currency risk of a firm commitment or highly probable forecast transaction other than those which are not intended for trading or speculative purpose, are amortized as expenses or income over the life of the contract. Exchange difference on such contract is recognized in the profit & loss account of the reporting period in which the exchange rate changes. Any profit or loss arising on cancellation or renewal of such forward exchange contract is recognized as income or as expense of the year.

The Company has decided not to exercise the option available under amendment to AS-11 relating to "the effects of changes in Foreign Exchange Rates" in respect of its long term foreign currency monetary items and accordingly is continuing to follow the principles laid down in AS 11 before such amendment.

35.12 Government grants, subsidies and export incentives:

Government grants and subsidies are recognized when there is reasonable assurance that the Company will comply with the conditions attached to them and the grants / subsidy will be received. The same is treated as revenue/ capital as per the scheme framed by the Government and the same is routed through statement of Profit & Loss account.

35.13 Investments:

Investments are recorded at cost of purchase. Interest earned on Bank Fixed Deposit is accounted on receipt basis. Unquoted investments are accounted at cost & Provision for diminution in value of long term investment is made, to recognize a decline other than temporary.

35.14 Employee benefits Costs:

Contribution to Provident Fund are accrued in accordance with applicable statutes and deposited with the Regional Provident Fund Commissioner.

Contribution in respect of Gratuity is made to the approved Gratuity Fund maintained by Life Insurance Corporation Of India Ltd. The liability in respect of Bonus and for Leave Encashment is provided on actual basis..

35.15 Employee Stock Options:

Employee Stock Options are evaluated and accounted on intrinsic value method as per the accounting treatment prescribed by Guidance Note on 'Accounting for Employee Share -Based Payments' issued by ICAI read with SEBI (Employee Stock Option Scheme & Employee Stock Purchase Scheme) Guidelines 1999 issued by SEBI. The excess of market value, if any, of the stock option as on the date of grant over the exercise price of the options is recognized as deferred employee compensation and is charged to the profit & loss account on vesting basis over the vesting period of the option .The un-amortized portion of the deferred employee compensation is reduced from Employee Stock Option outstanding, which is shown under Reserves & Surplus.

35.16 Borrowing costs:

Borrowing costs that are directly attributable to the acquisition, construction or production of fixed assets are capitalized as part of the cost of that asset. Other borrowing costs are recognized as an expense in the period in which they are incurred.

35.17 Earnings per share:

Basic earnings per share is computed by dividing the profit / (loss) after tax (including the post-tax effect of extraordinary items, if any) by the weighted average number of equity shares outstanding during the year. Diluted earnings per share is computed by dividing the profit / (loss) after tax (including the post-tax effect of extraordinary items, if any) as adjusted for dividend, interest and other charges to expense or income relating to the dilutive potential equity shares, by the weighted average number of equity shares considered for deriving basic earnings per share and the weighted average number of equity shares which could have been issued on the conversion of all dilutive potential equity shares. Potential equity shares are deemed to be dilutive only if their conversion to equity shares would decrease the net profit per share from continuing ordinary operations. Potential dilutive equity shares are deemed to be converted as at the beginning of the period, unless they have been issued at a later date. The dilutive potential equity shares are adjusted for the proceeds receivable had the shares been actually issued at fair value (i.e. average market value of the outstanding shares). Dilutive potential equity shares are determined independently for each period presented. The number of equity shares and potentially dilutive equity shares are adjusted for share splits / reverse share splits and bonus shares, as appropriate.

35.18 Taxes on income:

Tax Expenses for the year, comprising Current Tax including Wealth Tax, and is included in determining the net profit for the year. A provision is made for the current tax and based on tax liability computed in accordance with relevant tax rates and tax laws.

Current and deferred tax relating to items directly recognised in equity is recognised in equity and not in the Statement of Profit and Loss Account.

35.19 Deferred Tax- Asset/ Liability :

The Accounting Standard 22 "Accounting for Taxes on Income" issued by the Institute of Chartered accountants of India, has become applicable to the Company. The Deferred Tax is recognized for all timing differences being the difference between "Taxable Income" and "Accounting Income" that originate in one period, and are capable of reversal in one or more subsequent periods and measured using relevant enacted tax rates. Deferred Tax Assets are recognized only if there is reasonable certainty that they will be realized and are reviewed for the appropriateness of their respective carrying value at each balance sheet date.

35.20 Miscellaneous Expenditure :

Miscellaneous expenditure is written off over a period of future economic benefit available not exceeding five years.

35.21 Deferred Revenue Expenditure :

The deferred revenue expenditure is considered in respect of Bank Processing fees, professional fees paid for new term loans, the period of which is more than 5 years and foreclosure charges in respect of term loan foreclosed. The same is written off over the period of loan taken / original period of loan foreclosed.

35.22 Impairment of assets:

The Management periodically assesses, using external and internal sources whether there is an indication that an asset may be impaired. If an asset is impaired, the company recognizes impairment loss as the excess of carrying amount of the asset over recoverable amount.

35.23 Provisions and contingencies:

The company recognizes provisions when there is a present legal or constructive obligation as a result of past event that probably require an outflow of resources and a reliable estimate can be made of the amount of the obligation. A disclosure of a contingent liability is made when there is possible obligation or a present obligation that may, but probably will not, require an outflow of resources. Where there is possible obligation or a present obligation that the likelihood of outflow of resources is remote, no provision or disclosure is made. Provisions are not discounted to its present value and are determined based on best estimates required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect current best estimates.

35.24 Capital work in Progress :

The Expenditure which are of Capital nature and the assets for which it is incurred which has not come into existence/put to use during the year is shown under this head.

INDEPENDENT AUDITORS' REPORT **ON CONSOLIDATED FINANCIAL STATEMENTS**

To the Board of Directors of

AUTOLINE INDUSTRIES LIMITED

We have audited the accompanying consolidated financial statements of Autoline Industries Limited ("the Company") and its subsidiaries, which comprise the consolidated Balance Sheet as at 31st March, 2013, and the consolidated Statement of Profit and Loss and consolidated Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information, which includes the unaudited financial statements of Autoline Industries USA INC, Koderat Investments Limited. (Cyprus) and Autoline Stampings Limited, South Koera (Subsidiary of Autoline Industries USA, INC). These financial statements are the responsibility of the Company's Management. Our responsibility is to express an opinion on these financial statements based on our audit.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance and consolidated cash flows of the Company in accordance with the Accounting Standards referred to in sub-section (3C) of section 211 of the Companies Act, 1956 ("the Act"). This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

We did not audit the financial statements of the following subsidiaries. These financial statements have been provided by management, and our opinion, insofar as it relates to the amount included in respect of these subsidiaries, is based solely on the provided financial statements and representation of management. The total assets as at 31st March, 2013 and total revenue for the year then ended, in respect of these subsidiaries are as under -

(` In Lacs)

Name of the company	Total Assets	Total Revenue
Autoline Industries USA, INC	6180.14	20305.54
Koderat Investments Limited	3384.10	Nil
Autoline Stampings Limited, South Korea	1139.83	3379.01

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the consolidated financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India:

ANNUAL REPORT - 2013

- (i) in the case of the consolidated Balance Sheet, of the state of affairs of the Company as at 31st March, 2013;
- (ii) in the case of the consolidated Statement of Profit and Loss Account, of the profit/ loss for the year ended on that date; and
- (iii) in the case of the consolidated Cash Flow Statement, of the cash flows for the year ended on that date.

Without qualifying our opinion, we draw attention to:-

- Sub-note to note no. 9 regarding non provision for diminishing in value of investment in subsidiary Koderat Investments Limited (Cyprus). The note is self-explanatory. In the given circumstances we are unable to give our opinion.

Note 33 Disclosures on Employee share based payments - (Guidelines notes issued by ICAI)

a) In the 12th Annual general meeting of Autoline held on 27th Sept, 2008, the shareholders approved the issue of 8,50,000 options under the Scheme titled "Autoline ESOS 2008" (ESOP A).

The ESOP A allows the issue of options to employees of the Company and its subsidiaries (whether in India or abroad). Each option comprises one underlying equity share.

As per the Scheme, the Remuneration / Compensation Committee grants the options to the employees deemed eligible. The options granted vest over a period of 5 years from the date of the grant in proportions specified in the Scheme. Options may be exercised within 5 years from the date of vesting.

The difference between the fair price of the share underlying the options granted on the date of grant of option and the exercise price of the option (being the intrinsic value of the option) representing Stock compensation expense is expensed over the vesting period.

NOTES FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS AS AT 31ST MARCH 2013.

NOTE

PARTICULARS

36 SIGNIFICANT ACCOUNTING POLICIES

36.1 Basis of accounting and preparation of financial statements:

The consolidated financial statement relate to Autoline Industries Limited (the Parent Company) & its subsidiary companies. The Parent Company with its subsidiaries constitutes the Group

a) The Financial Statements of the subsidiary companies used in the consolidation are drawn up to the same reporting date as that of the Parent Company, i.e. year ended 31st March, 2013. In the case of foreign subsidiaries the company has taken the same reporting date as used above.

b) The consolidated financial statements have been prepared on historical cost convention and as a going concern and in accordance with accounting standard referred to in Section 211(3C) of the Companies Act, 1956.

The company follows mercantile system of accounting and recognizes income and expenditure on accrual basis except those with significant uncertainties and in respect of ECB/ Deposit of Citi Bank. Accounting policies not referred to otherwise are consistent with generally accepted accounting principles and trade practices.

c) The accounts of the Parent Company & Indian Subsidiaries have been prepared in accordance with the Accounting Standards specified in the Companies (Accounting Standards) Rules, 2006 notified by the Central Government and other provision of the Companies Act, 1956 and those of the foreign subsidiaries have been prepared in accordance with the local laws and the applicable Accounting Standard/Generally Accepted Accounting Principles, wherever necessary.

36.2 Principle of Consolidation

a) The financial statements of the Parent Company and its subsidiaries have been consolidated on a line by line basis by adding together the book values of like items of assets, liabilities, incomes and expenses after eliminating intra-group balances, intra-group transactions and unrealised profits resulting there from and are presented to the extent possible, in the same manner as the Company's independent financial statements.

b) The financial statements of the Parent Company and its subsidiaries have been consolidated using uniform accounting policies for like transactions and other events in similar circumstances, except in the case of depreciation as pointed out in para. 5, in accordance with generally accepted accounting principles in India.

c) The excess of cost to the Parent Company of its investment in each of the subsidiaries over its share of equity in the respective subsidiary, on the acquisition date, is recognised in the financial statements as 'Goodwill On Consolidation' and carried in Balance Sheet as an asset, where as the share of equity in the subsidiary companies as on the date of investment, is in excess of cost of investment of the company, it is recognised as 'Capital Reserve On Consolidation' and shown under the head Reserves and Surplus, in the consolidated financial statements.

d) Minority interest in the net assets of consolidated subsidiaries consists of the amount of equity attributable to the minority shareholders at the dates on which investments are made by the company in the subsidiary companies and further movements in their shares in the equity, subsequent to the date of investments.

e) The consolidated financial statements comprise of financial statements of Autoline Industries Limited (hereinafter referred as "Autoline"), subsidiaries incorporated in India viz. Autoline Design Software Ltd. (hereinafter referred as "ADSL"), Autoline Industrial Parks Ltd. (hereinafter referred as "AIPL") and outside India viz. Autoline Industries USA INC (hereinafter referred as "Butler"), Autoline Stampings Limited, South Korea and Koderat Investments Limited (hereinafter referred as "Koderat").

36.3 Inventories:

Inventories are valued at cost or net realizable value whichever is lower; cost is ascertained on the following basis :

a) Raw Material, Packing Material, tools, spares and consumable are valued at cost on FIFO Basis.

b) Work in progress/ Finished Goods are valued at cost of manufacturing base on cost of Raw Material and labour and overheads cost up to the relevant stage of completion.

Tools and Dies under process has been valued on percentage compilation based on estimated cost of production and development of respective tools and dies.

c) Cost includes taxes and duties paid/payable on such goods, wherever applicable.

36.4 Cash and cash equivalents (for purposes of Cash Flow Statement):

Cash comprises cash in hand and demand deposits with banks. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

36.5 Cash flow statement:

Cash flows are reported using the indirect method, whereby profit / (loss) before extraordinary items and tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the companies are segregated based on the available information.

36.6 Events occurring after the date of Balance Sheet:

Material events occurring after the date of Consolidated Balance Sheet are considered up to the date of approval of the accounts by the board of directors. There are no substantial events having an impact on the results of the current

year Consolidated Balance Sheet.

36.7 Prior Period Items and Changes in Accounting Policies:

There is no change in the Accounting Policies which are being consistently applied by the company. No Prior Period items have materially affected this year's consolidated financial statements. Figures of previous year have been regrouped, rearranged and stated in line with the current year's presentation.

The liability in respect of Bonus and for Leave Encashment is provided on actual basis.

36.16 Employee Stock Options:

Employee Stock Options are evaluated and accounted on intrinsic value method as per the accounting treatment prescribed by Guidance Note on 'Accounting for Employee Share -Based Payments' issued by ICAI read with SEBI (Employee Stock Option Scheme & Employee Stock Purchase Scheme) Guidelines 1999 issued by SEBI. The excess of market value, if any, of the stock option as on the date of grant over the exercise price of the options is recognized as deferred employee compensation and is charged to the profit & loss account on vesting basis over the vesting period of the option .The un-amortized portion of the deferred employee compensation is reduced from Employee Stock Option outstanding, which is shown under Reserves & Surplus.

36.17 Borrowing costs:

Borrowing costs that are directly attributable to the acquisition, construction or production of fixed assets are capitalized as part of the cost of that asset. Other borrowing costs are recognized as an expense in the period in which they are incurred.

36.18 Earnings per share:

Basic earnings per share is computed by dividing the profit / (loss) after tax (including the post tax effect of extraordinary items, if any) by the weighted average number of equity shares outstanding during the year. Diluted earnings per share is computed by dividing the profit / (loss) after tax (including the post tax effect of extraordinary items, if any) as adjusted for dividend, interest and other charges to expense or income relating to the dilutive potential equity shares, by the weighted average number of equity shares considered for deriving basic earnings per share and the weighted average number of equity shares which could have been issued on the conversion of all dilutive potential equity shares. Potential equity shares are deemed to be dilutive only if their conversion to equity shares would decrease the net profit per share from continuing ordinary operations. Potential dilutive equity shares are deemed to be converted as at the beginning of the period, unless they have been issued at a later date. The dilutive potential equity shares are adjusted for the proceeds receivable had the shares been actually issued at fair value (i.e. average market value of the outstanding shares). Dilutive potential equity shares are determined independently for each period presented. The number of equity shares and potentially dilutive equity shares are adjusted for share splits / reverse share splits and bonus shares, as appropriate.

36.19 Taxes on income:

36.20 Deferred Tax- Asset/ Liability :

The Accounting Standard 22 "Accounting for Taxes on Income" issued by the Institute of Chartered accountants of India, has become applicable to the Company. The Deferred Tax is recognized for all timing differences being the difference between "Taxable Income" and "Accounting Income" that originate in one period, and are capable of reversal in one or more subsequent periods and measured using relevant enacted tax rates. Deferred Tax Assets are recognized only if there is reasonable certainty that they will be realized and are reviewed for the appropriateness of their respective carrying value at each balance sheet date.

36.21 Miscellaneous Expenditure :

Miscellaneous expenditure is written off over a period of future economic benefit available not exceeding five years.

36.22 Deferred Revenue Expenditure :

The deferred revenue expenditure is considered in respect of Bank Processing fees, professional fees paid for new term loans, the period of which is more than 5 years and foreclosure charges in respect of term loan foreclosed. The same is written off over the period of loan taken / original period of loan foreclosed.

36.23 Impairment of assets:

The Management periodically assesses, using external and internal sources whether there is an indication that an asset may be impaired. If an asset is impaired, the company recognizes impairment loss as the excess of carrying amount of the asset over recoverable amount.

36.24 Provisions and contingencies:

The company recognizes provisions when there is a present legal or constructive obligation as a result of past event that probably require an outflow of resources and a reliable estimate can be made of the amount of the obligation. A disclosure of a contingent liability is made when there is possible obligation or a present obligation that may, but probably will not, require an outflow of resources. Where there is possible obligation or a present obligation that the likelihood of outflow of resources is remote, no provision or disclosure is made. Provisions are not discounted to its present value and are determined based on best estimates required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect current best estimates.

36.25 Capital work in Progress :

The Expenditure which are of Capital nature and the assets for which it is incurred which has not come into existence/put to use during the year is shown under this head.
