Chairman Message

Chairman & Managing Director's Message

Dear Shareholders,

Global market in general and commodity market in particular continues to be in turmoil as the conflict in Ukraine adds to the disruptions brought about by the pandemic. With the inflation threat looming large, economies across the globe are instituting measures to combat stagnating economic growth.

India having overcome many hurdles did well in achieving high degree of vaccination and also adopted measures to generate reasonable demand for goods and services. This has helped in achieving growth in core sector resulting in all time high GST collection. India is now the fastest growing major economy in the world.

As we strive for a better future, we continue to set new paradigms every day. In a challenging business environment agility, adoptability and innovation are the key to staying successful. Keeping this in our mind as the 'Mool Mantra', we were able to clock revenues of INR 120.65 Crores and PAT of INR 12.16 Crore on standalone basis during FY 2021-22, registering a growth of around 15% in both top and bottom line.

This year has been very special for us as we added new clients, new domains of exploration and drilling besides winning a coal block in the state of Jharkhand. We have during FY 21-22 added six new clients of repute and have also added underground drilling, geo-thermal exploration, and unconventional source of energy as new domains. These developments have further strengthened our order book and worked as catalyst in boosting our morale. We expect to win few more contracts / work orders in the tenders we have participated recently. With such kind of order book and order inflow, we are confident of achieving growth of 20% (CAGR) over the next three years.

Winning of a coal block by participating in the forward auction process initiated by Ministry of Coal, Government of India, has been a great achievement for us during the year. The total geological reserves are to the tune of 84 Million Tons in the said block having good connectivity from both rail as well as road. With the ready market available in surrounding areas coupled with present coal market scenario, we strongly believe that this move will prove to be a corner stone for your

company in the times ahead. It is partially explored block and the mine development activities are presently underway and we hope to complete these activities within next 30 months and start the coal production.

Our copper mining service operations in Oman are going on well. Since country has sizable mineral reserves of copper, gold, silver, chromite, lead, manganese and zinc etc., which are presently highly undeveloped due to preference to oil sector, we see lot many similar opportunities in future there in Oman.

South West Pinnacle Exploration Limited (SWPE) has a distinction of being a complete natural resources exploration company, be it Geo-Thermal, CBM and 2D/ 3D seismic for oil and gas, coal and non-coal minerals, aquifer mapping etc. Besides, SWPE has bagged a mining service contract in Oman and after acquiring a coal block, it has now become a complete exploration and mining company.

The present day policies of our Government are very conducive for exploration and drilling industry. The mining industry presently contributes hardly 2% to the GDP. The Government is giving lot of thrust to enhance mining sector share in GDP to at least 2.5 to 3% and to achieve this target many coal and non-coal mineral blocks are being offered through forward auction to private players, thus throwing open a lot of opportunities for us.

Your company has always believed in keeping the 'Customers First' besides empowering the employees and encouraging them for sharing new ideas and models. This policy has always paid us rich dividend. We also strongly believe in bringing the underprivileged section of our society to the mainstream. With this moto, we keep supporting development projects for the communities living in and around our site locations across.

Maintaining the past trend, the board of directors have recommended a dividend of 5% to the non-promoter shareholders subject to approval by shareholders at the AGM.

I would take this opportunity to thank our shareholders, customers, bankers, suppliers, employees and all other stakeholders for their overwhelming trust, support and confidence in the company.

**Best Regards,
Vikas Jain
Chairman & Managing Director**

Joint MD Message

Joint Managing Director's Message

Dear Shareholders,

With every new day we are stepping into new realities with new challenges. Last year the world was experiencing the ever increasing volatility and uncertainty due to COVID and now the geo-political tensions.

Your company has faced / is facing these challenges, yet I can claim to say that South West Pinnacle Exploration Limited (SWPE) has been successful by constantly adopting to them with speed and agility and managing the macro-economic factors rather well to remain relevant and competitive.

SWPE was quick to adopt a new operating model that prioritized the health and well-being of employees while enabling it to continue supporting its' clients' priorities. This has earned goodwill from the clients and enhanced its' standing in the market-place.

Leaving behind the year 2020-21 and moving into 2021-22, SWPE feel immense pride in marching ahead smartly. It is our niche capabilities in the field of exploration and drilling which have allowed us to win a prestigious certificate of accreditation during the year from National Accreditation Board for education and training (NABET), Quality Council of India for preparation of comprehensive Geological Report (APA) . With this certification SWPE now falls within an elite club of few select in the field. The company has also got certifications of ISO 14001:2015 and ISO 45001:2018 recently.

During FY 2021-22, we have done over one lakh meters of drilling, cumulatively we have completed more than 2.1 Millionmeters of drilling. The company has capacity to drill up to the depth of 2,500 meters. Besides, we have also completed 464 Sq Kilometer of 3D and 407 Line kilometer of 2D Seismic data acquisition and processing. Our drilling had a wide coverage which includes Coal & Mineral, CBM, Shale Gas, Aquifer mapping etc. Presently, we have 18 running operations across India and managing the operations with the help of 38 rigs, 7 Vibrosis, 3 Siesmic crews with 8,000 Channels and 3 geo-logging units etc. The company has so far successfully completed 110 projects out of which 8 projects were completed during FY 21-22.

Your company has been maintaining healthy order book of over INR 200 Crores which includes orders from reputed clients both from public and private sector. It is heartening to note that SWPE has successfully added six new clients during the year and also added three new domains, thus covering most of drilling and exploration domains. Your company has also recently participated/ participating in many fresh tenders across domains valuing over Rs. 500 Crores which will further strengthen our order book in future.

Seeing potential in Oman, your company has entered into a JV with a leading Australian company some time back and has bagged a long term copper mining contract valuing over 125 Million USD. The execution of contract is presently going on and the revenue generation has commenced from Q-1 of FY 2022-23. The company is hopeful of bagging few more such orders there in near future.

Besides, the coal block won by us during FY2021-22, spread across 266 Hectares with around 84 Million Tons of geological reserves, gives immense scope for our astronomical growth looking at the present day coal scenario . The mine development activities are going on well at present and we expect to commence the production in next 30 months.

It is our firm resolve that we shall keep up the momentum to leverage on the opportunities further by responding to the external environment.

Your Company remains committed to the highest standards of Operational Health, Safety, and Environment (OHSE). Its track record of safety continues to be unblemished this year too. This has become possible as we attach highest importance to OHSE. We would continue to strive hard in imbining and strengthening safety culture in the Company.

I would like to take this opportunity to thank all our clients, contractors, vendors, colleagues and share holders for their continued trust and confidence bestowed on the company and look forward for their continued guidance and support in the times ahead.

Warm Regards,
Piyush Jain

In view of the profits for the year under review and keeping in view of future fund requirements of the company for its business operations, your Directors are pleased to recommend dividend of Rs. 0.50 per Equity Share of face value of Rs. 10/- each, fully paid-up, to non-promoter shareholders of the company for the FY 2021-22.

OPERATION HIGHLIGHTS

A. Exploration, Infrastructure and Allied Services

During the year under review, the Company has earned total revenue of Rs. 12,064.93 Lacs as against 10518.34 Lacs during the previous year with an increase of 14.70%. The year under review resulted in Net Profit after Tax of Rs. 1216.13 Lacs as compared to Net Profit after Tax of Rs. 1052.56 Lakh during the previous year with an increase of 15.54%. Business Development of the Company is on expansion & diversification mode and the company expects to increase its' business significantly in the following years.

On consolidated basis, revenue for FY 2021-22 stood at is Rs. 12,064.89 Lacs as against Rs. 10,643.40 Lacs during previous year with an increase of 13.35% and Net Profit after Tax of Rs. 1092.02 Lacs as compared to Net Profit after Tax of Rs. 1022.14 Lacs during the previous year with an increase of 6.84%.

With the robust order book of over 200 crores in addition to the ongoing tenders worth over 500 crores, we are confident of achieving the revenue growth ranging from 15% to 20% with corresponding increase in profits.

The company had been successful in adding six new clients from private/public sector recently with addition of 3 new domains of exploration and drilling namely Geo -Thermal, Unconventional Oil & Gas and Underground Core Drilling for Copper and Gold Exploration. The domain of Geo-thermal exploration is first of its' kind in India which gives an edge over others to our Company.

B. Acquisition of Coal Block

During the year the company has acquired a partially explored coal block in the state of Jharkhand by participating in forward auction done by Ministry of Coal and Mines, Government of India. The total area of the coal block is 266 Hectares having geological reserves of around 84 Million Tons. The mine development activities are going on at full swing and we expect to start the coal production within next 30 months.

C. Operations in Oman

The company has been successful in bagging a long term copper and gold mining contract of USD 125 Million (INR 975 Crores) in Oman through our joint venture company namely Alara Resources LLC. The contract period is 11 years and accordingly the company will be fetching revenue of around INR 97 Crores, out of which our share in revenue (35%) shall be around INR 34 Crores. To avoid additional capex and operational hazards, the entire mining activities as per contract have been outsourced to a locally renowned mining service provider keeping reasonable margin. Accordingly, the company shall be generating a net margin of around INR 2 Crore per year.

The mining operations have since been started and the revenue and profits shall start flowing during the current year itself. The company is also doing exploration work there with 2 Rigs in place, which is also contributing to the top and

bottom line of the company.

IMPACT OF COVID-19 ON OPERATIONS OF COMPANY

- Company's operations were limping back to the normal in the beginning of the current financial year 2021-22 but the sudden spurt in COVID cases in the second wave had effected our operations for few days at some places. The immediate remedial measures taken by the company management had brought back the situation to the normal very soon.
- Although, the intensity of COVID reduced during the financial year 2021-22 yet we remain vigilant and conscious through out the year to guard us against any sudden let up in COVID. The employees of the company were instructed to strictly adhere to the COVID protocol while attending the job.
- Our conscious and pro active approach has allowed us to run all over operations smoothly with almost negligible impact of COVID during the year in question.

COMPANY'S AFFAIRS

South West Pinnacle Exploration Limited is an ISO 9001:2015, 14001:2015, 45001:2018 certified, providing end to end drilling, exploration and allied services to coal, ferrous, non-ferrous, atomic and base metal mining industries and water & unconventional energy industries. Company also provides consultancy for geological field services and allied services and has an in-house team of geoscientists for providing integrated exploration services including geophysical logging, surface geophysical & topographic surveys and 2D/3D Seismic Data Acquisition and Processing, which has great potential due to growing needs of energy resources in our country and Government of India is supporting this cause in a big way.

Recently, the Company has also added new domains of geo-thermal, Unconventional oil & gas and underground core drilling for copper & gold exploration. In addition to the above, the company has recently been allocated a coal block in the state of Jharkhand. The coal block is having a total estimated geological reserves of 84 million tonnes & the total block area is 266 hectares. The process of clearances & mine development is presently underway.

On successful implementation of future projects and on the strength of its existing product portfolio, operational efficiency and enhanced network, the management, on overall basis, expects a robust growth and enhanced market share.

SWPEL received Certificate of Accreditation from National Accreditation Board for Education and Training (NABET), Quality Council of India for Preparation of Comprehensive Geological Report (APA). It is a very prestigious accreditation giving the Company an edge over competitors in this domain.

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

INTRODUCTION

Mining sector in India is presently highly unexplored in comparison to the mineral reserves India possess. There is ample scope to boost the exploration activities to unlock the reserves. This will help in boosting our GDP (present contribution 2% only), enhance employment opportunities and the per capita income. This will also reduce the dependence on imports, which would save our crucial foreign exchange.

The Government of India is taking effective steps to gradually enhance the mining activities as much as possible. Present policy of opening up of coal and other mining sectors for private sector players is testimony for the same.

Infrastructure development, power and cement industries are also aiding growth for the sector. Demand for iron and steel is set to continue given the strong growth expectations for the residential and commercial building industry besides automobile sector.

Besides, Government's efforts to reduce dependence on imports of oil and gas will pave way for opening up of more and more avenues of exploration and production in oil and gas sector.

The good part is your company operates in most of the exploration domains and is well placed to take up all kinds of exploration and mining activities across sectors matching with the requirement as summarised in the following paragraphs.

A. EXPLORATION AND ALLIED SERVICES OFFERED

❖ COAL & MINERAL DRILLING SERVICES

SWPE offers Core Drilling, Large Diameter Core Drilling and non-core drilling through RC (Reverse Circulation), DTH (Down-the-Hole) & Mud Rotary technologies.

SWPE has completed more than 21 Lac Meters of drilling through all above mentioned technologies till date.

❖ 2D/3D SEISMIC EXPLORATION SERVICES

SWPE has the knowledge and ability to handle any challenges involved with Land 2D/3D seismic exploration, Coal, Oil & Gas. We supply seismic solutions including

- 2D/3D LAND SEISMIC DATA ACQUISITION
- 2D/3D LAND SEISMIC DATA PROCESSING

❖ GEOLOGICAL & GEOPHYSICAL SERVICES

SWPE has a strong Geological & Geophysical Services Division with a team of 15 experienced Geoscientists Capable of providing on-site integrated exploration services, both for coal and other mineral resources like – Limestone, Atomic Minerals, etc.

❖ MINING SERVICES

We are equipped to provide Mining Services for Coal including OB, Ferrous and Non-ferrous minerals SWPE has already commenced Copper/Gold Mining Services through JV in Oman.

❖ CBM EXPLORATION SERVICES

We are leading CBM exploratory drilling service provider in the country, having provided services to some of the prominent customers like – Reliance Industries, Oil India, Dart Energy Completed more than 60 CBM core wells to date - the highest in the country. SWPE has a fleet of 2 CBM Exploratory Drill Rigs which are capable of drilling up to 2000 m depth.

❖ CBM PRODUCTION SERVICES

SWPE has accomplished the feat of having drilled 184 nos. of CBM production wells up to 1,200m depths, for its customer – Reliance Industries SWPE has two CBM Production Drilling Rigs that are capable of drilling up to 1500 m depths.

❖ GEOTHERMAL AND SHALE GAS EXPLORATION SERVICES

SWPE is the leading company to drill 4 numbers of wells each for Shale Gas & Geothermal Exploration respectively Development of Geothermal Energy is present day focus area for our Government.

❖ AQUIFER MAPPING SERVICES

SWPE envisions to identify & map aquifers across the country, to quantify the available groundwater resources and to propose plans appropriate to the scale of demand and aquifer characteristics.

We are equipped with multiple disciplines and scientific approaches, including remote sensing, hydrogeology, geophysics, hydrochemistry, drilling, groundwater modelling, and management for providing time bound & cost effective services for completion of Aquifer mapping studies.

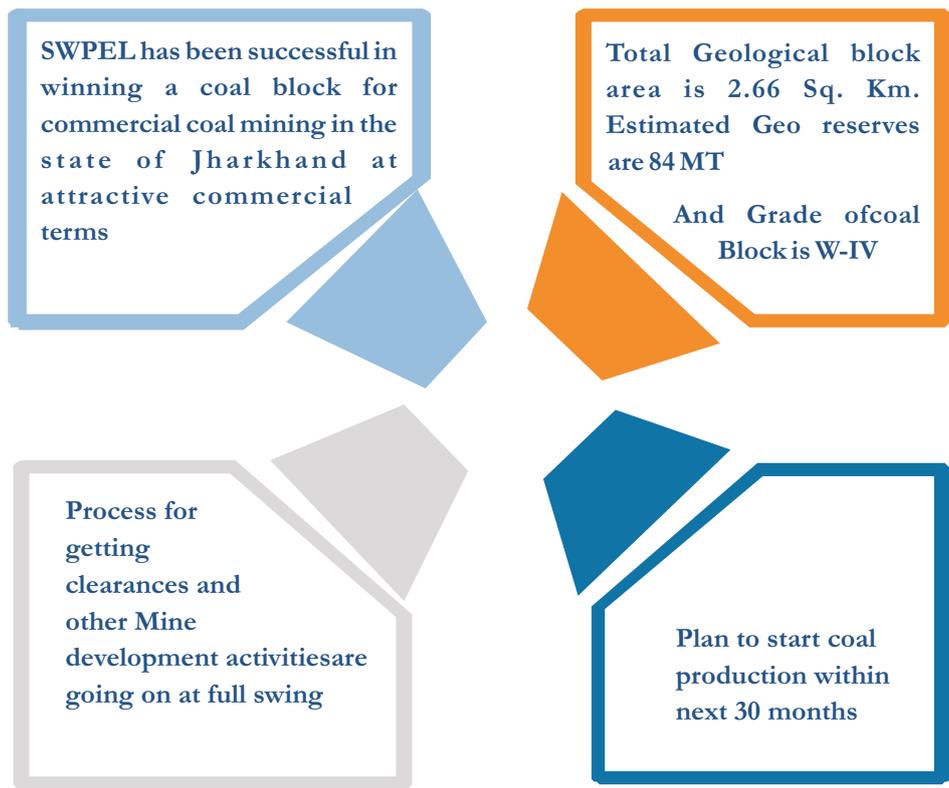

B. COAL BLOCK ACQUISITION

The Government of India has opened up the coal blocks for commercial coal mining by private players. Your company had spotted this as a good opportunity and as a natural extension to what we had been doing since last over one and half decades, we had participated in forward auction process for one such coal block namely Jogeshwar and Khas Jogeshwari located in the state of Jharkhand and were successful in winning the same.

The Union Minister of Coal and Mines, Hon'ble Shri Pralhad Joshi along with Mr. M Nagaraju, Chairman, Nominated Authority, presenting the Coal Mine Development and Production Agreement to Mr. Vikas Jain Chairman & Managing Director and Mr. Piyush Jain, Joint Managing Director of South West Pinnacle Exploration Limited.

The related details of the coal block are depicted below:

GOVERNMENT'S IMPETUS ON COAL PRODUCTION

- ❖ **The Government of India has now allowed commercial coal mining by private players to cater to the ever-increasing coal demand of the country**
- ❖ Private players now are free to sell coal in the open market after winning the coal block by going through the auction process
- ❖ The Government is putting more & more coal blocks for auction regularly for faster development of mines by private players to accelerate coal production
- ❖ **The Government of India has targeted to accelerate the pace of coal production so as to reach 1 billion ton level by 2024**
- ❖ Ministry of Coal has reengineered and simplified the Mining plan preparation and approval process and is facilitating the private players by providing single window clearance besides other industry-friendly measures to attract investment in this sector.

COAL AS AN ENERGY SOURCE

India has estimated geological coal reserves of **344 Billion Tons**

Total coal production in India at present is around **729 Million Tons per Annum**

Coal continues to be the biggest energy source with more than 70% of power generation is from coal-based plants at present

Coal is a preferred source of energy due to its' abundant availability and affordability

By 2029-30 the total installed capacity of power generation is estimated to be more than double

Besides, power generation, Coal supports many non-power industries as well viz. Cement, Fertilizer, Sponge Iron, Aluminum and host of other industries in organized and unorganised sector

Present Market Scenario of Coal

01

There is a worldwide gap in demand and supply of coal at present, affecting the power generation by thermal plants

02

Even China is facing severe power problems due to a shortage of coal making coal prices are skyrocket

03

The government of India is also putting all-out efforts to enhance the coal supplies and is carrying out various policy changes for the same

04

The government of India has now targeted to enhance the coal production by 25% to 30% in three years

05

To accelerate the coal production, the Ministry of coal has also set up a committee to review/benchmark the timelines in the execution of coal Mining projects

SIGNIFICANCE OF COAL IN INDIAN CONTEXT

- ❖ India cannot do away with coal at least for the next 3 to 4 decades, as India is endowed with large reserves of coal, which can last for over 200 years at the current rate of production.
- ❖ **135 coal fired power plants in the country meet more than half of its' energy needs.**
- ❖ Hydro power potential is about 1.5 lakh MW of which only 30 per cent has been exploited so far due to environmental issues, hence, hydro power may not contribute in a major way to future capacity addition.
- ❖ **Solar and wind will be the main contributors to renewable energy. It is a myth that renewable can meet all the ever increasing energy needs of our country.**
- ❖ Increase in nuclear power is uncertain, since it depends upon environmental and safety issues and people support.
- ❖ **Thus, coal is inevitable in the energy mix of the country in the foreseeable future.**
- ❖ Till new sources of energy are developed, India has no option but to depend on coal.
- ❖ **Phasing out of coal fired power plants cannot be done quickly, as much of India's electricity is generated using coal.**

C. OPERATIONS IN OMAN

South West Pinnacle Exploration Limited has recently signed an agreement through its' Joint Venture company named Alara Resources LLC, Oman for a copper mining of approx. 63 million tons in Oman. The aggregate value of contract is around **Rs. 125 Million USD**. The contract is to be executed over a period of next 11 years out of which the average total material movement for the first five years would see more material movement which would gradually taper down in next five years. The mining operations in Oman have been started recently and the revenue generation will accordingly start flowing soon.

The mining operations shall broadly include: -

- Plan the mine and its' development and construction to the reasonable design standards;
- Clear land, remove and store top soil for reuse and prepare banks;
- Mine and extract ore in accordance with the production schedule;
- Implement and comply with the obligations with the Environmental management system (EMS);
- Construct and maintain all excess ways and haul ways.

NEW AVENUES/ OPPORTUNITIES FOR THE COMPANY:

Your Company has various new avenues/ opportunities of drilling & exploration in various sectors as summarized below: -

1. Drilling and Exploration of Coal

- Significant scope for drilling and exploration as India has a large number of unexplored new mines of coal, iron or and bauxite and considerable opportunities exists for future discoveries of sub-surface deposits.
- With the availability of such a large coal reserve in India and Governments' thrust to enhance its' production, there is a vast scope of drilling & exploration in the coal sector.

2. Drilling and Exploration of Non-coal Minerals

- Over 500 non-coal mineral blocks, partially or minimally explored under current leases, are now up for grabs now through competitive bidding

- Reallocation of several non-producing blocks of the state-run companies, is a move that is giving a lot of enthuse to the private players as many of these blocks have abundant proven resources
- This way, the employment-intensive, but highly under-invested sector, is getting fillip to do away with end-use restrictions, and those with captive leases are allowed to sell the minerals in the open market as per the new provisions.

3. Oil & Gas Exploration

- The Government has adopted several policies to fulfill the increasing oil demand. It has allowed 100% FDI in many segments of the sector, including natural gas, petroleum products, and refineries. Today, it attracts both domestic and foreign investment as attested by the presence of Reliance Industries Ltd (RIL) and Cairn India
- To reduce our country's dependence on imports, the OLAP pronounced by the Government is reaping results. The Government has recently launched the OLAP Bid for International Competitive Bidding. A total of 21 Blocks are on the offer
- Such a scenario of oil and gas in India throws open lots of opportunities for exploration in the sector.

4. Unconventional Sources of Energy

- India has many unconventional sources of energy and most of them are highly unexplored giving us many opportunities in this area.
- These unconventional sources of energy mainly include
 - a) Geothermal Power
 - b) Shale Gas
 - c) Coal bed Methane (CBM)

5. Infrastructure Projects

Infrastructure sector is a key driver for the Indian economy. With the Government's impetus to create infrastructure, the demand for steel and cement is bound to increase, which will help in creating opportunities for exploration and mining.

6. Coal Block for Commercial Mining

Being natural extension to what we had been doing, participated and won such coal block namely Jogeshwar and Khas Jogeshwari located in the state of Jharkhand through forward auction for the said Coal block

The process of mine development is underway. We strongly believe that this has great potential and throws open immense opportunity for growth of the Company

7. Aquifer Mapping & Hydro Geological Services

- The importance of groundwater for national development has deemed it necessary to be more specific, and hence “groundwater management” has become “aquifer management”. CGWB has taken up National Project on Aquifer Management to formulate a sustainable aquifer management plan.
- CGWB has accordingly, launched the aquifer mapping projects on PAN India basis. Our company was also the beneficiary of such projects. We expect to get some more projects in the times ahead. A recent initiative of our Government 'Nal se Jal' in all rural India also throwing open some new opportunities Other Opportunities in Oman.

8. Mining and Exploration Activities in Oman

- Oman is the second largest country after Saudi Arabia in the Gulf Cooperation Council region with huge resources of copper, Gold, Silver, Chromite, Lead, Nickel Manganese, and Zinc. These reserves are highly undeveloped due to preference for oil sector growth.
- In 2014 Omani Government has decided to diversify and move away from dependence on oil reserves and has created public authority under the Ministry of Commerce and Industry named Mining Development Oman (MDO) to regulate and expand the mining activities and to strengthen the private sector involvement and investment in the sector. The move is also to generate employment opportunities for Omani nationals.

OUTLOOK

❖ Exploration and Allied Services

- As on August 2022, the current order book position in this vertical stands at Rs. 214 Crores
- We have already participated / participating in tenders worth Rs. 500 Crores
- We expect our core exploration service business continue to grow at about 15%-20% p.a. over the near to medium term
- We expect EBITDA Margins to be in the range of 20% to 22%
- Opening up of 500 non-coal minerals block for private players by Central Government will give a boost to Drilling and Exploration business in India.
- Oil and Gas Sector is among the eight core industries in India and plays a major role when we talk about energy demand in India.
- With the impetus of explore Oil & Gas through seismic technology is a welcome step and brightens our prospects of our exploration business in the times ahead.
- Un-explored Non-conventional source of energy further enhances the potential of drilling and exploration business in future.
- Various initiatives of government to improve country's infrastructure with a view to improve "ease of living" for common man throws open many new avenues for companies like us.

❖ Coal Mining

- We won coal block namely Jogeshwar and Khas Jogeshwari located in the state of Jharkhand. The mine development activities have started. We plan to start coal production over the next 30 months
- We expect revenues to kick in from FY2025. Expect ~Rs. 700 – 800 crores of revenue between FY25-FY27
- We expect EBITDA Margins to be in the range of 40% to 42%
- Driven by the improved domestic economic outlook and significant infrastructure development, demand for coal is expected to improve in FY23. Key end-use segments are expected to register strong growth and given the fact that domestic coal production rose at a high of 8.5 per cent FY22 over FY21, Care Edge Research expects it to cross 800 MT in FY23.
- In the coming months, it is crucial that domestic coal producers work in synergy with the assistance of the Ministry of Coal, Power and Railways to meet the hike in coal demand

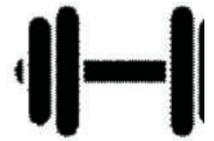

❖ Oman Operations

- The mining operations at Oman JV site has started in February 2022. The proportionate revenue share shall start flowing from FY23. We expect net margin in the range of 5% - 6% with assured yearly profit of Rs. 2-3 crores
- As the Oman Government looks to diversify and move away from dependence on oil revenue and to create jobs for Omani nationals, growth is anticipated in the mining sector following the discovery of significant reserves of minerals including gold and copper.

Standalone Financial Statements

Independent Auditors' Report

To
The Members
South West Pinnacle Exploration Limited

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the standalone financial statements of South West Pinnacle Exploration Limited (“the Company”), which comprise the Standalone Balance Sheet as at 31 March 2022, the Standalone Statement of Profit and Loss (including Other Comprehensive Income), the Standalone Statement of Changes in Equity and the Standalone Statement of Cash Flows for the year then ended, and notes to the standalone financial statements, including a summary of the significant accounting policies and other explanatory information (hereinafter referred to as “the standalone financial statements”).

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 (“the Act”) in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, (“Ind AS”) and other accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2022, its profit including other comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Key Audit Matters

Key audit matters (“KAM”) are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined that there are no key audit matters to be communicated in our report.

Information Other than the Standalone Financial Statements and Auditor's report thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Company's annual report, but does not include the standalone financial statements and our auditors' report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibility of Management and Those Charged with Governance for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance (including other comprehensive income), changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, the Company's management is responsible for assessing the ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the standalone financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the standalone financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143(3) of the Act, we report that:
 - a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;
 - b. In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
 - c. The standalone Balance Sheet, the standalone Statement of Profit and Loss (including other comprehensive income), the Statement of Changes in Equity and the Statement of Cash Flows dealt with by this Report are in agreement with the books of account;
 - d. In our opinion, the aforesaid standalone financial statements comply with the Ind AS specified under Section 133 of the Act, read with the Companies (Indian Accounting Standards) Rules, 2015, as amended;
 - e. On the basis of the written representations received from the directors as on 31 March 2022 taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2022 from being appointed as a director in terms of Section 164(2) of the Act;
 - f. With respect to the adequacy of the internal financial controls over financial reporting of the Company with reference to standalone financial statements and the operating effectiveness of such controls, refer to our separate Report in "Annexure B". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting;
 - g. With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197 of the act, as amended. In our opinion, the managerial remuneration for the year ended March 31, 2022 has been paid / provided by the Company to its directors in accordance with the provisions of section 197 read with Schedule V to the Act;
 - h. With respect to the other matters to be included in the Auditors' Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

Annexure "A" to the Independent Auditor's Report

(Referred to in paragraph 1 under 'Report on Other Legal and Regulatory Requirements' section of our report to the members of South West Pinnacle Exploration Limited of even date)

- i. In respect of the Company's Property, Plant and Equipment and Intangible Assets: -
- a. (A) The Company has maintained proper records showing full particulars, including quantitative details and situation of property, Plant and Equipment and relevant details of right-of-use assets.
(B) The company has maintained proper records showing full particulars of intangible assets.
 - b. The Company has a program of physical verification of Property, Plant and Equipment and right-to-use assets to cover all the assets once every three years which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. Pursuant to the program, certain Property, Plant and Equipment were physically verified by the management during the year. According to the information and explanations given to us, no material discrepancies were noticed on such verification.
 - c. Based on our examination, title deeds of all immovable properties (other than properties where the company is the lessee and the lease agreements are duly executed in favor of the lessee), disclosed in the financial statements included under Property, Plant and Equipment are held in the name of the Company as at the balance sheet date.
 - d. The Company has not revalued any of its Property, Plant and Equipment (including right-of-use assets) and intangible assets during the year.
 - e. No proceedings have been initiated during the year or are pending against the Company as at March 31, 2022 for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (as amended in 2016) and rules made thereunder.
- ii. (A) The inventory has been physically verified by the management during the year. In our opinion, the frequency of such verification is reasonable and procedures and coverage as followed by management were appropriate. No discrepancies were noticed on verification between the physical stocks and the book records that were 10% or more in the aggregate for each class of inventory.
(B) During the year, the Company has been sanctioned working capital limits in excess of Rs. 5 Crores, in aggregate, from banks on the basis of security of current assets. The company has filed quarterly returns or statements with such banks, which are generally in agreement with the unaudited books of account.
- iii. According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not made any investments, provided guarantee or security or granted any advances in the nature of loans, secured or unsecured, to companies, firms, limited liability partnerships or any other parties during the year. Annexure B to the Independent Auditors' Report

(Referred to in paragraph 2(f) under 'Report on Other Legal and Regulatory Requirements' section of our report to the members of South West Pinnacle Exploration Limited of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of South West Pinnacle Exploration Limited as of 31 March 2022 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Management of the Company is responsible for establishing and maintaining internal financial controls based on the internal financial controls over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India ("the Guidance Note"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013 (hereinafter referred to as "the Act").

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to the standalone financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting with reference to standalone financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls over financial reporting with reference to standalone financial statements and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of such internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to standalone financial statements.

Meaning of Internal Financial Controls over Financial Reporting with Reference to Standalone Financial Statements

A company's internal financial controls over financial reporting with reference to standalone financial statements are a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of standalone financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls over financial reporting with reference to standalone financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of standalone financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the standalone financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting with Reference to standalone Financial Statements

Because of the inherent limitations of internal financial controls over financial reporting with reference to standalone financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting with reference to standalone financial statements to future periods are subject to the risk that the internal financial controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2022, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

NOTE-1: SIGNIFICANT ACCOUNTING POLICIES

A. GENERAL INFORMATION

South West Pinnacle Exploration Limited (“the Company”), which was originally incorporated on Twenty seventh day of November Two thousand six under the Companies Act, 1956 as South West Pinnacle Exploration Private Limited, have been converted into Public Limited Company under Section 18 of the Companies Act, 2013 on 17.11.2017, hence the name of the company is changed to South West Pinnacle Exploration Limited. Company got listed with National Stock Exchange-Emerge (SME Growth Platform) vide NSE Approval Letter No. NSE/LIST/34544 dated January 23, 2018.

The Company is an ISO 9001:2015 certified, providing end to end drilling, exploration and allied services to coal, ferrous, non-ferrous, atomic and base metal mining industries and water & unconventional energy industries. Company also provides consultancy for geological field services and allied services and has an in-house team of geoscientists for providing integrated exploration services including geophysical logging, surface geophysical & topographic surveys. Apart, the company has forayed into new domain of 2D/3D Seismic Data Acquisition and Processing, which has great potential due to growing needs of energy resources in our country and Government of India is supporting this cause in a big way.

The Company has added new domains of geo-thermal, unconditional oil & gas and underground core drilling for copper & gold exploration. In addition to the above, the company has recently been allocated a coal block in the state of Jharkhand. The coal block is having a total estimated geological reserves of 84 million tonnes & the total block area is 266 hectares. The process of clearances & mine development is presently underway.

B. SIGNIFICANT ACCOUNTING POLICIES

a) Basis of preparation

These financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and presentation requirements of Division II of Schedule III to the Companies Act, 2013, (Ind AS compliant Schedule III). These standalone financial statements are presented in INR Lakhs and all values are rounded to the nearest lakhs, except when otherwise indicated.

b) Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current/non-current classification. An asset is treated as current when it is:

- (i) Expected to be realized or intended to be sold or consumed in normal operating cycle
- (ii) Held primarily for purpose of trading
- (iii) Expected to be realized within twelve months after the reporting period, or
- (iv) Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- (i) It is expected to be settled in normal operating cycle
- (ii) It is held primarily for purpose of trading
- (iii) It is due to be settled within twelve months after the reporting period, or
- (iv) There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

Deferred tax assets and deferred tax liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realization in cash and cash equivalents. The Company has identified twelve months as its operating cycle.

c) Use of estimates and judgements

The preparation of standalone financial statements in conformity with the recognition and measurement principles of Ind AS requires the management to make estimates and assumptions that affect the balances of assets and liabilities, disclosures of contingent liabilities as at the date of the standalone financial statements and the reported amounts of income and expenses for the periods presented. The Company has a policy to review these estimates and underlying assumptions on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and future periods are affected.

d) Revenue recognition

Revenue in the Statement of Profit and Loss of the company arising in the course of activities which includes rendering of services, sale of Goods and use by others of resources of the enterprise yielding interest and rentals, have been recognized as per Ind-AS 115 on “Revenue from contract with customers.

(i) Rendering of Services

Service income is recognized as per the terms of contracts with the customers when the related services are performed or the agreed milestones are achieved and are net of GST, wherever applicable.

Revenue is recognized with reference to the performance of each service in a particular month as per terms of contract with the clients upon fulfillment of performance obligations. Such revenues are under fixed price contracts, where there is no uncertainty towards measurement or collectability of consideration.

Uncompleted services as on the year/ quarter end are classified as Unbilled Revenue. Such revenue is one which has been earned in the current accounting period by fulfilling performance obligations but in respect of which no enforceable claim has become due to the company during the said period.

Revenues are shown net of returns, GST, discounts and allowances as applicable.

(ii) Goods

Revenue from sale of products is recognized when the control on the goods have been transferred to the customer. The performance obligation in case of sale of product is satisfied at a point in time i.e., when the material is shipped to the customer or on delivery to the customer, as may be specified in the contract.

Revenue from the sale of goods is measured at the fair value of the consideration received or receivable, net of returns and allowances, trade discounts and volume rebates/claims etc. Sales exclude Value added tax/s / Goods & Service Tax etc.

(iii) Other income

Other income comprises interest income on deposits, dividend income and gains / (losses) on disposal of investments. Interest income is recognized using the effective interest method. Dividend income is recognized when the right to receive payment is established.

e) Employee Benefits Expense

Short Term Employee Benefits obligation

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits. The undiscounted amount of short term employee benefits expected to be paid in exchange for the services rendered by employees are recognized as an expense during the period when the employees render the services. These benefits include compensated absences and performance incentives.

Other long-term Employee Benefit obligations

The liabilities for earned leave which are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are measured on the basis of independent actuarial valuation certificate as the present value of the expected future payments to be made in respect of service provided by the employees up to the end of the reporting period.

Defined Contribution Plans

A defined contribution plan is a post-employment benefit plan under which the Company pays specified contributions to a separate entity. The Company makes specified monthly contributions towards Provident Fund, and Pension Scheme. The Company's contribution is recognized as an expense in the Statement of Profit and Loss during the period in which the employee renders the related service.

Defined Benefit Plans

The Company pays gratuity to the eligible employees in accordance with the payment of Gratuity act, 1972. The liability recognized in the balance sheet in respect of defined benefit gratuity plan is the present value of the defined benefit obligation at the end of the reporting period. The defined benefit obligations are calculated at the end of the reporting period by actuaries using the projected unit credit method. Re-measurement of defined benefit plans in respect of post-employment are charged to the Other Comprehensive Income.

f) Property, Plant and Equipment**(i) Measurement**

Items of Property, plant and equipment, are measured at cost (which includes capitalized borrowing costs, if any) less accumulated depreciation and accumulated impairment losses, if any.

Cost of an item of property, plant and equipment includes its purchase price, duties, taxes, after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use and estimated costs of dismantling and removing the item and restoring the site on which it is located.

The cost of a self-constructed item of property, plant and equipment comprises the cost of materials, direct labour and any other costs directly attributable to bringing the item to its intended working condition and estimated costs of dismantling, removing and restoring the site on which it is located, wherever applicable.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipment is recognized in profit or loss.

(ii) Subsequent expenditure

Subsequent expenditure is capitalized only if it is probable that it will increase the future economic benefits from the existing asset beyond its previously assessed standard of performance/life. All other expenses on existing Property, plants and equipment, including day to day repair and maintenance and cost of replacing parts are charged to the Statement of Profit and Loss for the period during which such expenses are incurred.

(iii) Derecognition

An item of Property, plant and equipment is derecognized upon its disposal or when no future economic benefit is expected to arise from its continued use. Any gain or loss arising on the same (calculated as the difference between the net disposal proceeds and its carrying amount) is recognized in the Statement of Profit and Loss in the period the item is derecognized.

(iv) Depreciation

Depreciation is calculated on cost of items of Property, plant and equipment less their estimated residual value using Written down value method over the useful lives of assets and is recognized in the Statement of profit and loss. Assets acquired under finance lease are depreciated over the shorter of the lease term and their useful lives unless it is reasonably certain that the Company will obtain ownership by the end of the lease term. Depreciation for assets purchased / sold during the period is proportionately charged. Depreciation is provided based on useful life of the assets as prescribed in Schedule II to the Companies Act, 2013

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year-end and adjusted prospectively, if appropriate.

(v) Reclassification to investment property

When the use of a property changes from owner-occupied to investment property, the property is reclassified as investment property at its carrying amount on the date of classification.

(vi) Capital work-in-progress includes cost of property, plant and equipment under installation / under development as at the balance sheet date.

g) Investment Properties

Investment property is property held either to earn rental income or for capital appreciation or for both, but not for sale in the ordinary course of business, use in the production or supply of goods or services or for administrative purposes. Upon initial recognition, an investment property is measured at cost. Subsequent to initial recognition, investment property is measured at cost less accumulated depreciation and accumulated impairment losses, if any.

Any gain or loss on disposal of an investment property is recognized in Statement of Profit and loss.

Investment properties are depreciated using Written down value method over their estimated useful life.

Investment properties are derecognized either when they have been disposed of or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognized in profit or loss in the period of derecognition.

The fair values of investment property is disclosed in the notes accompanying these financial statements. Fair values is determined by an independent valuer who holds a recognized and relevant professional qualification and has recent experience in the location and category of the Investment property being valued.

h) Impairment of Non-financial Assets

The Company assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account, if available.

If no such transactions can be identified, an appropriate valuation model is used. Impairment losses including impairment on inventories are recognized in the Statement of profit and loss. After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life.

i) Investment in Subsidiaries and Joint venture

Investment in Subsidiaries and Joint ventures are shown at cost in accordance with the option available in Ind AS 27, 'Separate Financial Statements'. Where the carrying amount of an investment is greater than its estimated recoverable amount, it is written down immediately to its recoverable amount and the difference is transferred to the Statement of Profit and Loss. Upon disposal of investment, the difference between the net disposal proceeds and the carrying amount is credited or charged to the Statement of Profit and Loss.

j) Leasehold Improvements

Leasehold Improvements are carried at historical cost. Such cost includes purchase price, borrowing cost and any cost directly attributable to bringing the assets to its working condition for its intended use.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the entity and the cost can be measured reliably.

Depreciation on leasehold improvements are provided using straight line method based on management estimate of useful life of the assets. Gains or losses arising from de-recognition of leasehold improvements are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the Statement of profit and loss when the asset is derecognized.

k) Cash and Cash Equivalents

Cash and cash equivalent in the balance sheet and in the Statement of Cash flows comprise of cash in hand and balance with banks in current accounts.

l) Borrowing Costs

Borrowing cost includes interest and other costs incurred in connection with the borrowing of funds and charged to Statement of Profit & Loss on the basis of effective interest rate (EIR) method. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing cost.

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective asset. All other borrowing costs are recognized as expense in the period in which they occur.

m) Exceptional Items

Exceptional items are transactions which due to their size or incidence are separately disclosed to enable a full understanding of the Company's financial performance. Items which may be considered exceptional are significant restructuring charges, gains or losses on disposal of investments in subsidiaries, associates and joint venture and impairment losses/ write down in value of investment in subsidiaries, associates and joint venture and significant disposal of fixed assets etc.

n) Inventories

Company's inventory are the assets in the form of materials or supplies to be consumed in the rendering of services and accounting policies adopted in measuring inventories, including the cost formula used are below as per IND-AS-2 on "Inventories":-

(i) Measurement of inventories

Inventories are valued at lower of cost or net realizable value.

(ii) Cost of inventories

The cost of inventories comprises all costs of purchase and other costs incurred in bringing the inventories to their present location and condition.

The costs of purchase consist of the purchase price including duties and taxes (other than those subsequently recoverable by the company from the taxing authorities), freight inwards and other expenditure directly attributable to the acquisition. Trade discounts, rebates, duty drawbacks and other similar items are deducted in determining the costs of purchase.

Other costs are included in the cost of inventories only to the extent that they are incurred in bringing the inventories to their present location and condition.

o) Provisions and Contingent Liabilities

Provision is recognized when the Company has a present obligation as a result of past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are not discounted to its present value and are determined based on best estimate of the expenditure required to settle the obligation at the Balance Sheet date. These are reviewed at each Balance Sheet date and adjusted to reflect the current best estimate.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or nonoccurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made.

p) Dividend Distribution

The Company recognizes a liability to make the payment of dividend to owners of equity, when the distribution is authorized and the distribution of the same is no longer at the discretion of the Company. As per the corporate laws in India, a distribution is authorized when it is approved by the shareholders. A corresponding amount is recognized directly in equity.

q) Tax Expense

Income tax expense represents the sum of the tax currently payable and deferred tax. Current tax and deferred tax is recognized in the Profit and Loss except when it relates to items that are recognized in Other Comprehensive Income.

Current tax

Current tax is the amount of expected tax payable based on the taxable profit for the year as determined in accordance with the applicable tax rates and the provisions of the Income Tax Act, 1961.

Deferred tax

Deferred tax is recognized using the Balance Sheet approach. It represents temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are recognized for all taxable temporary differences. Deferred tax assets are recognized for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognized if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit. In addition, deferred tax liabilities are not recognized if the temporary difference arises from the initial recognition of goodwill. The carrying amount of deferred tax assets is reviewed at the end of each reporting year and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Minimum Alternate Tax (MAT) paid in accordance with the tax laws, which gives future economic benefits in the form of adjustment to future income tax liability, is considered as a Deferred tax asset if there is convincing evidence that the Company will pay normal income tax in future years. Accordingly, MAT is recognized as an asset in the Balance Sheet when it is probable that future economic benefit associated with it will flow to the Company.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year in which the liability is settled or the asset realized, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting year.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

r) Government Grants

Government Grants are recognized at their fair value when there is reasonable assurance that the grant will be received and all the attached conditions will be complied with.

When the grant relates to an expense item, it is recognized as income on a systematic basis over the periods that the related costs, for which it is intended to compensate, are expensed. Government grant related to the non-monetary asset are recognized at nominal value and presented by deducting the same from carrying amount of related asset and the grant is then recognized in profit or loss over the useful life of the depreciable asset by way of a reduced depreciation charge.

s) **Foreign Exchange Transaction and translation**

Items included in the standalone financial statements are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The standalone financial statements are presented in Indian Rupee (INR), which is Company's functional and presentation currency. Foreign currency transactions are translated into the functional currency using the exchange rate prevailing on the date of transaction. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency closing rates of exchange at the reporting date. Exchange differences arising on settlement or translation of monetary items are recognized in Statement of Profit and Loss except to the extent of exchange differences which are regarded as an adjustment to interest costs on foreign currency borrowings that are directly attributable to the acquisition or construction of qualifying assets, are capitalized as cost of assets. Non-monetary items that are measured in terms of historical cost in a foreign currency are recorded using the exchange rates prevalent on the date of the transaction. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates prevalent on the date when the fair value was measured. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item.

t) **Leases**

The Company assesses each contract at its inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for certain period of time in exchange of some consideration.

Company as a Lessee

The Company's leased asset classes primarily comprise of lease for building. The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange of some consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company has substantially reaped all of the economic benefits from use of the asset over the period of the lease and (iii) the Company has the right to direct the mode of use of the asset.

The Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. For these short-term and low value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease. The Company recognizes lease liabilities to make lease payments and Right-of-use assets representing the right to use the underlying assets as below :-

Right-of-use assets

The Company recognizes Right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognized, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the lease term.

Lease Liabilities

At the commencement date of the lease, the Company recognizes lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Company and payments of penalties for terminating the lease, if the lease term reflects the Company exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognized as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Company uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

The Company's lease liabilities are included in other current and non-current financial liabilities.

Short-term leases and leases of low-value assets

The Company applies the short-term lease recognition exemption to its short-term leases (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases that are considered to be low value. Lease payments on short-term leases and leases of low-value assets are recognized as expense on a straight-line basis over the lease term.

Company as a Lessor

Leases for which the Company is a lessor is classified as finance or operating lease. Leases in which the Company does not transfer substantially all the risks and rewards incidental to ownership of an asset are classified as operating leases. Rental income arising is accounted for on a straight-line basis over the lease terms. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognized over the lease term on the same basis as rental income. Contingent rents are recognized as revenue in the period in which they are earned.

u) Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

(i) Financial Assets

The Company classifies its financial assets in the following measurement categories:

- Those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss)
- Those measured at amortized cost

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Company's business model for managing them.

Initial recognition and measurement

In order for a financial asset to be classified and measured at amortized cost or fair value through OCI, it needs to give rise to cash flows that are 'solely payments of principal and interest (SPPI)' on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrument level. Financial assets with cash flows that are not SPPI are classified and measured at fair value through profit or loss, irrespective of the business model.

The Company's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both.

Financial assets classified and measured at amortized cost are held within a business model with the objective to hold financial assets in order to collect contractual cash flows while financial assets classified and measured at fair value through OCI are held within a business model with the objective of both holding to collect contractual cash flows and selling.

Subsequent measurement

For purposes of subsequent measurement financial assets are classified in following categories:

- Financial assets at amortized cost
- Financial assets at fair value through other comprehensive income (FVTOCI) with recycling of cumulative gains and losses (debt instruments)
- Financial assets designated at fair value through OCI with no recycling of cumulative gains and losses upon derecognition (equity instruments)
- Financial assets at fair value through profit or loss

Financial assets at amortized cost

A 'financial asset' is measured at the amortized cost if both the following conditions are met:

Business Model Test:

The objective is to hold the financial asset to collect the contractual cash flows (rather than to sell the instrument prior to its contractual maturity to realize its fair value changes) and;

Cash flow characteristics test:

The contractual terms of the financial asset give rise on specific dates to cash flows that are solely payments of principal and interest on principal amount outstanding.

This category is most relevant to the Company. After initial measurement, such financial assets are subsequently measured at amortized cost using the effective interest rate (EIR) method. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of EIR. EIR is the rate that exactly discounts the estimated future cash receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset. When calculating the effective interest rate, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument but does not consider the expected credit losses. The EIR amortization is included in other income in profit or loss. The losses arising from impairment are recognized in the profit or loss. This category general applies to trade and other receivables.

Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss are carried in the balance sheet at fair value with net changes in fair value recognized in the statement of profit and loss.

Financial assets designated at fair value through Other Comprehensive Income (OCI)

Upon initial recognition, the Company can elect to classify irrevocably its equity investments as equity instruments designated at fair value through OCI when they meet the definition of equity under Ind AS 32 Financial Instruments: Presentation and are not held for trading. The classification is determined on an instrument-by-instrument basis. Equity instruments which are held for trading and contingent consideration recognized by an acquirer in a business combination to which Ind AS103 applies are classified as at FVTPL.

Gains and losses on these financial assets are never recycled to profit or loss. Dividends are recognized as other income in the statement of profit and loss when the right of payment has been established, except when the Company benefits from such proceeds as a recovery of part of the cost of the financial asset, in which case, such gains are recorded in OCI. Equity instruments designated at fair value through OCI are not subject to impairment assessment.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a Company of similar financial assets) is primarily derecognized (i.e. removed from the Company's statement of financial position) when:

- a) The rights to receive cash flows from the asset have expired, or
- b) The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a "pass through" arrangement and either;
 - the Company has transferred substantially all the risks and rewards of the asset, or
 - the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognize the transferred asset to the extent of the Company's continuing involvement. In that case, the Company also recognizes an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the right and obligations that the Company has retained.

Impairment of financial assets

In accordance with IND AS 109, the Company applies expected credit losses (ECL) model for measurement and recognition of impairment loss on the following financial asset and credit risk exposure

- Financial assets measured at amortized cost;
- Financial assets measured at fair value through other comprehensive income (FVTOCI);

ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Company expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

ECLs are recognized in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12-months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

The Company follows “simplified approach” for recognition of impairment loss allowance on:

- Trade receivables or contract revenue receivables without significant financial element;
- All lease receivables resulting from the transactions within the scope of Ind AS 116 –Leases

Under the simplified approach, the Company does not track changes in credit risk. Rather, it recognizes impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition. The Company uses a provision matrix to determine impairment loss allowance on the portfolio of trade receivables. The provision matrix is based on its historically observed default rates over the expected life of trade receivable and is adjusted for forward looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward looking estimates are analyzed.

ECL impairment loss allowance (or reversal) recognized during the period is recognized as income/ expense in the statement of profit and loss. This amount is reflected under the head 'other expenses' in the statement of profit and loss.

(ii) Financial liabilities:

Initial recognition and measurement

Financial liabilities are classified at initial recognition as financial liabilities at fair value through profit or loss, loans and borrowings, and payables, net of directly attributable transaction costs. All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs. The Company financial liabilities include loans and borrowings, trade payables, trade deposits, retention money, liabilities towards services, sales incentive and other payables.

Subsequent measurement

For purposes of subsequent measurement, financial liabilities are classified in two categories:

- Financial liabilities at fair value through profit or loss
- Financial liabilities at amortized cost (loans and borrowings)

Financial liabilities at Fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments.

Gains or losses on liabilities held for trading are recognized in the statement of profit and loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in IND AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/ losses attributable to changes in own credit risk are recognized in OCI. These gains/ loss are not subsequently transferred to profit and loss. All other changes in fair value of such liability are recognized in the statement of profit or loss. The Company has not designated any financial liability as at fair value through profit and loss.

Financial liabilities at Amortized cost

After initial recognition, interest-bearing borrowings are subsequently measured at amortized cost using the Effective interest rate method. Gains and losses are recognized in profit or loss when the liabilities are derecognized as well as through the Effective interest rate amortization process. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the Effective interest rate. The Effective interest rate amortization is included as finance costs in the statement of profit and loss.

Trade Payables

These amounts represents liabilities for goods and services provided to the Company prior to the end of financial year which are unpaid. The amounts are unsecured and are usually paid within 30 to 120 days of recognition. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognized initially at fair value and subsequently measured at amortized cost using Effective interest rate method.

Derecognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the statement of profit and loss.

Offsetting of financial instruments

Financials assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, to realize the assets and settle the liabilities simultaneously.

v) Earning per Share

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period is adjusted for events such as bonus issue, bonus element in a rights issue, share split, and reverse share split (consolidation of shares) that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effect of all potentially dilutive equity shares.

w) Fair value measurement

The Company measures financial instruments at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an ordinary transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- (i) In the principal market for asset or liability, or
- (ii) In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Company.

A fair value measurement of a non- financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1- Quoted(unadjusted) market prices in active markets for identical assets or liabilities

Level 2- Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Level 3- Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

x) Standards issued but not effective

The Ministry of Corporate Affairs has vide notification dated 23 March 2022 notified Companies (Indian Accounting Standards) Amendment Rules, 2022 which amends certain accounting standards, and are effective 1 April 2022. These amendments are not expected to have a material impact on the Company in the current or future reporting periods and on foreseeable future transactions.

Nature and purpose of reserves :

General Reserve : The general reserve is a free reserve which is used from time to time to transfer profits from retained earnings for appropriation purposes. As the general reserve is created by a transfer from one component of equity to another and is not an item of other comprehensive income, item included in the general reserve will not be reclassified subsequently to statement of profit and loss.

Securities Premium : Securities Premium Reserve was created consequent to issue of shares at a premium. The reserves can be utilised in accordance with section 52 of Companies Act, 2013

Retained Earning : Retained earnings represents the undistributed profits of the company.

Other Comprehensive Income : Reserve for equity instruments through other comprehensive income represents the cumulative gains and losses arising on the revaluation of equity instruments measured at fair value through other comprehensive income, net of amount reclassified to retained earnings when those assets have been disposed off.

The sensitivity analysis have been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period, while holding all other assumptions constant.

The sensitivity analysis presented above may not be representative of the actual change in the projected benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated.

Furthermore, in presenting the above sensitivity analysis, the present value of the projected benefit obligation has been calculated using the projected unit credit method at the end of the reporting period, which is the same method as applied in calculating the projected benefit obligation as recognised in the balance sheet.

There was no change in the methods and assumptions used in preparing the sensitivity analysis from prior years.

Fair value hierarchy

The Company uses the following hierarchy for determining and/or disclosing the fair value of financial instruments by valuation techniques:

The following is the basis of categorising the financial instruments measured at fair value into Level 1 to Level 3:

Level 1: This level includes financial assets that are measured by reference to quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: This level includes financial assets and liabilities, measured using inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices).

Level 3: This level includes financial assets and liabilities measured using inputs that are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part, using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data.

| Particulars | As at 31st March, 2022 | As at 31st March, 2021 |
|-----------------------|---------------------------|---------------------------|
| | Fair Value | Fair Value |
| Investment at Level 1 | 163.44 | 183.12 |

b) Financial risk management

The Company's corporate treasury functions provides services to the business, coordinates access to the financial markets, monitors and manages the financial risks relating to operations of the Company through internal risk reports which analyse exposure by degree and magnitude of risk. These risks include market risk (including currency risk, interest rate risk and other price risks, credit risk and liquidity risk).

The principal financial assets of the Company include loans, trade and other receivables, and cash and bank balances that derive directly from its operations. The principal financial liabilities of the Company, include loans and borrowings, trade and other payables and the main purpose of these financial liabilities is to finance the day to day operations of the Company.

The principal financial assets of the Company include loans, trade and other receivables, and cash and bank balances that derive directly from its operations. The principal financial liabilities of the Company, include loans and borrowings, trade and other payables and the main purpose of these financial liabilities is to finance the day to day operations of the Company.

The Company's senior management oversees the management of these risks. The senior professionals working to manage the financial risks and the appropriate financial risk governance framework for the Company are accountable to the Board of Directors and Audit Committee. This process provides assurance to Company's senior management that the Company's financial risk-taking activities are governed by appropriate policies and procedures and that financial risk are identified, measured and managed in accordance with Company policies and Company risk objective. In the event of crisis caused due to external factors such as caused by recent pandemic "COVID-19", the management assesses the recoverability of its assets, maturity of its liabilities to factor it in cash flow forecast to ensure there is enough liquidity in these situations through internal and external source of funds. These forecast and assumptions are reviewed by board of directors.

i. Credit risk

Credit risk is the risk that counter party will not meet its obligations leading to a financial loss. The Company is exposed to credit risk arising from trade receivables. All financial assets are initially considered performing and evaluated periodically for expected credit loss. A default on a financial asset is when there is a significant increase in the credit risk which is evaluated based on the business environment. The assets are written off when the Company is certain about the non-recovery.

a. Trade receivables

The Company extends credit to customers in normal course of business. The Company considers factors such as credit track record in the market and past dealings for extension of credit to customers. The Company monitors the payment track record of the customers. Outstanding customer receivables are regularly monitored.

An impairment analysis is performed at each reporting date on trade receivables by lifetime expected credit loss method based on provision matrix. The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets. The Company does not hold collateral as security. The Company evaluates the concentration of risk with respect to trade receivables as low, as its major customers are Public Sector Undertakings. All debtors are good and realizable within the current financial year.

b. Financial instruments and cash deposits

Credit risk from balances with banks and financial institutions is managed by the Company's treasury department in accordance with the Company's policy. Investments of surplus funds are made in bank deposits and other risk free securities. The limits are set to minimize the concentration of risks and therefore mitigate financial loss through counterparty's potential failure to make payments. The Company's maximum exposure to credit risk for the components of the balance sheet at 31 March 2022 is the carrying amounts. The Company's maximum exposure relating to financial instrument is noted in liquidity table below.

ii. Liquidity risk

The financial liabilities of the Company include loans and borrowings, trade and other payables. The Company's principal sources of liquidity are cash and cash equivalents and the cash flow that is generated from operations. The Company monitors its risk of shortage of funds to meet the financial liabilities using a liquidity planning tool. The Company plans to maintain sufficient cash and marketable securities to meet the obligations as and when fall due.

iii. Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: currency rate risk, interest rate risk and other price risks, such as equity price risk and commodity price risk. Financial instruments affected by market risks include loans and borrowings, deposits, investments, and foreign currency receivables and payables. The sensitivity analysis in the following sections relate to the position as at reporting date. The analysis exclude the impact of movements in market variables on: the carrying values of gratuity and other post-retirement obligations; provisions; and the non-financial assets and liabilities. The sensitivity of the relevant Profit and Loss item and equity is the effect of the assumed changes in the respective market risks. This is based on the financial assets and financial liabilities held as of March 31, 2022 and March 31, 2021.

a) Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to the Company's operating activities (when revenue or expense is denominated in foreign currency). The Company evaluates exchange rate exposure arising from foreign currency transactions and follows established risk management policies.

Foreign Currency Exposure that have not been hedged by derivative Instrument are given below.

| Liabilities/Assets | Foreign Currency | | INR Equivalent | |
|--------------------|---------------------------|---------------------------|---------------------------|---------------------------|
| | As at 31st March, 2022 | As at 31st March, 2021 | As at 31st March, 2022 | As at 31st March, 2021 |
| Liabilities | | | | |
| USD | 5.40 | 0.54 | 409.65 | 39.58 |
| OMR | - | - | - | - |
| Assets | | | | |
| USD | - | 0.02 | - | 1.80 |
| EURO | 8.64 | 0 | 727.46 | 0.22 |
| OMR | 0.01 | 0.02 | 1.90 | 3.17 |

Foreign currency sensitivity analysis

The following tables demonstrate the sensitivity to a reasonably possible change in USD and OMR exchange rates, with all other variables held constant. The impact on the Company's profit before tax is due to changes in the fair value of monetary assets and liabilities including non-designated foreign currency derivatives and embedded derivatives.

Impact on Profit / (loss) for the year for a 5% change:

| Particulars | Increase | | Decrease | |
|--------------------|---------------------------|---------------------------|---------------------------|---------------------------|
| | As at 31st March, 2022 | As at 31st March, 2021 | As at 31st March, 2022 | As at 31st March, 2021 |
| Payables | | | | |
| USD /INR | (20.48) | (1.98) | 20.48 | 1.98 |
| OMR/INR | | | | - |
| Receivables | | | | |
| USD /INR | - | 0.09 | - | (0.09) |

| OMR/INR | 0.10 | 0.16 | (0.10) | (0.16) |

b) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of change in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's debt obligations with floating interest rates. As the Company has certain debt obligations with floating interest rates, exposure to the risk of changes in market interest rates are dependent of changes in market interest rates. Management monitors the movement in interest rate and, wherever possible, reacts to material movements in such rates by restructuring its financing arrangement.

| Particulars | As at 31st March, 2022 | As at 31st March, 2021 |
|--------------------------|---------------------------|---------------------------|
| Fixed rate borrowings | 2545.72 | 2319.56 |
| Floating rate borrowings | 2331.69 | 2143.22 |

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of loans and borrowings affected. With all other variables held constant, the Company's profit before tax is affected through the impact on floating rate borrowings, as follows:

| Particulars | For the year ended 31st March, 2022 | For the year ended 31st March, 2021 |
|------------------------------|---|---|
| Increase by 100 basis points | (11.66) | (10.72) |
| Decrease by 100 basis points | 11.66 | 10.72 |

c) Capital Management

The Company manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants. The Company's primary objective when managing capital is to ensure that it maintains an efficient capital structure and healthy capital ratios and safeguard the Company's ability to continue as a going concern in order to support its business and provide maximum returns for shareholders. The Company also proposes to maintain an optimal capital structure to reduce the cost of capital.

For the purpose of the Company's capital management, capital includes issued equity share capital, security premium reserve and all other equity reserves. Net debt includes, interest bearing loans and borrowings less cash and cash equivalents.. The Company monitors capital using gearing ratio, which is net debt divided by total capital.

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the accompanying consolidated financial statements of **South West Pinnacle Exploration Limited** (hereinafter referred to as “the Holding Company”) and its subsidiaries, (Holding Company and its subsidiaries together referred to as “the Group”) which includes the Group's share of loss in its joint venture, which comprise the consolidated balance sheet as at 31 March 2022, and the consolidated statement of profit and loss (including other comprehensive income), consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as “the consolidated financial statements”).

In our opinion and to the best of our information and according to the explanations given to us, and based on the consideration of reports of the other auditors on separate financial statements of subsidiaries and joint venture referred to in the other matters section below, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 (“the Act”) in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended ('Ind AS'), and accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at 31 March 2022, of its consolidated profit and other comprehensive income, consolidated changes in equity and consolidated cash flows for the year then ended.

Basis for Opinion

We conducted our audit of the consolidated financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the *Auditor's Responsibility for the Audit of the Consolidated Financial Statements* section of our report. We are independent of the Group in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the consolidated financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matters section below is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Key Audit Matters

Key audit matters ('KAM') are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined that there are no key audit matters to be communicated in our report.

Information Other than the Consolidated Financial Statements and Auditor's Report Thereon

The Holding Company's Board of Directors are responsible for the other information. The other information comprises the information included in the Holding Company's Annual Report, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibility of Management and Those Charged with Governance for the Consolidated Financial Statements

The Holding Company's Board of Directors is responsible for the preparation and presentation of these consolidated financial statements in terms of the requirements of the Act that give a true and fair view of the consolidated state of affairs, consolidated profit/loss and other comprehensive income, consolidated statement of changes in equity and consolidated cash flows of the Group including its joint venture in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act. The respective management and Board of Directors of the entities included in the Group and of its joint venture are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and its joint venture and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the management and Board of Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group and its joint venture are responsible for assessing the ability of the Group and its joint venture to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the respective management and Board of Directors either intends to liquidate the entity or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group and of its joint venture are also responsible for overseeing the financial reporting process of Group and of its joint venture.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management and Board of Directors of the Holding Company
- Conclude on the appropriateness of management's and Board of Director's of the Holding Company use of the going concern basis of accounting in preparation of consolidated financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group and its joint venture to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and its joint venture to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group and its joint venture to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities or business activities included in the consolidated financial statements of which we are the independent auditors. For the other entities or business activities included in the consolidated financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

Materiality is the magnitude of misstatements in the consolidated financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the consolidated financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the consolidated financial statements.

Materiality is the magnitude of misstatements in the consolidated financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the consolidated financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the consolidated financial statements.

We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

We communicate with those charged with governance of Holding Company and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matters

We did not audit the financial statements of subsidiaries, whose financial information reflect total assets of INR 139.41 Lakhs as at March 31, 2022, total revenues of INR Nil Lakhs and net cash inflow amounting to INR1.05 Lakhs for the year ended on that date, as considered in the consolidated financial statements. These financial statements have been audited by other auditors whose reports have been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of the subsidiaries and the joint venture, and our report in terms of subsection (3) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiaries and joint venture is based solely on the reports of the other auditors.

The Consolidated financial statements include unaudited financial statements of one joint venture which reflects Group's share of net loss of INR 17.93 Lakhs for the year ended March 31, 2022. These unaudited financial statements and other unaudited financial information have been furnished to us by the management. Our opinion, in so far as it relates amounts and disclosures included in respect of the joint venture and our report in terms of sub-sections (3) of Section 143 of the Act in so far as it relates to the aforesaid joint venture, is based solely on such unaudited financial statement and other unaudited financial information. In our opinion and according to the information and explanations given to us by the Management, these financial statements and other financial information are not material to the Group.

Our opinion on the consolidated financial statements above and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors and the financial information certified by the Management.

Report on Other Legal and Regulatory Requirements

Annexure A to the Independent Auditors' Report

(Referred to in paragraph A under 'Report on Other Legal and Regulatory Requirements' section of our report to the members of South West Pinnacle Exploration Limited of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the consolidated financial statements of South West Pinnacle Exploration Limited as of and for the year ended March 31, 2022, we have audited the internal financial controls over financial reporting of South West Pinnacle Exploration Limited (hereinafter referred to as the "Holding Company") and its subsidiaries, which are companies incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the Holding Company, its subsidiaries, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the Holding Company, its subsidiaries, which are companies incorporated in India, internal financial controls over financial reporting with reference to these consolidated financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting with reference to these consolidated financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting with reference to these consolidated financial statements and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting with reference to these consolidated financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting with reference to these consolidated financial statements.

Meaning of Internal Financial Controls with Reference to Financial Statements

A company's internal financial controls over financial reporting with reference to consolidated financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of consolidated financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to consolidated financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;

(2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of consolidated financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the consolidated financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting with Reference to Consolidated Financial Statements

Because of the inherent limitations of internal financial controls over financial reporting with reference to these consolidated financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting with reference to these consolidated financial statements to future periods are subject to the risk that the internal financial control over financial reporting with reference to these consolidated financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us and based on the consideration of reports of other auditors, as referred to in Other Matters paragraph, the Holding Company, its subsidiaries, which are companies incorporated in India, have, maintained in all material respects, adequate internal financial controls system over financial reporting with reference to these consolidated financial statements and such internal financial controls over financial reporting with reference to these consolidated financial statements were operating effectively as at March 31, 2022, based on the internal control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Other Matters

Our report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting with reference to these consolidated financial statements of the Holding Company, in so far as it relates to separate financial statements of subsidiaries, which are company incorporated in India, is based on the corresponding reports of the auditors of such subsidiaries incorporated in India.

NOTE-1: SIGNIFICANT ACCOUNTING POLICIES

A. GENERAL INFORMATION

The consolidated financial statements comprise financial statements of South West Pinnacle Exploration Limited (“the Parent company”) and its subsidiaries (collectively, “the Group”) for the year ended March 31, 2022. South West Pinnacle Exploration Limited (‘the parent company’) is a public limited company domiciled in India. The parent company is listed on National Stock Exchange of India Limited.

B. SIGNIFICANT ACCOUNTING POLICIES

a) Basis of preparation

These consolidated financial statements of the Group have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and presentation requirements of Division II of Schedule III to the Companies Act, 2013, (Ind AS compliant Schedule III). These Consolidated financial statements are presented in INR Lakhs and all values are rounded to the nearest lakhs, except when otherwise indicated.

b) Basis of Consolidation

The consolidated financial statements comprise the financial statements of the South West Pinnacle Exploration Limited (‘the Parent Company’) and its subsidiaries (collectively “the Group) as at March 31, 2022. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if and only if the Group has:

- (i) Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee)
- (ii) Exposure, or rights, to variable returns from its involvement with the investee, and
- (iii) The ability to use its power over the investee to affect its returns.

Generally, there is a presumption that a majority of voting rights result in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- (i) The contractual arrangement with the other vote holders of the investee
- (ii) Rights arising from other contractual arrangements
- (iii) The Group's voting rights and potential voting rights
- (iv) The size of the Group's holding of voting rights relative to the size and dispersion of the holdings of the other voting rights holders.

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated financial statements from the date the Group gains control until the date the Group ceases to control the subsidiary.

Consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances. If a member of the Group uses accounting policies other than those adopted in the consolidated financial statements for like transactions and events in similar circumstances, appropriate adjustments are made to that member's financial statements in preparing the consolidated financial statements to ensure conformity with the Group's accounting policies.

The financial statements of all entities used for the purpose of consolidation are drawn up to same reporting date as that of the parent company, i.e., year ended on March 31. When the end of the reporting period of the parent is different from that of a subsidiary, the subsidiary prepares, for consolidation purposes, additional financial information as of the same date as the financial statements of the parent to enable the parent to consolidate the financial information of the subsidiary, unless it is impracticable to do so or there are no significant transactions or events between the date of those financial statements and date of financial statements of the parent company.

c) Consolidation Procedure

(1) Subsidiaries

- (i) Combine like items of assets, liabilities, equity, income, expenses and cash flows of the parent with those of its subsidiaries. For this purpose, income and expenses of the subsidiary are based on the amounts of the assets and liabilities recognized in the consolidated financial statements at the acquisition date.
- (ii) Offset (eliminate) the carrying amount of the parent's investment in each subsidiary and the parent's portion of equity of each subsidiary.
- (iii) Eliminate in full intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between entities of the group (profits or losses resulting from intragroup transactions that are recognized in assets, such as inventory and fixed assets, are eliminated in full). Intragroup losses may indicate an impairment that requires recognition in the consolidated financial statements. Ind AS – 12 “Income Taxes” applies to temporary differences that arise from the elimination of profits and losses resulting from intragroup transactions.

Profit or loss and each component of Other comprehensive income (OCI) are attributed to the equity holders of the parent of the Group and to the Non-controlling interests, even if this results in the non-controlling interests having a deficit balance. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies in line with the Group's accounting policies. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction. If the Group loses control over a subsidiary, it:

- Derecognizes the assets (including goodwill) and liabilities of the subsidiary
- Derecognizes the carrying amount of any non-controlling interests
- Derecognizes the cumulative translation differences recorded in equity
- Recognizes the fair value of the consideration received
- Recognizes the fair value of any investment retained
- Recognizes any surplus or deficit in profit or loss
- Reclassifies the parent's share of components previously recognized in OCI to profit or loss or retained earnings, as appropriate, as would be required if the Group had directly disposed of the related assets or liabilities

(2) Investment in Joint ventures

A joint venture is a type of joint arrangement whereby the parties that have joint control of the arrangement, have rights to the net assets of the joint venture. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control. The considerations made in determining whether significant influence or joint control exist are similar to those necessary to determine control over the subsidiaries.

The Group's investments in its joint venture are accounted for using the Equity method. Under the equity method, the investment in a joint venture is initially recognized at cost. The carrying amount of the investment is adjusted to recognize changes in the Group's share of net assets of the associate or joint venture since the acquisition date. Goodwill relating to the associate or joint venture is included in the carrying amount of the investment and is not tested for impairment individually.

The Statement of Profit and loss reflects the Group's share of the results of operations of the associate or joint venture. Any change in OCI of those investees is presented as part of the Group's OCI. In addition, when a change has been recognized directly in the equity of the associate or joint venture, the Group recognizes its share of any changes, when applicable, in the Statement of Changes in equity. Unrealized gains and losses resulting from transactions between the Group and the joint venture are eliminated to the extent of the interest in the associate or joint venture.

If Group's share of losses of a joint venture equals or exceeds its interest in the associate or joint venture (which includes any long term interest that, in substance, form part of the Group's net investment in the associate or joint venture), the Group discontinues recognizing its share of further losses. Additional losses are recognized only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the joint venture. If the joint venture subsequently reports profits, the Group resumes recognizing its share of those profits only after its share of the profits equals the share of losses not recognized.

The aggregate of the Group's share of profit or loss of a joint venture is shown on the face of the Statement of profit and loss.

The financial statements of the joint venture are prepared for the same reporting period as the Group. When necessary, adjustments are made to bring the accounting policies in line with those of the Group.

After application of the Equity method, the Group determines whether it is necessary to recognize an impairment loss on its investment in its joint venture. At each reporting date, the Group determines whether there is objective evidence that the investment in the joint venture is impaired. If there is such evidence, the Group calculates the amount of impairment as the difference between the recoverable amount of the joint venture and its carrying value, and then recognizes the loss as 'Share of profit/(loss) of a joint venture' in the Statement of profit and loss.

Upon loss of joint control over the joint venture, the Group measures and recognizes any retained investment at its fair value. Any difference between the carrying amount of the joint venture upon loss of joint control and the fair value of the retained investment less cost to sell is recognized in Statement of profit and loss.

The Group discontinues the use of Equity method from the date the investment is classified as "Held for sale" in accordance with Ind AS 105 : Non-current Assets Held for Sale and Discontinued Operations and measures the interest in joint venture held for sale at the lower of its carrying amount and fair value less cost to sell.

(3) Change in ownership interest

The Group treats transactions with Non-controlling interests that do not result in a loss of control as transaction with the equity owners of the Group. A change in ownership interest results in adjustment between the carrying amounts of the controlling and non-controlling interest to reflect their relative interest in the subsidiary. Any difference between the amount of the adjustment to non-controlling interests and any consideration paid or received is recognized within equity.

(4) Goodwill

Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred and the amount recognized for Non-controlling interests, and any previous interest held, over the net identifiable assets acquired and liabilities assumed. If the fair value of the net assets acquired is in excess of the aggregate consideration transferred, the Group re-assesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and reviews the procedures used to measure the amounts to be recognized at the acquisition date. If the reassessment still results in an excess of the fair value of net assets acquired over the aggregate consideration transferred, then the gain is recognized in OCI and accumulated in equity as capital reserve. However, if there is no clear evidence of bargain purchase, the Group recognizes the gain directly in equity as capital reserve, without routing the same through OCI.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units.

A cash generating unit to which goodwill has been allocated is tested for impairment annually, or more frequently when there is an indication that the unit may be impaired. If the recoverable amount of the cash generating unit is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro rata based on the carrying amount of each asset in the unit. Any impairment loss for goodwill is recognized in profit or loss. An impairment loss recognized for goodwill is not reversed in subsequent periods.

Where goodwill has been allocated to a cash-generating unit and part of the operation within that unit is disposed of, the goodwill associated with the disposed operation is included in the carrying amount of the operation when determining the gain or loss on disposal. Goodwill disposed in these circumstances is measured based on the relative values of the disposed operation and the portion of the cash-generating unit retained.

If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the Group reports provisional amounts for the items for which the accounting is incomplete. Those provisional amounts are adjusted through goodwill during the measurement period, or additional assets or liabilities are recognized, to reflect new information obtained about facts and circumstances that existed at the acquisition date that, if known, would have affected the amounts recognized at that date. These adjustments are called as measurement period adjustments. The measurement period does not exceed one year from the acquisition date.

Nature and purpose of reserves :

General Reserve : The general reserve is a free reserve which is used from time to time to transfer profits from retained earnings for appropriation purposes. As the general reserve is created by a transfer from one component of equity to another and is not an item of other comprehensive income, item included in the general reserve will not be reclassified subsequently to statement of profit and loss.

Securities Premium - Securities Premium Reserve was created consequent to issue of shares at a premium. The reserves can be utilised in accordance with section 52 of Companies Act, 2013

Retained Earning : Retained earnings represents the undistributed profits of the company.

Other Comprehensive Income : Reserve for equity instruments through other comprehensive income represents the cumulative gains and losses arising on the revaluation of equity instruments measured at fair value through other comprehensive income, net of amount reclassified to retained earnings when those assets have been disposed off.

Defined benefit plans: -

The employer Gratuity Fund Scheme, which is defined benefit plan, is managed by the trust which maintains its investment with HDFC Life. The gratuity plan is governed by the Payment of Gratuity Act, 1972. Under the gratuity plan, every employee who has completed at least five years of service usually gets a gratuity on departure @ 15 days of last drawn basic salary for each completed year of service. The present value of obligation is determined based on actuarial valuation using the projected Unit Credit Method, which recognises each period of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation.

The following tables summaries the components of net benefit expense recognised in the statement of profit or loss and the funded status and amounts recognised in the balance sheet for the respective plans:

The sensitivity analysis have been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period, while holding all other assumptions constant.

The sensitivity analysis presented above may not be representative of the actual change in the projected benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated.

Furthermore, in presenting the above sensitivity analysis, the present value of the projected benefit obligation has been calculated using the projected unit credit method at the end of the reporting period, which is the same method as applied in calculating the projected benefit obligation as recognised in the balance sheet.

There was no change in the methods and assumptions used in preparing the sensitivity analysis from prior years.

Fair value hierarchy

The Company uses the following hierarchy for determining and/or disclosing the fair value of financial instruments by valuation techniques:

The following is the basis of categorising the financial instruments measured at fair value into Level 1 to Level 3:

Level 1: This level includes financial assets that are measured by reference to quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: This level includes financial assets and liabilities, measured using inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices).

Level 3: This level includes financial assets and liabilities measured using inputs that are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part, using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data.

| Particulars | As at 31st March, 2022 | As at 31st March, 2021 |
|-----------------------|---------------------------|---------------------------|
| | Fair Value | Fair Value |
| Investment at Level 1 | 163.44 | 183.12 |

b) Financial risk management

The Company's corporate treasury functions provides services to the business, coordinates access to the financial markets, monitors and manages the financial risks relating to operations of the Company through internal risk reports which analyse exposure by degree and magnitude of risk. These risks include market risk (including currency risk, interest rate risk and other price risks, credit risk and liquidity risk).

The principal financial assets of the Company include loans, trade and other receivables, and cash and bank balances that derive directly from its operations. The principal financial liabilities of the Company, include loans and borrowings, trade and other payables and the main purpose of these financial liabilities is to finance the day to day operations of the Company.

The Company's senior management oversees the management of these risks. The senior professionals working to manage the financial risks and the appropriate financial risk governance framework for the Company are accountable to the Board of Directors and Audit Committee. This process provides assurance to Company's senior management that the Company's financial risk-taking activities are governed by appropriate policies and procedures and that financial risk are identified, measured and managed in accordance with Company policies and Company risk objective. In the event of crisis caused due to external factors such as caused by recent pandemic "COVID-19", the management assesses the recoverability of its assets, maturity of its liabilities to factor it in cash flow forecast to ensure there is enough liquidity in these situations through internal and external source of funds. These forecast and assumptions are reviewed by board of directors.

This note explains the risks which the Company is exposed to and policies and framework adopted by the Company to manage these risks.

i. Credit risk

Credit risk is the risk that counter party will not meet its obligations leading to a financial loss. The Company is exposed to credit risk arising from trade receivables. All financial assets are initially considered performing and evaluated periodically for expected credit loss. A default on a financial asset is when there is a significant increase in the credit risk which is evaluated based on the business environment. The assets are written off when the Company is certain about the non-recovery.

a. Trade receivables

The Company extends credit to customers in normal course of business. The Company considers factors such as credit track record in the market and past dealings for extension of credit to customers. The Company monitors the payment track record of the customers. Outstanding customer receivables are regularly monitored.

An impairment analysis is performed at each reporting date on trade receivables by lifetime expected credit loss method based on provision matrix. The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets. The Company does not hold collateral as security. The Company evaluates the concentration of risk with respect to trade receivables as low, as its major customers are Public Sector Undertakings. All debtors are good and realizable within the current financial year.

b. Financial instruments and cash deposits

Credit risk from balances with banks and financial institutions is managed by the Company's treasury department in accordance with the Company's policy. Investments of surplus funds are made in bank deposits and other risk free securities. The limits are set to minimize the concentration of risks and therefore mitigate financial loss through counter party's potential failure to make payments. The Company's maximum exposure to credit risk for the components of the balance sheet at 31 March 2022 is the carrying amounts. The Company's maximum exposure relating to financial instrument is noted in liquidity table below.

Trade Receivables and other financial assets are written off when there is no reasonable expectation of recovery, such as debtor failing to engage in the repayment plan with the Company.

ii. Liquidity risk

The financial liabilities of the Company include loans and borrowings, trade and other payables. The Company's principal sources of liquidity are cash and cash equivalents and the cash flow that is generated from operations. The Company monitors its risk of shortage of funds to meet the financial liabilities using a liquidity planning tool. The Company plans to maintain sufficient cash and marketable securities to meet the obligations as and when fall due.

The table below analyses the Company's financial liabilities and financial assets into relevant maturity groupings based on their contractual maturities:

iii. Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: currency rate risk, interest rate risk and other price risks, such as equity price risk and commodity price risk. Financial instruments affected by market risks include loans and borrowings, deposits, investments, and foreign currency receivables and payables. The sensitivity analysis in the following sections relate to the position as at reporting date. The analysis exclude the impact of movements in market variables on: the carrying values of gratuity and other post-retirement obligations; provisions; and the non-financial assets and liabilities. The sensitivity of the relevant Profit and Loss item and equity is the effect of the assumed changes in the respective market risks. This is based on the financial assets and financial liabilities held as of March 31, 2022 and March 31, 2021.

a) Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to the Company's operating activities (when revenue or expense is denominated in foreign currency). The Company evaluates exchange rate exposure arising from foreign currency transactions and follows established risk management policies.

Foreign Currency Exposure that have not been hedged by derivative Instrument are given below.

| Liabilities/Assets | Foreign Currency | | INR Equivalent | |
|--------------------|---------------------------|---------------------------|---------------------------|---------------------------|
| | As at 31st March, 2022 | As at 31st March, 2021 | As at 31st March, 2021 | As at 31st March, 2021 |
| Liabilities | | | | |
| USD | 5.40 | 0.54 | 409.65 | 39.58 |
| OMR | - | - | - | - |
| Assets | | | | |
| USD | - | 0.02 | - | 1.80 |
| EURO | 8.64 | 0.00 | 727.46 | 0.22 |
| OMR | 0.01 | 0.02 | 1.90 | 3.17 |

Foreign currency sensitivity analysis

The following tables demonstrate the sensitivity to a reasonably possible change in USD and OMR exchange rates, with all other variables held constant. The impact on the Company's profit before tax is due to changes in the fair value of monetary assets and liabilities including non-designated foreign currency derivatives and embedded derivatives.

Impact on Profit / (loss) for the year for a 5% change:

| Particulars | Increase | | Decrease | |
|--------------------|---------------------------|---------------------------|---------------------------|---------------------------|
| | As at 31st March, 2022 | As at 31st March, 2021 | As at 31st March, 2021 | As at 31st March, 2021 |

| OMR/INR | 0.10 | 0.16 | (0.10) | (0.16) |

b) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of change in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's debt obligations with floating interest rates. As the Company has certain debt obligations with floating interest rates, exposure to the risk of changes in market interest rates are dependent of changes in market interest rates. Management monitors the movement in interest rate and, wherever possible, reacts to material movements in such rates by restructuring its financing arrangement.

| Particulars | As at 31st March, 2022 | As at 31st March, 2021 |
|--------------------------|---------------------------|---------------------------|
| Fixed rate borrowings | 2546.22 | 2620.54 |
| Floating rate borrowings | 2331.69 | 2143.22 |

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of loans and borrowings affected. With all other variables held constant, the Company's profit before tax is affected through the impact on floating rate borrowings, as follows:

| Particulars | For the year ended 31st March, 2022 | For the year ended 31st March, 2021 |
|------------------------------|---|---|
| Increase by 100 basis points | -11.66 | -10.72 |
| Decrease by 100 basis points | 11.66 | 10.72 |

c) Capital Management

The Company manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants. The Company's primary objective when managing capital is to ensure that it maintains an efficient capital structure and healthy capital ratios and safeguard the Company's ability to continue as a going concern in order to support its business and provide maximum returns for shareholders. The Company also proposes to maintain an optimal capital structure to reduce the cost of capital.

For the purpose of the Company's capital management, capital includes issued equity share capital, security premium reserve and all other equity reserves. Net debt includes, interest bearing loans and borrowings less cash and cash equivalents.. The Company monitors capital using gearing ratio, which is net debt divided by total capital.
