Management Discussion And Analysis

GLOBAL OVERVIEW:

According to The World Economic Outlook (WEO) update, the world economic output growth slowed down to 3.0% in CY2023, after growing by 3.5% in CY2022. Central Banks raised interest rates in CY2023 to counter inflationary pressures. Despite challenges such as supply chain disruptions and elevated inflation, major economies received support from fiscal stimulus, monetary policies, trade agreements, international aid, green initiatives, and technological investments.

Global inflation is projected to decrease from an estimated 6.8% in CY2023 to 5.9% in CY2024 and further to 4.5% in 2025, primarily due to accelerated disinflation in advanced economies. Declining inflationary pressures vary by country but generally stem from reduced core inflation, influenced by ongoing tight monetary policies, softened labor markets, and impacts from lower energy prices. The IMF forecasts a 2.3% decline in oil prices in CY2024, while non-fuel commodity prices are expected to drop by 0.9%. Heightened tensions in the Gaza-Israel region, which accounts for approximately 35% of global oil exports, could lead to supply shocks if the conflict escalates. Continued trade distortions and geopolitical fragmentation are anticipated to persist, exerting pressure on global trade levels.

The risks to global economic growth are balanced, with potential upside from quicker disinflation, slower withdrawal of fiscal support measures, robust economic expansion in China, and advancements in supply-side reforms. Conversely, downside risks include spikes in commodity prices due to geopolitical or weather-related disruptions, ongoing core inflation necessitating tighter monetary policies, potential slowdowns in Chinese growth, and potential disruptions from abrupt fiscal consolidations.

INDIAN ECONOMY:

The Indian economy continues to strengthen despite the global headwinds. As per the First Advance Estimates (FAE) released by the National Statistical Office (NSO), real Gross Domestic Product (GDP) is expected to grow by 7.3%, in FY2023-24, underpinned by strong investment activity.

For FY2024-25, growth, while still healthy, may see a moderation to 6.8%-7% as per various estimates due to high interest rates and lower fiscal impulse would temper demand and the net tax impact would normalize. Also, the uneven economic growth of some trading partners and escalation of geopolitical uncertainties can drag down exports.

The World Bank expects India to grow by 6.6% in FY2024-25 after an estimated growth of 7.5% in the previous financial year.

Although the short-term outlook appears challenging due to rising interest rates, external supply shocks, and geopolitical tensions, we believe the government is taking appropriate measures to ensure a sustainable growth trajectory for the country. The union budget presented this year strongly supports the long-term growth of India's real estate sector through its focus on urban infrastructure and the digital economy. The government's significantly expanded capital expenditure target for the year is expected to generate job opportunities and stimulate higher economic activity.

REAL ESTATE SECTOR:

FY2024 was a milestone year for India's real estate sector, with record-breaking sales and sustained growth. Despite a notable increase in new launches, inventory levels remained stable or decreased in tier-1 cities, highlighting strong demand. The residential segment excelled, driven by stable interest rates, a robust economy, and evolving consumer preferences. The demand for Commercial office space recovered from slowdown induced by remote work trends and global economic slowdown, while the retail real estate sector experienced a robust revival, surpassing pre-pandemic consumption levels.

RESIDENTIAL REAL ESTATE MARKET:

In CY2023, India's residential real estate sector demonstrated resilience with sustained strong demand. Property sales surged significantly higher than the previous year.

The surge in demand led to a rapid pace of residential development, with annual unit launches reaching nine-year peaks. Despite rising inventory levels, the Quarters to Sell (QTS) metric decreased from 8.7 in H2 CY2020 to 5.9 quarters (less than 18 months) in H2 CY2023, reflecting robust market fundamentals amid growing demand and development activity.

The real estate market experienced an unprecedented surge in CY2023, surpassing expectations and setting new records. This has created significant opportunities for both domestic and international investors, driving the economy forward. Overall, the residential sector remains a focal point for growth, fueled by sustained demand and stable economic conditions.

BUDGET 2024 – KEY TAKEAWAYS FOR CLIMATE CHANGE

The Union Budget for FY 2024-25 reflects India's resolute stride towards sustainability, harnessing renewable energy, and fostering sustainable development amidst the pressing global climate challenges. Emphasizing "Amrit Kaal," the budget outlines an ambitious pathway to achieve a "Prosperous Bharat in harmony with nature, modern infrastructure, and opportunities for all," aiming for net-zero emissions by 2070.

The capital expenditure outlay has been raised by 11.1%, with India's Real GDP expected to expand at a rate of 7.3%. The government's commitment to stimulating growth through infrastructure development is underscored by its decision to expand the PM Awas Yojana (Grameen), aiming to construct an additional two crore homes over the next five years in response to the growing number of households. The fund allocation has risen to ₹80,671 crore, up from the previous year's budget estimate of ₹79,590 crore. Furthermore, the initiative to provide one crore households with up to 300 units of free electricity each month through rooftop solarization aligns with this strategic focus on bolstering infrastructure and sustainable development.

The government is set to enhance the electric vehicle infrastructure, supporting the production and expansion of charging stations. It aims to boost the use of electric buses across public transportation systems with the help of a payment security mechanism. Budget allocations reflect this focus: funding for Solar Power (Grid) has risen from ₹4,970 crore in 2023-24 to ₹8,500 crore in 2024-25. In a similar vein, investment in the National Green Hydrogen Mission has increased from ₹297 crore to ₹600 crore. These increases highlight the government's commitment to advancing renewable energy and fostering eco-friendly practices. Additionally, a systematic integration of compressed biogas with natural gas for vehicles and homes will be initiated.

IMPACT OF CLIMATE CHANGE ON REAL ESTATE SECTOR

In 2022, emissions from buildings, covering both operational (26%) and embodied emissions (7%), made up about a third of total energy system emissions. The emissions intensity of cement production has increased by close to 10% since 2015, which is challenging to decarbonize. The rest stems from direct on-site emissions, predominantly from electricity use for lighting and air conditioning. There's a significant yet unexplored opportunity to reduce emissions, hindered by the ongoing reliance on fossil fuel-driven assets, the absence of potent energy-efficiency mandates, and a deficit in investments towards sustainable buildings.

In recent years, there's been a noticeable uptick in worldwide investments aimed at diminishing the energy consumption of buildings. This move by the real estate sector towards minimizing its environmental footprint marks a positive trend. Governments, policymakers, investors, and the general populace are shifting their views on climate change and are taking bold actions to counteract its effects. The creation of tools that encourage eco-friendly building practices and the widespread acceptance of green building certifications are helping more areas to align their construction activities with the goals of the Paris Agreement. While the surge in investment is indeed encouraging, it also highlights the necessity of engaging with additional external partners to leverage technology effectively, ensuring seamless operations, accountability, and transparency.

OPPORTUNITY AND THREATS:

➤ **Opportunity:**

a) Housing Demand:

- A combination of economic growth, increasing income levels, and the perception that housing prices are stabilizing has led to a notable uptick in the demand for homes.
- Hybrid working models will also continue to drive demand for larger homes.
- Employers offering flexible work options continue to be a significant factor in this trend, as it allows employees the freedom to live further from the office, thereby boosting demand for residential properties in various segments.

b) Consolidation:

- The highly fragmented Indian real estate sector has been in a prolonged consolidation phase from the past few years and the pandemic has been one important factor pushing weaker players out of business. The disruptions in the real estate sector have ensured that no new player has an easy entry into the sector. As the sector moves towards fewer big players in each region, the consolidation presents a lucrative opportunity for the existing real estate developers to cater to the rising housing demand.

c) Digital Real Estate Sales:

- Digital marketing tools have ascended to the throne in today's marketing scene. Digital marketing tools are required for real estate enterprises as well, regardless of the industry.
- Digital marketing tools have ascended to the throne in today's marketing scene. Digital marketing tools are required for real estate enterprises as well, regardless of the industry.
- Emerging tools such as virtual reality, augmented reality, AI powered chatbots are being extensively used to establish personalized services with prospective customers. Going ahead, it will be imperative for the developers to adapt to a tech-savvy future and the proportion of real estate business generated online is expected to only rise further.

d) Affordable Housing:

- The segment of affordable housing remains a pivotal area for developers and a primary focus for the government. As per the new Union budget, a housing for Middle Class scheme is to be launched to encourage the middle class to buy their own houses.
- The Pradhan Mantri Awas Yojana (PMAY) is close to achieving 3 crore houses, additional 2 crore houses are targeted for the next 5 years, as discussed above.
- This shows that the affordable housing market is projected to experience a surge in demand, bolstered by an anticipated economic revival and increasing income levels.

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.

If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to

the date of our auditor’s report. However, future events or conditions may cause the Company to cease to continue as a going concern.

Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor’s report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Annexure - B to the Auditors' Report

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **ART NIRMAN LIMITED** ("the Company") as of 31 March 2024 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Board of Directors of the Company is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting of the Company.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in

accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2024, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

The facility of casting votes by a member using remote e -voting as well as the e-voting system on the date of the EGM/AGM will be provided by CDSL.
- 2) Pursuant to SEBI Circular No. SEBI/HO/CFD/CMD/CIR/P/2020/242 dated 9th December, 2020, under Regulation 44 of SEBI LODR listed entities are required to provide remote e -voting facility to its shareholders, in respect of all shareholders' resolutions. However, it has been observed that the participation by the public non-institutional shareholders/retail shareholders is at a negligible level. Currently, there are multiple e -voting service providers (ESPs) providing e-voting facility to listed entities in India. This necessitates registration on various ESPs and maintenance of multiple user IDs and passwords by the shareholders. In order to increase the efficiency of the voting process, pursuant to a public consultation, it has been decided to enable e-voting to all the demat account holders, by way of a single login credential, through their demat accounts/ websites of Depositories/ Depository Participants. Demat account holders would be able to cast their votes without having to register again with the ESPs, thereby, not only facilitating seamless authentication but also enhancing ease and convenience of participating in e-voting process.
- 3) The e-voting period shall commence at 09:00 a.m. on 23rd September 2024 and end at 05:00 p.m. on 25th September, 2024. During this period, Members of the Company, holding shares either in physical or dematerialised form, as on the cut-off date i.e. 19th September 2024, may cast their vote electronically.
