REDEVELOPMENT IN MUMBAI

Mumbai real estate: 10 things homeowners of societies looking to get their buildings redeveloped should keep in mind

(Source - Hindustan Times - Jun 21 2024*)

In Mumbai, out of the monthly average of 10,000 property registrations, almost 10% to 20% are that of redevelopment projects.

Redevelopment of old housing society buildings in the Mumbai real estate market has picked up steam over the last few years, especially after the Maharashtra government granted waivers to developers post the Covid-19 pandemic to give a boost to the sector.

In Mumbai, of the monthly average of 10,000 property registrations, around 10% to 20% property registrations are that of redevelopment projects, according to data shared by Knight Frank India, a real estate consultancy firm.

With redevelopment of old buildings picking up, homeowners of societies looking to get their building redeveloped should keep in mind the following.

1 What is redevelopment?

In Maharashtra, several old buildings, especially those comprising two to seven storeys, are currently being redeveloped.

Redevelopment of housing projects involves the demolition of the old structure and replacing it with a modern and bigger building subject to various norms.

Also, residents of the old building get larger apartments in the newer building for free as a certain number of apartments in the new building are sold by the builder in the open market for a profit. The government too gets to earn revenue by selling the floor space index (FSI) to the builder.

An old society building can go in for redevelopment in accordance with the Maharashtra Apartment Ownership Act (MAOA), provided that at least 51% of the members approve the exercise.

Under the redevelopment model, a developer signs a development agreement with homeowners residing in these old structures.

The developer promises extra area to each of the flat owners after redevelopment. In exchange,

the developer gets to utilize the remaining unused Floor Space Index (FSI) of the plot and build additional homes to sell at a premium in the open market.

For example, if there are 20 flats in a five-storeyed building and each flat is of 450 sq ft, the developer will sign agreement with the 20 owners and commit to give each of them a 500 sq ft flat in the redeveloped building.

However, the caveat here is that the developer will construct 40 flats of 500 sq ft and after giving 20 flats to the owners, he will sell the remaining in the open market and make a profit.

2 Dangerous buildings

The Maharashtra Housing and Area Development Authority (MHADA) in May 2024 issued a list of 20 residential buildings in South Mumbai that are extremely dangerous and required to be vacated immediately. Along with this, the Mumbai civic body, also known as Brihanmumbai Municipal Corporation (BMC), had declared a total of 188 dilapidated buildings as dangerous and issued notices to residents to vacate immediately.

If homeowners of a society building in Mumbai want to go in for redevelopment of the old structure, they should do their due diligence regarding the developer.

3 Financial wherewithal of the real estate developer

It is very important for flat owners of old housing societies to do their due diligence regarding the financial wherewithal of the developer. They should check whether the developer intends to self-fund the project or take a loan for it.

“It is always better to understand if the developer intends to self-fund the project or will there be bank borrowing. They should check the amount being borrowed from the bank. Higher the borrowing, more the risks,” said Prakkash Rohira, an advocate, who handles real estate related cases at Bombay High Court.

4 Developer's conduct with other society members

A developer has to deal with the committee members of the society and often the elected redevelopment committee. It is due to this reason that the conduct of the real estate developer with other society members becomes important.

5 Viability of the project

If the housing society intends to demand additional area, which may not be viable for the real estate developer, "flat owners should not sign the deed at all, as it may eventually lead to the project getting stalled," advises Rohira.

Flat owners should discuss all modalities with the developer before handing over the project for redevelopment.

They should ask themselves these questions - What if the developer is unable to hand over the area agreed upon at the time of signing the agreement? What if the authorities decline to clear the development plans? Will the developer reimburse the buyers if the area that is redeveloped is lesser than their existing floor space? Will homebuyers have to pay if a larger unit is delivered to them after redevelopment? "All these issues should be discussed with the developer at the onset," said legal experts.

6 Go for builders with redevelopment experience

Flat owners should keep in mind that redevelopment projects require specialized skill sets. It is different from constructing buildings on vacant land. "Flat owners should either go for branded developers or prefer someone local who has experience of working in a particular area and project. This will lead to projects getting delivered on time," explained Rohira.

7 Get legal experts on board

According to legal experts, housing societies going for redevelopment should get on board their own lawyers and architects rather than depend on experts hired by the developer.

"Developers often approach housing society members with a draft development agreement. They may propose that their lawyer would draft the agreement for which the buyers may not have to bear legal costs. This is the first warning bell. It is imperative that housing societies appoint a lawyer and architect to understand the minute details of the project and safeguard their interests," Rohira added.

8 Rental compensation

Flat owners also get monthly rental compensation from developers for the period of redevelopment. Flat owners should confirm this amount with the developer. "The rental compensation should cover the entire period until the new building is ready for occupancy," said Keval Valambhia, Chief Operating Officer (COO) of MCHI-CREDAI, apex body of real estate developers in Mumbai and Maharashtra.

9 Amenities and specifications

According to developers, flat owners should ensure that the specifications of the new apartments are clearly mentioned in the agreement.

"The details of amenities and specifications should include the size of the apartment, the floor plan, and the quality of materials to be used. The flat owners should also verify the promised amenities and facilities in the new building, such as parking spaces, security systems, recreational areas, and other common facilities. These should be listed in the agreement to avoid future disputes," Valambhia added.

10 Project timeline and approvals

Last but not the least, flat owners should get a detailed timeline from the developer, including start and completion dates of the project.

"After knowing the timelines and delay clauses, these should also be mentioned in the agreement for compensation in case of delays. The flat owners should also ensure that the developer has taken permissions required from multiple authorities, including RERA registration," Valambhia added.

GLOBAL REAL ESTATE MARKET

The global Real Estate Market size was valued at USD 9.8 trillion in 2023, and is predicted to reach USD 14.54 trillion by 2030, at a CAGR of 5.8% from 2024 to 2030. Simply put, real estate encompasses a diverse range of tangible properties, including homes, commercial spaces, and land that serve as the foundation of where people live, work, and invest. Residential real estate offers the comfort of homes and apartments, while commercial real estate provides operational spaces for businesses.

Land, on the other hand, holds potential for development or future investment. Real estate is a dynamic market influenced by factors such as the economy and population growth, which impact its value and demand. It plays a vital role in people's lives and the economy and offers opportunities for homeownership, business establishment, and wealth accumulation, making it a significant area of interest for several individuals and businesses alike.

The Growing Urbanization Across the Globe Drives the Market Growth. The increasing trend of urbanization worldwide is driving significant growth in the real estate market. As increasingly more individuals seek better opportunities and living conditions in urban areas, there is a growing need for homes, office spaces, and infrastructure development. According to the latest report from the United Nations Department of Economic and Social Affairs, more than 55% of the world's population currently resides in urban areas, and this is expected to reach 68% by 2050. This shift to urban living is a significant driver of growth in the real estate market. As more people move to cities in search of better economic prospects and improved living conditions, the demand for urban properties and commercial spaces continues to rise thereby driving the growth of the market.

INDIAN ECONOMY

In India, the real estate sector is the second-highest employment generator, after the agriculture sector. The real estate sector in India is expected to reach US\$ 1 trillion in market size by 2030, up from US\$ 200 billion in 2021. By 2025, it will contribute 13% to the country's GDP. The emergence of nuclear families, rapid urbanisation and rising household income are likely to remain the key drivers for growth in all spheres of real estate, including residential, commercial, and retail. Rapid urbanisation in the country is pushing the growth of real estate.

India's real estate sector is expected to expand to US\$ 5.8 trillion by 2047, contributing 15.5% to the GDP from an existing share of 7.3%. In FY23, India's residential property market witnessed with the value of home sales reaching an all-time high of Rs. 3.47 lakh crore (US\$ 42 billion), marking a robust 48% YoY increase. The volume of sales also exhibited a strong growth trajectory, with a 36% rise to 379,095 units sold. Indian real estate developers operating in the country's major urban centres are poised to achieve a significant feat in 2023, with the completion of approximately 558,000 homes.

In 2023, luxury home sales in India priced at Rs. 4 crore (US\$ 481,927) and above surged by 75%, doubling their share in total housing sales. For the first time, gross leasing in India's top seven markets surpassed the 60 million sq ft mark, reaching an impressive total of 62.98 million sq ft, marking a substantial 26.4% increase compared to the previous year. Notably, the December quarter emerged as the busiest quarter on record, with gross leasing hitting 20.94 million sq ft.

In July 2023, Delhi-NCR emerged as the third biggest city in the Asia Pacific in having flexible office space stock beating Beijing and Seoul, while Bengaluru retained the top spot, according to real estate consultant CBRE. The Smart Cities Mission presents a major opportunity for real estate developers by targeting the development of 100 smart cities in India, stimulating the growth of commercial centers in their vicinity. Demand for industrial and logistics space hit a record in 2023, totaling 38.8 million square feet across 8 cities.

Foreign investments in the commercial real estate sector were at US\$ 10.3 billion between 2017-2021. As of February 2022, Developers expected demand for office spaces in SEZs to shoot up after the replacement of the existing SEZs act.

India's Global Real Estate Transparency Index ranking improved by three notches from 39 to 36 since the past eight years from 2014 until 2022 on the back of regulatory reforms, better market data and green initiatives, according to property consultant JLL. According to Savills India, real estate demand for data centres is expected to increase by 15-18 million sq. ft. by 2025. Foreign investors pump around US\$ 4 billion yearly into Indian real estate, with a 20% YoY increase in foreign inflows in 2023.

Technology companies held the highest share in leasing activity at 22% during first quarter of 2024. Engineering and manufacturing (E&M) companies accounted for 13%, and banking, financial services and insurance account for 12%. Flexible space operators increase by 48%, showcasing their notable contributions. In 2023, India's residential sector saw record sales and new property launches, overcoming concerns about monetary tightening's impact on housing loans. Major banks disbursed about Rs. 2.7 lakh crore (US\$ 32.45 billion) in credit by January 2024, an annual increase of around 37%.

Government of India's Housing for All initiative is expected to bring US\$ 1.3 trillion investments in the housing sector by 2025. Since 2019, 122.69 lakh houses have been sanctioned and 71.57 houses have been completed and delivered to urban poor under the Pradhan Mantri Awas Yojana-Urban (PMAY-U). The scheme is expected to push affordable housing and construction in the country and give a boost to the real estate sector. On July 09, 2020, Union Cabinet approved the development of Affordable Rental Housing Complexes (AHRCs) for urban migrants and poor as a sub-scheme under PMAY-U. In July 2021, the Securities and Exchange Board of India lowered the minimum application value for Real Estate Investment Trusts from Rs. 50,000 (US\$ 610.7) to Rs. 10,000-15,000 (US\$ 122.13-183.2) to make the market more accessible to small and retail investors.

MUMBAI REAL ESTATE MARKET

At the heart of Mumbai's real estate resurgence lies a series of record-breaking sales, which have not only exceeded expectations but have also set new benchmarks for the industry. In January 2024 alone, a staggering 10,901 properties were registered, marking a significant leap forward in transactional activity. In the few days of February, we have already seen over 8901 registrations in MMR! This surge in property transactions has not only bolstered investor confidence but has also contributed a remarkable ₹746 crore to the state government's revenue, underscoring Mumbai's economic significance on a broader scale.

Delving deeper into the data, it becomes evident that January 2024 has rewritten the narrative of Mumbai's real estate landscape. The year-on-year increase of 21% in registration numbers reflects a burgeoning demand for properties across various segments. However, perhaps the most intriguing aspect lies in the shifting dynamics of housing preferences. With a notable increase in the share of smaller apartments measuring 500 sq. ft. and below, buyers are signaling a growing inclination towards compact yet functional living spaces. This trend, juxtaposed against a decline in the market share of larger apartments, sheds light on the evolving needs and aspirations of Mumbai's populace.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional Skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the standalone financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the standalone financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

39 Employee benefit plans

39.1 Defined contribution plans:

The Company makes Provident Fund contributions which are defined contribution plans, for qualifying employees. Under the Schemes, the Company is required to contribute a specified percentage of the payroll costs to fund the benefits. The Company recognised ₹ 7.92 Lakhs (PF : 4.11 Lakhs & Pension Fund : 3.81 Lakhs) (Previous Year ended 31 March, 2023: ₹ 8.75 Lakhs (PF : 4.73 Lakhs & Pension : 4.02 Lakhs)) for Provident Fund contributions, in the Statement of Profit and Loss. The contributions payable to these plans by the Company are at rates specified in the rules of the schemes.

39.2 Defined benefit plans:

The gratuity scheme is a defined benefit plan that provides for a lump sum payment to the employees on exit either by way of retirement, death, disability or voluntary withdrawal. The benefits are defined on the basis of final salary and the period of service.

39.3 These plans typically expose the Company to actuarial risks such as: interest rate risk, medical inflation risk, demographic risk, salary inflation risk and change in leave balances, as applicable.

Interest rate risk:

The plan exposes the Company to the risk off all in interest rates. A fall in interest rates will result in an increase in the ultimate cost of providing the above benefit and will thus result in an increase in the value of the liability.

Liquidity Risk:

This is the risk that the Company is not able to meet the short-term gratuity payouts. This may arise due to non availability of enough cash/cash equivalent to meet the liabilities or holding of illiquid assets not being sold in time.

Salary Escalation Risk:

The present value of the defined benefit plan is calculated with the assumption of salary increase rate of plan participants in future. Deviation in the rate of increase of salary in future for plan participants from the rate of increase in salary used to determine the present value of obligation will have a bearing on the plan's liability.

Sumit Woods Limited

Notes forming part of the Standalone financial statements

All amounts are ₹ in Lakhs unless otherwise stated

Demographic Risk:	The Company has used certain mortality and attrition assumptions in valuation of the liability. The Company is exposed to the risk of actual experience turning out to be worse compared to the assumption.
Regulatory Risk:	Gratuity benefit is paid in accordance with the requirements of the Payment of Gratuity Act, 1972 (as amended from time to time). There is a risk of change in regulations requiring higher gratuity payouts (e.g. Increase in the maximum limit on gratuity of ₹ 20,00,000).
Asset Liability Mismatching or Market Risk:	The duration of the liability is longer compared to duration of assets, exposing the Company to market risk for volatilities/fall in interest rate.
Investment Risk:	The probability or likelihood of occurrence of losses relative to the expected return on any particular investment.
	The weighted average duration of the defined benefit obligation as at March 31, 2024 is 4 years (2023: 5 years)
	The Company's best estimate of Contribution during of ₹ 76.24 Lakhs (as at March 31, 2023: ₹. 58.74 Lakhs) to the defined benefit plans during the next financial year.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements, give the information required by the Companies Act, 2013 (the “Act”) in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards (“Ind AS”) prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended and other accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at 31st March 2024, the consolidated Profit, consolidated total comprehensive income, consolidated changes in equity and its consolidated cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the consolidated financial statements in accordance with the Standards on Auditing (“SA”s) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor’s Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (“ICAI”) together with the ethical requirements that are relevant to our audit of the consolidated financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI’s Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Management’s Responsibilities for the Consolidated Financial Statements

The Company’s Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation and presentation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated changes in equity and consolidated cash flows of the Group in accordance with the Ind AS and other accounting principles generally accepted in India. The respective Boards of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design,

implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective Boards of Directors of the companies included in the Group are responsible for assessing the ability of the respective entities to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the respective Boards of Directors either intend to liquidate their respective entities or to cease operations, or have no realistic alternative but to do so.

The respective Boards of Directors of the companies included in the Group are also responsible for overseeing the financial reporting process of the Group.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company and its subsidiary companies which are companies incorporated in India, has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such

disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors.

Materiality is the magnitude of misstatements in the consolidated financial statements that, individually or in aggregate, makes it probable that the economic decisions of areas on ably knowledgeable user of the consolidated financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the consolidated financial statements.

We communicate with those charged with governance of the Company and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting of the Company and its subsidiary companies, which are companies incorporated in India.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the Company and its subsidiary companies, which are companies incorporated in India, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March 2024, based on the internal financial control over financial reporting criteria established by the respective companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

40.2 Defined benefit plans:

The gratuity scheme is a defined benefit plan that provides for a lump sum payment to the employees on exit either by way of retirement, death, disability or voluntary withdrawal. The benefits are defined on the basis of final salary and the period of service.

40.3 These plans typically expose the Company to actuarial risks such as: interest rate risk, medical inflation risk, demographic risk, salary inflation risk and change in leave balances, as applicable.

Interest rate risk:	The plan exposes the Company to the risk off all in interest rates. A fall in interest rates will result in an increase in the ultimate cost of providing the above benefit and will thus result in an increase in the value of the liability.
----------------------------	--

Liquidity Risk:	This is the risk that the Company is not able to meet the short-term gratuity payouts. This may arise due to non availability of enough cash/cash equivalent to meet the liabilities or holding of illiquid assets not being sold in time.
------------------------	--

Salary Escalation Risk:	The present value of the defined benefit plan is calculated with the assumption of salary increase rate of plan participants in future. Deviation in the rate of increase of salary in future for plan participants from the rate of increase in salary used to determine the present value of obligation will have a bearing on the plan's liability.
--------------------------------	--

Demographic Risk:	The Company has used certain mortality and attrition assumptions in valuation of the liability. The Company is exposed to the risk of actual experience turning out to be worse compared to the assumption.
--------------------------	---

Regulatory Risk:	Gratuity benefit is paid in accordance with the requirements of the Payment of Gratuity Act, 1972 (as amended from time to time). There is a risk of change in regulations requiring higher gratuity payouts (e.g. Increase in the maximum limit on gratuity of Rs. 20,00,000).
-------------------------	---

AssetLiability Mismatching or Market Risk:	The duration of the liability is longer compared to duration of assets, exposing the Company to market risk for volatilities/fall in interest rate.
---	---

Investment Risk:	The probability or likelihood of occurrence of losses relative to the expected return on any particular investment.
-------------------------	---

The weighted average duration of the defined benefit obligation as at March 31, 2024 is 4 years (2023: 4 years)
