MANAGEMENT DISCUSSION AND ANALYSIS REPORT

1. Industry Structure & Development

Indian Packaging Industry has a very broad base with many tiny, small, medium and large sector units. Total capacity available in all the above sectors is around 3.75 Million Metric Tons, which by 2013-14 is expected to increase to 6.00 million Metric Tons. Indian Print & Packaging Market has witnessed an astounding growth. India is the 12th largest Print & Packaging Market in the World, Projected to become 8th largest by 2013. The growth is significant in the Eastern region. More modernisation required to keep pace with rising demand.

Paper, Paper Board & Packaging material scenario continues to be bright as more and more plastic materials are being discarded.

2. Opportunities & Threats

2.1. Opportunity

Your company primarily supplies packaging materials to the Tea Industries, Pharmaceutical Industries & Spices Industries. Though the general economic situation, particularly the export segment of Tea remains depressed basically due to Russian Union countries going in for bulk rather than packed ones and the off take of Arabian countries has also declined. Thus packaging requirements had proportionately declined. Now as the things are coming back to normal the packaging industry is once again looking forward for a turn around in near future.

2.2. Threats

- Higher domestic cost of power & fuel and a large component of domestic taxes in cost of production have made the product somewhat uncompetitive in the export as well as in the domestic market.
- Some multinational export houses have preferred to import their packaging materials without payment of import duties and this is an additional threat for the industry's performance.
- With the FSEZ, it has resulted in rather impossible situation of domestic sale on account of the Custom duty leviable on the domestic sale which is much higher compared to Excise Duty chargeable by DTA manufacturers. Hence even producing from indigenous raw materials, supplies to DTA area is very costly and hence the market of that segment has become non-existent.

3. Segmentwise/productwise performance.

The Company is a Paper-based Packaging & Publishing product manufacturer.

4. Outlook

The Company, in keeping along the recent trend of Consumer friendly pack, has geared themselves for producing the same in their factory. Presently, the Company is manufacturing printed packaging cartons / boxes of international standard and specification.

Under its ISO certification, the Company has engaged in continuous monitoring of its manufactured quality and has setup a self-sufficient laboratory for the same.

With the improvement of demand in exports, the company expects to fulfill its goal to serve the consumer industry in the best way possible.

5. Risk and Concerns

In order to be more competitive in the overseas market, the Tea-exporters are trying to offer more favourable price, which eventually is reflected in their buying of packaging items at a lower price. Therefore, the Company as well as the industry at large is unable to pass on the hike in cost of power, fuel, labour etc. to the consumer, which adversely impacts profitability.

6. Internal Control Systems and their adequacy

The Company has adequate internal control systems, which are reviewed by the Management and the internal auditors through quarterly audit of various areas of Company's operations to ensure that the systems are being properly complied with and transparency is maintained. The observations of the Auditors along with Company's replies are placed before the Audit Committee of the Directors on regular basis for reviewing their adequacy.

7. Financial performance with respect to operational performance.

Because of a depressed export market, the capacity utilization as per target could not be achieved and the Company was obliged to have a restricted manufacturing operation.

In line with the current trend, the Company has implemented several cost control measures to offset increase in production cost. It has identified further possibility of cost reduction with some capital investment, which will be executed as soon as the marketing scenario turns better.

8. Material developments in Human resources / Industrial Relations front, including number of people employed.

In order to achieve full utilization of equipment potential and inculcate proper operation and maintenance practices, the Company's personnel are exposed to latest ideas and concepts through various in-house as well as external training programmes of reputed Institutes within its financial limitations. Interactions amongst plant personnel on a daily basis also improve sensitivity about the plant, which helps in better identification of plant problems and their resolutions and also in identifying areas of cost reduction. The Industrial Relations remained cordial during the year under report. The total number of permanent employees was 52 as on 31.3.2013.
