**EXPLANATORY STATEMENT PURSUANT TO SECTION 102 OF THE COMPANIES ACT, 2013
(Annexed to the notice convening the Forty-First Annual General Meeting to be held on 08TH September, 2026)**

ITEM NO. 3

The Company proposes to avail a loan/credit facility, along with allied and incidental arrangements (including interest, processing charges, and other terms attached thereto), from Ganganagar Vehicles Private Limited (“GVPL”) during FY 2026–27, up to an aggregate amount of ₹200 Crores (Rupees Two Hundred Crores Only).

GVPL is a related party of the Company within the meaning of Section 2(76) of the Companies Act, 2013, on account of a director common to both companies. In terms of Section 188(1)(d) of the Act, the said transaction is being treated as “availing of services,” and the value thereof exceeds 10% of the annual turnover of the Company as computed on the basis of the audited financial statements for the preceding financial year — thereby crossing the threshold prescribed under Rule 15(3)(a)(iv) of the Companies (Meetings of Board and its Powers) Rules, 2014, and requiring prior approval of the Members by way of an Ordinary Resolution under the first proviso to Section 188(1) of the Act.

The Company’s paid-up equity shares capital and net worth fall within the limits prescribed under Regulation 15(2) of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, and the Company is accordingly exempt from compliance with Regulation 23 of the said Regulations. This resolution is therefore being placed before the Members solely in compliance with Section 188 of the Companies Act, 2013, and does not arise out of any requirement under the SEBI LODR Regulations, 2015.

The details of the proposed material related party transaction, as required under Rule 15(3)(a)(iv) of the Companies (Meetings of Board and its Powers) Rules, 2014, are provided below -:

Management Discussion and Analysis Report

At Kalyani Commercials Limited, we constantly strive to trade products and technology-led services that enable our customers and stakeholders to Rise. By focusing on customer requirement, delivering accessible technology, innovating and enhancing people capabilities, we continue to drive growth in the domestic market.

INDUSTRY OVERVIEW

India continued to be one of the world's fastest-growing major economies during FY 2025–26, with the Provisional Estimates indicating a real GDP growth of 7.7%, compared to 7.1% in FY 2024–25. The robust economic performance was driven by strong growth in the manufacturing, construction, financial services, and trade sectors, supported by resilient domestic consumption, sustained public capital expenditure, and improving private investment. Rural demand remained stable owing to favorable agricultural output, while higher capacity utilisation and a positive business environment encouraged fresh investments across industries. Although global geopolitical tensions, trade uncertainties, and commodity price volatility continue to pose external risks, India's strong macroeconomic fundamentals, prudent policy framework, and large domestic market position the economy for sustained long-term growth and reinforce its status as one of the most attractive investment destinations globally.

OUR INDUSTRY SEGMENT

The Indian automobile industry remains one of the key pillars of the country's economic growth, contributing significantly to manufacturing output, employment, exports, and technological advancement. The sector continues to benefit from rising urbanisation, increasing disposable incomes, improved road infrastructure, expanding logistics and e-commerce activities, and supportive government initiatives promoting domestic manufacturing and electric mobility. During FY 2025–26, the Indian automobile industry recorded its highest-ever domestic sales of approximately 2.83 crore vehicles, registering a growth of around 10.4% over the previous year. Passenger vehicle sales increased to 46.43 lakh units (up 7.9%), commercial vehicle sales reached 10.80 lakh units (up 12.6%), three-wheeler sales grew to 8.36 lakh units (up 12.8%), and two-wheeler sales crossed 2.17 crore units (up 10.7%), reflecting strong demand across all segments. India continues to maintain a prominent position in the global automotive industry as one of the world's largest manufacturers of tractors, buses, and heavy trucks, while also emerging as a major hub for automobile and auto-component exports. Going forward, increasing adoption of electric vehicles, localisation of manufacturing, digitalisation, and continued investments under government initiatives such as the Production Linked Incentive (PLI) Scheme and PM E-Drive are expected to further strengthen the industry's long-term growth prospects.

INDIAN AUTOMOBILE SECTOR

The Indian automobile industry continues to play a pivotal role in advancing sustainable mobility by reducing dependence on fossil fuels, improving vehicle safety, and lowering emissions through the adoption of cleaner technologies. During FY 2025–26, the industry witnessed accelerated growth in electric mobility, supported by the Government's continued focus on the PM E-Drive Scheme, the Production Linked Incentive (PLI) Scheme for the Automobile and Auto Components Industry, and the PM e-Bus Sewa Scheme. Manufacturers continued to expand investments in electric vehicles (EVs), battery technology, localisation of components, and alternative fuel solutions such as CNG, LNG, flex-fuel, and hydrogen-powered vehicles. The implementation of stringent BS-VI Phase-II (Real Driving Emissions and On-Board Diagnostic-II) emission norms further strengthened India's commitment to cleaner transportation and enhanced vehicle safety standards. Supported by policy initiatives such as Make in India and Atmanirbhar Bharat, the automotive sector is steadily evolving into a globally competitive manufacturing hub, promoting innovation, reducing import dependence, strengthening the domestic EV ecosystem, generating

employment, and contributing towards India's long-term objective of achieving sustainable and environmentally responsible mobility.

INDIAN AUTOMOBILE SECTOR IN FINANCIAL YEAR 2025-26

The Indian automobile sector delivered a strong performance during Financial Year 2025–26, recording its highest-ever domestic sales of approximately 2.83 crore vehicles, reflecting a 10.4% year-on-year growth. The Passenger Vehicle segment registered sales of 46.43 lakh units (up 7.9%), while the Commercial Vehicle segment grew by 12.6% to 10.80 lakh units. The Three-Wheeler segment recorded a 12.8% increase to 8.36 lakh units, and the Two-Wheeler segment achieved sales of over 2.17 crore units, registering 10.7% growth over the previous year. The industry's growth was supported by rising infrastructure spending, expanding logistics and e-commerce activities, improved rural and urban demand, easier access to vehicle financing, and continued replacement demand.

The sector also witnessed significant progress in electric mobility and advanced automotive technologies, driven by the Government's PM E-Drive Scheme, the Production Linked Incentive (PLI) Scheme for Automobile and Auto Components, and the implementation of BS-VI Phase-II emission norms. Increased localisation of manufacturing, investments in EVs, battery technology, connected vehicles, and alternative fuel solutions further strengthened India's position as one of the world's leading automobile manufacturing hubs. Despite challenges arising from global geopolitical uncertainties, commodity price volatility, and supply chain disruptions, the long-term outlook for the Indian automobile sector remains positive, supported by favourable demographics, sustained economic growth, policy support, and increasing consumer preference for cleaner and technologically advanced mobility solutions.

BUSINESS

The Company is engaged in business of trading of automobiles, motorcars, lorries, buses, vans, motorcycles, cycle-cars, motor, scooters carriages and vehicles of all descriptions, whether propelled or assisted by means of petrol, diesel, spirit, steam, gas and other components and spare-part of such vehicles of Heavy Commercial Vehicles, Three Wheelers and servicing (Dealership of Bajaj and TATA), Petroleum Product Dealership.

OPPORTUNITIES AND THREATS

India being one of the largest automobile markets in the world, has a bright future because of several factors like rapid urbanization, Car buyers getting younger, growing middle class, overall growth of other industries, infrastructure development and the improved road infrastructure. This along with rising disposable income, aspirations for a better lifestyle and a slew of new product launches lined up by companies would aid overall increase in sales volumes. The Company, with its wide portfolio is expected to benefit from the same. Further, per capital penetration at around eighteen cars per thousand is among lowest in the world. This growing consumerism is expected to lead to an increase in car penetration.

Indian automotive industry has been christened as sunrise sector and champion industry, due to the immense contribution the industry makes to the Indian economy. Automotive industry turnover is 6.5% of India's GDP and more than 40% of manufacturing GDP. In Financial Year 2023-24, Passenger vehicles have reached a new, highest-ever mark with 4.2 million sales units while commercial vehicles have shown flat growth of 0.6%. 3W reported growth of 41.5% with 0.7 million sales in FY 2023-24 vs 0.5 million sales in FY 2022-23. The shortage of semiconductors post-COVID-19 was eased with normalised global supply in the last year, while the increase in demand was influenced by higher disposable income, credit availability, new launches and minor impact due to regulations.

THREATS

The industry company faces several challenges that could potentially impact its growth and profitability. Intense competition within the industry from established players and new entrants poses a risk to market share and revenue. Economic volatility and shifting consumer preferences may affect consumer spending patterns and demand for automobiles. Regulatory changes could lead to increased compliance costs and impact product offerings. Supply chain disruptions, cybersecurity risks, and technological advancements by competitors pose additional threats. Geopolitical uncertainties, environmental concerns, and the potential for health crises also add to the risk landscape. Your Company recognizes these threats and is committed to implementing proactive measures to mitigate their impact and ensure sustainable success in this dynamic market. In response to the various threats faced by our esteemed automobile industry company, we have devised a comprehensive set of proactive solutions. Embracing innovation and adaptability, we are determined to safeguard our growth and profitability while addressing potential challenges. To stay ahead in the competitive landscape, we will focus on innovative product development, investing in cutting-edge research and development to introduce vehicles that align with shifting consumer preferences. Through strategic pricing and targeted marketing campaigns, we aim to enhance our market presence and engage our customers effectively.

In anticipation of potential health crises and geopolitical challenges, we will develop comprehensive risk management strategies and contingency plans. By preparing for various scenarios, we aim to navigate uncertainties effectively.

In conclusion, these solutions reflect our unwavering commitment to resilience, sustainability, and customer-centricity. As we implement these measures, Your Company is confident in its ability to thrive in the ever-changing automotive landscape, ensuring a prosperous and transformative future for our company.

OUTLOOK AND FUTURE PROSPECTS

The outlook for the Indian automobile industry remains positive, supported by strong macroeconomic fundamentals, rising disposable incomes, rapid urbanisation, expanding road infrastructure, and sustained government focus on manufacturing and clean mobility. Continued investments in electric vehicles (EVs), connected and autonomous technologies, alternative fuel solutions, and localisation of automotive components are expected to drive long-term growth. Government initiatives such as the **PM E-Drive Scheme**, **Production Linked Incentive (PLI) Scheme**, **Make in India**, and the **Vehicle Scrappage Policy** are expected to further strengthen domestic manufacturing and accelerate the transition towards sustainable mobility. Increasing demand for commercial vehicles, driven by infrastructure development, logistics expansion, and e-commerce growth, along with rising consumer preference for utility vehicles and technologically advanced automobiles, is likely to support industry growth in the coming years. Despite challenges arising from global economic uncertainties, geopolitical tensions, and commodity price fluctuations, the Indian automobile sector remains well-positioned to capitalize on its large domestic market, export opportunities, and technological advancements, reinforcing its status as one of the world's leading automotive manufacturing hubs.

RISKS & CONCERNS

The Company's business continues to be exposed to various internal and external risks; accordingly, robust systems, processes, and review mechanisms have been instituted to actively monitor, manage, and mitigate such risks. In FY 2025-26, the automotive sector faced challenges from economic fluctuations, inflationary pressures, evolving regulatory requirements, and supply chain disruptions linked to global geopolitical developments. These risks had

the potential to affect consumer sentiment, reduce credit availability, and moderate vehicle demand. However, the industry effectively countered these headwinds through strong risk management practices, technology adoption, and policy support. The implementation of Bharat NCAP (BNCAP) norms, the Government's sustained thrust on Electric Vehicle (EV) adoption, and the incentives under the Production Linked Incentive (PLI) scheme created a more favorable environment for long term growth. Despite near-term pressures, the Indian automotive sector in FY 2025-26 reinforced its resilience, adaptability, and growth trajectory, supported by innovation, sustainability initiatives, and strategic collaborations. With these enablers, the industry is well positioned to continue its transformation, strengthen India's status as a global automotive hub, and contribute significantly to the nation's economic development and technological advancement.

HUMAN RESOURCES

The Company recognizes that its employees are a key enabler of sustainable growth and long-term success. The Company remains committed to fostering a safe, inclusive, and conducive work environment that encourages employee development, collaboration, and operational excellence.

The Company continues to focus on strengthening employee capabilities through learning, skill enhancement, and effective people management practices. Emphasis is placed on maintaining a healthy workplace culture, promoting teamwork, and ensuring adherence to applicable safety and workplace standards.

The Company believes that engaged and motivated employees contribute significantly towards improving productivity, enhancing customer experience, and achieving business objectives. The relationship between the management and employees remained cordial throughout the year, and the Company continues to take appropriate measures to support employee well-being and organisational effectiveness.

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF KALYANI COMMERCIALS LIMITED

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the accompanying standalone financial statements of **KALYANI COMMERCIALS LIMITED** ("the Company"), which comprise the Balance Sheet as at March 31, 2026, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows ended on that date, and a summary of significant accounting policies and other explanatory information (hereinafter referred to as the "standalone financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2026, the profit and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing ("SA"s) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

KEY AUDIT MATTERS	AUDITORS' RESPONSE
1. Accuracy of recognition, measurement, presentation and disclosures of revenues and other related balances	Principal Audit Procedures We assessed the Company's process to identify the impact of the revenue accounting standard. Our audit approach consisted testing of the design and operating effectiveness of the internal controls and substantive testing as follows: • Evaluated the design of internal controls relating to implementation of the revenue accounting standard. • Selected a sample and tested the operating effectiveness of the internal control, relating to identification of the distinct performance obligations and determination of transaction price. We carried out a combination of procedures involving enquiry, observation, re-performance and inspection of evidence in respect of operation of these controls. • Tested the relevant information of management controls relating to sales and service and other related information used in recording and disclosing revenue in accordance with the revenue accounting standard.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility Report, Corporate Governance and Shareholder's Information, but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibilities for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, including other comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities;

selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the standalone financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i)

planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the standalone financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

- a) As required by the Companies (Auditor's Report) Order, 2020 ("the Order") as amended issued by the Central Government in terms of Section 143(11) of the Act, we give in "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, Statement of Changes in Equity and the Statement of Cash Flows dealt with by this Report are in agreement with the relevant books of account.
 - d) In our opinion, the aforesaid standalone financial statements comply with the Ind AS specified under Section 133 of the Act, read with Rule 7 of The Companies (Accounts) Rules, 2014.
 - e) On the basis of the written representations received from the directors as on March 31, 2024 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2026 from being appointed as a director in terms of Section 164(2) of the Act.
 - f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.
 - g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended:

In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197(16) of the Act.

h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:

- i. The Company does not have any pending litigations which would impact its financial position
- ii. The Company did not have any long-term contract including derivative contract for which there were any material foreseeable losses.
- iii. There was no amount required to be transferred, to the Investor Education and Protection Fund by the Company.

iv. (a) The Management has represented (refer note 44) that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person or entity, including foreign entity ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

(b) The Management has represented (refer note 44), that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been received by the Company from any person or entity, including foreign entity ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

(c) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.

v. The company during the year has not declared or paid any dividend.

i. With respect to the matter to be included in the Auditors' report under Section 197(16) of the Act: In our opinion and according to the information and explanation given to us, the remuneration paid during the current year by the Company to its directors is in accordance with the provisions of Section 197 of the Act. The remuneration paid to any director by the Company, is not in excess of the limit laid down under Section 197 of the Act. The Ministry of Corporate Affairs has not prescribed other details under Section 197(16) of the Act which are required to be commented upon by us.

j. Based on our examination which included test checks, the company has used an accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility, and the same has operated throughout the year for all relevant transactions recorded in the software. Further, during the course of our audit we did not come across any instance of audit trail feature being tampered with.

Additionally, the audit trail has been preserved by the company as per the statutory requirements for record retention.

ANNEXURE TO THE AUDITOR'S REPORT

Annexure referred to in paragraph 1 under the heading of "Report on other legal and Regulatory requirements" of the Independent Auditor's Report on the Financial Statements of Kalyani Commercials Limited ("The Company") for the year ended on 31st March 2026.

Based on the audit procedures performed for the purpose of reporting a true and fair view on the financial statements of the Company and taking into consideration the information and explanations given to us and the books of accounts and other records examined by us in the normal course of audit, we report that:

(i) (a) Property, plant and equipment and intangible Assets.

(A) The Company has maintained proper records showing full particulars, including quantitative details and situation of Property, Plant and Equipment and Investment Property.

(B) The Company has maintained proper records showing full particulars of intangible assets.

(C) The company has a **programme** of verification to cover all the items of property, plant and equipment in a phased manner which in our opinion, is reasonable having regard to the size of the company and nature of its assets, pursuant to the programme, certain property, plant and equipment were physically verified by the management during the year. according to the information and explanation given to us, no material discrepancies were noticed on such verification as compared to books records.

(D) The title deeds of all the immovable properties (other than properties where the company is the lessee and the lease agreements are duly executed in favour of the lessee) are held in the name of the Company.

(E) The company has not revalued its Property, Plant and Equipment (including Right of Use assets) or intangible assets or both during the year. Accordingly, the provisions of clause 3(i)(d) of the Order are not applicable.

(F) No proceedings have been initiated or are pending against the company for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (45 of 1988) and rules made there under. Accordingly, the provisions of clause 3(i)(e) of the Order are not applicable.

(ii) (a) The management has conducted physical verification of inventory at end of the year. The procedures of physical verification of inventory followed by the management are reasonable and adequate in relation to the size of the company and nature of its business. No discrepancies of 10% or more in aggregate for each class of inventory between physical inventory and book records were noticed on physical verification. Discrepancies, if any, noticed on physical verification have been properly dealt with in the books of account. In our opinion the coverage and procedure of such verification by the management is appropriate.

(b) The company has been sanctioned working capital limits in excess of five crore rupees, in aggregate, from banks or financial institutions on the basis of security of current assets during the year. On the basis of information and documents provided by the Company, in our opinion the quarterly statements filed by the company with such banks or financial institutions are in agreement with the books of account of the Company except minor deviations found in stock statements. The difference is due to valuation of obsolete or non-moving stock by the management.

ANNEXURE “B” TO THE INDEPENDENT AUDITOR’S REPORT

(Referred to in paragraph 1 (f) under ‘Report on Other Legal and Regulatory Requirements’ section of our report to the Members of KALYANI COMMERCIALS LIMITED)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of KALYANI COMMERCIALS LIMITED (the “Company”) as of March 31, 2026 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Board of Directors of the Company is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the “ICAI”). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to respective company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor’s Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the ICAI and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2026, based on the internal financial control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

NOTES ANNEXED TO AND FORMING PART OF BALANCE SHEET AS AT 31.03.2026 AND STATEMENT OF PROFIT AND LOSS AND ALSO THE CASH FLOW STATEMENT FOR THE YEAR ENDED ON THAT DATE

1. Company Overview:

Kalyani Commercials Limited (Company) is a public limited company registered under Companies Act, 1956, listed in National Stock Exchange. The registered office of the company is situated BG-223, Sanjay Gandhi Transport Nagar, GT Karnal Road, Delhi, 110042.

The company dealing in trading of Heavy Commercial Vehicle and servicing (Dealership of TATA), Petroleum Product (Dealership of Bharat Petroleum Corporation Limited). The financial statements have been approved by the Board of Directors in the meeting held on 28.05.2026

2(a) BASIS OF PREPARATION OF FINANCIAL STATEMENTS

2.1 Statement of Compliance

In accordance with the notification issued by the Ministry of Corporate Affairs, the Company is required to prepare its Standalone Financial Statements as per the Indian Accounting Standards ('Ind AS') prescribed under section 133 of the Companies Act, 2013 ("Act") (to the extent notified) read with rules, as amended from time to time and guidelines issued by the securities and exchange board of India (SEBI)

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

These financial statements which comprises the balance sheet as at 31.03.2026, the statement of profit & loss (including other comprehensive income), the statement of cash flows & the statement of changes in equity for the year ended 31.03.2026 and a summary of the significant accounting policies and other explanatory information (together herein after referred to as "financial statements").

2.2 Basis of Measurement

The Standalone Financial Statements have been prepared on the historical cost basis at the end of each reporting period, as explained in the accounting policies below.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company takes in to account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these financial statements is determined on such a basis, except for share based payment transactions that are within the scope of Ind AS 102 and measurements that have some similarities to fair value but are not fair value, such as net realizable value in Ind AS 2 or value in use in Ind AS 36. In addition, for financial reporting purposes, fair value measurements are categorized into Level 1, 2, or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurements in its entirety, which are described as follows:

Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;

Level 2 inputs are inputs, other than quoted prices included within level 1, that are observable for the asset or liability, either directly or indirectly; and

Level 3 inputs are unobservable inputs for the asset or liability.

The Financial Statement is presented in INR and all values are rounded to the nearest lakhs except when otherwise stated.

2.3 Use of estimates and judgments

The preparation of the financial statements in conformity with Ind AS requires the Management to make estimates, judgments and assumptions. These estimates, judgments and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period. The application of accounting policies that require critical accounting estimates involving complex and subjective judgments and the use of assumptions in these financial statements have been disclosed in Note 3 'Critical Judgements and Estimates. Accounting estimates could change from period to period.

Actual results could differ from those estimates. Appropriate changes in estimates are made as the Management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

2.4 Basis of classifications of current and non-current

All the assets and liabilities have been classified as current or non-current in the balance sheet,

An asset has been classified as current if (a) it is expected to be realized in, or is intended for sale or consumption in, the Company's normal operating cycle; or (b) it is held primarily for the purpose of being traded; or (c) it is expected to be realized within twelve months after the reporting date; or (d) it is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting date. All other assets have been classified as non-current.

A liability has been classified as current when (a) it is expected to be settled in the Company's normal operating cycle; or (b) it is held primarily for the purpose of being traded; or (c) it is due to be settled within twelve months after the reporting date; or (d) the Company does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting date. All other liabilities have been classified as non-current.

Deferred tax assets and liabilities are classified as no-current assets/ liabilities.

2(b) SIGNIFICANT ACCOUNTING POLICIES

2.1 Revenue Recognition

SALES AND SERVICES

- A. The Company recognizes revenue when control over the promised goods or services is transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services. The Company has generally concluded that it is the principal in its revenue arrangements as it typically controls the goods or services before transferring them to the customer.

Revenue is adjusted for variable consideration such as discounts, rebates, refunds, credits, price concessions, incentives or other similar items in a contract when they are highly probable to be provided. The amount of revenue excludes any amount collected on behalf of third parties.

The Company recognized revenue generally at the point in time when the products are delivered to the customer or when it is delivered to a carrier for export sale, which is when the control over product is transferred to the costumer.

- B. In case of sale of service performance obligation is satisfied when work is executed, customer approves the work performed and recoverability of amount is probable. Transaction price is same as invoice value excluding taxes. Revenue is recognized as and when performance obligation is satisfied.
- C. Revenue is adjusted for variable consideration such as discounts, rebates, refunds, credits, price concessions, incentives, or other similar items in supply and service when they are highly probable to be provided. The amount of revenue excludes any amount collected on behalf of third parties.
- D. Goods and Service Tax (GST) is not received by the company on its own account. Rather it is tax collected on value added to the goods/ services by the seller on behalf of the Government. Accordingly, it is excluded from revenue. However, such tax expenses are included in cost where Company is not availing tax credit of the same.

INTEREST AND DIVIDEND INCOME

Interest income from a financial asset is recognized when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on, time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

Dividend income from investments is recognized when the shareholder's right to receive payment has been established (provided that it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably).

2.2 Leases

The Company assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

The discount rate is generally based on the incremental borrowing rate specific to the lease being evaluated or for a portfolio of leases with similar characteristics. The Company has taken discount rate @10%.

The Company as a lessee

The Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Company recognizes lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

At the date of commencement of the lease, the Company recognizes a right-of-use (ROU) asset and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of 12 months or less (short-term leases) and low value leases. For these short-term and low-value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

Certain lease arrangements includes the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised.

ROU assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. ROU assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases. Lease liabilities are remeasured with a corresponding adjustment to the related ROU asset if the Company changes its assessment of whether it will exercise an extension or a termination option.

Lease liability and ROU assets have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

The Company as a lessor

Leases for which the Company is a lessor is classified as a finance or operating lease. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

The Company recognizes lease income as and when due as per terms of agreements. The respective leased assets are included in the financial statements based on their nature. The Company did not need to make any adjustments to the accounting for assets held as lessor as a result of adopting the new leasing standard.

Short-term leases and leases of low-value assets

The Company applies the short-term lease recognition exemption to its short-term leases of property, Plant and Equipment (i.e. those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases that are considered of low value. Lease payments on short-term leases and leases of low-value assets are recognized as expense on a straight-line basis over the lease term or another systematic basis if that basis is more representative of the pattern of the lessee's benefit.

As Lessor

Rental income from operating lease is recognized on a straight-line basis over the term of the relevant lease except where—

- i. Another systematic basis is more representative of the time pattern of the benefit derived from the asset given on lease; or
- ii. The payments to the lessor are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases.

2.3 Borrowing costs:

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use, are added to the carrying cost of those assets, until such time as the assets are substantially ready for their intended use.

All other borrowing costs are recognized in the Statement of Profit and Loss in the period in which they are incurred.

The Company determines the amount of borrowing costs eligible for capitalization as the actual borrowing costs incurred on that borrowing during the period less any interest income earned on temporary investment of specific borrowings pending their expenditure on qualifying assets, to the extent that an entity borrows funds specifically for the purpose of obtaining a qualifying asset. In case if the Company borrows generally and uses the funds for obtaining a qualifying asset, borrowing costs eligible for capitalization are determined by applying a capitalization rate to the expenditures on that asset.

2.4 Retirement and other employee benefits:

The Company participates in various employee benefit plans. These benefit plans are classified as either defined contribution plans or defined benefit plans. Under a defined contribution plan, the company's only obligation is to pay a fixed amount with no obligation to pay further contributions if the fund does not hold sufficient assets to pay all employee benefits. The related actuarial and investment risks fall on the employee.

Under a defined benefit plan, it is the Company's obligation to provide agreed benefits to the employees. The related actuarial & investment risks fall on the Company.

Defined Contribution plan

Company's contributions paid/ payable during the year to Provident Fund, Employee state insurance are recognized in the statement of Profit and Loss Account.

The company is depositing P.F. & ESI contribution only for eligible employees within statutory limits. The employees whose income is above the statutory limits have opted not to subscribe and accordingly, the company is not required to make the contribution.

Defined Benefit Obligation Plans

Gratuity

The liability recognized in respect of gratuity is the present value of defined benefit obligation at the end of the reporting period less the fair value of plan assets, where applicable. The Company makes contribution to the LIC for Employees Gratuity Scheme in respect of employees of the company. The defined benefit obligation is calculated annually by the actuary using the Projected Unit Credit Method by the Actuarial Valuer. Re-measurement comprising actuarial gains and losses are recognized in the other comprehensive income for the period in which they occur and is not reclassified to profit or loss.

All other expenses related to defined benefit plans are recognized in Statement of Profit and Loss as Employee benefit expenses.

Compensated absences

The Company has a policy on compensated absences which are non-accumulating in nature neither company provides encashment of leaves.

2.5 TAXATION:

Tax expense comprises of current tax, deferred tax and Dividend Tax which are described as follows -:

(a) Current Tax

Current tax is measured at the amount expected to be paid to the tax authorities, using the applicable tax rates. Current tax is calculated using tax rates that have been enacted or substantively enacted by the end of reporting period. Current Tax is generally charged to profit & loss except when they relate to items which are recognized in other comprehensive income or equity.

(b) Deferred Tax

Deferred tax is recognized on differences between the carrying amounts of assets and liabilities in the Balance sheet and the corresponding tax bases used in the computation of taxable profit and are accounted for using the liability method. Deferred tax liabilities are generally recognized for all taxable temporary differences, and deferred tax assets are generally recognized for all deductible temporary differences, carry forward tax losses and allowances to the extent that it is probable that in future taxable profits will be available to set off such deductible temporary differences. Deferred tax assets and liabilities are measured at the applicable tax rates. Deferred tax assets and deferred tax liabilities are off set, and presented as net. The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available against which the temporary differences can be utilised.

2.6 Property, Plant and Equipment

PROPERTY, PLANT & EQUIPMENT is recognized when it is probable that future economic benefits associated with the items will flow to the company and the cost of the item can be measured reliably.

PROPERTY, PLANT & EQUIPMENTS are stated at cost net of Cenvat less accumulated depreciation and impairment losses, if any. Cost of acquisition is inclusive of freight, duties, attributable overheads, taxes and incidental/preoperative expenses and interest on loans attributable to the acquisition of assets upto the date of commissioning of assets.

Assets in the course of construction are capitalized in the assets under construction account. At the point when the asset is operating at management's intended use, the cost of construction is transferred to the appropriate category of the PROPERTY, PLANT & EQUIPMENT and depreciation commences.

Free hold land is carried at historical cost.

Leasehold land is not amortized as all leasehold land is on 99 years lease with local authority.

All other items of property plant and equipment are stated at historical cost. Historical cost includes expenditure that is directly attributable to the acquisition of items.

Subsequent costs are included in assets carrying amount or recognized as a separate asset, as the case may be, only when it is probable that future economic benefits with the PROPERTY, PLANT & EQUIPMENT will flow to the entity and cost of the item will be measured reliably.

Carrying amount of component is recognized as a separate asset. Such component is derecognized when replaced.

Items of stores and spares that meet the definition of property, plant and equipment are capitalized at cost. Otherwise, such items are classified as inventories.

Repairs and maintenance are charged to profit and loss account as and when they are incurred.

An item of PROPERTY, PLANT & EQUIPMENT is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of asset. Any gain or loss arising on the disposal or retirement of an item of PROPERTY, PLANT & EQUIPMENT is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognized in statement of profit & loss.

Depreciation

Depreciable amount for assets is the cost of an asset, or other amount substituted for cost, less its estimated residual value. Depreciation is recognised so as to write off the cost of assets (other than freehold land and properties under construction) less their residual values over their useful lives, using written down value method as per the useful life prescribed in Schedule II to the Companies Act, 2013.

2.7 Investment properties

Property that is held for long-term rental yields or for capital appreciation or both, and that is not occupied by the group, is classified as investment property. Investment property is measured initially at its cost, including related transaction costs and where applicable borrowing costs. Subsequent expenditure is capitalised to the asset's carrying amount only when it is probable that future economic benefits associated with the expenditure will flow to the group and the cost of the item can be measured reliably. All other repairs and maintenance costs are expensed when incurred. Leasehold land is stated at historical cost. Leasehold land is not amortised over the period of lease as all leasehold land is on 99 years lease with local authority. Though the Company measures investment property using cost-based measurement, the fair value of investment property is disclosed in the notes. Fair values are determined based on annual evaluation performed by an external independent valuer/Internal assessment.

2.8 Intangible Assets (Software)

Identifiable intangible assets are recognized a) when the Company controls the asset, b) it is probable that future economic benefits attributed to the asset will flow to the Company and c) the cost of the asset can be reliably measured.

“Computer softwares are capitalized at the amounts paid to acquire the respective license for use and are amortized over the period of license, generally not exceeding six years on straight line basis. The assets useful lives are reviewed at each financial year end. Software is amortized over an estimated useful life of 3 years.”

2.9 Capital Work in Progress

Expenditure incurred on assets under construction (including a project) is carried at cost under Capital Work in Progress. Such cost comprises the purchase price of the asset, including import duties and non-refundable taxes, after deducting trade discounts and rebates, and costs that are directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

Costs directly attributable to projects under construction include Costs of employee benefits, Expenditure in relation to survey and investigation activities of the projects, Cost of site preparation, Initial delivery and handling charges, Installation and assembly costs, Professional fees, Expenditure on maintenance and up-gradation, etc., of common public facilities Depreciation on assets used in construction of the project, Interest during construction; and Other costs if attributable to construction of projects. Such costs are accumulated under “Capital Works in Progress” and subsequently allocated on a systematic basis over major assets, other than land and infrastructure facilities, on commissioning of projects.

Capital expenditure incurred for the creation of facilities over which the Company does not have control, but the creation of which is essential principally for the construction of the project, is capitalized and carried under “Capital Work in Progress”. Such expenditure is subsequently allocated on a systematic basis over major assets, other than land and infrastructure facilities, on commissioning of projects, keeping in view the “attributability” and the “Unit of Measure” concepts in Ind AS 16 – *Property, Plant & Equipment*. Expenditure of such nature incurred after completion of the project is charged to the Statement of Profit and Loss.

2.10 Impairment of Assets:

The carrying amounts of assets are reviewed at each Balance Sheet date if there is any indication of impairment based on internal/external factors.

An impairment loss is recognized in the Statement of Profit and Loss whenever the carrying amount of an asset or a cash generating unit exceeds its recoverable amount. The recoverable amount of the assets (or where applicable, that of the cash generating unit to which the asset belongs) is estimated as the higher of its net selling price and its value in use. A previously recognized impairment loss is increased or reversed depending on changes in circumstances.

However the carrying value after reversal is not increased beyond the carrying value that would have prevailed by charging usual depreciation if there was no impairment.

2.11 INVENTORIES

Inventories, are valued at lower of cost (determined on FIFO Method and Specific identification method for Vehicles) and net realisable value. The bases for determining cost for different categories of inventory are as under:

Trading Goods (Including Spare parts)	Cost of purchase (including other cost incurred in bringing inventory to its present location and condition.)
---------------------------------------	---

2.12 Provisions, contingent liabilities & Assets:

A Provision is recognized when an enterprise has a present obligation as a result of past event, it is probable that an outflow of resources will be required to settled the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are not disclosed to its present value and are determined based on best management estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made. Information on contingent liability is disclosed in the Notes to the Financial Statements. Contingent assets are not recognized in financial statements but are disclosed, if any.

A contingent asset is a possible asset that arises from past events the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the enterprise.

2.13 Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. A financial asset or a liability is recognised when the Company becomes a Party to the contractual provision of the instrument.

(a) "Financial Assets are measured at amortised cost or fair value through Other Comprehensive Income or fair value through Profit or Loss, depending on its business model for managing those financial assets

and the assets contractual cash flow characteristics. Subsequent measurements of financial assets are dependent on initial categorization. For impairment purposes significant financial assets are tested on an individual basis, other financial assets are assessed collectively in groups that share similar credit risk characteristics. The company derecognizes a financial asset when the contractual rights to the cash flows from the financial assets expire or it transfers the financial assets and the transfer qualifies for the derecognition under Ind AS 109."

Cash and Cash Equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value. For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short term deposits, as defined above.

(b) All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs. The Company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts.

Loans & Borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortized cost using the EIR method. Gains and losses are recognized in the statement of profit and loss when the liabilities are derecognized as well as through the EIR amortization process.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the statement of profit and loss.

Trade & Other payables

A payable is classified as 'trade payable' if it is in respect of the amount due on account of goods purchased or services received in the normal course of business. These amounts represent liabilities for goods and services provided to the Company prior to the end of financial year which are unpaid. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognized initially at their fair value and subsequently measured at amortized cost using the effective interest method."

2.14 Segment Reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. Chief operating decision maker review the performance of the Company according to the nature of products traded and services provided, with each segment representing a strategic business unit that offers different products and serves different markets. The analysis of segments is based on the activities performed by each segment.

The Company prepares its segment information in conformity with the accounting policies adopted for preparing and presenting financial statements of the Company as a whole.

2.15 Earnings per Share

Earnings considered in ascertaining the company's earning per share comprises the net profit after tax attributable to equity shareholders.

Basic earnings per share is computed using the weighted average number of equity shares outstanding during the period. Diluted earnings per share are computed using the weighted average number of equity and dilutive equivalent shares outstanding during the period.

2.16 Supply chain financing arrangement

Includes amount payable to Micro, Small and Medium Enterprise vendors through TReDS portal for the financing facility availed by the Company. Under these facilities, the third party shall pay the amount on behalf of the Company and the Company shall pay the third party on the due date along with interest. As the facility provided by the third party is within the credit period provided by the customer, the outstanding liability has been disclosed under "Short term Borrowings"- Unsecured

3. Critical judgments and estimates

In the process of applying the Company's accounting policies, management has made the following estimates, assumptions and judgments, which have significant effect on the amounts recognized in the financial statement. Uncertainty about these assumptions and estimates could result in outcome that require a material adjustment to assets or liabilities affected in future periods.

i) Property, plant and equipment

Property, Plant and equipment represent a significant proportion of the asset base of the company. The useful lives and residual value of the company's asset are determined by the management at the time the asset is acquired and reviewed at each reporting date.

ii) Contingencies

In the normal course of business, contingent liabilities may arise from litigation and other claims against the Company. Potential liabilities that are possible but not probable of crystallizing or are very difficult to quantify reliably are treated as contingent liabilities. Such liabilities are disclosed in the notes but are not recognized.

iii) Income Tax and Deferred Tax

The Company's tax jurisdiction is India. Significant judgments are involved in estimating budgeted profits for the purpose of paying advance tax, determining the provision for income taxes, including amount expected to be paid/recovered for uncertain tax positions.

iv) Allowance for uncollected accounts receivable and advances

Trade receivables do not carry any interest and are stated at their normal value as reduced by appropriate allowances for estimated irrecoverable amounts. Individual trade receivables and advances are written off when management deems them not to be collectible. Impairment is made on the expected credit losses, which are the present value of the cash shortfall over the expected life of the financial assets.

v) Impairment of non-financial assets

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an assets or CGU's fair value less costs of disposal and its value in use. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

vi) Impairment of financial assets

The impairment provisions for financial assets are based on assumptions about risk of default and expected loss rates. The Company uses judgment in making these assumptions and selecting the inputs to the impairment calculation, based on Company's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

- vii) Fair value measurement of financial instruments
- viii) When the fair values of financial assets and financial liabilities recorded in the Balance Sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques, including the discounted cash flow model, which involve various judgments and assumptions.

Income Taxes				

Indian companies are subject to Indian income tax on a standalone basis. For each fiscal year, the entity profit and loss is subject to the regular income tax. Further, the government has introduced the Taxation Laws (Amendment) Act, 2019 and has given the option of lower tax rate subject to certain conditions. The management has carried out an assessment according to which the Company shall opt for new tax regime.

Statutory income taxes are assessed based on book profits prepared under generally accepted accounting principles in India adjusted in accordance with the provisions of the (Indian) Income tax Act, 1961. Such adjustments generally relate to depreciation of fixed assets, disallowances of certain provisions and accruals and retirement benefit costs. Statutory income tax is charged at 22% plus a surcharge and education cess.

Particulars		Gratuity (Funded)	
		2025-26	2024-25
1	Principal Actuarial Assumptions used as at the Balance Sheet date:		
	Discount Rate	7.46%	6.80%
	Expected Rate of Return on Plan Assets	7.46%	6.80%
	Salary Escalation Rate	7.00%	7.00%

	Withdrawal Rate	3% at younger ages reducing to 1% at older ages	3% at younger ages reducing to 1% at older ages
--	-----------------	---	---

The assumption of future salary increase takes into account the inflation, seniority, promotion and other relevant factors such as supply and demand in employment market. The above information is certified by the Actuary.

A. Actuarial Risk: It is the risk that benefits will cost more than expected. This can arise due to one of the following reasons:

Adverse Salary Growth Experience: Salary hikes that are higher than the assumed salary escalation will result into an increase in Obligation at a rate that is higher than expected.

Variability in withdrawal rates: If actual withdrawal rates are higher than assumed withdrawal rate assumption than the Gratuity benefits will be paid earlier than expected. The impact of this will depend on whether the benefits are vested as at the resignation date.

B. Investment Risk: For funded plans that rely on insurers for managing the assets, the value of assets certified by the insurer may not be the fair value of instruments backing the liability. In such cases, the present value of the assets is independent of the future discount rate. This can result in wide fluctuations in the net liability or the funded status if there are significant changes in the discount rate during the inter-valuation period.

C. Liquidity Risk: Employees with high salaries and long durations or those higher in hierarchy, accumulate significant level of benefits. If some of such employees resign/retire from the company there can be strain on the cashflows.

D. Market Risk: Market risk is a collective term for risks that are related to the changes and fluctuations of the financial markets. One actuarial assumption that has a material effect is the discount rate. The discount rate reflects the time value of money. An increase in discount rate leads to decrease in Defined Benefit Obligation of the plan benefits & vice versa. This assumption depends on the yields on the corporate/government bonds and hence the valuation of liability is exposed to fluctuations in the yields as at the valuation date.

E. Legislative Risk: Legislative risk is the risk of increase in the plan liabilities or reduction in the plan assets due to change in the legislation/regulation. The government may amend the Payment of Gratuity Act thus requiring the companies to pay higher benefits to the employees. This will directly affect the present value of the Defined Benefit Obligation and the same will have to be recognized immediately in the year when any such amendment is effective.

35. Financial instruments

35.1 Fair Valuation Techniques

The Company maintains policies and procedures to value financial assets or financial liabilities using the best and most relevant data available. The fair values of the financial assets and liabilities are included at the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The following methods and assumptions were used to estimate the fair values:

- 1) Fair value of cash and deposits, other bank balances, trade receivables, loans, trade payables, and other financial assets and liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments.
- 2) Long-term fixed-rate and variable-rate receivables / borrowings are evaluated by the Company based on parameters such as interest rates, specific country risk factors, credit risk and other risk characteristics. Fair value of variable interest rate borrowings approximates their carrying values. For fixed interest rate borrowing fair value is determined by using the discounted cash flow (DCF) method using discount rate that reflects the issuer's borrowings rate. Risk of non-performance for the company is considered to be insignificant in valuation.

35.2 Financial Risk Management

The Company's activities are exposed to a variety of financial risks from its operations. The key financial risks include market risk (including interest rate risk etc.), credit risk and liquidity risk. The company's overall risk management policy seeks to minimize potential adverse effects on company's financial performance.

(A) Market Risk: Market risk is the risk that the fair value of future cash flow of financial instruments will fluctuate because of change in market prices. Market risk comprises mainly of interest rate risk.

(a) Interest rate risk: Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Any change in the interest rates environment may impact future rates of borrowing. The company mitigates this risk by regularly assessing the market scenario, finding appropriate financial instruments, interest rate negotiation with the lenders for ensuring the cost-effective method of financing.

(b) Interest Rate Sensitivity: The following table demonstrates the sensitivity to a reasonable possible change in interest rate on financial assets affected. With all other variable held constant, the company's profit before tax is affected through the impact on finance cost with respect to our borrowing as follows:

A change in 25 basis points in interest rates would have following impact on profit after tax calculated on the outstanding amount of long term and short-term borrowings at the year end.

Effect on Profit after Tax	23.06	12.96
Change in basis points	-25	-25
Effect on Profit after Tax	-23.06	-12.96

(c) Price Risk: The Company don't have exposure to securities price risk.

(d) **Commodity price risk:** The Company is affected by the price volatility of certain commodities. Its operating activities require the purchase of trading goods therefore, requires a continuous supply of certain raw materials. To mitigate the commodity price risk, the Company has an approved supplier base to get competitive prices for the commodities and to assess the market to manage the cost without any compromise on quality.

(B) Credit Risk:

Credit risk arises from the possibility that counter party may not be able to settle their obligation as agreed. Credit risk primarily arises from financial assets such as trade receivables, other balance with banks, loans and other receivables.

Trade Receivables: - The maximum exposure to credit risk is primarily from trade receivables. The company periodically assesses the credit quality of counter parties, taking into the financial condition, current economic trends, past experiences and other factors.

The company has a well-defined sale policy to minimize its risk or credit defaults. Outstanding receivables are regularly monitored and assessed. Impairment analysis is performed based on historical data at each reporting date on an individual basis.

Financial assets are written off when there is no reasonable expectation of recovery, such as customer failing to engage in a repayment plan with the company.

Ageing of the trade receivable is given at Note 11.

(C) Liquidity Risk

Liquidity risk is the risk, where the company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The company's approach to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when due.

The table below summarizes the maturity profile of company's financial assets and liabilities based on contractual undiscounted payments.
