ANNEXURE II

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

OVERVIEW:

Incorporated in 1996, Bohra Industries Limited is a publicly listed company engaged in the manufacture, processing and trading of fertilizers, agro-chemicals and industrial chemicals, including SSP and GSSP. The Company also undertakes trading, import and export of minerals, ores, metals, industrial materials and related products. Its objects further include engineering, procurement, construction and consultancy services for industrial and infrastructure projects. The Company is also authorised to undertake activities in the power and renewable energy sector, including wind, solar and captive power projects. Overall, the Company has a diversified business profile spanning fertilizers, chemicals, industrial materials, engineering and energy-related activities.

INDIAN ECONOMY OVERVIEW:

Agriculture, in India, is the largest sector of economic activity. It provides food, raw materials and above all, the employment to a very large proportion of population. The national output depends on the output in agriculture, as it is one of the most dominating sectors in India. For the same reason, it has to provide the capital required for its own development and make available surplus for national economic development. At the same time, the exports of primary produce earn valuable foreign exchange which can be used to import capital goods for the development of industry and infrastructure. Because of all these reasons, an improved and efficient agriculture is a necessity in our economy. The vital role of agriculture arises out of the position the agrarian sector occupies in the overall economy of the country. 80 percent per cent of the population resides in the rural areas and 72 per cent of the work force depends on agriculture for their livelihood.

Agriculture is the back bone of the Indian economy, and hence, the very existence of economic activities of entire population in the country is dependent on the state and health of its agriculture sector. Since last 40 years, the fertilizer industry in India has grown tremendously. The Government is keen to see that fertilizer reaches the farmers in the distant and hilly areas. This is the reason why it has been decided to decontrol the prices, distribution and movement of phosphate and other fertilizers. Some steps are implemented to assure an increase in the supply of chemical fertilizers at reasonable prices. In India, Fertilizer Industry is accelerating fertilizer consumption by fixing, on the one hand, low and similar price for identical nutrient in fertilizers, and on the other hand providing the manufacturers ample compensation through the retention price and subsidy scheme through NBS. Due to such corrective steps, the fertilizer nutrient demand has gone up. Govt. has initiated DBT for farmers which would further push the consumption in long run and ease up blocked funds of manufacturers with government and improve working of the fertilizer sector.

**OUTLOOK AND PROSPECTS:**

The Company has a diversified business outlook, with its objects covering fertilizers, agro-chemicals, industrial chemicals, minerals, metals, engineering and infrastructure services, consultancy and renewable energy. The Company can leverage opportunities in the fertilizer and chemical sector through manufacturing, processing, trading, import and export of related products. Its engineering and consultancy capabilities provide scope for undertaking industrial and infrastructure projects, including turnkey and EPC activities. Overall, the broad scope of its business objects provides the Company with opportunities to diversify its operations and pursue growth across multiple industrial segments.

(1) Industry structure and developments:

The fertilizer industry in India consists of three major players: Government-owned Public Sector Undertakings, Cooperative Societies like KRIBHCO and IFFCO, and Private sector units. There are 33 major producers producing N, NP, and NPK fertilizers in the country. Over 100 SSP fertilizer manufacturers produce over 4400K MT annually. The fertilizer industry of India continues to make constructive use of the government fertilizer subsidy to ensure the country maintains self-sufficiency in food grain production. The fertilizer industry organizes itself through the Fertilizer Association of India to coordinate with the Government of India to achieve macroeconomic agricultural objectives. The Indian fertilizer industry succeeds in meeting almost fully the demand for key chemical fertilizers through domestic output and calibrated imports.

CONCERNS:

Our Company's future costs and revenues will be determined by demand/supply situation, government, policies, subsidies available and prices of raw material.

Risk and Government policy risk, competition risk: In the fertilizer industry and pretty much any other commodity. Companies' revenue depends on fertilizer prices and the quantity of fertilizer companies sell. Fertilizer prices are driven by industry capacity, rivalry (competition among firms), and marginal producers cost, proximity to customers, inventory, and demand. Demand, in turn, is driven by fertilizer prices, crop economics, currencies, cycles, economic activity, and macro factors like subsidy programmes of government. Crop economics consist of factors like crop inventory, crop demand and supply, and crop prices, which depend on economic activity, food consumption, diet patterns, crop yields, nutrient application, weather, plantation, and energy consumption.

OUTLOOK:

It's universally accepted that the use of chemical fertilizer is an integral part for raising the agricultural production to a higher level. Studies conducted by the Food and Agricultural Organization of the United Nations (FAO) have established beyond doubt that there is a close relationship between the crop yields and fertilizer consumption. More over the nutritional

requirement of different crops could not be fully met with the use of organic manures like FYM and other bulky organic manures like neem cake, castor cake, groundnut cake etc. for want of their availability in adequate quantities. And increasing agriculture production by increasing cultivation area is no longer possible as cultivable and left over is only marginal and decreasing. Further a considerable cultivable land is being diverted year after year for housing and industrial etc. Hence self - sufficiency in food lies in increasing the yield per hectare through adoption of modern agricultural technology. Fertilizers have the advantages of fast movement in bulk and need based.

SEGMENT WISE PERFORMANCE

During the period under review, the total revenue earned was ₹0.20 lakh, compared to nil revenue in the previous year. The Company has incurred a net loss of ₹297.03 lakhs as against a net loss of ₹368.33 lakhs in the previous year.

The operations of the Company have remained temporarily suspended during the year resulting in nil operational revenue however, the Directors remain hopeful of resuming operations and reviving growth in the near future.

OPPORTUNITIES

There is a compelling need for alternate fertilizers which will have lesser wastage and reduced fertilizer usage while keeping the same or more yield. This opens up for new investment with better return while ensuring food security. Business diversification like Trading of fertilizer products will improve the bottom line of the company.

THREATS

High volatility in the prices of raw material resulting in an adverse impact on production and marketing plans which eventually affects the bottom line of the company.

RISK AND CONCERNS

The fertilizer sector still depends on subsidies from the government. Notwithstanding a timely pay-out of outstanding amount to all fertilizer manufacturers by the government in the wake of a global commodity Price-hike, any delay in subsidy disbursement in future may affect fertilizer manufactures.

INTERNAL CONTROL SYSTEMS

The Company has built adequate systems on Internal Financial Controls towards achieving efficiency and effectiveness in operations, optimum utilization of resources, and effective monitoring thereof as well as compliance with all applicable laws. The internal control mechanism comprises a well-defined organisation structure, documented policy guidelines, predetermined authority levels and processes commensurate with the level of responsibility and that same are adequate and operating effectively.

**FINANCIAL PERFORMANCE**

The annexed Balance Sheet has given the members, the Company's performance in the year under review.

HUMAN RESOURCES MANAGEMENT

The Company's belief in trust, transparency and teamwork improved employee efficiency at all levels. The Company's commitment to harmonious industrial relations resulted in enhancing effectiveness of operations and enabled the achievement of international benchmarks in tourism business. The company's ongoing objective is to create an inspirational work climate where talented employees engaged in creating sustained value for the stakeholders. Training and orientation programs are being arranged periodically, to update the employees in the work techniques. The overall human resources are positive and we would be able to effectively achieve the desired objectives. The Company has developed an environment of harmonious and cordial relations with its employees.

Cautionary Statement:

Statements in the Management Discussion and Analysis Report describing the Company's objectives, projections, estimates, expectations may be forward looking statements within the meaning of applicable securities laws and regulations. Actual results could differ materially from those expressed or implied. Important factors that could make a difference to the Company's operations include, among other things, economic conditions affecting demand/supply and price conditions in the domestic and overseas markets in which the Company operates, changes in Government regulations, tax laws and other statutes and incidental factors.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of the Financial Statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of The Companies (Accounts) Rules, 2014. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting the frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates

that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibility

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion.

Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Annexure-B to the Independent Auditor's Report

(Referred to in para 2(f) under "Report on other Legal and Regulatory Requirement" of our report of even date)

Report on the Internal Financial Controls under Clause (i) of Sub-Section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Bohra Industries Limited ("the Company") as of March 31, 2026 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") issued by The Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, issued by the ICAI and prescribed under Section 143(10) of the Act, 2013 to the extent applicable, to an audit of internal financial controls both issued by The Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Financial Statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and Directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the Financial Statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2026, based on "the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by The Institute of Chartered Accountants of India".

Significant accounting policies followed by the Company

(A) Basis of preparation of financial statements:

(i) Compliance with Ind AS:

The financial statements comply in all material aspects with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 and other relevant provisions of the Act.

The Standalone Financial Statements are approved for issue by the Companies Board of Directors dated 29th May 2026.

These standalone financial statements have been prepared on historical cost basis except for certain financial instruments and defined benefit plans which are measured at fair value or amortised cost at the end of each reporting period. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. All assets and liabilities have been classified as current and non-current as per the Companies normal operating cycle. Based on the nature of services rendered to customers and time elapsed between deployment of resources and the realisation in cash and cash equivalents of the consideration for such services rendered, the Company has considered an operating cycle of 12 months.

(B) Use of estimates:

The preparation of financial statements in conformity with the generally accepted accounting principles requires estimates and assumptions to be made by the management that affect the reported amount of assets and liabilities on the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Differences between actual results and estimates are recognized in the period in which the results are crystallized.

Estimates and underlying assumptions are reviewed on ongoing basis. Revisions to estimates are recognised prospectively.

(C) Revenue recognition:

- (a) Revenue from the sale of goods is recognized upon the passage of title to the customers, which generally coincides with delivery.
- (b) Export sales are accounted based on the dates of Bill of Lading.
- (c) Interest Income is accrued on time proportion basis over the period of loan / deposit / investment except in case of significant uncertainties.

(D) Property, Plant and Equipment:

- (a) All items of property, plant and equipment are stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items. Cost may also include hedges of foreign currency purchases of property, plant and equipment. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associates with the item will flow to the Company and the cost of the item can be measured reliably. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

(b) Depreciation methods, estimated useful lives and residual value:

(i) Depreciation: The Company has ascertained the useful life of its various assets and charged depreciation in accordance with Schedule II of the Companies Act, 2013.

(ii) Leasehold Land is amortized over the period of lease.

(iii) The useful lives have been determined based on technical evaluation done by the management's expert in order to reflect the actual usage of the assets. The residual values are not more than 5% of the original cost of the asset. The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

(iv) An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

(v) Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in statement of profit and loss.

(E) Intangible Assets:

Computer Software and Technical Know-How are amortized over a period of 3 years from the date of acquisition.

(F) Capital Work in Progress:

Expenditure during construction period including development cost incurred on the projects under implementation are treated as pre-operative expenses pending allocation to the assets and are included under "Capital Work in Progress". These expenses are apportioned to fixed assets on commencement of commercial production.

(G) Impairment of Assets:

An asset is treated as impaired when the carrying cost of the asset exceeds its recoverable value. An impairment loss, if any, is charged to statement of profit and loss in the year in which an asset is identified as impaired. The impairment loss recognized in prior accounting period is reversed if there has been a change in the estimate of recoverable amount.

(H) Valuation of Inventory:

(a) Raw Materials and components, semi-finished goods, finished goods, stores and spares, goods for trade are valued at cost or net realizable value whichever is lower. Cost formula used is weighted average cost. Cost comprises of cost of purchase, cost of conversion and other cost incurred in bringing the inventory to its present location and condition.

(b) Goods / Materials in Transit are valued at cost to date.

(c) Scrap is valued at its estimated realizable value.

(d) Adequate provisions are made for obsolete inventory based on technical estimates made by the Company.

(I) Foreign Currency Transactions:

Transactions arising in foreign currencies during the year are converted at the rates closely approximating the rates ruling on the transaction dates. Liabilities and receivables in foreign currency are restated at the year end exchange rates. All exchange rate differences arising from conversion in terms of the above are included in the statement of profit and loss.

In case of items which are covered by forward exchange contracts, the difference between the year end rate and rate on the date of contract is recognised as exchange difference and the premium paid on forward contracts is recognised over the life of the contract.

(J) Employee Benefits:**(i) Short-term obligations:**

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The Liabilities are presented under current liabilities in the balance sheet.

(ii) Other long-term employee benefit obligations:

The liabilities for earned leave are measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in statement of profit and loss.

(iii) Post-employment obligations:

(a) Defined contribution plans: Company's contribution to the provident fund scheme is recognized during the year in which the related service is rendered.

(b) Defined benefit plans: The liability or asset recognised in the balance sheet in respect of gratuity plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by actuaries using projected unit credit method. However company is paying and enjoying gratuity on actual payment basis and not on valuation basis since 2014.

(c) The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the statement of profit and loss.

(d) Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

(e) Changes in present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in profit or loss as past service cost.

(K) Research and Development Costs:

Revenue expenditure, including overheads on research and development, is charged as an expense through the natural heads of account in the year in which incurred. Expenditure incurred at development phase, where it is reasonably certain that outcome of research will be commercially exploited to yield economic benefits to the Company, is considered as an Intangible assets and depreciation is provided on such assets as applicable.

(L) Investments:

Current investments are carried at lower of cost or fair value. Long term investments are carried at cost less provision for other than temporary decline in the value of such investments. Investment in subsidiaries are valued at cost.

(M) Borrowing Cost:

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is required to complete and prepare the assets for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale. Other borrowing costs are expensed in the period in which they are incurred.

(N) Taxation:

Income tax expense comprises Current tax and Deferred tax charge or credit. Provision for Current tax is made on the assessable income at the tax rate applicable to the relevant assessment year. Minimum alternative tax (MAT) paid in accordance with the tax laws, which gives rise to future economic benefits in the form of adjustment of future income tax liability, is considered as an asset if there is convincing evidence that the Company will pay normal income tax.

Accordingly, MAT is recognized as an asset in the balance sheet when it is probable that the future economic benefit associated with it will flow to the Company and the asset can be measured reliably. The deferred tax asset and/or deferred tax liability is calculated by applying substantively enacted rate as at balance sheet date. Deferred tax assets arising mainly on account of brought forward losses and unabsorbed depreciation is recognized if and only if there is virtual certainty backed by convincing evidence of its realization. At each balance sheet date, carrying amount of deferred tax assets is reviewed to reassure realization.

(O) Share Issue Expenses:

Issue expenses are adjusted against the Share Premium.

(P) Government Grant/Loan:

Capital grants for project capital subsidy are credited to capital reserves.

(Q) Provisions, Contingent Liabilities and Contingent Assets:

Provisions involving a substantial degree of estimation in measurement are recognized when there is a present obligation as a result of past events and it is probable that there will be an outflow of resources. Contingent Liabilities are not recognized but are disclosed in the notes. Contingent Assets are neither recognized nor disclosed in the financial statements.

35. Fair values of financial assets and financial liabilities:

The fair value of other current financial assets, cash and cash equivalents, trade receivables, trade payables, short term borrowings and other financial liabilities approximate the carrying amounts because of the short term nature of these financial instruments.

The amortised cost using effective interest rate (EIR) of non current financial assets consisting of security and term deposits are not significantly different from the carrying amount.

Financial assets that are neither past due nor impaired includes cash and cash equivalents, security deposits, term deposits and other financial assets.

The impact of fair value on non current borrowings, non current security deposits and non current term deposits are not significant and therefore the impact of fair value is not considered for above disclosure.

36. Financial risk management objectives and policies:

The Company is exposed to various financial risks. These risks are categorized into market risk, credit risk and liquidity risk. The Company's risk management is coordinated by the Board of Directors and focuses on securing long term and short term cash flows. The Company does not engage in trading of financial assets for speculative purposes.

(A) Market risk:

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk, such as equity price risk and commodity risk. Financial instruments affected by market risk include borrowings and derivative financial instruments.

(i) Interest rate risk:

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company exposure to the risk of changes in market interest rates relates primarily to the Company's long-term debt obligations with floating interest rates.

(ii) Foreign currency risk:

The Company is exposed to foreign currency risk arising mainly on borrowing, export of finished goods and import of raw material. Foreign currency exposures are managed within approved policy parameters utilising forward contracts.

(B) Credit risk:

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations. Credit risk arises principally from the statutory deposits with regulatory agencies and also arises from cash held with banks and financial institutions. The maximum exposure to credit risk is equal to the carrying value of the financial assets. The objective of managing counterparty credit risk is to prevent losses in financial assets. The Company assesses the credit quality of the counterparties, taking into account their financial position, past experience and other factors.

The Company limits its exposure to credit risk of cash held with banks by dealing with highly rated banks and institutions and retaining sufficient balances in bank accounts required to meet a month's operational costs. The Management reviews the bank accounts on regular basis and fund drawdowns are planned to ensure that there is minimal surplus cash in bank accounts. The Company does not foresee any credit risks on deposits with regulatory authorities.

(C) Liquidity risk:

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due. The Company manages its liquidity risk by ensuring, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due.

37. Capital management:

For the purpose of the Company's capital management, capital includes issued equity capital, share premium and all other equity reserves attributable to the equity holders. The primary objective of the Company's capital management is to maximize the shareholder value and to ensure the Company's ability to continue as a going concern.
