COMPANY PERFORMANCE

During the year under review, your company's turnover was Rs. 19764.49 lakhs as against Rs.12684.33 lakhs for the previous year. The profit before interest and depreciation of Rs. 1745.02 Lakhs was lower by 43% as compared to the last year.

The performance of the Company was adversely affected mainly due to low availability of sugarcane, leading to lower production of sugar and lower bagasse and molasses availability impacting the entire value chain. In Karnataka both the units at Haliyal and Ramdurg had initial technical problems leading to lower production. At Haliyal, after the crushing started the plant could not work at full capacity for nearly 50 days due to design issues of the Evaporator. There was also considerable delay in getting the license for Distillery operations from the Government of Karnataka; this combined with plant stabilization challenges led to low production at Distillery. At Ramdurg, there was a breakdown of the turbo-generator and collapse of spray pond during the beginning of the season due to which commencement of crushing was delayed by about 4 weeks. Both plants have, however, stabilized towards the end of the season.

The Company also faced the challenge of mobilizing harvesting and transport gangs in Karnataka. On the pricing front while the selling price of sugar started going up in the first two quarters, the Company could not take advantage owing to low carry forward inventories. During the season, high cane prices more than negated the improvement in selling prices. Moreover in line with the Industry, the Company had to pay over Rs. 831.29 Lakhs during the year in Karnataka as additional cane price for the cane supplied during the previous year. The Government has also enhanced the levy quota of sugar from 10% to 20% without corresponding increase in the levy price, thus putting additional burden on the Company.

During the year, the Company has written back Rs.1408.12 Lakhs being the provision made towards "L" factor pursuant to an amendment made to the sugarcane control order.

NEW PROJECTS

During the year, the Company acquired the balance share capital of Alagawadi Bireshwar Sugars Pvt. Ltd. (ABSPL), which has become a wholly-owned subsidiary of the Company w.e.f. 27th March, 2010. ABSPL proposes to set up an integrated sugar plant at Raibagh, Karnataka and the land acquisition process is almost completed. The acquisition of land at Srikakulam is also in progress.

MEASURES TAKEN FOR CANE DEVELOPMENT

Implementation of the 5-year Cane Development Plan that your Company had drawn last year is under progress and this is expected to improve cane acreage and yield in the coming years. Major cane development programs will continue to be initiated by the Company aimed at improving area under cultivation, cane yield and improving the quality of cane.

CLEAN DEVELOPMENT MECHANISM (CDM)

As the shareholders are aware, the Company has registered its Methane Capture Project with UNFCCC-Clean Development Mechanism (CDM). Your Company shall further pursue its effort in identifying fresh CDM Projects in new locations at Haliyal for energy efficiency devices.

SHARE PURCHASE AGREEMENT

The promoters of the Company M/s. GMR Holdings Pvt. Ltd. have signed a Share Purchase Agreement with EID Parry(India) Ltd (EID Parry) on 25th April 2010 to sell up to 1,29,75,110 but not less than 1,01,80,471 Shares, i.e., constituting up to 65% but not less than 51% of the issued and paid up equity share capital of our Company and the entire preference share capital of the company viz., 12831880 Preference shares of Rs.11/- each. The acquisition of equity shares in our Company by EID Parry is subject to the compliance by EID Parry of the SEBI (Substantial Acquisition of Shares and Takeovers) Regulations, 1997 (Takeover Code). Pursuant to such requirement under the Takeover Code, EID Parry has made a Public Announcement on 26th April 2010.

EID Parry, established in the year 1788, is part of Murugappa group, one of the respected and largest business groups in the country. EID Parry is a dominant player in Sugar with interests in promising areas of Bio Pesticides and Nutraceuticals. Incorporated in 1975, the company has five sugar factories having a capacity to crush 19000 Tonnes of Cane per day, generate 85 MW of power and two distilleries having a capacity of 135 KLPD. EID Parry, being an established player in the Sugar Industry with proven track record, we believe that this proposed acquisition will enhance the shareholders' value in the long run and will further reinforce the Company's commitment to the sugar business and strengthen our relationship with the Farmers.

MANAGEMENT DISCUSSION & ANALYSIS

SUGAR INDUSTRY OVERVIEW

In response to the surge in retail sugar prices towards the latter half of the year, the Government intervened with a series of measures. The levy quota was increased from 10% to 20% without a corresponding increase in price. Restrictions were imposed on stock holding by major institutional buyers. To address the demand-supply gap and the consequent effect on prices the release mechanism was tightened and import duty on raw and white sugar was lifted.

With supplies easing towards the end of the year and the estimated sugar production revised upwards, sugar prices fell considerably thereby adversely affecting the economics of the Mills which had taken positions on raw sugar imports.

There is likely to be a surge in domestic sugar production in the next two years, 22.5 million MT in 2010-11 going up to 30 million MT in 2011-12, against 18 million MT in 2009-10. The consumption is expected to grow at around 3% from the current level of 24 million MT.

Our Performance during 2009-2010

Crushing of sugarcane during the year was 5,85,352 MT (2008-09; 3,83,244 MT). The sugar production was at 5,66,855 qtls (2008-09; 3,89,825 Qtls) and sales was 4,56,592 qtls (2008-09; 3,05,278 qtls). The average sugar sales realization was Rs. 2,779 per qtl. (2008-09; Rs.1,717 per qtl). During the year, the Company processed 19963 MT of raw sugar at its Sankili plant on job work basis and achieved a contribution of Rs.137.47 Lakhs.

COGENERATION

As per estimates, there is a potential for power generation of about 15,000 MW (including sugar industry) through co-generation in various core industries in the country. Co-generation will help to improve the quality of life while keeping the environment clean.

The sugar industry is playing an important role within this renewable energy landscape. Bagasse, a sugar industry by-product and other renewable biomass can substitute fossil fuels in power generation, while reducing greenhouse gas emissions. According to sources, the cogeneration facility can add 9,700 MW of power, addressing around 6% of the country's cumulative power requirement with the potential to earn around 48 million carbon credits besides leveraging uninterrupted power supply and enhance asset utilization. On the other hand, some of the power generated can be used for captive consumption thereby reducing power cost.

During the year the total power generated by our Cogeneration Plants was 1025.56 lac units, as against 814.80 lac units in the previous year. The Company benefited due to a short term enhancement in power tariff rate by the Government of Karnataka.

DISTILLERY

Molasses, the byproduct of sugarcane crushing, can be converted into various types of alcohols like Rectified Spirit, Extra Neutral Alcohol and Fuel Alcohol. Majority of distilleries in India produces alcohol from sugarcane molasses. The distillery industry based on molasses consists of potable liquor and industrial alcohol.

The commissioning of the Distillery plant at Haliyal was delayed due to delay in receipt of the approval of the license from the Government of Karnataka. During the year the Company produced 95.92 lakh litres of Industrial Alcohol against 93.54 lakh litres produced in the previous year.

Auditors' Report to the Members of GMR Industries Limited

1. We have audited the attached Balance Sheet of GMR Industries Limited (the "Company") as at March 31, 2010, and the related Profit and Loss Account and Cash Flow Statement for the year ended on that date, annexed thereto, which we have signed under reference to this report. These financial statements are the responsibility of the Company's Management. Our responsibility is to express an opinion on these financial statements based on our audit.
2. We conducted our audit in accordance with the auditing standards generally accepted in India. Those Standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by Management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.
3. As required by the Companies (Auditor's Report) Order, 2003, as amended by the Companies (Auditor's Report) (Amendment) Order, 2004 (together the "Order"), issued by the Central Government of India in terms of sub-section (4A) of Section 227 of 'The Companies Act, 1956' (the 'Act') and on the basis of such checks of the books and records of the Company as we considered appropriate and according to the information and explanations given to us, we give in the Annexure a statement on the matters specified in paragraphs 4 and 5 of the Order.
4. Without qualifying our opinion, we draw attention to Note 6 of Schedule 19 to the financial statements regarding carrying value of long term investment amounting to Rs.1,368.09 lakhs (2009: Rs.519.06 lakhs) in the subsidiary company which exceed its net worth and loans amounting to Rs.1,134.00 lakhs (2009: Rs.250 lakhs) given to the subsidiary company. Considering the strategic location of the project and the nearby high recovery sugar cane rich belt which is the lifeline of a sugar industry, the Company's Management considers that the acquisition cost is reasonable and believes that the intrinsic value of the acquisition including the embedded value of the sugar license held by the said subsidiary company is far in excess of the carrying cost of investments and loan given, and therefore, no provision is considered necessary at this stage in respect of aforementioned amounts.
5. Further to our comments in the Annexure referred to in paragraph 3 above, we report that:
 - (a) We have obtained all the information and explanations which, to the best of our knowledge and belief, were necessary for the purposes of our audit;
 - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as appears from our examination of those books;
 - (c) The Balance Sheet, Profit and Loss Account and Cash Flow Statement dealt with by this report are in agreement with the books of account;
 - (d) In our opinion, the Balance Sheet, Profit and Loss Account and Cash Flow Statement dealt with by this report comply with the accounting standards referred to in sub-section (3C) of Section 211 of the Act;
 - (e) On the basis of written representations received from the directors, as on March 31, 2010 and taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2010 from being appointed as a director in terms of clause (g) of sub-section (1) of Section 274 of the Act;
 - (f) In our opinion and to the best of our information and according to the explanations given to us, the said financial statements, together with the notes thereon and attached thereto give, in the prescribed manner, the information required by the Act give a true and fair view in conformity with the accounting principles generally accepted in India:
 - (i) in the case of the Balance Sheet, of the state of affairs of the company as at March 31, 2010
 - (ii) in the case of the Profit and Loss Account, of the loss for the year ended on that date; and
 - (iii) in the case of the Cash Flow Statement, of the cash flows for the year ended on that date.

Assets acquired under Leases, where the Company has substantially all the risks and rewards of ownership, are classified as finance leases. Such leases are capitalised at the inception of the lease at lower of the fair value or the present value of the minimum lease payments and a liability is created for an equivalent amount. Each lease rental paid is allocated between the liability and the interest cost, so as to obtain a constant periodic rate of interest on the outstanding liability for each period.

Assets acquired as leases, where a significant portion of the risk and rewards of ownership are retained by the lessor, are classified as operating leases. Lease rentals are charged to the Profit and Loss Account on accrual basis as per terms of the lease.

v. Depreciation and amortization

Value in use is the present value of estimated future cash flows expected to arise from the continuing use of an asset and from its disposal at the end of its useful life. Net selling price is the amount obtainable from the sale of an asset in an arm's length transaction between knowledgeable, willing parties, less the costs of disposal.

Exchange differences arising on reporting of long-term foreign currency monetary items at rates different from those at which they were initially recorded during the period or reported in previous financial statements, are accounted as below:

- (a) In so far as they relate to the acquisition of depreciable capital assets, are added to or deducted from the cost of the asset and are depreciated over the balance life of the asset; and
- (b) In other cases, the said exchange differences are accumulated in a 'Foreign Currency Monetary Items Translation Difference Account' and amortized over the balance period of such long term asset/liability but not beyond March 31, 2011.

All other monetary assets and liabilities denominated in foreign currency are restated at the rates ruling at the year end and all exchange gains/losses arising there from are adjusted to the Profit and Loss Account, except those covered by forward contracted rates where the premium or discount arising at the inception of such forward exchange contract is amortised as expense or income over the life of the contract.

Exchange differences on forward contracts are recognised in the Profit and Loss Account in the reporting period in which the exchange rates change. Any profit or loss arising on cancellation or renewal of such forward contracts is recognised as income or expense for the year.

For forward exchange contracts and other derivatives that are not covered by Accounting Standard (AS) -11 'The Effects of Changes in Foreign Exchange Rates', the Company follows the guidance in the announcement of the Institute of Chartered Accountants of India (ICAI) dated March 29, 2008, whereby for each category of derivatives, the Company records any net mark-to-market losses. 5. During the year, the Company has recognized Rs. 399.18 Lakhs (2009: Nil) of liquidated damages recovered from suppliers' of capital equipment purchased, with respect to the Haliyal unit, as "Other Income". These liquidated damages were imposed on suppliers' due to failure on the performance with regard to the delivery schedules and were recovered at an amount or a rate in conformity with the purchase order entered into. The same was grouped under "Current liabilities" in earlier years.

The Liquidated damages such recognized as "other income" are subject to reconciliation, acceptance and confirmation by the suppliers' as at the Balance Sheet date.

6. During the year, the Company acquired 1,445 Shares of Rs. 100/- each comprising 1.41% of the paid-up capital of Alagawadi Bireshwar Sugars Private Limited (ABSPL) at a cost of Rs. 843.88 Lakhs. Consequently ABSPL has become a wholly-owned Subsidiary of the Company with effect from March 27, 2010. The carrying value of investment in ABSPL as at March 31, 2010 is Rs. 1,362.94 Lakhs (2009: Rs. 519.06 Lakhs) which exceed the net worth of ABSPL. Additionally, loan amounting to Rs. 1,134 lakhs [2009: Rs. 250 Lakhs] has been given to ABSPL.

ABSPL owns an Industrial Entrepreneur Memorandum (IEM) to set up a 2500 TCD Sugar mill in the high recovery sugar rich belts of Raibagh Taluk, Belgaum District of Karnataka. Further, ABSPL acquired land to the extent of approximately 196 acres for setting up the project and has also obtained permission of the State High Level Committee (SHLC) for setting up a 25 MW Cogeneration Plant and 100 KLPD Distillery. Considering the strategic location of the project, the embedded value of the sugar license held by ABSPL and the nearby high recovery sugar cane rich belt which is the lifeline of a Sugar Industry, the Company considers that the acquisition cost is reasonable. The management of the Company believes that this reflects intrinsic value far in excess of the carrying cost of investments and loan given. Therefore, no provision is considered necessary at this stage in respect of aforementioned amounts.

7. Sundry Debtors as at March 31, 2010 include Rs.1,090.73 Lakhs [2009: Rs. 905.48 Lakhs] receivable from Transmission Corporation of Andhra Pradesh Limited (APTRANSCO). Of the total such dues,
- Amounts aggregating to Rs. 539.42 Lakhs [2009:Rs. 448.81 Lakhs] relate to price difference matter in dispute where APTRANSCO has appealed before the apex court against an order of Electricity Tribunal. As the matters are pending before the apex court, the Company, as a matter of prudence, has postponed the recognition of such amounts as income and a corresponding credit is retained as liability in the books of account. Necessary adjustments will be made upon final resolution of the matter.
 - Amounts aggregating to Rs. 551.31 Lakhs [2009: Rs. 456.67 Lakhs] relate to various matters in dispute where APTRANSCO has appealed before the apex court against the orders of Electricity Tribunal. As the matters are pending before the apex court, no adjustment has been made in respect of such dues recognized as receivable as at March 31, 2010.

Auditors' Report on Consolidated Financial Statements to the Board of Directors of GMR Industries Limited

1. We have audited the attached consolidated balance sheet of GMR Industries Limited (the "Company") and its subsidiary (hereinafter referred to as the "Group") as at March 31, 2010, the related consolidated Profit and Loss Account and the consolidated Cash Flow Statement for the year ended on that date annexed thereto, which we have signed under reference to this report. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.
2. We conducted our audit in accordance with the auditing standards generally accepted in India. Those Standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.
3. Without qualifying our opinion, we draw attention to Note 6 of Schedule 19 to the financial statements regarding carrying value of long term investment amounting to Rs.1,368.09 lakhs (2009: Rs.519.06 lakhs) in the subsidiary company which exceeds its net worth, thereby giving rise to recognition of goodwill on consolidation amounting to Rs. 1264.73 Lakhs (2009: Rs.443.60 Lakhs). Considering the strategic location of the project and the nearby high recovery sugar cane rich belt which is the lifeline of a sugar industry, the Company's Management considers that the acquisition cost is reasonable and believes that the intrinsic value of the acquisition including the embedded value of the sugar license held by the said subsidiary company is far in excess of the carrying cost of investments in the subsidiary company and that there is no condition requiring impairment of such goodwill arising on consolidation.
4. We did not audit the financial statements of the subsidiary included in the consolidated financial statements, which constitute total assets of Rs. 1,232.24 Lakhs and net assets of Rs. 98.25 Lakhs as at March 31, 2010, total revenue of Rs. Nil, net profit/net loss of Rs. Nil and net cash flows amounting to Rs.31.29 Lakhs for the year then ended. These financial statements and other financial information have been audited by other auditors whose report has been furnished to us, and our opinion on the consolidated financial statements to the extent they have been derived from such financial statements is based solely on the report of such other auditors.
5. We report that the consolidated financial statements have been prepared by the Company's Management in accordance with the requirements of Accounting Standard (AS) 21 - Consolidated Financial Statements notified under sub-section 3C of Section 211 of the Companies Act, 1956.
6. Based on our audit and on consideration of reports of other auditor on separate financial statements and on the other financial information of the component of the Group as referred to above, and to the best of our information and according to the explanations given to us, in our opinion, the attached consolidated financial statements give a true and fair view in conformity with the accounting principles generally accepted in India:
 - (a) in the case of the consolidated Balance Sheet, of the state of affairs of the Group as at March 31, 2010;
 - (b) in the case of the consolidated Profit and Loss Account, of the loss of the Group for the year ended on that date: and
 - (c) in the case of the consolidated Cash Flow Statement, of the cash flows of the Group for the year ended on that date.

Such leases are capitalised at the inception of the lease at lower of the fair value or the present value of the minimum lease payments and a liability is created for an equivalent amount. Each lease rental paid is allocated between the liability and the interest cost, so as to obtain a constant periodic rate of interest on the outstanding liability for each period.

- In so far as they relate to the acquisition of depreciable capital assets, are added to or deducted from the cost of the asset and are depreciated over the balance life of the asset; and
- In other cases, the said exchange differences are accumulated in a 'Foreign Currency Monetary Items Translation Difference Account' and amortized over the balance period of such long-term asset/liability but not beyond March 31, 2011.

All other monetary assets and liabilities denominated in foreign currency are restated at the rates ruling at the year end and all exchange gains/losses arising there from are adjusted to the Profit and Loss Account, except those covered by forward contracted rates where the premium or discount arising at the inception of such forward exchange contract is amortised as expense or income over the life of the contract.

Exchange differences on forward contracts are recognised in the Profit and Loss Account in the reporting period in which the exchange rates change. Any profit or loss arising on cancellation or renewal of such forward contracts is recognised as income or expense for the year.

For forward exchange contracts and other derivatives that are not covered by Accounting Standard (AS) - 11 'The Effects of Changes in Foreign Exchange Rates', the Company follows the guidance in the announcement of the Institute of Chartered Accountants of India (ICAI) dated March 29, 2008, whereby for each category of derivatives, the Company records any net mark-to-market losses. The carrying value of investment in ABSPL as at March 31, 2010 is Rs 1,362.94 Lakhs (2009: Rs. 519.06 Lakhs) which exceed the net worth of ABSPL thereby giving rise to recognition of goodwill on consolidation amounting to Rs.1,264.73 lakhs (2009: Rs. 443.60 Lakhs).

C. Managerial remuneration

- i. The Profit and Loss Account includes payments and provisions on account of remuneration to managerial person as under:

	Rs. in Lakhs

Allowances	56.78	39.61

Other benefits	20.70	3.91
	117.32	113.25

- ii. The remuneration, as approved by the Remuneration committee/Board/Shareholders, paid to the managerial personnel during the year has been considered as the minimum remuneration, resulting in excess of such remuneration over the maximum remuneration stipulated under Schedule XIII of the Act, amounting to Rs. 25.18 Lakhs due to absence of profit during the year. The Central Government vide its letter dated March 11, 2010 approved payment of Rs. 73.18 Lakhs as remuneration to Mr. R. Ramakrishnan, Managing Director of the Company.

14. Provision towards L-Factor:

Pursuant to the amendment of the Essential Commodities Act, 1955 vide the Central Government through order dated October 22, 2009 (S.O.2665(E)/Essential Commodities/sugar cane issued by the Ministry of Consumer Affairs, Food and Public Distribution (Department of Food and Public Distribution) in exercise of powers conferred by Section 3 of the Essential Commodities Act, 1955 called as Sugarcane (Control) Amendment Order 2009 has omitted clause 5A and second schedule of the sugarcane control order.

Consequently, the erstwhile formula under which the Company made a provision for additional remuneration payable to the farmers has now become redundant and such provision amounting to Rs. 1,408.12 Lakhs has been written back during the year as exceptional item.

The movement in Provision for L-factor as at March 31, 2010 is shown hereunder:

	Rs. in Lakhs	
	2010	2009
At the beginning of the year	1,408.12	1,408.12

At the end of the year	–	1,408.12

15. During the current year the Company has accounted for sugar cane purchases for the season 2008-09 at Rs. 50 per quintal in respect of Haliyal and Ramdurg units. The total additional cane price announced and paid in respect of the 2008-09 season aggregating to Rs.831.29 Lakhs has been included in the Profit and Loss Account as 'Exceptional Item'. As explained to us, the decision to pay such additional cane price for last year supplies was taken keeping in view the scarcity of sugar cane and competition in the region.

16. Deferred tax Liability:

The major components of the deferred tax assets and liabilities on account of timing differences are as follows:

	Rs. in Lakhs			
	2010		2009	
	Asset	(Liability)	Asset	(Liability)
Depreciation	–	3,497.09	–	3,046.27

	1,259.25	3,497.09	612.32	3,046.27
Net Deferred Tax Liability		2,237.84		2,433.95

The deferred tax asset as at March 31, 2010, computed on carry forward business loss amounts to Rs. 2,068.97 Lakhs, however, the same has not been recognized, as a measure of prudence, in the absence of virtual certainty as envisaged in AS 22.

17. Further, there is no interest accrued/payable under the said act as at the balance sheet date.
18. Previous years' figures have been regrouped and reclassified wherever necessary, to conform to those of the current year.
