## MANAGEMENT DISCUSSION AND ANALYSIS

### 1. INDUSTRY REVIEW

In fiscal 2011-12, Commercial Vehicle (CV) Industry achieved sales of 9,02,000 vehicles (7,59,000) - representing growth of 19% over the previous year. Out of this, SML Isuzu segment (5.0 ton to 12.0 ton GVW) accounted for 1,27,300 (1,09,000) and represented 14% of aggregate volumes.

### 2. COMPANY PERFORMANCE

The Company has sold 13,646 vehicles during fiscal 2011-12 against previous year sale of 12,870 vehicles. Together with sale of spare parts, Net Revenue for 2011-12 was Rs. 1042.2 crores (Rs. 913.0 crores), as detailed below:

	(Rs. In Crores)	
	<u>2011-12</u>	<u>2010-11</u>
On sale of Vehicles	<b>968.1</b>	852.6
On sale of Spare Parts etc.	<b>74.1</b>	60.4
Total Net Revenue	<b><u>1042.2</u></b>	<u>913.0</u>

Favorable product mix and higher realization per vehicle has more than neutralized the impact of increase in component prices. As a result, material cost as a %age on Net Revenue has come down from previous year's 77.4% to 76.0%.

Employee Cost at Rs. 67.9 crores (Rs. 59.9 crores) represented 6.5% (6.6%) of net revenue.

Marketing costs at Rs. 66.6 crores (Rs. 51.6 crores) works out to 6.4% (5.6%) of net revenue, the %age increase has been primarily on account of provision of Rs. 2.8 crores against amount receivable from a Govt. customer and higher warranty claim expenditure in respect of luxury buses. Other operating & administrative expenses at Rs. 29.9 crores (Rs. 23.9 crores) were at 2.9% (2.6%) of net revenue.

Interest cost (net) for 2011-12 at Rs. 6.5 crores is lower than previous year's Rs. 9.2 crores due to better receivables management & control over borrowings.

Depreciation charge for the year was Rs. 10.4 crores (Rs. 8.9 crores) - increase being on account of capital expenditure incurred during the year on the ongoing expansion project and on R&D centre.

Higher sale volumes, better per vehicle realization & control over costs has led to improvement in the profitability of operations and the Company achieved the highest ever Operating Profit of Rs. 86.0 crores (Rs. 70.7 crores) and Profit Before Tax (before exceptional & prior period item) of Rs. 65.0 crores (Rs. 51.4 crores).

Profit after tax at Rs. 41.9 crores (Rs. 36.6 crores) translates to an earning of Rs. 28.93 per share (Rs. 25.26).

Outgo on dividend account inclusive of tax at Rs. 13.5 crores would translate to a payout ratio of 32.1% (36.9%).

Net worth of the Company as on 31st March, 2012 rose to Rs. 241.2 crores (Rs.212.8 crores) comprising of an equity component of Rs. 14.5 crores (Rs. 14.5 crores) and reserves of Rs. 226.7 crores (Rs. 198.3 crores).

Year-end borrowings from banks were at Rs. 100.0 crores (Rs. 85.0 crores).

Year-end trade receivables were at Rs. 121.0 crores (Rs 116.5 crores) and trade payables were Rs. 163.4 crores (Rs. 138.3 crores).

Fixed assets (net) stood at Rs. 135.0 crores (Rs. 127.5 crores).

### **3. INTERNAL CONTROL SYSTEM AND ADEQUACY**

The Company has conducted its affairs within the framework of well-defined business plans which have provided appropriate guidance and direction to its employees. Annual Business Plan (ABP) for each fiscal year is formulated on the basis of well-defined processes and is approved by the Board of Directors. Finance & Accounts function is adequately staffed by professionally qualified and experienced personnel. The reporting and monitoring system is elaborate and the same is reviewed at the meetings of the Audit committee and the Board while considering quarterly business performance. Policies and procedures have been laid down to provide reasonable assurance that assets are safeguarded from risks of unauthorised use/disposition and transactions are recorded and reported with propriety, accuracy and speed. These aspects of operations are regularly reviewed and verified by the Internal Audit department and by the Company's Statutory Auditors. The same are subsequently submitted to the Audit Committee of the Board for consideration.

#### **4. HUMAN RESOURCES**

The Company has always strived to attract the best talent, provide invigorative work environment, retain achievers and out-performers and inculcate in the employees loyalty for the organization. Raising employees' involvement in the decision making process and grooming them for leadership positions has been an ongoing process. Employee strength as on 31st March, 2012 was 1098 (1073).

#### **5. BUSINESS RISKS AND CONCERNS**

Demand for commercial vehicles is dependent upon overall economic growth, infrastructure development and smooth availability of retail finance. India is heavily reliant on imported oil, thus oil prices have a bearing on transport sector. Performance of Railways and movement in freight rates are also key factors that have a bearing on demand for cargo carriers.

Higher emission standards under Bharat Stage IV norms have become applicable in 20 mega cities and its applicability throughout India is under discussion at Govt. level.

Since steel, steel-based components and other materials represent major part of input costs, abnormal rise in steel prices and extra burden from new emission norms would lead to higher production cost which may not be fully neutralized by revision in selling prices in view of intensely competitive operating environment.

Technical alliance with Isuzu Motors, upgradation of its R&D centre, establishment of new manufacturing facilities for chassis and bus body fabrication with a view to broaden its product portfolio, up-gradation of existing facilities to improve efficiency and quality of the products and cost reduction activities are some of the major initiatives and concrete steps taken by the Company to minimize its vulnerability to business risks.

#### **6. CAUTIONARY STATEMENT**

Statements in the Management Discussion and Analysis Report describing the Company's objectives, projections, estimates and expectations may constitute "forward looking statements" within the meaning of applicable laws and regulations. Actual results might differ materially from those either expressed or implied.

## NOTES FORMING PART OF THE FINANCIAL STATEMENTS

### 1. Basis of preparation

The financial statements are prepared under the historical cost convention on the accrual basis of accounting, in accordance with the Indian Generally Accepted Accounting Principles (GAAP) and comply with the accounting standards, as prescribed by the Companies (Accounting Standards) Rules, 2006, and the provisions of the Companies Act, 1956, to the extent applicable, as adopted consistently by the Company. The financial statements have been prepared in Indian rupees.

2. The financial statements for the year ended March 31, 2011 had been prepared as per the then applicable, pre-revised Schedule VI to the Companies Act, 1956. Consequent to the notification of Revised Schedule VI under the Companies Act, 1956, the financial statements for the year ended 31 March, 2012 are prepared as per Revised Schedule VI. Accordingly, the previous year figures have also been reclassified to conform to this year's classification. Such reclassification of previous year figures does not impact recognition and measurement principles followed for preparation of financial statements.

### 3. Significant Accounting Policies

#### i) Use of estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent liabilities on the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Examples of such estimates include estimated provision for doubtful debts, future obligations under employee retirement benefit plans and estimated useful life of fixed assets. Differences between actual results and estimates are recognised in the year in which the actual results are known or materialised. Any revision to accounting estimates is recognised in accordance with the requirements of the respective accounting standard.

#### ii) Revenue recognition

Sales are recognized on transfer of significant risks and rewards to the customer that usually takes place on dispatch of goods to the customer from the factory/ stockyard/ storage area. In case of export sales, revenue is recognized as on the date of bill of lading, being the effective date of transfer of significant risks and rewards to the customer. Export benefits are accounted for on accrual basis.

Interest income is recognised using the time proportion method, based on underlying interest rates.

Revenue from royalty is recognized on accrual basis as per the terms of agreement entered into with the customers.

#### iii) Fixed assets

Tangible assets are recorded at cost. Cost includes freight, duties, taxes and expenses incidental to acquisition and installation of fixed assets. In case of self-constructed fixed assets, appropriate overheads including salaries & wages are allocated to the cost of the asset. The cost of capital spares is capitalized along with the cost of the related asset.

Intangible assets comprising of technical know how, product designs, prototypes etc. either acquired or internally developed are stated at cost. In case of internally generated intangible assets, appropriate overheads including salaries and wages are allocated to the cost of the asset.

Capital work in progress includes cost of assets at site, direct and indirect expenditure incidental to construction and interest on the funds deployed for construction.

## NOTES FORMING PART OF THE FINANCIAL STATEMENTS

### iv) Depreciation/ Amortisation

Depreciation on tangible fixed assets is provided on a Straight-line method on a monthly pro-rata basis at the rates and in the manner prescribed in Schedule XIV to the Companies Act, 1956, except on following assets which are being depreciated at the rates mentioned below which are equivalent to the management estimate of the useful economic life of the assets:

Office equipments		Rate per annum
Air conditioners	—	25.00%
Computers	—	33.33%
<b>Vehicles</b>		
Motor cars	—	25.00%

All assets costing up to Rs. 5,000/- are being fully depreciated in the year of purchase. Capital spares are amortized in a systematic manner over a period not exceeding the useful life of the asset to which they relate.

Intangible assets are amortised on a straight-line method on a monthly pro-rata basis over a period of three to ten years based on the estimated useful life of the assets.

### v) Inventories

Inventories are valued at lower of cost or net realizable value. Cost for the purpose of valuation is calculated on a quarterly weighted average method. In respect of finished goods & work-in-progress, applicable manufacturing overheads and other costs incurred in bringing the items of inventory to their present location and condition are also included. Excise duty is included in finished goods and stock-in-trade valuation.

### vi) Employee benefits

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits. Benefits such as salaries, wages and bonus, etc, are recognised in the statement of profit and loss in the period in which the employee renders the related service.

**Defined contribution plans:** The employee's provident fund scheme, employees' state insurance fund and contribution to superannuation fund are defined contribution plans. The Company's contribution paid / payable under these schemes is recognised as an expense in the statement of profit and loss during the period in which the employee renders the related service.

The Company has created a trust which has taken master policy with the Life Insurance Corporation of India to cover its liability towards employees' Superannuation.

**Defined benefit plans:** The Company's gratuity plan is a defined benefit plan. The present value of gratuity obligation under such defined benefit plan is determined based on an actuarial valuation carried out by an independent actuary using the Projected Unit Credit Method, which recognises each period of current and past service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation. The obligation is measured at the present value of the estimated future cash flows. The discount rate used for determining the present value of the obligation under defined benefit plans, is based on the market yields on Government securities as at the valuation date having maturity periods approximating to the terms of related obligations. Actuarial gains and losses are recognised immediately in the Statement of profit and loss.

## NOTES FORMING PART OF THE FINANCIAL STATEMENTS

Gains or losses on the curtailment or settlement of any defined benefit plan are recognised when the curtailment or settlement occurs.

**Other long term employee benefits:** Benefits under the Company's leave encashment policy constitute the other long term employee benefits. The liability in respect of leave encashment is provided on the basis of an actuarial valuation done by an independent actuary at the year end. Actuarial gains and losses are recognised immediately in the Statement of profit and loss.

### vii) **Research and development**

Revenue expenditure on research is charged to the Statement of profit and loss in the year in which it is incurred. Capital expenditure on development is shown as an addition to fixed assets and depreciated at the rate as applicable to respective assets.

### viii) **Warranty expenses**

Provision for warranty is estimated by the management on the basis of a technical evaluation and past experience.

### ix) **Foreign currency transactions**

Transactions in foreign currency are recorded at the exchange rate prevailing at the date of the transaction. Exchange differences arising on foreign currency transactions settled during the year are recognised in the statement of profit and loss for the year.

Monetary assets and liabilities denominated in foreign currencies as at the balance sheet date are translated at the closing exchange rates on that date; the resultant exchange differences are recognised in the statement of profit and loss.

### x) **Taxation**

Income-tax expense comprises current tax (i.e. the amount of tax for the year determined in accordance with the Income-tax Act, 1961) and deferred tax charge or credit (reflecting the tax effects of the timing differences between the accounting income and taxable income for the year).

Minimum Alternate Tax (MAT) paid in excess of normal income tax is recognised as asset (MAT Credit entitlement) only to the extent, there is reasonable certainty that company shall be liable to pay tax as per the normal provisions of the Income Tax Act, 1961 in future.

The deferred tax charge or credit and the corresponding deferred tax liabilities or assets are recognised using the tax rates that have been enacted or substantially enacted by the Balance Sheet date. Deferred tax assets are recognised only to the extent there is reasonable certainty that the assets can be realised in the future. However, where there is unabsorbed depreciation or carry forward loss under taxation laws, deferred tax assets are recognised only if there is virtual certainty of realisation of such assets. Deferred tax assets are reviewed at each Balance Sheet date and written down or written up to reflect the amount that is reasonably/ virtually certain (as the case may be) to be realised.

### xi) **Government grant**

Grants in the form of Capital/Investment subsidy are treated as Capital Reserve.

## NOTES FORMING PART OF THE FINANCIAL STATEMENTS

### xii) **Borrowing costs**

Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalized as part of the cost of that asset. Other borrowing costs are recognized as an expense in the period in which they are incurred.

### xiii) **Impairment of assets**

The carrying amounts of assets are reviewed at each balance sheet date in accordance with Accounting Standard – 28 on 'Impairment of Assets' to determine whether there is any indication of impairment. If any such indication exists, the recoverable amount of the asset is estimated. An impairment loss is recognised whenever the carrying amount of an asset or cash generating unit exceeds its recoverable amount. Impairment losses are recognised in the statement of profit and loss. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined net of depreciation or amortisation, if no impairment loss had been recognised.

### xiv) **Operating lease (As lessee)**

Lease arrangements, where the risks and rewards incidental to ownership of an asset substantially vest with the lessor, are recognised as operating lease.

Lease payments under operating lease are recognised as an expense in the statement of profit and loss on a straight line basis over the lease period.

### xv) **Earnings per share**

Basic earnings per share are calculated by dividing the net profit / (loss) for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. Diluted earnings per share is computed using the weighted average number of equity and dilutive equity equivalent shares outstanding during the year end, except where the results would be anti-dilutive.

### xvi) **Provisions, contingent liabilities and contingent assets**

A provision is created when there is a present obligation as a result of a past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of the obligation. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made. The Company does not recognise assets which are of contingent nature until there is virtual certainty of realisability of such assets. However, if it has become virtually certain that an inflow of economic benefits will arise, asset and related income is recognised in the financial statements of the period in which the change occurs.

### xvii) **Cash and cash equivalents**

Cash and cash equivalents include cash in hand, demand deposits with banks, other short term highly liquid investments with original maturities of three months or less.

27. Through issue of excise notification no 11/95 dated March 16, 1995 Government sought to lapse Modvat Credit Receivable aggregating Rs. 488 lakhs out of available credit balance appearing under the head Short term Loans & Advances. Petition filed by the Company and other affected manufacturers with the Delhi High Court challenging the said notification on grounds of law and equity was allowed by the Supreme Court vide Order dated January 28, 1999. Subsequently, the Finance Act, 1999 brought in a retrospective amendment w.e.f. March 16, 1995 in the Central Excise Act, empowering the Central Government to lapse such Modvat. Based on the legal advice obtained by the Company to seek redressal against the action of the Government, the Company had filed a writ petition and was admitted by the Delhi High Court on the ground that the Government action has violated the doctrine of promissory estoppels / expectation principle besides other grounds.

In the previous years, though adjusted in excise records, no provision was made in the books of accounts in respect of such Modvat credit. On a review, the Company has decided to provide the entire amount of Rs 488 lakhs during the year. In view of the significance of the amount involved, the same has been shown as an exceptional item and disclosed as a prior period adjustment.

28. Estimated amount of contracts remaining to be executed on capital account and not provided for (net of advances) Rs. 586.64 lakhs (previous year Rs. 417.22 lakhs).

29. The Company has adopted Accounting Standard 29 'Provisions, Contingent Liabilities & Contingent Assets' as notified by the Companies (Accounting Standards) Rules, 2006. Accordingly the following disclosure has been made:

Figures of previous year are given in brackets

\* The Company is liable towards warranty claims made by end users of its products. The year end provision is based on its estimate of the average warranty cost per unit of goods sold and on the basis of historical data it is estimated that the provision would be fully utilized over the warranty period.

30. As the Company's business activities fall within a single primary business segment, viz., "Commercial Vehicles and Spares", the disclosure requirement of Accounting Standard (AS) - 17 "Segment Reporting" is not applicable.
