SCHEDULE FORMING PART OF THE BALANCE SHEET AND THE PROFIT AND LOSS ACCOUNT**SCHEDULE 'N':****NOTES ON ACCOUNTS:****NATURE OF OPERATIONS**

Uniphos Enterprises Limited is engaged in the business of trading.

1. SIGNIFICANT ACCOUNTING POLICIES:**(a) Basis of Accounting:**

(i) The financial statements have been prepared to comply in all material respects with the Notified accounting standard by Companies (Accounting Standards) Rules, 2006 (as amended) and the relevant provisions of the Companies Act, 1956. The Company follows the mercantile system of accounting and recognises income and expenditure on accrual basis. The accounting policies have been consistently applied by the Company are consistent with those used in the previous year.

(ii) Financial statements are based on historical cost.

(b) Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of the financial statements and the results of operations during the reporting period. Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from these estimates.

(c) Fixed Assets and Depreciation:

(i) Fixed Assets are stated at cost less depreciation.

(ii) Depreciation

Depreciation has been provided:

(1) On written down value basis in accordance with Section 205(2)(a) of the Companies Act, 1956 at the rates specified in Schedule XIV to the Companies Act, 1956.

(2) Assets costing Rs 5,000 or less have been depreciated at the rate of 100%.

(3) In respect of additions to/deletions from the Fixed Assets, on pro-rata basis with reference to the month of addition/deletion of the Assets.

(iii) Impairments :

The carrying amounts of assets are reviewed at each balance sheet date if there is any indication of impairment based on internal/external factors. An impairment loss is recognized wherever the carrying amount of an asset exceeds its recoverable amount.

(d) Inventories:

Traded goods are valued at lower of cost or net realisable value.

(e) Investments:

Long-term investments are carried at cost of acquisition, except for the transfer of current investment to long term investment which is carried at the lower of cost and fair value at the date of transfer, and the resultant difference is recognised in the profit and loss account. However, the carrying amount is reduced to recognise a decline, other than temporary, in the value of long-term investments by a charge to the profit and loss account

(f) Foreign Currency Transactions:

Transactions in foreign currency are recorded by applying the exchange rate at the date of the transaction. Monetary items denominated in foreign currency remaining unsettled at the end of the year, are translated at the closing rates, prevailing on the Balance Sheet date. Non-monetary items which are carried in terms of historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction. Exchange differences arising as a result of the above are recognised as income or expense in the profit and loss account except for exchange differences arising on a monetary item which, in substance, form part of the Company's net investment in a non-integral foreign operation which is accumulated in a Foreign Currency Translation Reserve until the disposal of the net investment. Exchange difference arising on the settlement of monetary items at rates different from those at which they were initially recorded during the year, or reported in previous financial statements, are recognised as income or as expenses in the year in which they arise.

(g) Borrowing Costs:

SCHEDULE FORMING PART OF THE BALANCE SHEET AND THE PROFIT AND LOSS ACCOUNT

SCHEDULE 'N' (Cont'd.):

capital reserve. Grants and subsidies from the government are recognized when there is reasonable assurance that the grant/subsidy will be received and all attaching conditions will be complied with.

(i) Revenue recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured

Dividends : Revenue is recognised when the shareholders' right to receive payment is established by the balance sheet date

Rent : Lease income is recognised in the Profit and Loss Account on a straight-line basis over the lease term or as per the terms of contract.

(j) Taxation:

Tax expense comprises of current, deferred and fringe benefit tax. Current income tax and fringe benefit tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income-tax Act, 1961 enacted in India. Deferred income taxes reflects the impact of current year timing differences between taxable income and accounting income for the year and reversal of timing differences of earlier years.

Deferred tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the balance sheet date. Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred tax assets and deferred tax liabilities relate to the taxes on income levied by the same governing taxation laws. Deferred tax assets are recognised only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised. In situations where the company has unabsorbed depreciation or carry forward tax losses, all deferred tax assets are recognised only if there is virtual certainty supported by convincing evidence that they can be realised against future taxable profits.

At each balance sheet date, the Company re-assesses unrecognised deferred tax assets. It recognises unrecognised deferred tax assets to the extent that it has become reasonably certain or virtually certain, as the case may be that sufficient future taxable income will be available against which such deferred tax assets can be realised.

The carrying amount of deferred tax assets are reviewed at each balance sheet date. The company writes-down the carrying amount of a deferred tax asset to the extent that it is no longer reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which deferred tax asset can be realised. Any such write-down is reversed to the extent that it becomes reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available

MAT credit is recognised as an asset only when and to the extent there is convincing evidence that the company will pay normal income tax during the specified period. In the year in which the Minimum Alternative tax (MAT) credit becomes eligible to be recognized as an asset in accordance with the recommendations contained in guidance Note issued by the Institute of Chartered Accountants of India, the said asset is created by way of a credit to the profit and loss account and shown as MAT Credit Entitlement. The Company reviews the same at each balance sheet date and writes down the carrying amount of MAT Credit Entitlement to the extent there is no longer convincing evidence to the effect that Company will pay normal Income Tax during the specified period.

(k) Provisions:

A provision is recognised when the Company has a present legal or constructive obligation as a result of past events and it is probable that an obligation of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the amount of the obligation can be made. Provisions are not discounted to its present value and are determined based on the best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet and adjusted to reflect the current best estimates.

(l) Earning Per Share

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period are adjusted for events of bonus issue.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

(m) Cash and cash equivalents

Cash and cash equivalents for the purpose of Cash flow statement comprise of cash at bank and in hand and short term investments with an original maturity of three months or less.
