Message from Chairman

My dear fellow Stakeholders,

The Textile Industry in India was severely impacted by the global slow down and recession during the period under review. However, lately internationally there has been a gradual recovery. The demand in export markets like USA and Europe are improving. At the retail level too, there has been an increase in demand, both domestically and internationally and we expect it to continue at an upward pace across geographies.

Back home, indications are that the disposable income will continue to increase significantly over the next decade. This will provide impetus to the textile industry which is on the threshold of higher consumer demand and on growth path due to such increased demand. Welspun being an integrated Home Textiles supplier for all consumer requirements is well poised to take advantage of this situation.

Cotton Scenario

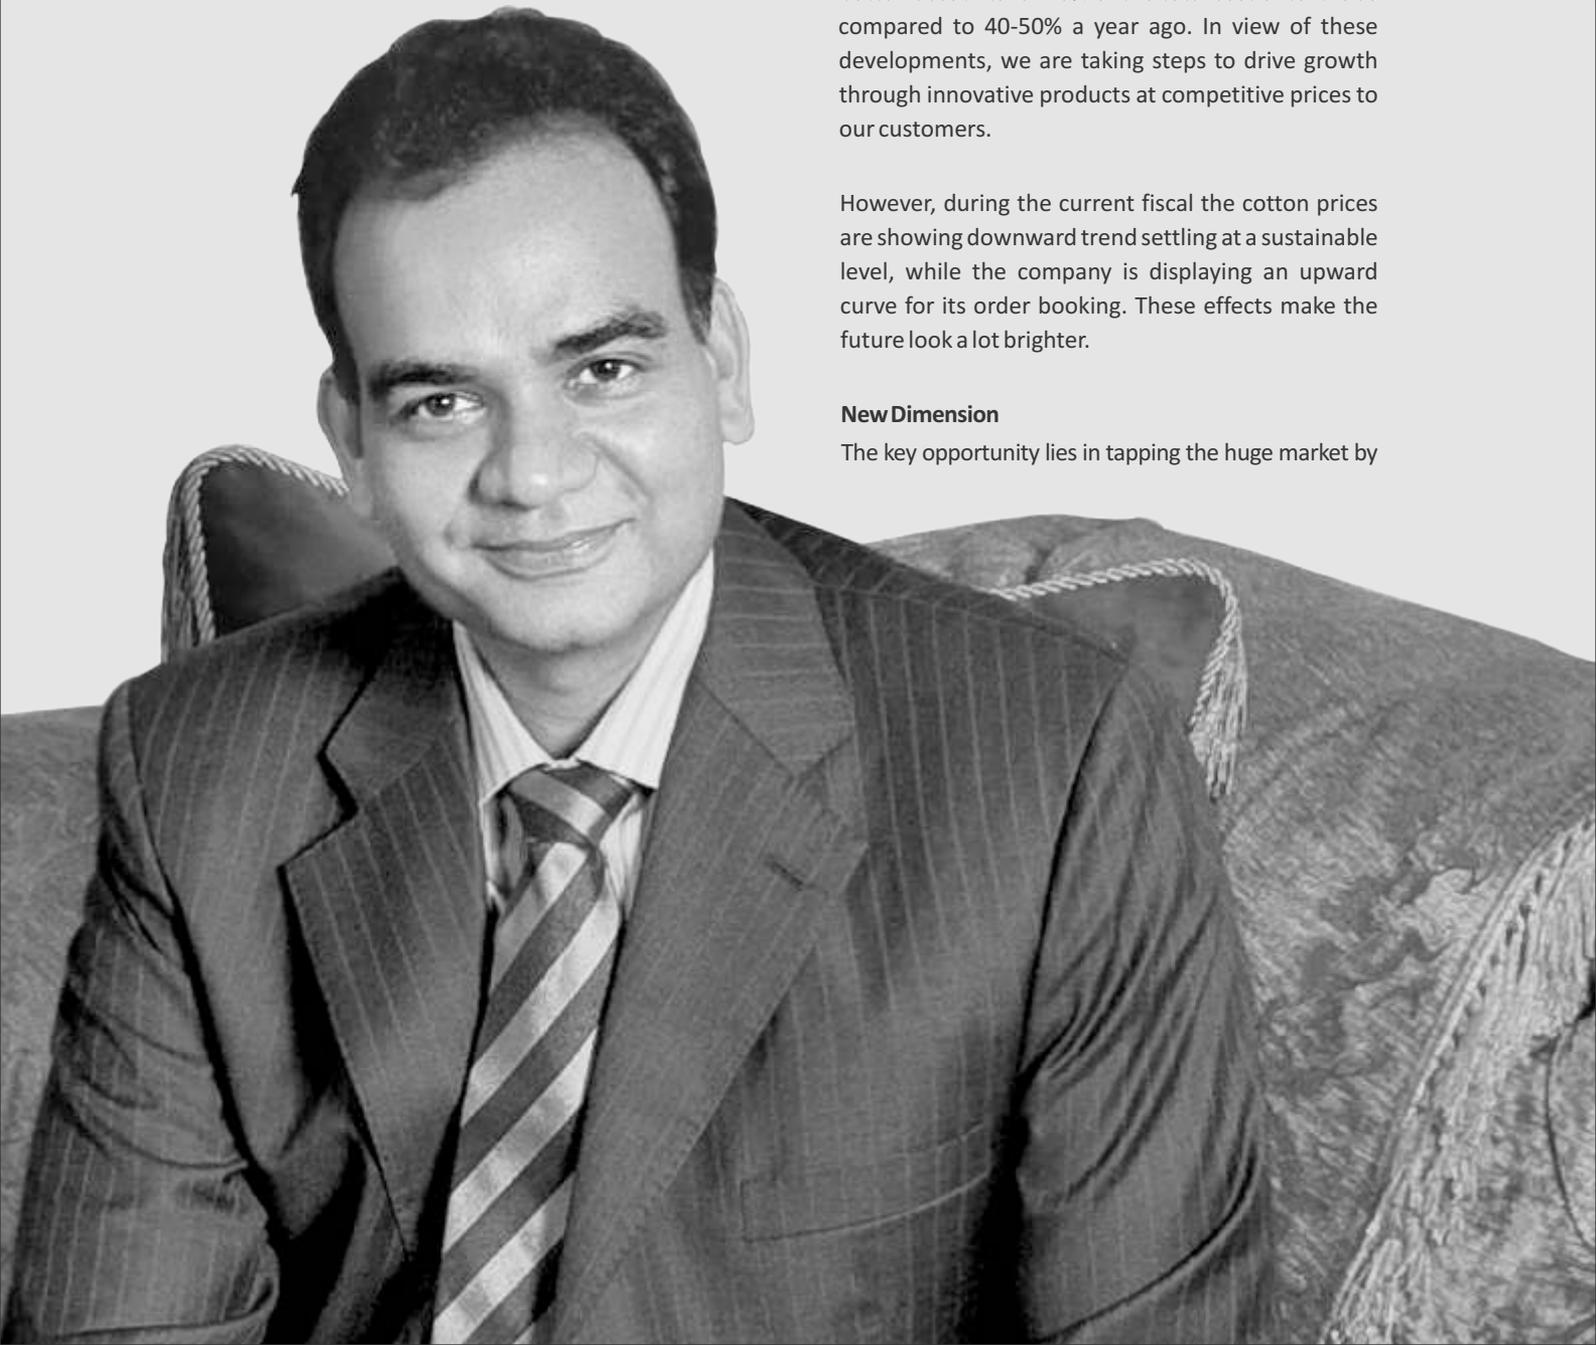

The textile industry went through a tough year struggling with the surging and fluctuating prices of raw materials. Since 2010, the prices of raw materials, especially cotton, have been surging to an uncontrollable level. Steep rise in cotton prices, which is the key input for manufacturing textiles, is impacting profitability of manufacturers. The "Cotlook Index" in March 2011 reached a high of 243.6, which was a rise of 182% as compared to March 2010.

Cotton accounts for 70% of the total cost of textile as compared to 40-50% a year ago. In view of these developments, we are taking steps to drive growth through innovative products at competitive prices to our customers.

However, during the current fiscal the cotton prices are showing downward trend settling at a sustainable level, while the company is displaying an upward curve for its order booking. These effects make the future look a lot brighter.

New Dimension

The key opportunity lies in tapping the huge market by

leveraging the brand and our extensive presence across the globe. Having a distinction of being one of the Top 3 Home Textiles Manufacturers in the World, and with our products sold across 32 countries; we have added yet another feather in our cap by acquiring the assets of KOJO Worldwide - the most recognized name in the Hospitality Industry- for soft goods in the US, Mexico, Canada and Latin America. Along with KOJO, we are in a position within the hospitality industry to provide a “Total Soft Goods Solution” from linens and towels to decorative beddings to window treatments of all types.

We will now provide our current and future customers with a single manufacturing source which will streamline their design, purchasing and ordering needs coupled with a state-of-the-art “real time” B2B purchasing system. The benefits to the customer will also accrue, from the innovative hospitality soft goods design capabilities acquired from KOJO Worldwide. Together with KOJO we will provide the first-ever vertical of total soft goods solution for the hospitality industry, by controlling the growing of cotton to product designs, to lab testing, to forecasting, to purchasing and delivering, these quality soft goods products to the customers’ doorstep through an established global logistics network.

Moreover, we also launched the catalogue business in UK which is getting good response from the customers. To leverage the proximity of scale we recently shifted our bedding facility from Ciudad de Juarez to Rosarito in Mexico. With its proximity to San Diego, the facility is geographically closer to the US market, which is one of the largest markets for our fashion bedding and basic bedding product categories. With this move we will be able to save on transportation costs and will be able to deliver our products faster to the end customers in the US. Additionally, we will also benefit from the import duty exemption in the US under NAFTA (North American Free Trade Agreement).

Product Development and Innovation

We believe that product development and innovation are the two key areas to create a sustainable competitive advantage. With the cotton prices sky rocketing alternate fibers and blends are being looked at as an option to counter the extreme proportions that cotton prices have attained. Being the pioneers in textile industry, extra emphasis is given on product innovation and technological excellence. Using inputs from consumer research and through tracking the new developments, we have added new towel products like nanospun, eco-lite (quick dry), cotton bamboo, eucalyptus and texture towels to our product base.

On the Bed Linen front, we have added products like Ever Smooth MXL Wrinkle Free, Quick Dry Sheets, Flexifit Sheets and the Perfect Sheet incorporating all the qualities mentioned earlier. Altogether, we have one registered product patent and seven trademarks under our name.

Corporate Social Responsibility

With our commitments firmly rooted into Corporate Sustainability and Social Responsibility, we as an organisation, constantly commit ourselves towards the betterment of the society where we resides in.

It was yet another golden moment for Welspun when we were honoured for India Shining CSR Award – “Outstanding CSR in Textile Sector” at the CSR Thought Leadership Conclave hosted by Wockhardt – a pharmaceutical giant. The award ceremony was graced by many notable personalities such as Noble Peace Laureate - His Holiness Dalai Lama, Noble Peace Laureate - Prof. Muhammad Yunus and Cabinet Minister for Minority Affairs and Water Resources, Government of India, Dr. Salman Khurshid. This award is a testimony to the good work that we as a company are trying to do for the community and I hope that we continue with this noble cause.

In conclusion, I would like to heartily thank our investors, the Board, the management, our dedicated employees and the community at large for their consistent support and commitment to Welspun; as well as our esteemed customers for their confidence on us.

B. K. Goenka
Chairman

II. DIVIDEND

On the back of struggling year witnessed by the Company, the Board of Directors did not recommend any dividend for the financial year 2010-11.

III. QUALITY AND RESEARCH & DEVELOPMENT

Your Company continues to emphasize qualitative growth and believes that quality of its product has to be its strength in this complex market environment. Your Company is committed to bring about positive change in each and every process

and has a team fully focused on Research & Development. Particulars of activities relating thereto have been given in Annexure II hereto.

IV. DIRECTORS

In the ensuing Annual General Meeting, Mr. Dadi B. Engineer and Mr. A. K. Dasgupta will be retiring by rotation and being eligible have offered themselves to be reappointed. Mr. Dadi B. Engineer and Mr. A. K. Dasgupta are independent directors. Further, details about these directors are given in the Notice of the ensuing Annual General Meeting being sent to the shareholders along with this report. The Board recommends their reappointment.

V. ENERGY, TECHNOLOGY AND FOREIGN EXCHANGE

Information in accordance with the provisions of Section 217 (1) (e) of the Companies Act, 1956, read with Companies (Disclosure of Particulars in the Report of Board of Directors) Rules, 1988, regarding conservation of energy, technology absorption and foreign exchange earnings and outgo is given in the Annexure I forming part of this report.

VI. SUBSIDIARY COMPANIES:

The Ministry of Corporate Affairs vide its General Circular No. 2 / 2011 dated 8th February, 2011 granted general exemption to companies from attaching a copy of the Balance Sheet, the Profit and Loss Account and other documents of their subsidiary companies as required to be attached under Section 212 of the Companies Act, 1956 to the Balance Sheet of companies subject to fulfillment of conditions stipulated in the circular. Therefore, the said Reports of the subsidiary companies viz. Welspun AG, Switzerland Welspun Mexico SA de CV, Mexico and Besa Developers and Infrastructure Private Limited, India, are not attached herewith. However, a statement giving certain information as required by the Ministry is placed along with the Consolidated Accounts.

The Company shall provide a copy of Annual Report and other documents of its subsidiary companies as required under section 212 of the Companies Act to the shareholders upon their request, free of cost.

VII. AUDITORS' REPORT:

Report of M/s. Price Waterhouse & Co., the Statutory Auditors, on the Audited Financial Statements of the Company for the financial year ended March 31, 2011 contains a qualification regarding the accounts receivables balance of Rs. 696.02 million (March 31, 2010: Rs. 475.93 million) that is due from Welspun Retail Limited ("WRL"), a group company, as at March 31, 2011, in relation to which no valuation allowance has been estimated and adjusted in these financial statements which, in the statutory auditors' view, does not meet the requirement to consider prudence in selection of accounting policies, as set out in Accounting Standard 1 – Disclosure of Accounting Policies, as WRL has been incurring significant losses (Rs.199.73 million for the year ended March 31, 2011 and Rs. 1,205.96 million as at March 31, 2011 basis its audited financial statements as of and for the year ended March 31, 2011) and has also been unable to achieve its projected financial results in the previous and current financial reporting periods. The Company is of the view that, in order to turnaround WRL's operations, WRL has made a robust plan for widening its reach in the market by using new marketing strategies with aggressive cost reduction programs. Accordingly, in the opinion of the Management, the aforesaid accounts receivable as at March 31, 2011 is considered good and recoverable.

VIII. FIXED DEPOSIT

During the year under review, your Company has not accepted any fixed deposit within the meaning of Section 58-A of the Companies Act, 1956 and the Rules made thereunder.

IX. EMPLOYEE STOCK OPTION SCHEME:

The particulars required to be disclosed pursuant to Clause 12 of SEBI (Employee Stock Option Scheme and Employee Stock Purchase Scheme) Guidelines, 1999 are as under:

On June 30, 2009, the Company issued 22,65,000 Employee Stock Options under the Employee Stock Options Scheme (the "Scheme") to employees of the Company and its subsidiaries with a right to subscribe to equity shares at a price of Rs. 35.60 per equity share (closing market price as on June 30, 2009). The stock option can be exercised during a period of 3 years from the date of vesting. The dates of vesting of options are June 30, 2010 (20%), June 30, 2011 (20%), June 30, 2012 (30%) and June 30, 2013 (30%).

The Company has adopted intrinsic value method for the valuation and accounting of the aforesaid stock options as per SEBI guidelines. Since the grants were made at an exercise price equal to the closing market price at the time of grant, no amount was required to be accounted as employee compensation cost. The fair value of the options as per the "Black Scholes" model comes to Rs. 17.49 per option. Had the company valued and accounted the aforesaid options as per the "Black Scholes" model, the employee compensation cost would have been higher by Rs. 9.11 mn, the Profit After Tax for the year would have been lower by Rs. 6.27 mn, the basic loss per share would have been higher by Re. 0.07 and diluted loss per share would have been higher by Re. 0.07, respectively.

The "Black Scholes" model captures all the variables with their respective appropriateness which influences the fair value of stock options. The significant assumptions to estimate the fair value of options as per "Black Scholes" model are :

| | Vest 1 June 30, 2010 | Vest 2 June 30, 2011 | Vest 3 June 30, 2012 | Vest 4 June 30, 2013 |

However, as per the provisions of Section 219(1)(b)(iv) of the Companies Act, 1956, the Report and Accounts is being sent to all the shareholders of the Company excluding the aforesaid information. Any shareholder interested in obtaining such particulars may write to the Company Secretary at the Registered Office of the Company.

IX. DIRECTORS' RESPONSIBILITY STATEMENT

Pursuant to the requirement under section 217(2AA) of the Companies Act, 1956, with respect to Directors' Responsibility Statement, it is hereby confirmed:

- (i) That in the preparation of the accounts for the financial year ended March 31, 2011, the applicable accounting standards have been followed along with proper explanation relating to material departures;
- (ii) That the Directors have selected such accounting policies and applied them consistently and made judgements and estimates that were reasonable and prudent so as to give a true and fair view of the state of affairs of the Company at the end of the financial year and of the profit or loss of the Company for the year under review;
- (iii) That the Directors have taken proper and sufficient care for the maintenance of adequate accounting records in accordance with the provisions of the Companies Act, 1956, for safeguarding the assets of the Company and for preventing and detecting fraud and other irregularities;
- (iv) That the Directors have prepared the accounts for the financial year ended March 31, 2011 on a 'going concern' basis.

X. CORPORATE GOVERNANCE

Your Company believes that Corporate Governance is a voluntary code of self-discipline. Your Company continuously endeavors to follow healthy Corporate Governance practices to nurture interest of all stakeholders in the Company.

A separate report on Corporate Governance is annexed hereto as a part of this report. A certificate from a practicing company secretary regarding compliance of conditions of Corporate Governance as prescribed under Clause 49 of the Listing Agreement is attached to this report. Management Discussion and Analysis Report is separately given in the Annual Report.

XI. ACKNOWLEDGEMENT

Your directors express deep sense of appreciation for the assistance and co-operation received from the Financial Institutions, Banks, Government Authorities, creditors and Shareholders and for the devoted services rendered, by the Executives, Staff and Workers of the Company.

For and on behalf of the Board

Global Overview

Economic Environment is turning positive in important markets

US economy in 2010, overcame the recessionary pressures, which it was facing in the previous year. Its GDP grew at a healthy 2.8% in 2010 while the world economy grew at 3.9%. Euro area (EU17) GDP grew at 1.7% with a projection of 1.4% growth for 2011. Developing countries GDP grew at 7% with South Asia growing at a whopping 8.7%. Comparative retail sales in the US, UK and Eurozone have shown strong sustainability with most months showing a positive growth year-on-year. Labour costs also saw an upward correction in India, China, Brazil and most other countries earlier recognized for their availability of cheap labour.

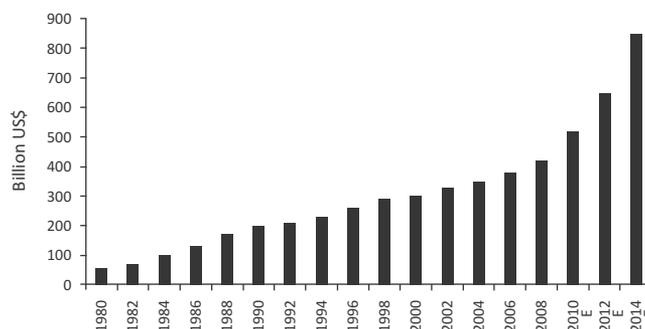

World Textile Market projected to show growth in the coming years

The global textiles and apparels trade is currently estimated at about US\$ 500 billion. The global market for textile trade includes yarns, fabrics, apparel and non-apparel finished products. Welspun estimates that the global home textiles market is around US\$ 25 billion, amounting to about 5% of the total global textile market. The home textiles market includes:

1. **Household textiles:** Rugs, bed linen, table linen, bathroom and kitchen linen, etc.
2. **Furnishing textiles:** Curtains, bedspreads and other furnishing articles for home interiors, etc.

Post the expiry of the Agreement on Textiles and Clothing in 2005, India's share of textile imports into the EU and the US has significantly increased. India is consistently among the top 3 leading suppliers of bed and bath linen in the EU. India along with China and Pakistan is amongst the top 3 suppliers of textile globally. Global Demand - Supply Scenario

While starting at the end of second quarter of 2010-11 the cotton crisis spread across the globe and resulted in high prices of cotton breaking all previously attained records around the world. The crisis has been attributed to various reasons including floods in Pakistan, poor crop in China, export restrictions on cotton and yarn, growing domestic consumption in China, along with the fact that lesser cotton was grown this year due to competition from other crops. However, retail sales in most of the markets went on to gain momentum. Manufacturers started de-specking their offerings, introducing new technologies to offer better consumer value on one hand and reducing the costs on the other hand. Cotton blends have seen resurgence during the year and facilitated introduction of innovative products in the market. The largest consumers for home textile continue to be dominated from the markets of US, Europe and Japan. Over the years, consumer's wallet share for textiles has been declining leading to great demand in the value segment and relatively lower demand for premium segment. In the last quarter of FY10, we observed a cautious optimism in the consumer demand which has grown at a gradual pace across the geographies. The Industry is expected to grow at a CAGR of 14% over the next 4 years to reach approximately US \$ 850 billion by 2014. The United States of America, India, China and Pakistan together account for 81% of the total home textiles imports. India is the largest supplier of terry towels and sheets in the United States at 30% and 33% of total imports respectively. As shown in figure 2, India has been slowly gaining share from China in US imports in the last few years.

Overview of the Indian Economy

Economic Indicators

India's GDP registered a growth of 8.5% during 2010-11, contributed mainly by manufacturing and services sectors. GDP growth estimates for 2011-12 provided by the Finance ministry indicated that the economy will better its performance and touch the 9% mark. Overall inflation rate for 2010-11 stood at 9.4% while Industrial production trend showed some weakness, registering a growth of 7.8% in 2010-11 against a growth of 10% seen during 2009-10. Core sectors recorded an overall growth of 5.7% during 2010-11 which is better than 5.4% growth seen in 2009-10. Exports grew phenomenally by 35% during the year, while imports increased by 21.2%. Strong tax revenues, 3G/BWA spectrum windfall and moderation in growth of overall expenditure have helped the Government to rein in fiscal deficit in 2010-11. (Source:FICCI)

Industry Structure

The industrial restructuring process has led to significant changes in the location of production activities in the home textiles sector. In the last two decades, many Western European home textiles companies have moved manufacturing activities to countries in Eastern Europe or to non-European countries, where costs of production are lower. Home textile manufacturers in developed economies have responded to pressures by continuing to pursue the strategy of:

- Relocating production or sourcing to Low Cost Countries; and
- Development of value-added products and higher value to customers through product innovation and cost management

Major retailers have integrated their supply chain through production facilities or sourcing tie-ups. This results in most economic cost and best quality products being offered to customers across the globe. Besides, it also brings in multidimensional implications like lower cost, value for money, innovation in product and services, supply chain efficiency, environment awareness and stiff conditions to be complied for production facilities in line with global standard. The buyers are also required to monitor working conditions and manufacturing practices in all parts of the value chain, including those at

subcontracting companies.

Some trends that influence the production for household and furnishing textiles in the developed markets includes:

Availability of Raw Material: Cotton saw its most unpredictable year ever; with the benchmark index reaching as high as \$2.5/lb from its usual \$0.8/lb in the previous year. Manufacturers were caught unaware with this massive price rise and their inability to pass the entire cost increase to end consumers. Product innovation and use of alternative fibers have been the most prominent ways to deliver better value to customers in this high cost environment.

Increasing Internationalization: Textile retail companies have enhanced their sourcing activities on a global scale at a rapid pace and their products are available in many developed markets.

High Degree Value Chain Integration: Several producers have opened their own chain(s) and many suppliers have started a close and long-term co-operation with distribution channels, thereby increasing the entry barriers for new suppliers. Despite this market has witnessed huge amount of sales erosion and at the same time in many of the established players have also ceased to exist.

Consolidation: The industry has witnessed numerous mergers and acquisitions, bankruptcies, scaling down of operations as well as market capitalization getting eroded for top players across the industry and the emergence of newer players with cost advantages.

Innovation and Brands: Several manufacturers of home textiles have brought innovative products and designs for each market and have also resorted to private labels/ newer brands and established brands have changed hands at much lower royalty terms.

Market Structure

Consumers

In the recent years the customer has clearly indicated preference for value for money product with better quality and superior design preferences. As majority of purchases in the home textiles segment are made for replacement purposes and are also discretionary in nature. This consumption patterns also varies substantially by households across geographies due to differences in culture, traditions and tastes. Consumer preferences and economic environment have resulted in private label and textile discounters gaining ground and the super and hyper markets have been successful in pushing unknown or fancy brand names as well. Some of the emerging markets have also witnessed an interesting trend in consumption pattern as increasing per capita income is resulting in bigger aspirations and big brand purchases. Internationally renowned brands have initiated market presence in these markets and are looking forward to meaningful growth. In any case the home markets for bigger brands in the developed markets are not growing at a faster pace whereas newer markets are providing opportunity to grow.

Distribution channels

Importers purchase products from manufacturers abroad and we estimate that they generally add a 30-40% mark-up to cover commissions, credit risk, after-sales service and the cost of carrying a local inventory to meet small orders. In contrast to the agent, this importer holds his own stocks at his own risk.

Wholesalers cater to specialist shops as well as to department stores and home shopping companies. The wholesaler also holds stocks at own risk. This non-importing distributor purchases from domestic manufacturers and importers. The mark-up of wholesalers, Welspun estimates the mark-ups of wholesalers are approximately 20-30%. Large retail companies are increasingly purchasing from abroad, thereby bypassing these intermediaries.

Purchasing agents widely used by retailers and wholesalers due to their network and knowledge of foreign markets. They do not carry their own stock but purchase solely on request from their customers.

Domestic manufacturers either import the raw material required for the finishing operations or are primarily manufacturing products which are freight unfriendly or difficult to manage with long supply chains. These manufacturers have the advantage of proximity to the source of raw material as well as the customer.

Sales agents independent intermediaries between the (foreign) manufacturer and the retailer or retail organization, receiving a commission from the former. The sales agents do not take title to the merchandise, they are responsible for presenting samples to potential clients, obtaining orders, and forwarding these to the exporters.

Retailers constitute the final stage before products reach the consumer. A criterion for dividing the market is the composition of the total assortment: wholly or partly specialized in selling home textiles.

Indian Textiles Industry

The Indian textile industry contributes about 14 per cent to industrial production, 4 per cent to the country's gross domestic product (GDP) and 17 per cent to the country's export earnings (Source:IBEF). It provides direct employment to over 35 million people and is the second largest provider of employment after agriculture. The industry is expected to grow from the present US\$ 70 billion to US\$ 220 billion by 2020, according to Mr Dayanidhi Maran, Union Minister of Textiles. In order to capture the additional market of US\$ 150 Bn, investments to the tune of US\$ 68 Bn across the textile supply chain will be required as shown in figure 4:

Major Developments

The total cloth production has increased by 2.9 per cent during December 2010 as compared to December 2009, according to the Ministry of Textiles. The highest growth was observed in the powerloom sector (3.7%), followed by handloom sector (3.3%). The total cloth production during April-December 2010 has increased by 2.3% compared to the same period of the previous year. The production of spun yarn and cotton yarn increased by 6.0% and 8.6%, respectively during December 2010 as compared to December 2009. Cotton textiles have registered a growth of 10.8% (source: Central Statistical Organization) during April-January 2010-11, while textile products including wearing apparel have registered a growth of 4.3%, as per the Index of Industrial Production (IIP). India has the potential to increase its textile and apparel share in the world trade from the current level of 4.5 % to 8% and reach US\$ 80 billion by 2020, source Ministry of Textiles press release, 2nd Nov-10.

Technical Textile Segment

Technical textiles are an important part of the textile industry. The Working Group for the Eleventh Five Year Plan (2007-12) has estimated the market size of technical textiles to increase from US\$ 5.29 billion in 2006-07 to US\$ 10.6 billion in 2011-12, without any regulatory framework and to US\$ 15.16 billion with regulatory framework (source: Ministry of Textiles.) The Scheme for Growth and Development of Technical Textiles aims to promote indigenous manufacture of technical textile to leverage global opportunities and cater to the domestic demand. Further, the government is set to launch US\$ 44.21 million mission for promotion of technical textiles, while the Finance Ministry has cleared setting up of four new research centers for the industry.

Government Initiatives

Government has announced the restructuring of the Technology Upgradation Funds Scheme (TUFS) to boost investments in Textiles sector. Investment under the Scheme has been increasing steadily. The Scheme for Integrated Textile Park (SITP) was approved in July 2005 to facilitate setting up of textiles parks with world class infrastructure facilities. Forty parks have been sanctioned till December 31, 2010 in nine states with total project cost of about US\$ 931.1 million with Government contribution of US\$ 320 million. When fully functional the parks would have an investment of US\$ 4.3 billion (source: IBEF).

The Government has also launched the Integrated Skill Development Scheme for the Textiles & Apparel Sector, including Jute & Handicrafts, with an objective of capacity building of Institutions providing skill development & training in Textiles Sector. Under this Scheme, the Government has envisaged skill development of 2.7 million persons with an overall cost of US\$ 530 million over the next five years (source: IBEF).

India - A Manufacturing Destination

India continues to enjoy some of the key advantages as a manufacturing location is set to become as a major centre for outsourcing of textile products for global markets. In the recent period the Indian economy has been growing but also has also witnessed higher inflation and higher interest rate regime. This has resulted in major increase in the cost structure including salary & wages. This coupled with increase in raw material prices has severely impacted the industry. The crude oil prices have also been in a very high range of more than USD 90 per barrel which in turn has increased transportation costs. With the volatility in foreign currency rates and appreciation of Indian rupees, the export earnings have taken a beating for the textiles industry in general. With the reorganization of export and imports in the textiles industry it is imperative on the part of government to provide boost to the textiles sector in terms of export benefits and lower interest cost. This is gaining more relevance given the high level of employment generated by the industry and the forex earnings made by the exports. Despite all this macro factors India continues to enjoy strategic advantage as a manufacturing destination as below:

Self sufficiency of raw materials

Firstly, India is amongst the top cotton growers in the world and is a net exporter of cotton. The same holds true for other raw materials for textiles, both natural and man-made. Currently, India is exporting raw cotton and this is creating huge impact on higher cotton prices, though they are aligned to global demand and supply forces. India needs to put a more strategic though process to build finished product capacities and leverage on raw material availability and enjoy better margin on value addition. This will create more employment and improve forex earnings in the country. Initiative to increase productivity would be an added advantage. On the other hand other Asian countries such as China, Bangladesh, Pakistan, Thailand and Indonesia are net importers of cotton and are also large exporters of finished textiles products. Thus India is well poised to use the raw material availability to its overall advantage in the global trade and as well as move up the value chain.

Labour Cost Advantage

Secondly, young and skilled pool of working class is another important cost competitiveness with the country. This enables easy availability of low cost skilled labor across different industries. The textile industry is no exception whereby India's cost of production ranks amongst the lowest in the world today (source: ITMF, 2010).

Design Skills, Innovations and Value Addition Capabilities

Thirdly, India with its talent pool has become the harbinger of global design, innovation and value added products for the global markets. This also enables to deliver smaller order sizes to large number of customers and also provide tailor made design and service solutions for all types of customers. This niche is well appreciated in the global context as compared to some of the other countries which typically stand for either very low cost of production or mass producers. India is well poised to deliver some of the best in class products in both the mid segment and the high end segments of the market.

Economies of Scale owing to a Huge Domestic Market

Fourthly, India enjoys a unique advantage of being one of the largest textile market itself and a large consumer base in the world, growing consistently over the years. Currently, domestic textile industry is being estimated to be around USD 52 billion (source: Indian Textiles and Apparel Compendium, 2010, Technopak). A large part of Indian textiles industry is still

unorganized but provides a huge advantage in terms of lower manufacturing overheads and better operational efficiencies possible with larger volumes. Indian producers are not only able to produce for both exports and domestic orders but are also able to bring best international practices & design and delivery for the domestic consumers. This market is shaping up in a great manner and is going to be a big differentiator in the coming days.

The Home Textile Industry

World over, home textiles have always played an important role in the comfort, protection and decoration of households. The size of the global home textiles industry, estimated to be \$70 billion has been growing with China, Pakistan and India remaining major players. Bangladesh too has emerged as an important supplier, thanks to its cheap labour, enterprising private sector operators and edge in terms of duty exemptions and concessions that it enjoys as a Least Developed Country (LDC). India and China have been the major preferred supplying countries as far as higher end products are concerned, while Pakistan and Bangladesh dominate the lower end of the market. (<Source: emergingtextiles.com>) Earlier, quota restrictions inhibited foreign manufacturers from developing economies of scale and the logistics & supply chain capabilities required to effectively service overseas replenishment demand. The removal of quotas in January 2005 has resulted in the elimination of the advantages enjoyed by manufacturers in the United States and improved the competitive position of the overseas manufacturers. Manufacturing plants in USA and Europe have been shutting down and adapting their business model to either relocating to low cost manufacturing locations, sourcing from Asia or getting acquired by companies from these manufacturing centers.

WELSPUN - A SWOT Analysis

Strengths

- Strategically located manufacturing facilities (Anjar and Vapi in Gujarat, India and Rosarito in Mexico)
- Economies of scale with modern manufacturing facilities
- Integration across the production chain (Spinning, weaving, processing, cut and sew, packing and logistics)
- Wide range of product portfolio (terry towels and bed linen, basic and decorative beddings and bath rugs)
- Focus on cost reduction
- Innovative Products
- Focus on quality (ISO 9001:2008 / ISO 14001:2004 certifications - by Intertek Systems Certification)

Weaknesses

- Does not have control over the entire value chain
- Volatility in raw material prices impacts the cost structure
- Limited ability to command desired price from large customers

Opportunities

- Grow market share in important markets of US and Europe
- Leverage global scale capacities and product portfolio to offer complete solution to customers
- Multi-location production and distribution network to serve the clients in superior manner
- Enhance backward integration and derive higher margin on the entire value chain
- Leverage the brand capabilities in WGBL and WRL
- International design and innovation capability

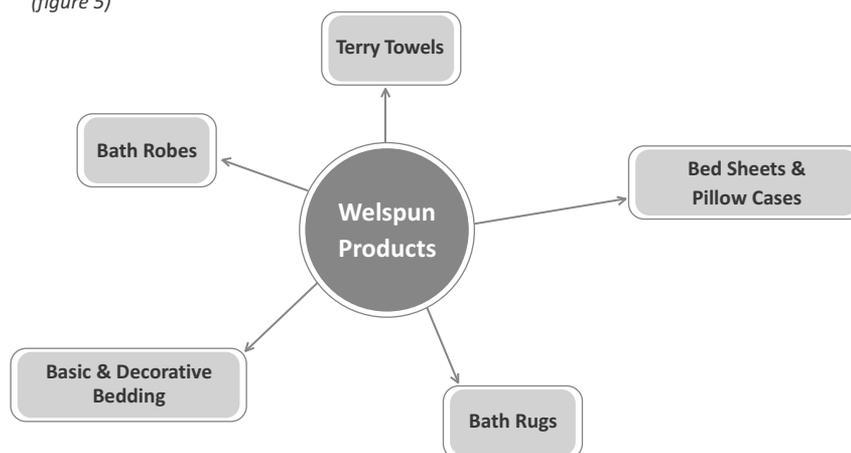

Threats / Risks

- Intense competition in domestic market and international markets
- Volatile Forex exchange rates
- Rising input costs
- Volatile Crude Prices

WELSPUN PRODUCTS

Welspun with its wide range of home textile products include terry towels, bed sheets & pillow cases, bath robes, bath rugs, basic & decorative bedding.

(figure 5)

Terry Towels

Welspun is the 3rd Largest Terry Towels manufacturer in the World with its quality products manufactured in different shapes and sizes. These are beach towels, kitchen towels, baby hood towels, and for special use, such as hand towels, face towels and bath sheets. These towels are woven out of 100% cotton yarn, acquire significant hygroscopic property, which is a prime reason for using terry fabrics in home textiles in general and towels and bath robes in particular.

Bed Sheets & Pillow Cases

Welspun's bed sheets is ranked 4th by HTT for its quality and innovation. These bed sheets come in different shapes and sizes according to the bed sizes and mattress depth. Our bed sheets are made from cotton or various blends, such as polyester cotton, cotton bamboo, cotton silk and cotton eucalyptus. Blends provide the consumer ease of maintenance and cost effective of the product by the consumer.

Bath Rugs

Welspun's rugs are of various designs using its multi-level cut loop machine to create multiple fiber lengths within a rug. Our bath rugs are generally made of cotton, nylon or micro fiber and can be latex-backed, depending on consumer preferences. Based on customer requirements, we make rugs of different sizes and weights including reversible rugs.

Basic Bedding and Decorative Bedding

Welspun ranks 4th in Comforters (Decorative Bedding) by HTT. The basic bedding includes mattress pads, blown and garneted pillows and basic comforters while our decorative bedding products includes comforters, duvets, coverlets, bed skirts, shams, decorative pillows and bolsters. Most of these products are made of polyester fiber fill wadding. The fill used for each product varies according to customer requirements. Since the decorative products provide the look and feel to the bedroom, the products are design-oriented.

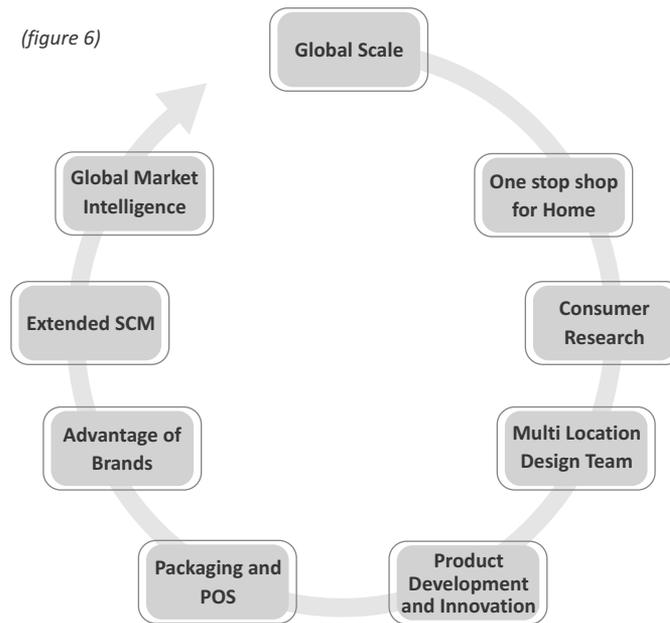

Bath Robes

Welspun manufactures bath robes in different designs, shades and weights as per customer requirements. Its ability to make piece dyed, yarn dyed, jacquard and velour bath robes. The bath robes are manufactured in different styles such as "kimono", "hood", "zipper", and "shawl". Welspun specializes in the manufacture of a specific category of bath robes called "wraps". It also provides embellishments, embroidery and prints as per customer requirements. The fabric for our bath robes is similar to the fabric of our towels, which enables us to leverage the product development and innovation undertaken in the production of terry towels.

Welspun's Business Strategy

(figure 6)

Global Scale:

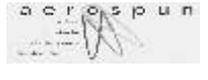

- Towel capacity among the top 3 in the world#
- Sheet capacity among the top 2 in India and top four in the world
- Decorative bedding and rugs are also at global scale—among the top 4 capacities in the world
- Manufacturing base in India, Mexico and Portugal
- Distribution facilities in India, Ohio, Portugal & UK
- **One stop shop for Home:** Welspun is an integrated Home Textile supplier for all customer requirements. Its wide ranging product portfolio enables it to cater to the entire home furnishing requirements of its customers across the globe. Its expanding Product Portfolio has enabled it to become a “One stop shop for Home Textiles”.
- **Consumer Research:** Welspun actively uses the organizations like NPD Group Inc. and ‘Just Ask a Woman’ to get insights into consumer requirements and identify the key product attributes to help in consumer communication. This consumer research is also shared with key retailers during strategic meetings and is the foundation for all product recommendations.

Multi Location:

- **Product Development and Innovation:** Welspun’s Product Development & Innovation are key areas creating a sustainable competitive advantage over its peers globally. Using inputs from the consumer research and through tracking the new developments, we have added products like Ever Smooth MXL Wrinkle Free, Quick Dry Sheets, Flexifit sheets and the Perfect Sheet incorporating all the qualities mentioned.

On the bath technologies side Welspun has added new bath technologies like Nanospun, Aerospun, Spot Stop, Hygro technology and texture towels to our product basket. On the Sleep Solutions side it has added technologies like Earth Pillow, Wonder Bed, Sneeze Eezzz, Hygrofill etc.

- **Packaging and Point of Sale:** Welspun has marketing teams in USA and in India which work on development of packaging for different products. Point of sale communication is also developed in order to ensure the key functional product attributes are communicated to the consumer at the retail floor.
- **Advantage of Brands:** WIL supplies its products to the premium International and Domestic brands under WGBL like Welhome and Spaces Home & Beyond in Domestic and Christy, Sorema, Graciotza, Kngsley, and Luxus etc.
- **Extended SCM:** Welspun is among the few manufacturers who provide Collaborative Forecasting, Planning and Replenishment to its customers over more than 30 programs from POS to production at the plant level.
- **Global Market Intelligence:** Welspun has presence at multiple locations across the world and uses this presence to build the market intelligence for different markets. In addition to this, secondary research using published Industry sources helps to build the market intelligence.

Principal Factors Affecting Results of Operations

- Volatility in Cotton Prices which is the main Raw Material for the business
- General economic conditions
- Condition and performance of Indian and international textile industry
- Price and availability of raw materials/ factors of production
- Demand and supply of products across the globe
- Foreign exchange fluctuations: Most of the costs of our operations and income are in Indian Rupees. However, we do have indirect exposure to foreign exchange fluctuations as the sale prices of our products sold to WGBL are based on the prevailing exchange rate. Further, we are exposed to foreign exchange fluctuations in relation to our manufacturing facility in Mexico, as the costs of operation of this facility are in Peso and the income from its sales are in US Dollars.
- Global Competition

Welspun's efforts to sharpen competitive edge

- Welspun defined strategy, towards the improved product mix and optimized utilization of assets.
- Continue with the improvement in Retail Operations by
 - Improve Merchandising & Store Experience
 - Build Organizational Capability
 - Build brand awareness
 - Improve efficiencies, reduce closeouts, and increase in-stock availability
- Further expansion /modernization of its manufacturing capacities with an objective to attain increase in volume with lower overhead, better quality and replacement/ upgradation of technology.
- Focusing on increasing contribution of Innovative products to portfolio
- Cost optimization with an aim to become the lowest cost producer of home textiles globally and further aims to become the preferred partner in home textiles for global initiative with its business model.

In 2011-12, Welspun plans to:

- Sustain its market share of all products in USA and UK while improving its share in other geographies
- Stabilize the sales of licensed brand products in UK
- Increase sales in Europe through Sorema, while we have made an entry at many retailers now we need to leverage our presence to get significantly higher sales from Europe.
- Increase revenues in fashion bedding, basic bedding and bath rugs
- Product Development and Innovation to remain a focus area for growth especially in current volatile cotton scenario
- Strengthening of Process : Reducing turnaround times and quicker customer response
- Develop new markets like Korea, Japan, Russia and China
- Create innovative products for all markets
- Continuous focus on cost reduction at plants and subsidiaries across locations in each category of products

**Research and Development**

Welspun has a strong focus on research and development of products, processes and technology to endeavor and achieve a leading position in the international market. In order to achieve this Welspun is focusing on:

- Continuously monitoring our product quality
- Maintaining highly trained and experienced employees
- Using the latest technology available to create high quality products
- Developing new manufacturing and testing facilities to eliminate possibilities of defects in our products
- Providing training to our employees working in research and development as well as in other associated departments

Our management is committed to providing all necessary resources for research and development in order to achieve a leading position in the global market.

HUMAN RESOURCES POLICY

Our HR policies cover our objectives, eligibility & coverage, policies and procedures. We review, revise and update our Human Resource policies consistently to make them relevant, effective and useful to the employees.

OUTLOOK

The Textile business is passing through a tough phase due to increase in raw material cost, higher oil price, high inflation and higher wage cost, volatile forex rates and limited ability to pass on price rise due competitive business environment.

The opportunity lies in building efficiency in operating processes, better control over input costs, bring design and innovation in the product portfolio and providing complete solution to the customers. The markets in the developed countries are shaping up well despite some challenges in some of the countries and the potential for domestic Indian market continues remain loss. We believe the home textile business will see increasing share in the organized sector and better capacity utilization and sweating of assets will deliver better profitability.

However during the current fiscal the cotton prices are now showing the downward trend and settling at a sustainable level, while the company is showing an upward curve in order booking for its products. With such encouraging twin effects the future prospects looks promising.

INTERNAL CONTROL SYSTEM AND THEIR ADEQUACY

At Welspun, the internal control system encompasses the policies, processes, tasks, behaviours and other aspects of Welspun that taken together, facilitate effective and efficient operation, quality of internal and external reporting, compliance with applicable laws and regulations. Welspun's objectives, its internal organization and the environment in which it operates are continuously evolving and as a result, the risks it faces are continuously changing. In order to make its internal control effective and sound, Welspun thoroughly and regularly evaluates the nature and extent of the risks to which the Company is exposed. The operation and monitoring of the system of internal control has been taken by individuals who collectively possess the necessary skills, technical knowledge, objectivity, understanding of the Company, industries and markets in which it operates. The qualified, experienced and independent Audit Committee of the Board of Directors actively reviews the adequacy and effectiveness of internal controls systems and suggests improvements for strengthening them. Welspun has a strong Management Information System which is an integral part of the control mechanism. Welspun has successfully implemented an enterprise wide solution (ERP) in its textile plants.

1. REVENUE

a. Net Sales

Net Sales stood at Rs.20,548.11 million in FY11 recording a growth of 6.07% over the previous financial year. The revenue growth was lead by higher volumes on account of improved market conditions on the back of demand growth across the world for major products and higher realization with increasing input costs. The Sales volume showed a remarkable growth in Bath Linen products and Rugs manufactured by WIL in FY11 as compared to FY 10.

WIL continues to avail the export benefits in accordance with the agreed terms and conditions with WGBL. The export benefits were Rs.1,705.26 million in FY11 as against Rs. 1,398.26 million in the previous year.

b. Other income

Income from other sources grew by increased by 7.76 % from Rs. 683.61 million in FY10 to Rs. 736.68 million in FY11 primarily on account of excise and sales tax benefits and profit on cancellation of forward/ swap contracts in FY11.

2. EXPENDITURE

a. Cost of Materials

Consumption of raw materials grew by 11.83% from Rs. 9,481.33 million in FY10 to Rs. 10,603.26 million. This was mainly on account of steep rise in cotton prices, the primary raw material for our products. However, percentage increase in cost of material as compared to Sales was higher by 2.66% in FY11.

Against the revenue growth of 6.07% the cost of material has increased by 11.83% indicating the fact that only part of increase in costs have been passed to customers and improved product mix has been a contributor as well.

b. Manufacturing Expenses

Manufacturing expenses has increased by 14.18% and are at Rs.5, 514.37 million in FY11 primarily on account of increase of Power, Fuel and Water charges by Rs. 203.13 million (up by 12.14%), Job Work expenses by Rs. 195.20 million (up by 93.94%) and Store and Spare cost by Rs. 129.18 million (up by 46.44%) and marginal increase in various cost components. This has resulted in manufacturing expenses growing from 24.93% in previous year to 26.84% of sales in the current year.

c. Employee Cost

The employee cost grew to Rs. 1,670.64 million in FY11 with increase in salary & wages, increase in man power count and increasing provisions for gratuity & leave entitlement.

d. Selling, Administration and Other Expenses

The selling administration and other expenses has increased by Rs. 156.37 million and scaled upto Rs. 1,057.04 million largely due to higher rent charges, higher legal and foreign exchange losses. Whereas, some of the expenses are lower like freight, forwarding and coolie charges as export dispatches were replaced with domestic sales to WGBL.

e. Finance Expenses (Net)

The net interest cost in FY11 was lower at Rs. 800.89 million as against Rs. 925.73 million in FY10 despite increase in the loan funds. The Company has mainly benefited by judiciously managing its funds and deriving interest income earned on surplus funds.

f. Depreciation

Depreciation was higher at Rs. 1,203.34 million in FY11 as against Rs.1, 126.26 million in FY10 primarily on account of commissioning of new plant and machinery.

g. Taxes

In the current year, total tax provisions were Rs. 403.05 million as compared Rs. 571.36 million in the previous year, which is in line with current year's profits.

3. MARGINS

a. EBIDTA

The EBIDTA has is lower from Rs. 4,238.21 million in FY10 to Rs. 2,439.49 million in FY11 due to lower increases in prices and all round increase various cost components as explained above. This resulted in lower operating EBITDA margins at 11.87% in FY 11 as compared to 21.88% in FY 10.

b. Profit After Tax

Profit after tax in FY11 was Rs. 14.02 million as against a profit of Rs. 1,608.29 million of profit in the previous year.

4. EARNING PER SHARE (Basic)

(Rs. In million)

The Earning per Share for the year ending March 31, 2011 (Basic) (before extra-ordinary item) was Rs. 0.16 against Rs. 22.00 per share in the previous year.

3. As required by the Companies (Auditor's Report) Order, 2003, as amended by the Companies (Auditor's Report) (Amendment) Order, 2004 (together the "Order"), issued by the Central Government of India in terms of sub-section (4A) of Section 227 of 'The Companies Act, 1956' of India (the 'Act') and on the basis of such checks of the books and records of the Company as we considered appropriate and according to the information and explanations given to us, we give in the Annexure a statement on the matters specified in paragraphs 4 and 5 of the Order.
4. *We draw your attention to Note 7(b) on Schedule 19 to the financial statements, regarding the accounts receivables balance of Rs. 696.02 million (March 31, 2010: Rs. 475.93 million), which include Rs.108.33 million (March 31, 2010: Rs.52.07 million) outstanding for more than one year, that is due from Welspun Retail Limited ("WRL"), a group company, as at March 31, 2011, in relation to which no valuation allowance has been estimated and adjusted in these financial statements which, in our view, does not meet the requirement to consider prudence in selection of accounting policies, as set out in Accounting Standard 1 – Disclosure of Accounting Policies, as WRL has been incurring significant losses (Rs.199.73 million for the year ended March 31, 2011 and Rs. 1,205.96 million as at March 31, 2011) basis its audited financial statements as of and for the year ended March 31, 2011) and has also been unable to achieve its projected financial results in the previous and current financial reporting periods.*
5. Without qualifying our opinion, we draw your attention to:
 - (a) Note 8 on Schedule 19, regarding the Company's dependence on Welspun Global Brands Limited ('WGBL') and WRL for selling its products consequent to the demerger of the marketing arm of the Company effective April 1, 2009. If the arrangement between the Company, WGBL and WRL are discontinued, the business of the Company could be adversely impacted.
 - (b) Note 9 on Schedule 19, regarding corporate guarantees, aggregating Rs. 3,593 million at the year end, issued consequent to the demerger of the marketing arm of the Company referred to in paragraph 5 (a) above, to the bankers of WGBL in relation to the debt facilities provided by them to WGBL, and other corporate guarantees disclosed in Note 3 on Schedule 19, aggregating Rs. 5,145.52 million at the year end, issued on behalf of WGBL, Welspun USA Inc. ('WUSA'), Welspun Captive Power Generation Limited (WCPGL), Welspun Mexico SA de CV (WELMEX) and Welspun Home Textiles UK limited ('WHTL'). If WGBL, WUSA, WCPGL and WHTL are unable to meet their obligation as they fall due, the financial condition and cash flows of the Company could be adversely impacted.
 - (c) Note 4 on Schedule 19, regarding the recognition of deferred tax assets during the year, aggregating Rs. 303.64 million, on the incremental unabsorbed Income-tax depreciation arising out of its treatment of certain excise and Value Added Tax incentives as 'capital receipts' for income tax purposes based on the judgement in re Commissioner of Income Tax, Mumbai v/s. Reliance Industries Limited of the Honourable High Court of Judicature at Bombay. However, this case has not attained finality as the judgement has been challenged by the tax authorities in the apex court. If the final decision in the matter is eventually decided against the Company, then the carrying value of the deferred tax assets at the period end could be significantly impacted.

**AUDITORS' REPORT TO THE MEMBERS OF WELSPUN INDIA LIMITED**

6. Further to our comments in the Annexure referred to in paragraph 3 above, we report that:

- (a) *Except for the indeterminate effects of the matter referred to paragraph 4 above*, we have obtained all the information and explanations which, to the best of our knowledge and belief, were necessary for the purposes of our audit;
- (b) In our opinion, *except for the indeterminate effects of the matter referred to paragraph 4 above*, proper books of account as required by law have been kept by the Company so far as appears from our examination of those books;
- (c) The Balance Sheet, Profit and Loss Account and Cash Flow Statement dealt with by this report are in agreement with the books of account;
- (d) In our opinion, *except for the matter referred to paragraph 4 above*, the Balance Sheet, Profit and Loss Account and Cash Flow Statement dealt with by this report comply with the accounting standards referred to in sub-section (3C) of Section 211 of the Act;
- (e) On the basis of written representations received from the directors, as on March 31, 2011 and taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2011 from being appointed as a director in terms of clause (g) of sub-section (1) of Section 274 of the Act;
- (f) In our opinion and to the best of our information and according to the explanations given to us, *except for the indeterminate effects of the matter referred to in paragraph 4 above*, the said financial statements together with the notes thereon and attached thereto give, in the prescribed manner, the information required by the Act, and give, a true and fair view in conformity with the accounting principles generally accepted in India:
 - (i) in the case of the Balance Sheet, of the state of affairs of the Company as at March 31, 2011;
 - (ii) in the case of the Profit and Loss Account, of the loss for the year ended on that date;
 - (iii) in the case of the Cash Flow Statement, of the cash flows for the year ended on that date.

ANNEXURE TO AUDITORS' REPORT

Referred to in paragraph 3 of the Auditors' Report of even date to the members of Welspun India Limited on the financial statements for the year ended March 31, 2011

1. (a) The Company is maintaining proper records showing full particulars, including quantitative details and situation, of fixed assets.
(b) The fixed assets of the Company have been physically verified by the Management during the year and no material discrepancies between the book records and the physical inventory have been noticed. In our opinion, the frequency of verification is reasonable.
(c) In our opinion and according to the information and explanations given to us, a substantial part of fixed assets has not been disposed of by the Company during the year.
2. (a) The inventory (excluding stocks with third parties and materials in transit) has been physically verified by the Management during the year. In respect of inventory lying with third parties, these have substantially been confirmed by them. In our opinion, the frequency of verification is reasonable.
(b) In our opinion, the procedures of physical verification of inventory followed by the Management are reasonable and adequate in relation to the size of the Company and the nature of its business.
(c) On the basis of our examination of the inventory records, in our opinion, the Company is maintaining proper records of inventory. The discrepancies noticed on physical verification of inventory as compared to book records were not material.
3. (a) The Company has not granted any loans, secured or unsecured, to companies, firms or other parties covered in the register maintained under Section 301 of the Act.
(b) The Company has not taken any loans, secured or unsecured, from companies, firms or other parties covered in the register maintained under Section 301 of the Act.
4. In our opinion and according to the information and explanations given to us, there is an adequate internal control system commensurate with the size of the Company and the nature of its business for the purchase of inventory, fixed assets and for the sale of goods. Further, on the basis of our examination of the books and records of the Company, and according to the information and explanations given to us, no major weakness have been noticed or reported.
5. (a) In our opinion and according to the information and explanations given to us, the particulars of contracts or arrangements referred to in Section 301 of the Act have been entered in the register required to be maintained under that Section.
(b) In our opinion and according to the information and explanations given to us, there are no transactions made in pursuance of such contracts or arrangements and exceeding the value of Rupees Five Lakhs in respect of any party during the year, which have been made at prices which are not reasonable having regard to the prevailing market prices at the relevant time.
6. The Company has not accepted any deposits from the public within the meaning of Sections 58A and 58AA of the Act and the rules framed there under.
7. In our opinion, the Company has an internal audit system commensurate with its size and nature of its business.
8. We have broadly reviewed the books of account maintained by the Company in respect of products where, pursuant to the Rules made by the Central Government of India, the maintenance of cost records has been prescribed under clause (d) of sub-section (1) of Section 209 of the Act, and are of the opinion that prima facie, the prescribed accounts and records have been made and maintained. We have not, however, made a detailed examination of the records with a view to determine whether they are accurate or complete.

ANNEXURE TO AUDITORS' REPORT

9. (a) According to the information and explanations given to us and the records of the Company examined by us, in our opinion, the Company is regular in depositing the undisputed statutory dues including provident fund, investor education and protection fund, employees' state insurance, income-tax, sales-tax, wealth tax, service tax, customs duty, excise duty, cess and other material statutory dues as applicable with the appropriate authorities.
- (b) According to the information and explanations given to us and the records of the Company examined by us, the particulars of dues of sales-tax and excise duty as at March 31, 2011 which have not been deposited on account of any dispute, are as follows:

| Name of the Statute | Nature of dues | Amounts (Rs. in million)* | Period to which the amount relates | Forum where the dispute is pending |

SCHEDULES ANNEXED TO AND FORMING PART OF THE BALANCE SHEET AS AT MARCH 31, 2011 AND PROFIT AND LOSS ACCOUNT FOR THE YEAR ENDED MARCH 31, 2011.**SCHEDULE – 19 : NOTES TO ACCOUNTS****1. Significant Accounting Policies****(i) Accounting Convention**

The Financial Statements are prepared to comply in all material aspects with all the applicable accounting principles in India, the applicable accounting standards notified under sub-section (3C) of Section 211 of the Companies Act, 1956 (the "Act") and the other relevant provisions of the Act.

(ii) Fixed Assets

Fixed Assets are stated at cost (net of cenvat credit, wherever applicable) less accumulated depreciation and impairment loss, if any. The cost includes cost of acquisition, construction, erection, installation etc., preoperative expenses (including trial run) and borrowing costs incurred during pre-operational period. Cost of software includes license fees and implementation/ integration expenses.

(iii) Incidental Expenditure Pending Capitalisation/ Allocation

Incidental expenditure pending capitalisation/ allocation represents expenses incurred during setting-up of manufacturing facility including preoperative expenses for trial runs and borrowing cost incurred prior to the date of commencement of commercial production. These expenses are net of sales during trial run and other income accrued prior to the commencement of commercial production.

(iv) Borrowing Costs

Borrowing costs directly attributable to the acquisition/ construction of fixed assets are apportioned to the cost of the fixed assets up to the date on which the asset is put to use/ commissioned.

(v) Depreciation

- (a) Depreciation on fixed assets, other than leasehold improvements and computer software, is provided on straight-line method at the rates and in the manner prescribed under Schedule XIV to the Act. Depreciation on additions/ deletions to fixed assets is calculated pro-rata from/ up to the date of such additions/ deletions.
- (b) Leasehold improvements are amortised on straight-line basis over the primary period of lease.
- (c) Computer software is amortised on the straight-line method over a period of five years.
- (d) Assets individually costing Rs. 5,000 or less are fully depreciated in the year of purchase.

(vi) Investments

Long term investments are stated at cost less provision, if any, for diminution in value other than temporary. Current investments are carried at the lower of cost and fair value.

(vii) Inventories

- (a) Inventories are valued at lower of cost and net realisable value.
- (b) Cost of raw materials, stores and spares and traded goods is determined on first-in-first-out basis. Cost of work-in-process and finished goods comprises of raw material, direct labor, other direct costs and related overheads but exclude interest expense. Net realisable value is the estimate of the selling price in the ordinary course of the business, less the estimated costs of completion and estimated selling expenses.

(viii) Accounting for Taxes on Income/ Minimum Alternate Tax Credit**(a) Current Taxation**

The current tax is determined as the amount of tax payable in respect of taxable income for the year as per The Income Tax Act, 1961, of India.

SCHEDULES ANNEXED TO AND FORMING PART OF THE BALANCE SHEET AS AT MARCH 31, 2011 AND PROFIT AND LOSS ACCOUNT FOR THE YEAR ENDED MARCH 31, 2011.

(b) Deferred Taxation

- Deferred tax resulting from timing differences between book and tax profits is accounted for under the liability method, at the current/ substantially enacted rate of tax to the extent that the timing differences are expected to crystallise.
- Deferred tax assets arising in situations where there are brought forward losses and unabsorbed depreciation as per the Income Tax Act, 1961, of India to the extent deferred tax amount exceeds net deferred tax liabilities, are recognised only when there is a virtual certainty supported by convincing evidence that such assets will be realised.

(c) Minimum Alternate Tax Credit

Minimum Alternate Tax (MAT) paid in accordance with tax laws, which give rise to future economic benefits in the form of adjustment of future tax liability, is recognised as an asset only when, based on convincing evidence, it is probable that the future economic benefits associated with it will flow to the Company and the assets can be measured reliably.

(ix) Employee Benefits

(a) Defined Contribution Plans

The Company contributes on a defined contribution basis to Employee's Provident Fund, Employee's State Insurance Fund and Employee's Pension Scheme towards post employment benefits, all of which are administered by the respective Government authorities, and has no further obligation beyond making its contribution, which is expensed in the year to which it pertains.

(b) Defined Benefit Plans

The Company has a Defined Benefit Plan namely Gratuity for all its employees. The liability for the defined benefit plan of Gratuity is determined on the basis of an actuarial valuation, calculated using projected unit credit method, by an independent actuary at the year end.

Gratuity Fund is recognised by the income tax authorities and is administered through trustees. The Employee's Gratuity Trust takes group gratuity policies with insurance companies.

Actuarial gains and losses which comprise experience adjustments and the effect of changes in actuarial assumptions are recognised in the Profit and Loss Account.

(c) Employee Leave Entitlement

The employees of the Company are entitled to leave as per the leave policy of the Company. The liability in respect of unutilised leave balances is provided based on an actuarial valuation carried out by an independent actuary as at the year end and charged to the Profit and Loss Account.

(x) Foreign Currency Transactions, Derivative Instruments and Hedge Accounting

- (a) Foreign currency transactions are recorded at the exchange rates prevailing on the date of such transactions. Monetary assets and liabilities as at the Balance Sheet date are translated at the rates of exchange prevailing at the date of the Balance Sheet. Gains and losses arising on account of differences in foreign exchange rates on settlement/ translation of monetary assets and liabilities are recognised in the Profit and Loss Account except for monetary items that in substance forms part of Company's net investment in a non-integral foreign operation are recognised in Foreign Exchange Translation Reserve. Non-monetary foreign currency items are carried at cost.
- (b) In respect of forward contracts, other than forward contracts in respect of firm commitments and highly probable forecast transactions, the premium or discount arising at the inception of forward exchange contract, is amortised as expense or income over the life of the contract. Exchange differences on such contracts are

SCHEDULES ANNEXED TO AND FORMING PART OF THE BALANCE SHEET AS AT MARCH 31, 2011 AND PROFIT AND LOSS ACCOUNT FOR THE YEAR ENDED MARCH 31, 2011.

recognised in the Profit and Loss Account in the reporting period in which the exchange rates change. Any profit or loss arising on cancellation or renewal of such a forward exchange contract is recognised as income or as expense for the period.

- (c) In respect of forward contracts and currency options taken to hedge the risks associated with foreign currency fluctuations relating to firm commitments and highly probable forecast transactions, the Company has adopted Accounting Standard 30 'Financial Instruments: Recognition and Measurement'. Accordingly, foreign currency fluctuations relating to firm commitments and highly probable forecast transactions are fair valued at each reporting date.

Changes in the fair value of these hedging instruments that are designated and considered as effective hedges of highly probable forecasted transactions are recognised directly in shareholders' funds under 'Hedging Reserve Account' to be recognised in the Profit and Loss Account when the underlying transaction occurs. Changes in the fair value of the hedging instruments that do not qualify for hedge accounting are recognised in the Profit and Loss Account as they arise.

(xi) Revenue Recognition

- (a) Sales revenue is recognised on transfer of significant risks and rewards of ownership of the goods to the buyer. Domestic sales are recognised on dispatch to customers. Export sales are recognised on the date of cargo receipts, bill of lading or other relevant documents, in accordance with the terms and conditions for sales. Realised exchange differences on export debtors are included in sales.
- (b) In case of sales made by the Company as Support Manufacturer, export benefits arising from Duty Entitlement Pass Book (DEPB) are recognised on export of such goods in accordance with the agreed terms and conditions with customers. In case of direct exports made by the Company export benefits arising from DEPB, Duty Drawback scheme and Focus Market Scheme are recognised on shipment of direct exports.
- (c) Dividends are accounted for when the right to receive dividend is established.

(xii) Government Grants

Government grants are accounted for when it is reasonably certain that ultimate collection will be made. Capital grants relating to specific assets are reduced from the gross value of the Fixed Assets. Revenue grants, in the nature of interest subsidy under the Technology Upgradation Fund Scheme (TUFS) are adjusted against 'Interest on Fixed Loans'.

(xiii) Impairment of Assets

The Company assesses at each Balance Sheet date whether there is any indication that an asset may be impaired. If any such indication exists, the Company estimates the recoverable amount of the asset. If such recoverable amount of the asset or recoverable amount of the cash generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognised in the Profit and Loss Account. If at the Balance Sheet date there is an indication that if a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at the recoverable amount.

(xiv) Provisions and Contingent Liabilities

The Company recognises a provision when there is a present obligation as a result of a past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of the obligation. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. Where there is a possible obligation or a present obligation but the likelihood of outflow of resources is remote, no provision or disclosure is made as specified in Accounting Standard 29 – "Provisions, Contingent Liabilities and Contingent Assets", notified under Section 211(3C) of the Act.

SCHEDULES ANNEXED TO AND FORMING PART OF THE BALANCE SHEET AS AT MARCH 31, 2011 AND PROFIT AND LOSS ACCOUNT FOR THE YEAR ENDED MARCH 31, 2011.

(xv) Employees Stock Option Schemes

Stock options granted to employees under Employee Stock Option Schemes are accounted as per the accounting treatment prescribed in the Guidance Note on Accounting for Employee Share-based Payments issued by the Institute of Chartered Accountants of India.

(xvi) Accounting Estimates

The preparation of financial statements requires estimates and assumptions to be made that affect the reported amounts of assets and liabilities on the date of financial statements and the reported amounts of revenue and expenses during the reporting period. Difference between the actual results and the estimates are recognised in the period in which the results are known/ materialised.

4. During the year, the Company has recognised deferred tax assets aggregating Rs. 303.64 million on the incremental unabsorbed Income-tax depreciation arising out of its treatment of certain Excise and Value Added Tax incentives as 'capital receipts' for income tax purposes based on the favorable decision received from the Commissioner of Income Tax (Appeals) in its own case and judgment in re Commissioner of Income Tax, Mumbai v/s. Reliance Industries Limited of the Honourable High Court of Judicature at Bombay. However, the judgment given by the High Court of Judicature

**SCHEDULES ANNEXED TO AND FORMING PART OF THE BALANCE SHEET AS AT MARCH 31, 2011 AND PROFIT AND LOSS ACCOUNT FOR THE YEAR ENDED MARCH 31, 2011.**

at Bombay has been challenged by the tax authorities in the apex court. If the final decision in the matter is eventually decided against the Company, then the carrying value of the deferred tax assets at the year end could be significantly impacted.

5. Pursuant to loan agreement with Welspun USA Inc., the loan outstanding as on March 31, 2011, aggregating Rs. 111.49 million recoverable from Welspun USA Inc. is to be converted into equity investments and pending conversion modalities, the same has been disclosed as Share Application Pending Allotment and grouped under Loans and Advances.
6. Borrowing Costs aggregating Rs. Nil (Previous Year: Rs. 15.46 million) (net of interest subsidy of Rs. Nil; Previous Year: Rs. 13.18 million) attributable to the acquisition or construction of qualifying assets are capitalised during the year as part of the cost of such assets.
7. (a) In the meeting of the Board of Directors of the Company held on May 11, 2011, it was resolved that the business of Welspun Mexico S.A. de C.V. (a wholly-owned downstream subsidiary of Welspun AG which, in turn, is a wholly owned subsidiary of the Company), involved in manufacturing decorative bedding products for Welspun AG, shall be re-organised in view of the adverse law and order conditions in the region in which the manufacturing premises of Welspun Mexico S.A. de C.V. is situated which has severely impacted its business prospects and its ability to contain the sustained losses and reverse the accumulated losses. Further, there has been breach of the lease agreement by the landlord necessitating the vacating of the premises. The aforesaid business reorganization involves exiting the current manufacturing premises of Welspun Mexico S.A. de C.V. and setting up trading activities only in new premises, disposing of the assets and discontinuing the employment of the majority of its employees. The Board of Directors further resolved in the aforesaid meeting that the consequential impairment in the value of the Company's investments in Welspun AG, and loans given to Welspun AG, shall be determined and recognized. Other than the business of Welspun Mexico S.A. de C.V., Welspun AG does not have any substantial business activities. As at March 31, 2011, the Company had investments, aggregating Rs. 739.12 million, in Welspun AG, and outstanding loans at zero rate of interest, aggregating Rs. 936.23 million, and other advances, aggregating Rs. 1.68 million, due from Welspun AG. Accordingly, a provision of Rs. 739.12 million towards diminution in the value of investments in Welspun AG, and a provision of Rs. 937.91 million towards the aforesaid loans and advances to Welspun AG, have been recognized and disclosed as extraordinary items in the Profit and Loss Account for the year.

(b) As at March 31, 2011, the Company has trade receivables aggregating Rs. 696.02 million, due from a related Company, Welspun Retail Limited (WRL), (March 31, 2010: Rs. 475.93 million). Of the said amount Rs. 108.33 million (March 31, 2010: Rs. 52.07 million) is outstanding for more than one year. WRL continues to incur significant losses from operations which could impact its ability to settle the aforesaid receivables. In order to turnaround its operations, WRL has made a robust plan for widening its reach in the market by using new marketing strategies with aggressive cost reduction programs. Accordingly, in the opinion of the Management, the aforesaid receivable from the said related Company as at March 31, 2011 is considered good and recoverable.
8. Consequent to the demerger of the marketing arm of the Company effective April 1, 2009, the Company is dependent upon Welspun Global Brands Limited (WGBL) for all marketing of its products and WGBL is the Company's principal customer as regards international sales of its products. Most of the domestic sales of the Company are made to WRL, a subsidiary of WGBL. The Company does not have any long term definitive agreements with either WGBL or WRL for marketing the Company's products. In the event that WGBL or WRL ceased to purchase or market the Company's products, it could have an adverse effect on the business of the Company.
9. The Company has issued a corporate guarantee of Rs. 3,593 million (March 31, 2010: Rs. 3,593 million) on behalf of WGBL in favor of a consortium of bankers in relation to post-shipment debt facilities provided by them to WGBL. WGBL has also given a corporate guarantee of Rs. 5,887.40 million (March 31, 2010: Rs. 5,887.40 million) in favour of the consortium of bankers in relation to pre-shipment debt facilities provided by them to the Company. If WGBL is unable

to meet their obligation to bankers as they fall due, the Company would be required to pay the guaranteed amounts, which could adversely affect its financial condition and cash flows.

- 10 (a) The Company has allotted 15,603,000 equity shares of Rs. 10 each at Rs. 100 per share on April 19, 2010 to Qualified Institutional Buyers (QIBs) in accordance with Chapter VIII of the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2009. The equity share issue expenses related to Qualified Institutional Placement (QIP) aggregating Rs. 87.64 million has been adjusted against Securities Premium Account as per Section 78 of the Act.
- (b) Pursuant to the resolution passed in the Annual General Meeting of the Company held on August 31, 2010 for approval of final dividend for the year ended March 31, 2010; the Company has declared final dividend for equity and preference shareholders of Rs. 106.10 million and paid dividend tax thereon of Rs. 17.63 million (including dividend of Rs. 15.60 million to QIBs referred supra and dividend tax thereon of Rs. 2.6 million). The final dividend paid to QIBs for the year has been presented as Final Dividend for Previous Year as an appropriation in the Profit and Loss Account for the year.
11. On June 30, 2009, the Company issued Employee Stock Options under the Employee Stock Options Scheme (the "Scheme") to employees of the Company and its subsidiaries with a right to subscribe to equity shares ("New Options") at a price of Rs. 35.60 per equity share (closing market price as on June 30, 2009) with an option to existing grantees, who were granted options on May 17, 2006 ("Old Options"), to receive New Options on surrender of Old Options. All employees holding Old Options on June 30, 2009 chose to surrender the Old Options. The salient features of the Scheme are as under:
- (i) Vesting: Options to vest over a period of four years from the date of their grants as under:
- 20% of the Options granted to vest at each of the 1st and 2nd Anniversaries of the date of grant.
 - 30% of the Options granted to vest at each of the 3rd and 4th Anniversaries of the date of grant.
- (ii) Exercise: Options vested with an employee will be exercisable within 3 years from the date of their vesting by subscribing to the number of equity shares in the ratio of one equity share for every option, at the Exercise Price. In the event of cessation of employment due to death, resignation or otherwise the Options may lapse or be exercisable in the manner specifically provided for in the Scheme.

The compensation costs of stock options granted to employees are accounted by the Company using the intrinsic value method. Since, on the date of grant of option, quoted market price of the underlying equity shares of the Company was equal to the exercise price of an option, no expense or liability arising from the Scheme has been recognised.

The fair value of the options as per the 'Black Scholes' model as on the date of grant was Rs. 17.49. Had the Company adopted fair value method in respect of options granted, the employee compensation cost would have been higher by Rs. 9.11 million (March 31, 2010: Rs.13.33 million), Loss after Tax would have been higher by Rs. 6.27 million (March 31, 2010: Profit after tax would have been lower by Rs. 8.80 million) and the basic loss per share would have been higher by Rs. 0.07 (March 31, 2010: basic earnings per share would have been lower by Rs. 0.12) and diluted loss per share would have been higher by 0.07 (March 31, 2010: diluted earnings per share would have been lower by Rs. 0.17), respectively.

12. Pursuant to High Court Order, 500,000 (March 31, 2010 : 500,000) 0% Redeemable Preference Shares of Rs. 100 each fully paid up are redeemable at par on or after repayment of all outstanding term liabilities and preference shares held by banks and financial institutions as on April 1, 2000 and interest and dividend thereon. Accordingly, the Preference Shares are expected to be redeemed by January 2012.
13. (a) Term loans from banks including interest thereon are secured by way of first charge on entire movable and immovable properties of the Company, both present and future, ranking pari passu, subject to prior charge on specific assets as per 13(b) below.
 - (b) In addition to 13(a) above, term loans from Banks Rs. 11,442.60 million (March 31, 2010: Rs. 3,880.09 million) and interest thereon, are secured by lien on fixed deposits of the Company.
 - (c) The working capital loans, which includes cash credit and packing credit from banks, are secured by hypothecation of raw materials, stock-in-progress, finished and semi finished goods, stores and spares and book debts and other current assets of the Company and second charge on entire fixed assets of the Company and by a Corporate Guarantee issued by Welspun Global Brands Limited.
14. Loan/ Deposits of Rs. Nil (March 31, 2010: Rs. 48.18 million) were given to Companies in which some of the Directors are interested as members.
15. Interest in Joint Venture

**AUDITORS' REPORT ON THE CONSOLIDATED FINANCIAL STATEMENTS OF WELSPUN INDIA LIMITED****The Board of Directors of Welspun India Limited**

1. We have audited the attached consolidated Balance sheet of Welspun India Limited (the "Company") and its subsidiaries, its jointly controlled entity and associate companies; hereinafter referred to as the "Group" (refer Note 1 B(ii) on Schedule 19 to the attached consolidated financial statements) as at March 31, 2011, the related consolidated Profit and Loss Account and the consolidated Cash Flow Statement for the year ended on that date annexed thereto, which we have signed under reference to this report. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.
2. We conducted our audit in accordance with the auditing standards generally accepted in India. Those Standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.
3. We did not audit the financial statements of (i) two subsidiaries and one jointly controlled entity included in the consolidated financial statements, which constitute total assets of Rs. 618.28 million and net assets of Rs. 129.26 million as at March 31, 2011, total revenue of Rs. 665.93 million, net loss of Rs. 635.66 million and net cash outflows amounting to Rs. 17.44 million for the year then ended; and (ii) three associate companies which constitute net loss of Rs. 18.19 million for the year then ended. These financial statements and other financial information have been audited by other auditors whose reports have been furnished to us, and our opinion on the consolidated financial statements to the extent they have been derived from such financial statements is based solely on the report of such other auditors.
4. *We draw your attention to Note 6 on Schedule 19 to the financial statements, regarding the accounts receivables balance of Rs. 696.02 million (March 31, 2010: Rs. 475.93 million), which include Rs. 108.33 million (March 31, 2010: Rs. 52.07 million) outstanding for more than one year, that is due from Welspun Retail Limited ("WRL"), a group company, as at March 31, 2011, in relation to which no valuation allowance has been estimated and adjusted in these financial statements which, in our view, does not meet the requirement to consider prudence in selection of accounting policies, as set out in Accounting Standard 1 – Disclosure of Accounting Policies, as WRL has been incurring significant losses (Rs.199.73 million for the year ended March 31, 2011 and Rs. 1,205.96 million as at March 31, 2011 basis its audited financial statements as of and for the year ended March 31, 2011) and has also been unable to achieve its projected financial results in the previous and current financial reporting periods.*
5. Without qualifying our opinion, we draw your attention to:
 - a) Note 7 on Schedule 19, regarding the Company's dependence on Welspun Global Brands Limited ('WGBL') and WRL for selling its products, consequent to the demerger of the marketing arm of the Company effective April 1, 2009. If the arrangement between the Company, WGBL and WRL are discontinued, the business of the Company could be adversely impacted.
 - b) Note 8 on Schedule 19, regarding corporate guarantees, aggregating Rs 3,593 million at the year end, issued consequent to the demerger of the marketing arm of the Company referred to in paragraph 5 (a) above, to the bankers of WGBL in relation to the debt facilities provided by them to WGBL, and other corporate guarantees disclosed in Note 3 on Schedule 19, aggregating Rs. 4795.57 million at the year end, issued on behalf of WGBL, Welspun USA Inc. ('WUSA'), Welspun Captive Power Generation Limited ('WCPGL') and Welspun Home Textiles UK limited ('WHTL'). If WGBL, WUSA, WCPGL and WHTL are unable to meet their obligation as they fall due, the financial condition and cash flows of the Company could be adversely impacted.
 - c) Note 4 on Schedule 19, regarding the recognition of deferred tax assets during the year, aggregating Rs. 303.64 million, on the incremental unabsorbed Income-tax depreciation arising out of its treatment of certain

excise and Value Added Tax incentives as 'capital receipts' for income tax purposes based on the judgement in re Commissioner of Income Tax, Mumbai v/s. Reliance Industries Limited of the Honourable High Court of Judicature at Bombay. However, this case has not attained finality as the judgement has been challenged by the tax authorities in the apex court. If the final decision in the matter is eventually decided against the Company, then the carrying value of the deferred tax assets at the period end could be significantly impacted.

6. We report that the consolidated financial statements have been prepared by the Company's Management in accordance with the requirements of Accounting Standard (AS) 21- Consolidated Financial Statements, Accounting Standard (AS) 23 - Accounting for Investments in Associates in Consolidated Financial Statements, and Accounting Standard (AS) 27 - Financial Reporting of Interests in Joint Ventures notified under sub-section 3C of Section 211 of the Companies Act, 1956.
7. Based on our audit and on consideration of reports of other auditors on separate financial statements and on the other financial information of the components of the Group as referred to above, and to the best of our information and according to the explanations given to us, in our opinion, the attached consolidated financial statements give, *except for the indeterminate effects of the matter referred to in paragraph 4 above*, a true and fair view in conformity with the accounting principles generally accepted in India:
 - a) in the case of the consolidated Balance Sheet, of the state of affairs of the Group as at March 31, 2011;
 - b) in the case of the consolidated Profit and Loss Account, of the profit of the Group for the year ended on that date and
 - c) in the case of the consolidated Cash Flow Statement, of the cash flows of the Group for the year ended on that date.

SCHEDULE – 19 : NOTES TO ACCOUNTS

1) Significant Accounting Policies

A. Basis of Accounting

The consolidated financial statements are prepared under historical cost convention in accordance with generally accepted accounting principles applicable in India and the Accounting Standards notified under Sub Section (3C) of Section 211 of the Companies Act, 1956 ("The Act") and other relevant provisions of the Act .

B. Principles of Consolidation

(i) The consolidated financial statements relate to Welspun India Limited (the "Company"), its Subsidiary Companies, Joint Venture Company and Associate Companies. The consolidated financial statements have been prepared on the following basis:

- (a) The financial statements of the Company and its Subsidiary Companies have been combined on a line-by-line basis by adding together the book values of like items of assets, liabilities, income and expenses, after fully eliminating intra-group balances, intra-group transactions and resulting unrealised profits or losses on intra-group transactions.
- (b) The difference between the cost of investment in the subsidiaries over the Company's portion of equity of the subsidiary is recognised in the financial statements as Goodwill or Capital Reserve.
- (c) In the consolidated financial statements, the Company has reported its interest in the Joint Venture Companies, using proportionate consolidation method whereby the Company's share of each of the assets, liabilities, income and expenses of the jointly controlled entities is reported as separate line items, after eliminating proportionate unrealised profits or losses attributable to the interest of the Company.
- (d) Investments in Associates have been accounted for under AS-23 using equity method whereby the investment is initially recorded at cost, identifying any goodwill/ capital reserve arising at the time of acquisition. The carrying amount of the investment is adjusted thereafter for the post acquisition change in the investor's share of net assets of the investee.

The consolidated statement of profit and loss reflects the investor's share of the results of operations of the investee.

- (e) The consolidated financial statements have been prepared using uniform accounting policies for like transactions and other events in similar circumstances and are prepared to the extent possible, in the same manner as the Company's separate financial statements.

(ii) The Subsidiary Companies, Joint Venture Company and Associate Companies considered in the consolidated financial statements are:

C. Significant Accounting Policies

(i) Fixed Assets

Fixed Assets are stated at cost (net of cenvat credit, wherever applicable) less accumulated depreciation and impairment loss, if any. The cost includes cost of acquisition, construction, erection, installation etc., preoperative expenses (including trial run) and borrowing costs incurred during pre-operational period. Cost of software includes license fees and implementation/ integration expenses.

(ii) Incidental Expenditure Pending Capitalisation/ Allocation

Incidental expenditure pending capitalisation/ allocation represents expenses incurred during setting-up of manufacturing facility including preoperative expenses for trial runs and borrowing cost incurred prior to the date of commencement of commercial production. These expenses are net of sales during trial run and other income accrued prior to the commencement of commercial production.

SCHEDULES ANNEXED TO AND FORMING PART OF THE CONSOLIDATED BALANCE SHEET AS AT MARCH 31, 2011 AND CONSOLIDATED PROFIT AND LOSS ACCOUNT FOR THE YEAR ENDED MARCH, 2011

(iii) Borrowing Costs

Borrowing costs directly attributable to the acquisition/ construction of fixed assets are apportioned to the cost of the fixed assets up to the date on which the asset is put to use/ commissioned.

(iv) Depreciation and Amortisation

- (a) Depreciation on Fixed Assets is provided on the straight-line method so as to write off the cost of fixed assets over estimated useful lives of the assets. Depreciation on additions/ deletions to fixed assets is calculated pro-rata from/ up to the date of such additions/ deletions.
- (b) Computer software is amortised on the straight-line method over a period of five years.
- (c) Leasehold Land is amortised over the period of lease in case of a jointly controlled entity.
- (d) Amortisation of leasehold improvements is computed on the straight line method over the term of the related lease including extensions which are reasonably expected to occur, which is not in excess of the estimated useful lives of such improvements.
- (e) Goodwill on consolidation is tested for impairment on an annual basis.
- (f) Development Expenditure is amortised on a straight line basis over a period of 3 years.

(v) Investments

- (a) Long term investments are stated at cost less provision, if any, for permanent diminution in value. Current investments are carried at the lower of cost and fair value.
- (b) Investment in Associate is accounted for using the equity method (Refer note 1(B)(i)(e) above).

(vi) Inventories

- (a) Inventories are valued at lower of cost and net realisable value.
- (b) Cost of raw materials and stores and spares is determined on weighted average basis except in case of jointly controlled entities, where the same is determined on first-in-first-out basis. Cost of traded goods is determined on weighted average basis. Cost of work-in-process and finished goods comprises of raw material, direct labour, other direct costs and related overheads but exclude interest expense. Net realisable value is the estimate of the selling price in the ordinary course of the business, less the estimated costs of completion and estimated selling expenses.

(vii) Accounting for Taxes on Income/ Minimum Alternate Tax Credit

(a) Current Taxation

The current tax is determined as the amount of tax payable in respect of taxable income for the year.

(b) Deferred Taxation

- Deferred tax resulting from timing differences between book and tax profits is accounted for under the liability method, at the current/ substantially enacted rate of tax to the extent that the timing differences are expected to crystallise.
- Deferred tax assets arising in situations where there are brought forward losses and unabsorbed depreciation, to the extent deferred tax amount exceeds net deferred tax liabilities, are recognised only when there is a virtual certainty supported by convincing evidence that such assets will be realised.

(c) Minimum Alternate Tax Credit

Minimum Alternate Tax (MAT) paid in accordance with tax laws, which give rise to future economic benefits in the form of adjustment of future tax liability, is recognized as an asset only when, based on convincing

SCHEDULES ANNEXED TO AND FORMING PART OF THE CONSOLIDATED BALANCE SHEET AS AT MARCH 31, 2011 AND CONSOLIDATED PROFIT AND LOSS ACCOUNT FOR THE YEAR ENDED MARCH, 2011

evidence, it is probable that the future economic benefits associated with it will flow to the Company and the assets can be measured reliably.

(viii) Employee Benefits

(a) Defined Contribution Plans

Contributions made on a defined contribution basis towards post employment benefits to Employee's Provident Fund, Employee's State Insurance Fund, Employee's Pension Scheme and various other social security funds generally administered by the respective Government authorities in respect of which there is no further obligation beyond making the contribution are expensed in the year to which it pertains.

(b) Defined Benefit Plans

The liability for the defined benefit plan of Gratuity of the Company and jointly controlled entity is determined on the basis of an actuarial valuation by an independent actuary at the year end, which is calculated using projected unit credit method as per Accounting Standard 15 (revised 2005) – Employee Benefits ('AS 15').

(c) Employee Leave Entitlement

The employees of the Company and jointly controlled entity are entitled to leave as per the applicable leave policies of their employers. The liability in respect of unutilised leave balances is provided based on an actuarial valuation carried out by an independent actuary as at the year end and charged to the Profit and Loss Account as per Accounting Standard 15 (revised 2005) – Employee Benefits ('AS 15').

(ix) Foreign Currency Transactions, Derivative Instruments and Hedge Accounting

(a) In respect of the Company, its subsidiaries incorporated in India, its jointly controlled entities and associate, foreign currency transactions are recorded at the exchange rates prevailing on the date of such transactions. Monetary assets and liabilities as at the Balance Sheet date are translated at the rates of exchange prevailing at the date of the Balance Sheet. Gains and losses arising on account of differences in foreign exchange rates on settlement/ translation of monetary assets and liabilities are recognised in the Profit and Loss Account except for monetary items that in substance forms part of Company's net investment in a non-integral foreign operation are recognised in Foreign Exchange Translation Reserve. Non-monetary foreign currency items are carried at cost.

(b) In respect of forward contracts, other than forward contracts in respect of firm commitments and highly probable forecast transactions, the premium or discount arising at the inception of forward exchange contract, is amortised as expense or income over the life of the contract. Exchange differences on such contracts are recognised in the Profit and Loss Account in the reporting period in which the exchange rates change. Any profit or loss arising on cancellation or renewal of such a forward exchange contract is recognised as income or as expense for the period.

(c) In respect of forward contracts and currency options taken to hedge the risks associated with foreign currency fluctuations relating to firm commitments and highly probable forecast transactions, the Company has adopted AS 30 "Financial Instruments: Recognition and Measurement". Accordingly, foreign currency fluctuations relating to firm commitments and highly probable forecast transactions are fair valued at each reporting date.

Changes in the fair value of these hedging instruments that are designated and considered as effective hedges of highly probable forecasted transactions are recognised directly in shareholders' funds under 'Hedging Reserve Account' to be recognised in the Profit and Loss Account when the underlying transaction occurs. Changes in the fair value of the hedging instruments that do not qualify for hedge accounting are recognised in the Profit and Loss Account as they arise.

(d) In respect of non-integral operations, assets and liabilities are translated using the exchange rates in effect at

SCHEDULES ANNEXED TO AND FORMING PART OF THE CONSOLIDATED BALANCE SHEET AS AT MARCH 31, 2011 AND CONSOLIDATED PROFIT AND LOSS ACCOUNT FOR THE YEAR ENDED MARCH, 2011

the balance sheet date, for revenue, costs and expenses using the average exchange rates prevailing during the reporting periods and for share capital, using the exchange rate at the date of transaction. The resultant translation exchange gain/ loss has been disclosed as Foreign Exchange Translation Reserve under Reserves and Surplus.

(x) Revenue Recognition

- i. Sales revenue is recognised on transfer of significant risks and rewards of ownership of the goods to the buyer. Domestic sales are recognised on dispatch to customers. Export sales are recognised on the date of cargo receipts, bill of lading or other relevant documents, in accordance with the terms and conditions for sales. Realised exchange differences on export debtors are included in sales.
- ii. In case of sales made by the Company as Support Manufacturer, export benefits arising from Duty Entitlement Pass Book (DEPB) are recognised on export of such goods in accordance with the agreed terms and conditions with customers. In case of direct exports made by the Company export benefits arising from DEPB, Duty Drawback scheme and Focus Market Scheme are recognised on shipment of direct exports.
- iii. Dividends are accounted for when the right to receive dividend is established.

(xi) Government Grants

Government grants are accounted for when it is reasonably certain that ultimate collection will be made. Capital grants relating to specific assets are reduced from the gross value of the Fixed Assets. Revenue grants, in the nature of interest subsidy under the Technology Upgradation Fund Scheme (TUFS) are adjusted against 'Interest on Fixed Loans'.

(xii) Impairment of Assets

The Company assesses at each balance sheet date whether there is any indication that an asset may be impaired. If any such indication exists, the Company estimate the recoverable amount of the asset. If such recoverable amount of the asset or recoverable amount of the cash generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognised in the Profit and Loss Account. If at the Balance Sheet date there is an indication that if a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at the recoverable amount.

(xiii) Provisions and Contingent Liabilities

The Company recognizes a provision when there is a present obligation as a result of a past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of the obligation. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. Where there is a possible obligation or a present obligation but the likelihood of outflow of resources is remote, no provision or disclosure as specified in Accounting Standard 29 – "Provisions, Contingent Liabilities and Contingent Assets", issued by the Institute of Chartered Accountants of India is made.

(xiv) Employees Stock Option Schemes

SCHEDULES ANNEXED TO AND FORMING PART OF THE CONSOLIDATED BALANCE SHEET AS AT MARCH 31, 2011 AND CONSOLIDATED PROFIT AND LOSS ACCOUNT FOR THE YEAR ENDED MARCH, 2011

4. During the year, the Company has recognised deferred tax assets aggregating Rs. 303.64 million on the incremental unabsorbed Income-tax depreciation arising out of its treatment of certain Excise and Value Added Tax incentives as 'capital receipts' for income tax purposes based on the favorable decision received from the Commissioner of Income Tax (Appeals) in its own case and judgment in re Commissioner of Income Tax, Mumbai v/s. Reliance Industries Limited of the Honourable High Court of Judicature at Bombay. However, the judgment given by the High Court of Judicature at Bombay has been challenged by the tax authorities in the apex court. If the final decision in the matter is eventually decided against the Company, then the carrying value of the deferred tax assets at the period end could be significantly impacted.
5. Pursuant to loan agreement with Welspun USA Inc., the loan outstanding as on March 31, 2011, aggregating Rs. 111.49 million recoverable from Welspun USA Inc. is to be converted into equity investments and pending conversion modalities are completed, the same has been disclosed as Share Application Pending Allotment and grouped under Loans and Advances.
6. As at March 31, 2011, the Company has trade receivables aggregating Rs. 696.02 million, due from a related Company, Welspun Retail Limited (WRL), (March 31, 2010: Rs. 475.93 million). Of the said amount Rs. 108.33 million (March 31, 2010: Rs. 52.07 million) is outstanding for more than one year. WRL continues to incur significant losses from operations which could impact its ability to settle the aforesaid receivables. In order to turnaround its operations, WRL has made a robust plan for widening its reach in the market by using new marketing strategies with aggressive cost reduction programs. Accordingly, in the opinion of the Management, the aforesaid receivable from the said related Company as at March 31, 2011 is considered good and recoverable.
7. Consequent to the demerger of the marketing arm of the Company effective April 1, 2009, the Company is dependent upon Welspun Global Brands Limited (WGBL) for all marketing of its products and WGBL is the Company's principal customer as regards international sales of its products. Most of the domestic sales of the Company are made to WRL, a subsidiary of WGBL. The Company does not have any long term definitive agreements with either WGBL or WRL for marketing the Company's products. In the event that WGBL or WRL ceased to purchase or market the Company's products, it could have an adverse effect on the business of the Company.
8. The Company has issued a corporate guarantee of Rs. 3,593 million (March 31, 2010: Rs. 3,593 million) on behalf of WGBL in favor of a consortium of bankers in relation to post-shipment debt facilities provided by them to WGBL. WGBL has also given a corporate guarantee of Rs. 5,887.40 million (March 31, 2010: Rs. 5,887.40 million) in favour of the consortium of bankers in relation to pre-shipment debt facilities provided by them to the Company. If WGBL is unable to meet their obligation to bankers as they fall due, the Company would be required to pay the guaranteed amounts, which could adversely affect its financial condition and cash flows.
9. (a) The Company has allotted 15,603,000 equity shares of Rs. 10 each at Rs. 100 per share on April 19, 2010 to Qualified Institutional Buyers (QIBs) in accordance with Chapter VIII of the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2009. The equity share issue expenses related to Qualified Institutional Placement (QIP) aggregating to Rs. 87.64 million has been adjusted against Securities Premium Account as per Section 78 of the Act.

(b) Pursuant to the resolution passed in the Annual General Meeting of the Company held on August 31, 2010 for approval of final equity dividend for the year ended March 31, 2010; the Company has paid final dividend of Rs. 88.69 million, including Rs. 15.60 million to QIBs referred supra. The final dividend paid to QIBs has been presented as Final Dividend for earlier year as appropriation from the Profit and Loss Account Balance.
10. On June 30, 2009, the Company issued Employee Stock Options under the Employee Stock Options Scheme (the "Scheme") to employees of the Company and its subsidiaries with a right to subscribe to equity shares ("New Options") at a price of Rs. 35.60 per equity share (closing market price as on June 30, 2009) with an option to existing grantees, who were granted options on May 17, 2006 ("Old Options"), to receive New Options on surrender of Old Options.

SCHEDULES ANNEXED TO AND FORMING PART OF THE CONSOLIDATED BALANCE SHEET AS AT MARCH 31, 2011 AND CONSOLIDATED PROFIT AND LOSS ACCOUNT FOR THE YEAR ENDED MARCH, 2011

All employees holding Old Options on June 30, 2009 chose to surrender the Old Options. The salient features of the Scheme are as under:

- (i) Vesting: Options to vest over a period of four years from the date of their grants as under:
 - 20% of the Options granted to vest at each of the 1st and 2nd Anniversaries of the date of grant.
 - 30% of the Options granted to vest at each of the 3rd and 4th Anniversaries of the date of grant.
- (ii) Exercise: Options vested with an employee will be exercisable within 3 years from the date of their vesting by subscribing to the number of equity shares in the ratio of one equity share for every option, at the Exercise Price. In the event of cessation of employment due to death, resignation or otherwise the Options may lapse or be exercisable in the manner specifically provided for in the Scheme.

| Summary of Stock Options | March 31, 2011 | | March 31, 2010 | |
|---|----------------------|---------------------------------------|----------------------|---------------------------------------|
| | No. of Stock Options | Weighted Average Exercise Price (Rs.) | No. of Stock Options | Weighted Average Exercise Price (Rs.) |

| Options outstanding at the end of the year | 1,606,250 | 35.60 | 2,130,000 | 35.60 |
| Options vested but not exercised at the year end. | 102,250 | 35.60 | - | - |

Information in respect of options outstanding as at March 31, 2011

| No. of Stock Options | Weighted Average remaining life in years | Weighted Average Exercise Price (Rs.) |
|----------------------|--|---------------------------------------|
| 321,250 | 2.25 | 35.60 |
| 321,250 | 3.25 | 35.60 |
| 481,875 | 4.25 | 35.60 |
| 481,875 | 5.25 | 35.60 |

The compensation costs of stock options granted to employees are accounted by the Company using the intrinsic value method. Since, on the date of grant of option, quoted market price of the underlying equity shares of the Company was equal to the exercise price of an option, no expense or liability arising from the Scheme has been recognised.

The fair value of the options as per the 'Black Scholes' model as on the date of grant was Rs. 17.49. Had the Company adopted fair value method in respect of options granted, the employee compensation cost would have been higher by Rs. 9.11 million (March 31, 2010: Rs.13.33 million), Loss after Tax would have been higher by Rs. 6.27 million (March 31, 2010: Profit after tax would have been lower by Rs. 8.80 million) and the basic loss per share would have been higher by Rs. 0.07 (March 31, 2010: basic earnings per share would have been lower by Rs. 0.12) and diluted loss per share would have been higher by 0.07 (March 31, 2010: diluted earnings per share would have been lower by Rs. 0.17) respectively.

11. Pursuant to High Court Order, 500,000 (March 31, 2010 : 500,000) 0% Redeemable Preference Shares of Rs. 100 each fully paid up are redeemable at par on or after repayment of all outstanding term liabilities and preference shares held by banks and financial institutions as on April 1, 2000 and interest and dividend thereon. Accordingly, the Preference Shares are expected to be redeemed by January 2012.
