### **INDUSTRY OVERVIEW AND TRENDS**

#### **Overview of the Global and Indian economy:**

During the year 2019-2020, the manufacturing and trading sector has been affected by unfavorable environment due to reduction in demand and uncertainties caused by geographical and political tensions. Outbreak of pandemic COVID-19, globally, has also slammed any hope to recover during second half of the financial year 2019-2020. International Monetary Fund in its report on World Economic Outlook published on July 2019 has projected global growth (GDP) of 3.2%, improving to 3.5% in 2020 which was projected before outbreak of COVID-19 pandemic. However, post outbreak of COVID-19 pandemic, IMF has reduced the estimated GDP to negative 3% for 2020.

The Global economic slowdown has also affected growth of Indian economy. The National Statistical Office (NSO), Ministry of Statistics and Program Implementation have released the First Advance Estimates of National Income for 2019-20 forecasting real GDP growth at 5.0% for 2019-20 as compared to the growth rate of 6.8% in 2018-19. The April, 2019 Report of the World Economic Outlook (WEO) of International Monetary Fund (IMF) has projected India’s GDP to grow higher at 7.3 percent in 2019. However, outbreak of the COVID-19 pandemic has significantly impacted world growth and growth of Indian economy as well. In India, lockdown imposed by the government has affected economic activity to great extent. The Government of India has taken various measures to control economic fallout including but not limited to ease of credit facilities, reduced corporate tax.

#### **Salient trends in the Indian logistics industry**

CRISIL report suggests that the Indian logistics industry that was estimated at Rs 6.4 trillion in FY17 is forecasted to reach Rs. 9.2 trillion by FY20 representing a CAGR of 13%. With a growth rate of 12-13% CAGR, it is expected that Indian Logistic Sector can reach a value of Rs. 34,50,000 crores by 2025. However, growth rate for short term has been declined due to COVID-19. According to an India Brand Equity Foundation (IBEF) study; the logistics sector might attract investments worth \$500 billion by 2025.

As per ratings agency ICRA, the domestic logistics sector is set to grow at 8-10 per cent over the medium term with the outlook remaining largely stable. The logistics sector was given the international trade and infrastructure status in the year 2017. This status will positively affect the performance of the sector in 2020. The status will help the sector to avail credit at cheaper and competitive rates to ensure uninterrupted growth and increased market presence as compared to other business sectors.

#### **The Indian Government’s increased focus to reform Logistics Sector**

Logistics sector is identified as the fastest growing sector and also contribute a large percentage in country’s GDP. The logistic cost is approximately 14 % of GDP in India which is significantly higher compared to those in developed countries. Therefore, Government of India has taken several initiatives to reform and defragment the Logistic Sector.

Following are the ongoing reforms in logistic sector: -

- GST- GST has eliminated the need to have a warehouse in every state, thus saving cost significantly. So, businesses can set up few warehouses and have efficient transportation for connectivity. GST has brought in efficiency in logistics and transportation sector. It has reduced turnaround time of trucks by over 20%.
- National Logistics Portal- A National Logistics Portal is being developed by the Ministry of Commerce and Industry to ensure ease of trading in the international and domestic markets. The portal will link all the stakeholders of EXIM, domestic trade and movement and all trade activities on a single platform. The portal is a single window online market place for trade and will connect business, create opportunities and bring together various ministries, departments and the private sector. Stakeholders like traders, manufacturers, logistics service providers, infrastructure providers, financial services, Government departments and groups and associations will all be on one platform.
- The Government of India is organizing various workshops to discuss with logistics stakeholders the challenges and opportunities of this sector in India.
- Infrastructure Development- Government understands the requirement and importance of infrastructure in conducting business and logistics operations. It has developed networks such as Logistics Parks, Sagarmala Projects etc.
- The National Logistics Policy formulated by the Commerce and Industry Ministry will improve India's trade competitiveness, create more jobs, improve India's performance in global rankings and pave the way for India to become a logistics hub. Some of the announcements in Finance Minister's Budget Speech 2020 as placed below, shows government's effort to reform logistic sector in India:
  - o Geo-tagging of all warehousing.
  - o Warehousing shall be promoted to comply with WDRA norms.

### **BUSINESS STRATEGY**

We have added big business in Kolkatta this year which almost doubled our turnover. We have further plans to add more business in Kolkatta and Siliguri.

We have developed customized technology system to provide innovative and cost-efficient solution to improve transparency and build trust-worthy relationship with our clients. Our Autopilot Project for streamlining the operations has been implemented successfully. We have started monitoring TAT at various business functions by introducing Smart App technology. We have created a unique combination of Mobile App, ERP Software and Google Suite wherein the full commercial and Turnaround time monitoring is done in very efficient way. This will give us a great scalability wherein we will be able to replicate ourselves in other locations. We were continuously experimenting on this front and now the same has evolved fabulously.

We have started working on digital marketing and with the revamping of complete sales procedures in next five to six months our sales will be exploding with more and more new clients. We had pitched serving Mahakaushal Belt and Western Orissa Belt from Raipur and we are pleased to announce that companies like Dabur / Pidilite / Colgate have already taken up the concept

and we foresee that other clients will join in soon which will be multiplying our business manifolds with need for more warehousing space and increased transportation with more cases to be shipped.

We are also looking at completing the first rack installed warehouse in the current financial year, which will give us a lead and privilege in respect of racking and MHE's. This will again be another milestone which will add lots of value to our operations.

### **OUTLOOK**

We intend to continue to focus on the strategies set out below with keeping in view post COVID-19 scenario:

- Continue to grow share of our business from external clients
- Focus on large revenue clients by providing integrated, end-to-end solutions and continue to expand our relationship with existing clients
- Focus on establishment of multi-user warehouse
- Continue to focus on digitization and enhancements in technology

The Company is quite confident that the overall productivity and profitability would improve as a result of above strategy

### **FINANCIAL PERFORMANCE**

<b>Net Profit/ (Loss) after Tax</b>	<b>266.95</b>	<b>167.66</b>	<b>59.22</b>

*The Company has only one segment of business operations i.e. Logistics. Therefore segment wise reporting is not applicable.*

The significant changes in the financial ratios of the Company which are more than 25% as compared to the previous year are summarised below:

Sr. No.	Particulars of Key Financial Ratio	2018-19	2019-2020	% Change
1	Debtor turnover Ratio <sup>1</sup>	4.57	5.96	30.42%
2	Debt Equity Ratio <sup>2</sup>	1.03	1.33	29.05%
3	Return on Net Worth <sup>3</sup>	8.84%	12.34%	39.59%

1. The debtor turnover ratio improved from 4.57 times in FY 2018-19 to 5.96 times in FY 2019-2020. This is mainly because the Company has a policy of maintaining high proportion of quality customers that pay their debts quickly. The internal controls of the company are efficient which have resulted in efficient and timely collection of Account receivables.
2. Increase in Debt Equity Ratio is due to increase in borrowed funds for expansion plans. However, company is still in strong liquidity position.
3. Increase in Return of Net Worth is due to increase in revenue and simultaneously increase in profit compared to previous year.

### **OPPORTUNITIES**

In the current scenario we have huge opportunity in whole of eastern India and we are looking forward to start our own warehousing campus in Kolkatta and Siliguri. This will give us a great edge at both these strategic locations.

We are in process of building more warehouses to fulfill demands raised at E-commerce, Consumer and Retail sectors with keeping in view industry specific requirements. Due to strategic location of our warehouses, various E-Commerce companies have availed our services and we are running with 100% occupancy. On Transportation front we plan to open up our branches all across Central India and start the reverse logistics from all these places. We are currently working on laying the foundation and conceptualizing the plan for this business which also works for us a backward integration.

COVID-19 has led the businesses to follow localized approach for supply chain. Localization of supply chain can create more business opportunities in near future and in long run as most of the E-commerce businesses are focusing on storage of their products at local level for expedite and hassle free delivery at local market.

### **RISKS, THREATS AND CONCERNS**

Our business is significantly influenced by the performance of the automotive industry and also by demand and supply ratio in market. We operate in a highly competitive industry, with many different and unorganized players. Many segments within the logistics industry are highly commoditized and have low barriers to entry, leading to a market with a very high degree of fragmentation. In the recent past, start-ups and international logistics companies have entered the Indian market. Competition from these segments is likely to increase. Digital marketplace platforms and data analysis provided by these start-ups to serve customers directly by removing middlemen from logistics operations are able to reduce the total costs of transportation and improve reliability and operational efficiencies. We will need to stay ahead of our competition through consistent investments in modern technology and focus on service quality and value-added services.

The Company is committed to recognizing and managing the risks it is exposed to, both internal and external, and has put in place mechanisms to handle the same proactively and efficiently. The Company also recognizes that these risks could adversely affect its ability to create value for all stakeholders, and has taken steps to mitigate the same.

### **INTERNAL CONTROL SYSTEM AND ADEQUACY**

The Company has a well-established and comprehensive internal control system. Documents, policies and authorization guidelines comply with the level of responsibility and standard operating procedures specific to the respective businesses. Observation made in internal audit reports on business processes, systems, procedures and internal control and implementation status of recommended remedial measures by Internal Auditors are regularly presented to and reviewed by the Audit Committee of the Board. The system of internal control is being improved to ensure that all assets are safe and protected against loss from unauthorized use or disposition, and that all transactions are authorized, recorded and reported correctly. The Company regularly conducts internal check, using external and internal resources to monitor the effectiveness of internal controlling the organization. It strictly adheres to corporate policy with respect to financial reporting and budgeting functions. The Audit Committee of the Board of Directors deals with significant control issues and instructs further areas to be covered.

### **HUMAN RESOURCE DEVELOPMENT**

The Company recognizes that its employees are its principal assets and that its continued growth is dependent upon the ability to attract and retain quality people. The Company also recognizes the importance of providing training and development opportunities to its people to enhance their skills and experiences, which in turn enables the company to achieve its business objectives. The morale of employees continued to remain high during the year contributing positively to the progress of the Company. However, aspirations of employees in India remain to be high. This is a challenge as only growth can fulfill these aspirations and in today's market scenarios one must perform extraordinarily to achieve growth. There were 841 permanent employees on the rolls of Company as on March 31, 2020. As your Company is on growth path, manpower is the key to handle the operation successfully. ### **INFORMATION OTHER THAN THE FINANCIAL STATEMENTS AND AUDITOR'S REPORT THEREON**

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexure to Board's Report, Business Responsibility Report, Corporate Governance and Shareholder's Information, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information. We are required to report that fact. We have nothing to report in this regard.

### **MANAGEMENT'S RESPONSIBILITY FOR THE FINANCIAL STATEMENTS**

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the Accounting Standards and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Company's financial reporting process.

## **AUDITOR'S RESPONSIBILITY FOR THE AUDIT OF THE FINANCIAL STATEMENTS**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- i. Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- ii. Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- iii. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- iv. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- v. Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

**Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)**

We have audited the internal financial controls over financial reporting of **SHREE VASU LOGISTICS LIMITED, RAIPUR as of March 31, 2020** in conjunction with our audit of the financial statements of the Company for the year ended on that date.

**Management’s Responsibility for Internal Financial Controls**

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

**Auditors’ Responsibility**

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

**Meaning of Internal Financial Controls over Financial Reporting**

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

**Inherent Limitations of Internal Financial Controls over Financial Reporting**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to

the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

**Opinion**

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2020, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.
