ABOUT US

Introduction to Marshall Machines

Marshall is a differentiated machine tool manufacturer, and a front-runner in areas of Affordable Automation and Industry 4.0 technology.

Overview

Marshall Machines, founded by Mr. Gautam Sarup in 1961, is a well-known brand in the Indian machine tool industry. Marshall started out with manufacturing high-precision bench lathes, heavy-duty lathes, and capstan lathes. However, in the last two decades with the guidance of Mr. Gaurav Sarup and Mr. Prashant Sarup, the Company's single-minded focus on product innovation, research and development, automation, and Industry 4.0 technologies has positioned it as a niche player in a rather commoditized industry. As a result, Marshall is currently a front-runner in the space of automated, Industry 4.0-enabled, and smart IoT enabled - CNC solution offerings to India's leading manufacturing companies. These companies belong to a wide range of industries including, automobile, consumer durables & appliances, and general engineering, to name a few.

MISSION

To become a global brand recognized for manufacturing excellence and to be the first choice of customers requiring super-precision machines tools.

MAKE ON MARSHALL

VISION

To engage in a collaborative effort with our customers, employees & suppliers to boost the Quality & Productivity of our machines and enhance customer satisfaction.

JOURNEY AND EVOLUTION

Our progress driven by continuous product innovation

In our journey spanning over six decades, Marshall has evolved with and ahead of its peers and the Indian machine tool industry. The Company shifted its focus from product quality to product innovation in response to the emerging needs of the Indian manufacturing industry. Our approach to delivering solutions, and not simply machine sales, has enabled us to establish competency in emerging areas such as automation and Industry 4.0.

Humble Beginnings

INTEGRATION WITH
AUTOMATION

- **2012**
 - Inaugurated our second state-of-the-art facility (Unit 2) dedicated towards providing turnkey automated solutions
- **2013**
 - Launched our SmartCorrect Gauging Stations
 - Launched RoboTurn DS 400 for the first time ever in India
- **2015**
 - Started executing high-profile automation projects

INTEGRATION WITH
INDUSTRY 4.0

- **2016**
 - Introduced IoTQ integrated offerings and launched the world's 1st plug-and-play SmartCorrect Gauging Station
- **2017**
 - Founded IoTQ and tech demonstration centre in Manesar
 - Launched the TwinTurn UBER CNC Machine
- **2018**
 - Introduced the concept of Super Optimized machines
 - Listed on NSE SME
- **2019**
 - Fine-tuned and relaunched IoTQ as the first dedicated quality management system
 - Launched SmartFac Universal for factory monitoring
 - Established a technical centre in Atlanta, USA to support export business opportunities
- **2021**
 - Completed a CAPEX cycle to augment manufacturing capacity to up to ₹250 crores

PRODUCT PHILOSOPHY

Setting the trend, staying ahead

With engineers and innovators at the helm, we look at the work differently. Ours is a problem-solving approach. Our super-focused product development philosophy - Marshall Technology Trishool - is the cornerstone of our company and what separates us from the lot.

Our product development is in cognizance of the on-ground realities of Indian machines shops and the real-world problems faced by the Indian manufacturing industry at this juncture. In the age of rising labour costs and scarcity of skilled operators, Marshall Machines built with a frugal-innovation, and Indian-jugaad mindset will address the emerging needs of machines shops.

With the Marshall Technology Trishool - a three-pronged product development philosophy, our ultimate objective is to achieve a higher ROI of our machines and lower cost per component for our clients. In addition, our focus on deploying complete integrated solution offerings for our customers makes us the preferred partner of choice for upgrading manufacturing operations.

SUPER-OPTIMIZED MACHINES

Super optimized machines that offer higher productivity & lower cost of operations compared to their peers. Cost per component produced is reduced, hence increasing ROI of the machine.

INTELLECTUAL CAPITAL

Superior intellectual capital

R&D and Innovations have been the key differentiators of Marshall Machines. Although time-consuming, these characteristics of our Company's strategy have stood the test of time and have established a strong foundation for us to excel in the future.

All of the Company's founders and members of the senior management team are actively involved in the product innovation and development function, which is a unique aspect of the organization. Based on the emerging needs of Indian machine shops, the Company has created several unique product solutions, many of which fall in the categories of automation and Industry 4.0. In addition, Marshall is able to maintain tight control over product quality thanks to a fully integrated value chain that spans from product ideation and design to manufacturing and solution implementation and deployment.

Its extensive research and development activities have resulted in excellent intellectual property generation, a unique feature in the Indian machine tool industry. Up to this point, the Company has registered six patents throughout the world, with an additional 22 patents pending approval. As a consequence of the increased pace of IP development, nine of the twenty-two patents have been filed in FY21. In addition, a unique patent has been awarded to the Company in March 2021 in USA with the title "System and a Method to Enable Zero Defect Production." The Company is equally concerned with intellectual property protection in order to prevent patent infringement and realize the full benefits of its research and development activities.

MANUFACTURING FACILITIES

Adding capacities, upgrading capabilities

The Company has built state-of-the-art infrastructure in both its units to manufacture superior quality machines that are an unmatched value proposition for the industry.

Our manufacturing units are equipped with the world's best mother machines imported from Europe. These machines help produce high-precision parts for manufacturing Marshall Machines that are known for their quality standards. In the last three years, the Company has invested extensively in its manufacturing facilities. These investments have been focused on equipping the plant with imported mother machines, Carl Zeiss measuring machines, large machining centres, grinding machines, and turning and turn-milling machines. **This exercise has led to manufacturing capacity augmentation from ₹75 crores in 2017 to ₹250 crores in 2021.**

The Company is making further efforts and improvements to streamline its production and strengthen its supply chain. The Company is working on adding certain reliable suppliers in the vicinity of the manufacturing plant to outsource manufacturing of specific non-critical sub-assemblies. As the Company advances, it intends to create a complete assembly-focused mindset by outsourcing non-critical aspects of its value chain.

THIS EXERCISE HAS LED TO MANUFACTURING CAPACITY AUGMENTATION FROM ₹75 CRORES IN 2017 TO ₹250 CRORES IN 2021.

CLIENT TESTIMONIALS

"We are users of Roboturn Cell from Marshall, along with Fortius machines and RAPIDTURN SL-20 machines. These, as well as an SPM, are operated by a Robot mounted on a 6,000 mm track.

We would like to appreciate Marshall for the excellent performance of their machines as well as the rigidity of machines for a high rate of metal removal, chip breaking with 70 Bar Coolant, CLAP, CLAMP.

Marshall team has provided excellent onsite support. They replaced the ball screw drive of the rail track (max rapid 16 m/min) with imported Rack and Pinion and raised rapid to 80 m/min. The cycle time is lower than what was committed in the purchase order."

>> M M FORGINGS

"Marshall was our first-ever CNC Machine; thus, our engineers were provided extensive training by the team at Marshall Machines, including programming and job setting. In addition, Marshall Machines provided us with very good technical & application support that helped us develop many new jobs.

We are now satisfied users of numerous Marshall Double Spindle CNC Lathes. We feel that Marshall Double Spindle CNC Lathes are most productive for chucking jobs."

>> E.R. AUTO

"We have purchased one number Marshall RAPIDTURN SL-12 (D) DOUBLE SPINDLE CNC LATHE, from Marshall Machines. Since this was our first CNC Lathe, our representatives were provided comprehensive training by Marshall Machines for several days, including actual job production for several shifts.

We placed a repeat order for more RAPIDTURN SL-12 (D) "XF" double spindle Lathes. In these machines, Marshall Machines added more features like higher power for a greater metal removal rate. As a result, we are now satisfied users of several Marshall Double Spindle CNC Lathes used on a three-shift basis."

>> ASPEE PRECISION

"We are happy to write this testimonial of appreciation for Marshall for providing us with good products and services. We bought our first set of machines (Rapidturn DS-450) from Marshall in 2016.

The machines are performing well and the service extended to us is also outstanding. We have added many more machines recently with some more improvements. Because of Double spindle technology, we have been able to improve our output and save valuable shop floor space."

GEOGRAPHICAL PRESENCE

Reaching customers far and wide

Our reach is extensive. We've established a strong presence in manufacturing hubs across the country over the years. Marshall Machines are smoothly integrated and deployed at our clients' facilities due to our on-ground engineering and after-sales teams. They also provide after-sales services throughout the lifecycle of our products and facilitate sales lead generation.

LEADERSHIP

Agile and responsible leadership

1. GAURAV SARUP CO-FOUNDER AND MANAGING DIRECTOR

Mr. Gaurav Sarup, aged 56 years, is the co-founder and Managing Director of the Company. Mr. Sarup graduated from Punjab Engineering College, Chandigarh in 1986 with a degree in Production Engineering. He has over 35 years of expertise in the machine tool industry, with a specialization in ideation, design, and development of revolutionary machine tools. In addition, as a thought leader in the sector, he leads several awareness workshops. Industry 4.0 forums such as NIQR (National Institute of Quality & Reliability), CII (Confederation of Indian Industry), and TIE are among them. He is currently in charge of the Company's production, sales and marketing, research and development, and overall company growth.

2. PRASHANT SARUP CO-FOUNDER AND JOINT MANAGING DIRECTOR

Mr. Prashant Sarup, aged 53 years, is the co-founder and Whole Time Director of the Company. He graduated from Birla Institute of Technology, Ranchi in 1989 and is a seasoned industry veteran with over 32 years of expertise in design and electronic integration. He has been instrumental in designing machines, electronic integration, and interfacing systems to develop various

machine tools. He is currently in charge of the Company's finance, automation interfacing, product development, and purchase department.

3. ARCHANA SARUP WHOLE TIME DIRECTOR

Mrs. Archana Sarup, aged 49 years, is a Whole Time Director of the Company. She holds a master's degree from Punjab University and has vast experience of more than 12 years in the Human Resource Development (HRD) arena. Mrs. Sarup leads the charge of the Company's HRD department and administration. In addition, she also looks after events, exhibitions, seminars, and roadshows for the Company.

4. SIDDHANT SARUP WHOLE TIME DIRECTOR

Mr. Siddhant Sarup, aged 29 years, is a Whole Time Director of the Company. He holds a B.Tech in Industrial Engineering and a Master's Degree in Operations Management (MBA) from Thapar University, Punjab, with more than seven years of work experience. He is presently in charge of automated and smart machine manufacturing, inspection, and testing. He's also working on the research and development of SmartCorrect Gauging Stations, a promising product line for the company.

5. A.N. CHANDRAMOULI STRATEGIC ADVISOR TO THE BOARD

Mr. A.N. Chandramouli is a Strategic Advisor to the Board of Directors. Mr. Chandramouli is a seasoned industry veteran with a Mechanical Engineering degree from NIT Trichy and a postgraduate degree from IIM Calcutta. He has previously led global machine tool corporations. His notable roles include President and CEO of Makino India (a leading Japanese machine tool company) and Managing Director of Starrag India (a leading Swiss machine tool company). His extensive knowledge and network will aid the Company in achieving operational excellence as well as expanding into new areas.

6. KOMAL BHALLA NON-EXECUTIVE & INDEPENDENT DIRECTOR

Ms. Bhalla is a Non-Executive & Independent Director of our Company. She is a graduate, a Company Secretary and a fellow member of the Institute of Company Secretaries of India. She has more than three years of work experience in secretarial, managerial fields and has been associated with listed companies in the past. She has been instrumental in guiding the Company in her areas of expertise.

7. SATVINDER SINGH NON-EXECUTIVE & INDEPENDENT DIRECTOR

Aged 62 years, is the Additional Non-Executive & Independent Director of our Company. He holds a Diploma in Mechanical Engineering from Guru Nanak Engineering College (Polytechnic), Ludhiana. He has vast experience of more than 38 years in mechanical engineering, and presently he is the Senior Vice President in GNA Group.

8. KAJAL RAI NON-EXECUTIVE & INDEPENDENT DIRECTOR

Ms. Rai is a Non-Executive & Independent Director of our Company. She is a graduate, a Company Secretary and a fellow member of the Institute of Company Secretaries of India. She has vast work experience of more than five years in secretarial and managerial fields. She has been instrumental in guiding the Company in her areas of expertise.

LETTER TO SHAREHOLDERS

From MD's desk

GAURAV SARUP
MANAGING DIRECTOR

Dear Shareholders,

IT GIVES ME IMMENSE PLEASURE TO PRESENT YOU OUR ANNUAL REPORT FOR THE YEAR 2020-21. THIS YEAR, WE HAVE CONSIDERABLY BROADENED THE SCOPE OF THIS DOCUMENT, WITH THE GOAL OF SHARING NOT JUST OUR FINANCIAL PERFORMANCE BUT ALSO OUR STRATEGY, OUTLOOK, AND LONG-TERM VISION FOR YOUR COMPANY AS A WHOLE.

As you all already know, FY21 has not been a particularly good year for manufacturing industries, especially those in the automobile and general engineering sectors, while investments from these industries is what traditionally drove demand for our Company. In the midst of such adversity, we are pleased to inform you that Marshall Machines has come through unscathed and is much better positioned than it was a year ago. When the Covid-19 pandemic first broke out in the first quarter of FY21, economic activity almost immediately came to a grinding halt. Since corporate India had postponed its investments and capital expenditure plans in light of the uncertainties surrounding Covid-19, the Company had also experienced a significant slowdown in incoming orders, deferral of business in the development stage, and requests for delays in deliveries for orders already in hand. However, once markets began to open up, labour-related difficulties started to subside, and manufacturing activities for various sectors started to resume, the Company witnessed a steady resurgence in demand. At the same time, several proactive steps taken by the Company's marketing and business development team assisted in the recovery of the business in the second half of FY21. The fact that more than 3/4th of our annual sales have been recorded in H2FY21 for the year under review indicates that our operations have seen a strong rebound in the second half. On a full-year basis, we are glad to report a Revenue from Operations growth of 12%. On the profitability front, the Company has had some difficulties due to exceptionally high raw material costs; however, these input costs have been passed on to customers in subsequent orders, and margins are expected to return to their historical levels as seen between FY18-20.

Need of the hour

Covid-19 has been a mixed bag for us; although the immediate effects of the pandemic have had a negative impact on our business, our long-term prognosis for Marshall's product offerings has been fortified as a result of the pandemic. For Indian machine shops, issues such as a lack of qualified operators, a disproportionate reliance on human resources, and increasing efficiency in the face of a challenging business climate have emerged as critical considerations. In today's manufacturing industry, product solutions that address automation, Industry 4.0, and smart IoT-based factories that can be monitored remotely

WE ARE CONFIDENT IN OUR ABILITIES TO SCALE IN AUTOMATION & INDUSTRY 4.0 OFFERINGS, ON THE BACK OF OUR SUPERIOR PRODUCT OFFERING, GLOWING ENDORSEMENTS, AND CONCRETE DATA-BACKED CASE STUDIES DEMONSTRATING A HIGHER RETURN ON INVESTMENT ON OUR MACHINES.

are in great demand. While these notions were still in the early stages of development a decade ago, they are now essential to the modern world. Marshall can efficiently serve these emerging needs, and in many cases, is the only indigenous option in categories dominated by expensive imported machinery. Thus, being a sole indigenous solution offering in several of these product categories, we stand to benefit considerably from these trends.

Industry tailwinds

Indian machine tools have traditionally been a heavily import-reliant industry, with imports ranging between 50% to 60% of total consumption over the last decade. The lack of investments in technology, research, and development by the Indian machine tool industry is the fundamental reason for this dependency on imports. Aside from standard machine tool solutions, all high-end, technologically superior machines are imported from nations such as Germany, Korea, Japan, and Italy, amongst other places. In addition to this, there is fierce competition in the market for standardized

machines from China, which is essentially a volume-driven market. In recent years, however, due to the Indian government's emphasis on campaigns such as Make in India and Atma Nirbhar Bharat, as well as Indian manufacturers seeking indigenous machine tool solutions, the external environment has become very conducive for companies like Marshall Machines, which have primarily focused on research and development, as well as intellectual property generation, for the better part of the last decade.

Swift learning curve

I cannot emphasize enough that the last decade, following our entry into automation and Industry 4.0 offerings, has been a swift learning curve for us. In the present day, not only do we comprehend the fundamental problems faced by Indian manufacturers, but we have also refined our product in order to overcome these issues. To add to this, many of our early high-end automation projects have had exceptionally positive results, with our clients reporting significant productivity increases (30% or more), as well as a considerable reduction in the margin for error (80% lower rejections). Moreover, we are confident in our ability to scale in this product category because we have a significantly superior product offering, glowing endorsements, and concrete data-backed case studies demonstrating a higher return on investment on our machines.

As we advance

Following the conclusion of our most recent CAPEX cycle, we have significantly increased our capacity to accommodate our future growth

plans. Moving forward, the Company will place greater emphasis on aspects such as developing newer competencies to serve emerging industries such as aerospace, medical equipment, and electronics; tapping export markets in the United States and fast-growing emerging markets in Asia; positioning itself as the default choice for smart machines; and utilizing import substitution categories, as we have successfully done in the past. In the next few years, the Company will strive to achieve optimum capacity utilization, which will allow us to produce Sales of ₹ 250 crores and EBITDA margin of 25%.

Before I conclude, I would like to inform our shareholders that the Company has already commenced the process of migrating to the main board, and soon enough we will be listed on the main board of NSE. I wish to thank all my Board Members, regulatory authorities, senior management, employees, bankers, and shareholders for their continuous guidance and unwavering support.

Yours sincerely,

GAURAV SARUP
MANAGING DIRECTOR

GROWTH DRIVERS AND STRATEGIC PRIORITIES

A strategic roadmap to deliver value

GROWTH DRIVERS

AUTOMATION & INDUSTRY 4.0 OFFERINGS

Automation and Industry 4.0 offerings have a very bright future, and given their immense advantages over traditional machines; these machines can effortlessly generate higher ROIs despite a significant upfront investment. In recent times, Indian machine shops have realized the benefits of these product offerings and are increasingly willing to adopt such products. Marshall Machines will be at the forefront of this trend, facilitating the adoption of its affordable automation and Industry 4.0 offerings.

EXPORTS

The Company is exploring export opportunities, primarily in the US. The Company has partnered with established dealers such as TGH and Morris South to drive business in the US market since the USA is principally a distribution-network-driven market. In addition to the US, the Company is also evaluating export opportunities in fast-growing Asian markets such as Bangladesh.

EMERGING SECTORS

India has been witnessing a faster growth in manufacturing opportunities in emerging domains such as Electronics, Aerospace, and Medical Equipment. The Company is working actively to enter these emerging sectors and add newer engines of growth for itself.

IMPORT SUBSTITUTION OPPORTUNITIES

Given the current geopolitical and economic setup, manufacturing for many sectors is shifting to India, and the Company is evaluating such trends and trying to service emerging demands. For instance, in the recent past, the Company has successfully capitalized on the shift in the manufacturing of alloy wheels to India by supplying our RoboTurn XL Cell used for motorcycle wheel turning. We have also received orders for Automated Car Alloy wheel manufacturing Cells.

FOCUS ON DESKILLING OPERATIONS

Given the scarcity of skilled operations, which has become more erratic in the post-pandemic world, the Company has been pitching for deskilling manufacturing operations that reduce dependence on human resources. Apart from automation offerings, the Company is also deploying smart technologies like SmartCorrect Gauging Stations that eliminate the need for skilled operators and ensure system based Zero defect output.

STRATEGIC PRIORITIES

DELEVERAGING

With the conclusion of the CAPEX cycle, the Company has concluded all investments for the foreseeable future. Moving forward, the Company will use its higher internal accruals generated from this capacity to reduce borrowings and deleverage the balance sheet.

REDUCING WORKING CAPITAL CYCLE

The company has deployed specific measures and strategies to curb the working capital cycle in the last year. These efforts include deploying technologies such as 'Vibratory Stress Relieving' against the time-intensive natural seasoning process of steel structures, outsourcing non-critical sub-assemblies, leading to a reduction in lead time for inventories. The Company targets to bring down the working capital cycle between 150-180 days by FY23.

INCREASING SHARE OF AUTOMATION & INDUSTRY 4.0

Automation and Industry 4.0 offerings not only differentiates the Company from its peers in a commoditized industry; it also offers much better profitability prospects. Consequently, the Company will focus on increasing the share of automation and Industry 4.0 offerings to drive its topline, and more prominently, its bottom-line.

STRATEGIC GLOBAL ALLIANCES

The Company is evaluating strategic global alliances with European and Japanese machine tool companies for a symbiotic relationship. With these strategic alliances, the Company is looking to access foreign markets of the partner and jointly offer high-end machine tool offerings of the partner to Indian markets, which will also lead to an expansion in the clientele for the Company. Other optionality's include supplying machine parts in export markets, tapping opportunities in the Government and PSU sector.

Management Discussion and Analysis

Global Machine Tool Industry

Most of the recent advancements in the worldwide machine tool industry have been overshadowed by the ongoing coronavirus pandemic and its consequences on the global economy and industrial production. Machine tool demand is expected to rebound at a slow pace until H1 2021, with global industrial production remaining below pre-crisis levels until mid-2021. This is in line with the general economic recovery path. According to Oxford Economics, it is predicted that the output of machine tools would decrease by 6.2 percent in 2020 but will increase by 7.9 percent in 2021. Asian markets are projected to have a relatively robust performance, led mostly by China, which accounts for a significant portion of the global share. According to Oxford Economics, global consumption of machine tools is expected to

decline by 18.5 percent in 2020 before rising by 18.2 percent in 2021.

The transition away from traditional cars to electric vehicles (EVs) continues to be a significant concern for the worldwide machine tool industry, as the global automotive sector concentrates on developing and manufacturing EVs. The demand for machine tools in European nations is likely to be the most affected by the implementation of new EU emissions standards, which will result in a greater uptake of electric vehicles. Furthermore, it is predicted that Chinese EV consumption would grow considerably, which will also negatively influence the trends in machine tool demand in the near term.

Broadly, the machine tool sector's trends are more cyclical than the total fixed investment spending, which in itself is one of the most cyclical components of the economy. However, as per-capita income grows in the coming years, medium-term growth trends are still in play, such as increased demand for motor cars and high-tech consumer goods in emerging markets. Aside from that, China, already the world's largest consumer and producer of machine tools, is expected to maintain its leadership position because it is the primary manufacturing hub for exports to the rest of the world; this is true despite China's declining competitiveness as a result of rising wages in the country.

GLOBAL MACHINE TOOL CONSUMPTION (2019)

Region	In USD Bn
Asia	38.1
China	22.3
India	2.6
Americas	13.6
Europe	22.2
World ex-China	51.7
World	74.0

Indian Machine Tool Industry

According to Gardner's "World Machine Tool Survey, 2019," India ranks 7th in the consumption of machine tools and 12th in the production of machine tools. Indian machine tool production for 2019-20 is estimated to be around ₹ 6,150 crores, while consumption is approximately ₹ 15,670 crores - with the gap being filled by imports, which account for a 66 percent share of consumption in the fiscal year 2019-20.

In view of recent events and sectoral trends, the forecast for the Indian machine tool industry varies from one industry to another. As a result of the country's relatively robust comeback in economic activity, basic metals and metal products manufacturing is projected to perform better, particularly as construction activity rebounds. Meanwhile, the recovery in automotive manufacturing is anticipated to take longer than expected since post-COVID companies have gradually resumed production in light of subdued demand. In light of these developments, the machine tool industry must venture into previously uncharted territories and make the most of technological advancements to drive product and process innovation. To put it another way, it would not be enough to master the skill of survival alone; it would also be necessary to sustain and strive to broaden one's perspectives.

While the government is emphasizing on a self-reliant India, the machine tool industry must continue to collaborate with new and emerging sectors, such as healthcare and medical equipment, infrastructure, aerospace, defence, food processing, agricultural machinery, textile machinery, railways, and power generation, as well as other sectors such as electronics and electronics-related equipment.

Outlook and Opportunities of Indian Machine Tool Industry

- Rising demand in emerging sectors such as aerospace, aviation, healthcare and traditional sectors such as railways, power and infrastructure has huge potential, with significant demand for large-sized machine tool requirements.
- Rising automation and use of advanced technology in manufacturing and construction industry to increase demand for machine tools.
- JV and strategic partnerships with foreign players - Indian companies exploring the potential of JVs and strategic partnerships to acquire intellectual capital, technology-upgradation, and evaluate cross-selling opportunities.
- Government support and schemes - schemes and support by Government of India, to enhance technology, support local manufacturing through initiatives like Make in India, Atma Nirbhar Bharat, PLI, and many more.

Key Challenges to Indian Machine Tool Industry

- **Lack of indigenous technology** - limited investments in research and development leading to commoditized offerings.
- **Highly import-dependent industry** - lack of high-end technologies leading to a substantial gap fulfilled by imports.
- **Low brand building activities and lack of credible brands** - limited efforts on brand building, user-interaction and demonstrations to create awareness.

- **Highly price competitive market** - a product-centric market, with little focus on after-sales service.
- **Lack of complete product range** - a product-centric approach, rather than complete a solutions-driven approach.

Company Overview

Marshall Machines, founded by Mr. Gautam Sarup in 1961, is a well-known brand in the Indian machine tool industry. Marshall started out with manufacturing high-precision bench lathes, heavy-duty lathes, and capstan lathes. However, in the last two decades with the guidance of Mr. Gaurav Sarup and Mr. Prashant Sarup, the Company's single-minded focus on product innovation, research and development, automation, and Industry 4.0 technologies has positioned it as a niche player in a rather commoditized industry. As a result, Marshall is currently a front-runner in the space of automated, Industry 4.0-enabled, and smart IoT enabled - CNC solution offerings to India's leading manufacturing companies. These companies belong to a wide range of industries including, automobile, consumer durables & appliances, and general engineering, to name a few.

Business Overview

Marshall Machines is in the business of designing, manufacturing, deploying solution offerings, providing after-sales services for machine tool equipment. Products offered by the Company include single spindle CNC machines, innovative two spindle & four spindle CNC machines, automated robotic CNC machine solutions, and Industry

MD&A

4.0 products such as SmartCorrect Gauging Stations. Since then, the Company has grown into a well-regarded player in automated solutions, smart and technologically superior machine tool offerings that enable its clients to enhance productivity, reduce cost per component, and generate a higher return on investment (ROI) from their machines. Constant product innovation, achieved via rigorous research and development, intellectual property generation and protection, has enabled the Company to produce solutions that meet the emerging needs of its clients.

The Company's machines are being used in a number of industries, including the automobile industry, consumer durables and appliances, and general engineering, among others. They are used to manufacture a variety of products such as axles, crankshafts, auto components, fans, and pumps. They are also used to manufacture bearings, gear blanks, bushes, and other similar items. These machines are well-regarded for their quality, dependability, and precision performance. In addition, Marshall provides its clients with the ability to create and implement customized solutions with the desired flexibility. As a result, customers' unique requirements are met with these customized solutions that are designed to maximize the efficiency with which these equipment are used in their operations.

FY21 Performance Discussion Overview

FY21 has been a challenging year for the Indian manufacturing and machine tool industry and, subsequently, the Company. COVID-19 led lockdowns & restrictions had dampened the consumer & industrial sentiment. However, despite such a challenging year, Revenue from Operations stood at ₹ 67.13 crores compared to ₹ 59.74, registering a 12% growth year on year. The Company will continue to build on this momentum. Challenges were more acute on the profitability front due to the demand-supply disruptions induced by Covid-19, leading to a sharp increase in raw material prices such as sheet metal, mechanical & electronic items, etcetera. In light of elevated raw material prices, the Company undertook some countering measures, including price hikes for new orders to pass (FY22 onwards) on the increase in input costs and optimization of Employee Benefit Expense and administration costs. Subsequently, the Company witnessed a compression in EBITDA margins from 26.5% in FY20 to 14.4% in FY21. As a result, EBITDA (excluding Other Income) stood at ₹ 9.65 crores compared to ₹ 15.81 crores, a 39% decline year on year. The Company also made alterations in its debt profile, including the closure of certain high-cost borrowings and renegotiations in existing loans to help lower Finance Cost. Profit after Tax for the year stood at ₹ 0.37 crores in the year under review, compared to ₹ 2.97 crores in FY20. For the same period, EPS stood at ₹ 0.37 in FY21 against ₹ 2.04 in FY20.

Financial Ratio Analysis

Interest Coverage Ratio	1.94	1.22	(37%)	A decline in interest coverage ratio because of lower profitability, mainly due to higher input costs for the year.
Current Ratio	1.13	1.03	(9%)	No significant change in the current ratio.
Debt Equity Ratio	0.78	0.68	-13%	Reduction in debt to equity ratio due to a significant increase in net worth of the Company.
Operating Profit (PBIT) Margin (%)	26.0%	14.4%	(45%)	Significant decrease in operating profitability, primarily on account of lower gross profit margins.
Net Profit Margin (%)	4.9%	0.8%	(84%)	Significant decrease in net profitability, primarily on account of lower gross profit margins.
Return on Net Worth (RoNW)	7.2%	1.1%	(85%)	Significant decrease in return on net worth, primarily on account of PAT for the year under review.

Outlook

On the operational front, the Company is better positioned than ever to deliver a higher growth benchmark for itself. After completing the recent CAPEX cycle, which first began in 2018, the Company has created a cumulative capacity of ₹250 crores in Revenues from erstwhile ₹75 crores in 2017. The Company will rely on the increased deployment of Industry 4.0 and affordable automation solution offerings in order to enhance revenues and capacity utilization. In addition to having a much higher ticket size, these high-end automated product cells also have significantly higher profitability. The disruptions caused by COVID-19 have highlighted a number of structural problems in the way Indian machine shops are currently operating. It has drawn attention to challenges such as a scarcity of skilled operators, an over-reliance on human resources, the need for increased productivity, and a dire need to reduce cost per component to optimize profitability in challenging times. Marshall Machines has a complete gamut of product offerings that address these needs, and we will be at the forefront of addressing these problems with our meticulously developed product portfolio. In addition, the Company is looking into potential global collaborations that might help accelerate our export business, customer penetration in India, and overall growth momentum in the future.

Any shareholder having symptom of infection of COVID-19 are requested not to attend the meeting.
- viii) Any queries regarding the Annual Accounts or otherwise must be sent to Registered Office of the Company at least 10 days before the date of meeting.
- ix) M/s Bhambri & Associates, Company Secretary in practice has been appointed as the Scrutinizer to scrutinize the e-voting process in a fair and transparent manner (including the ballot forms received from members who do not have access to the e voting process). The scrutinizer shall upon the conclusion of General Meeting, unblock the votes in presence of at least two witnesses not in employment of the Company and make a report of the votes cast in favour or against, if any, forthwith to the chairman of the Company.
- x) The Results of the resolutions passed at the AGM of the Company will be declared within 48 working hours of the conclusion of AGM. The Results declared along with the Scrutinizer's report shall be placed on Company's website of CDSL and will be communicated to the stock exchanges.
- xi) **Voting through Electronic Means:** Pursuant to the Section 108 of the Companies Act, 2013, Rule 20 of the Companies (Management And Administration) Rules, 2014, as amended from time to time and Regulation 44 of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, the Company is pleased to provide the facility to the Members a facility to exercise their right to vote at the 27th Annual General Meeting (AGM) by electronic means.
- xii) The instructions for shareholders voting electronically are as under:**
- (i) The voting period begins on **25.09.2021 at 09.00 am** and ends on **27.09.2021 at 05.00 pm**. During this period shareholders' of the Company, holding shares either in physical form or in dematerialized form, as on the cut-off date (record date) of **22.09.2021** may cast their vote electronically. The e-voting module shall be disabled by CDSL for voting thereafter.

(ii) Shareholders who have already voted prior to the meeting date through e-voting would not be entitled to vote at the meeting value.

(iii) Pursuant to SEBI Circular No. **SEBI/HO/CFD/CMD/CIR/P/2020/242 dated 09.12.2020**, under Regulation 44 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, listed entities are required to provide remote e-voting facility to its shareholders, in respect of all shareholders' resolutions. However, it has been observed that the participation by the public non-institutional shareholders/retail shareholders is at a negligible level.

Currently, there are multiple e-voting service providers (ESPs) providing e-voting facility to listed entities in India. This necessitates registration on various ESPs and maintenance of multiple user IDs and passwords by the shareholders.

In order to increase the efficiency of the voting process, pursuant to a public consultation, it has been decided to enable e-voting to **all the demat account holders, by way of a single login credential, through their demat accounts/ websites of Depositories/ Depository Participants**. Demat account holders would be able to cast their vote without having to register again with the ESPs, thereby, not only facilitating seamless authentication but also enhancing ease and convenience of participating in e-voting process.

(iv) In terms of **SEBI circular no. SEBI/HO/CFD/CMD/CIR/P/2020/242 dated December 9, 2020** on e-Voting facility provided by Listed Companies, Individual shareholders holding securities in demat mode are allowed to vote through their demat account maintained with Depositories and Depository Participants. Shareholders are advised to update their mobile number and email Id in their demat accounts in order to access e-Voting facility.

Annexure – D Secretarial Audit Report

Secretarial Audit Report for the Financial year ended 31st march, 2021 [pursuant to section 204(1) of the companies act, 2013 and rule 9 of the Companies (Appointment and Remuneration of Managerial Personnel) rules, 2014]

The Members,
Marshall Machines Limited,
C-86, Phase V, Focal Point,
Ludhiana
CIN: L29299PB1994PLC014605

We have conducted the secretarial audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by **MARSHALL MACHINES LIMITED** (hereinafter called the Company). Secretarial Audit was conducted in a manner that provided us a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing my opinion thereon.

Based on our verification of the Company's books, papers, minute books, forms and returns filed and other records maintained by the Company and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of secretarial audit, we hereby report that in our opinion, the Company has, during the audit period covering the **financial year ended on 31st March, 2021** ('Audit Period') complied with the statutory provisions listed hereunder and also that the Company has proper Board-processes and compliance-mechanism in place to the extent, in the manner and subject to the reporting made hereinafter:

We have examined the books, papers, minute books, forms and returns filed and other records maintained by the Company for the financial year ended on 31st March, 2021, to the extent applicable and according to the provisions of:

- (i) The Companies Act, 2013 (the Act) and the rules made thereunder;
- (ii) The Securities Contracts (Regulation) Act, 1956 ('SCRA') and the rules made thereunder;
- (iii) The Depositories Act, 1996 and the Regulations and Bye-laws framed thereunder;
- (iv) Foreign Exchange Management Act, 1999 and the rules and regulations made there under to the extent of Foreign Direct Investment, Overseas Direct Investment and External Commercial Borrowings;

Independent Auditor's Report

To The Members of **Marshall Machines Limited**
Report on the Audit of the Standalone Financial Statements

OPINION

We have audited the accompanying Standalone Financial Statements of Marshall Machines Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2021, the Statement of Profit and Loss and the Statement of Cash Flows for the year ended on that date, and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "the Standalone Financial Statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Standalone financial statements give the information required by the **Companies Act, 2013** ("the Act") in the manner so required and give a true and fair view in conformity with the Accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2021, its profit and its cash flows for the year ended on that date.

BASIS FOR OPINION

We conducted our audit of the Standalone financial statements in accordance with the Standards on Auditing specified under section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the Standalone financial statements under the provisions of the Companies Act, 2013 and the Rules made there under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Standalone Financial Statements.

EMPHASIS OF MATTERS

Attention is drawn to the following matters:

1. The Company has changed its method of providing depreciation for Fixed Assets effective from 1st April 2020 from Written Down Value Method to Straight Line Method. In view of the management of the company the change is aligned with the change in Company's expectation of the pattern of consumption of the economic benefits arising from these assets in future as against the past and technical evaluation. This results on revaluation of the carrying amounts and depreciation costs.

- a. Subject to above and with reference to Note no. 24 of Standalone Financial statements, the Net Block of the Fixed Assets as on 01st April, 2020 has increased (from ₹ 52.91 Crores to ₹ 62.93 Crores) by ₹ 10.02 Crores and correspondingly Deferred Tax Liability has increased (from ₹ 3.00 Crores to ₹ 5.60 Crores) by ₹ 2.60 Crores along with Increase in Reserves & Surplus (from ₹ 15.08 Crores to 22.50 Crores) by ₹ 7.42 Crores.
- b. Subject to the change of method of depreciation and with reference to Note no. 24 of Standalone Financial Statements, depreciation cost for the year is lowered by ₹ 1.76 Crores (from WDV depreciation of ₹ 6.88 Crores to SLM depreciation of ₹ 5.12 Crores) and to that extent the profits of the company are overstated.

2. As per Note no. 9 of the Standalone Financial Statements, Creditors include MSME creditors amounting to ₹ 1.40 Crores which have been identified by the company as due but not paid within stipulated time period under Micro Small and Medium Enterprises Development Act , 2006 (MSMED).

However in our opinion and as per information and records provided to us, the company does not have proper records of MSME creditors so reliable estimates of the amount due but not paid could not be made. Further no provision for Interest on above described delayed payments has been made in the books of accounts. To that extent the profits of the company are overstated.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Standalone Financial statements of the current period. These matters were addressed in the context of our audit of the Standalone Financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

INFORMATION OTHER THAN THE STANDALONE FINANCIAL STATEMENTS AND AUDITOR'S REPORT THEREON

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility Report, Corporate Governance and Shareholder's Information, but does not include the Standalone Financial statements and our auditor's report thereon.

Our opinion on the Standalone Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Standalone Financial Statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Standalone Financial Statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

MANAGEMENT'S RESPONSIBILITY FOR THE STANDALONE FINANCIAL STATEMENTS

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these Standalone Financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Standalone Financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Standalone Financial Statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Company's financial reporting process.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE STANDALONE FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the Standalone Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it

exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Standalone Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also :

- Identify and assess the risks of material misstatement of the Standalone Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls.
- Obtain an understanding of Internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Standalone Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Standalone Financial Statements, including the disclosures, and whether the Standalone Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the Standalone Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced.

We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Standalone Financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

1. As required by Section 143(3) of the Act, based on our audit we report that :

- a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
- b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
- c) The Balance Sheet, the Statement of Profit and Loss account and the Statement of Cash Flow dealt with by this Report are in agreement with the relevant books of accounts.
- d) In our opinion, the aforesaid Standalone Financial Statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
- e) On the basis of the written representations received from the directors as on March 31, 2021 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2021 from being appointed as a director in terms of Section 164 (2) of the Act.

f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "**Annexure A**". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting

g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended:

In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.

h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us :

- i. The Company has not disclosed the impact of pending litigations on its financial position in its Standalone Financial Statements
- ii. The Company has made provision, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts.
- iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the company.

2. As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "Annexure B" a statement on the matters specified in paragraphs 3 and 4 of the order.

Annexure A to the Independent Auditor's Report

(Referred to in paragraph 1(f) under 'Report on Other Legal and Regulatory Requirements' section of our report to the Members of Marshall Machines Limited of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal Financial controls over Financial reporting of **Marshall Machines LIMITED ("the Company")** as of March 31, 2021 in conjunction with our audit of the Standalone Financial statements of the Company for the year ended on that date.

MANAGEMENT'S RESPONSIBILITY FOR INTERNAL FINANCIAL CONTROLS

The Board of Directors of the Company is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal Financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable Financial information, as required under the Companies Act, 2013.

AUDITOR'S RESPONSIBILITY

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal Financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating

effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal Financial controls over Financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our audit opinion on the internal Financial controls system over Financial reporting of the Company.

MEANING OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal Financial control over Financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the Financial statements.

LIMITATIONS OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

OPINION

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over Financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2021, based on the internal control over Financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

B. Spinning Mills Private Limited. The Company's name was changed to Marshall Machines Private Limited on January 02, 2002. The Company is engaged in the business of developing, manufacturing and marketing of Machine Tool Equipment including wide range of single spindle, patented double and four spindle CNC machines, automated robotic solutions and patent pending IoT suite of intelligent equipment. The Company has its manufacturing base in Ludhiana and also have a R&D, Marketing and Technology Display Centre at IMT Manesar, Gurugram.

The name of the company has been changed to "Marshall Machines Limited" from "Marshall Machines Private Limited" pursuant its conversion into a public company vide shareholders' approval dated April 24, 2018 and a fresh Certificate of Incorporation dated May 17, 2018 was issued by Registrar of Companies, Chandigarh.

B. Significant Account Policies

a) Basis of Preparation

The financial statements are prepared as per the going concern basis assumption in accordance with the Generally Accepted Accounting Principles in India and applicable accounting standards as prescribed by the Indian Companies Act under the historical cost convention on accrual basis.

b) Use of Estimates

The preparation of financial statements of the company in conformity with Generally Accepted Accounting principles requires management to make estimates and assumptions that affect the reported amount of assets and liabilities, reported amounts of revenue and expenses, disclosure of contingent assets and liabilities on the date of the financial statements and the results of operations during the reporting period. Although these estimates are based on management's best knowledge of current events and actions, actual results may ultimately differ from these estimates, which are recognized in the period in which the results materialize.

c) Property, Plant and Equipment

Property, Plant and Equipment are stated at cost net of duty credit availed less depreciation. Cost includes duties, freight and other incidental expenses related to acquisition, improvements and installation of the assets. Expenses incurred on capital assets are carried on as capital work in progress till the same are ready for use.

Machinery spares which are specific to particular items of Property, Plant and Equipment and whose use is irregular are capitalized as part of the cost of machinery.

d) Depreciation

Effective 1 April 2020, method of providing depreciation for Property, Plant and Equipment by the Company has been changed to Straight Line Method from Written Down Value Method. This change is aligned with the change in Company's expectation of the pattern of consumption of the economic benefits arising from these assets in future as against the past and technical evaluation.

e) Cash flow statement

Cash flows are reported using indirect method, whereby net profit before extraordinary items and tax is adjusted for the effects of non-cash nature, any deferrals or accruals of past or future cash receipt or payments. The cash flows from operating, investing and financial activities of the Company are segregated based on the available information.

f) Investments

The company does not have any investments.

g) Inventories

Inventories are valued as follows:

- Ø Raw Materials at cost or net realizable value whichever is lower.
- Ø Materials lying under Process are valued at cost of raw Materials plus Conversion cost incurred upto the time of process.
- Ø Finished Goods have been valued at Cost or net realizable value whichever is lower.
- Ø Scrap is valued at Net Realizable value.

h) Revenue Recognition

Sale of Goods: Sales are recognized when significant risks and rewards of ownership in the goods have been transferred to the customers as per the terms of contracts and are recognized net of trade discounts, excise discounts and sales taxes.

Sale of Services: In contracts involving the rendering of services, revenue is measured using the proportion completion method and are recognized net of taxes.

i) Other Income

Interest Income is accounted for on accrual basis.

j) Employee Benefits

Employee benefits include provident fund, employee state insurance scheme, gratuity and performance incentives.

Provident Fund

Contributions to Provident Fund are made in accordance with the provisions of the Provident Fund Act, 1952 through funds administered by the Regional Provident Fund Commissioner.

Gratuity

The Company has Defined Benefit plan, namely for gratuity for employees, the liability for which is determined on the basis of an actuarial valuation (using the Projected Unit Credit Method) at the end of the year. Gains and losses arising out of actuarial valuations are recognized immediately in the Statement of Profit and Loss as income or expense.

k) Borrowing Cost

Borrowing cost that are directly attributable to acquisition or construction of qualifying assets are treated as part of cost of capital assets. Other borrowing cost are treated as expenses for the period in which they are incurred.

l) Leases

Lease of assets under which, all the risks and benefits of ownership are effectively transferred by the lessor are classified as financial Lease. Leased assets are recognized in the balance sheet and accordingly the lease amount payable. In respect of assets taken on financial lease interest expense on debt & depreciation has been charged to the Statement of Profit and Loss.

m) Foreign Currency Transactions

Transactions in foreign currencies are accounted for at equivalent rupee value incurred /earned in foreign Currency. Currents Assets & Liabilities at the year-end are re-aligned at the applicable exchange rates and variations are charged to Statement of Profit & loss.

n) Treatment of Prior Period and Extra Ordinary Items

- (i) Any material (other than those arising out of over/under estimation in earlier years) arising as a result of error or omission in preparation of earlier years financial statements are separately disclosed.
- (ii) Any material gains/ losses which arise from the events or transaction which are distinct from ordinary activities of the company are separately disclosed.

o) Taxes on Income

Tax expense for the period, comprising current tax and deferred tax, are included in the determination of net profit

and loss for the period. Current tax is determined as the amount of tax payable in respect of taxable income for the year.

Minimum Alternate Tax (MAT) paid in accordance with the tax laws of India, which gives rise to future economic benefits in the form of adjustment of future income tax liability, is considered as an asset if there is convincing evidence that the Company will pay normal income tax in future years. Accordingly, MAT is recognized as an asset in the balance sheet when the asset is can be measured reliably and it is probable that future economic benefit associated with the asset will fructify.

Deferred Tax is recognized to that extent only, subject to consideration of prudence in respect of deferred tax assets, or timing differences, being the differences between the taxable income and accounting income that originate in one year and are capable of reversal in one or more subsequent years, having tax consequences. Deferred tax assets and liabilities are measured using the tax rates and tax laws as enacted or substantively enacted by the balance sheet date. Deferred tax assets and liabilities are offset if such items relate to taxes on income levied by the same governing tax laws and the Company has a legally enforceable right for such set off. Deferred tax assets are reviewed at each balance sheet date for their realizability.

p) Related Party Transactions

Disclosure is being made separately for all the transactions with related parties as specified under AS-18 issued by ICAI.

q) Impairment Assets

At each balance sheet date the Company assesses whether there is any indication that an asset may be impaired. If any such indications exist, the Company estimates the recoverable amount and if the carrying amount exceeds the recoverable amount, an impairment loss is recognized in the Statement of Profit and Loss to the extent the carrying amount exceeds the recoverable amount.

r) Provisions, Contingent liabilities and Contingent Assets

Provisions are recognized when there is a present obligation as a result of a past event and it is probable that an outflow or resources embodying economic benefits will be required to settle the obligation and there is a reliable estimate of the amount of obligation. Provisions are measured at the best estimate of the expenditure required to settle the present obligation at the balance sheet date and are not discounted to its present value.

Contingent Liability: A disclosure of contingent liability is made when there is a present obligation that may require an outflow of resources or where a reliable estimate of such obligation cannot be made.

NOTE 35: DEPRECIATION AND AMORTIZATION

Effective from 1st April 2020, method of providing depreciation for Fixed Assets by the Company has been changed to Straight Line Method from Written Down Value Method. This change is aligned with the change in Company's expectation of the pattern of consumption of the economic benefits arising from these assets in future as against the past and technical evaluation.

Till FY20, The Company was following Written Down Value (WDV) depreciation method. Based on evaluation during the year, Company considered to change the depreciation method from WDV to Straight Line Method (SLM) and has given effect from April 01, 2020. Consequently, depreciation and amortisation expense for the year ended on 31st March, 2021 is lower by ₹ 1.76 Crores and to that extent the profits of the company are overstated. Hence, depreciation and amortisation expense is not comparable with previous year.
