Statement from Chairman

Dear Shareholders

It is with immense pleasure that I present to you our maiden Annual report following our public listing and stock exchange listing in October 2023. I would like to extend my sincere gratitude to all our stakeholders for having faith in our capabilities and vision.

The global economy, in CY2023, showed resilience despite geopolitical uncertainties, inflationary pressures, tighter monetary policies, sovereign debt concerns and sluggish trade. We expect infrastructure build, investments led by new technologies, and demographics of emerging markets to continue to drive global growth, estimated at 3.2% in CY2024, similar to CY2023.

The Indian economy maintained a steady momentum within the uneven global macro-economic landscape, supported by public spending on infrastructure and digitalisation, as well as reforms directed towards ease of doing business and incentivising new investment. In FY2023-24, the Indian GDP has grown at 8.2%, which is substantially higher than the global benchmark.

The steel industry fundamentals reflected these macro conditions, with geopolitical concerns and moderating demand in China resulting in pressure on steel prices, while input costs have remained relatively elevated and environmental and regulatory costs continue to rise. At the same time, the Indian market stood out as robust infrastructure spending, resurgence in private sector investment and robust demand meant that the industry saw crude steel production growth of 13% over the previous fiscal.

OUR PERFORMANCE, 2023-24

The 2023-2024 represents a landmark for Mangalam Alloys Limited for good reasons. The Company went public after its initial public offer of equity shares in October 2023 and got listed on NSE Stock exchange “NSE Emerge” SME platform. The Company reported yet another growth year, Revenues grew at 0.5% from 2022-23 to 2023-24 as during the financial year were ₹304 crore as against ₹302 crore of the previous year and PAT grew at 11% from 2022-23 to 2023-24.

We are transforming our company. Over the past 30 years, we have delivered industry-leading growth – expanding our capacities, production, and EBITDA, and benefitting from higher economies of scale. We have also augmented our value-added and special steel product (VASP) capacities as well as range of capabilities. We have got better integrated and enhanced raw material security. These initiatives have

transformed our scale, as well as EBITDA margins, enabling us to generate higher cash flows and fund our growth primarily through internal accruals.

We are in a 'mission mode' to play a key role in realising the full potential of the India growth story. I remain very confident about the future prospects of the steel industry in India. Before concluding, I thank all our employees for their commitment towards the Company. I also extend my deepest gratitude to all our stakeholders for their trust and confidence in us and hope to have their continued support in our journey towards a sustainable future. I would also like to express my appreciation to our Board members, whose guidance and advice have been vital in shaping our strategic path and accomplishing our objectives. As we look towards the future with optimism and determination.

ANNEXURE'S TO DIRECTOR'S REPORT

ANNEXURE I MANAGEMENT DISCUSSION AND ANALYSIS REPORT

Your director's have pleasure in presenting the management discussion and analysis report for the year ended on March 31, 2024.

GLOBAL ECONOMIC OVERVIEW

The world economy continues to face multiple crises, jeopardizing progress towards the Sustainable Development Goals. Although global economic growth outperformed expectations in 2023 with several large economies showing remarkable resilience, simmering geo-political tensions and the growing intensity and frequency of extreme weather events have increased underlying risks and vulnerabilities. Furthermore, tight financial conditions also pose increasing risks to global trade and industrial production.

The global environment around the world continues to go through significant shifts. Post the pandemic, which resulted in supply chain shocks, there was an economic slowdown especially in developed markets. While initial signs of stability began to emerge, the military conflicts have further intensified this year and continue to impact the global supply chains. However, Hamas' attack on Israel in October 2023 and the resulting war in Gaza has further spurred global uncertainties, and attacks by the Houthi militia based in Yemen on ships travelling through the Red Sea has disrupted international trade routes. After two years of recessionary fears, persistently high inflation, and unprecedented monetary tightening, the global macro-outlook looks relatively better now with improving growth, disinflation, and monetary easing in sight. Across industries globally, there are multiple mega trends that are shaping priorities of businesses: AI, New Energy, Supply Chain and Talent.

GDP GROWTH

Global growth is projected to stabilize at 2.6 percent this year, By 2024–25, growth is expected to edge up to 2.7 percent alongside modest expansions in trade and investment.

The International Monetary Fund (IMF) raised its forecast for global growth, projecting 3.1% in 2024. However, Europe's prospects are not as positive.

Global growth is stronger than expected and will be 3.1% in 2024, the same as in 2023, as the US and emerging economies have shown resilience to previous crises, with strong consumption driving the growth, according to the International Monetary Fund (IMF). The global economy is stabilizing but the outlook remains subdued by historical standards—both advanced economies and EMDEs (emerging market and

developing economies) are projected to grow at a slower pace over 2024–26 compared to the pre-pandemic decade.

REAL GDP GROWTH PROJECTIONS FOR 2024 AND 2025

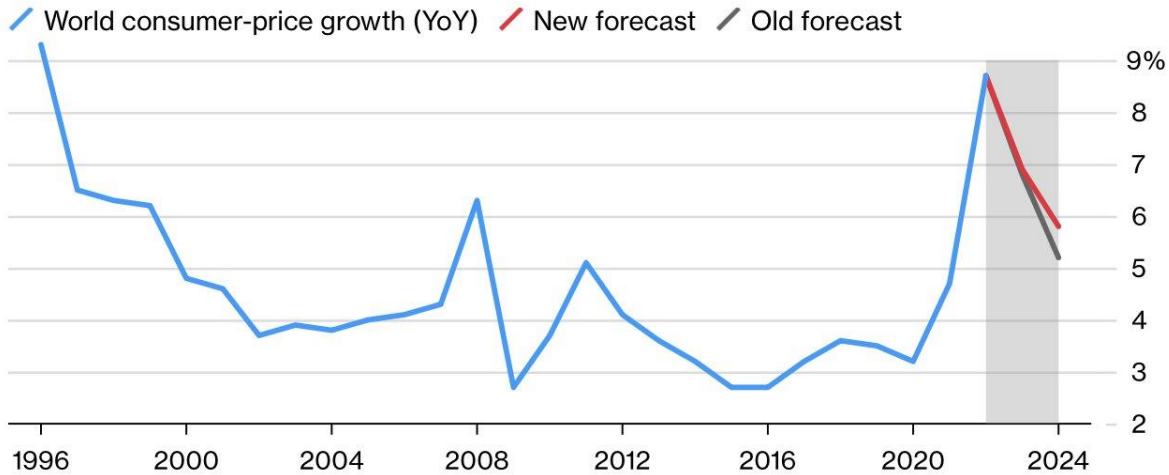

INFLATION

UNDERLYING INFLATION PRESSURES REMAIN HIGH

In 2024, global inflation is projected to decline to 5.8%, down from a 6.8% estimated annual average in 2023.

The International Monetary Fund (IMF) has raised worldwide concerns about high inflation rates. It has urged central banks worldwide to maintain tight monetary policies until a sustained reduction in inflation is observed. The IMF has revised its global inflation forecast for 2024. It anticipates an inflation rate of 5.8%, more than the previously estimated 5.2% just three months ago. Moreover, the fund predicts that inflation will continue to surpass central bank targets in most countries until 2025.

Inflation Won't Slow as Much as Previously Anticipated

INDIAN ECONOMY

“India’s economy is forecast to expand by 6.9 per cent in 2024 and 7 per cent in 2025, mainly driven by strong public investment and resilient private consumption. Although subdued external demand will continue to weigh on merchandise export growth, pharmaceuticals and chemicals exports are expected to expand strongly. If the prognosis for FY25 turns out to be right, that will mark the fourth year post-pandemic that the Indian economy will have grown at or over 7 per cent. That would be an impressive achievement, testifying to the resilience and potential of the Indian economy.

GDP GROWTH FOR FY 2023-24

India's gross domestic product (GDP) for the January-March quarter of fiscal 2023-24 (Q4FY24) came in at 7.8 per cent, driven by strong growth in the manufacturing sector. The Indian economy beat D-Street estimates and grew by 8.2 per cent for the full year (FY24). Economists expect the momentum to remain strong this year. The growth propelled the Indian economy to \$3.5 trillion and set the stage for achieving the \$5-trillion target in the next few years.

ENABLING INVESTMENT-LED ECONOMIC GROWTH

The investment climate in the country has transformed in recent years, leading to the emergence of ‘investment’ as a crucial driver of economic growth. The government's efforts over the past decade have resulted in positive economic outcomes. With numerous investment-boosting reforms and healthier balance sheets, private corporate investment has begun to crowd in, and banks are responding with greater credit disbursement.

THE ECONOMIC PROJECTIONS—WHAT LIES AHEAD

We are positive that investments will likely see a turnaround soon. In fact, the next two years will be crucial for investment to gain momentum before the economy takes off on a sustained and rapid growth path. High-frequency data—for example, electricity generation, GST collections (through e-way bills), average fuel

consumption per day, sale of two-wheelers and tractors, credit growth across sectors and industry, occupancy rates in hotels, and the purchasing managers' indices (PMIs)—clearly indicate that growth drivers have maintained a positive momentum despite uncertainties.

Further, to achieve future roadmap we adopt below business strategies

- Focus on value added products instead of low value added products.
- Source Ingots from overseas.
- We have strategy to hedge all currencies in export and import to avoid exchange fluctuation.
- We are doing natural hedge of sales and purchase quantities.
- We believe in customer satisfactions in terms of Quality and Delivery Commitment.
- We believe in zero waste philosophy (as in Mother Nature there is no waste). Zero waste includes Zero solid waste(recycling 100%) and Zero liquid waste (recycle liquid discharge by STP).
- We are continuously doing R&D on our products, process improvement and develop new grades. We have achieved inManufacturing of rare grades in our melting unit which are substitute of imports. We are continuously working onImproving our process by minimizing cost i.e. indirectly generating revenue, which will increase our bottom line.
- We are developing new markets such as Canada and United States of America.

	Revised Estimates	Budget Estimates
	2023-24	2024-25
1. Fiscal Deficit	5.8	5.1
2. Revenue Deficit	2.8	2.0
3. Primary Deficit	2.3	1.5
4. Tax Revenue (Gross)	11.6	11.7
5. Non-tax Revenue	1.3	1.2
6. Central Government Debt	57.8	56.8

Fiscal Indicators - Rolling Targets as a Percentage of GDP:

Strong domestic demand for consumption and investment, along with Government's continued emphasis on capital expenditure are seen as among the key driver of the GDP in H1 of FY2023-24. On the supply side, industry and services sectors were the primary growth drivers in H1 of FY2023-24. India has registered the highest growth among major advanced and emerging market economies during this period. As per the IMF, India is likely to become the third-largest economy in 2027 in USD at market exchange rate. It also estimates that India's contribution to global growth will rise by 200 basis points in 5 years.

After two years of decline and severe post-pandemic market volatility, there are signs of global steel demand "settling in a growth trajectory in 2024 and 2025",

India, however, has emerged as the strongest driver of steel demand growth since 2021. The association expects Indian demand to grow by 8% over 2024 and 2025. Other Information

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Director's report, but does not include the Financial Statements and our auditor's report thereon.

Our opinion on the Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Financial Statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Financial Statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact.

We have nothing to report in this regard.

Responsibility of Management for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance, (changes in equity) and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate implementation and maintenance of accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so. That Board of Directors is also responsible for overseeing the company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is

sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the Financial Statements, including the disclosures, and whether the Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Report on Other Legal and Regulatory Requirements

As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the Annexure 1, a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

As required by Section 143(3) of the Act, we report that:

- a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;

“ANNEXURE 2” TO THE INDEPENDENT AUDITORS’ REPORT

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013

We have audited the internal financial controls over financial reporting of **Mangalam Alloys Limited** as of March 31, 2024 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management`s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India .These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records and the timely preparation of reliable financial information, as required under the Companies Act,2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over the financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting and the Standards on Auditing, issued by ICAI and deemed to be prescribed under Section 143(10) of the Companies Act, 2013 to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

1. Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
2. Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorities of management and directors of the company; and
3. Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of the internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of the changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31 2024, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

C) Significant Accounting Policies:

a) Revenue Recognition:

Revenue from sale of goods is recognized when the significant risks and rewards of ownership have been transferred to the buyer, recovery of the consideration is probable, the associated cost can be estimated reliably, there is no continuing effective control or managerial involvement with the goods, and the amount of revenue can be measured reliably.

Revenue from sale of goods is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duties collected on behalf of the government.

Interest income is recognized on time proportion method.

D.E.P.B. and DFRC (Balance) licenses at market rate. Export Incentives are accounted on Entitlement basis.

Dividend Income is recognized when the unconditional right to receive the income is established.

b) Borrowing Cost:

Borrowing costs that are directly attributable to the acquisition or construction of qualifying assets are capitalized as part of the cost of such assets. A qualifying asset is one that necessarily takes substantial period of time to get ready for its intended use. Borrowing costs includes exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost.

All other borrowing costs are recognized in profit and loss in the period in which they are incurred.

c) Tax Expenses:

The tax expense for the period comprises current and deferred tax.

Current tax

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities, based on tax rates and laws that are enacted or substantively enacted at the Balance sheet date.

Deferred Tax

Deferred tax is recognized on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realized, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period. The carrying amount of deferred tax liabilities and assets are reviewed at the end of each reporting period

d) Employee Benefit:

Short Term Employee Benefits

The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees are recognized as an expense during the period when the employees render the services.

Long Term Employee Benefits

Liabilities recognized in respect of other long- term employee benefits such as Gratuity, is measured at the present value of the estimated future cash outflows expected to be made by the company in respect of services provided by employees up to the reporting date.

Post-Employment Benefits-

i) Defined Contribution Plans

A defined contribution plan is a post-employment benefit plan under which the company pays specified contributions to a separate entity. The company makes specified monthly contributions towards Provident Fund and Pension Scheme. The company's contribution is recognized as an expense in the Statement of Profit and Loss during the period in which the employee renders the related service.

ii) Defined Benefit Plans

For defined benefit plans, the cost of providing benefits is determined using the projected unit credit method, with actuarial valuation being carried out at the end of each annual reporting period. Re-measurement, comprising actuarial gains and losses and the return on plan assets (excluding net interest), is reflected immediately in the balance sheet with a charge or credit recognized in the statement of profit and loss in the period in which they occur. Net interest is calculated by applying the discount rate at the beginning of the period to the net defined benefit liability or asset.

Defined benefit costs are categorized as follows:

- i) Service cost
- ii) Net interest expense or income
- iii) Re-measurement

e) Property, Plant and Equipment (Fixed Asset, Depreciation & Amortization):

Property, plant, and equipment (Fixed Assets) are stated at cost, net of recoverable taxes, trade discounts, and rebates, less accumulated depreciation and impairment losses, if any. Such cost includes the purchase price, borrowing costs, and any costs directly attributable to bringing the assets to their working condition for their intended use, net changes on foreign exchange contracts, and adjustments arising from exchange rate variations attributable to the assets.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the entity and the cost can be measured reliably.

Depreciation is charged on a pro-rata basis at the straight-line method over estimated economic useful lives of its property, plant, and equipment generally in accordance with that provided in Schedule II to the Act.

f) Inventories:

Raw materials, stock-in-process, and stores are valued at cost. Inventory of finished goods is measured at the lower of cost and net realizable value after providing for obsolescence, if any, except in the case of by-products, which are valued at net realizable value.

The cost of inventories comprises the cost of purchase, cost of conversion, and other costs, including manufacturing overheads net of recoverable taxes incurred in bringing them to their respective present location and condition.

g) Impairment of non-financial assets-Property, Plant and Equipment (Fixed Assets):

The company assesses at each reporting date whether there is any indication that any property, plant, and equipment or group of assets, called cash-generating units (CGU), may be impaired. If it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the CGU to which the asset belongs.

An impairment loss is recognized in the Statement of Profit and Loss to the extent the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less cost of disposal and its value in use. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and risk specific to the assets.

The impairment loss recognized in a prior accounting period is reversed if there has been a change in the estimate of recoverable amount

h) Foreign currencies transaction and translation:

Transactions in Foreign currencies are recorded at the exchange rate prevailing on the date of transaction. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency closing rates of exchange at the reporting date.

Exchange differences arising on settlement or translation of monetary items are recognized in Statement of Profit and Loss except to the extent of exchange differences which are regarded as an adjustment to interest costs on foreign currency borrowing.

That are directly attributable to the acquisition or construction of qualifying assets, are capitalized as cost of assets.

i) Cash flow statement:

Cash flows are reported using the indirect method, whereby profit/ (loss) after tax is adjusted for effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipt or payments. The cash flows from operating, investing and financing activities of the company are segregated based on the available information.

j) Earnings per share:

Basic earnings per share is computed by dividing the profit after tax by weighted average number of equity shares outstanding during the year.

Diluted earnings per share is computed by dividing the profit after tax as adjusted for interest and other charges to expense or income relating to dilutive potential equity shares, by the weighted average number of equity shares considered for deriving earning per share.

k) Investment:

Non-Current Investments are stated at cost price. Provision for diminution in the value of non-current investment is made only if such a decline is other than temporary in the opinion of the management.

l) Contingent liability:

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non - occurrence of one or more uncertain future events beyond the control of the company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably.
