# MANAGEMENT DISCUSSION AND ANALYSIS REPORT

This Management Discussion and Analysis Report discusses and analyses the performance for the year ended 31<sup>st</sup> March 2024.

## **INDIAN ECONOMY:**

The government's economic policy focus was to restore India's growth potential by getting the financial sector back on track, facilitating economic activity by easing conditions for business, and massively augmenting physical and digital infrastructure to enhance India's connectivity and, thus, the competitiveness of its manufacturing sector. With this vision to guide its policies, the government has undertaken diverse economic reforms to prepare the economy to grow at its potential by creating a business-friendly environment, improvising ease of living, and strengthening the governance systems and processes. The emphasis of the reforms for the private sector has not just been on large businesses. The progressive reforms introduced by the government for the Micro, Small, and Medium Enterprises (MSME) sector have supported smaller businesses to recover from the impact of the pandemic and grow further.

A common thread through all the reforms undertaken during the last ten years has been the use of technology and digital platforms. India's digitalization reforms and the resulting efficiency gains in terms of greater formalization, higher financial inclusion, and more economic opportunities stand as a model for other economies to follow. Digital infrastructure has enabled the creation of digital identities, improved access to finance, access to markets, reduced transaction costs, and improved tax collection and has provided the foundation for sustained and accelerated economic growth this decade.

## **OVERALL REVIEW OF OPERATIONS OF THE COMPANY:**

The Company is engaged in the business of providing platforms for enterprise voice and integration with video cloud to global telecom service providers. After the second wave of the pandemic the company was looking good and the management thought that the company is back on track, but the new companies are coming and providing some of the services for free because of that the turnover of the company has gone down from Rs. 8.03 Crores in the financial year 2022-23 to Rs. 6.78 Crores. The operational profits have also gone down for the company.

## **INDUSTRY STRUCTURE AND DEVELOPMENTS:**

The global cloud telephony services market is expected to reach US\$ 24.68 billion in 2024, as revealed in an updated research report by FactMR. Worldwide revenue from the sales of cloud telephony services is forecasted to rise at a CAGR of 9.2% and reach US\$ 59.5 billion by 2034.

## **INDUSTRY ECOSYSTEM**

Rising adoption of advanced technologies, such as IoT, ML, and AI in corporate spaces and growing preference for cloud-based solutions are making it more feasible to establish communication with customers and end users. Increased storage space, 24x7 availability, scalability, and flexibility of cloud telephony services are helping companies improve operational efficiency. This system works on different VoIP (voice over internet protocol) phone systems and networks for streamlining business communication.

## **COMPETITIVE INSIGHT**

Increasing use of cloud telephony is helping enhance customer experience. More corporate spaces are installing these systems to increase the efficiency of communication by shifting operations to online mediums. Moreover, with the constant increase in the upgradation of corporate structure along with surging requirements for effective and better customer support, a rising demand for cloud telephony is witnessed.

Major players in the cloud telephony market are concentrating on launching new products to earn major revenue from early adopters of the adoption cycle which is further improving the quality of their offerings and gaining a competitive advantage. Also, it has been observed that key players in the cloud telephony service market are depending upon new technology by increasing investment in R&D activities to develop cost efficiencies, thereby increasing the rivalry in the market to some extent.

## **OPPORTUNITIES AND THREATS:**

An increasing number of retailers today rely entirely on digital communication. They chose cloud-based telephony because it provides them with a highly customizable solution to quickly and easily deploy in branch offices. Each extension can thus be reached reliably at any location and on any device. Simultaneously, the cloud is the ideal platform for Unified Communications (UC) and data-driven marketing. Cloud-based communication solutions also offer advantages in terms of data security and reliability, as the providers are generally in a better technical position than the company's own IT.

Some of the key factors responsible for expanding the cloud telephony services market size include the increasing requirements for better feedback and response systems, remote working, and telecommunication solutions. Several medium and small-sized businesses are looking for telecommunication solutions for disseminating information about their services and products themselves. This is one of the prominent reasons for the expansion of the global market, which is contributing to increased demand for IP telephony services offering better bandwidth and connectivity to telecom vendors.

Lack of knowledge about cloud telephony service tools, interoperability, security concerns, and less suppleness of this technology for all kinds of business models is the challenge for the expansion of the cloud telephony service industry. This technology also requires improved visibility and accessibility through appropriate marketing channels that make cloud telephony services more expensive and less attractive.

But opportunities always give rise to competition and that's why the industry is becoming competitive. There are new companies coming up in this segment. Some of them are working at large scale. But despite the stiff competition, the focus of the Company will remain on the redemption of the available opportunities.

#### **OUTLOOK:**

We are witnessing a tectonic change in the business environment of unified conferencing, and We believe the growth in revenues and profitability in this domain will witness challenging times. Hence at a certain juncture we need to close this voice platform business and transition to new growth opportunities. To navigate this business challenge, your management has decided to invest in R&D for newer domains like the design of power controllers. We shall be investing in resources to design the controllers which control the electrical devices. Accordingly, the teams shall be resourced for manpower, equipment's and alliances. This is an upcoming new growth stream in power efficiency of electrical devices and holds a promising future.

We are also investing in a new software platform for global auditors to streamline online audit of organizational processes to confirm global statutory guidelines. It is in nascent stage of development in collaboration with a third party who have domain expertise on audit.

As informed last year your management has invested in R&D in the design of power controllers for air conditioners and similar appliances. This is an ongoing process and shall require further investments in resources to design the controllers and the capex associated with it. The final product may take 18-24 months to design and test in field environments.

#### **INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY:**

The Company has a proper and adequate internal control system to ensure that all assets are safeguarded and protected against loss from unauthorized use or disposition and those transactions are authorized, recorded and reported correctly. Internal control is exercised through documented policies, guidelines and procedures. It is supplemented by an extensive program of internal audits conducted by Internal

Auditor appointed in pursuance of applicable Laws. The audit observations and corrective action taken thereon are periodically reviewed by the audit committee to ensure effectiveness of the internal control system. Internal control is designed to ensure that the financial and other records are reliable for preparing financial statements and other data, and for maintaining accountability of persons.

**FINANCIAL AND OPERATIONAL PERFORMANCE:**

The financial statements have been prepared in compliance with the requirements of the Companies Act, 2013 and Generally Accepted Accounting Principles in India. Please refer to the Directors' Report in this respect.

### **Information Other than the Financial Statements and Auditor's Report Thereon**

The Company's Board of Directors is responsible for the preparation and presentation of its report (herein after called as "Board Report") which comprises various information required under section 134(3) of the Companies Act 2013 but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

### **Management's Responsibility for the Financial Statements**

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance of the Company in accordance with the AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters

related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Company's financial reporting process.

### **Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report.

- However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

## **Annexure - A to the Auditors' Report**

(Referred to in paragraph 1(l) under 'Report on Other Legal Regulatory Requirements' section of our report to the Members of the Company of even date)

### **Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")**

We have audited the internal financial controls over financial reporting of **VIVO COLLABORATION SOLUTIONS LIMITED** ("the Company") as of 31 March 2024 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

#### **Management's Responsibility for Internal Financial Controls**

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

#### **Auditors' Responsibility**

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating

effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

### **Meaning of Internal Financial Controls over Financial Reporting**

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

### **Inherent Limitations of Internal Financial Controls Over Financial Reporting**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

## Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2024, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.
