### 22. Voting Through Electronic Means:

- a) Pursuant to the provisions of Section 108 and other applicable provisions, if any, of the Companies Act, 2013 read with the Companies (Management and Administration) Rules, 2014, as amended, and Regulation 44 of the SEBI (Listing Obligations and Disclosure
  - Requirements) Regulations, 2015 (Listing Regulations), the Company is pleased to provide to its members a facility to exercise their right to vote on resolutions proposed to be passed at the Meeting by electronic means ("e-voting"). The members may cast their vote(s) using an electronic voting system from a place other than the venue of the Meeting ('remote e-voting').
- b) The facility for voting through electronic voting system ('Insta Poll') shall be made available at the Meeting and the members attending the Meeting who have not cast their vote by remote e-voting shall be able to vote at the Meeting through 'Insta Poll'.
- c) The members who have cast their vote by remote e-voting may also attend the Meeting but shall not be entitled to cast their vote again.
- d) The Company shall also provide facility for voting through ballot form/polling paper which shall be available at the meeting and members attending the meeting who have not already casted their vote by remote e-voting shall be able to exercise their right to vote at the meeting.
- e) The Company is providing facility for voting by electronic means to its members to enable them to cast their votes through such voting. The Company has engaged the services of Central Depository Services Limited ("CDSL") as the Authorised Agency to provide remote e-voting facility (i.e. the facility of casting votes by a member by using an electronic voting system from a place other than the venue of a general meeting).
- f) The cut-off date for the purpose of voting (including remote e-voting) is 21st September, 2024.
- g) Remote e-voting facility will be available during the following period:

Commencement of remote e-voting	25th September, 2024 at 09:00 A.M IST
Conclusion of remote e-voting	27th September, 2024 at 05:00 P.M IST

Please note that remote e-voting will not be allowed beyond the aforesaid date and time and the e-voting module shall be disabled upon expiry of aforesaid period.

- h) The Scrutinizer, after scrutinizing the votes cast at the meeting (Insta Poll) and through remote evoting, will, not later than three days of conclusion of the Meeting, make a consolidated scrutinizer's report and submit the same to the Chairman. The results declared along with the consolidated scrutinizer's report shall be placed on the website of the Company <a href="www.ascomfinance.com">www.ascomfinance.com</a>. The results shall simultaneously be communicated to the Stock Exchanges.
- i) The shareholder needs to furnish the printed Attendance slip along with a valid identity proof such as the PAN card, passport, AADHAR card or driving license to enter the AGM hall

### j) THE INTRUCTIONS OF SHAREHOLDERS FOR REMOTE E-VOTING:

- **Step 1** : Access through Depositories CDSL/NSDL e-Voting system in case of individual shareholders holding shares in demat mode.
- **Step 2** : Access through CDSL e-Voting system in case of shareholders holding shares in physical mode and non-individual shareholders in demat mode.
- (i) The voting period begins on 25th September, 2024 at 09:00 A.M IST and ends on 27th September, 2024 at 05:00 P.M IST. During this period shareholders of the Company, holding shares either in physical form or in dematerialized form, as on the cut-off date i.e 21st September, 2024. may cast their vote electronically. The e-voting module shall be disabled by CDSL for voting thereafter.
- (ii) Shareholders who have already voted prior to the meeting date would not be entitled to vote at the meeting venue.
- (iii) Pursuant to SEBI Circular No. **SEBI/HO/CFD/CMD/CIR/P/2020/242 dated 09.12.2020,** under Regulation 44 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, listed entities are required to provide remote e-voting facility to its shareholders, in respect of all shareholders' resolutions. However, it has been observed that the participation by the public non-institutional shareholders/retail shareholders is at a negligible level.

Currently, there are multiple e-voting service providers (ESPs) providing e-voting facility to listed entities in India. This necessitates registration on various ESPs and maintenance of multiple user IDs and passwords by the shareholders.

In order to increase the efficiency of the voting process, pursuant to a public consultation, it has been decided to enable e-voting to all the demat account holders, by way of a single login credential, through their demat accounts/ websites of Depositories/ Depository Participants. Demat account holders would be able to cast their vote without having to register again with the ESPs, thereby, not only facilitating seamless authentication but also enhancing ease and convenience of participating in e-voting process.

- **Step 1** : Access through Depositories CDSL/NSDL e-Voting system in case of individual shareholders holding shares in demat mode.
- (iv) In terms of SEBI circular no. SEBI/HO/CFD/CMD/CIR/P/2020/242 dated December 9, 2020 on e-Voting facility provided by Listed Companies, Individual shareholders holding securities in demat mode are allowed to vote through their demat account maintained with Depositories and Depository Participants. Shareholders are advised to update their mobile number and email Id in their demat accounts in order to access e-Voting facility.

Pursuant to abovesaid SEBI Circular, Login method for e-Voting for Individual shareholders holding securities in Demat mode CDSL/NSDL is given below:

# MANAGEMENT DISCUSSION AND ANALYSIS REPORT

#### **Global Economic Overview:**

Global growth is forecast to slow from the 3.1% 2023 pace to 2.9% in 2024 and rebound to 3% next year. Inflation is expected to continue to cool, although in many countries the price pressure will take longer to unwind than it took to emerge.

Geopolitical uncertainty is elevated, with nearly half of the world's population already voting or heading to the polls this year. Hot wars and trade tensions are flaring, which could fuel more isolationist policies. The resulting risk is more frequent bouts of inflation and activist monetary policies.

A slower expected glide path on rate cuts by the U.S. Federal Reserve, which plays an outsized role in global financial markets, will have a larger impact on rate decisions by developing economies. These markets are more sensitive to the exchange rate movements than we have seen in the past. Weakening currencies relative to the U.S. dollar are inflationary for those economies. To further complicate matters, foreign exchange markets have been reacting to unexpected election outcomes.

Global Forecast			
	2023	2024	2025
GDP	3.1%	2.9%	3.0%
Inflation	6.4%	4.9%	3.4%
Unemployment Rate	5.4%	5.6%	5.7%
	3.4 /6	3.0 %	3.7 /6
GDP & Inflation: Average annual percent change			
Unemployment Rate: Annual average			
GDP: Purchasing power parity			

Between interest rate uncertainty and the elections, business leaders remain hesitant to engage in major investment projects. Consumers are cutting back on financed goods due to elevated rates, while governments face higher financing costs as debt rolls over at higher interest rates.

Friend-shoring, re-shoring and near-shoring are reshuffling supply chains as producers hedge against geopolitical risk, often at higher costs. The conflict in the Middle East has caused seaborne trade to be rerouted, while higher-than-expected demand and weather have also increased shipping costs. The National Atmospheric and Oceanic Administration expects a record number of major storms for 2024, which will only add to shipping times and snarled travel.

Prospects for 2025 are better, with inflation expected to return towards target and central banks more confident to cut policy rates from the current restrictive levels. The silver lining is a tailwind for big-ticket consumer purchases and business investment. Mergers and acquisitions activity could also gather steam, as financial conditions ease and dry powder is deployed. However, the uncertainty remains around the policy shifts, which will likely fuel more insular and protectionist policies.

The much-vaunted productivity boost from generative artificial intelligence (GenAI) is unlikely to appear at the global level for several years. One of the largest hurdles is the energy needed to run the large language models. Those costs could exacerbate inequality between the developed and developing economies. While advances in AI could also disrupt the labor markets during the transition period, our forecast is nonetheless consistent with a broadly stable unemployment rate globally.

#### **Indian Economic Overview:**

India took a big economic leap this leap year: The country ended fiscal year 2023 to 2024¹ with a big bang, surpassing all market estimates of GDP, with 8.15% year-over-year (YoY) growth. For three consecutive years, India's economy has exceeded growth expectations (averaging 8.3% annual growth over this period) despite global uncertainties, driven by strong domestic demand and continuous government efforts toward reforms and capital expenditure.

Optimism prevails, as highlighted by a Deloitte pre-budget expectation survey, which shows high confidence among industry leaders in India's continued robust growth. With prevalent signs of the rural economy rebounding, strong growth in manufacturing, robust bank balance sheets and credit growth, and stronger exports in services and high-value manufacturing, there is confidence that India's underlying potential will help it outpace growth in the rest of the world.

India's GDP grew 8.15% YoY over fiscal 2023 to 2024, with a sharp growth of 7.8% in the fourth quarter of 2023, beating the government's second advanced estimate of 7.6% and Reserve Bank of India's (RBI) estimate of 7.3%. Fourth-quarter economic activities pointed to three interesting trends: improvement in private consumption, exports, and manufacturing.

Firstly, **private consumption** spending fared better last year than reported earlier. There were upward revisions to the third-quarter data, suggesting consumers spent more generously in the quarter of festivals and the Cricket World Cup than previously believed. Third-quarter GDP growth was revised to 8.6%, up from the earlier estimate of 8.4%, on the back of a 50-basis point upward revision of private consumption spending. That said, private consumption growth remained capped at 4.03% over fiscal 2023 to 2024, owing to modest growth in the agriculture sector and persistent inflation that weighed on rural demand.

Secondly, Indian **exports** surged by an impressive 8.1% YoY in the fourth quarter—the highest this fiscal year. Merchandise exports improved remarkably that quarter (even though the quarter's performance could not prevent annual merchandise export growth from contracting). Notably, high-value manufactured goods like pharmaceuticals, chemicals, engineering products, and electronics achieved record export levels this quarter, propelling overall growth in merchandise exports in the high value-added segment. This positive trend bodes well for India as it aims to strengthen its integration into the global value chain and increase its exports to US\$2 trillion over the next six years. Growth in the traditional basket of exports, however, continued to decline.

Finally, 8.9% growth in **manufacturing** that quarter points toward sustained momentum. The index of industrial production also hinted at a strong revival in the sector.

### **NBFC Industry Overview:**

The Non-Banking Financial Companies (NBFCs) sector in India has undergone remarkable growth, establishing itself as a significant player within the country's financial landscape. Also, the space as a whole, has witnessed notable transformations ever since its emergence, with segments such as housing finance, microfinance and consumer finance contributing to its expansion. This growth is driven by various factors, such as a rising middle class, enhanced financial inclusion and positive policy interventions.

In light of the above background, we would like to present a report titled, 'NBFC's in India: Growth and Stability' put together by KPMG in India and CII which was launched at the 6th CII NBFC Summit in Mumbai on 9th Feb'24. The report offers a holistic view of the existing NBFC landscape in India along with touching upon aspects like its drivers for development and expansion. It also delves into the role and impact that technology, data and analytics have had on the space throughout the entire value chain of NBFCs along with aspects like emergence of super apps, digital sourcing, and partnerships etc.

Additionally, it also highlights the significance of digital tools in collections, fraud management, cyber and data security in the NBFCs space along with challenges they are confronted with and the strategies that can be adopted to thrive in this competitive scenario in India.

### **Overview of Underlying Segments:**

### Loan against properties (LAP) & Small & medium enterprises (SME) loans:

The Indian Loan Against the Property Market is forecast to grow at a CAGR of over 14% in value terms to reach USD857.87 billion by FY2026. These loans offer large sums with low rates of interest along with longer tenures for repayment, thus driving the market. Loan against property works in favor of the borrower's wishes as the borrower remains the owner of the property by law during the loan tenure and is entitled to repay the loan according to his/her financial condition, further attributing to the growth of the India Loan Against Property Market. Furthermore, loan against property can be taken for medical emergencies, education, marriages, starting/expanding business, and other family needs by providing a large amount of money.

The India Loan Against Property Market is segmented based on property type, type of loan, interest rate, source, tenure, region, and company. Based on the source, the market is further bifurcated into bank and housing finance companies (HFCs). Among these, the bank segment dominated the market in FY2020, and the trend is likely to continue until FY2026 as they provide lower interest rates along with benefitting the customers with myriad lucrative loan schemes. Based on the type of loans, the market is further fragmented into personal loan, business loan, building & construction loan, and others. Among these, a business loan is expected to dominate the market during the forecast period, closely followed by building & construction loans as most of the small and medium-sized enterprises demand funds for business and capital purposes.

Small and Medium Enterprises (SMEs) are integral to the Indian economy, driving innovation, employment, and economic growth. The 2024 Budget introduces comprehensive measures aimed at enhancing SME growth and sustainability, underscoring the government's commitment to supporting this vital sector. This blog explores the significant **funding opportunities** and **financial support programs** available for SMEs, highlighting how these initiatives can catalyze business development and success in India.

Some small non-banking financial companies (NBFC) are likely to increase their share of co-lending loans to micro, small and medium enterprises (MSME), housing and green energy while cutting their co-lending exposure to personal loans, experts said. This is due to personal loans attracting a higher risk-weight after the recent rule changes by the Reserve Bank of India (RBI).

Co-lending or co-origination is a set-up where banks and non-banks enter into an arrangement for the joint contribution of credit for priority sector lending. And large banks like the State Bank of India (SBI) and HDFC Bank have a large number of co-lending partners.

A report by ratings agency CRISIL showed that co-lending assets under management (AUM) of NBFCs is nearing Rs 1 lakh crore after more than five years since the model came into being. It highlighted that out of the current overall co-lending book, personal loans alone account for about a third of the AUM, followed by housing loans at around 20 percent and unsecured MSME loans and gold loans each making up about 13 percent. Secured MSME (including loan against property) and vehicle loans comprise about 20 percent.

#### Gold Loan:

The gold loan market in India remains largely untapped. According to a report by investment banking and capital market firm Jefferies organized gold financiers account for just 5-6 per cent of the country's household gold tonnages and 40 per cent of the gold loan business. The report suggests a significant portion, around 60-65 per cent of gold loans still happen through unorganized channels.

Agri Gold loans and Non-Banking Financial Companies (NBFCs) each accounts for 14 per cent of the gold loan portfolio, and banking channels give about 7 per cent of gold loans. However, over the past decade, the organized gold loan market has seen steady growth, with the total assets under management (AUM) rising by 12 per cent annually to reach approximately Rs 6.2 trillion as of March 2023.

This growth has been mainly driven by formal lenders like banks and Non-Banking Financial Companies (NBFCs), which have expanded their reach and offered more competitive interest rates, ranging from 9-26 per cent, compared to the 25-45 per cent charged by unorganized lenders.

Banks have been traditionally dominated the organized gold loan market, holding over 75 per cent of the market share. Nearly 80 per cent of these are given for agricultural gold loans. The Jeffries report says that while the market structure is favourable, the growth of gold loans has historically been closely tied to gold prices. Leading gold NBFCs have seen their gold loans grow at a rate of 12 per cent annually over the last decade. However, the growth in customer numbers and the amount of gold pledged has been slower, at just 1-3 per cent annually. This is partly because of the limited geographic reach of gold loan branches and high costs associated with expanding branch networks.

Jeffries suggest that despite these challenges, higher gold prices are expected to support stronger loan growth in the future. Gold prices tend to rise when real interest rates are low, making gold a more attractive investment. Even though real interest rates have increased recently, gold prices have remained strong, driven by factors like buying by central banks, geopolitical uncertainties, and concerns about the U.S. fiscal deficit. Central banks around the world have been buying gold in record amounts, with net purchases reaching 1,082 tons in 2022 and 1,037 tons in 2023.

#### Vehicle

The vehicle financing assets under management (AUM) for non-banking financial companies (NBFCs) is expected to touch Rs 8.1 trillion in 2024-25 from Rs 5.9 trillion in 2022-23. This will mark a compound annual growth rate of 17 per cent. The growth in AUMs will be driven by rising demand for commercial vehicles (CVs), cars, utility vehicles (UVs), and two-/three-wheelers, accompanied by bigger ticket financing and the government's focus on infra spending. Currently, CVs hold the lion's share in vehicle financing AUM, constituting around 50 per cent as of March 31, 2023. It is followed by cars/UVs at 29 per cent, two- and three-wheelers at 11 per cent and tractors at 10 per cent.

"CV finance is seen growing 12-14 per cent per annum over 2023-25, propelled by growth in end-user industries such as cement, steel and consumer durables. Financing of cars/UVs and two-/three-wheelers will also see robust growth of 23-25 per cent per annum because of rising sales of premium models and the large-scale replacement volume expected for two-wheelers.

The AUM growth has also been fuelled by used vehicle financing as increasing prices of new vehicles spur demand for used ones. "Consequently, the share of used-vehicle financing rose to 40 per cent from 33 per cent in the past four years, clocking a CAGR of 13 per cent vis-a-vis 4 per cent for new-vehicle financing during the period. the asset quality will continue to improve, too, amidst sustained macroeconomic activity. Consequently, profitability will remain stable, buoyed by declining credit costs, even as higher borrowing costs over the past few quarters could compress the net interest margin.
