None of the Directors or Key Managerial Personnel or their relatives, are concerned or interested, financially or otherwise, in this Resolution.

The Board recommends the Ordinary Resolution set out at Item No. 4 for the approval of Members.

Item No 5: To approve the appointment of Mr. Sanjay Pitliya (DIN 09851606) as an Independent Director of the Company

Pursuant to Sections 149, 161 and other applicable provisions of the Companies Act, 2013 read with Articles of Association of the Company, and pursuant to the recommendation of the Nomination and Remuneration Committee, it is proposed to appoint **Mr. Sanjay Pitliya (DIN 09851606)** as the Independent Director of the Company for a term of five (5) years with effect from September 28, 2024 to September 28, 2029 (both days inclusive) subject to the approval of the shareholders through a Special Resolution.

As per Regulation 17(1C) and 25(2A) of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, the Company is required to obtain approval of shareholders for appointment of a person on the Board of Directors through a special resolution.

The Company has received, inter alia, the following with regard to the proposed appointment:

i. Consent in writing from Mr. Sanjay Pitliya (DIN 09851606) to act as Director in Form DIR 2 pursuant to Rule 8 of the Companies (Appointment & Qualification of Directors) Rules, 2014 ('Appointment Rules').

- ii. Intimation in Form DIR 8 in terms of the Appointment Rules to the effect that he is not disqualified under sub-section (2) of Section 164 of the Act.
- iii. Declaration to the effect that he meets the criteria of independence as provided in sub-section (6) of Section 149 of the Act and under LODR Regulations.
- iv. Declaration pursuant to BSE Circular No. LIST/COMP/14/2018-19 dated June 20, 2018, and NSE Circular No. NSE/ CML/2018/24 dated June 20, 2018 that he has not been debarred from holding office of a Director by virtue of any order passed by the SEBI or any other such authority and
- v. A notice in writing from a member proposing his candidature under Section 160(1) of the Act.

Mr. Sanjay Pitliya has confirmed that he is not aware of any circumstance or situation which exists or may be reasonably anticipated that could impair or impact his ability to discharge his duties as an Independent Director of the Company.

Further, Mr. Sanjay Pitliya has confirmed that he is in compliance with Rules 6(1) and 6(2) of the Companies (Appointment and Qualification of Directors) Rules, 2014, with respect to his registration with the data bank of Independent Directors maintained by the Indian Institute of Corporate Affairs

In the opinion of Board and the Nomination and Remuneration Committee, the skills, expertise, and competencies required for the role of Independent Director within the context of the Company's business include substantial management experience, proficiency in diverse functional and managerial capacities, a steadfast commitment to diversity, alignment with strong personal values, and a nuanced understanding of corporate governance, among other key competencies.

In the opinion of the Board, Mr. Sanjay Pitliya fulfills conditions for independence specified in the Act, the Rules made thereunder and the LODR Regulations and such other laws/regulations for the time being in force, to the extent applicable to the Company.

A copy of the letter for the appointment of Mr. Sanjay Pitliya as an Independent Director setting out the terms and conditions is available for inspection.

The resolution set out herein seeks the approval of members for the appointment of Mr. Sanjay Pitliya as Director in the capacity of Independent Director of the Company from September 28, 2024 to September 28, 2029 (both days inclusive) pursuant to Sections 149, 152 and other applicable provisions of the Act and the Rules made thereunder (including any statutory modification(s) or reenactment(s) thereof) and he shall not be liable to retire by rotation.

The profile and specific areas of expertise of Mr. Sanjay Pitliya and other relevant information as required under SEBI LODR Regulations and SS-2 are provided as annexure to this notice.

INDUSTRY OVERVIEW

The global kitchen appliances market is projected to grow at 4%-5% CAGR by the year 2027. Globally, Asia Pacific has emerged as booming region along with Europe.

The key growth drivers for global kitchen appliances demand is growing world's population, rapid urbanization and exponential growth in household sector in emerging economies and increase in disposable income. According to the United Nations (UN), the world's population stood at 7.9 billion in the year 2021 and expected to touch 9.7 billion in the year 2050.

With this, kitchen appliances market is expected to witness steady growth as kitchen will continue to be essential center for domestic activities propelling the demand for kitchen appliances globally.

OVERVIEW ON INDIAN KITCHEN APPLIANCES INDUSTRY

The Indian Consumer Durable Industry (which includes domestic appliances and consumer electronics) is forecasted to double its market value in next 3 years and expected to reach around USD 18 billion (around Rs. 1.4 trillion) by the year 2050, according to the Consumer Electronics and Appliances Manufacturers Association (CEAMA). CEAMA is also optimistic to make India the alternative hub for exports.

The kitchen appliances industry in India is projected to grow at a compound annual growth rate (CAGR) of 9.0% from 2022 to 2026 in terms of volume. This growth is driven by technological advancements, cost and energy efficiency improvements, and increased product awareness, which are spurring demand from tier-II and tier-III cities. The surge in demand for branded and modern kitchen appliances, fueled by higher disposable incomes and changing lifestyles, particularly among working women, is contributing to this growth. Additionally, the expansion of the food industry, including retail shops, restaurants, and cafes, is positively impacting the kitchen appliances sector. The rise of online retailing is also boosting the market by providing a new distribution channel to capture sales and meet consumer demand effectively.

KEY DEMAND DRIVERS OF THE INDUSTRY:

The demand for a wide range of kitchen appliances is growing as a result of the ongoing increase in disposable income and technological innovation in India. This in turn is fuelling fierce competition among the various kitchen appliances brands that are available across the country.

• INCREASING DISPOSABLE INCOME

Rising disposable incomes are accelerating demand and boosting the kitchen appliances sector in India. Increased per capita income drives consumers to improve their lifestyles. Effective marketing, peer influence, and competition are fueling the growth of the fast-moving consumer durable (FMCD) industry.

URBANISATION

Urbanization drives significant growth in India's kitchen appliances industry. Rapid urbanization, more nuclear families, and a rising middle class with higher disposable incomes boost demand. Urban areas, including Tier-II and Tier-III cities, feature increased purchasing power, high internet use, and a brand-conscious youth. Major cities like Delhi, Mumbai, and Kolkata are expected to house 100 million people, further increasing demand for kitchen appliances. Urbanization also stimulates organized retail growth, altering consumer behavior and boosting overall retail spending, with a significant portion allocated to food.

FAVOURABLE DEMOGRAPHICS AND INCREASING DOMESTIC CUSTOMER BASE

India, with 1.3 billion people and an average age of 29, is the world's second-most populous country and has one of the youngest populations. This demographic advantage could drive significant growth in the kitchen appliances industry as the young workforce enters the market. The increasing number of working women, a growing urban youth population, and rising education levels are expected to boost consumer spending and demand for kitchen appliances. In 2021, approximately 67% of India's population, or 950 million people, were aged 15-64.

CONSUMER BEHAVIOUR

Customer behavior has shifted towards high-value, technologically advanced kitchen appliances with premium features, driven by health trends, home-cooked meals, and remote work. There is growing demand for sustainable, energy-efficient products with AI, prompting manufacturers to innovate. Consumer spending has increased over the past decade, with home appliances now representing 0.1% of total expenditure.

• <u>EASY-AVAILABILITY OF FINANCING</u>

Consumer financing has become a major driver in the consumer durables industry. Retailers are providing easy financing options to consumers by partnering with banks. The easy-availability of consumer financing is beneficial mainly for the lower- and middle-income group, especially when the cost of capital and flexibility of the scheme is in their favour.

• SHIFT TOWARDS DIGITAL PLATFORMS

Digital shopping platforms and secure online payments are driving growth in the sector. E-commerce influences consumers who often research and compare products online before buying offline. With over 70% of India's population in rural areas, government initiatives like "Make India Digital" and lower internet and smartphone costs are boosting consumer durable sales. Increased internet access, smartphone use, and digital literacy are advancing e-commerce and digital payments, expanding brand reach to Tier-II and Tier-III cities.

• GROWING E-COMMERCE PENETRATION

India is expected to become the world's fastest growing e-commerce market, driven by robust investment in the sector and rapid increase in the number of internet users. The major contributor to e-commerce retail sales are consumer electronics and apparels followed by food & grocery, jewellery, furniture and others.

The Indian government aims to build a billion-dollar online economy by 2025 through its 'Digital India Campaign.' As of December 2022, India had over 800 million internet users, according to the Ministry of Electronics and Information Technology (MeITY). Internet usage grew by 4.3% year-on-year in 2021, reaching 829.3 million, despite a slowdown in the shift from 2G to 4G due to rising smartphone prices. In 2022, new mobile internet subscribers fell by 40-45% because of higher base smartphone costs, but the rollout of 5G is making smartphones more affordable and could boost upgrades to 5G services..

The growth of online retail platforms, including e-commerce and social media, presents significant opportunities for market players. E-commerce enhances efficiency and reliability for businesses, making an online presence crucial for kitchen appliance companies to stay competitive globally. Online sales channels facilitate product visibility and provide valuable customer insights for future marketing.

• **GROWING INVESTMENTS**

The players of the kitchen appliances industry are making investments across their portfolios with the growing domestic and exports demand. Rapid expansion of the food industry and the growing use of advanced technology in built-in kitchen appliances is accelerating the demand for built-in kitchen appliances amongst consumers. Players like Whirlpool of India Ltd., Samsung India Electronics Private Limited, Haier Smart Home Co. Ltd., Bajaj Industries Ltd, Philips India Limited, Samsung India Electronics Pvt. Ltd., Sunflame Enterprises (P) Ltd., TTK Prestige Limited are making investments across their portfolios to meet the increasing demand for kitchen appliances.

GOVERNMENT INITIATIVES AND POLICIES

The Indian Government has taken several initiatives to augment the growth of the kitchen appliances sector. Some of these initiatives are Make in India Initiative, Pradhan Mantri Ujjwala Yojana (PMUY), Deen Dayal Upadhyaya Gram Jyoti Yojana, Pradhan Mantri Sahaj Bijli Har Ghar Yojana — Saubhagya Scheme — Rural Electrification, National Policy on Electronics Policy, PLI Schemes. These initiatives and policies are expected to augment the growth of the kitchen appliance sector.

OUR COMPETITIVE STRENGTHS

A One Stop Shop For Kitchen Solutions With A Diverse Range Of Products Across Consumer Preferences

We started as a small trading company in kitchen appliances and have grown into a manufacturer offering a wide range of products, including gas stoves, pressure cookers, mixer grinders, wet grinders, electric rice cookers, induction cooktops, non-stick cookware, kettles, hose pipes, gas cylinder trolleys, and spin mops. Our brand, Greenchef, caters to diverse budgets and lifestyles in the Indian kitchen appliances market. Through co-branding with major oil companies like Indian Oil, Hindustan Petroleum, and Bharat Petroleum, our gas stoves have achieved extensive reach. The Ministry of Petroleum and Natural Gas' 'Pradhan Mantri Ujjwala Yojana' (PMUY) aims to provide clean LPG cooking fuel to rural households, boosting sales for kitchen appliance manufacturers.

We have secured 17 design registrations for products such as mixer grinders, wet grinders, and gas stoves, reinforcing our commitment to diversification. We tailor our product portfolio to customer needs, regularly gathering insights and feedback to optimize our range for maximum satisfaction. Over the years, we have developed an extensive array of SKUs across each product category.

Emerging Player In Some Of The Key Verticals

Greenchef is an emerging player in the Indian Kitchen Appliances like Gas Stoves, Pressure Cooker, Wet Grinder, Non-stick cookware, Induction Cooktop, Kettle and Rice Cooker.

We believe that our experience in manufacturing, successful backward integration and design capabilities, strong relationships with our suppliers and customers has resulted in us achieving emerging market position in some of our key product verticals. We believe our emerging position helps us in buying components at competitive prices, achieve operational efficiencies, helps us in continuing to expand our customer base and further strengthens our relationship with customers. It further enhances our ability to diversify into related products and enter new geographies.

We believe that our market penetration together with expansion plans for our manufacturing facilities as well as backward integration into manufacturing, enable us to be well-positioned to capture the growing demand.

Widespread, well connected distribution network with a presence across multiple retail channels and online e-commerce platforms and a dedicated after-sales network.

We believe that the integration of our supply chain and distribution network with our manufacturing facilities provides us with a competitive advantage over other players in the Indian kitchen appliances industry. Our manufacturing facilities are well connected with five strategically located C&F agents in the state of Rajasthan Maharashtra, Uttar Pradesh, Gujarat and Bihar.

We have an extensive distributor network across 22 states and 3 Union Territories in India. Our C&F agents and distributors are linked to a dealer network that sells our products through various retail outlets. We are approved vendors for major retail chains like DMART, Reliance Retail Limited, and StarBazaar. Additionally, our products are available online via e-commerce platforms such as Flipkart, Jiomart, Bigbasket, and Amazon.

Despite our extensive geographical reach across India, we are adept at quickly responding to the complex network of suppliers and customers, evolving consumer preferences, and fluctuating demand. We ensure that our product quality is supported by robust after-sales services, which are managed by a dedicated CRM team and a large group of service personnel.

Our marketing and advertising efforts are diverse and include in-shop displays, banners, and hoardings such as flex boards, MDF display boards, backlit boards, glow sign boards, ACP boards, and flange glowing boards. We also utilize social media marketing, arch installations, roadshow promotions, theater ads, newspaper and TV commercials, bus shelter branding, and tricycle campaigns to enhance brand visibility and recall.

Strong Manufacturing Capability With Efficient Backward Integration

We have three manufacturing facilities located at Bengaluru, Karnataka and one manufacturing facility located at Parwanoo, Himachal Pradesh. Our manufacturing facilities are accredited with ISO 9001:2015 for quality management system.

We can manufacture components such as railing pipe, mixing tube, brass burner, pan support, weight valve, vent tube, sheet metal components, die-cast parts and fixtures in-house for manufacturing our products. We believe the backward integration of our manufacturing facilities has reduced our dependence on third-party suppliers for such components resulting in greater control on the manufacturing process. Backward integration also provides an upper edge in designing of products, enhanced quality of products, and customer retention capability.

We are constructing a state-of-the-art Manufacturing Facility at Vasanthanarasapura (Near Tumkur, Karnataka) which 1st phase will be completed in this financial year. Our new factory facilitates increasing our production capacity, backward integration, saving of high rental costs, and will also result in various operational and financial synergies.

Consistent Focus On Quality

We believe that quality is a pre-requisite for a positive consumer experience and long-term brand loyalty. This philosophy has formed the foundation of the expansion and diversification of our product portfolio since our inception. Our focus on quality is maintained at all stages right from the sourcing of raw materials, which is undertaken from manufacturers to the product manufacturing and assembly stage, which is subject to a rigorous review and monitoring process undertaken at our manufacturing facilities. For products which are sourced by us from third party suppliers, we have a dedicated sourcing team and quality assurance team, which closely monitors the quality of such products.

OUR BUSINESS STRATEGIES

Increase Our Geographical Reach And Expansion Of Addressable Market

We continually seek to enhance our addressable market through our network of C&F agents, distributors and dealers across the country. We gradually intend to expand our business operations to other regions of the country, especially the North-East. We plan to continue our strategy of diversifying and expanding our presence in these regions for the growth of our business.

Through further diversification of our operations geographically, we hope to hedge against risks of operations in only specific areas and protect from fluctuations resulting from business concentration in limited geographical areas. Appointment of C&F agents to undertake our stocking and distribution, enables us to reach our customers faster by reducing transportation time, optimize inventory, and limit trade over-dues. We further intend to extend our network of C&F agents, distributors, and dealers.

Capitalize on increasing indigenization, commercialization and policy initiatives in the industry.

The Government has implemented several schemes relating to the kitchen appliances industry. All these schemes shall boost the kitchen appliances production in India, thereby increasing the demand for our products.

On 29th of August, 2023, Government of India , has announced of issuing 75 Lakh additional LPG connections under the PMUY scheme. This Seventy-Five lakhs additional PMUY connections (under Ujjwala 2.0) aim to provide deposit-free LPG connections to those low-income families who could not be covered under the earlier phase of PMUY. This initiative has helped kitchen appliances manufacturers to partner with the oil and gas companies like HPCL, BPCL, as a co-branding strategy with new gas connections, in order to increase sales

Our company has already entered into marketing agreement with oil companies like: Hindustan Petroleum Corporation Limited, Indian Oil Corporation Limited and Bharat Petroleum Corporation Limited. These initiatives will provide us with an opportunity to increase our market share.

The government's project 'Make in India' is expected to lead the growth and investment opportunities within the kitchen appliances industry. (Source: CARE Report). Also the recently introduced 'Pradhan Mantri Sahaj Bijli Har Ghar Yojna (Saubhagya)' scheme, which promises electricity to every Indian household by 2018, is likely to shed more light on profitability of consumer appliances makers over the next few years. (Source: CARE Report). We believe that our Company is well-poised to capitalize on these opportunities, creating value for all of the stakeholders involved, in the process. We believe a significant demand for our products is generated in India owing to our government's objective to enhance domestic sourcing as well as self-reliance.

Scale Up Branding, Promotional And Digital Activities

Our widespread presence and scale of operations allows us to increasingly focus on branding and promotional activities to enhance our visibility in the kitchen appliances industry. We seek to continue to enhance brand awareness and customer loyalty through our promotional and marketing efforts substantially increasing our digital presence and engagements.

We distribute our products through both online and offline channels, reaching over 800 million internet users in India, according to the Ministry of Electronics and Information Technology (MeITY). Digital platforms and social media help us connect with a broader audience and tailor our offerings. Our consumer-focused approach boosts confidence and influences buying decisions. We will continue our offline marketing efforts, including in-shop displays, various types of advertisements (flex boards, MDF boards, etc.), social media campaigns, and other promotional activities like roadshows and bus shelter branding to strengthen our brand.

Continue To Strengthen Our Existing Product Portfolio And Diversify Into Products With Attractive Growth And Profitability

Our product portfolio under the brand Greenchef consists of Gas Stoves, Mixer Grinder, Wet Grinder, Pressure Cookers, Induction cooktops, Non-stick Cookwares, with number of SKUs for each product item, thereby aiding different functions and utilities in the kitchen and home. We have consistently focused on expanding and optimising our product range to offer utility, a range of features and value for money. We seek to develop new products to cater to the evolving requirements of a large customer base and cover newer customer segments. The customer base in India is witnessing rising income levels and improvement in overall employment.

With 1.3 billion people, India is the second most populous country in the world, but with an average age of 29, it has one of the youngest populations globally. As this vast resource of young citizens enter the workforce, it could create a 'demographic dividend'. India is home to a fifth of the world's youth demographic and this population advantage could play a critical role in growth of Kitchen Appliances industry. Apart from changing lifestyles and working styles urbanization has led to growth in the organized retail sector; this in turn has led to change in consumer buying behaviour.

Rising urbanization in India leads to increase in overall retail spending in India which would directly benefit the kitchen appliances and cookware market as the highest share of people's expenditure is on food. We have introduced a new product "Air Fryer – Frizzle " to target our health-conscious new India's population.

Invest In New Manufacturing Facility And Increase Backward Integration In The Plant

Our manufacturing facilities are equipped to manufacture a wide and diverse range of products, as well as several components used in our products. Currently, we operate from three manufacturing facilities at Bengaluru and intend to centralize the same with our initiative to invest in a new manufacturing facility located at Plot No. 503, 504 & 505, SY No. 96, Vasanthanarasapura 2nd Phase Industrial Area, Yalladadllu Village, Kora Hobli, Tumakuru Taluk, Tumakuru District.

We have purchased the said land from KIDAB and are planning to set up an integrated factory for manufacturing our kitchen appliances. This concentration of our manufacturing activities under a single shed would enable us to achieve greater efficiency in reducing time taken for and the cost of manufacturing our products, from design to commercial production and, in our in-house testing and quality assurance processes, resulting in higher profit margins.

In line with our focus to provide diversified products solutions and to develop better control on our supply chain and improve our margins, we intend to further focus on backward integration at our manufacturing facilities. We focus to add machineries to produce quality tools and dies which in turn supports quality components and sub-assemblies. This will help us to improve our cost efficiency, reduce dependency on third party suppliers and provide better control on production time and quality of components used in the manufacturing of products. These investments in new machineries will lead to reduction in cost and increase in production efficiency. We will continue to pursue such opportunities where we believe they will add value to our business, our stakeholders, and our customers

RISK MANAGEMENT

To safeguard the interests of its stakeholders, the Company has implemented a comprehensive risk management framework to identify, analyse and manage business risks. The Company's risk management framework focuses on ensuring that risks are recognised and managed in a timely and reasonable manner and are kept flexible to adapt to evolving business requirements. Company's risk management framework identifies and undertake appropriate mitigation measures for various types of external and strategic risks, few are as below:

• <u>COMPETITION RISK</u>

The growing consumer base in India, coupled with heightened brand awareness, value for money, and increased disposable income, has fueled expansion in the Kitchen Appliances Industry. As a result, the company is at risk from new entrants and intensified competition among existing players, which could impact revenues and profitability.

To address this risk, we focus on offering unique, innovative, and high-quality products to our customers. By continuously innovating and promptly introducing new products and product lines, we attract new customers and stay ahead of our competitors. We are committed to strengthening our brand through effective marketing strategies and campaigns to sustain visibility and engage customers. Additionally, our extensive network of distributors and dealers, along with our presence across multiple channels, enhances our reach and expands our customer base.

• RISK OF PRICE FLUCTUATION OF RAW MATERIAL

Major raw materials for our products are commodities like Stainless Steel, Aluminium, Copper, and various types of plastic granules. Any major fluctuation in the prices of said raw material will increase our input cost and negatively impact our profitability

Our company addresses the risk of fluctuating raw material prices through a multi-faceted approach. We use a cost-plus model to include production costs and a profit margin in our pricing. Additionally, strategic backward integration gives us control over raw material sourcing and production, enhancing cost efficiency and reducing exposure to price volatility. This combined strategy ensures stable profitability and benefits both our company and our customers.

INTEREST RATE RISK

Interest rate risk refers to the potential financial impact arising from fluctuations in interest rates. These changes can affect borrowing costs, with increases in rates potentially raising the expense of existing or new loans. For businesses with variable-rate debt, rising interest rates can compress profit margins by increasing interest expenses. Additionally, fluctuations in interest rates can impact the valuation of assets, such as real estate or financial instruments, affecting a company's balance sheet. Variations in rates can also influence cash flow, particularly for entities with substantial debt or rate-sensitive investments.

To mitigate interest rate risk, our company focuses on two key strategies: improving our credit rating and maintaining a prudent capital structure. Enhancing our creditworthiness allows us to secure more favorable borrowing terms and reduce exposure to rate fluctuations. Additionally, a balanced mix of equity and debt provides financial flexibility and resilience against interest rate changes, ensuring our stability and sustainability.

CREDIT RISK

The company provides a credit line to most of its customers. Any delay or default in repayment by the customer may result in a loss to the company.

Our company proactively manages default risk by enforcing strict credit policies, including thorough assessments and continuous monitoring of customer financial health. We extend credit only to those with a strong repayment history. Additionally, we provide channel financing through trusted partners, which offers customers convenient options while leveraging expert risk management to reduce our default risk. These strategies help us maintain a healthy credit portfolio and safeguard our financial stability.

 - g) The Securities and Exchange Board of India (Delisting of Equity Shares) Regulations, 2009; and
 - h) The Securities and Exchange Board of India (Buyback of Securities) Regulations, 1998;
- (vi) I have relied on the representations made by the Company and its Officers for systems and mechanism formed by the Company for compliances under other applicable Acts, Laws and Regulations to the Company. The list of applicable laws to the Company is given in Annexure I.

I have also examined compliance with the applicable clauses of the following:

(i) Secretarial Standards with regard to Meetings of Board of Directors ('SS-1') and General Meetings ('SS-2') issued by The Institute of Company Secretaries of India;

During the period under review the Company has complied with the provisions of the Act, Rules, Regulations, Guidelines, Standards, etc.

I further report that

The Board of Directors of the Company is duly constituted with proper balance of Executive Directors, Non-Executive Directors and Independent Directors. The changes in the composition of the Board of Directors that took place during the period under review were carried out in compliance with the provisions of the Act.

Adequate notice is given to all directors to schedule the Board Meetings, agenda and detailed notes on agenda were sent at least seven days in advance, and a system exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for meaningful participation at the meeting.

All decisions of the Board and Committees thereof were carried out with requisite majority.

I further report that there are adequate systems and processes in the company commensurate with the size and operations of the company to monitor and ensure compliance with applicable laws, rules, regulations and guidelines. However, there is scope to improve these control and compliance systems.

On the basis of information provided, I further report that during the audit period there were no instances of:

INDEPENDENT AUDITORS REPORT

To:

The Members

GREENCHEF APPLIANCES LIMITED

Bengaluru.

Report on the Financial Statements

Opinion

We have audited the accompanying financial statements of **Greenchef Appliances Limited** ("the Company"), which comprise the balance sheet as at 31st March 2024, the statement of profit and loss and statement of cash flows for the period then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Act in the manner so required and give a true and fair view, subject to change in accounting estimates regarding depreciation method. The Company has shifted from Written Down Value Method to Straight line method due to which the profit is is overstated by Rs.261.54 Lakhs and in conformity with the accounting standards prescribed under section 133 of the Act read with the Companies(Accounting Standards) Rules, 2006[as amended], and other accounting principles generally accepted in India, of the state of affairs of the Company as at 3st March 2024, Its Profit and its cash flows for the period ended on that date.

Basis for Opinion

We conducted our audit of the financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India[ICAI] together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules there under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the financial statements of the company.

87

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's board of directors is responsible for the preparation and presentation of its Report [herein after called as Board's report] which comprises of various information required under Section 134(3) of the Companies Act 2013 but does not include Financial Statement and our Report thereon.

Our opinion on Financial Statement does not cover the Board's Report and we do not express any form of assurance conclusion thereon

In connection with our audit of the financial statements, our responsibility is to read the Board's report and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

Based on the work we have performed, we conclude that, we have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance, and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls

Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to

modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal controls that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, based on our audit we report that:

- (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;
- (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;

"ANNEXURE I"

To the Independent Auditors' Report on the Financial Statements of GREENCHEF APPLIANCES LIMITED

Referred to in paragraph 1(f) under 'Report on other legal and regulatory requirements section of our report to the Members of GREENCHEF APPLIANCES LIMITED of the even date

Report on the Internal Financial Controls of Financial Statement under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over Financial reporting of M/s GREENCHEF APPLIANCES LIMITED. ("the Company") as at 31st March, 2024, in conjunction with our audit of the Financial Statements of the Company for the period ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI").

These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about

whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements.

Meaning of Internal Financial Controls with reference to Financial Statements.

A Company's internal financial control with reference financial statement is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control with reference financial statement includes those policies and procedures that:

- (a) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company
- (b) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the company; and
- (c) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Control with reference to financial statement

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls

ANNUAL REPORT 2023-24

with reference to financial statements to future periods are subject to the risk that the internal financial control with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanation given to us, the Company has, in all material respects, an adequate internal financial controls system with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at 31st March 2024, based on the criteria for internal financial controls with reference to financial statements established by the company considering the essential component of internal controls as stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India

50 epreciation

Previously, Company employed the WDV method for depreciating its Property, plant & equipment. Under the WDV method, depreciation expense is calculated as a fixed percentage of the asset's carrying amount each year, resulting in higher depreciation charges in the initial years and progressively lower charges in subsequent years.

Upon review, the management has determined that the useful life of the assets is longer than previously estimated and that these assets are expected to provide more consistent economic benefits over their useful lives. Consequently, the decision was made to switch to the Straight Line Method (SLM), where depreciation is charged uniformly over the useful life of the asset

The impact of such change has resulted in decrease in depreciation expense by Rs 261.54 Lakhs
