## MANAGEMENT DISCUSSION AND ANALYSIS 2024-2025

### I. INDUSTRY STRUCTURE AND DEVELOPMENT

India's retail sector is experiencing robust growth driven by several factors. The country is experiencing a steady increase in national wages, rapid urbanization, and the emergence of the digital economy. Lower-tier cities no longer have to rely solely on physical stores, as an expanding network of last-mile logistics suppliers enables access to preferred brands through online platforms. The retail landscape in India offers a wide array of choices, including global e-commerce platforms, single-brand shopping websites, multi-retail apps, and social media sellers. Furthermore, discretionary spending power is on the rise, with the average per capita income in India surpassing US\$ 2500 and projected to exceed US\$ 12,000 by 2047. The substantial middle class and underserved consumer base in non-metropolitan cities have attracted the interest of several international retail giants seeking expansion into new markets. Branded products, such as apparel, cosmetics, jewelry, footwear, watches, food, and beverages (F&B), and furnishings are gaining popularity and becoming essential lifestyle items for both business and leisure purposes. India ranks among the best countries to invest in Retail space. Factors that make India so attractive include the second largest population in the world, a middle-income class of 158 million households, increasing urbanization, rising household incomes, connected rural consumers, and increasing consumer spending. FMCG, apparel & footwear, and consumer electronics are the largest retail segments, constituting 65%, 10%, and 9% respectively of the retail market.

As per Kearney Research, India's retail industry is projected to grow at 9% over 2019-2030, from US\$ 779 billion in 2019 to US\$ 1,407 billion by 2026 and more than US\$ 1.8 trillion by 2030. Revenue of India's offline retailers, also known as brick-and-mortar (B&M) retailers, India's direct selling industry is expected to be valued at US\$ 2.14 billion by the end of 2021. E-retail has been a boon during the pandemic and according to a report by Bain & Company in association with Flipkart 'How India Shops Online 2021' the e-retail market is expected to grow to US\$ 120-140 billion by FY26, increasing at approximately 25-30% p.a. over the next 5 years. Despite unprecedented challenges, the India consumption story is still robust. Driven by affluence, accessibility, awareness, and attitude, household consumption stood at Rs. 130-140 trillion (US\$ 1.63-1.75 trillion) in 2021.

The sizeable middle class and nearly unexplored retail market in India are the main enticing factors for international retail behemoths seeking to move into newer markets, which will help the Indian retail business grow more quickly. The urban Indian consumer's purchasing power is increasing, and branded goods in categories like apparel, cosmetics, footwear, watches, beverages food, and even jewellery are gradually evolving into business and leisure that are well-liked by the urban Indian consumer. The retail sector in India is expected to reach a whopping US\$ 2 trillion in value by 2032, according to a recent analysis by the Boston Consulting Group (BCG). India is the world's fifth-largest global destination in the retail space. In the FDI Confidence Index, India ranked 17 (after the US, Canada, Germany, United Kingdom, China, Japan, France, Australia, Switzerland, and Italy).

### II. OPPORTUNITIES AND THREATS

India's rapid economic growth and urbanization create a significant demand for commercial spaces like offices, retail outlets, hotels, and restaurants, driving the need for quality furniture fixtures, while the burgeoning startup ecosystem and small and medium enterprises (SMEs) increase the need for modern, ergonomic, and affordable office furniture. Smart furniture equipped with integrated technology solutions is becoming popular in commercial settings, providing an innovative market segment, the industry currently lacks the technological advancements, sticking to a traditional procurement is advantageous for cost effective production.

While there are lot of opportunities in the industry, it comes with an equal share of threats, the current scenario being highly competitive with numerous domestic and international players, leading to price wars and reduced profit margins. Economic uncertainties or slowdowns can reduce investment in commercial infrastructure, directly impacting the demand for furniture fixtures. The dependence on global supply chains for raw materials and components can lead to disruptions due to geopolitical issues, pandemics, or trade restrictions. Rapid technological advancements can render existing products obsolete, necessitating continuous investment in research and development.

Opportunities in Industrial Segment have opened up in the field of Data Centres, Server Power Consumption, Server Racks and HVAC centres. India accounts for roughly 14 to 15% of global internet users, whereas data centre is only 6% leaving a huge gap there. Only IT Equipment like networking equipment make up 50-60% proportion of server power consumption. The surge in global data, from streaming to cloud services, demands powerful servers. However, increasing volume leads to higher power requirements, sometimes outweighing efficiency gains from new equipment. The advent of the cloud has resulted in a massive expansion of reliance on server technology. More Companies than ever before are transitioning to digital platforms, necessitating a surge in the number of servers. Data centres rely heavily on HVAC systems, which often consume more power than the IT equipment they could.

### III. SEGMENT WISE PERFORMANCE

The Company provides comprehensive solutions with a diverse selection of high-quality modern modular office furniture, including partition systems, office chairs, cabinets, wardrobes, storage racks, executive chairs, and office workstations. Additionally, it designs and develops various retail outlets such as beauty shops, paint shops, and fashion apparel outlets. Retail leasing in India is growing by 21% since 2022, driven by fashion retailers, hyper- markets, & restaurants, according to CBRE's 'India Market Monitor 2022' report. The retail leasing market is expected to gain momentum in tier-2, tier-3, and tier-4 cities in India as business activities in these areas accelerate and the purchasing power of these regions continues to grow. Several states in India are incentivizing businesses to establish their presence in non-metropolitan areas.

The Company is also engaged in manufacturing and supplying a wide range of metal industrial Products. These are developed by a team of creative professionals as per the norms and guidelines laid down by the industry. Moreover, to meet the specific needs of individuals, it also provides customized version of these products as per the specifications detailed by the clients. Clients can avail products such as Electrical Control Panels, Petrol Pump Kiosks, HVAC Outer Housing, Battery Rack, UPS cabinets, Server Racks etc.

### IV. OUTLOOK

The Indian retail market is set to grow significantly, reaching US\$1.1 trillion by 2027 and US\$2 trillion by 2032. This growth is fueled by a diverse retail environment that includes global ecommerce platforms, single-brand stores, multi-brand outlets, and social media sellers. The organized retail sector, which currently makes up 15% of the total market, and is projected to expand to 25 % growing at a 25% CAGR, reflecting the sector's dynamic development. Many global investors are drawn to the Indian retail sector due to its demographic dividend, untapped market opportunities, and with a per capita income of approximately \$2,400, India is in a stage where it is poised for significant economic growth, which typically leads to increased consumer spending and investment opportunities.

Historically, nations that surpass the \$2,500 income level experience substantial growth until reaching \$8,000-\$10,000, enhancing the country appeal as a prime market for retail investments. The largest retail segments—FMCG, apparel & footwear, and consumer electronics—comprise 65%, 10%, and 9% of the market respectively are expected to grow rapidly, with companies optimistic about expanding their store networks. Also, the retail leasing surged to 5 year high in the first half of 2024 reaching 3.1 million square feet across 8 cities, driven by sectors such as fashion, hypermarkets, and restaurants. This trend is expected to continue, with growth anticipated in tier-2, tier-3, and tier-4 cities as business activities and purchasing power rise. Several states are offering incentives to encourage businesses and international players to establish themselves in these nonmetropolitan areas. The major drivers of the in-store furniture and fixtures business are multifaceted.

Growing consumer demand for modern, stylish, and functional in-store environments is a key factor, driven by increasing preferences for aesthetically pleasing and practical retail spaces. Urbanization and real estate development further boost this demand, as the expansion of retail and commercial projects necessitates diverse furniture solutions for store setups. Economic growth also plays a significant role which acts as a tailwind for industrial growth, with rising disposable incomes leading to greater investments in high-quality in-store furnishings to enhance the shopping experience. With technological advancements in manufacturing processes and materials contributing to enhanced product quality and design, making furniture more appealing to a broad audience.

The growth of e-commerce platforms adopting an omni-channel presence enhances the demand for a wide range of furniture and fixtures, thereby boosting sales and expanding market reach. Retailers are increasingly focusing on creating engaging and immersive environments within their stores. By incorporating interactive displays, offering personalized consultations, and designing inspiring setups, they enhance the customer experience. This approach not only enriches the shopping journey but also drives higher sales both online and offline by making the in-store experience more engaging and aligned with customers' needs and preferences.

## INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF NAMAN IN-STORE (INDIA) LIMITED (E.K.A. NAMAN IN-STORE (INDIA) PRIVATE LIMITED)

### Report on the Financial Statements

#### Opinion

We have audited the accompanying financial statements of **NAMAN IN-STORE (INDIA) LIMITED (E.K.A. NAMAN IN-STORE (INDIA) PRIVATE LIMITED)** which comprise the Balance Sheet as at March 31, 2025 and the Statement of Profit and Loss for the year then ended, Statement of Cash flow for the year ended and a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Accounting Standards prescribed under section 133 of the Act read with the Companies (Accounting Standards) Rules, 2021, as amended ("Accounting Standards") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2025, its profit/loss and its cash flows for the period ended on that date.

#### Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

#### Information Other than the financial statements and Auditor's Report Thereon

- The Company's Board of Directors is responsible for the other information which comprises of the Directors Report and other related information (the "other information"), but does not include the financial statements and our auditor's report thereon. The other information is expected to be made available to us after the date of this audit report.
- Our opinion on the financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.
- In connection with our audit of the financial statements, our responsibility is to read the other information identified above, when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

#### Responsibilities of Management and Those Charged with Governance for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows in accordance with the Accounting Standards and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

#### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.

Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

### **Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub- section 3 of Section 143 of the Companies Act, 2013 (“the Act”)**

We have audited the internal financial controls over financial reporting of **NAMAN IN-STORE INDIA LIMITED (E.K.A. NAMAN IN-STORE (INDIA) PRIVATE LIMITED)** (“the Company”) as of March 31, 2025, in conjunction with our audit of the financial statements of the Company for the period ended on that date.

#### **Management’s Responsibility for Internal Financial Controls**

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

#### **Meaning of Internal Financial Controls Over Financial Reporting**

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

#### **Inherent Limitations of Internal Financial Controls Over Financial Reporting**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

## Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2025, based on the criteria for internal financial control over financial reporting established by the Company considering the essential components of internal control stated in the Guidance Note.

**A. GENERAL INSTRUCTIONS FOR REMOTE E-VOTING AND THE AGM ARE AS FOLLOWS:**

1. In terms of the provisions of section 108 of the Act, read with rule 20 of the Companies (Management and Administration) Rules, 2014, as amended (hereinafter called 'the Rules' for the purpose of this section of the Notice) and Regulation 44 of the SEBI Listing Regulations and in terms of SEBI Master circular dated 11<sup>th</sup> July 2023 in relation to e-voting facility provided by Listed Entities, the members are provided with the remote e-voting facility to exercise votes on the items of business given in the Notice, through the e-voting services provided by **Bigshare Services Private Limited ("BIGSHARE")** at the AGM.
2. Members, whose names appear in the Register of Members/list of Beneficial Owners as on 19<sup>th</sup> September 2025, being the cut-off date fixed for determining voting rights of members are entitled to participate in the e-voting process. A person who is not a member as on the cut-off date should treat this Notice for information purpose only.
3. Members can cast their vote through remote e-voting from 23<sup>rd</sup> September 2025, (09:00 a.m.) to 25<sup>th</sup> September 2025 (05:00 p.m.) voting beyond the said date and time shall not be allowed and the remote e-voting facility shall forthwith be blocked.

**The details of the process and manner for remote e-voting are explained herein below:**

- i. The voting period begins on 23<sup>rd</sup> September 2025, (09:00 a.m.) and ends on 25<sup>th</sup> September 2025 (05:00 p.m.). During this period shareholders of the Company, holding shares either in physical form or in dematerialized form as on the cut-off date (record date) of 19<sup>th</sup> September 2025 may cast their vote electronically. The e-voting module shall be disabled by Bigshare for voting thereafter.
- ii. Pursuant to SEBI Circular No. **SEBI/HO/CFD/CMD/CIR/P/2020/242 dated 09.12.2020**, under Regulation 44 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, listed entities are required to provide remote e-voting facility to its shareholders, in respect of all shareholders' resolutions. However, it has been observed that the participation by the public non-institutional shareholders/retail shareholders is at a negligible level.

Currently, there are multiple e-voting service providers (ESPs) providing e-voting facility to listed entities in India. This necessitates registration on various ESPs and maintenance of multiple user IDs and passwords by the shareholders.

In order to increase the efficiency of the voting process, pursuant to a public consultation, it has been decided to enable e-voting to **all the demat account holders, by way of a single login credential, through their demat accounts/ websites of Depositories/ Depository Participants**. Demat account holders would be able to cast their vote without having to register again with the ESPs, thereby, not only facilitating seamless authentication but also enhancing ease and convenience of participating in e-voting process.

- iii. In terms of **SEBI circular no. SEBI/HO/CFD/CMD/CIR/P/2020/242 dated December 9, 2020** on e-Voting facility provided by Listed Companies, Individual shareholders holding securities in demat mode are allowed to vote through their demat account maintained with Depositories and Depository Participants.
