## MANAGEMENT DISCUSSION AND ANALYSIS

### INDUSTRY STRUCTURE AND DEVELOPMENT:

#### GLOBAL ECONOMY

The global micro irrigation system market size was USD 7.59 billion in 2019 and is projected to reach USD 16.83 billion by 2032, exhibiting a CAGR of 6.32% during the forecast period based on our analysis in the existing report. Asia Pacific dominated the micro irrigation system market with a market share of 39.13% in 2019.

The growing area under micro irrigation systems across the globe is one of the prominent reasons for the tremendous growth of the market worldwide. Easy mechanization of the micro-irrigation system, their compatibility with wide as well as closed-spaced crops, and various other positive attributes associated with this type of irrigation are aiding the market growth. Moreover, amplified acceptance of this irrigation technique by commercial property owners, homeowners, and others for landscape developments is expected to drive the micro irrigation system market growth during the foreseeable years.

The current global outbreak of COVID-19, followed by lockdowns across several economies is negatively influencing the agriculture industry, especially from the perspective of labor. The crisis is expected to continue in the upcoming months owing to suspended trade across economies at present. There is no doubt that the pandemic will affect the market negatively as well, however, to what extent can only be anticipated once the pandemic ends. Less labor associated with the operation of some of the micro irrigation practices, coupled with the availability of automated systems, especially across the developed markets of North America, and Europe is expected to remain the prominent reason for the plausible market stability. However, in developing economies such as India, China, South Africa, Pakistan, and others, the economic slowdown caused due to COVID-19 can impact the number of annual installations of high-priced micro irrigation systems.

#### INDIAN ECONOMY

The India micro irrigation systems market growth is set to progress at a CAGR of 10.86% during the forecast period, 2023-2030, and is expected to garner a revenue of \$1647.89 million by 2030.

India is a prominent global producer of agricultural output and holds the position of the largest market for agriculture equipment. However, it faces challenges such as a shortage of skilled labor for agriculture and the need to meet the growing food demand of its population. The Indian market's key pain points include the presence of unstructured small-scale farms, the lack of awareness among farmers, the absence of standards, low per capita productivity, and insufficient skilled labor & infrastructure.

As of February 3, 2021, the average penetration of micro irrigation in India stands at 19%, which is significantly lower compared to many other countries. If the country adopts drip irrigation systems for cultivating crops like sugarcane, banana, okra, papaya, and bitter melon, it could potentially save up to 60% of the water used. Presently, 27 states in India have less than 30% micro irrigation system coverage, with 23 states having less than 15% coverage. This scenario is evident in Uttar Pradesh, the largest producer of sugarcane, where only 1.5% of the area is under micro irrigation, and Punjab, which has only 1.2% coverage.

The India micro irrigation systems market segmentation includes end-user, product type, and crop type. The crop type segment includes orchard crops, forage & grasses, field crops, plantation crops, and other crop types.

Field crops, such as corn, cotton, rice, sorghum, soybeans, winter wheat, durum wheat, and spring wheat, can greatly benefit from the implementation of micro irrigation. This modern irrigation technique has proven advantageous for crops like tomatoes and cotton. Given the advancements in durability, component reliability, and design, the cost of adopting micro irrigation systems has decreased, benefiting small-scale field crop producers.

Drip irrigation, widely preferred for field crops like wheat, has shown superior water productivity compared to sprinkler irrigation. Sub-surface drip irrigation also holds substantial growth potential when applied to field crops.

The advantages of micro irrigation for field crops are numerous, encompassing water conservation, increased yields, reduced labor costs, and minimal fertilizer usage, among others. Overall, this technology holds promise in boosting crop yields and optimizing water usage in agricultural field production. However, it is essential to approach its implementation with careful management and thorough planning to ensure an optimum system design.

Whereas plantation crops encompass rapid-growing trees and conifers, specifically tea, coffee, cotton, oilseeds, rubber trees, sugarcane, cocoa, sisal, and fruits. In the context of these crops, the adoption of fertigation, which involves the precise application of fertilizers, water, and essential trace elements through micro irrigation, is on the rise, leading to improved yields. For instance, tea cultivation benefits from zinc and copper to enhance color and taste, and fertigation proves instrumental in delivering these vital elements. Notably, among the irrigation methods, drip irrigation is the preferred method for plantation crops over sprinkler irrigation.

Some of the leading companies in the India micro irrigation systems market include Mahindra EPC Irrigation Limited, Jain Irrigation Systems Ltd (JISL), Kisan Irrigations & Infrastructure Ltd, etc.

Mahindra EPC Irrigation Limited sells and manufactures micro irrigation systems in India. The company's irrigation products include open-well submersible pumps, monoblocks, bore well, rain guns, quick pipe coupling pipes, and sprinkler heads. Also, it offers HDPE pipes, landscape & turf irrigation products, and pipe coils. Additionally, the company offers specialized pipes for gas distribution and water conveyance. It is headquartered in Nashik, India.

#### GROWING AREA UNDER IRRIGATION:

- PMKSY has been formulated amalgamating ongoing schemes viz. Accelerated Irrigation Benefit Programme (AIBP) of the Ministry of Water Resources, River Development & Ganga Rejuvenation (MoWR, RD&GR), Integrated Watershed Management Programme (IWMP) of Department of Land Resources (DoLR) and the On Farm Water Management (OFWM) of Department of Agriculture and Cooperation (DAC).
- Under PMKSY-Per Drop More Crop, from FY16 to FY25 (end of Dec. 2024), Rs. 21,968.75 crore (US\$ 2.56 billion) was released to states for the implementation of the PDMC scheme, covering an area of 95.58 lakh hectares.

- Under PMKSY-HKRP- Repair, Renovation and Restoration of water bodies (RRR of water bodies), a total of 395 water bodies have been taken up during 2018-2021.
- Of the wide variety of crops in India, rice and wheat are the most irrigated.
- Pradhan Mantri Krishi Sinchayee Yojana (PMKSY) has been formulated with the vision of extending the coverage of irrigation 'Har Khet ko pani' and improving water use efficiency 'More crop per drop' in a focused manner with end-to-end solution on source creation, distribution, management, field application and extension activities.
- Climate-Smart Farming Practices: This is slowly gaining acceptance with farmers using clean energy sources like solar for irrigation.

#### OPPORTUNITIES:

##### 1. Supply Chain Infrastructure:

- Technology driven, integrated supply chains enable entities to reduce inventory and costs, add product value, extend resources, accelerate time to market, expand market, increase pricing for sellers and variety for buyers as well as retain customers
- In order to have a successful supply chain, the Indian Government has sought to involve multiple stakeholders to improve interactions between farmers, processors, distributors and retailers
- The nation's processed food industry is expected to grow to US\$ 958 billion by 2025 at a compound annual growth rate (CAGR) of 12%. The government's focus is on supply chain related infrastructures like cold storage, abattoirs and food parks.

##### 2. Potential global outsourcing hubs

- Huge opportunity exists for agri input segments like seeds and plant growth nutrients.
- According to the Center for Environment and Agriculture (CENTEGRO) and Crop Care Federation of India (CCFI), India can become the 'global agricultural hub' for other countries, which have harsh weather, scarce labour and lands, and are seeking to outsource their agriculture

##### 3. Farm management services

- Given the importance of agriculture in India, both the government and private players are working to improve the efficiency and productivity of Indian agriculture and exploring how Farming as a Service (FaaS) solutions can play a role.
- FaaS seeks to provide affordable technology solutions for efficient farming. It converts fixed costs into variable costs for farmers, thus making the techniques more affordable for a majority of small farmers. Its services are available on a subscription or pay per use basis in 3 broad categories, which are crucial across the agriculture value chain.

#### COMPETITIVE ADVANTAGE:

- India has access to several natural resources that provides it a competitive advantage in the food processing sector. Due to its diverse agro-climatic conditions, it has a wide-ranging and large raw material base suitable for food processing industries.
- The Government of India targets production of 32 million tonnes of pulses by 2030.

#### THREATS, RISKS AND CHALLENGES:

**Finance:** The banking sector needs to be more aggressive for funding of the micro-irrigation systems which will help in penetration of the scheme to the great extent. Financial institutions need to be more flexible for offering credit facilities for MI technologies.

**Lack of awareness:** Many farmers do not know about the use, benefits & implementation of micro irrigation systems. The main reason for the adoption of the drip system is labour problem, & power issues. Awareness and training programs are essential for widespread adoption.

**Technical knowhow:** Basically, it is a system & it needs proper design, Installation, operation & maintenance which required technical expertise. The lack of skilled labor and knowledge among farmers can hinder the successful implementation of this technology.

**Infrastructure Challenge:** In some cases, the existing infrastructure like commonly shared water sources, distribution networks, and storage facilities may not support the implementation of MI systems.

**Minimum adoption on Surface Water:** In India about 37% of the total irrigated area is on surface water like canals & dams. The adoption of present drip Irrigation at present is mostly on the ground water resources like Well & Bores. There is very minimal adoption (less than 1% till 2018) of the system on the surface Irrigation like canals & Canals. Hence more & more community irrigation projects are needed to be planned in the coming days. (Source: Ministry of Food & Agriculture, India)

**Maintenance & Repair:** Ensuring the regular maintenance and prompt repair of MI systems is very important for their max life & effectiveness. However, farmers may face difficulties in accessing timely and affordable maintenance services. Addressing these challenges requires a comprehensive approach involving government support, educational initiatives, financial mechanisms, and the active involvement of the agricultural community.

**Availability of Subsidy:** State wise varying subsidy patterns are there. Those states who have adapted project business model have tremendously increased the area under drip Irrigation. In many states the delaying of subsidy, non-availability of subsidy when needed by the farmer are the constraints for the fast development of this technology in India.

#### OUTLOOK:

We are well-positioned to benefit from the expanding micro-irrigation market. The company caters to the domestic market and also looking for opportunities to export micro-irrigation components to various regions globally. Our focus on innovation, coupled with ongoing government initiatives and the escalating need for water-efficient agriculture, are expected to fuel the growth in the coming years. Despite the positive outlook, challenges remain. The micro-irrigation market is highly competitive, requiring us to constantly innovate and differentiate ourselves. Additionally, while government subsidies are a major driver, ensuring their effective utilization and reaching farmers in remote areas remains

a focus. The opportunity lies in the vast untapped potential of the Indian agricultural sector. With the area under micro irrigation still representing a relatively small percentage of the total irrigated land, there's significant room for expansion. Polysil, with its experience and market presence, is well-placed to contribute to this growth and achieve its ambitious market share target.

Micro Irrigation Systems Market size was valued at US\$ 11.3 billion in 2024 and is expected to reach US\$ 22.5 billion by 2031, growing at a significant CAGR of 10.4% from 2025-2031. Micro-irrigation technologies are one of the most successful ways of reducing water waste employed by farmers in many industrialized economies. As a result, prominent firms such as Netafim Ltd offer drip irrigation systems that may be incorporated in pipes, simplifying the installation procedure while increasing agricultural productivity and boosting the livelihood and economic status of millions of smallholder farmers. In the case of specialized greenhouse crops, automatic drip irrigation is critical for maintaining soil moisture.

#### **AGRICULTURE - MARKET OVERVIEW & HIGHLIGHTS OF UNION BUDGET 2025-26:**

- In India, agriculture is the primary source of livelihood for ~55% of the population.

#### **GOVERNMENT INITIATIVES THAT WILL FURTHER PROP UP THE SECTOR:**

- The government has approved US\$ 4.17 billion (Rs. 35,000 crores) for the PM Annadata Aay Sanrakshan Abhiyan (PM-AASHA), aiming to ensure remunerative prices for farmers and stabilize market prices for consumers.
- The Agricultural and Processed Food Products Export Development Authority (APEDA) is implementing strategic initiatives to diversify India's agricultural exports, focusing on key products like fresh fruits, vegetables, processed foods, and animal products.
- Through several Digital Initiatives, such as the National e-Governance Plan in Agriculture (NeGP-A), the construction of Digital Public Infrastructure (DPI), digital registries, etc., the government has taken a number of steps to ensure access to IT across the nation.
- The Soil Health Card site has been updated and connected with a Geographic Information System (GIS) system, allowing all test results to be captured and shown on a map. Samples are now being gathered using a mobile application as of April 2023 under the new system.
- The Indian government is planning to increase the number of primary agriculture cooperatives from 60,000 to 3 lakh until 2026. Moreover, the Agriculture Ministry would offer agricultural institutes with a grant of up to Rs. 10 lakh (US\$ 13,175) for the procurement of drones.

- As per the Union Budget, 2023-24, A new sub-scheme of PM Matsya Sampada Yojana with targeted investment of Rs. 6,000 crore (US\$ 729 million) to be launched to further enable activities of fishermen, fish vendors, and micro & small enterprises, improve value chain efficiencies, and expand the market.
- As per the Economic Survey 2024-25, for FY25, the MSP for arhar and bajra has been increased by 59% and 77% over the weighted average cost of production, respectively. Moreover, the MSP for Masur has risen by 89%, while rapeseed has seen an impressive increase of 98%. Since FY16, the government has implemented the Per Drop More Crop initiative under PMKSY, covering 95.58 lakh hectares by December 2024 with Rs.21,968.75 crore (US\$ 2.57 billion) released to states for micro-irrigation, offering 55% subsidy to small/marginal farmers and 45% to others. From 2018 to 2024, loans worth Rs. 4,709 crore (US\$ 551 million) were approved under the Micro Irrigation Fund (MIF), with Rs. 3,640 crore (US\$ 426.5 million) disbursed, supported by a 2% interest subvention to states.
- Ground-level credit (GLC) to agriculture has also shown impressive growth with a CAGR of 12.98% from 2014-15 to 2024-25. The GL Chas risen from Rs. 8,45,000 crore (US\$ 99.02 billion) in 2014-15 to Rs. 25,48,000 crore (US\$ 298.57 billion) in 2023-24. Within this, the share of small and marginal farmers has significantly increased from Rs. 3,46,000 crore (US\$ 40.54 billion) (41%) to Rs. 14,39,000 crore (US\$ 168.62 billion) (57%) from 2014-15 to 2023-24.
- High machinery costs hinder farm mechanisation for small and marginal farmers; to address this, the Sub-Mission on Agricultural Mechanisation (SMAM) promotes Custom Hiring Centres (CHCs) and machinery banks to offer affordable rentals. As of 31 December 2024, 26,662 CHCs were established under SMAM, including 138 set up in FY25 alone, enhancing mechanisation access in under-served regions.
- Under the Agricultural Marketing Infrastructure (AMI) sub-scheme, a 25% subsidy is provided for projects in plain areas, and 33.33% for projects in North-East/hilly regions, or led by women, SC/ST promoters, and Farmer Producer Organisations (FPO). As of October 31, 2024, 48,611 storage infrastructure projects and 21,004 other infrastructure projects have been sanctioned, with total subsidies disbursed amounting to Rs. 6,921.23 crore (US\$ 811 million).
- To enhance the income of farmers, the government has taken initiatives across several focus areas. Income support is provided to farmers through PM KISAN Scheme, crop insurance is assured through the Pradhan Mantri Fasal Bima Yojana, and irrigation facilities are ensured under Pradhan Mantri Krishi Sinchai Yojana. Access to institutional credit is being provided through Kisan Credit Card and other channels.
- Under the e-NAM initiative, markets across the length and breadth of the nation are now open to farmers, to enable them to get more remunerative prices for their produce. Online, Competitive, Transparent Bidding System with 1.78 crore farmers and 2.62 lakh traders put in place under the National Agriculture Market (e-NAM) Scheme as of October 31, 2024.
- In order to increase the level of food-processing industry and encouraging rural entrepreneurship across the country including rural areas, Ministry Food Processing Industries (MoFPI) is implementing Central Sector Umbrella Scheme Pradhan Mantri Kisan SAMPADA Yojana (PMKSY), Production Linked Incentive Scheme for Food Processing Industry (PLISFPI) and Centrally sponsored PM Formalization of Micro Food Processing Enterprises (PMFME) Scheme.
- Under component schemes of PMKSY, MoFPI mostly provides financial assistance in the form of grants-in-aid to entrepreneurs for creation of modern infrastructure and setting up of food processing / preservation industries including Cold Chains with associated infrastructure like primary processing facilities, collection centres, pre-conditioning, pre-cooling, ripening, packing etc.

## INDEPENDENT AUDITORS' REPORT ON FINANCIAL STATEMENT

To the Members of

**POLYSIL IRRIGATION SYSTEMS LIMITED**  
 (formerly known as "Polysil Irrigation Systems Private Limited")

### Report on the Audit of the Financial Statements

#### Opinion

We have audited the accompanying financial statements of **POLYSIL IRRIGATION SYSTEMS LIMITED (formerly known as "Polysil Irrigation Systems Private Limited")** (the "Company"), which comprise the Balance Sheet as at March 31, 2025, the Statement of Profit and Loss, the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date and a summary of significant accounting policies and other explanatory information (hereinafter referred to as the "financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2025 and its profit, changes in equity and its cash flows for the year ended on that date.

#### Basis for Opinion

We conducted our audit of the financial statements in accordance with the Standards on Auditing ("SA's") specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

#### Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

#### Responsibilities of Management and Those Charged with Governance for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

#### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Paragraph 40(b) of this SA explains that the shaded material below can be located in an Appendix to the auditor's report. Paragraph 40(c) explains that when law, regulation or applicable auditing standards expressly permit, reference can be made to a website of an appropriate authority that contains the description of the auditor's responsibilities, rather than including this material in the auditor's report, provided that the description on the website addresses, and is not inconsistent with, the description of the auditor's responsibilities below. As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

#### **Report on Other Legal and Regulatory Requirements**

1. As required by Section 143(3) of the Act, based on our audit we report that:
  - a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

**Report on the Internal Financial Controls with reference to Financials Statements under Clause (i) of sub-section 3 of Section 143 of the Companies Act, 2013 (the "Act")**

We have audited the internal financial controls with reference to financial statements of **POLYSIL IRRIGATION SYSTEMS LIMITED** (the "Company") as of March 31, 2025 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

**Management's Responsibility for Internal Financial Controls**

The Company's Management is responsible for establishing and maintaining internal financial controls with reference to financial statements based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

**Auditor's Responsibility**

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the ICAI and the Standards on Auditing prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements.

**Meaning of Internal Financial Controls with reference to financial statements**

A company's internal financial control with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

**Inherent Limitations of Internal Financial Controls with reference to Financial Statements**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial control with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

**Opinion**

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at March 31, 2024, based on the criteria for internal financial control with reference to financial statements established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

## TO THE INDEPENDENT AUDITORS' REPORT

Referred to in paragraph 2 under 'Report on Other Legal and Regulatory Requirements' section of our report to the Members of **Polysil Irrigation Systems Limited** (formerly known as "**Polysil Irrigation Systems Private Limited**") of even date

To the best of our information and according to the explanations provided to us by the Company and the books of account and records examined by us in the normal course of audit, we state that:

- i. In respect of the Company's property, plant and equipment, right-of-use assets and intangible assets:
  - a.
    - A. The Company has maintained proper records showing full particulars, including quantitative details and situation of property, plant and equipment and relevant details of right-of-use assets.
    - B. The Company has maintained proper records showing full particulars of intangible assets.
  - b. The Company has a program of physical verification of property, plant and equipment and right-of-use assets so to cover all the assets at reasonable intervals which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. Pursuant to the program, certain property, plant and equipment and right-of-use assets were due for verification during the year and were physically verified by the Management during the year. According to the information and explanations given to us, no material discrepancies were noticed on such verification.
  - c. Based on our examination of documents and according to the information and representations made by the Company, we report that, title deeds of all immovable properties (other than properties where the company is the lessee and the lease agreements are duly executed in favour of the lessee), disclosed in the financial statements included under Property, Plant and Equipment are held in the name of the Company as at the balance sheet date.
  - d. The Company has not revalued any of its property, plant and equipment (including right- of-use assets) and intangible assets during the year.
  - e. Based on our examination of documents and according to the information and representations made by the Company, no proceedings have been initiated during the year or are pending against the Company as at March 31, 2025 for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (as amended in 2016) and rules made thereunder.
- ii.
  - a. As per the information and explanations given us, the inventories held be the company have been physically verified by the management. In our opinion, having regard to the nature and location of stocks, the frequency of the physical verification is reasonable and no discrepancies of 10% or more in aggregate for each class of inventory were noticed on physical verification.
  - b. The Company has been sanctioned working capital limits of Rs. 20.90 Crores, which is same as compared with last year, vide letter from bank dated 21/12/2024, in aggregate, during the financial year, from banks or financial institutions on the basis of security of current assets. The company has been submitting statements to bank. On verification of the statements deviation from books of accounts was noticed. The same has been disclosed in Note No. 42 of the financial statements.

**1. COMPANY INFORMATION**

This financial statements of Polysil Irrigation Systems Limited (hereinafter referred to as the "Company"), for the year ended March 31, 2025.

Polysil Irrigation Systems Limited is a public company domiciled in India and is incorporated under the provisions of the Companies Act, 1956 ("the Act"). The registered office of the Company is located at Survey No- 340/1, Beside Hystuff Steel, At/Post - Raniya, Taluka Savli, District - Vadodara Raniya, Taluka - Savli, Vadodara, Gujarat - 391780. The principal place of business of the Company is in India.

The Company is in the business of manufacturing and selling of HDPE/LLDPE/LD Pipes and Micro Irrigation Systems.

**2. SIGNIFICANT ACCOUNTING POLICIES**
**a. Basis of Preparation**

The financial statements of the company have been prepared in accordance with generally accepted accounting principles in India (Indian GAAP). The financial statements have been prepared to comply in all material respects with the Accounting Standards notified under the section 133 of the Companies Act, 2013 read together with rule 7 of the Companies (Accounts) Rules 2014 and Companies (accounting standards) amendment rules 2016. The financial statements have been prepared on an accrual basis and under the historical cost convention. The accounting policies have been consistently applied by the company and are consistent with those used in the previous year.

The Company is a Small and Medium Sized Company (SMC) as defined in the General Instructions in respect of Accounting Standards notified as per sub-section (1) of section 129 of the Companies Act, 2013. Accordingly, the Company has complied with the Accounting Standards as applicable to a Small and Medium Sized Company.

All the amounts included in the Financial Statements are presented in Indian Rupees ('Rupees' or 'Rs.' Or 'INR') and are rounded to the nearest Lakhs, except per share data and unless stated otherwise.

**b. Use of Estimates**

The preparation of financial statements in conformity with the Indian GAAP requires the management of the Company to make estimates and assumptions that affect the reported balances of assets and liabilities and disclosures relating to the contingent liabilities as at the date of the financial statements and reported amounts of income and expense during the year. Examples of such estimates include provisions for doubtful receivables, provision for income taxes, the useful lives of depreciable fixed assets and provision for impairment. Future results could differ due to changes in these estimates and the difference between the actual result and the estimates are recognised in the period in which the results are known / materialise.

**c. Property, Plant & Equipment**

Property, plant and equipment are carried at cost less accumulated depreciation and any accumulated impairment, if any. Property, plant and equipment is depreciated on a straight-line value basis to its residual value over its estimated useful life.

Cost directly attributable to acquisition are capitalised until the property, plant and equipment are ready for use, as intended by the management.

Subsequent costs are capitalised on the carrying amount or recognised as a separate asset, as appropriate, only when future economic benefits associated with the item are probable to flow to the Company and cost of the item can be measured reliably. When significant parts of property, plant and equipment are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All repair and maintenance are charged to statement of profit and loss during the reporting period in which they are incurred.

Advances paid towards the acquisition of property, plant and equipment outstanding at each balance sheet date is classified as capital advances under the non-current assets and the cost of assets not ready to use before such date are disclosed under 'Capital work in progress'.

The gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in the statement of profit and loss on the date of disposal or retirement.

**d. Intangible assets**

Separately acquired intangible assets, such as software are measured initially at cost. Following initial recognition, intangible assets are carried at cost less accumulated amortization and accumulated impairment losses, if any. Internally generated intangible assets, excluding capitalized development costs, are not capitalized and expenditure is reflected in the restated statement of profit and loss in the year in which the expenditure is incurred. Intangible assets with finite useful lives are carried at cost and are amortised on a written down value basis over their estimated useful lives and charged to statement of profit and loss.

Software and licenses acquired are amortized at the 5 years on straight line value method.

The amortization period and the amortization method are reviewed at least at each financial year end. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortisation period or method, as appropriate, and are treated as changes in accounting estimates. The amortisation expense on intangible assets is recognised in the restated statement of profit and loss unless such expenditure forms part of carrying value of another asset.

Gains or losses arising from de-recognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit and loss when the asset is derecognized.

**e. Depreciation and amortization**

Depreciation and amortisation are provided using the straight-line value method and charged to statement of profit and loss as per the useful life prescribed under Schedule II of the Companies Act, 2013.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

#### **f. Impairment of assets**

An assessment is made at each reporting date to determine whether there is an indication that previously recognised impairment losses no longer exist or have decreased. If such indication exists, the Company estimates the asset's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in financial year.

#### **g. Leases**

Assets taken on lease by the Company in its capacity as lessee, where the Company has substantially all the risks and rewards of ownership are classified as finance lease. Such a lease is capitalised at the inception of the lease at lower of the fair value or the present value of the minimum lease payments and a liability is recognised for an equivalent amount. Each lease rental paid is allocated between the liability and the interest cost so as to obtain a constant periodic rate of interest on the outstanding liability for each year.

Lease arrangements where the risks and rewards incidental to ownership of an asset substantially vest with the lessor, are recognised as operating leases. Lease rentals under operating leases are recognised in the statement of profit and loss on a straight-line basis.

#### **h. Investment**

- Investments, which are readily realizable and intended to be held for not more than one year from the date on which such investments are made, are classified as current investments. All other investments are classified as long-term investments.
- On initial recognition, all investments are measured at cost. The cost comprises purchase price and directly attributable acquisition charges such as brokerage, fees and duties.
- Current investments are carried in the financial statements at lower of cost and fair value determined on an individual investment basis. Long-term investments are carried at cost. However, provision for diminution in value is made to recognize a decline other than temporary in the value of the investments.
- On disposal of an investment, the difference between its carrying amount and net disposal proceeds is charged or credited to the statement of profit and loss.

#### **i. Inventories**

- Raw materials, packing materials and stores & spares are valued at lower of cost and net realizable value. Cost of raw materials, packing materials are determined on First in First out (FIFO) basis and cost of stores & spares are determined on weighted average cost method.
- Work-in-progress and finished goods are valued at lower of cost and net realizable value. Cost includes direct materials and labour and a proportion of manufacturing overheads based on normal operating capacity. Cost is determined on FIFO basis.
- Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

#### **j. Cash and cash equivalents**

The Company considers all highly liquid financial instruments, which are readily convertible into known amount of cash that are subject to an insignificant risk of change in value and having original maturities of three months or less from the date of purchase, to be cash equivalents.

#### **k. Capital Work-in-progress**

Cost and direct expense incurred for construction of assets or assets to be acquired and which are not ready for use are disclosed under "Capital Work-in-progress"

#### **l. Retirement and other employee benefits**

For defined benefit plans, the liability or asset recognised in the statement of assets and liabilities on the basis of actuarial valuation at each year-end. Separate actuarial valuation is carried out for each plan using the projected unit credit method. Actuarial gains and losses for both defined benefit plans are recognized in full in the period in which they occur in the statement of profit and loss.

The Company's contributions to defined contribution plans (provident fund) are recognized in statement of profit and loss when the employee renders related service. The Company has no further obligations under these plans beyond its periodic contributions.

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as salary and wages payable under other current liabilities in the statement of assets and liabilities.

#### **m. Revenue recognition**

Revenue is measured based on the consideration specified in a contract with a customer net of variable consideration e.g. discounts, volume rebates, any payments made to a customer (unless the payment is for a distinct good or service received from the customer) and excludes amounts collected on behalf of third parties. The Company recognises revenue when it transfers control over a product or service to a customer. Revenue is only recognised to the extent that it is highly probable that a significant reversal will not occur.

The Company provides incentives to its users in various forms. Incentives which are consideration payable to the customer that are not in exchange for a distinct good or service are generally recognized as a reduction of revenue.

Where the Company acts as an agent for selling goods or services, only the commission income is included within revenue. The specific revenue recognition criteria described below must also be met before revenue is recognized. Typically, the Company has a right to payment before or at the point that services are delivered. Cash received before the services are delivered is recognised as a contract liability. The amount of consideration does not contain a significant financing component as payment terms are less than one year.

#### **Sale of Goods**

Revenue from sale of goods is recognized when all the significant risks and rewards of ownership of the goods have been passed to the buyer. Sales are presented net of Excise duty collected on behalf of the Government, trade discounts and returns, as applicable.

#### **Sale of services**

Revenue from services is recognized when the control in services is transferred as per the terms of the agreement with customer i.e. as and when services are rendered. Revenues are disclosed net of the Goods and Service tax charged on such services. In terms of the contract, excess of revenue over the billed at the year-end is carried in the statement of assets and liabilities as unbilled revenue under other financial assets where the amount is recoverable from the customer without any future performance obligation. Cash received before the services are delivered is recognised as a contract liability.

#### **Other operating revenue**

Where the Company is contractually entitled to receive claims/compensation in case of non-discharge of obligations by customers, such claims/compensations are measured at amount receivable from such customers and are recognised as other operating revenue when there is a reasonable certainty that the Company will be able to realize the said amounts.

#### **Interest income**

Interest income is recognised on a time proportion basis taking into account the amount outstanding and the applicable interest rate. Interest income is included under the head "other income" in the statement of profit and loss account.

#### **n. Borrowing Cost**

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in the restated statement of profit and loss in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

#### **o. Earnings/ (loss) per share (EPS)**

Basic EPS amounts are calculated by dividing the profit/ (loss) for the year attributable to equity holders by the weighted average number of Equity shares outstanding during the year.

Diluted EPS amounts are calculated by dividing the profit/ (loss) attributable to equity holders by the weighted average number of Equity shares outstanding during the year plus the weighted average number of Equity shares that would be issued on conversion of all the dilutive potential Equity shares into Equity shares.

#### **p. Foreign currency transactions**

##### **Functional and presentation currency**

Items included in the Restated Financial Information of the Company are measured using the currency of the primary economic environment in which it operates i.e. the "functional currency". The Company's restated financial information is presented in INR.

##### **Transactions and balances**

Transactions in foreign currencies are initially recorded by the Company's at their respective functional currency at exchange rates prevailing at the date the transaction first qualifies for recognition.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date. Exchange differences arising on settlement or translation of monetary items are recognised in statement of profit and loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions.

Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e. translation differences on items whose fair value gain or loss is recognised in statement of profit and loss).

#### **q. Taxation**

##### **Current tax**

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date in the India where the Company operates and generates taxable income.

Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and considers whether it is probable that a taxation authority will accept an uncertain tax treatment. The Company measures its tax balances either based on the most likely amount or the expected value, depending on which method provides a better prediction of the resolution of the uncertainty.

##### **Deferred tax**

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date. Deferred tax liabilities are recognised for all taxable temporary differences.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised. The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are reassessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

#### **Minimum alternate tax**

Credit of MAT is recognised as deferred tax asset only when it is probable that taxable profit will be available against which the credit can be utilised. In the year in which the MAT credit becomes eligible to be recognised as an asset, the said asset is created by way of a credit to the restated statement of profit and loss account. The Company reviews the same at each balance sheet date and writes down the carrying amount of MAT credit entitlement to the extent it is no longer probable that the Company will pay normal income tax during the specified period."

#### **Taxes paid on acquisition of assets or on incurring expenses**

Assets are recognised net of the amount of GST paid, except when the tax incurred on a purchase of assets is not recoverable from the taxation authority, in which case, the tax paid is recognised as part of the cost of acquisition of the asset.

Expenses are recognised net of the amount of GST paid, except when the tax incurred on a purchase of services is not recoverable from the taxation authority, in which case, the tax paid is expensed off in statement of profit and loss.

The net amount of tax recoverable from, or payable to, the taxation authority is included as part of other current/ non-current assets or other current liabilities in the statement of assets and liabilities.

#### **r. Segment accounting**

The Company is engaged in one segment only i.e. High Density Polyethylene Pipe (HDPE)/Linear Low Density Polyethylene Pipe (LLDPE)/Low Density Polyethylene Pipe (LDPE) and Micro irrigation Systems and hence there are no separate reportable segment.

#### **s. Government grants and subsidies**

- Grants and subsidies from the government are recognized when there is reasonable assurance that (a) the company will comply with the conditions attached to them, and (b) the grant/subsidy will be received.
- Where the grant relates to an asset, it is shown as a reduction from the gross value of the asset concerned in arriving at its book value. The grant is thus recognised in the statement of profit and loss over the useful life of the asset by way of reduced depreciation charge.
- Where the grant relates to reimbursement of interest on term loan, it is recognised as a reduction from the finance cost of the term loan concerned.

#### **t. Provisions & Contingencies**

##### **Provisions**

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Company expects some or all of a provision to be reimbursed, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the statement of profit and loss net of any reimbursement. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

##### **Contingencies**

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Company does have recognized a contingent commitment in the financial statements.

#### **u. Prior Period Items**

Prior period items shall be separately disclosed in the statement of profit and loss in the reporting period together with their nature and amount in a manner so that their impact on profit or loss in the reporting period can be perceived.

Had complied with AS 15 the prior period expenses are incurred in the reporting period and which has been recognised and disclosed separately in statement of profit and loss.

#### **v. Exceptional Items**

On certain occasions, the size, type or incidence of an item of income or expense, pertaining to the ordinary activities of the Company is such that its disclosure improves the understanding of the performance of the Company. Such income or expense is classified as an exceptional item and accordingly disclosed in the Financial Statements.
