On behalf of the Board of Directors, I extend my sincere gratitude to all our shareholders, customers, business associates, lenders, employees and other stakeholders for their continued trust, confidence and unwavering support.

The financial year 2025-26 has been another significant milestone in the Company's growth journey. The company has also completed its **corn oil unit project** and commenced its commercial operations in January – 2026.

Despite a dynamic business environment marked by fluctuations in raw material prices, geopolitical uncertainties, evolving consumer preferences and changing economic conditions, your Company demonstrated resilience, operational excellence and sustained business momentum.

During the year under review on standalone basis, your company reported total revenue from operations amounted to Rs. 82,990.23 lakhs as against Rs. 93,559.24 lakhs during the previous financial year 2024-25. The Net Profit of your Company for the year amounted to Rs. 1,448.21 lakhs as against Rs. 1,503.14 lakhs during the previous financial year 2024-25.

Ramdevbaba Solvent Limited continues to strengthen its position as a leading manufacturer and supplier of **Physically Refined Rice Bran Oil and other edible oils**. Our products cater to institutional customers as well as FMCG companies, retailers, wholesalers and distributors under our trusted brands **"Tulsi", "Sehat" and "EATREO"**.

During the year, the Company further expanded its product portfolio by launching and commencing the supply of **blended edible oils under its new brand "EATREO"**. The **EATREO** brand represents the Company's blended edible oil segment and includes blended oils comprising **Refined Rice Bran Oil along with Groundnut Oil, Sunflower Oil and Soybean Oil**, thereby offering consumers a wider range of edible oil products. With the introduction of **EATREO**, the Company has further diversified its edible oil portfolio and strengthened its presence across both institutional and consumer-oriented markets.

Alongside our core edible oil business, we continue to derive value from by-products such as De-oiled Rice Bran (DORB), fatty acids, lecithin, gums, spent earth and wax, thereby ensuring optimum resource utilisation and operational efficiency. Our products are marketed across Maharashtra, Goa, Gujarat, Madhya Pradesh, Andhra Pradesh, Telangana, Karnataka, Kerala and Tamil Nadu, enabling us to maintain a strong regional presence.

The Indian edible oil industry continues to play a vital role in ensuring food security and nutritional well-being. Edible oils remain an indispensable component of daily consumption, while evolving consumer awareness towards healthier lifestyles is gradually reshaping demand patterns. Rice Bran Oil, recognised for its balanced composition of Polyunsaturated Fatty Acids (PUFA) and Monounsaturated Fatty Acids (MUFA), along with its natural antioxidant properties derived from Vitamin E, continues to gain acceptance among health-conscious consumers. We believe these long-term consumption trends will continue to create favourable opportunities for sustained growth.

Looking ahead, we are excited about expanding our footprint into the **Fast Moving Consumer Goods (FMCG)** segment through the introduction of a new range of consumer products. This strategic initiative represents an important step in our long-term growth strategy and is expected to strengthen our brand portfolio, enhance customer engagement and diversify our revenue streams. We believe that expanding into value-added consumer products will further reinforce our market presence and create sustainable value for all stakeholders.

During the year, although the industry experienced moderation in urban demand and continued volatility in commodity prices, the Company remained focused on strengthening its competitive position through operational excellence, enhanced productivity, efficient procurement and disciplined cost management. Our continued emphasis on quality, customer satisfaction and innovation has enabled us to remain competitive in an evolving marketplace.

We also remain vigilant in monitoring global geopolitical developments, supply chain dynamics, regulatory changes and economic conditions, all of which have the potential to influence the edible oil industry. Sustainability continues to be integral to our business philosophy. We are committed to responsible manufacturing practices, efficient utilisation of natural resources, continuous improvement in quality standards and compliance with all applicable regulatory requirements. Our focus remains on creating long-term value while fulfilling our environmental and social responsibilities.

As we move into FY 2026-27 and beyond, we remain optimistic about the Company's future. Our growth strategy will continue to be driven by expanding our product portfolio, strengthening our distribution network, embracing technological advancements, improving operational efficiencies and exploring new market opportunities. Supported by our experienced management team, strong customer relationships and prudent financial discipline, we are confident of sustaining our growth momentum and delivering long-term value to our stakeholders.

On behalf of the Board, I extend my heartfelt appreciation to our valued shareholders for their continued confidence in the Company. I also sincerely thank our customers, suppliers, bankers, financial institutions, government authorities and business partners for their enduring support. Above all, I express my deepest gratitude to our employees, whose commitment, dedication and relentless efforts continue to be the driving force behind the Company's achievements.

With your continued trust and encouragement, we remain committed to building a stronger, more resilient and future-ready Ramdevbaba Solvent Limited.

Yours Sincerely,

SD/-

OUR CORE COMPETENCIES

Strategic location of our Manufacturing Facilities:

Our Manufacturing Facilities are situated near Nagpur, Maharashtra giving us the strategic advantage to supply and distribute Rice Bran Oil in Maharashtra and DORB across various states in India. We are the preferred partner for our FMCG clients for manufacturing Rice Bran Oil as it can be easily distributed to central and southern India from Nagpur. Our strategic location also enables us to sell DORB to the southern states of Andhra Pradesh, Telangana, Karnataka, Kerala and Tamil Nadu, which is used by fish & poultry farmers, traders and certain end user industries for their products.

Easy availability of rice bran around our Manufacturing Facilities:

Rice bran oil is extracted from the hard outer brown layer of rice called bran. There are various rice mills which are situated near our Manufacturing Facilities ensuring the supply of rice bran to us on regular basis. Vidarbha region is one of the largest rice producing area in the State of Maharashtra and therefore rice bran is easily available at competitive prices. The ease of availability of rice bran in abundance, which is our main raw material, ensures the smooth operations of our Manufacturing Facilities, and production and sale of our finished products. In addition to the ease in availability, rice bran is also available to us at a competitive price which in turn enhances our ability to compete aggressively in pricing of our finished product as compared to our competitors.

Integrated operations and economies of scale:

Manufacture of Rice Bran Oil mainly involves two processes: (i) solvent extraction of crude oil from rice bran; and (ii) refining the extracted crude rice bran oil. We have integrated operations involving the extraction of oil from bran and refining of the extracted oil enabling us to meet the time, cost efficiency, quality and quantity requirements. Our Manufacturing Facilities have been designed in such a manner that for our operations, materials from one production process are transferred to the following production process through pipelines in a seamless way. This integration allows us not only to save costs but also helps us achieve economies of scale by controlling the inputs / production based on each previous process, improving our efficiency and margins.

Manufacturing Facilities:

We have two (2) Manufacturing Facilities out of which one is situated at Bramhapuri and another one is situated at Mahadula near Nagpur, Maharashtra. Our Manufacturing Facilities comprise of three (3) solvent extraction facilities and two (2) oil refinery facilities with an aggregate installed capacity of around 2,55,000 MTPA and 48,000 MTPA, respectively. Our Manufacturing Facilities spread across 1,28,000 sq. metres. of land.

Solvent Extraction Facilities:

We have installed three (3) solvent extraction facilities in our Manufacturing Facilities. In our solvent extraction facilities, we produce Crude Rice Bran Oil and other by-product, De-oiled Rice Bran (DORB). Our solvent extraction facilities are semi-automated and presently houses palletizers, boilers, extractors, condensers and conveyors machines. We have also installed effluent treatment plant at our solvent extraction facilities to treat and re-use the effluent generated from solvent extraction process. Further, our solvent extraction facilities have supporting infrastructure, including storage for raw materials and finished products, storage tanks for crude oil, steam boilers, and a backup diesel generator.

Oil Refining Facilities:

We have installed two (2) oil refining plants, one (1) each in both of our Manufacturing Facilities. At our oil refining plants, we produce the Rice Bran Oil and by-products namely, fatty acid, lecithin, gums, spent earth, wax, etc. The current aggregate installed capacity of oil refining facilities is 48,000 MTPA of Refined Rice Bran Oil. Each of our processing plants has a steam boiler. Our boilers are primarily dependent on biomass fuel such as husk, which is available in abundance from traders and rice mills in the Vidarbha region of Maharashtra.

We source the water supply from bore wells and open wells for both of our Manufacturing Facilities. Water is mainly used to generate steam as required in the manufacturing process of our products.

Information other than Standalone Financial Statements and Auditor’s Report thereon

The Company’s Board of Directors is responsible for the other information. The Other information comprises the information included in the annual report but does not include the financial statements and our auditor’s report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider where the other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is no material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

Management’s Responsibility for the Standalone Financial Statements

The Company’s Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 (“the Act”) with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance, and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Standalone financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Standalone financial statements Board of Directors is responsible for assessing the Company’s ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the company’s financial reporting process

Auditor’s Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the Standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Standalone financial statements.

As part of an audit in accordance with Standards on Auditing, We exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, We are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Board of Directors.
- Conclude on the appropriateness of Board of Directors use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company’s ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor’s report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor’s report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Standalone financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the standalone financial results of the Company to express an opinion on the standalone financial statements.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the standalone financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the standalone financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor’s report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Ramdevbaba Solvent Limited (Formerly known as Ramdevbaba Solvent Private Limited) ("the Company") as of 31 March 2026 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2026, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Information other than Consolidated Financial Statements and Auditor's Report thereon

The Company's Board of Directors is responsible for the other information. The Other information comprises the information included in the annual report but does not include the consolidated financial statements, standalone financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information, compare with the financial statements of the Subsidiary and Associate Company audited by other auditors, to the extend it relates to these entities and, in doing so, place reliance on the work of the other auditors and consider where the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. Other information so far as it relates to the Subsidiary and Associate Company, it traced from their financial statement audited by the other auditors.

If, based on the work we have performed, we conclude that there is no material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Consolidated Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance, and consolidated cash flows of the Group including its Subsidiary and Associate Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act. The respective Board of Directors of the companies included in the Group and of its associates are responsibility for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Group and its associates for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Consolidated financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Consolidated financial statements, the respective management of the Companies included in the Group and of its associates are responsible for assessing the ability of the respective entities to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the respective Board of Directors either intends to liquidate their respective entities or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group and of its associate are also responsible for overseeing the financial reporting process of the Group and of its associate.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the Consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Consolidated financial statements.

As part of an audit in accordance with Standards on Auditing, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, We are also responsible for expressing our opinion on whether the Holding company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Board of Directors.
- Conclude on the appropriateness of Board of Directors use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group and associates to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and its associates to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group and its associate to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities or business activities included in the consolidated financial statements of which we are the independent auditors. For the other entities or business activities included in the consolidated financial statements, which have been audited by the other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

Materiality is the magnitude of misstatements in the consolidated financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the consolidated financial statements may be influenced. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

MANAGEMENT DISCUSSION AND ANALYSIS

ECONOMIC SCENARIO

Global Economy

During Financial Year 2025-26, the global economy demonstrated moderate growth despite a challenging macroeconomic environment characterised by persistent inflationary pressures, elevated interest rates, geopolitical conflicts and continuing trade realignments. Global supply chains continued to normalise; however, volatility in commodity prices, currency movements and freight costs remained significant factors influencing international trade.

The global edible oil industry experienced heightened price volatility during the year owing to fluctuations in production levels across key producing nations, including Indonesia, Malaysia, Argentina, Brazil, Russia and Ukraine. Weather-related disruptions, evolving biofuel policies, export regulations and changing geopolitical dynamics continued to influence the availability and pricing of major vegetable oils such as palm oil, soybean oil and sunflower oil. Nevertheless, long-term demand fundamentals remained resilient, supported by population growth, urbanisation, rising disposable incomes and increasing demand for quality food products.

Indian Economy

India continued to maintain its position among the world's fastest-growing major economies during FY 2025-26, supported by robust domestic consumption, sustained public infrastructure investment, sound macroeconomic fundamentals and policy reforms. Government initiatives aimed at improving manufacturing competitiveness, enhancing agricultural productivity and strengthening infrastructure continued to support economic growth despite global uncertainties.

The food processing and FMCG sectors remained resilient throughout the year, driven by stable consumer demand across both urban and rural markets. Rising disposable incomes, increasing health awareness, rapid urbanisation and growing preference for branded food products continued to support demand for quality edible oils.

The Government of India's continued focus on achieving self-reliance in edible oils through enhanced domestic oilseed cultivation, promotion of oil palm plantations and productivity improvement initiatives is expected to reduce import dependency over the medium to long term while creating significant growth opportunities for the domestic edible oil industry.

Looking ahead, India's favourable demographic profile, expanding middle-income population, increasing consumer spending and ongoing policy support are expected to provide a strong foundation for sustained economic growth, thereby creating favourable opportunities for businesses operating in the edible oil and food processing sectors.

INDUSTRY OVERVIEW

The edible oil industry constitutes one of the most significant segments of India's food processing sector and plays a vital role in ensuring the country's food security. India is among the world's largest consumers as well as importers of edible oils, with demand continuing to outpace domestic production due to changing dietary patterns, population growth, urbanisation and rising household incomes.

The domestic edible oil market comprises a diverse range of products, including palm oil, rice bran oil, soybean oil, sunflower oil, mustard oil, groundnut oil and specialty oils. Palm oil continues to account for a significant share of total consumption owing to its affordability and extensive industrial applications, while rice bran oil, sunflower oil and soybean oil continue to gain consumer acceptance because of increasing awareness regarding healthier cooking alternatives.

The Indian FMCG sector, one of the largest contributors to the country's economy, continues to witness strong growth supported by rising consumer aspirations, organised retail expansion, digital commerce and increasing penetration into rural markets. The evolving retail landscape has further strengthened the demand for branded and packaged edible oils, encouraging manufacturers to focus on quality, product differentiation and brand development.

During FY 2025-26, the edible oil industry experienced considerable volatility driven by fluctuations in international crude edible oil prices, changes in import duties, currency movements, geopolitical developments and variations in freight costs. Despite these challenges, domestic demand remained resilient, supported by stable consumption patterns and increasing preference for packaged edible oils.

India continues to rely substantially on imports to meet its edible oil requirements. While domestic production of oilseeds has shown gradual improvement, the demand-supply gap remains significant. Accordingly, Government initiatives aimed at enhancing domestic oilseed production, improving crop productivity, expanding oil palm cultivation and strengthening processing infrastructure are expected to play a crucial role in improving long-term self-sufficiency.

Growing consumer awareness regarding nutrition and healthy lifestyles is expected to accelerate demand for premium, fortified and value-added edible oils. Increasing emphasis on food safety, quality assurance and traceability is also encouraging industry participants to adopt modern manufacturing practices, advanced refining technologies and robust quality management systems.

Overall, the long-term outlook for the Indian edible oil industry remains positive, supported by favourable demographic trends, increasing per capita consumption, expanding organised retail, growing e-commerce penetration and continued Government policy support.
