FOUNDER'S MESSAGE

“एक बेहतर विचार से
बेहतर कल की ओर,
विश्वास के साथ निरंतर
प्रगति की ओर।”

The story of Mr. Dilip Kagathara begins in Depaliya, near Rajkot, Gujarat, where he was born in 1967. Driven by ambition and strong determination, he moved to Rajkot in 1988 with a clear goal to carve his own path through hard work and integrity.

His entrepreneurial journey began with a small venture, Rupkali Novelty. This phase taught him the true essence of business understanding people, building trust, and delivering consistent value. By traveling extensively across villages and local markets, he gained deep, hands-on experience in sales and marketing, which laid a strong foundation for his entrepreneurial mindset.

While he achieved early success, his vision always extended beyond short-term growth. He aspired to create something meaningful an enterprise that would positively impact society and contribute to the well-being of people. This vision led him to the nonwoven industry, which he strongly believed had the potential to serve essential needs across healthcare, hygiene, and daily life.

Guided by ethics, responsibility, and long-term thinking, Mr. Dilip Kagathara entered the nonwoven manufacturing sector in 2007. With perseverance, dedication, and continuous learning, the foundation of the business grew stronger over time. In 2015, his elder son, Mr. Jay D. Kagathara, joined the journey, and together they founded Spunweb.

Today, Spunweb Nonwoven Ltd. stands as a reflection of Mr. Dilip Kagathara's journey rooted in strong values, driven by vision, and committed to improving lives through quality, responsibility, and innovation.

"We dream bigger, work harder, and stay committed to shape Spunweb into a sustainable legacy."

MANAGEMENT DISCUSSION AND ANALYSIS

NON-WOVEN FABRIC MARKET

Global Market

The global market for hydrophobic and hydrophilic non-woven fabrics is expected to reach approximately USD 40.77 billion by FY2029E. The market is projected to grow at a CAGR of 5.7% between FY2026 and FY2029, supported by increasing demand from key end-use industries such as hygiene, healthcare, medical products and packaging. The moisture-repellent and moisture-absorbent properties of these fabrics make them particularly suitable for applications including diapers, wipes, sanitary products and medical equipment (*Source: MAIA Research*).

Indian Market

The Indian non-woven fabric market is expected to witness significantly stronger growth, with demand projected to increase at a CAGR of 11.2% from FY2026 to FY2029E. This growth is being driven by rising healthcare and hygiene awareness, increasing disposable incomes, urbanisation and the expanding adoption of non-woven products across hygiene, medical, agriculture and industrial applications. India's growing manufacturing capabilities and increasing competitiveness in spunbond non-wovens are also expected to support the country's expanding role in the global non-woven fabric industry. (*Source: MAIA Research*).

Demand Drivers for the Non-Woven Fabric Market

The demand for non-woven fabrics is being driven by several key factors, including rising hygiene awareness, increasing demand for premium-quality products, growing adoption in agriculture, and expanding export opportunities.

Hygiene penetration:

India's rapidly expanding middle class, rising disposable incomes, urbanisation and growing health consciousness are driving greater adoption of hygiene and healthcare products made from non-woven fabrics.

Premium grades:

Increasing consumer preference for high-quality products is supporting demand for premium non-woven fabrics. Soft-touch and hydrophobic/hydrophilic SSS grades are gaining traction and commanding higher prices.

Agri non-wovens:

Growing awareness of modern agricultural practices is encouraging the use of non-woven fabrics in agriculture. Crop and fruit covers, frost covers and weed mats are witnessing increasing adoption due to their ability to improve crop protection and productivity.

Export traction:

Indian non-woven fabric manufacturers are increasingly becoming competitive with Chinese suppliers. Rising exports and greater geographic diversification are helping Indian manufacturers expand their international presence while reducing dependence on a single market.

Auditor's Responsibilities For The Audit Of The Financial Statements

- 1 Our objectives are to obtain reasonable assurance about whether the Standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Standalone financial statements.
- 2 As a part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:
 - Identify and assess the risks of material misstatement of the Standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
 - Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
 - Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
 - Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
 - Evaluate the overall presentation, structure, and content of the Standalone financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

- 3 We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Annexure B the Independent Auditors' Report of even date on the Standalone Financial Statements of Spunweb Nonwoven Limited

We have audited the internal financial controls over financial reporting of **Spunweb Nonwoven Limited**, (the "Company") as of **31st March, 2026** in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls:

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility:

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting:

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting:

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion:

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2026 based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Based on management's current assessment, the Company expects to meet its obligations as they fall due. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates. Contingent liabilities are not recognised in the financial statements. A contingent asset is neither recognised nor disclosed in the financial statements.

Contingent liabilities are not recognised in the financial statements but are disclosed when the possibility of an outflow of resources embodying economic benefits is not remote. General Description of the Plan

1.1 Discount rate: The discount rate is based on the prevailing market yields of Indian government securities for the estimated term of the obligations. 1.2 Salary escalation rate: The estimates of future salary increases considered takes into account the inflation, seniority, promotion and other relevant factors. 1.3 The liability for leave encashment is recognised on the basis of an actuarial valuation carried out as at the reporting date using the Projected Unit Credit Method (PUCM). For the financial years 2025-26 and 2024-25, the Company has considered age-wise employee attrition rates for actuarial valuation purposes. The assumed attrition rate is 10.00% for employees aged 25 years and below, 8.00% for employees aged above 25 years up to 35 years, 6.00% for employees aged above 35 years up to 45 years, 4.00% for employees aged above 45 years up to 55 years, and 2.00% for employees aged above 55 years. These assumptions reflect the Company's expectation of employee turnover based on the respective age groups and are used in estimating long-term employee benefit obligations.

The Company has taken premises on lease for its operations. These lease arrangements are generally executed for a short term period of 11 months and are renewable at the option of both the lessor and lessee upon mutual consent. The lease arrangements do not transfer substantially all the risks and rewards incidental to ownership to the Company and therefore are classified as operating leases in accordance with the requirements of Accounting Standard (AS) 19 – "Leases"

Further, as per AS 19, leases where the lease term is for a period of 12 months or less, or where the lease is cancellable/renewable at the option of either party without significant penalty, are generally treated as short-term operating leases. In such cases, disclosure of future minimum lease payments under non-cancellable lease arrangements is not required, since the Company does not have enforceable long-term contractual obligations beyond the current lease term

Accordingly, the Company's shop premises are typically taken on 11-month lease arrangements, which are renewable by mutual consent and do not contain significant non-cancellable future commitments. Hence, these arrangements fall under short-term operating leases, and only lease rental expenses are recognized in the Statement of Profit and Loss on a straight-line basis over the lease term, as per AS 19. In view of the above, the disclosures relating to finance leases (including asset recognition, minimum lease payments, and reconciliation of present value of lease obligations) are not applicable, as the Company does not enter into finance lease arrangements

Similarly, the disclosure requirements relating to operating leases under AS 19, including future minimum lease payments for non-cancellable lease arrangements (i.e., not later than one year, between one to five years, and beyond five years), are not applicable, as the Company's lease arrangements are short-term in nature and generally cancellable/renewable at the discretion of both parties. Accordingly, lease rental expenses have been appropriately disclosed as part of "Rent Expenses" in the Statement of Profit and Loss, and no further disclosures relating to long-term lease commitments have been provided.

(k) Return on investment	$\frac{\text{Return on Investment}}{\text{Total Investment}}$	0.00%	0.00%	

Reasons for Variances

The current ratio improved significantly primarily due to an increase in current assets and/or a substantial reduction in current liabilities during the year. The repayment of short-term borrowings and improved working capital management contributed to the higher liquidity position.

The debt-equity ratio declined significantly owing to substantial repayment/reduction of borrowings during the year along with improvement in shareholders' equity due to retention of profits. This has resulted in a stronger capital structure and lower financial leverage.

The inventory turnover ratio decreased mainly due to higher average inventory levels maintained during the year and/or comparatively lower growth in sales. The increase in inventory was primarily to ensure uninterrupted supply and meet anticipated demand.

The decrease in the net capital turnover ratio is attributable to a significant increase in working capital, driven by higher current assets and lower current liabilities, while the growth in revenue was comparatively lower.

The net profit ratio improved substantially due to higher profitability during the year, supported by improved operating margins, better cost control measures, and efficient utilization of resources despite the increase in turnover.

We have audited the accompanying Consolidated financial statements of **Spunweb Nonwoven Limited** (CIN:L17291GJ2015PLC084107) (hereinafter referred as the "**Holding Company**") and its subsidiaries, i.e., **Spunweb India Private Limited** (CIN: U13121GJ2024PTC155334) and **Cigate Consumer Private Limited** (CIN:U20237GJ2025PTC169158) ,(hereinafter referred as the "**Subsidiary Companies**") (together they are referred as the "**Group Company**") which comprise the Balance sheet as at 31 March 2026 and the Statement of profit and loss, the Cash flow statement for the year then ended, and a summary of significant accounting policies and other explanatory information.
2. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view, in conformity with the Accounting Standards prescribed under Section 133 of the Act and other accounting principles generally accepted in India, of the state of affairs of the Group as at March 31, 2026, and of its profit and cash flows for the year ended on that date.

Basis for opinion

1. We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the Consolidated Financial statements under the provisions of the Companies Act, 2013 and the Rules there under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit matters

1. Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements for the financial year ended on 31 March 2026. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Responsibility of Management and those charged with Governance for the consolidated Financial Statements:

1. The Holding Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 (hereinafter referred to as the "**Act**") with respect to the preparation and presentation of these Consolidated Financial statements that give a true and fair view of the Consolidated Financial position and Consolidated Financial performance of the Group in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate

internal Consolidated Financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Consolidated Financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

2. In preparing the Consolidated Financial statements, management is responsible for assessing the Group Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate companies or to cease operations, or has no realistic alternative but to do so.
3. The Board of Directors are also responsible for overseeing the Group Company's Consolidated Financial reporting process.

Auditor's Responsibility for the Audit of Consolidated Financial Statements

1. Our objectives are to obtain reasonable assurance about whether the Consolidated Financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Consolidated Financial statements.
2. As a part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:
 - Identify and assess the risks of material misstatement of the Consolidated Financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
 - Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal Consolidated Financial controls system in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
 - Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Consolidated Financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
 - Evaluate the overall presentation, structure and content of the Consolidated Financial statements, including the disclosures, and whether the Consolidated Financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
3. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on the internal financial controls with reference to the consolidated financial statements under section 143(3)(i) of the Act

We have audited the internal financial controls over financial reporting of the Holding Company as of March 31, 2026 in conjunction with our audit of the consolidated financial statements of the Holding Company and its subsidiaries which are companies incorporated in India (the Holding Company and its subsidiaries together referred to as "the Group") for the year ended on that date.

Management's Responsibility for Internal Financial Controls:

The respective Board of Directors or managements of Holding Company and subsidiaries, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the respective Companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting ('the Guidance Note') issued by the Institute of Chartered Accountants of India ('the ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility:

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting with reference to the consolidated financial statements and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting with reference to the consolidated financial statements, assessing the risk that a material weakness exists, and

testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting with reference to the consolidated financial statements

Meaning of Internal Financial Controls Over Financial Reporting:

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the

company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the Consolidated financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting:

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion:

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2026 based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Impairment loss is provided to the extent the carrying amount of such assets exceed their recoverable amount. Recoverable amount is the higher of an asset's net selling price and its value in use. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of an asset and from its disposal at the end of its useful life. Net selling price is the amount obtainable from the sale of an asset in an arm's length transaction between knowledgeable, willing parties, less the cost of disposal.

h Leases

Lease arrangements where the risks and rewards incidental to ownership of an asset substantially vest with the lessor are recognized as operating lease. Lease rentals under operating leases are recognized in the Statement of Profit and Loss on a straight-line basis.

Leases are classified as operating leases where the lease arrangements do not transfer substantially all the risks and rewards incidental to ownership to the Company. The Company primarily takes shop/premises on lease for its business operations, generally for short-term periods of 11 months, which are renewable at the option of both the lessor and lessee upon mutual consent.

Since such lease arrangements are for a period of 12 months or less and are cancellable/renewable without significant penalty, they are treated as short-term operating leases in accordance with Accounting Standard (AS) 19 – Leases. Lease payments under operating leases are recognised as an expense in the Statement of Profit and Loss on a straight-line basis over the lease term.

The Company does not enter into any finance lease arrangements; accordingly, recognition of leased assets and corresponding lease liabilities is not applicable.

i Investment

Investments that are readily realisable and intended to be held for not more than twelve months from the reporting date are classified as current investments. Investments other than current investments are classified as long-term investments. Long-term investments are carried at cost. A provision for diminution in the value of long-term investments is made only when such diminution is other than temporary in nature. The determination of whether the diminution is other than temporary is made by considering the nature and duration of the decline, the financial position and performance of the investee, the prospects of recovery and other relevant factors.

Current investments are carried at the lower of cost and fair value. The comparison of cost and fair value is generally made on an individual investment basis or by category, as applicable under the relevant Accounting Standard. Further the cost of investments includes acquisition costs such as brokerage, fees and duties directly attributable to the acquisition. Where an investment is acquired in exchange for another asset or through the issue of shares or other securities, the investment is recognised at the appropriate value in accordance with the applicable Accounting Standards. Further, the Company has placed fixed deposits with banks as security deposits in the ordinary course of business to

meet contractual and operational requirements. These fixed deposits are maintained primarily to provide security for business transactions and are not held with the intention of earning interest or for investment purposes. Accordingly, considering their underlying nature and purpose, these fixed deposits have been classified under Other Non-Current Assets in the financial statements. The classification reflects the substance of the arrangement, as the deposits are restricted for business purposes and are expected to remain with the respective parties for a period exceeding twelve months from the reporting date.

On disposal of an investment, the difference between the carrying amount and the net disposal proceeds is recognised in the Statement of Profit and Loss in the period in which the investment is disposed of. Further, dividend income from investments is recognised when the Company's right to receive the dividend is established. Interest income on investments is recognised on an accrual basis, where applicable.

Raw materials are carried at the lower of cost and net realisable value. Cost is determined on a weighted average basis. Purchased goods-in-transit are carried at cost. Work-in-progress is carried at the lower of cost and net realisable value. Stores and spare parts are carried at lower of cost and net realisable value. Finished goods produced or purchased by the Company are carried at lower of cost and net realisable value. Cost includes direct material and labour cost and a proportion of manufacturing overheads.

The valuation for inventories is as follows;

Dividend income is accounted when the right to receive the same is established.

b. Revenue from construction activities is recognised only to the extent of cost incurred till such time the outcome of the job cannot be ascertained reliably. When the outcome of the contract is ascertained reliably, contract revenue is recognised at cost of work performed on the contract plus proportionate margin, using the percentage of completion method. Percentage completion is the proportion of cost of work performed to-date, to the total of estimated contract costs.

c. Amounts included in the financial statements, which relate to recoverable costs & accrued margins, if any, not yet billed on contracts are classified as "Unbilled Revenue."

m Principles of Consolidation

For the purpose of preparing consolidated financial statements, the same accounting policies should be used for like transactions and other events in similar circumstances by all entities included in the group. This is necessary because the consolidated financial statements are intended to present the financial position and results of the parent and its subsidiaries as if they constituted a single economic entity.

Accordingly, the accounting policies adopted by the parent company should, as far as practicable, be followed by all subsidiaries while preparing the information to be included in the consolidated financial statements. For example, if the parent follows a particular method of depreciation for a class of assets and a subsidiary follows a different method for the same or similar class of assets, the subsidiary's financial information should be appropriately adjusted for consolidation so that a uniform accounting policy is applied in the consolidated financial statements, similarly, if the parent and subsidiary follow

different accounting policies for valuation of inventories, recognition of revenue, depreciation, foreign currency transactions, provisions or any other material item, the financial statements of the subsidiary should be adjusted appropriately before or during consolidation to bring them into conformity with the accounting policies adopted for the consolidated financial statements.

n Revenue recognition

Sale of goods

Revenue from the sale of equipment are recognised upon delivery, which is when title passes to the customer. Revenue is reported net of discounts.

The requirement is specifically concerned with like transactions and events in similar circumstances. Therefore, uniformity does not mean that every accounting policy of every entity in the group must be identical in all respects.

Different accounting policies may be appropriate where the transactions or circumstances are different. However, where the nature and circumstances of the transactions are similar, differences in accounting policies should be eliminated through appropriate consolidation adjustments.

Sale of service

Revenue from rendering of services is recognised when the services are rendered and there is reasonable certainty of ultimate collection of consideration. Revenue is recognised with reference to the performance of the services and, where the outcome of the transaction can be estimated reliably, revenue is recognised in proportion to the stage of completion of the service at the reporting date. Where the outcome of the transaction cannot be estimated reliably, revenue is recognised only to the extent of the expenses recognised that are recoverable.

Revenue is measured at the consideration received or receivable, excluding taxes collected on behalf of the Government and after adjusting for applicable discounts, rebates and other similar adjustments. Amounts received in advance from customers for services to be rendered are recognised as advance from customers/deferred revenue until the related services are performed.

Others

Interest income on fixed/term deposits is recognised on an accrual basis, based on the applicable rate of interest and the period for which the deposit is outstanding. Interest accrued but not received as at the reporting date is recognised as interest receivable and included in income.

Income or expense arising on account of difference in rates applicable to transactions/deposits is recognised on an accrual basis in the period to which it relates. Any rate difference receivable or payable as at the reporting date is recognised as an appropriate receivable or liability, as applicable.

Duty drawback receivable in respect of eligible exports is recognised when there is reasonable certainty of its ultimate realisation and the relevant conditions prescribed under the applicable scheme have been fulfilled. Duty drawback is recognised as other operating income/export incentive income in the period in which the related exports are made and the entitlement is established. Amounts receivable as at the reporting date are recognised under appropriate receivables. Further Dividend is recorded when the right to receive payment is established. Interest income is recognised on time proportion basis taking into account the amount outstanding and the rate applicable.

o Employee Benefits

Defined Contribution Plan

The eligible employees of the Company are entitled to receive post employment benefits in respect of provident and family pension fund, in which both employees and the Company make monthly contribution at a specified percentage of the employees' eligible salary (. The Company's contribution to Defined Contribution Plans are charged to the statement of profit and loss, as incurred.

Actuarial gains and losses are recognised in the statement of profit and loss.

The Company provides for the encashment of leave or leave with pay subject to certain rules. The employees are entitled to accumulate leave subject to certain limits, for future encashment / availment. The liability is provided based on the number of days of unutilised leave at each balance sheet date on the basis of an independent actuarial valuation as at the Balance Sheet date, using the projected unit credit method. Actuarial gains and losses are recognised in the statement of profit and loss.

p Borrowing Cost

Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised as part of the cost of that asset until the asset is substantially ready for its intended use or sale. A qualifying asset is an asset that necessarily takes a substantial period of time to get ready for its intended use or sale.

Other borrowing costs are recognised as an expense in the Statement of Profit and Loss in the period in which they are incurred.

Borrowing costs include interest and other costs incurred by an entity in connection with the borrowing of funds. Where funds are borrowed specifically for the purpose of obtaining a qualifying asset, the amount of borrowing costs eligible for capitalisation is determined based on the actual borrowing costs incurred during the period, reduced by any income earned on the temporary investment of those borrowings. Further Where funds are borrowed generally and used for the purpose of obtaining a qualifying asset, the borrowing costs eligible for capitalisation are determined by applying an appropriate capitalisation rate to the expenditure incurred on the qualifying asset.

q Foreign currency transactions

Foreign currency transactions are recorded at the exchange rates that approximates the actual rate at the date of the transaction. Gains and losses arising out of subsequent fluctuations are accounted for on actual payment or realisation. Monetary items denominated in foreign currency as at the balance sheet date are converted at the exchange rates prevailing on that date. Exchange differences are recognised in the statement of profit and loss.

r Taxation

Current tax

Tax expense comprises current and deferred tax. Current tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income-tax Act, 1961. Deferred income taxes reflect the impact of current year timing differences between taxable income and accounting income for the year and reversal of timing differences of earlier years. Deferred tax is measured based on the tax rate and tax laws enacted or substantially enacted at the balance sheet date. Deferred tax assets are recognised only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised.

Deferred tax

Deferred tax arising from timing differences between accounting income and taxable income is recognized using the tax rates and tax laws that have been enacted or substantively enacted as at the Balance Sheet date. Deferred tax assets (DTAs) are recognized only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized..

In respect of deferred tax assets arising from unabsorbed depreciation and carried forward business losses, the Company recognizes such assets only when there is virtual certainty supported by convincing evidence, in accordance with the requirements of Accounting Standard (AS) 22 – Accounting for Taxes on Income.

The Company has assessed the recoverability of these deferred tax assets based on convincing evidence, including detailed financial projections, Board-approved business plans, expected future profitability, historical operating performance, and other relevant business and economic factors. Based on this assessment, management is satisfied that sufficient future taxable profits are expected to be available within the period permitted under the Income-tax Act, 1961, enabling the Company to realize the deferred tax assets recognized in the financial statements.

The assumptions and estimates underlying the assessment of virtual certainty are reviewed at each reporting date and are revised, where necessary, to reflect changes in business conditions or future expectations.

v Operating Cycle

The operating cycle represents the period between the acquisition of assets for processing and their realisation in cash or cash equivalents. The Company determines the classification of its assets and liabilities as current and non-current based on the normal operating cycle of its business, in accordance with the applicable requirements of the Companies Act, 2013 and the relevant Accounting Standards Further An asset is classified as current when it is expected to be realised, sold or consumed in the normal operating cycle of the Company; it is held primarily for the purpose of trading; it is expected to be realised within twelve months from the reporting date; or it is cash or a cash equivalent unless its use is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting date.

A liability is classified as current when it is expected to be settled in the normal operating cycle of the Company; it is held primarily for the purpose of trading; it is due to be settled within twelve months from the reporting date; or the Company does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting date. Company assesses the expected timing of realisation of assets and settlement of liabilities based on the nature of its business activities. The operating cycle generally includes the period covering the purchase of inventory or other inputs, processing or production, sale of goods or rendering of services, and collection of consideration from customers.

Where the normal operating cycle cannot be identified clearly, a period of twelve months is considered as the operating cycle for the purpose of classification of current and non-current assets and liabilities.

w Cash Flow Statement

The Cash Flow Statement is prepared in accordance with the applicable provisions of the Companies Act, 2013 and AS 3 – Cash Flow Statements, where applicable. The Cash Flow Statement is prepared using the Indirect Method, whereby the net profit or loss for the period is adjusted for the effects of non-cash transactions, items of income or expense associated with investing or financing cash flows, and changes in working capital to determine cash flows from operating activities.

Cash flows are classified into operating, investing and financing activities based on the nature of the underlying transactions.

Cash flows from operating activities comprise the principal revenue-producing activities of the Company and other activities that are not investing or financing activities. Cash flows from investing activities comprise the acquisition and disposal of long-term assets and other investments not considered to be cash equivalents. Cash flows from financing activities comprise activities that result in changes in the size and composition of the owner's capital and borrowings of the Company. Cash and cash equivalents comprise cash on hand, balances with banks and short-term highly liquid investments that are readily convertible into known amounts of cash and are subject to an insignificant risk of changes in value. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates. Contingent liabilities are not recognised in the financial statements. A contingent asset is neither recognised nor disclosed in the financial statements.

Contingent liabilities are not recognised in the financial statements but are disclosed when the possibility of an outflow of resources embodying economic benefits is not remote. Based on management's assessment, the Company does not have any material contingent liabilities as at the balance sheet date. The Company also has certain commitments towards capital expenditure and other contractual obligations entered into in the normal course of business, which are expected to be fulfilled in the ordinary course of operations and are not expected to have a material impact on the financial position of the Company.

Future minimum rental payables under non-cancellable operating lease		
- Not later than one year	-	-

- Other 1	-	-

The Company has taken premises on lease for its operations. These lease arrangements are generally executed for a short term period of 11 months and are renewable at the option of both the lessor and lessee upon mutual consent. The lease arrangements do not transfer substantially all the risks and rewards incidental to ownership to the Company and therefore are classified as operating leases in accordance with the requirements of Accounting Standard (AS) 19 – "Leases"

Further, as per AS 19, leases where the lease term is for a period of 12 months or less, or where the lease is cancellable/renewable at the option of either party without significant penalty, are generally treated as short-term operating leases. In such cases, disclosure of future minimum lease payments under non-cancellable lease arrangements is not required, since the Company does not have enforceable long-term contractual obligations beyond the current lease term

Accordingly, the Company's shop premises are typically taken on 11-month lease arrangements, which are renewable by mutual consent and do not contain significant non-cancellable future commitments. Hence, these arrangements fall under short-term operating leases, and only lease rental expenses are recognized in the Statement of Profit and Loss on a straight-line basis over the lease term, as per AS 19.

In view of the above, the disclosures relating to finance leases (including asset recognition, minimum lease payments, and reconciliation of present value of lease obligations) are not applicable, as the Company does not enter into finance lease arrangements

Similarly, the disclosure requirements relating to operating leases under AS 19, including future minimum lease payments for non-cancellable lease arrangements (i.e., not later than one year, between one to five years, and beyond five years), are not applicable, as the Company's lease arrangements are short-term in nature and generally cancellable/renewable at the discretion of both parties. Accordingly, lease rental expenses have been appropriately disclosed as part of "Rent Expenses" in the Statement of Profit and Loss, and no further disclosures relating to long-term lease commitments have been provided.
