# From our MD's Desk

## Dear Shareholders,

It gives me immense pride and gratitude to present the Annual Report of Shri Hare-Krishna Sponge Iron Limited for the financial year 2025–26.

The year under review marks a defining chapter in our journey. On 1 July 2025, our Company was listed on the NSE SME platform, transforming a journey built over more than two decades into a journey shared with a much larger community of shareholders. This milestone is not merely a matter of corporate achievement; it is a reflection of the trust and confidence that our stakeholders have placed in us. We accept this trust with humility and a strong sense of responsibility.

During the year, our focus remained on strengthening our core operations, improving efficiencies, optimising costs and laying a strong foundation for sustainable growth. While the steel industry continues to operate in a dynamic and competitive environment, we remain confident in our ability to navigate these challenges through disciplined execution, prudent financial management and continuous improvement.

As we look ahead, our growth strategy is centred on operational efficiency, capacity enhancement and product diversification. We are particularly focused on developing higher-value products and expanding our presence in specialised steel segments, creating opportunities for import substitution and stronger value addition.

The development of our 5 MW captive green-energy power plant is another important step in this direction. We believe this initiative will support greater energy efficiency, reduce our dependence on external power and strengthen the competitiveness of our manufacturing operations. Alongside this, we are working towards better utilisation of our existing assets and exploring opportunities to expand our product portfolio.

India's strong focus on infrastructure, manufacturing, mining and domestic production presents significant opportunities for the steel industry. We intend to participate in this growth with a long-term perspective, while remaining focused on quality, efficiency and responsible capital allocation.

Our journey would not have been possible without the dedication of our employees, the continued confidence of our customers and business partners, and the support of our lenders, advisors and other stakeholders. I extend my sincere appreciation to each one of them.

To our shareholders, I offer my deepest gratitude. Your investment represents much more than capital—it represents your belief in our vision and our ability to build a stronger future. We recognise the responsibility that comes with being a listed company and remain committed to maintaining the highest standards of transparency, governance and integrity.

The listing was an important milestone, but it is only the beginning of the next phase of our journey. Our ambition is to build a company that is stronger, more efficient, more diversified and capable of creating sustainable long-term value for all our stakeholders.

With the collective strength of our people, the experience we have gained over the years and the opportunities before us, we look towards the future with confidence and optimism.

**Together, we look forward to building a stronger Shri Hare-Krishna Sponge Iron Limited and creating enduring value for our shareholders.**

With sincere gratitude,

**Manoj Parasrampuria**

However, it has been observed that the participation by the public non-institutional shareholders/retail shareholders is at a negligible level.

Currently, there are multiple e-voting service providers (ESPs) providing e-voting facility to listed entities in India. This necessitates registration on various ESPs and maintenance of multiple user IDs and passwords by the shareholders.

In order to increase the efficiency of the voting process, pursuant to a public consultation, it has been decided to enable e-voting to all the demat account holders, by way of a single login credential, through their demat accounts/ websites of Depositories/ Depository Participants. Demat account holders would be able to cast their vote without having to register again with the ESPs, thereby, not only facilitating seamless authentication but also enhancing ease and convenience of participating in e-voting process.

Pursuant to Section 13 of the Companies Act, 2013 read with the Companies (Incorporation) Rules, 2014, any change in the name of a company requires the approval of the Members by way of a Special Resolution, followed by approval of the Registrar of Companies, upon which a fresh Certificate of Incorporation consequent to change of name shall be issued to the Company. The change of name does not affect any rights or obligations of the Company, and no legal proceedings by or against the Company shall be affected by reason of the change of name.

The Company has complied with Regulation 45 of the Listing Regulations, to the extent they are applicable, and has also obtained a certificate from a Practicing Chartered Accountant in respect of the same, copy of which is annexed herewith as **Annexure-A**.

## MANAGEMENT DISCUSSION AND ANALYSIS REPORT

CIN: L27109WB2003PLC096152 | Scrip Code (NSE Emerge): SHKSIL | ISIN: INE0NON01025

ANNEXURE TO THE DIRECTORS' REPORT

### 1. Industry Structure and Developments

Shri Hare-Krishna Sponge Iron Limited ("the Company") is engaged in the manufacture of Sponge Iron, M.S. Ingot, Steel Shots and Grits at its manufacturing facility located at Plot No. 106, Phase-II, Industrial Growth Centre, Siltara, Raipur, Chhattisgarh. The Company's registered office is situated in Kolkata, West Bengal, and its equity shares are listed on the NSE Emerge platform (SME segment) of the National Stock Exchange of India Limited under the scrip code SHKSIL with effect from July 1, 2025, following completion of its maiden Initial Public Offering during the year.

Sponge Iron, also known as Direct Reduced Iron ("DRI"), is manufactured by reducing iron ore using coal or natural gas without melting the ore, and serves as a key metallic input for Electric Arc Furnace (EAF) and Induction Furnace (IF) based secondary steel producers, who use it in place of, or in combination with, steel melting scrap to manufacture M.S. Ingots, billets and TMT bars. India continues to be the world's largest producer of coal-based DRI, accounting for a substantial share of global sponge iron output, with production having grown at a healthy pace over recent years on the back of rising long steel (construction-grade steel) consumption driven by infrastructure and housing activity.

Chhattisgarh, where the Company's manufacturing facility is located, is one of the leading sponge iron producing States in the country, benefitting from its proximity to iron ore and coal reserves and an established cluster of secondary steel manufacturing units. The coal-based route, which the Company follows, continues to dominate domestic DRI production, although the industry as a whole remains sensitive to input cost movements, energy availability and evolving environmental norms applicable to coal-based processing.

The Company's product basket of Sponge Iron, M.S. Ingot, Steel Shots and Grits provides a degree of forward integration within the iron and steel value chain, enabling it to capture value across successive stages of processing. During the year under review, the Company's operations were also influenced by the temporary suspension of kiln operations on account of integration works with the waste heat recovery boiler of its Captive Power Plant under construction, and by a temporary delay in commissioning of the said Captive Power Plant, both of which are explained in greater detail elsewhere in this Report.

### 2. Opportunities and Threats

#### Opportunities

- Continued Demand from Secondary Steel Producers: Sustained demand for Sponge Iron from Induction Furnace and Electric Arc Furnace based steel manufacturers, driven by construction, infrastructure and real estate activity across India, provides a stable base demand for the Company's core product.
- Backward Integration through Captive Power Plant: Completion and stabilisation of the Captive Power Plant being set up at the Siltara facility is expected to reduce the Company's dependence on grid power, lower per-unit energy costs and improve operating margins over the medium term, while also enabling better utilisation of waste heat generated from the kiln process.
- Forward Integration into M.S. Ingot, Steel Shots and Grits: The Company's ability to convert a part of its sponge iron production into higher value-added products such as M.S. Ingots, Steel Shots and Grits allows it to capture margin across multiple stages of the value chain and reduces dependence on merchant sale of sponge iron alone.
- Access to Capital Markets: Successful listing on the NSE Emerge platform and the funds raised through the IPO provide the Company with access to growth capital for capacity expansion, modernisation and strengthening of its balance sheet, as evidenced by the significant increase in net worth during the year.
- Government Infrastructure Push: Continued Government thrust on infrastructure development, affordable housing and industrial corridors is expected to sustain long-term demand for long steel products and, in turn, for sponge iron as a key raw material.

#### Threats

- Volatility in Raw Material and Fuel Prices: The Company's manufacturing cost is significantly influenced by the prices of iron ore, coal and other inputs. Adverse movements in these prices, or disruptions in their availability, may impact operating margins if such increases cannot be passed on to customers.
- Industry Overcapacity and Pricing Pressure: The sponge iron industry in India has, in recent periods, witnessed capacity additions outpacing demand growth in certain regions, including central India, resulting in periods of pricing pressure. Continuation of such trends could affect realisations.

## SHRI HARE-KRISHNA SPONGE IRON LIMITED

- **Project Execution Risk:** Delay in commissioning of the Captive Power Plant, as has occurred during the year on account of procurement, transportation and logistics-related disruptions, may result in continued dependence on costlier grid power and deferred realisation of the anticipated cost benefits.
- **Regulatory and Environmental Compliance:** Coal-based DRI manufacturing is subject to evolving environmental regulations and pollution control norms. Additionally, notification of the Labour Codes by the Government of India, and the consequential need to assess their financial impact on employee benefit obligations, represents an evolving compliance requirement, as reflected in the qualified opinion of the Statutory Auditors on the financial results for the year.
- **Competition from Scrap-Based Steelmaking:** Increasing availability and price competitiveness of steel melting scrap as an alternative metallic input for EAF/IF producers could, over time, moderate demand growth for sponge iron.
- **Operational Disruption Risk:** As experienced during the year with the temporary suspension of kiln operations for integration with the Captive Power Plant, unplanned or extended operational stoppages can affect production volumes and raw material consumption patterns.

### 3. Outlook

The outlook for the Company remains constructive, notwithstanding the operational and execution challenges witnessed during the year under review. Revenue from Operations and Profit After Tax for FY 2025-26 were lower than the previous year, primarily on account of the temporary suspension of kiln operations pending integration with the Captive Power Plant and the consequent impact on production and sales volumes. The Board and management view this as a transitional phase associated with a significant capacity and cost-efficiency initiative rather than a structural decline in the Company's underlying business.

The Company's near-term priority is the completion of testing, commissioning and stabilisation of the Captive Power Plant at Siltara-Raipur, which is expected to reduce energy costs, improve the reliability of kiln operations through better integration with the waste heat recovery boiler, and support margin improvement once fully operational. A substantial part of the IPO proceeds allocated for this project has already been deployed, with Rs. 1,874.59 lakhs utilised out of the allocated Rs. 2,300.00 lakhs as on March 31, 2026.

Following its listing on the NSE Emerge platform and the equity infusion through the IPO, the Company's net worth and overall balance sheet strength have improved materially during the year, providing it with greater financial flexibility to fund the ongoing capital expenditure programme and future growth initiatives. The Company continues to maintain a healthy liquidity position, with cash and bank balances of Rs. 3,864.49 lakhs as at March 31, 2026.

The management remains focused on completion of the Captive Power Plant, normalisation of kiln operations, disciplined working capital management and continued compliance with applicable regulatory requirements, and believes the Company is well placed to benefit from sustained demand for sponge iron and downstream products once these initiatives are completed.

### 4. Risks and concerns

- **Raw material risk:** the prices and availability of iron ore, coal and dolomite are subject to market and regulatory conditions. The Company manages this through advance procurement arrangements and by maintaining adequate raw material stocks.
- **Project risk:** the commissioning and stabilisation of the captive power plant remains subject to the timely receipt of equipment and to satisfactory trial run performance. The Company monitors project progress on a continuing basis.
- **Price and demand risk:** sponge iron is a commodity product and realisations are linked to steel prices, which are cyclical.
- **Concentration risk:** the Company operates a single product line at a single location, and any disruption at the facility affects operations as a whole.
- **Regulatory and environmental risk:** the Company's operations are subject to environmental, mining and industrial regulation, and to periodic renewal of consents and licences.
- **Financial risk:** the Company has availed fund-based and non-fund-based facilities from its bankers and is exposed to movements in interest rates. Borrowings remain conservative in relation to net worth.
- **Regulatory change:** the Company has not assessed the financial impact of the New Labour Codes effective from 21st November, 2025, particularly on employee benefit obligations arising from the revised definition of wages, and no additional liability has been recognised in this regard, as stated in Note 2.41 to the audited financial statements.

## SHRI HARE-KRISHNA SPONGE IRON LIMITED

### 5. Internal Control Systems and their Adequacy

The Company has in place internal control systems and procedures commensurate with the size, scale and nature of its operations, designed to safeguard its assets, ensure accuracy and reliability of accounting records, and promote adherence to management policies and applicable laws and regulations, including the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015.

The Board of Directors and the Audit Committee periodically review the financial results, accounting policies and internal control processes of the Company. The audited financial results for the half year and year ended March 31, 2026 were reviewed by the Audit Committee and approved by the Board of Directors at its meeting held on May 29, 2026, and were audited by the Statutory Auditors, M/s A. C. Bhuteria & Co., Chartered Accountants.

The Statutory Auditors have issued a qualified opinion on the audited financial results solely in relation to the Company's non-assessment of the financial impact of the Labour Codes notified by the Government of India vide notification dated November 21, 2025, on account of which the Company has not been able to quantify the resulting impact, if any, on employee benefit provisions and accruals. This qualification does not extend to, and does not indicate any deficiency in, the Company's internal financial controls or the overall reliability of its books of account. The Company is in the process of assessing the implications of the Labour Codes and the rules to be framed thereunder, and will give appropriate accounting effect once the impact can be reasonably estimated.

The Board is of the view that, other than the matter specifically qualified by the Statutory Auditors, the Company's internal control systems are adequate and operating effectively for the size and nature of its operations.

### 6. Discussion on financial performance with respect to operational performance

#### Operations

The year under review was a year of transition for the Company. Kiln operations were temporarily suspended during the year for the integration of the kiln with the waste heat recovery boiler forming part of the captive power plant. The suspension was a planned consequence of the Company's expansion, and not a reflection of any weakening of demand for its products. Consequently, revenue from operations stood at Rs. 6,664.19 lakhs against Rs. 8,047.00 lakhs in the previous year, and the cost of materials consumed reduced correspondingly to Rs. 5,074.33 lakhs from Rs. 6,227.89 lakhs. The Company recorded a profit after tax of Rs. 619.60 lakhs for the year.

#### Financial position

The Company's financial position strengthened materially during the year. Net worth increased by 44.91% to Rs. 10,663.94 lakhs as at 31st March, 2026 from Rs. 7,359.18 lakhs as at 31st March, 2025. Cash and bank balances stood at Rs. 3,864.49 lakhs. The current ratio stood at 5.04 times and the debt-equity ratio at 0.27 times, and the Company had no contingent liabilities as at 31st March, 2026. The Company sells its products on cash terms, and trade receivables as at the year-end were negligible at Rs. 0.04 lakhs.

#### Initial Public Offer and capital expenditure

During the year the Company completed its maiden Initial Public Offer, comprising a fresh issue of 50,70,000 equity shares of face value Rs. 10 each at an issue price of Rs. 59 per equity share, aggregating to Rs. 2,991.30 lakhs, and the equity shares of the Company were listed on the SME Platform of the National Stock Exchange of India Limited (NSE Emerge). The utilisation of the issue proceeds up to 31st March, 2026 was as follows:

(Rs. in lakhs)

| Object of the issue                                                          | Amount as per offer document | Utilised up to 31.03.2026 | Unutilised |
|------------------------------------------------------------------------------|------------------------------|---------------------------|------------|

## INDEPENDENT AUDITOR'S REPORT

### TO THE MEMBERS OF SHRI-HARE KRISHNA SPONGE IRON LIMITED

#### Report on Audit of financial statements

#### Qualified Opinion

We have audited the accompanying financial statements of **Shri-Hare Krishna Sponge Iron Limited** ("the Company"), which comprise the Balance Sheet as at 31<sup>st</sup> March, 2026 and the Statement of Profit and Loss and the Cash Flow Statement for the year then ended and notes to the financial statements, including a summary of the material accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, except for the effects of the matter described in the Basis for Qualified Opinion paragraph section of our report, the aforesaid financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2026, profit and its cash flows for the year ended on that date.

#### Basis for Qualified Opinion

The Government of India, vide notification dated November 21, 2025, has notified the Code on Wages, 2019, the Industrial Relations Code, 2020, the Code on Social Security, 2020, and the Occupational Safety, Health and Working Conditions Code, 2020 (collectively referred to as "the Labour Codes"), which consolidate and replace existing multiple labour legislations. In accordance with the requirements of AS 15 "Employee Benefits," employee benefits and changes to employee benefit plans resulting from legislative amendments constitute a plan amendment, necessitating the immediate recognition of any variation in the cost upon such notification.

We were unable to obtain sufficient appropriate audit evidence to determine the nature and quantum of the adjustments, if any, that may be required to the financial statements on account of the Company's non-evaluation of the impact of the Labour Codes. The Company has not maintained any workings, estimates, or assessments in this regard, and accordingly, we are unable to quantify the financial impact of this matter on the financial statements. We have been unable to satisfy ourselves as to whether the provisions and accruals relating to employee benefits as carried in the financial statements are adequate, complete, and fairly stated in light of the obligations that may crystallise upon the enforcement of the Labour Codes.

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the financial statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified opinion.

These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

### Information Other than the financial statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual report, but does not include the financial statements, consolidated financial statements and our auditor's report thereon. The Company's annual report is expected to be made available to us after the date of this auditor's report.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

When we read the annual report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and take appropriate actions as applicable under the relevant laws and regulations.

### Responsibilities of Management and Those Charged with Governance for the financial statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the company's financial reporting process.

### Auditor's Responsibilities for the Audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

## SHRI HARE-KRISHNA SPONGE IRON LIMITED

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system with reference to the financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast material doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and material audit findings, including any material deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

### 2.42 Capital Work-in-Progress - Captive Power Plant

Capital Work-in-Progress includes expenditure incurred towards setting up of the Company's captive power plant at its existing manufacturing facility.

The completion and commencement of commercial production of the said power plant has been delayed due to operational and external factors affecting the implementation schedule, including challenges in procurement of LPG arising from the prevailing war situation, disruptions in transportation and logistics, and consequent delay in receipt of certain required components. These factors have resulted in delay in testing, commissioning and trial run operations of the captive power plant.

The delay is temporary in nature and the Company is taking necessary steps to complete the remaining activities, including testing, commissioning, trial run and stabilization of the power plant. Accordingly, the expenditure incurred on the project continues to be classified as Capital Work-in-Progress as at March 31, 2026.

The Company expects to commence commercial production upon successful completion of trial run operations and stabilization of the captive power plant.
