25-YEAR JOURNEY - MILESTONES THAT SHAPED US

From a two-person marketing outfit for engineering simulation software to a listed, four-vertical technology company with a ₹71 Crore defence order - this is the Trident Techlabs story.

2009

RAPDRP Empanelment

Empanelled under the Ministry of Power's RAPDRP scheme, expanding utility reach and establishing Trident as a government-recognised engineering partner.

2018

Primtech Added

Primtech (Integra, Germany) onboarded for EHV substation design at 220/400/765 kV. Trident rapidly achieves 70–80% market share in this niche.

2006

Arc Flash Practice

Electrical risk and arc flash safety practice launched under NFPA 70E. Over 700 projects completed to date across India and internationally.

2003

First Major Utility Win

Tata Power Delhi onboarded as a CYME (Eaton) customer a relationship that has continued uninterrupted to date, over 23 years.

2000

Foundation

Trident Techlabs Pvt Ltd incorporated on 9 May 2000 in New Delhi. Core philosophy: "Business through Technology." Initial focus: distribution of engineering simulation software to power utilities and R&D institutions.

2001

EDA Launch

Engineering Solutions Group established. Partnership with Siemens EDA (then Mentor Graphics) initiated a relationship now spanning 25 years.

2022–23

Public Conversion

Trident Techlabs Pvt Ltd converted to a public limited company in preparation for listing on NSE Emerge.

Dec 2023

NSE Emerge Listing

Listed on NSE Emerge at ₹35 per share. IPO marks the beginning of Trident's public-market journey and access to growth capital.

2024

Cybersecurity & Semiconductor

Cybersecurity vertical formally established with exclusive India distribution of Intrucept (Make-in-India stack). Techlabs Semiconductor Pvt Ltd subsidiary incorporated. MoU signed with Kaynes Semicon for a two-way pre-silicon/OSAT partnership.

2025

Dubai & Scale-Up

Trident Techlabs LLC-FZ incorporated in UAE. Dubai office operational, covering Middle East and Africa. H1 FY26 revenue of ₹63.5 Crore 201% YoY growth.

FY26

Landmark Defence Order

DRDO order of ₹71.73 Crore secured — the single largest defence order in company history. Full-year standalone revenue reaches ₹97.08 Crore (+26.8% YoY). Standalone PAT ₹12.56 Crore (+9%).

BUSINESS MODEL

Trident Techlabs operates a knowledge-services business model: we distribute, implement, and build around best-in-class engineering software platforms, add proprietary services and indigenous hardware, and create long-term, recurring relationships with our clients. The company does not manufacture physical goods; our asset is deep domain expertise, long OEM partnerships, and the engineering talent we have built over 26 years.

Four Integrated Verticals

The company operates through four business verticals that share a common client base and create cross-sell opportunities with each other. No single vertical is isolated - a power utility customer may also need cybersecurity; a defence lab may need both ESG simulation tools and semiconductor design services.

Power Solutions Group

Distribution & transmission planning software, system integration, arc flash safety, indigenous hardware (Phitech-1000)

Engineering Solutions Group

EDA tools (Siemens), CAE tools (Cadence/MSC), reliability analysis, simulation services for defence, space & automotive

Cybersecurity

SOC, application security, encrypted traffic visibility, endpoint management. Exclusive India distributor: Intrucept (Make-in-India)

Semiconductor Design

ASIC/SoC/FPGA design, DO-254, verification, AI-enabled design, system design via Kaynes Semicon MoU

Revenue Model - Three Streams

1. Software Licences

Annual or perpetual licences for third-party engineering software (CYME, Primtech, Siemens EDA, Cadence MSC). Industry is transitioning from perpetual to annual subscription, building recurring revenue.

2. Services & AMC

Engineering consultancy, system integration, arc flash assessments, semiconductor design work, cybersecurity implementation, and annual maintenance contracts (AMC typically 10–20% of order value, renewable annually).

3. Hardware & Products

Phitech-1000, our indigenous Make-in-India phase-detection device (R&D over 4–5 years; field-tested at ~90% accuracy). Hardware sales generate one-time revenue plus recurring service and support contracts.

The Silicon Dreams to System Realization Stack

In the semiconductor and defence-electronics domain, Trident has assembled a full chip-to-product stack across the group and its partners - enabling the company to address customers at any stage of their hardware journey.

Layer	Entity	Capability	Role
EDA Tools	Trident Techlabs Ltd (parent)	Siemens EDA - design, simulation, verification (15+ yr partnership)	Group entity
Pre-Silicon Design	Techlabs Semiconductor Pvt Ltd	End-to-end ASIC / SoC / FPGA design services	Subsidiary (95%)
OSAT + System Design	Kaynes Semicon	Packaging + post-silicon validation + system design	MoU partner
Volume Manufacturing	Kaynes Technology	16 plants across India	MoU partner

Strategic Direction: From Reseller to Solution Provider

Trident's central strategic shift underway across Power and ESG is from being a software reseller to becoming the long-term technology partner for our clients. This means entering at the problem-statement stage, shaping specifications, and then delivering the full solution including integration, training, and ongoing support. The result is higher margins, longer contracts, and deeper customer stickiness.
Target: 50%+ of Power and ESG revenue from recurring services and AMC within two years.

POWER SOLUTIONS GROUP (PSG)

India's leading engineering consultancy for electrical power utilities — 26 years of software, services and indigenous innovation.

What We Do

Power Solutions Group provides specialised engineering consultancy for electrical power utilities — the software and allied services that enable a utility to plan, analyse, design, and operate its distribution and transmission network. Our work spans T&D network analysis, substation design, arc flash safety, DER integration, and distribution automation.

Core Software Portfolio

Product	Principal	Use Case	India Market Share
CYME	Eaton, USA (25-yr exclusive)	Distribution & T&D network analysis; deployed on web & Android	80–90% (utilities)
Primtech	Integra, Germany	EHV substation design (220/400/765 kV), auto-drawings, BoM	70–80%
SKM PowerTools	SKM, USA	Industrial plant design, arc flash analysis	20–30%
CYMCAP	Third-party	Cable thermal analysis for underground conversion projects	Niche
Phitech-1000	Trident (indigenous)	Phase-detection hardware; consumer-to-phase mapping (Make-in-India)	Pioneering

Services Portfolio

Services are a deliberate strategic priority and the engine of our margin expansion. Key services include: system studies (T&D and industrial), substation and earth-mat design, cable thermal analysis for overhead-to-underground conversion, DER integration (solar, BESS, EV charging), software integration with SAP/GIS/SCADA-DMS, arc flash safety assessments (700+ projects since 2006 under NFPA 70E), master plan preparation for utilities (20–25-year infrastructure plans), and lightning protection design.

Make-in-India: Phitech-1000

Phitech-1000 (also called X-Mapper) is Trident's own indigenously developed phase-detection device — the first owned IP product in the company's 25-year history. After 4–5 years of R&D and field testing across multiple utilities at ~90% accuracy, it is now entering scale-up. It replaces an imported US product (Origo, discontinued) and solves a problem most Indian utilities have not had clean data on for 20–30 years: which consumer sits on which phase and which transformer. The device uses Power Line Communication (PLC) and integrates directly with utility billing and consumer servers, with a Trident-built mobile app.

Customers

Private Utilities: Adani, Tata Power, Tata Power Delhi (since 2003), Torrent Power, CESC, Torrent Noida Power, BYPL Delhi.
Government & State Boards: MSEB/Mahavitaran (110 CYME user licences), MPEB, GETCO, PGCIL, BHEL, Central Electricity Authority, Bihar (GIS overlay deployment), India Smart Grid Forum.
International: Dhaka Power Distribution Company, Dhaka Electricity Supply Company, BREB (Bangladesh); Nepal; Sri Lanka; Vietnam (3–4 active projects).
Industrial (Arc Flash): Cummins, Colgate-Palmolive, Syngenta, and hundreds of others — projects executed in India, China, Malaysia, Vietnam, Thailand and the Middle East.

Growth Drivers

1. Distribution automation in tier-2/3 cities — global majors (Siemens, ABB, Schneider) are priced out at the small-substation tier; Trident is positioned as the economical, reliable alternative
2. Overhead-to-underground cable conversion — a regulatory and infrastructure trend driving demand for CYMCAP cable thermal services
3. DER integration: rooftop solar, BESS, windmills, EV charging all require new network planning tools
4. Data centres — reliability assessments, BESS deployment, arc flash work; cross-sell into cybersecurity
5. Phitech-1000 scale-up — addressable market is every Indian utility that has not maintained consumer-phase mapping data

ENGINEERING SOLUTIONS GROUP (ESG)

End-to-end simulation, design verification and EDA services for defence, space, automotive and industrial clients anchored by 26 years of OEM partnerships.

What We Do

ESG is Trident's engineering software and simulation vertical. It operates through three sub-verticals: EDA (Electronic Design Automation - software used to design integrated circuits), CAE (Computer-Aided Engineering - simulation of mechanical, fluid and structural systems), and Academics (engineering simulation tools for higher education institutions). ESG is the vertical from which the company's semiconductor design capability has grown.

OEM Partnership Stack

OEM Partner	Sub-Vertical	Scope	Tenure
Siemens EDA (formerly Mentor Graphics)	EDA	End-to-end IC design: specs → layout → manufacturing-ready	16+ years
Relyence	EDA	Reliability analysis, MTBF, warranty prediction, lifecycle management	Ongoing
Keysight	EDA	IP data management for IC development; photonics solutions	Recently signed
Cadence MSC (formerly Hexagon)	CAE	Multi-body dynamics, CFD, structural & fatigue analysis	~14 years
DEP MeshWorks	CAE	Specialised CAE toolset for automotive applications	Ongoing
P7	CAE optimisation	Single-environment dashboard integrating multiple CAE tools	Ongoing

Customer Mix

Government & Defence (~50%)

DRDO laboratories, ISRO, NAL and space research institutions.

Public Sector (~30%)

BHEL, HAL, BDL and other PSUs.

Private (~20%)

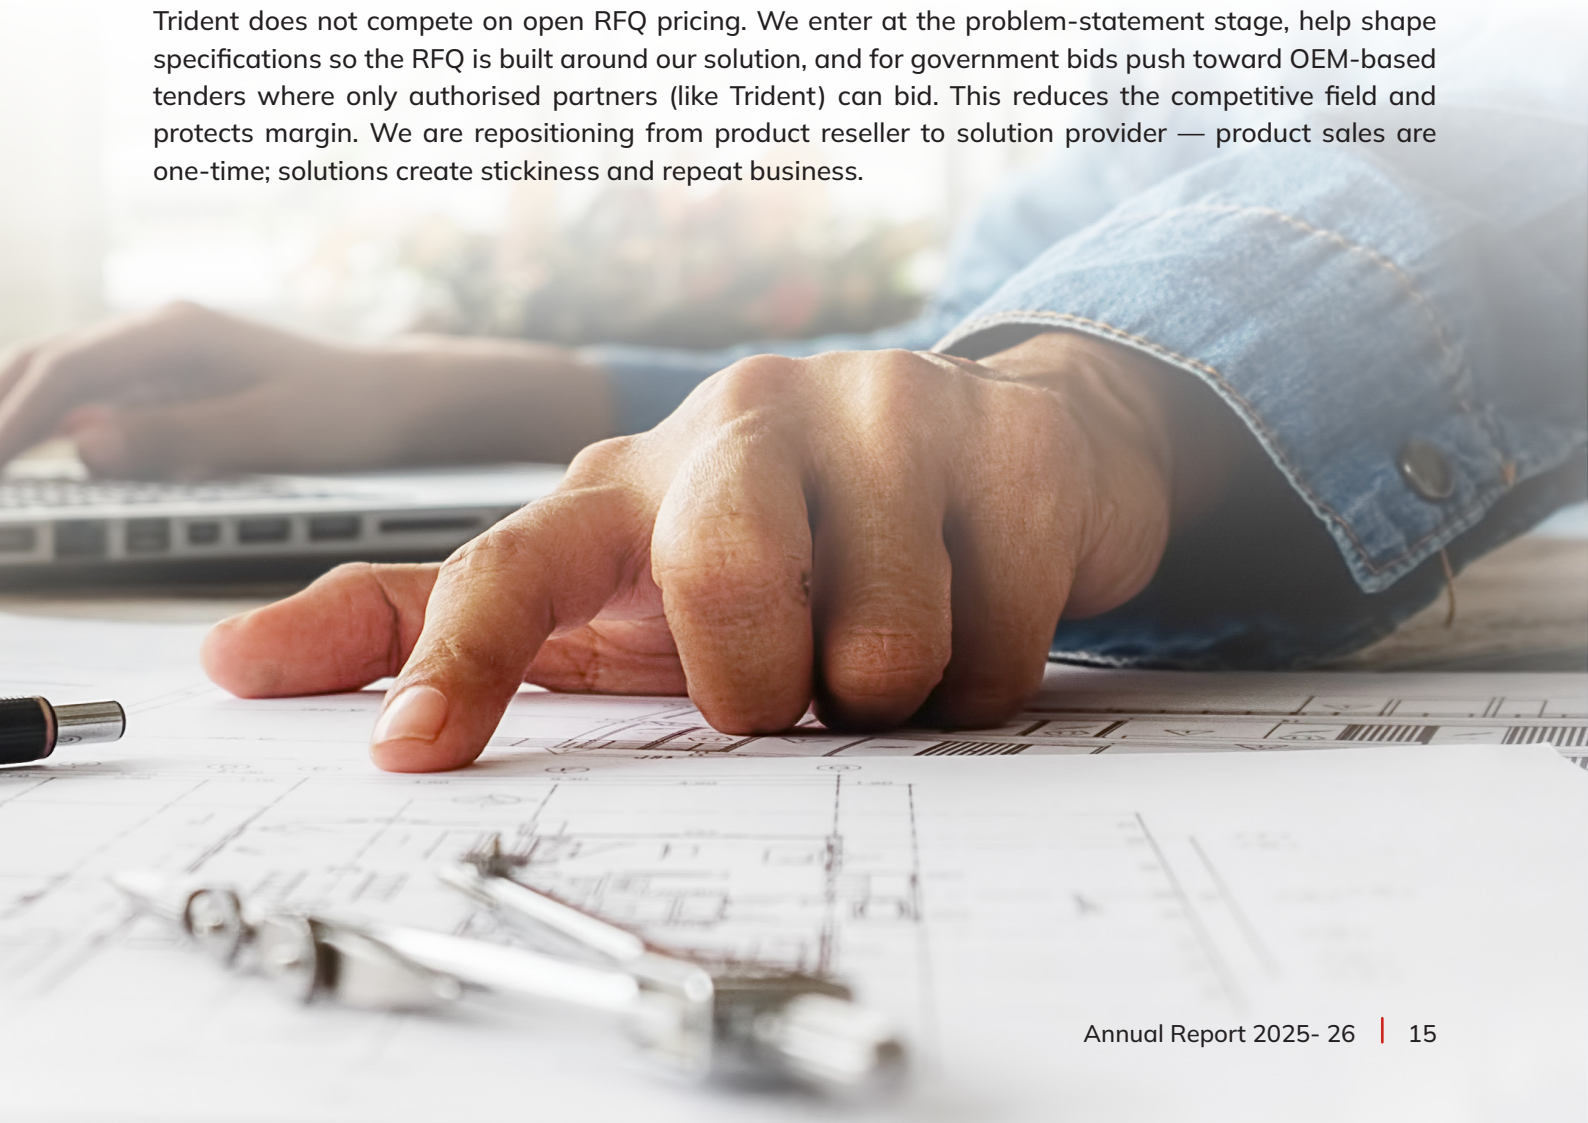
Automotive and EV (Ola, others), telecommunications, industrial automation.

Market Opportunity

India's engineering simulation market is expected to reach approximately USD 7.9 billion by 2030, growing at ~21% CAGR (Source: Grand View Research). Growing 'Make in India' mandates, expanding ISRO/space lab activities, and indigenous defence development programmes all generate fresh demand for simulation tools. The EV sector is ESG's largest untapped private-market opportunity: customising tools into each OEM's existing environment is the bottleneck, and also the moat once delivered.

Differentiating Strategy

Trident does not compete on open RFQ pricing. We enter at the problem-statement stage, help shape specifications so the RFQ is built around our solution, and for government bids push toward OEM-based tenders where only authorised partners (like Trident) can bid. This reduces the competitive field and protects margin. We are repositioning from product reseller to solution provider — product sales are one-time; solutions create stickiness and repeat business.



TECHLABS
Trident Techlabs Limited
Empowering Technology

CYBERSECURITY

System-integrator and niche-distributor model - leveraging 26 years of defence, government and PSU relationships to deliver customisable, Make-in-India security solutions.

What We Do

Cybersecurity is Trident's newest vertical, established formally in 2024. We operate as a system integrator with niche, customisable solutions rather than off-the-shelf COTS products. We are positioned deliberately in the Tier-2/Tier-3 cybersecurity space not competing with Tier-1 incumbents - and our edge is built on three things: exclusive India rights to Intrucept (a Make-in-India stack), deep customisation capability via our partner R&D ecosystem, and the parent company's 25-year incumbent relationship base.

Services Portfolio

- Security Operations Centres (SOC), system integration, threat intelligence, and application security
- Audit & compliance: infrastructure and application reviews, VAPT, posture management
- Cybersecurity training: partnered training delivery, cyber range solution, awareness modules
- Manpower & professional services: trained deployment, consulting, implementation

Flagship Differentiated Solutions

Encrypted Traffic Visibility

Monitors and verifies traffic between encrypted endpoints - directly relevant under RBI mandates on encrypted PII. 2–3 POCs completed; large account closures imminent.

Unified Security Posture

Single-pane-of-glass aggregation and analysis of all security events across a customer's infrastructure. Multiple POCs completed.

AI-Enabled Security

Trident has built its own LLM models for AI-enabled threat detection, demonstrated to a tri-services customer. Supplemented by Votal.ai for AI application security testing.

Partner Ecosystem

Intrucept (exclusive India distributor): 100% Indian Make-in-India cybersecurity startup. Product stack covers SIEM, SOAR, NDR, XDR, deception platform, cyber analytics, threat intelligence, application security (SAST, DAST, IAST, SCA), and BISO platform. Make-in-India compliance gives Intrucept-led bids an edge in government tenders where 100% domestic sourcing is mandatory.

Votal.ai: US-based, AI-driven application security testing. Exclusive India arrangement for AI-enabled security.

Standard OEM partners: HCL AppScan, Trend Micro, Zscaler, Netskope, Check Point, Dell, HP, Cisco.

Target Customers & Pipeline

Highest traction: Defence & tri-services (all three armed services are clients), a defence PSU, and a prominent airline.

Active pipeline: BFSI (encrypted traffic visibility; RBI mandates), government & PSUs, power & energy (leveraging PSG relationships), utilities/IoT (OT security for smart meters, SCADA, field cameras).

Market: Cybersecurity growing at 18%+ CAGR; India market expected to reach ~USD 22 billion by 2032. Large account closures expected through H2 FY27.

SEMICONDUCTOR DESIGN - TECHLABS SEMICONDUCTOR PVT LTD

A pure-play design-services business positioned across the full chip-to-product stack, built on 26 years of EDA heritage and a two-way partnership with Kaynes Semicon.

Corporate Structure

Techlabs Semiconductor Pvt Ltd is a subsidiary of Trident Techlabs Limited, set up specifically to address two lines of business: semiconductor design services and system design. The subsidiary is led by Sanjay Gandhi, who brings 30 years of experience in EDA and the semiconductor industry, including 18 years at Mentor Graphics and Siemens EDA.

This is a services and system-design business. We are not building a Trident-branded chip product. This keeps the business asset-light - no fab, no heavy capex - and focused on the design layer where India has a 40-year heritage.

Two Business Lines

A. Semiconductor Design Services: Pure-play design services for semiconductor companies operating design centres in India - Intel, AMD, Broadcom, Qualcomm, NXP, ST and others. Globally, ~50–70 semiconductor companies operate design centres in India; Trident's role is to plug into the services-contractor pool. Three engagement models: Time & Material, Fixed Fee/Turnkey, and Offshore Development Centre (ODC).

B. System Design: Targeting India's strategic sector - DRDO laboratories (DLRL, LRDE, ADE, ARDE), space organisations (VSSC, ISRO, SAC, IGCAR), and Indian arms of global aerospace and defence primes (Collins Aerospace, Thales, Honeywell, Airbus, Boeing). Work spans specification drafting through design, prototype delivery and volume manufacturing.

Services & Capabilities

- ASIC, SoC and FPGA design (digital, analog, mixed-signal)
- DO-254 compliance (aviation and space hardware; FAA & DGCA certified - an active revenue stream at the parent for 15+ years, now productising under the subsidiary)
- Verification & validation (front-end and back-end)
- AI-enabled design and AI-integrated semiconductor services
- Formal verification and emulation for mission-critical applications
- ISO 26262 / Functional Safety for automotive ADAS applications
- System and PCB design

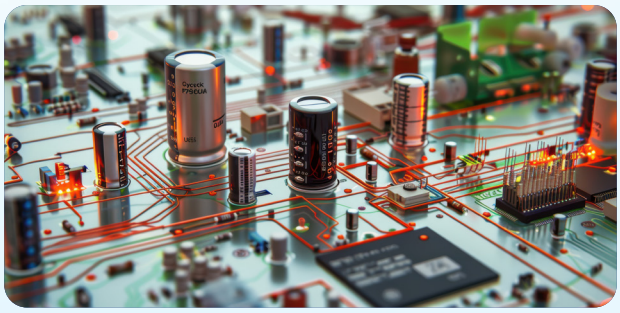
Kaynes Partnership - Two-Way, Not One-Way

The MoU with Kaynes Semicon is a genuinely bilateral commercial arrangement. When Kaynes goes to market for an end-to-end product design engagement, Trident is their pre-silicon design partner. When Trident goes to market, Kaynes is our OSAT and manufacturing partner. Joint bids are already underway in the defence and space lab sectors. Kaynes Semicon's Sanand, Gujarat facility was inaugurated with the first product delivered by the Prime Minister - making this the most visible OSAT capability in India today.

Differentiation Strategy

The semiconductor design services market is consolidating. Being 'another design services company' knocking on doors has become near-impossible. Trident's strategy is to enter customer accounts through niche, high-entry-value capabilities first - DO-254, functional safety, emulation, formal verification - secure a Master Service Agreement, and then expand into higher-volume verification and physical design work from inside the account. The niche capability is the pry-bar that gets us onto an approved-vendor list.

Market Opportunity



India semiconductor market

Targeted at USD 110 billion by 2030 (Source: Invest India). Government investment currently concentrated on OSAT/manufacturing - precisely the layer Kaynes represents and the access point for Trident.

Global semiconductor market

Growing at 12–14% CAGR. AI is the primary demand driver - 'underneath AI is the semiconductor.' Automobiles now 70–80% electronics by cost. Design services demand accelerating as chipmakers expand India design centres.

FY27 Outlook

The semiconductor subsidiary remains in its capability-build and team-growth phase. Revenue generation has commenced on a limited scale. The FY26 investment in team, compliance, and partnerships has been expensed through the consolidated P&L and is not expected to recur at the same intensity. Meaningful revenue contribution is expected from FY27 as design wins convert to billable projects and ODC relationships mature.

VISION, MISSION & VALUES

OUR VISION

To be the leading catalyst of innovation in product distribution, design engineering, and Intellectual Property creation, driving India's economic evolution. We aspire to deliver unparalleled quality, efficiency, and expertise, setting new standards in industry and empowering progress.

OUR MISSION

To position ourselves as the foremost service provider in our domains of expertise by leveraging our experience, dependability, and flexibility. Through the consolidation of allied technologies, we aim to deliver on our commitments to clients meticulously and ethically while generating significant value for our employees, investors, and the broader community, fostering sustainable growth and prosperity.

Our Core Values

Business through Technology

Our founding philosophy every problem we solve, we solve through the right technology. This is not a marketing tagline; it is the operating principle that has guided 25 years of engineering decisions, partner choices, and client relationships.

Engineering Integrity

In the domains we serve power, defence, space, semiconductors - the cost of error is high. We hold ourselves to the standards our clients need: CMMI Level 3 process rigour, DO-254 compliance discipline, ISO 27001 information security, and NFPA 70E safety protocols.

Long-Term Relationships

Tata Power Delhi has been with us since 2003. Our Siemens EDA partnership spans 16 years. Our Eaton/CYME relationship spans 25 years. We build for longevity relationships, capabilities, and trust not for the transaction.

Customer Commitment

We enter at the problem-statement stage, shape the solution, and stay for the life of the project. Software integration, hand-holding, training, AMC and ongoing support our commitment does not end at the point of sale.

Indigenous Innovation

We spent 25 years bringing world-class technology into India. We now build it here. Phitech-1000 is the first owned IP product in our history. Our LLM security models are built by our team. India's semiconductor design ambition is in our subsidiary's mandate.

Accountability & Transparency

We acknowledge when delivery does not match guidance. We report plainly standalone and consolidated, separately and clearly. We give investors trackable quarterly commitments rather than optimistic annual forecasts. Credibility is rebuilt through delivery.

Our Philosophy in Practice

"Business through Technology" means that Trident does not sell products - it solves engineering problems using technology as the vehicle. A power utility that partners with Trident does not simply receive a CYME licence; it receives a 25-year engineering library, deployed engineers, master-plan analysis, and ongoing software integration. A defence lab that works with our Engineering Solutions team does not simply receive Siemens EDA tools; it receives the capability to shorten its design and development cycle. The philosophy demands that we understand our clients' problems more deeply than our competitors do and that demand has built the company we are today.

CEO & CFO'S MESSAGE

Sukesh Chandra Naithani
Whole-Time Director, CEO & CFO,
Trident Techlabs Limited

Dear Shareholders,

I want to speak plainly in this message, because you deserve plain speaking. FY26 was a year in which the company delivered meaningful operational progress and made significant strategic investments - and also a year in which our consolidated financial results, taken at face value, present a picture that requires explanation.

The Numbers, Clearly

Standalone revenue grew 26.8% to ₹97.08 crore. Standalone PAT grew 9% to ₹12.56 crore. Our operating cash flow swung firmly positive — from a small outflow the previous year to ₹14.09 crore of cash generated from operations. Cash on hand nearly tripled, from ₹6.48 crore to ₹19.1 crore. Net worth strengthened to ₹68.91 crore. Trade receivables reduced from ₹63.36 crore to ₹57.65 crore even as revenue grew — which tells you collection discipline improved.

Consolidated PAT was ₹6.07 crore, against ₹11.50 crore the previous year. The approximately ₹6.5 crore difference between standalone and consolidated PAT is entirely the result of upfront investment in Techlabs Semiconductor — team build-out, DO-254 compliance work, and capability acquisition — and the UAE entity. We made the deliberate decision to expense these costs immediately rather than capitalise them. That decision penalises the FY26 consolidated P&L and positions us better for FY27 and beyond. Consolidated margins will expand as these investments convert to revenue.

The DRDO Order - What It Actually Means

The ₹71.73 crore DRDO order is the largest order in 25 years of operating history. I want to be specific about why that matters beyond the number itself. Winning a mandate of that size from DRDO requires passing procurement qualification processes that most technology companies — including several much larger than us — cannot clear. It requires technical credibility, security clearance compatibility, proven engineering depth, and institutional trust. We cleared all of it. That is not luck, and it is not a one-off. It is the result of 25 years of consistent presence in the defence and government engineering ecosystem. It changes the category of customer we can plausibly compete for — permanently.

On Guidance and Trust

I have said this on investor calls and I will say it in this report too: we have not always delivered on the timelines we communicated. Government and PSU billing is genuinely lumpy — billing cycles cluster at year end, approvals take longer than anticipated, and new verticals take more time to produce revenue than optimism suggests. These are real factors. They are not excuses. The responsibility to communicate more carefully, more conservatively, and more consistently sits with me, and I accept it.

What I am committing to from FY27 is this: quarterly updates on order wins and billing, clear tracking of the metrics we guide on, and guidance numbers that are grounded in what we can see rather than what we hope. We are guiding to 30%-plus CAGR in revenue, EBITDA and PAT over three years on a consolidated basis. That number has been built from our existing order book, our pipeline visibility, and the investments we have already made — not from a stretch target.

Operational Priorities for FY27

In Power and Engineering Solutions, the shift from software reseller to solution provider continues. The target is 50%-plus of revenue from recurring services and AMC within two years. Phitech-1000 moves from field testing into commercial scale-up. The DRDO order executes and bills. In Cybersecurity, the task is clear: convert the existing pipeline — particularly the encrypted traffic visibility accounts and the BFSI mandates — into closed, billing customers through H2 FY27. In Semiconductor, we build the team, anchor the first ODC customer relationships, and demonstrate the first meaningful revenue quarter. And internationally, the Dubai office moves from set-up to active proposal conversion across GCC and Africa.

I am confident in the direction. I ask for your continued patience in the execution, and I commit to earning it back one quarter at a time.

Warm regards,

Sukesh Chandra Naithani

CHAIRMAN'S MESSAGE

Sarad Chandra Naithani
Chairman & Whole-Time Director,
Trident Techlabs Limited

Dear Stakeholders,

It is with pride and a deep sense of responsibility that I present to you the 26th Annual Report of Trident Techlabs Limited - for the financial year 2025-26. As we mark another year as a publicly listed company on the NSE Emerge platform, I want to reflect on what this year truly meant for us, and where we are headed.

FY26 was the year Trident proved it could operate at a different scale. The award of a ₹71.73 crore order from DRDO the largest defence mandate in our 25-year history - was not simply a large order. It was validation: that the engineering depth we have built, the relationships we have sustained, and the credibility we have earned over decades are now translating into opportunities of genuine consequence. That order, alongside ₹26.95 crore from KSEB and ₹4.01 crore from BEML, speaks to the growing recognition of Trident as a technology partner of scale.

Four Verticals, One Direction

For the first time in our history, we enter a new financial year with four genuinely active business verticals. Power Solutions remains our largest engine — a business with near-monopoly positions in distribution utilities built over 25 years. Engineering Solutions continues to serve India's most demanding clients: DRDO, ISRO, HAL, NAL, and the defence and space establishment. Cybersecurity has moved from establishment to early traction, with significant pipeline in defence and BFSI. And Semiconductor — the youngest and most forward-looking of our four verticals — is beginning to find its footing, led by a team with decades of domain expertise.

The strategic logic of having four verticals is simple but powerful: they share a common client base, they create natural cross-sell opportunities, and they reduce the dependence of the company on any single business in any given period. In a company of our size, that diversification is a genuine strength.

Make-in-India - Our Commitment in Action

I want to highlight something I consider particularly meaningful about where Trident stands today. For 25 years, we were a company that brought world-class technology into India. That remains core to what we do. But in FY26, we are also a company that is building technology within India. Phitech-1000, our own indigenously developed phase-detection hardware, is the first product we have ever built ourselves — and it solves a real problem that has gone unaddressed in Indian utilities for decades. Intrucept, our exclusive Make-in-India cybersecurity partner, is the only 100% Indian stack capable of meeting government mandatory procurement standards. And our semiconductor subsidiary is operating at the design layer of India's national semiconductor ambition.

We are not making these claims as marketing. We are making them because they reflect a genuine shift in the company's character — from distributor to creator.

On Trust and Transparency

I am aware that the past year has tested investor patience. Our guidance has not always aligned with our delivery particularly on timing and I acknowledge that plainly. The government and PSU procurement environment is inherently lumpy, and new verticals take longer to gestate than optimism often anticipates. What I can commit to is this: we will be more conservative in how we set expectations, more transparent in how we report against them, and more consistent in the quality of communication we provide to our investors every quarter.

We are guiding to 30%-plus CAGR in revenue, EBITDA and PAT over the next three years on a consolidated basis. That is a number we have arrived at by working from the order book we have in hand, the pipeline we can see, and the investments we have already made — not by extrapolating ambition. We intend to earn your confidence back through delivery.

Looking Ahead

The environment in which we operate has rarely been more favourable. India's power infrastructure investments are at a multi-decade high. The country's semiconductor ambition is backed by policy and capital. Defence indigenisation is accelerating. Cybersecurity is a national priority. We sit at the intersection of all four. Our task for FY27 and beyond is to convert that positioning into consistent, visible, quarterly performance.

On behalf of the Board of Directors, I thank every member of the Trident Techlabs team for their commitment and hard work through FY26. I thank our clients for the trust they place in us. And I thank you — our shareholders and stakeholders — for your continued confidence in this company and its long-term direction.

Warm regards,

Sarad Chandra Naithani
Chairman & Whole-Time Director
Trident Techlabs Limited

BOARD OF DIRECTORS

The Board of Trident Techlabs Limited comprises Whole-Time Directors with deep domain expertise across the company's core verticals, alongside Independent Directors who bring governance, financial, and regulatory expertise. The board composition reflects the company's commitment to combining operational insight with independent oversight.

Whole-Time Directors

Sarad Chandra Naithani

Chairman & Whole-Time Director

36+ years experience

Over 36 years of experience in Marketing and Business Development across the Banking and Technical Education sectors. Joined Trident Techlabs in 2001 to lead business development, marketing, and key account management. Core expertise in identifying prospects, analysing requirements, and negotiating commercial terms. Instrumental in establishing and sustaining long-term client relationships that form the foundation of Trident's business model.

Praveen Kapoor

Managing Director

34+ years experience

Over 34 years of diversified experience in Electronics and Electrical Engineering. Began his career in 1990 at Intel Corp.'s India representative office, promoting microprocessors and real-time operating systems. Became an entrepreneur in 1991 and has since led Trident's technical initiatives in CAD and engineering services for the electronics and electrical power industry. Leads international expansion strategy. Graduate in Electrical Engineering, Dayalbagh Educational Institute, Agra.

Sukesh Chandra Naithani

Whole-Time Director, CEO & CFO

35+ years experience

Over 35 years of experience in Information Technology and Electronics. Began his career in 1988 in marketing for high-end computer peripherals and IT solutions. Co-founded Trident Techlabs in 2000 as a marketing outfit for engineering simulation software. Now leads the company as CEO and CFO. Recognised as ET India's Most Impactful CEO (2024) and Chanakya Award recipient (2025). Earlier recognition as Most Promising Entrepreneur by Enterprise Asia (2011). Science degree, Garhwal University; PG Diploma in Computer Science, Priyadarshini Institute, New Delhi.

George Anil DSilva

Whole-Time Director & CTO - Engineering Solutions

25+ years experience

Over 25 years of experience in Business Development and Technical Management in Semiconductor EDA products, sales and services. Joined Trident in 2001 as an Application Engineer for EDA products, having previously worked at AMDL and as a research scholar at a DRDO missile-project laboratory. Leads the Engineering Solutions Group and its OEM partnerships with Siemens EDA, Cadence MSC, Relyence, Keysight and others. Bachelor's degree in Electronics and Communication Engineering.

Tushar Bhanudas Borole

Whole-Time Director & CTO - Power Solutions

30+ years experience

Over 30 years of professional experience across basic and detailed engineering, power system consultancy, project monitoring and execution, and protection and earthing systems. Chartered Engineer (IEI) and LFM of CEEAMA. Expert in electrical safety and arc flash hazard assessment under NEC and NFPA 70E guidelines for over 17 years. Deep expertise in power system studies using EATON CYME, SKM, CDEGS and Primtech 3D. Leads the Power Solutions Group, including the scale-up of Phitech-1000 and the shift toward services-led revenue.

Independent Directors

Ms. Sweety - Independent Director

Independent

Serves as Chairperson of the Audit Committee, Nomination and Remuneration Committee, and Stakeholder Relationship Committee. Brings independent governance oversight to the Board.

Ms. Neha Nimesh Shah - Independent Director

Till 28th January 2026

Contributed independent financial and regulatory perspective to Board deliberations.

Mr. Rohit Sunil Periwal - Independent Director

Appointed August 2025

Appointed as Additional Independent Director with effect from August 8, 2025 — succeeding earlier independent directors. Member of the Audit Committee and Nomination and Remuneration Committee.

Mrs. Sonam Bansal - Additional Independent Director

Appointed 28th April 2026

Appointed as Additional Independent Director with effect from April 28, 2026.

SENIOR LEADERSHIP TEAM

Beyond the Board, Trident Techlabs is led by a team of domain specialists who collectively carry centuries of engineering, business development, and technology leadership experience. Each vertical is headed by a leader who has spent the majority of their career in that domain.

Sanjay Gandhi - CEO - Techlabs Semiconductor Pvt Ltd

30 years in EDA & Semiconductors

30 years of experience in Electronic Design Automation and the semiconductor industry. 18 years at Mentor Graphics and Siemens EDA — one of the top three global EDA firms — before joining Trident at the inception of the semiconductor subsidiary. Previously associated with the Trident management team for 28 years. Led the establishment of Techlabs Semiconductor and the Kaynes Semicon partnership. Bachelor of Engineering in Electronics, Pune University; PGPBA (Marketing), IME Pune.

Sandeep Ghansela - GM - Cybersecurity

17+ years in Cybersecurity

17+ years of cybersecurity experience. CISSP certified and Prince2 certified. Leads sales, marketing, and business development for Trident's Cybersecurity vertical, including the Intrucept exclusive distribution relationship, the Votal.ai AI security partnership, and the encrypted traffic visibility and LLM-enabled security propositions. Deep relationships in defence, tri-services, PSU and BFSI client segments.

Abhishek Yadav - COO - Power Solutions Group

24 years in Power Sector

24 years of experience in the power sector. Manages day-to-day operations of the Power Solutions Group, overseeing project delivery, engineering teams, and client execution across India. Works closely with Tushar Borole (CTO) and Joe Basker (VP) to deliver the vertical's revenue and operational targets.

Dr. Subhash C. Sati - President - Technology Management (Projects)

37 years at DRDO

Distinguished scientist with a 37-year career at DRDO, holding roles including DRDO Chair, Director General of Naval Systems and Materials, and Director of ADRDE. Expert in multidisciplinary systems realization with notable contributions in Missile Launchers, UAV Hydro-Pneumatic Catapult Launchers, and Aerial Heavy Drop Systems. Serves as Technology President, providing strategic technology advisory across Trident's defence-facing businesses.

Pranav Madhavan Nair - Company Secretary & Compliance Officer

Appointed January 2025

Appointed Company Secretary and Compliance Officer with effect from January 31, 2025. Responsible for statutory compliance, Board secretarial functions, SEBI Listing Obligations, and investor grievance management. Serves as the primary interface between the company and NSE on regulatory and disclosure matters.

Collective leadership experience across the Board and senior team: **350+ years**

Spanning power engineering, EDA, semiconductors, cybersecurity, defence research, and financial management - built over careers in India's most demanding engineering and technology environments.

OUR CUSTOMERS

Trident Techlabs serves over 300 clients across India and internationally - spanning government utilities, defence and space organisations, public sector undertakings, private enterprises, and academic institutions. The breadth of this base reflects the cross-vertical nature of the company's offering: many clients engage more than one of our four verticals.

Power Solutions Group

Private Utilities

adani	TATA POWER	TATA POWER-DDL	TORRENT POWER	CESC LIMITED

Cybersecurity

Client identities in cybersecurity are not publicly disclosed. The three top client categories by sector are:

Defence & Tri-Services

All three armed services are active clients

Defence PSU

Strategic public sector undertaking

Aviation & Travel

A prominent Indian airline

Active pipeline also includes BFSI (RBI encrypted PII mandates), government & PSUs, and utilities/IoT for OT security.

Semiconductor: Target Customer Universe

The semiconductor subsidiary targets two distinct customer groups. For design services: global semiconductor companies with India design centres. For system design: India's strategic sector and the Indian arms of global aerospace and defence primes.

Design Services: Target Companies

- Intel
- AMD
- Broadcom
- Qualcomm
- NXP
- STMicroelectronics
- US/Israeli/European startups
- ndian semiconductor startups

System Design: Strategic Sector

- DRDO labs (DLRL, LRDE, ADE, ARDE)
- ISRO / VSSC / SAC / IGCAR
- Collins Aerospace

Industrial & Arc Flash - Selective Customer Base

Arc flash safety and industrial electrical assessments have been delivered since 2006 to over 700 projects across a wide range of industrial clients including Cummins, Colgate-Palmolive, Syngenta, and hundreds of others - with project execution across India, China, Malaysia, Vietnam, Thailand and the Middle East.

STRATEGIC PARTNERSHIPS & OEM ECOSYSTEM

Trident Techlabs' competitive moat is built on relationships, not just capabilities. The company holds long-tenured, exclusive or authorised-distributor arrangements with globally respected technology principals — relationships that have been built and maintained over decades and are not easily replicable. Alongside these, two strategic commercial partnerships extend the company's reach into semiconductor manufacturing and cybersecurity.

Long-Tenured OEM Relationships

Partner	Vertical	What This Relationship Delivers
Eaton (CYME) 25 years	Power Solutions	Exclusive India distribution of CYME for distribution and T&D network analysis. Trident holds ~80–90% share of Indian power distribution utilities on this platform. Relationship spans 25 years - longer than most competitors have existed.
Integra - Primtech Since 2018	Power Solutions	Exclusive distribution of Primtech for EHV substation design (220/400/765 kV). Trident has rapidly achieved 70–80% share in this niche with very limited competition.
SKM PowerTools Ongoing	Power Solutions	Distribution of SKM for industrial plant design and arc flash analysis. 20–30% market share; competes with ETAP and EasyPower.
Siemens EDA (formerly Mentor Graphics) 16+ years	Engineering Solutions	End-to-end IC design tools from specification to manufacturing-ready layout. Partnership survived Siemens' acquisition of Mentor Graphics - demonstrating the durability of the relationship through industry consolidation.
Cadence MSC (formerly Hexagon) ~14 years	Engineering Solutions	Multi-body dynamics, CFD, structural and fatigue analysis. Partnership retained through Cadence's acquisition of the Hexagon CAE division - another demonstration of relationship continuity.
Relyence Ongoing	Engineering Solutions	Reliability analysis, MTBF, warranty prediction and lifecycle management. Key tool for EV and defence reliability engineering.
Keysight Recently signed	Engineering Solutions	IP data management for IC development and photonics solutions. Latest addition to the ESG OEM stack.

Strategic Commercial Partnerships

Kaynes Semicon - MoU Partner

Two-way commercial arrangement for the semiconductor vertical. When Kaynes goes to market for end-to-end product design, Trident's subsidiary (Techlabs Semiconductor) is their pre-silicon design partner. When Trident goes to market, Kaynes is the OSAT and manufacturing partner.

Kaynes Semicon's Sanand, Gujarat OSAT facility was inaugurated by the Prime Minister - the most prominent OSAT capability in India today. Joint bids are already underway in defence and space lab segments.

Parent: Kaynes Technology - ~USD 5 Bn company, 16 manufacturing plants across India.

Intrucept - Exclusive India Distributor

Trident is the sole India distributor for Intrucept, a 100% Indian Make-in-India cybersecurity startup. The Intrucept stack covers SIEM, SOAR, NDR, XDR, deception platform, cyber analytics, threat intelligence, application security (SAST, DAST, IAST, SCA), and BISO platform.

The Make-in-India compliance of Intrucept-led bids gives Trident a structural advantage in government tenders where 100% domestic sourcing is mandatory - a requirement that excludes most global cybersecurity vendors.

Votal.ai (US-based, India presence): exclusive arrangement for AI-driven application security testing.

Why These Relationships Are a Moat

Continuity through M&A

Trident has retained its OEM relationships through multiple industry M&A events - Siemens' acquisition of Mentor Graphics, Cadence's acquisition of Hexagon CAE. Retaining a partnership through a principal's ownership change is evidence of real relationship depth, not contractual convenience.

25-Year Engineering Library

Trident's moat in Power is not the CYME software - it is the 25-year library of engineering knowledge, templates, models, and customer-specific configurations built on top of CYME. A new distributor gets the software; they cannot get Trident's library.

Government Tender Advantage

For government and defence tenders, Trident pushes customers toward OEM-authorised-partner tenders wherever possible, compressing the eligible bidder pool to only authorised partners. The OEM relationship is thus the admission ticket to entire categories of procurement.

MAKE-IN-INDIA - TRIDENT'S INDIGENOUS STORY

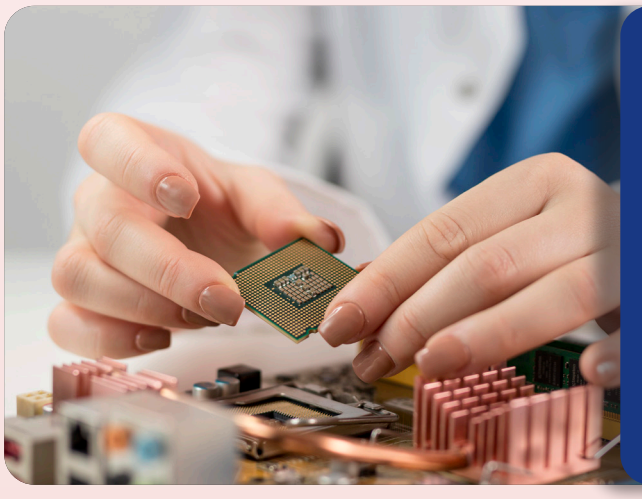
Trident Techlabs has been a beneficiary of India's technology ecosystem for 25 years — and is now an active participant in building it. Across three of its four verticals, the company has developed or distributes indigenous solutions that go beyond importing and reselling foreign technology.

Phitech-1000 Power Solutions Group

Trident's first owned IP product - an indigenously developed phase-detection hardware device (X-Mapper). 4–5 years of R&D. Solves a 20–30 year-old utility data gap: consumer-to-phase mapping. Uses Power Line Communication, integrates with utility billing systems, supported by a Trident-built mobile app. Field-tested at ~90% accuracy across multiple utilities. Now entering scale-up.

Intrucept Cybersecurity

Trident is the exclusive India distributor of Intrucept, a 100% Indian Make-in-India cybersecurity startup. The Intrucept stack is the only end-to-end Indian-built SIEM/SOAR/XDR/application-security platform — giving Trident a structural edge in government tenders that mandate 100% Make-in-India products. Trident has additionally built its own LLM and AI security models.



Semiconductor Design Techlabs Semiconductor

The semiconductor subsidiary is positioned as India's pre-silicon design layer — the capability India needs to complement the OSAT and manufacturing investments being made at the national level. DO-254 compliance work has been delivered for 15+ years at the parent company level, supporting avionics and space hardware built and tested in India.

Phitech-1000 - The Make-in-India Hardware Story in Detail

The Problem	Most Indian power utilities have not maintained accurate consumer-to-phase mapping data for 20–30 years. Without knowing which consumer (and which transformer or pole) is on which phase (R/Y/B), utilities cannot reliably balance loads, reduce outage time, or optimise their distribution networks.
Previous Solution	An imported US product called Origo. Discontinued by Trident due to high cost, tariff and embargo concerns, and product reliability issues encountered at Torrent Surat.
Trident's Response	4–5 years of in-house R&D to develop Phitech-1000 (also called X-Mapper) - a multimeter-style hardware device with a Trident-built mobile application, using Power Line Communication (PLC) technology integrated directly with utility billing and consumer database servers.
Performance	Field-tested across multiple utilities for the past 3–4 months with approximately 90% accuracy. Moving from field-test to scale-up phase.
Strategic Significance	Phitech-1000 is the first owned intellectual property product in Trident's 25-year history. It positions the company as a technology creator, not just a distributor - changing the long-term margin and value profile of the Power vertical.
Scalability	The device is designed to be extensible beyond phase detection into upstream and downstream network tracing, supporting distribution automation in tier-2 and tier-3 cities.

India's Semiconductor Ambition - Trident's Role

India has announced a USD 110 billion semiconductor target by 2030 and has concentrated initial government investment on the OSAT and manufacturing layer - inaugurating facilities for Micron (Sanand, Gujarat) and Kaynes Semicon (Sanand, Gujarat). The design layer - where India's 40-year talent heritage actually sits - is left to private players.

Techlabs Semiconductor is deliberately positioned at this design layer. The company's DO-254 capability, Kaynes MoU for OSAT access, and Siemens EDA tools at the parent level give it a chip-to-product stack without owning a fab. This is the model that makes India's semiconductor ambition commercially viable for a company of Trident's size - asset-light, expertise-heavy, and aligned with national policy priorities.

Alignment with Government Initiatives

- **India Semiconductor Mission** - Trident's semiconductor subsidiary is directly aligned with the ISM's goal of building a domestic design ecosystem.
- **Make-in-India mandate in defence procurement** - Intrucept's 100% Indian stack gives Trident access to defence tenders where foreign vendors cannot participate.
- **RAPDRP scheme (Ministry of Power)** - Trident was empanelled under this scheme in 2009, which mandated consumer indexing - directly relevant to Phitech-1000's use case.
- **Distribution automation push** - Government investment in smart grid infrastructure and AT&C loss reduction creates direct demand for Trident's PSG services and Phitech-1000.
- **Atmanirbhar Bharat in electronics** - DO-254 compliant avionics and space electronics work supports India's goal of self-reliance in mission-critical hardware.

GEOGRAPHIC PRESENCE

Trident Techlabs operates from seven offices across India and internationally, covering all major economic regions of the country and a growing international footprint in South Asia, Southeast Asia, and the Middle East.

India Office Network

New Delhi

Headquarters

Corporate HQ. Primary utility-facing office. Pan-India T&D business development. IT and Python/AI development team concentrated here. Registered office: 1/18-20, 2nd Floor, White House, Rani Jhansi Road, New Delhi – 110055.

Bengaluru

South India

Primary South India operations hub. Engineering Solutions Group and semiconductor team presence. Defence lab and DRDO/ISRO client engagement. Expansion into Hyderabad planned as demand grows.

Hyderabad

South India

Engineering Solutions and defence lab coverage. Serves DRDO establishments including DLRL (Defence Laboratory for Research). Growth office supporting Bengaluru operations.

Pune

West India

Western India coverage - Gujarat, Maharashtra, Goa and parts of Madhya Pradesh. Strong Power Solutions base including Torrent Power, industrial and EPC clients. ~12–15 engineers.

Kolkata

East India

Eastern India and Northeast - approximately 10 states. Power utility and government client coverage for the eastern region.

Chennai & Mumbai

South & West India

Sales and client engagement presence supporting Power Solutions and Engineering Solutions businesses in Tamil Nadu, Maharashtra, and surrounding states.

International Active Footprint

Dubai, UAE | Trident Techlabs LLC-FZ | Incorporated FY25

Wholly owned subsidiary (100%). Covers Middle East and Africa. Operational FY26. Active proposals in GCC (Saudi Arabia, Oman), Africa (Nigeria, Cameroon) and Southeast Asia. Anchor for all international business development outside South Asia.

Country / Region	Vertical	Nature of Engagement
Nepal	Power Solutions	Active client base. Power utility software and services.
Sri Lanka	Power Solutions	Active client base. Power utility software and services.
Vietnam	Power Solutions	3–4 active system integration projects currently underway.
Philippines, Cambodia, Thailand	Power Solutions (ESG)	International CYME services routed through Trident. Existing revenue.
Saudi Arabia	Cybersecurity	Presence established; technical and marketing knowledge transferred to local team.
GCC, Africa, SE Asia	Multi-vertical	Active proposals in Saudi Arabia, Oman, Nigeria, Turkey, Cameroon, and Southeast Asian markets via Dubai office.

Industrial Projects International Execution

Trident's arc flash and electrical safety work has been executed internationally - projects completed in China, Malaysia, Vietnam, Thailand, and the Middle East - demonstrating the company's ability to deliver engineering services beyond Indian borders even before the formal Dubai office was established.

AWARDS, CERTIFICATIONS & RECOGNITIONS

Trident Techlabs holds internationally recognised quality and information security certifications across its business operations, and its leadership has received external recognition for entrepreneurial and executive achievement.

Quality & Information Security Certifications

ISO 27001:2022

Information Security Management System. The highest internationally recognised standard for information security - covering security of data, systems and processes. Particularly relevant given Trident's cybersecurity vertical and its work with defence and government clients.

ISO 20000-1:2018

IT Service Management System. Demonstrates that Trident's IT service delivery meets internationally recognised best-practice standards. Relevant to software implementation, AMC management, and ongoing client service operations.

ISO 45001:2018

Occupational Health & Safety Management System. Demonstrates Trident's commitment to the physical and operational safety of its engineers, including those deployed at utility sites, industrial facilities, and field-testing locations for arc flash and Phitech-1000 work.

CMMI Level 3

Capability Maturity Model Integration - Level 3 (Defined). A globally recognised software process quality standard, demonstrating that Trident's development and delivery processes are documented, standardised, and consistently followed. Significant for government and defence procurement qualification.

ISO 9001:2015

It is the international standard that specifies requirements for a quality management system (QMS), helping organizations demonstrate their ability to consistently provide products and services that meet customer and regulatory requirements.

Leadership Awards & Recognitions

ET India's Most Impactful CEO - FY2024

Mr. Sukesh Chandra Naithani, CEO & CFO

Awarded by The Economic Times - one of India's most widely recognised business leadership honours - recognising Mr. Naithani's impact in building Trident Techlabs into a multi-vertical listed technology company.

Chanakya Award - 2025

Mr. Sukesh Chandra Naithani, CEO & CFO

Recognises strategic leadership and business vision. Awarded in 2025, the year Trident delivered its largest-ever defence order and launched its semiconductor subsidiary.

Most Promising Entrepreneur - 2011

Mr. Sukesh Chandra Naithani, CEO & CFO

Awarded by Enterprise Asia. An early recognition of Trident's entrepreneurial trajectory, received more than a decade before the company's public listing.

Why Certifications Matter for Trident's Business

Defence & Government Procurement

ISO 27001 and CMMI Level 3 are frequently mandatory or preference-weighted criteria in government and defence procurement. Holding these certifications keeps Trident on approved-vendor lists and qualifies it for tenders it would otherwise be excluded from.

Cybersecurity Client Confidence

A cybersecurity company that does not hold ISO 27001 for its own operations is in a credibility-deficit position when selling security to clients. Trident's ISO 27001:2022 certification is table-stakes for its cybersecurity vertical and a competitive differentiator in BFSI and defence.

International Expansion Readiness

International customers particularly in the GCC, where government procurement is stringent - typically require ISO certification as a baseline qualification. Trident's certification stack positions it for credible engagement in the GCC markets it is actively pursuing via Dubai.

Key Rating Considerations

Strengths recognised by CareEdge (Oct 2025)

Experienced management

Promoters collectively carry 100+ years across electronics, electrical engineering, and IT - directly relevant to all four business verticals.

High profitability margins

PBILDT of 24.44% and PAT margin of 15.04% in FY25. In FY26 standalone EBITDA margin was 21.0% - moderated by higher traded-product mix; underlying services margins remain strong.

Diversified product profile

Portfolio spans power utilities, engineering consultancy, defence, electronics industry and research institutions, reducing single-vertical dependence.

Comfortable financial risk profile

Gearing 0.22x at March 2025; interest coverage 7.06x. FY26 cash generation turned firmly positive at ₹14.09 Cr from operations.

Reputed, long-tenured client base

Deep, multi-year relationships with DRDO, MSEB, Tata Power Delhi (since 2003), ISRO and other blue-chip clients support revenue predictability.

Considerations noted by CareEdge (Oct 2025)

Working capital intensity

High trade receivables and elongated collection cycles. Long-pending receivables from Bangladesh (DESCO / Dhaka PDC) arising from political unrest remain an open item being actively pursued.

Scale - growing from a small base

Standalone revenue was ₹97.08 Cr in FY26 (+26.8% YoY) - now above the ₹100 Cr threshold CareEdge identified as a positive rating trigger.

Tender-based business risk

A competitive bidding environment with intense competition from both large IT players and smaller niche firms.

Government exposure

Significant government and PSU revenue concentration subjects the business to political, economic and regulatory risks.

Rating Outlook - Stable:

The stable outlook reflects the company's diversified product profile, experienced promoters, and long-established client relationships. CareEdge noted two positive triggers for a rating upgrade: (1) sustained revenue above ₹100 Crore — now achieved with FY26 standalone revenue of ₹97.08 Cr, and H1 FY26 of ₹63.44 Cr demonstrating the run-rate; and (2) major recovery in trade receivables. Negative triggers would be gearing above 2.50x on a sustained basis or receivable collection days stretching beyond 300 days.

Bangladesh receivables - management update:

Long-pending payments from DESCO and Dhaka PDC relate to service components of projects delivered since 2019. Deliverable-linked receivables have been recovered; service-payment delays are attributable to political instability and fund-clearance constraints in Bangladesh. Management is actively pursuing collection through appropriate channels.

Source: CareEdge Ratings (CARE Ratings Limited) press release dated 7 October 2025, reaffirming CARE BB+; Stable on bank facilities. The rating is assigned on a standalone basis. Ratings are opinions and not recommendations to transact in any security. FY26 audited financial results supersede certain FY25 figures referenced in the original rating rationale. Acuite Ratings and Brickworks Ratings have retained ratings under Issuer Not Cooperating (INC) category as disclosed in the CareEdge press release.

2. Pursuant to the Circular No. 14/2020 dated April 08, 2020, issued by the Ministry of Corporate Affairs, the facility to appoint proxy to attend and cast vote for the members is not available for this 26th AGM. However, the Body Corporates are entitled to appoint authorised representatives to attend the 26th AGM through VC/OAVM and participate there at and cast their votes through e-voting.

3. The Members can join the 26th AGM in the VC/OAVM mode 15 minutes before the scheduled time of the commencement of the Meeting by following the procedure mentioned in the Notice. The facility of participation at the 26th AGM through VC/OAVM will be made available for 1000 members on first come first served basis. This will not include large Shareholders (Shareholders holding 2% or more shareholding), Promoters, Institutional Investors, Directors, Key Managerial Personnel, the Chairpersons of the Audit Committee, Nomination and Remuneration Committee and Stakeholders Relationship Committee, Auditors etc. who are allowed to attend the 26th AGM without any restriction on account of first come first served basis.

4. The attendance of the Members attending the 26th AGM through VC/OAVM will be counted for the purpose of reckoning the quorum under Section 103 of the Companies Act, 2013. In case of joint holders attending the meeting, the Member whose name appears as the first holder in the order of names as per the Register of Members/List of Beneficial Owners of the Company will be entitled to vote at the AGM.

5. Pursuant to the provisions of Section 108 of the Companies Act, 2013 read with Rule 20 of the Companies (Management and Administration) Rules, 2014 (as amended) the Secret arial Standard on General Meetings (SS-2) issued by the ICSI and Regulation 44 of SEBI (Listing Obligations & Disclosure Requirements) Regulations 2015 (as amended), and the Circulars issued by the Ministry of Corporate Affairs from time to time the Company is providing facility of remote e-Voting to its Members in respect of the business to be transacted at the 26th AGM. For this purpose, the Company has entered into an agreement with National Securities Depository Limited (NSDL) for facilitating voting through electronic means, as the authorized agency. The facility of casting votes by a member using remote e-Voting system as well as e-voting on the date of the 26th AGM will be provided by NSDL.

6. In line with the Ministry of Corporate Affairs (MCA) Circular No. 17/2020 dated April 13, 2020, the Notice calling the 26th AGM has been uploaded on the website of the Company at https://www.tridenttechlabs.com/shareholing-meeting. The Notice can also be accessed from the websites of the Stock Exchange i.e. NSE Limited at www.nseindia.com and from the website of NSDL (agency for providing the Remote e-Voting facility) i.e. www.evoting.nsdl.com respectively.

name, DP ID and Client ID/ folio number, PAN, mobile number at compliance@tridenttechlabs.com upto Monday, September 26, 2026. Those Members who have registered themselves shall be given an opportunity of speaking live in AGM. The Company reserves the right to restrict the number of speakers depending on the availability of time for the AGM and avoid repetition of questions.

8. The Register of Directors and Key Managerial Personnel and their shareholding maintained under section 170 of the Companies Act, 2013 ("the Act") and the Register of Contracts or Arrangements in which the directors are interested, maintained under section 189 of the Act, will be available electronically for inspection by the members during the AGM. All documents referred to in the Notice will also be available for electronic inspection without any fee by the members from the date of circulation of this Notice up to the date of AGM. Members seeking to inspect such documents can send an email to compliance@tridenttechlabs.com.

9. The Notice of the Annual General Meeting and Annual Report of the Company for the year ended 31st March, 2026 is uploaded on the Company's website https://www.tridenttechlabs.com/shareholing-meeting and can be accessed by the members from there.

10. Pursuant to Sections 101 and 136 of the Act read with the relevant Rules made thereunder, Regulation 36 of the SEBI (LODR) Regulations and the MCA/SEBI Circulars, the Company will send the Annual Report along with the Notice of the AGM and other communications through electronic mode to those Members whose e-mail addresses are registered with the Depository Participants ("DPs")/Company/Registrar and Share Transfer Agent ("RTA"). Members who have not registered their e-mail address in their demat accounts are requested to update/register their e-mail address immediately with their respective DPs.

11. All shareholders are requested to dematerialize their shareholding immediately as The Securities and Exchange Board of India (SEBI) has mandated the transfer of shares only in demat mode. Regulation 40 of the Listing Regulations, as amended, mandates that transfer, transmission and transposition of securities held in physical form shall be effected only in dematerialized mode. Further, SEBI vide Master Circular No. SEBI/HO/MIRSD/MIRSD-PoD/P/CIR/2025/91 dated June 23, 2025 mandated the listed companies to issue securities in dematerialized form only while processing service requests viz. issue of duplicate securities certificate, claim from unclaimed suspense account, renewal/exchange of securities certificate, endorsement, sub-division/splitting of securities certificate, consolidation of securities certificates/folios, transmission and transposition. Accordingly, Members are requested to make service requests by submitting a duly filled and signed Form ISR-4 available on the Company's website. Members can contact the Company or the Registrar and Share Transfer Agent ("RTA") for any assistance in this regard. Please note that any service request can be processed only after the folio is KYC compliant.

12. The Securities and Exchange Board of India (SEBI) has mandated the submission of Permanent Account Number (PAN) by every participant in securities market. Members holding shares in electronic form are, therefore, requested to submit the PAN to their Depository Participants with whom they are maintaining their demat accounts. Members holding shares in physical form can submit their PAN details to the Company's Registrar and Share Transfer Agent,
Maashitla Securities Private Limited,
451, Krishna Apra Business Square,
Netaji Subhash Place, Pitampura,
New Delhi – 110034
Investor Grievance Email: rta@maashitla.com

13. Members are requested to address all correspondence pertaining to their securities mentioning either the Folio Number/Client ID or DP ID numbers, as applicable, including any change of address, e-mail if any, to the Registrar and Transfer Agent of the Company viz.:
Maashitla Securities Private Limited,
451, Krishna Apra Business Square,

b) If you are using NSDL e-Voting system for the first time, you will need to retrieve the 'initial password' which was communicated to you. Once you retrieve your 'initial password', you need to enter the 'initial password' and the system will force you to change your password.

c) How to retrieve your 'initial password'?

(i) If your email ID is registered in your demat account or with the company, your 'initial password' is communicated to you on your email ID. Trace the email sent to you from NSDL from your mailbox. Open the email and open the attachment i.e. a .pdf file. Open the .pdf file. The password to open the .pdf file is your 8 digit client ID for NSDL account, last 8 digits of client ID for CDSL account or folio number for shares held in physical form. The .pdf file contains your 'User ID' and your 'initial password'.

(ii) If your email ID is not registered, please follow steps mentioned below in **process for those shareholders whose email ids are not registered.**

6. If you are unable to retrieve or have not received the "Initial password" or have forgotten your password:

a) Click on "Forgot User Details/Password?"(If you are holding shares in your demat account with NSDL or CDSL) option available on www.evoting.nsdl.com.

b) Physical User Reset Password?" (If you are holding shares in physical mode) option available on www.evoting.nsdl.com.

c) If you are still unable to get the password by aforesaid two options, you can send a request at evoting@nsdl.com mentioning your demat account number/folio number, your PAN, your name and your registered address etc.

d) Members can also use the OTP (One Time Password) based login for casting the votes on the e-Voting system of NSDL.

7. After entering your password, tick on Agree to "Terms and Conditions" by selecting on the check box.

8. Now, you will have to click on "Login" button.

9. After you click on the "Login" button, Home page of e-Voting will open.

Step 2: Cast your vote electronically and join General Meeting on NSDL e-Voting system.

How to cast your vote electronically and join General Meeting on NSDL e-Voting system?

1. After successful login at Step 1, you will be able to see all the companies "EVEN" in which you are holding shares and whose voting cycle and General Meeting is in active status.
2. Select "EVEN" of company for which you wish to cast your vote during the remote e-Voting period and casting your vote during the General Meeting. For joining virtual meeting, you need to click on "VC/OAVM" link placed under "Join Meeting".
3. Now you are ready for e-Voting as the Voting page opens.
4. Cast your vote by selecting appropriate options i.e. assent or dissent, verify/modify the number of shares for which you wish to cast your vote and click on "Submit" and also "Confirm" when prompted.
5. Upon confirmation, the message "Vote cast successfully" will be displayed.
6. You can also take the printout of the votes cast by you by clicking on the print option on the confirmation page.
7. Once you confirm your vote on the resolution, you will not be allowed to modify your vote.

General Guidelines for shareholders

1. 14. Explanatory Statement as per Section 102 of the Companies Act, 2013 is mentioned below.

Item: 4: Regularization of appointment of Mrs. Sonam Bansal (DIN: 11692386) as Non-Executive Independent Director of the company:

The Board of Directors, at its meeting held on April 28, 2026, appointed Mrs. Sonam Bansal (DIN: 11692386) with effect from April 28, 2026, as an Additional Director, designated as an Independent Director of the Company. The Board of Directors also approved that the tenure of office of Mrs. Sonam Bansal as an Independent Director will be for a term of 5 (five) consecutive years from April 28, 2026, subject to approval of the members of the Company.

Mrs. Sonam Bansal is qualified to be appointed as a Director in terms of Section 164 of the Act and has given her consent to act as a Director. The Company has also received a declaration from Mrs. Sonam Bansal that she meets the criteria of independence under Section 149(6) of the Act and that she is not debarred from holding the office of director by virtue of any order passed by the Securities and Exchange Board of India / Ministry of Corporate Affairs or any such statutory authority. The Company has also received a notice under Section 160 of the Act from a member proposing the candidature of Mrs. Sonam Bansal for the office of Independent Director of the Company.

In the opinion of the Board, Mrs. Sonam Bansal fulfils the conditions for appointment as an Independent Director under the Act and the Listing Regulations and is independent of the management. Mrs. Sonam Bansal is a seasoned finance and governance professional with over 14 years of diverse experience in corporate finance, financial planning and analysis, risk management, compliance, strategic planning, and business leadership. A qualified Chartered Accountant, Company Secretary, and MBA in Finance, she has held senior positions with reputed organizations, including JPMorgan Chase & Co., Citigroup, Genpact, Transrail Lighting Ltd., and Ampersand Group. Her extensive expertise in financial strategy, treasury, audit, compliance, and corporate governance, coupled with her strong analytical and leadership capabilities, enables her to provide an objective and valuable perspective as an Independent Director, with a focus on ethical leadership, transparency, accountability, and sustainable long-term value creation.

Details of Mrs. Sonam Bansal, pursuant to the provisions of Secretarial Standard on General Meetings ("SS-2") issued by the Institute of Company Secretaries of India, are provided in the table below. She shall be entitled to sitting fees for attending meetings of the Board or its Committees, reimbursement of expenses incurred for participation in such meetings, and commission, if any, within the limits prescribed under Section 197 of the Act, as may be decided by the Board of Directors.

In accordance with the provisions of Sections 149, 150 and 152 read with Schedule IV of the Act and other applicable provisions of the Act, appointment of Mrs. Sonam Bansal as an Independent Director requires approval of the members of the Company.

Accordingly, approval of the members through Ordinary Resolution is sought for appointment of Mrs. Sonam Bansal as an Independent Director of the Company.

None of the other Directors / Key Managerial Personnel of the Company / their relatives are, in any way,

concerned or interested, financially or otherwise, in the resolution except Mrs. Sonam Bansal.

5.) To approve and ratify the maximum limit of employee stock options that may be granted to any single eligible employee under the Trident Techlabs employees stock option plan 2025.

The members of Trident Techlabs Limited ("Company") at the 25th Annual General Meeting of the Company held on 08th September, 2025, had approved, by way of Special Resolution under Item No. 09, the **"TRIDENT TECHLABS Employees Stock Option Plan 2025" ("ESOP TRIDENT TECHLABS 2025")** for the benefit of eligible employees of the Company and its subsidiary company(ies).

Under the said resolution, the members approved an aggregate grant of up to 1,80,000 (One Lakh Eighty Thousand) Employee Stock Options, with each option conferring a right to subscribe to one equity share of the Company of face value of ₹10/- each, subject to the terms and conditions of the Scheme and applicable laws.

The said resolution and explanatory statement specified the aggregate number of options that could be granted under the ESOP TRIDENT TECHLABS 2025. However, while preparing the notice and related documentation, the Company inadvertently omitted to specifically mention the maximum number of options that may be granted to any single eligible employee under the Scheme.

The Company has subsequently received an observation/query from the Stock Exchange in relation to the aforesaid omission and has been advised to appropriately clarify and incorporate the individual employee limit in the Scheme/resolution.

Accordingly, in order to address the aforesaid inadvertent omission and to provide greater clarity and certainty with respect to the administration of the ESOP TRIDENT TECHLABS 2025, the Board of Directors proposes to place before the members the present Special Resolution.

The Company proposes that not more than 5% of the aggregate Employee Stock Options available for grant under the ESOP TRIDENT TECHLABS 2025 shall be granted to any single eligible employee.

Accordingly, based on the aggregate limit of 1,80,000 Employee Stock Options approved by the members under Item No. 09, the maximum number of options that may be granted to any single eligible employee shall be 9,000 Employee Stock Options, being 5% of 1,80,000 options.

The proposed clarification is intended only to address the individual employee limit and does not increase or otherwise modify the aggregate ceiling of 1,80,000 Employee Stock Options already approved by the members under Item No. 09.

The proposed clarification shall be subject to adjustments, wherever applicable, consequent upon corporate actions such as bonus issue, rights issue, stock split, consolidation of shares, merger, demerger or any other corporate action, in accordance with applicable laws and the terms of the ESOP TRIDENT TECHLABS 2025.

The SEBI SBEBSE Regulations, 2021 prescribe the regulatory framework governing employee stock option schemes of listed companies and require appropriate shareholder approvals for specified matters relating to employee stock option schemes. The regulations are currently applicable to employee stock option schemes and have been amended from time to time.

The Board is of the view that the proposed clarification is in the interest of the Company and its shareholders as it provides an express individual employee limit and ensures greater transparency in the administration of the ESOP TRIDENT TECHLABS 2025.

Accordingly, the Board recommends the Special Resolution set out at Item No. 05 of the Notice for approval of the members.

None of the Directors and Key Managerial Personnel or their relatives or any other officials of the

Company except to the extent of their shareholding in the Company is in any way, financially or otherwise, concerned or interested in the resolution.

The Board recommends the Special Resolution for approval by the members.

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

OVERVIEW

INDUSTRY STRUCTURE AND DEVLOPEMENT

The global technology solutions industry, particularly within the aerospace, defense, automotive, telecom, medical, semiconductor, and power distribution sectors, continues to evolve rapidly. Increasing demand for advanced technology solutions is driven by the need for innovation, efficiency, and enhanced performance across these sectors. The aerospace and defense sectors are particularly focused on modernizing systems, while the automotive industry is rapidly adopting electric vehicles and autonomous driving technologies. The telecom sector is witnessing growth due to 5G deployment, and the semiconductor industry is seeing unprecedented demand across all applications. The medical sector's technology needs are expanding due to advancements in medical devices and diagnostics, and power distribution is moving towards smart grids and renewable energy integration.

OPPORTUNITIES AND OUTLOOK

The outlook for the coming year remains positive, with expected growth across both business verticals. We anticipate strong demand in the aerospace, defense, and telecom sectors, driven by technological advancements and increased investment in R&D. The power systems market is expected to benefit from the ongoing transition to renewable energy sources and the development of smart grid infrastructure.

Opportunities:

- Growing demand for advanced engineering solutions in aerospace, defense, and automotive industries.
- Expansion of 5G technology presents significant opportunities in the telecom sector.
- Rising investment in renewable energy and smart grid technologies.
- Increasing focus on digital transformation and automation across industries

RISK, CONCERNS AND THREATS

Risk:

- Market Volatility: Fluctuations in demand due to global economic conditions or geopolitical factors.
- Technological Obsolescence: The rapid pace of technological change necessitates continual innovation to stay competitive.
- Supply Chain Disruptions: Potential disruptions in the supply chain, especially for critical components in electronics and semiconductors.
- Cybersecurity Risks: Increasing reliance on digital systems poses significant cybersecurity risks that need to be managed.

Threats:

- Intense competition in the technology solutions market.
- Rapid technological changes requiring constant innovation and adaptation.
- Geopolitical risks impacting global supply chains, particularly in the semiconductor and defense sectors.
- Economic uncertainties that may lead to reduced spending in R&D and technology upgrades.

INTERNAL CONTROL SYSTEMS AND ITS ADEQUACY

The company has established robust internal control systems to ensure the integrity of financial reporting, compliance with applicable laws, and the efficiency of operations. These controls are regularly reviewed and updated to adapt to changing business environments and regulatory requirements. The audit committee periodically reviews the adequacy and effectiveness of the internal controls and risk management processes.

SEGMENT–WISE OR PRODUCT-WISE PERFORMANCE

Engineering Solutions:

This segment has shown strong performance, particularly in system-level and chip-level electronics design, driven by the increased demand for cutting-edge technologies in the aerospace and defense sectors. Our consulting and engineering services have gained traction, enabling clients to innovate across the product development lifecycle.

Power System Solutions:

The Power System Solutions vertical has experienced steady growth, especially in the integration of power electronics and smart grid technologies. The shift towards renewable energy and increased focus on sustainability have further bolstered demand for our solutions.

DISCUSSION ON FINANCIAL PERFORMANCE WITH RESPECT TO OPERATIONAL PERFORMANCE

The company's financial performance has shown resilience despite challenging market conditions. Revenue growth has been primarily driven by the Engineering Solutions segment, which has seen increased demand across all sectors. Notes: 1. Median remuneration of all the employees of the Company for the financial year 2025-26 is Rs. 3,49,509/- p.a.

iii. **The percentage increase / decrease in the median remuneration of employees in the financial year 2025-26.**

Particulars	Financial year 2025-26	Financial year 2024-25	Decrease
Median remuneration of all employees	3,49,509	4,56,000	-23.35%

Note: The calculation of % decrease in the median remuneration has been done based on comparable employees.

iv. **The number of permanent employees on the rolls of Company.**
There were 181 permanent employees on the rolls of Company as on March 31, 2026.

v. **Average percentile increase already made in the salaries of employees other than the managerial personnel in the last financial year and its comparison with the percentile increase in the managerial remuneration and justification thereof and point out if there are any exceptional circumstances for increase in the managerial remuneration.**

Percentile Increase for Employees other than Managerial Personnel: -23.35 %.

Percentile Increase for Managerial Personnel: -45.25%%.

Justification: The decrease of 45.25% in remuneration of managerial personnel is primarily due to non-payment of incentive/variable remuneration to the Directors and managerial personnel during FY 2025-26, resulting in a lower overall remuneration as compared to the previous financial year.

vi. **the key parameters for any variable component of remuneration availed by the directors;**

Justification: The -23.35% The decrease in the percentile of remuneration of employees other than managerial personnel during the financial year is primarily attributable to the fact that **no incentive/variable pay was paid to the employees or Directors during the financial year 2025-26**. Consequently, the overall remuneration considered for the year was lower as compared to the previous year, resulting in a corresponding decline in the median remuneration and percentile of employees other than managerial personnel.

Annual Report on Corporate Social Responsibility (CSR) Activities
[Pursuant to Section 135 of the Companies Act, 2013]

Brief outline on CSR Policy of the Company:

Corporate Social Responsibility (CSR) is a significant part of our overall sustainability policy, encompassing social, economic, and environmental actions. The policy aims to demonstrate care for the community through its focus on education, healthcare, community development projects/programs, etc., and to support local institutions/NGOs in addressing the needs of marginalized and underserved communities to help them become self-reliant. These efforts are preferably undertaken in the local area and around our work centers/project sites, or in other areas if public needs so demand.

The Company approaches CSR strategically to ensure a sustainable future for people and the planet. By focusing our talent, technology, and capital on social welfare, healthcare issues, and educational concerns, we strive to enact positive social change in society.

The CSR activities undertaken can be briefly summarized as follows:

- Education
- Betterment of life
- Food & Basic Needs of People
- Sports & Activities
- Women Empowerment
- Old Age Homes

The projects/programmes/activities undertaken or to be undertaken will be within the broad framework of Schedule VII of the Companies Act, 2013.

INDEPENDENT AUDITOR'S REPORT

To the Members of **Trident Techlabs Limited**

Report on the Financial Statements

We have audited the financial statements of Trident Techlabs Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2026, the Statement of Profit and Loss and Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the **Companies Act, 2013** ('Act') in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2026, and its profit statement for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the standards on auditing specified under section 143 (10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the Company in accordance with the code of ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the code of ethics.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Information other than the financial statements and auditors' report thereon

The Company's board of directors is responsible for the preparation of the other information. The other information comprises the information included in the Board's Report including Annexures to Board's Report, Business Responsibility Report but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial control that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The board of directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibility

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If

we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Financial Statements may be influenced. We consider quantitative materiality and qualitative factors in

(i) Planning the scope of our audit work and in evaluating the results of our work; and
(ii) To evaluate the effect of any identified misstatements in the Financial Statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India of the state of affairs of the Company as at March 31, 2026, and its profit, and its cash flows for the year ended on that date.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's report) Order, 2020 ("the Order") issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the Annexure A, a statement on the matters specified in paragraph 3 and 4 of the Order, to the extent applicable.

Annexure-B to the Independent Auditor's Report

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act")

We have audited the internal financial controls over financial reporting of **Trident Techlabs Limited** ('the Company') as of March 31, 2026 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, safeguarding of its assets, prevention and detection of frauds and errors, accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the 'Guidance Note') and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143 (10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

(1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;

(2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and

(3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial control over financial reporting were operating effectively as at March 31, 2026, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India.

$$ROI = \frac{\{MV(T1) - MV(T0) - Sum\ [C(t)]\}}{(T0) + Sum\ [W(t) * C(t)]\}}$$

where, T1 = End of time period
T0 = Beginning of time period
t = Specific date falling between T1 and T0
MV(T1) = Market Value at T1
MV(T0) = Market Value at T0
C(t) = Cash inflow, cash outflow on specific date
W(t) = Weight of the net cash flow (i.e. either net inflow or net outflow) on day 't', calculated as [T1 – t] / T1
Companies may provide ROI separately for each asset class (e.g., equity, fixed income, money market, etc.).

The registered office of the company is situated at New Delhi and company is also having marketing and liasioning offices in Bangalore, Pune, Hyderabad, Chennai and Kolkata.

ii. Summary of Significant Accounting policies

a. Basis of Preparation of Financial Statements

These financial statements have been prepared in accordance with the Generally Accepted Accounting Principles in India under the historical cost convention on accrual basis. These financial statements have been prepared to comply in all material aspects with the accounting standards notified under Section 133 of the Companies Act, 2013 ('the Act') read with Rule 7 of the Companies (Accounts) Rules, 2014, the provisions of the Act (to the extent notified).

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013. Based on the nature of products and the time between the acquisition of assets for processing and their realization in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current – non-current classification of assets and liabilities.

The financial statements have been "rounded off" to the nearest lacs considering on the basis of "Total Income" criteria.

b. Use of Estimates

The preparation of financial statements requires estimates and assumptions to be made that affect the reported amount of assets and liabilities on the date of financial statements and the reported amount of revenues and expenses during the reporting period. Management believes that the estimates used in the preparation of financial statements are prudent and reasonable. Actual results could differ from these estimates. Any revision to the accounting estimates is recognized prospectively in the current and future periods.

c. Property, Plant & Equipment and Intangible Assets

i. Property, Plant & Equipment:

Property, Plant & Equipment are stated at acquisition cost, net of accumulated depreciation and accumulated impairment losses, if any.

ii. Intangible Assets:

Intangible Assets are stated at acquisition cost, net of accumulated amortization and accumulated impairment losses, if any. Intangible assets are amortized on straight line method basis over 5 years in pursuance of provisions of AS-26.
The amortization period and the amortization method are reviewed at least at each financial year end.

d. Borrowing Costs

General and specific borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale. All other borrowing costs are recognized in Statement of Profit and Loss in the period in which they are incurred.

e. Depreciation

Depreciation on fixed assets has been provided as per the rates specified in Part C of schedule II to the Companies Act, 2013.

Interest Income on fixed deposit is recognized on time proportion basis.

Other

Other items of revenue are recognized in accordance with the Accounting Standards (AS-9) issued by the Institute of Chartered Accountants of India. Accordingly, wherever there is uncertainty in the ascertainment/realization of income, the same is not accounted for. However regarding the expenditure, it is recognized even if there is a fair amount of probability of this happening. Deviations if any are disclosed wherever applicable.

i. Foreign currency Transaction

Initial Recognition

On initial recognition, all foreign currency transactions are recorded by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at the date of the transaction.

Subsequent Recognition

As at the reporting date, foreign currency non-monetary items are reported using historical cost denominated in a foreign currency reported using the exchange rate at the date of the transaction. All non-monetary items which are carried at fair value or other similar valuation denominated in a foreign currency are reported using the exchange rates that existed when the values were determined.

All monetary assets and liabilities in foreign currency are restated at the end of accounting period.
Exchange differences on restatement of short term foreign currency monetary items are transferred to the Statement of Profit and Loss.

j. Taxes on income

Provision for current tax is determined on the income for the year chargeable to tax as per the provisions of Income Tax Act, 1961.

Provision for deferred tax is recognized on timing differences arising between the taxable incomes and accounting income for the year and quantified using the tax rates and law enacted or substantially enacted as on the reporting Date.

Deferred tax liabilities are recognized for all taxable timing differences. Deferred tax assets are recognized for all timing differences only to the extent that there is reasonable certainty

that sufficient future taxable income will be available against which such deferred tax assets can be realized. In situations where the company has unabsorbed depreciation or carry forward tax losses, all deferred tax assets are recognized only if there is virtual certainty supported by convincing evidence that they can be realized against future taxable profits.

At each balance sheet date the Company re-assesses unrecognized deferred tax assets. It recognizes unrecognized deferred tax assets to the extent that it has become reasonably certain or virtually certain, as the case may be that sufficient future taxable income will be available against which such deferred tax assets can be realized.

Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred tax assets and deferred tax liabilities relate to the same taxable entity and the same taxation authority.

k. Provisions and Contingent Liabilities

Provisions

Provisions are recognized when there is a present obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and there is a substantial degree of the estimation of the amount of the obligation.

Provisions are measured at the best estimate of the expenditure required to settle the present obligation at the Balance sheet date and are not discounted to its present value.

Contingent Liabilities

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made, is termed as a contingent liability.

l. Earnings Per Share (EPS)

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. Earnings considered in ascertaining the Company's earnings per share is the net profit for the period after deducting preference dividends and any attributable tax thereto for the period. The weighted average number of equity shares outstanding during the period and for all periods presented is adjusted for events, such as bonus shares, other than the conversion of potential equity shares, which have changed the number of equity shares outstanding, without a corresponding change in resources. For the purpose of calculating diluted earnings per share, the net profit or loss for the period

attributable to equity shareholders and the weighted average number of shares outstanding during the period is adjusted for the effects of all dilutive potential equity shares.

m. Cash and Bank Balances

In the cash flow statement, cash and Bank balances includes cash in hand, term deposit with banks and other short-term highly liquid investments with original maturities of three months or less.

INDEPENDENT AUDITOR'S REPORT

To the Members of **Trident Techlabs Limited**

Report on the Consolidated Financial Statements

We have audited the Consolidated Financial Statements of Trident Techlabs Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2026, the Statement of Profit and Loss and Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Consolidated Financial Statements give the information required by the **Companies Act, 2013** ('Act') in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2026, and its profit statement for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the standards on auditing specified under section 143 (10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the auditor's responsibilities for the audit of the Consolidated Financial Statements section of our report. We are independent of the Company in accordance with the code of ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the Consolidated Financial Statements under the provisions of the Act and the rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the code of ethics.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Information other than the Consolidated Financial Statements and auditors' report thereon

The Company's board of directors is responsible for the preparation of the other information. The other information comprises the information included in the Board's Report including Annexures to Board's Report, Business Responsibility Report but does not include the Consolidated Financial Statements and our auditor's report thereon.

Our opinion on the Consolidated Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Consolidated Financial Statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone Consolidated Financial Statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Consolidated Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these Consolidated Financial Statements that give a true and fair view of the Financial position, Financial performance and cash flows of the Company in accordance with accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal Financial control that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Consolidated Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Consolidated Financial Statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The board of directors are also responsible for overseeing the Company's Financial reporting process.

Auditor's Responsibility

Our objectives are to obtain reasonable assurance about whether the Consolidated Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Consolidated Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Consolidated Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal Financial controls system in place and the operating effectiveness of such controls
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If

we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Consolidated Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the Consolidated Financial Statements, including the disclosures, and whether the Consolidated Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the Consolidated Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Consolidated Financial Statements may be influenced. We consider quantitative materiality and qualitative factors in

(i) Planning the scope of our audit work and in evaluating the results of our work; and
(ii) To evaluate the effect of any identified misstatements in the Consolidated Financial Statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Consolidated Financial Statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Consolidated Financial Statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India of the state of affairs of the Company as at March 31, 2026, and its profit, and its cash flows for the year ended on that date.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's report) Order, 2020 ("the Order") issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the Annexure A, a statement on the matters specified in paragraph 3 and 4 of the Order, to the extent applicable.

2. As required by section 143 (3) of the Act, we report that:

(a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;

(b) In our opinion proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;

(c) The Balance Sheet, and Statement of Profit and Loss & Cash Flow Statement dealt with by this report are in agreement with the books of account;

(d) In our opinion, the aforesaid Consolidated Financial Statements comply with the Accounting Standards specified under section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014,

(e) On the basis of written representations received from the directors as on March 31, 2026, and taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2026, from being appointed as a director in terms of section 164 (2) of the Act;

(f) With respect to the adequacy of the internal Financial controls over Financial reporting of the Company and the operating effectiveness of such controls, refer to our separate report in "Annexure B"; and

(g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

i. The Company has not taken any impact of litigations pending in their Consolidated Financial Statements. (Refer the note-34 & 37 to the Consolidated Financial Statements);

ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses

iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

iv. a) The management has represented that, to the best of its knowledge and belief, other than as disclosed in the notes to the accounts, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

b) The management has represented, that, to the best of its knowledge and belief, other than as disclosed in the notes to the accounts, no funds have been received by the company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

Annexure-B to the Independent Auditor's Report

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act")

We have audited the Internal Financial controls over Financial reporting of **Trident Techlabs Limited** ('the Company') as of March 31, 2026 in conjunction with our audit of the Consolidated Financial Statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal Financial controls based on the internal control over Financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal Financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, safeguarding of its assets, prevention and detection of frauds and errors, accuracy and completeness of the accounting records, and the timely preparation of reliable Financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal Financial controls over Financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the 'Guidance Note') and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143 (10) of the Companies Act, 2013, to the extent applicable to an audit of internal Financial controls, both applicable to an audit of Internal Financial Controls and both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal Financial controls over Financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal Financial controls system over Financial reporting and their operating effectiveness. Our audit of internal Financial controls over Financial reporting included obtaining an understanding of internal Financial controls over Financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the Consolidated Financial Statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal Financial controls system over Financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal Financial control over Financial reporting is a process designed to provide reasonable assurance regarding the reliability of Financial reporting and the preparation of Consolidated Financial Statements for external purposes in accordance with generally accepted accounting principles. A company's internal Financial control over Financial reporting includes those policies and procedures that

(1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;

(2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Consolidated Financial Statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and

(3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the Consolidated Financial Statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal Financial controls over Financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal Financial controls over Financial reporting to future periods are subject to the risk that the internal Financial control over Financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal Financial controls system over Financial reporting and such internal Financial control over Financial reporting were operating effectively as at March 31, 2026, based on the internal control over Financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India.

$$ROI = \frac{MV(T1) - MV(T0) - Sum\ [C(t)]}{MV(T0) + Sum\ [W(t) * C(t)]}$$

where, T1 = End of time period
T0 = Beginning of time period
t = Specific date falling between T1 and T0
MV(T1) = Market Value at T1
MV(T0) = Market Value at T0
C(t) = Cash inflow, cash outflow on specific date
W(t) = Weight of the net cash flow (i.e. either net inflow or net outflow) on day 't', calculated as [T1 – t] / T1
Companies may provide ROI separately for each asset class (e.g., equity, fixed income, money market, etc.).

The company is selling goods all over India and is also providing power sector consultancy in India. The registered office of the company is situated at New Delhi and company is also having marketing and liasioning offices in Bangalore, Pune, Hyderabad, Chennai and Kolkata.

ii. Principles of Consolidation of Financial Statements

The Consolidated Financial Statements consists of Trident Techlabs Limited ("the Company") and its subsidiary companies (collectively referred to as "the Group"). The Consolidated Financial Statements have been prepared on the following basis:

i The financial statements of the Company and its subsidiary companies have been combined on a line-by-line basis by adding of like together the book values items of assets, liabilities, income and expenses, after fully eliminating intra-group balances and intra-group transactions resulting in unrealized profits or losses as per Accounting Standard 21 – "Consolidated Financial Statements" notified by Companies (Accounting Standards) Rules, 2006.

ii In case of foreign subsidiaries, being non-integral operations, revenue items are consolidated at the average rate prevailing during the year. All assets and liabilities are converted at the rates prevailing at the end of the year. Any exchange difference arising on consolidation is recognized in the "Foreign Currency Translation Reserve".

iii The difference between the cost of investment in the subsidiaries and joint ventures, and the Group's share of net assets at the time of acquisition of shares in the subsidiaries and joint ventures is recognized in the financial statements as Goodwill or Capital Reserve as the case may be.

iv Minority Interest in the net assets of consolidated subsidiaries is identified and presented in the Consolidated Balance Sheet separately from liabilities and equity of the Company's shareholders. Minority interest in the net assets of consolidated subsidiaries consists of:

a.) The amount of equity attributable to minority at the date on which investment in a subsidiary is made; and

b.) The minority share of movements in equity since the date the parent subsidiary relationship came into existence.

v Minority's share of net profit for the year of consolidated subsidiaries is identified and adjusted against the Profit after Tax of the Group.

vi Investment in associates where the Company directly or indirectly through subsidiaries holds more than 20% of equity, are accounted for using equity method as per Accounting Standard 23 – Accounting for Investments in Associates in Consolidated Financial Statements" notified by Companies (Accounting Standards) Rules, 2006.

vii The Group accounts for its share of post-acquisition changes in net assets of associates, after eliminating unrealized profits and losses resulting from transactions between the Company and its associates to the extent of its share, through its Consolidated Statement of Profit and Loss, to the extent such change is attributable to the associates' Statement of Profit and Loss and through its reserves for the balance based on available information.

viii The difference between the cost of investment in the associates and the Group's share of net assets at the time of acquisition of share in the associates is identified in the financial statements as Goodwill or Capital Reserve as the case may be.

ix Interests in Joint Ventures have been accounted by using the proportionate consolidation method as per Accounting Standard 27 – "Financial Reporting of Interests in Joint Ventures" notified by Companies (Accounting Standards) Rules, 2006.

x The financial statements of the subsidiaries, associates and joint ventures used in the consolidation are drawn up to the same reporting date as that of the Company i.e. 31st March, 2024.

The list of subsidiary companies and joint ventures which are included in the consolidation and the Group's holdings therein are as under:

S.No.	Name of the Company	Ownership in % either directly or through Subsidiaries	Relationship
1	Techlabs Semiconductor Private Limited	95%	Subsidiary
2	Trident Techlabs LLC-FZ	100%	Wholly owned Subsidiary

iii. Summary of Significant Accounting policies

a. Basis of Preparation of Consolidated Financial Statements

These financial statements have been prepared in accordance with the Generally Accepted Accounting Principles in India under the historical cost convention on accrual basis. These financial statements have been prepared to comply in all material aspects with the accounting standards notified under Section 133 of the Companies Act, 2013 ('the Act') read with Rule 7 of the Companies (Accounts) Rules, 2014, the provisions of the Act (to the extent notified).

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013. Based on the nature of products and the time between the acquisition of assets for processing and their realization in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current – non-current classification of assets and liabilities.

The financial statements have been "rounded off" to the nearest lacs considering on the basis of "Total Income" criteria.

b. Use of Estimates

The preparation of financial statements requires estimates and assumptions to be made that affect the reported amount of assets and liabilities on the date of financial statements and the reported amount of revenues and expenses during the reporting period. Management believes that the estimates used in the preparation of financial statements are prudent and reasonable. Actual results could differ from these estimates. Any revision to the accounting estimates is recognized prospectively in the current and future periods.

c. Property, Plant & Equipment and Intangible Assets

i. Property, Plant & Equipment:

Property, Plant & Equipment are stated at acquisition cost, net of accumulated depreciation and accumulated impairment losses, if any.

ii. Intangible Assets:

Intangible Assets are stated at acquisition cost, net of accumulated amortization and accumulated impairment losses, if any. Intangible assets are amortized on straight line method basis over 5 years in pursuance of provisions of AS-26.
The amortization period and the amortization method are reviewed at least at each financial year end.

d. Borrowing Costs

General and specific borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale. All other borrowing costs are recognized in Statement of Profit and Loss in the period in which they are incurred.

e. Depreciation

Depreciation on fixed assets has been provided as per the rates specified in Part C of schedule II to the Companies Act, 2013.

Asset	Useful Life	Method of Depreciation
Building	60 Years	Written Down Value
Computer	3 Years	Written Down Value
Office Equipment	5 Years	Written Down Value
Furniture & Fixtures	10 Years	Written Down Value
Motor Vehicles	8 Years	Written Down Value
Intangible Assets	5 Years	Straight Line Method
Electrical Installation	10 Years	Written Down Value
Plant & Machinery	15 Years	Written Down Value
Motor Cycles	10 Years	Written Down Value

f. Inventories

Inventories are stated at lower of cost and net realizable value. Cost is determined using the first-in, first-out (FIFO) Perpetual method. Net realizable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to make the sale.

g. Employee Benefits

Employee benefit includes provident fund, payment of gratuity, and encashment of earned leave.

i. Payment of Gratuity

In accordance with the Payment of Gratuity Act, 1972, the Company provides for gratuity, a defined benefit retirement plan ('the Gratuity Plan') covering eligible employees. The Gratuity Plan provides a lump-sum payment to vested employees at Retirement, death, incapacitation or termination of employment, of an amount based on the respective employee's salary and tenure of employment with the company.

The company contributes to the Trident Techlabs Limited Employees Group Gratuity Trust (the Trust) of the Life Insurance Corporation of India as at the end of every financial year on lumpsum basis. Trustees administer contributions made to the Trust and contributions are invested in specified investment permitted by the law.

ii. Provident Fund

Eligible employees receive benefits from a provident fund, which is a defined benefit plan. Both the employee and the company make monthly contributions to the provident fund plan equal to a specified percentage of the covered employee's salary. The company contributes a part of the contribution to the government administered pension fund.

iii. Employee's State Insurance

Eligible employees receive benefits under the Employee's State Insurance Scheme, which is a defined benefit plan. Both the eligible employee and the Company make monthly contributions to the ESI Scheme equal to a specified percentage of the covered employee's salary. The company contributes its contribution to the government administered Employee's State Insurance Scheme.

h. Revenue Recognition

Sale of goods

Sales are recognized when the substantial risks and rewards of ownership in the goods are transferred to the buyer as per the terms of the contract and are recognized net of trade discounts, rebates, sales taxes and excise duties.

Sale of services

Revenue from services is recognized, when services have been performed as per terms of contract, amount can be measured and there is no significant uncertainty as to collection.

Other Income

Interest

Interest Income on fixed deposit is recognized on time proportion basis.

Other

Other items of revenue are recognized in accordance with the Accounting Standards (AS-9) issued by the Institute of Chartered Accountants of India. Accordingly, wherever there is

uncertainty in the ascertainment/realization of income, the same is not accounted for. However regarding the expenditure, it is recognized even if there is a fair amount of probability of this happening. Deviations if any are disclosed wherever applicable.

i. Foreign currency Transaction

Initial Recognition

On initial recognition, all foreign currency transactions are recorded by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at the date of the transaction.

Subsequent Recognition

As at the reporting date, foreign currency non-monetary items are reported using historical cost denominated in a foreign currency reported using the exchange rate at the date of the transaction. All non-monetary items which are carried at fair value or other similar valuation denominated in a foreign currency are reported using the exchange rates that existed when the values were determined.

All monetary assets and liabilities in foreign currency are restated at the end of accounting period.

Exchange differences on restatement of short term foreign currency monetary items are transferred to the Statement of Profit and Loss.

j. Taxes on income

Provision for current tax is determined on the income for the year chargeable to tax as per the provisions of Income Tax Act, 1961.

Provision for deferred tax is recognized on timing differences arising between the taxable incomes and accounting income for the year and quantified using the tax rates and law enacted or substantially enacted as on the reporting Date.

Deferred tax liabilities are recognized for all taxable timing differences. Deferred tax assets are recognized for all timing differences only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized. In situations where the company has unabsorbed depreciation or carry forward tax losses, all deferred tax assets are recognized only if there is virtual certainty supported by convincing evidence that they can be realized against future taxable profits.

At each balance sheet date the Company re-assesses unrecognized deferred tax assets. It recognizes unrecognized deferred tax assets to the extent that it has become reasonably certain or virtually certain, as the case may be that sufficient future taxable income will be available against which such deferred tax assets can be realized.

Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred tax assets and deferred tax liabilities relate to the same taxable entity and the same taxation authority.

k. Provisions and Contingent Liabilities

Provisions

Provisions are recognized when there is a present obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and there is a substantial degree of the estimation of the amount of the obligation.

Provisions are measured at the best estimate of the expenditure required to settle the present obligation at the Balance sheet date and are not discounted to its present value.

Contingent Liabilities

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made, is termed as a contingent liability.

l. Earnings Per Share (EPS)

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. Earnings considered in ascertaining the Company's earnings per share is the net profit for the period after deducting preference dividends and any attributable tax thereto for the period. The weighted average number of equity shares outstanding during the period and for all periods presented is adjusted for events, such as bonus shares, other than the conversion of potential equity shares, which have changed the number of equity shares outstanding, without a corresponding change in resources. For the purpose of calculating diluted earnings per share, the net profit or loss for the period

attributable to equity shareholders and the weighted average number of shares outstanding during the period is adjusted for the effects of all dilutive potential equity shares

m. Cash and Bank Balances

In the cash flow statement, cash and Bank balances includes cash in hand, term deposit with banks and other short-term highly liquid investments with original maturities of three months or less.
