Sub: Adjustment of Futures and Options contracts in the security POWER GRID CORPORATION OF INDIA LIMITED (POWERGRID)

This is pursuant to NSE Circular no. 132/2023 (Download no. 57809) dated August 02, 2023, regarding Adjustment of Futures and Options contracts in the security POWERGRID. The following action with regards to clearing and settlement would be taken by NSE Clearing in this regard.

1. Action by the Clearing Corporation in respect of Futures Contracts:

Adjustment of futures contracts available in POWERGRID shall be carried out based on the reference rate of the relevant futures contracts on August 07, 2023 (last cum-dividend date). The reference rate to be reckoned for the purpose of adjustment shall be the daily mark to market settlement price of the relevant futures contract, which shall be reduced by the dividend amount.

Accordingly, all positions in futures contracts with the underlying security as POWERGRID would be marked-to-market on the last cum-dividend date i.e., August 07, 2023, based on the daily settlement price of the respective futures contract. Subsequent to such processing, open positions shall be carried forward at the daily settlement price less Rs. 04.75 (dividend amount) for the respective futures contract.

From August 08, 2023 (ex-dividend date), daily mark to market settlement of futures contracts with the underlying security as POWERGRID would continue as per normal procedures.

Begin of day margins on August 08, 2023, would be computed for the futures contract with underlying as POWERGRID based on the adjusted carry forward value. Subsequently, intra-day margins would be computed based on the relevant traded prices at the time the intra-day span risk parameter files are generated.

2. Action by Clearing Corporation in respect of Option Contracts:

The full value of dividend i.e., Rs. 04.75 would be deducted from all the cum-dividend strike prices on the ex-dividend date and adjusted to nearest tick size to arrive at new strike price. All positions in existing strike prices shall continue to exist in the corresponding new adjusted strike prices.

An example of the adjustments in the strike prices is detailed hereunder:
