IN THE NATURE OF ABRIDGED PROSPECTUS - MEMORANDUM CONTAINING SALIENT FEATURES OF THE RED HERRING PROSPECTUS

- Our revenue structure is currently reliant on a select group of customers, particularly our body corporate promoter and a Group Company. While we have established firm long-term commitments with our holding body corporate customer, other customers do not have similar long-term commitments. The continuation of our existing arrangements is crucial, and any failure in this regard could potentially impact our business and operational outcomes.
- Our revenues from operations are highly dependent on customers located in the United States. Worsening economic conditions or factors that negatively affect the economic conditions of the United States could materially adversely affect our business, financial condition and results of operations.
- The success of our business hinges on our ability to continually innovate in response to shifting customer needs, adopt and develop new technologies, and adapt to evolving industry standards. Operating in an industry characterized by rapid technological advancements, dynamic industry standards, frequent service introductions, and changing customer demands, we recognize the necessity to stay ahead.
- If we fail to innovate in response to changing customer needs and adopt and develop new technologies, or adapt to evolving industry standards, our business, financial condition, and results of operations could be adversely affected.
- Our business will suffer if we fail to anticipate and develop new services and enhance existing services in order to keep pace with rapid changes in technology and the industries on which we focus.
- We have certain outstanding litigation against us, an adverse outcome of which may adversely affect our business, reputation and results of operations.
- Our Company has entered into related party transactions in the past and may continue to enter into related party transactions in the future, which may potentially involve conflicts of interest with the equity shareholders.
- We are dependent on our ability to customize software products as per the demands and requirements of the customer based on latest technology. If we are not able to enhance current portfolio in response to evolving industry requirements, our operating results may be negatively affected.
- Our funding requirements with respect to unidentified acquisitions are based on management estimates and the entities proposed to be acquired are not yet identified.
