INTERNAL RISK FACTORS

Below mentioned risks are the top 10 risk factors as per the RHP:

1. We had incurred significant operating losses in the past and we may not be able to improve our financial position or generate sufficient revenue to achieve positive net worth.
2. If we are unable to maintain a critical mass of suppliers and buyers on our online marketplace, the perceived usefulness of our services may decline, and our business, revenue and prospects could suffer.
3. Competition from new and existing companies may reduce demand for our services or cause us to lose visitor traffic, market share or paying subscription suppliers, any of which could adversely affect our business, financial condition and results of operations.
4. Our business, financial condition, results of operations and cash flows could be materially and adversely affected if we are unable to retain existing paying subscription suppliers on or attract new paying subscription suppliers to IndiaMART.
5. The Red Herring Prospectus contains information from KPMG Research which we have commissioned.
6. We earn most of our revenue from Indian suppliers purchasing paid services on IndiaMART. Factors that adversely affect such Indian suppliers could have a material adverse effect on our business, financial condition, results of operations, cash flows and prospects.
7. Despite our intent and efforts to have genuine items listed/content available on our online marketplace, we have been and may continue to be subject to allegations and lawsuits or negative publicity claiming that items listed and content available on our online marketplace are pirated, counterfeit or illegal.
8. Any factors that negatively affect the growth and profitability of the online commerce industry in India or the Internet as a medium for commerce in India could adversely affect our business, financial condition and results of operations and prospects.
9. We acquire a significant portion of our suppliers on IndiaMART through the unsolicited creation of supplier storefronts and such suppliers may refuse to consent to their information being made publicly available on our online marketplace, which may negatively affect our business and may subject us to various legal claims.
10. The growth of our business depends on the growth of mobile Internet penetration and supporting infrastructure in India, and the steady emergence of mobile technology as a viable medium for transacting business
