INTERNAL RISK FACTORS

Below are the top five risks as disclosed in the RHP.:

1. A majority of our natural gas supply requirements are met by the allocation of domestic natural gas from the MoPNG at a price determined in accordance with the New Domestic Natural Gas Pricing Guidelines 2014 (“Pricing Guidelines”). Any increase in the cost price of natural gas or any reduction in allocation amount of domestic natural gas may have an adverse effect on our business, results of operations and cash flows.
2. The price of domestic natural gas and RLNG we purchase is denominated in United States dollars, while the selling price is in Indian Rupees. In the event that we are unable to pass on the cost of any devaluation of the Indian Rupee to our customers on a timely basis, or at all, our business, results of operations and cash flows could be adversely affected.
3. In the event alternative fuels become more cost effective, or a fuel of choice to our customers, our business, results of operations and cash flows and could be adversely affected.
4. A majority of our total revenue is attributable to our CNG business. Any decrease in volume of CNG sold by us may have an adverse effect on our business, results of operations, financial condition and cash flows.
5. Our natural gas marketing exclusivity in Mumbai and its Adjoining Areas is subject to determination before the Delhi High Court. An adverse judgment by the High Court could affect our business, results of operations, cash flows and financial condition.
