INTERNAL RISK FACTOR

Below mentioned risks are the Top 10 risk factors as per the Red Herring Prospectus:

1.	We do not have any long-term agreements with our customers. If our customers choose not to source their requirements from us or manufacture such products in-house, our business and results of operations may be adversely affected.
2.	Demand for our products is related to growth and trends of our end user industry. A decline in sales of our customers may adversely affect the demand for our products which in turn would adversely impact our business, financial condition, results of operations and prospects.

3.	We obtain a substantial portion of our raw materials from a limited number of suppliers, and we do not have long-term contracts with our suppliers. If one or more of our top suppliers were to suffer a deterioration of their business, cease doing business with us or substantially reduce their dealings with us, our business, results of operations, cash flows and financial condition may be adversely affected.
4.	We depend on our Plant and Machinery for critical functions of our business. Failure to properly maintain our plant and machineries or any adverse remark during the Inspection of our Products may result in disruptions to or lower quality of our services and our business, results of operations and financial condition may be adversely affected.
5.	Exchange rate fluctuations may adversely affect the results of operations as majority portion of our revenues and are denominated in foreign currencies.
6.	The Restated Financial Statements for Financial Year ended on March 31, 2024, March 31, 2023, and March 31, 2022, have been provided by peer reviewed chartered accountants who was not statutory auditor of our Company.
7.	Our manufacturing facilities are located in the same geographical location and any disruptions in our manufacturing process due to local and regional factors could have an adverse effect on our business, financial condition, and results of operations.
8.	Volatility in the supply and pricing of our raw materials may have an adverse effect on our business, financial condition, and results of operations. Our raw material suppliers could fail to meet their obligations, which may have a material adverse effect on our business, results of operations and financial condition.
9.	Nearly all of our revenues from operations are derived on sales made within India. Our business is therefore significantly affected by fluctuations in general economic activity in India.
10.	We have significant power and fuel requirements and any disruption to power or fuel sources could increase our production costs and adversely affect our business, financial condition, cash flows and results of operations.

For further details, see “Risk Factors” beginning on page 30 of the Red Herring Prospectus.
