

PRIVATE OPERATORS TOGETHER HELD OVER 92% MARKET SHARE

Airtel leads wireless adds in Jan; Jio follows, Vi loses users

OJASVI GUPTA
New Delhi, March 19

BHARTI AIRTEL LED wireless subscriber additions in January, adding about 4.4 million users, ahead of Reliance Jio's 2.4 million, even as Vodafone Idea continued to lose subscribers during the month, according to data released by the Telecom Regulatory Authority of India (Trai).

Overall, the industry added about 6.7 million wireless (mobile) subscribers in January, taking the total base to 1.25 billion at the end of the month, up from 1.24 billion in December. The monthly growth rate stood at 0.54%.

Airtel accounted for the bulk of incremental additions, reinforcing its recent momentum in subscriber gains. Jio remained the second-largest contributor, continuing to expand its base, though at a slower pace compared to Airtel during the month. In contrast, Vodafone Idea lost roughly 0.4 million users, extending its run of subscriber declines. State-run BSNL posted modest gains of about 0.27 million, while MTNL saw a marginal decline.

The divergence in subscriber trends reflects the ongoing consolidation in the

INCREASING CONSOLIDATION

Subscribers (in mn)

telecom market, with stronger private operators continuing to gain share at the expense of weaker players. Private operators together held over 92% market share in wireless subscribers at the end of January, while BSNL and MTNL accounted for the rest.

On a broader basis, total wireless subscribers, including fixed wireless access (FWA), rose to 1.27 billion from 1.26 billion in December, marking a net addition of 7.57 million users. Growth was seen across both urban and rural markets, with urban subscriptions rising to 725.7 million and rural

subscriptions to 540.7 million.

The data also show that active users, measured by visitor location register (VLR), stood at 1.17 billion in January, indicating that about 93.7% of the total wireless subscriber base was active during the month.

Regionally, all telecom circles reported growth in wireless subscribers on a monthly basis. Circle A markets led additions with about 2.79 million users, followed closely by Circle B with 2.69 million and Circle C with 1.85 million additions. Metro circles added about 0.24 million subscribers.

The continued gains by Air-

tel and Jio come amid sustained investments in network capacity and 5G rollouts, alongside efforts to improve user experience and data speeds. Vodafone Idea's subscriber losses, meanwhile, underline its ongoing challenges in stabilising its user base despite recent tariff hikes and network upgrades.

Mobile number portability requests remained elevated at around 15.98 million during the month, indicating continued churn in the market as users switch operators in search of better network quality and pricing.

Ola Electric tweaks IPO use again

FE BUREAU
Chennai, March 19

OLA ELECTRIC IS seeking to again revise the utilisation of its IPO proceeds, with its board approving a proposal to reallocate ₹575 crore originally earmarked for research and product development (R&D), while also extending the timeline for deployment of the funds to FY26-27.

Under the revised plan, ₹475 crore will be diverted towards debt repayment or prepayment, while the remaining ₹100 crore will be allocated to organic growth initiatives. This would reduce the total R&D allocation from ₹1,505 crore to ₹930 crore, even as the amount set aside for debt repayment rises from ₹395 crore to ₹870 crore. The proposal is subject to shareholder approval.

The company had raised ₹6,146 crore through its IPO, including ₹5,500 crore via fresh issue and ₹646 crore through an offer for sale. As per its draft red herring prospectus (DRHP), over ₹1,200 crore was earmarked for Gigafactory capacity expansion, ₹800 crore for debt repayment, ₹1,600 crore for R&D, and ₹350 crore for organic growth.

As of March 11, 2026, the company had ₹1,295.63 crore of unutilised IPO proceeds. The latest move marks the second major revision in under a year.

FROM THE FRONT PAGE

Crude surge sings D-St

IN THE PREVIOUS three sessions, the Sensex and Nifty had gained 2.87% and 2.71%, respectively.

The broader BSE Midcap and BSE Smallcap indices declined by 3.06% and 2.57%, respectively.

The broad-based sell-off wiped out ₹12.87 lakh crore of investors' wealth on Thursday — the highest single-day market capitalisation loss since April 7, 2025. HDFC Bank was the biggest contributor to this erosion, with a market cap loss of ₹66,570 crore.

Foreign portfolio investors (FPIs) sold shares worth \$815.9 million (₹7,558.19 crore), while domestic institutional investors (DIIs) bought shares worth ₹3,863.96 crore, as per provisional BSE data. So far in the 13 trading sessions of March, FPIs have offloaded shares worth \$8.9 billion (₹82,019 crore), while DIIs have invested ₹95,462.37 crore.

With Thursday's inflow, DIIs' total investments in the current fiscal crossed the ₹8-lakh-crore mark for the first time, reaching a record ₹8.02 lakh crore in FY26 so far.

Market breadth remained weak, with 3,192 losers against 1,051 gainers on the BSE.

All sectoral indices on the BSE and NSE ended in the red. Auto, realty, financial services, consumer durables, and private banks were the worst hit, each declining by over 3%.

All Sensex stocks, and all but one Nifty constituent (ONGC), ended in the red.

Eternal, Bajaj Finance, M&M, HDFC Bank, and L&T were the top Sensex laggards, declining by up to 5.65%.

In Asia, barring Indonesia (up 1.20%), all major markets ended lower. Japan was the worst performer with a 3.38% decline, followed by India, South Korea, Hong Kong and Taiwan.

"We can't entirely ignore this war. If the crude oil price remains above \$100-110 for, say, six months, there could be cut in earnings growth by 2-3%. The 11-12% earnings growth is not bad, though this will be lower than the expectation of 14-15% rise," said Vaibhav Chugh, chief executive officer of Abakus Investment Managers.

He said, valuations are very attractive. If there is any positive news, such as a ceasefire, the market will immediately take a U-turn.

Viraj Kulkarni, Senior Fund

Manager, Bandhan Mutual Fund, said, "When oil jumps from the \$70 range to \$100-110, it mechanically pushes up our current account deficit. Every \$10 rise in crude adds roughly 50 basis points to the current account, so FPIs worry that the deficit could move from about 1% to 2-2.5% of GDP. That fear is driving the outflows."

However, he stated that, "The good news is valuations, especially in large caps are no longer expensive. Nifty is back to around 18 times earnings, and many of the top 20 stocks are trading at very reasonable levels after this correction. So while we may not see a deep 10-15% kind of fall from here, the market will struggle to move up meaningfully until crude stabilises and the pressure on the balance of payments eases."

Wipro launches GIFT City Hub for BFSI clients

PRESS TRUST OF INDIA
New Delhi, March 19

IT MAJOR WIPRO on Thursday announced the launch of a new hub at the Gujarat International Finance Tec-City (GIFT City), Gandhinagar, to deliver advanced AI-powered technology services to global

Banking, Financial Services, and Insurance (BFSI) clients.

The new facility will initially seat 150 employees, with the flexibility to scale up to 500 seats based on client demand, the company said in a statement on Thursday.

The GIFT City hub will support the delivery of advanced solutions across digital bank-

ing, capital markets, regulatory technology, risk and compliance, and core platform modernisation.

The centre, with Wipro Intelligence — a unified suite of AI-powered platforms and solutions — strengthens the company's ability to co-innovate with clients, embed responsible AI across critical

financial workflows, and scale secure, domain-led platforms to meet the growing global demand for AI-powered BFSI transformation, Wipro said.

"Wipro's presence at GIFT City is a strategic investment to scale the impact of Wipro Intelligence for the global BFSI industry," Sanjeev Jain, chief operating officer, Wipro, said.

CBI questions Anil Ambani in ₹2,929-cr fraud case

PRESS TRUST OF INDIA
New Delhi, March 19

THE CBI ON Thursday questioned industrialist Anil Ambani for nearly eight hours in connection with a ₹2,929-crore cheating case, registered against Reliance Communications and him on a complaint by the State Bank of India, officials said.

In a separate case, the CBI examined Amit Dangi, a whole-time director at Authum Investment & Infrastructure, which has taken over the assets of Reliance Commercial Finance and Reliance Home Finance, which is under investigation, the agency spokesperson said.

Dangi was examined for about seven hours, it said.

Anil D Ambani, who is facing several investigations in CBI cases, has been called again on Friday for questioning, they said.

Ambani arrived at the agency headquarters at around 10.15 am and was taken to the investigation team after the completion of formalities. He left the agency headquarters at around 6.15 pm in the evening.

"In connection with the case registered by CBI on August 21, 2025 against Reliance Communications in ₹2929.05 crore bank fraud case in which Reliance Communications, Anil D Ambani and others unknown including unknown public servants, are accused, the CBI summoned Anil D Ambani for interrogation today at CBI Head Office at Delhi," a CBI spokesperson said.

"The accused Anil D Ambani appeared before the Investigating Officer today and has been interrogated for about 8 hours. For further questioning, the accused has been directed to appear before the investigating officer tomorrow as well," the spokesperson said.

According to the statement, the agency questioned Ambani about the decision-making process at the company, and several emails exchanged between him and executives also came up.
