“Revenue from operations for the quarter ended June’23 stood at Rs 142 crores and the Gross Profit for the same period stood at Rs 9 crores. Our performance continues to get impacted by the prevailing macroeconomic situation, characterized by geopolitical tension, Slowdown in key geographies / economies & moderating freight rates thus leading to a disruption in the trade activity.

*Despite these challenges, we remain confident & are committed to work towards making the company profitable once again and we believe that our three-fold strategy of **revenue diversification; industry diversification and addition of wallet share in existing customers** will aid in this journey. EBITDA from the segment of sale & service of commercial vehicles stands at 0.2 crores and the costs have been normalized.*
