Coop Banks to Come Under RBI Watch

AFTER PMC BANK CRISIS Cabinet okays amendments to Banking Regulation Act; such lenders will have to follow central bank's rules

Our Bureau

New Delhi: The Union Cabinet on Wednesday approved an amendment to the Banking Regulation Act to bring multi-state cooperative banks under the watch of the central bank and prevent a repeat of Punjab and Maharashtra Cooperative Bank-like crisis.

“There are 1,540 cooperative banks with a depositor base of 8.60 crore having total savings of about ₹5 lakh crore. The proposed law seeks to enforce banking regulation guidelines of the RBI in cooperative banks, while administrative issues will still be guided by Registrar of Cooperatives,” information and broadcasting minister Prakash Javadekar said, briefing the media about cabinet decisions.

Finance minister Nirmala Sitharaman announced in the budget that oversight of cooperative banks would be brought under the Reserve Bank of India through an amendment to the Banking Regulation Act, in order to increase professionalism and improve corporate governance.

Javadekar said that cooperative banks would be audited according to RBI rules and appointment of CEOs would require prior approval from the central bank. The RBI will also have the right to supersede the management of a cooperative bank in case of governance failure, Javadekar added.

“This has been a demand of depositors and the financial sector for many years, and even from cooperative banks, to bring financial stability,” he said, adding that the new regulations would be phased in gradually.

The finance minister had in her budget speech announced an increase in the insurance cover for depositors to ₹5 lakh from ₹1 lakh. Finance secretary Rajiv Kumar said after the budget that since co-

operative banks take deposits from the public, they need to be responsible to them. “They (cooperative banks) actually play a very important role in the rural areas. But, at the same time, if you are taking deposits, you need to be responsible to the customer also. So, those norms will change through the Banking Regulation Act to make it far more robust in terms of regulation,” Kumar had said.

Under the new norms, cooperative banks would be required to more strictly meet capital norms, he had said.

MAJOR PORT
The Cabinet also accorded in-principle approval to set up a major port at Vadhaven in Maharashtra, at a project cost of more than ₹65,000 crore. The Vadhaven port will be developed on a “landlord” model, under which the port authority acts as the regulatory body as well as the landlord, while private entities handle port operations.

A Special Purpose Vehicle (SPV) will be formed with Jawaharlal Nehru Port Trust (JNPT) as the lead partner, with equity participation equal to or more than 50% to implement the project.

Green Signal

BANKING LAWS AMENDED

- Reserve Bank to have control over cooperative banks
- Move to ensure better professionalism, corporate governance
- RBI can supersede management if cooperative bank fails
- Will protect interest of depositors
- Coop banks to be audited as per RBI rules

New Port at Vadhaven

- In-principle approval given by Cabinet
- Port to be developed in Maharashtra on ‘landlord’ model
- Project cost: ₹65,544 cr

NEW DELHI-MUMBAI EXPRESSWAY

Realtors, Hotels Invited to Develop Wayside Amenities

Nishtha.Saluja@timesgroup.com

New Delhi: The government has reached out to real estate developers, hotel chains and conglomerates to develop wayside amenities along the New Delhi-Mumbai expressway. The move is part of the National Highways Authority of India's land monetisation plan, which includes setting up a real-estate wing that will explore ways to earn additional revenue, an official aware of the matter told ET.

The companies approached include DLF, Jones Lang LaSalle, Reliance Fuel, L&T Construction, Accor Group, Oyo and Lemon Tree.

NHAI is developing the 1,300-km greenfield New Delhi-Mumbai corridor as a fully access-controlled expressway, which will pass through economic hubs including Jaipur, Bhopal, Indore and Ahmedabad.

The expressway will provide connectivity with the Jawaharlal Nehru Port Trust, Mumbai Port, production centres like Kota, and the Ramthambore National Park, which, according to the government, provides good traffic on both commercial and passenger ends.

NHAI has called a stakeholders meeting to discuss the modalities of over 90 wayside amenities planned along the expressway, including their contracting options. Food companies including McDonald's, KFC, Haldiram's, Cafe Coffee Day and Barista have also been approached. “Eventually, we will have to look at different means to earn revenue and we can develop a part of the land in possession with NHAI to begin with,” the official said.

Road transport and highways minister Nitin Gadkari last year floated the idea of inviting oil marketing companies to set up petrol pumps along the expressway. Speaking at an investor meeting here earlier this week, he said NHAI wants to acquire 3,000-10,000 acres of land along upcoming highways, which can be used to develop townships and hospitals, among other public facilities. The minister said NHAI can “reap the benefits” of land appreciation on account of these projects.

ET first reported on July 15, 2019, about NHAI's plans to go for “value capture financing,” whereby it could get a share of appreciation in land value on account of new highway projects. “Asset monetisation is the way to go. NHAI can get into a SPV structure where manage-

LPG Coverage 97% as on Jan 2020, Says Pradhan

New Delhi: There are about 27.5 crore LPG connections in the country and the coverage has reached 96.9% as on January 1 this year, Rajya Sabha was told on Wednesday. Out of this, 8 crore connections have been done under Pradhan Mantri Ujjwala Yojana, oil minister Dharmendra Pradhan told Rajya Sabha. Responding to a query on lower LPG connections in Bihar, the minister said the state had achieved 22-23 per cent coverage when the scheme was launched. Now, the penetration has increased to 75 per cent in the last five years.

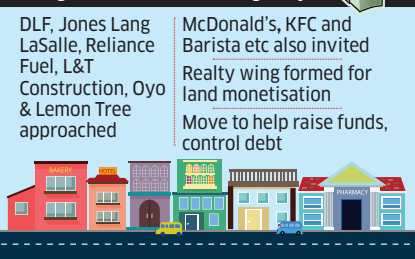

“LPG business began in the last 65 years. In 60 years, we were able to achieve 22-23 per cent coverage. But in last five years, the coverage has increased to 75 per cent. Bihar is one of the major beneficiary states of the PMUY,” he said.

The initiative to provide more LPG connections in Bihar in the future will continue, he added.

Responding to another query if the government will take special measures to provide LPG connections in Naxal areas of Chhattisgarh and Jharkhand, Pradhan said the objective of PMUY is to provide cooking gas facility in most remote and backward areas of the country. —PTI

Will Meet FY20 Direct Tax Target of ₹11.7 lakh cr: Mody

CBDT chairman pins hopes on high tax collections in fourth quarter going by the previous years' trend

Our Bureau

New Delhi: The tax department will meet the revised direct tax target of ₹11.7 lakh crore in the ongoing financial year, CBDT chairman PC Mody said, owing to high tax collections expected in the fourth quarter, which has been the trend for the past years.

In the next financial year, the department will use artificial intelligence and data mining to enhance revenue collections, which will help it meet the target for FY21 as well. “Whatever estimates have now been given, I think there is absolute realism to that... I am reasonably confident that we will be able to meet this year's target,” Mody said at a CII post-budget interaction Wednesday. “We are going to

make use of technology in a big way. We are doing data mining, using artificial intelligence very very extensively. And the results of that will be visible in the time to come,” he said. Of the total direct tax collections for 2019-20, estimated income tax collections stand at ₹5.59 lakh crore and corporate tax mopup at ₹6.10 lakh crore. Income tax collection target for next fiscal is pegged at ₹6.38 lakh crore and corporate tax collections at ₹6.81 lakh crore.

Mody added that taxpayers will soon get to view their high value and low value tax transactions on their individual pages on the income-tax filing website. “The information collected will help tax authorities in pre-filing IT return forms while helping the taxpayer pay his taxes,” he said. He further said the Taxpayer Charter will include provisions to instil more confidence among taxpayers.

Jan Services PMI at 7-Year High of 55.5 on Robust Demand

Upswing due to favourable market conditions and better domestic demand

Our Bureau

New Delhi: India's service sector output growth hit a seven-year high in January on the back of strong domestic demand, a private survey showed on Wednesday.

The IHS Markit India Services Purchasing Managers' Index rose to 55.5 in January from 53.3 of the previous month, signalling the strongest upturn in output in seven years. The upswing resulted from favourable market conditions and better underlying demand, survey participants said. A reading above 50 on the index means expansion.

However, the growth in demand was accompanied by inflationary pressures on input costs, which reached a high last seen in February 2013. The steepest increase in this figure came from the consumer services sector.

The Composite PMI Output Index, which maps both the manufacturing and services sectors, increased from 53.7 in December to a seven-year high of 56.3 in January.

“With business revenues rising, service providers continued to increase capacity to meet further strong growth in sales. This is good news for jobseekers, particularly when we consider the results from the manufacturing industry which showed the steepest upturn in employment since August 2012,” said Pollyanna de Lima, principal economist at IHS Markit.

Most of the demand came from the domestic market, with a fall in exports ending a 10-month expansion, mainly due to lower demand from China, Europe and the US, survey panelists said.

The Indian economy is forecast to grow by 5% in FY20, its slowest pace in 11 years. The Economic Survey tabled in Parliament last Friday said the economy could grow by 6-6.5% in FY21.

However, cost inflation continued to be a dampener amid reports of higher prices for beauty products, food, freight, fuel and maintenance, the survey said.

Consequently, a number of services companies lifted their selling prices in January. The rate of charge inflation picked up to the fastest since February 2018.

“The service survey pointed to the sharpest increase in input prices in just under seven years, with companies mostly absorbing the added cost burdens themselves instead of fully passing these on to their customers.”
