14 Financial Highlights

20 Strategic Roadmap

Bridging the Supply Gap in Frontier Markets

Successful Produce, Stock, Sell Business Model

Markets	Established operations: Guatemala (Latin America), Dominican Republic (Caribbean) and Angola (Africa) New operations: Honduras, El Salvador and Central African Republic	Expansion initiated: Nicaragua, Ecuador, Chile (Latin America)
Products	Vast range of essential OTC medicines – with healthy mix of generics and branded generics	833 product registrations in six countries 700 registrations submitted or in the pipeline
Supply Chain	Outsourced production from WHO GMP certified plants in India, China and Portugal	Establishing the Company's first pharmaceutical formulation facility in Hyderabad
Distribution	Deep presence through 38 warehouses and on-ground fleet support	Successful process being replicated in other frontier markets; expansion plans in other global markets over near to medium term
Transformation	New initiatives strengthening functionality in supply chain, regulatory affairs and customer service	Centralized digital procurement, regulatory management and customized CRM tools

Key Success Factors

Market Selection Methodology

- Focus on countries with high-potential economic growth framework
- Identify non-English speaking countries with similar characteristics
- Low competitive intensity and potential to establish top-2 position
- On-ground feedback mechanism allows deep understanding of demand dynamics
- As population crosses prosperity thresholds, healthcare spends expand exponentially

Human Capital Management

- Established unique ecosystem of 100+ Indian expatriates in operating geographies
- Financial security ecosystem for key personnel, creating a highly motivated leadership team
- Local language training and support from local staff improves on-ground effectiveness
- Home grown management systems have already proven successful in several countries
- Homogeneous target markets allow cross-movement of people and resources

Regulatory Affairs Systems

- Appreciation and full compliance of local regulatory framework
- Comprehensive, in-house capabilities backed by cross-functional coordination with business/tech teams
- Digitization of regulatory operations with end-to-end management and data security
- Typical 12-24 month regulatory process is monitored at every stage – supports corporate planning and creates strong local IP

Transition from “Asset Light” to “Asset Right”

As a part of its corporate evolution, Balaxi is moving its business model from ‘Asset Light’ to ‘Asset Right’. The company is setting up its first pharmaceutical manufacturing facility for which it has acquired land in a Pharma SEZ located at Jadcherla, Hyderabad.

Investment in Manufacturing Facilities

Setting up its first pharmaceutical formulation manufacturing unit

General Oral Solid Dosage (OSD) and Liquid Injection formulations

Targeting demand for high quality products in Latin American markets

Allows full backward integration of supply chain

Production from Pharma SEZ unit near Hyderabad by Q2 FY25

Historically, Balaxi has successfully executed on its “produce, stock and sell” model. The company has built a large and diversified portfolio of products and a leading position by bridging the supply gap in several countries, first in low-regulation markets in Africa and more recently in semi-regulated markets in Latin America. This outreach has been backed by outsourced, WHO GMP compliant, diversified supply chains developed by the company. As a part of its corporate evolution, Balaxi is now setting up its first pharmaceutical formulation manufacturing unit to cater to the demand for high quality products in existing as well as targeted markets.

Favorable ROI on Capital Expenditure

Immediate demand for new production from established markets

Higher efficacy, greater acceptance, enhanced profit margins

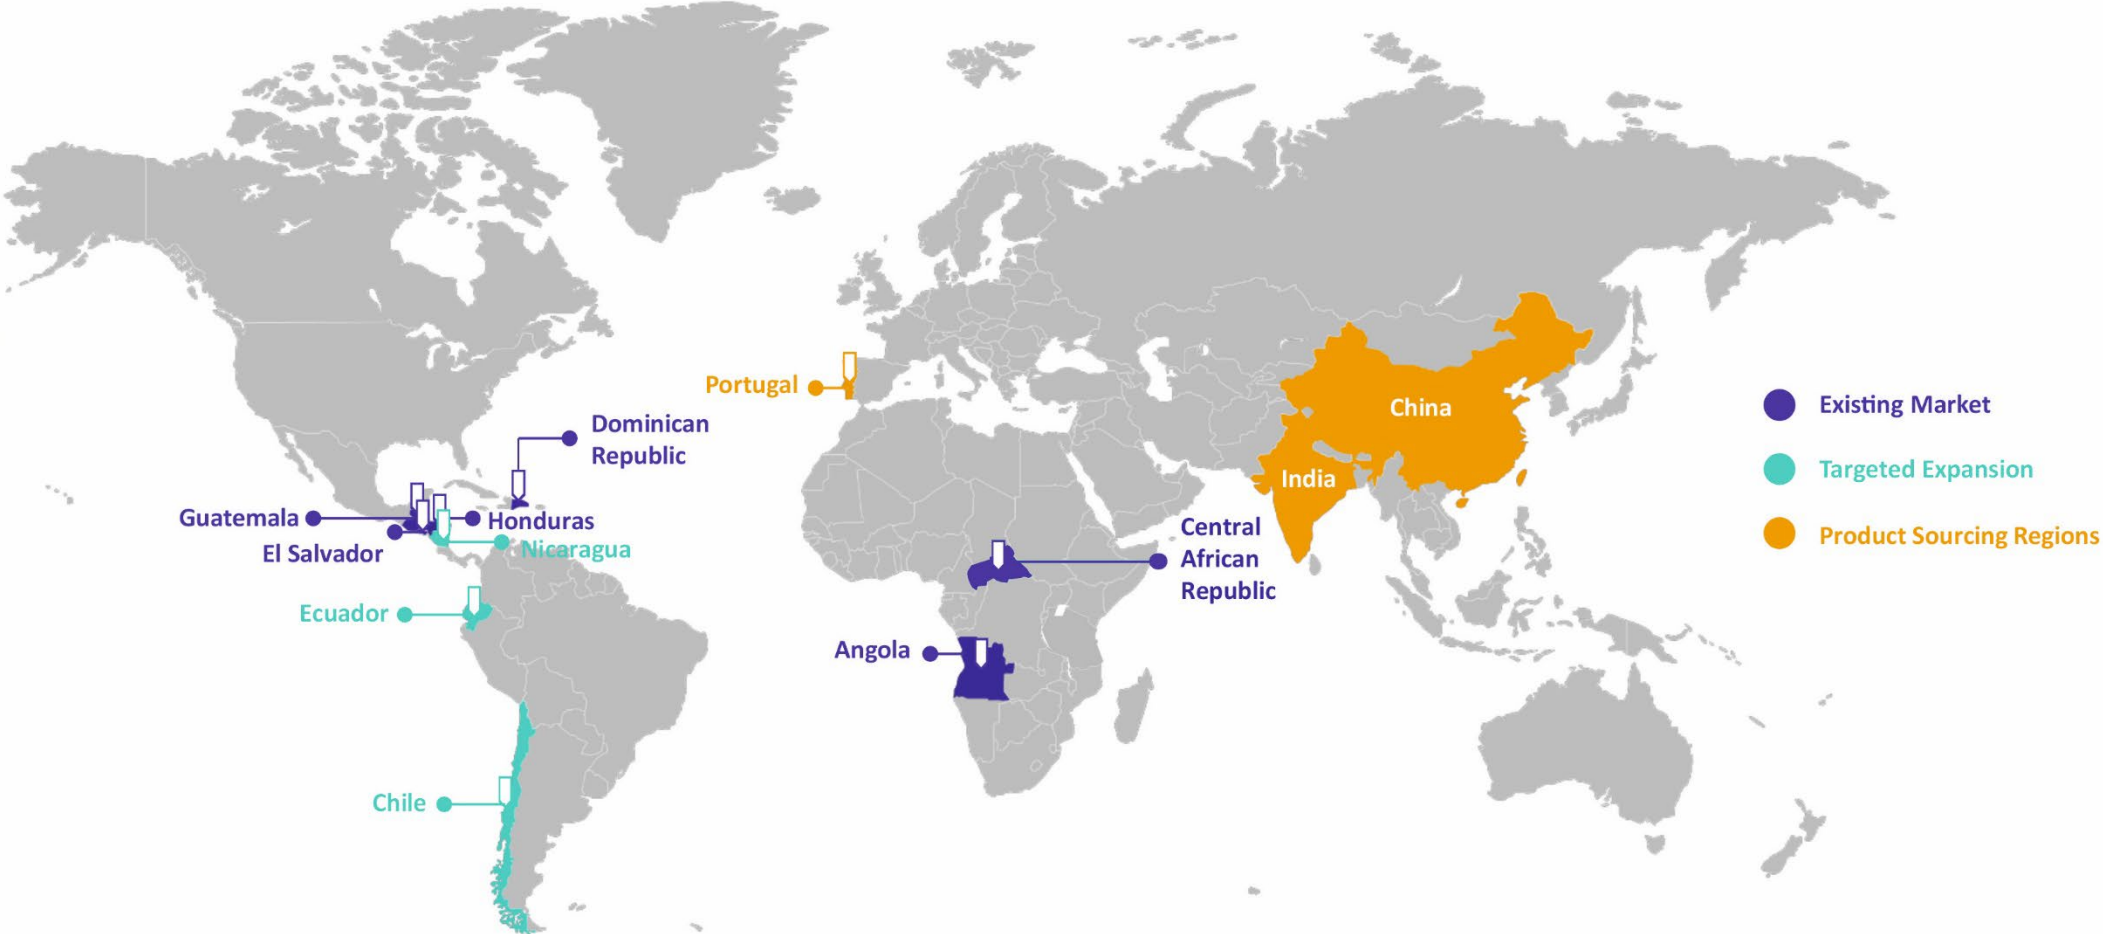

Strong control over manufacturing ecosystem

Improved regulatory processes, reduced time-to-market for new launches

Opens up several new market opportunities globally

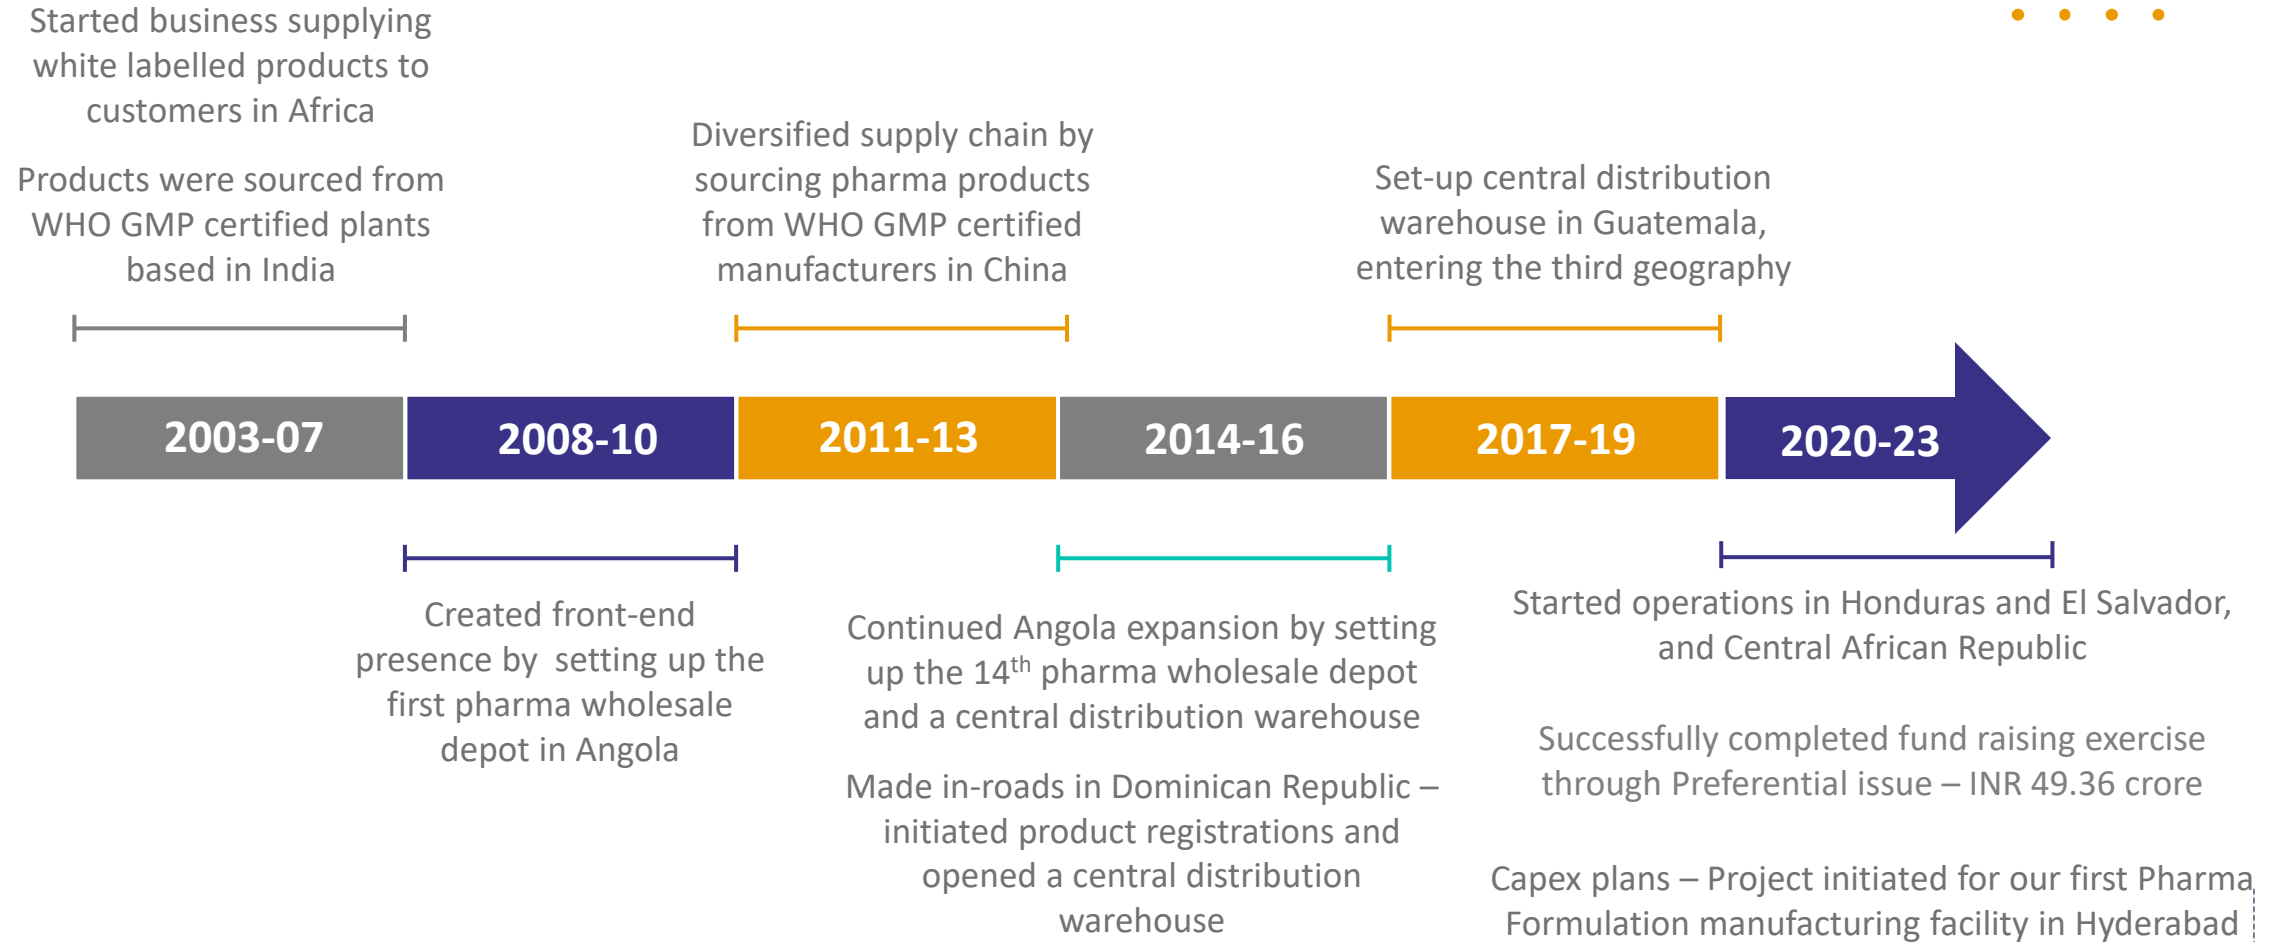

Production from the unit, located at a Pharma SEZ near Hyderabad, will commence by 2nd quarter of FY25, focusing on General Oral Solid Dosage (OSD) and Liquid Injection formulations markets in Latin America and Africa. This will drive backward integration of the supply chain to these countries, currently outsourced through contract manufacturing relationships. This facility will produce higher efficacy products that enjoy greater acceptance and enhanced profit margins. From the operations standpoint, Balaxi will establish a manufacturing ecosystem that affords better control, improves regulatory processes and reduces time to market for new product launches. Over the medium term, Balaxi sees several new market opportunities opening up for its product lines.

Global Footprint

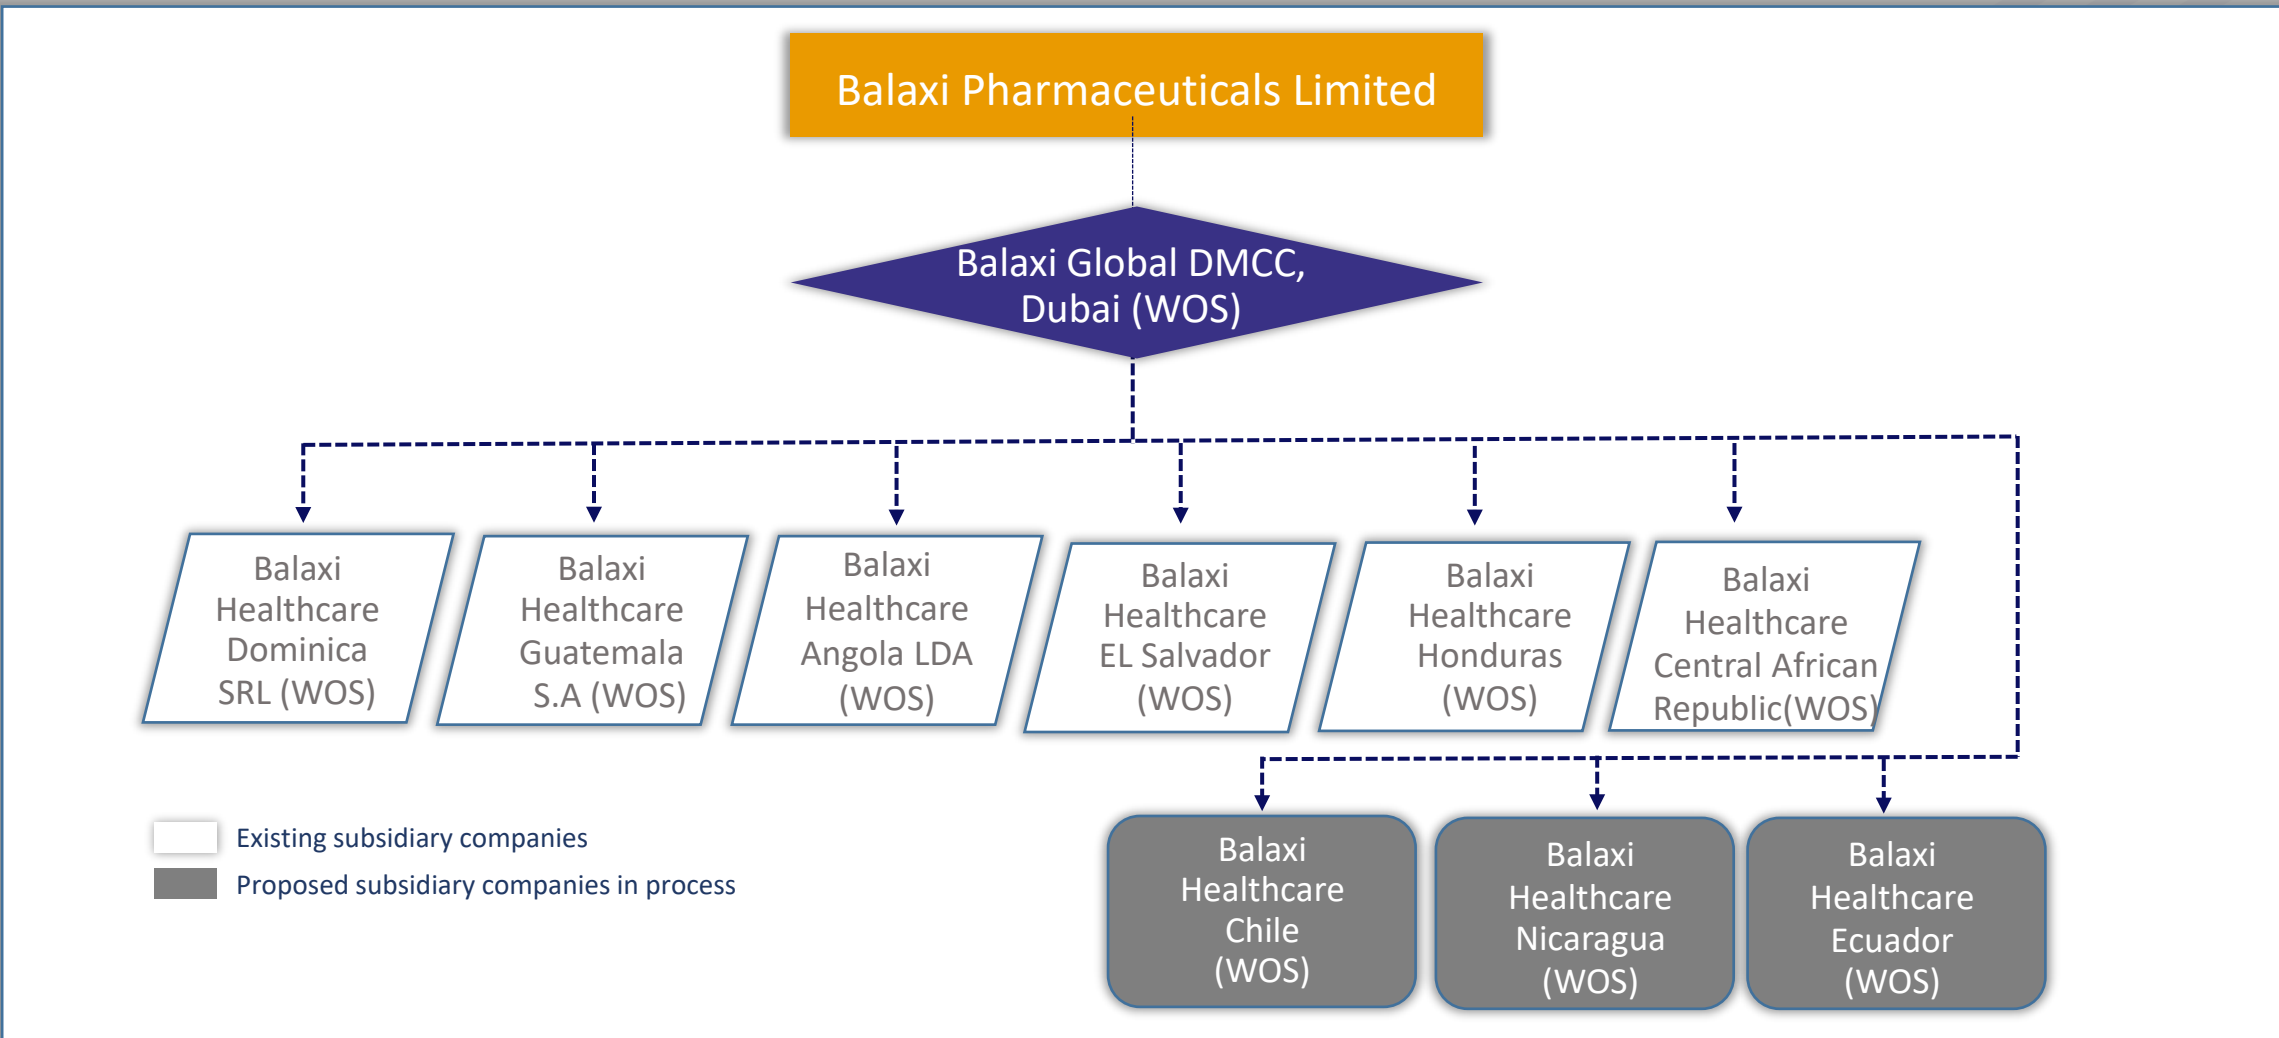

Existing/targeted markets have aggregate GDP of \$ 400 billion and pharma imports of \$ 6 billion

Key Milestones

Corporate Structure

Experienced Board of Directors

Ashish Maheshwari

Chairman & Managing Director
Founder of the company, first generation entrepreneur, qualified Chartered Accountant

Oversees the company's vision for Latin America

Paridhi Maheshwari

Head – Alternate Channels

MBA Graduate from London Business School.
Stickler for well-defined systems and processes
Initiated and leads the consumer products business

FINANCIAL HIGHLIGHTS

Management's Comments

"Q1 was an exceptionally challenging quarter for Balaxi. We witnessed unprecedented economical chaos in terms of currency depreciation in our biggest and oldest market of Angola, where local currency weekend in record time beyond the 800-per-dollar mark for the first time ever. Despite the various corrective measures, this unparalleled economic scenario created disorder in customer sentiments and an uncertain market outlook, thus, resulting in a severe impact on the company's performance in both the top line and bottom line. In spite of the headwinds faced in Angola and associated working capital issues, the Company remains to be Net-Debt-Free as on 30th June, 2023. However, in our strategic focused market of LATAM, by continuing our core competencies, revenue grew by 25% and it has contributed more than 50% of pharma revenue with a healthy gross profit margin of 39%.

During the quarter, we received 25 new product registrations. As on 30 June, the number of registered products in our portfolio expanded to 833 across six countries in Africa and Latin America. Apart from this, we have another 700 products under registration or in the pipeline for registration. With the increase in the number of product offerings, we expect to further increase our market share in the countries of our focus. We also plan to launch our operations in new countries in these regions.

Going forward, we see several levers that will potentially add value the operations over the next several years - geographical expansions into new frontier markets, leveraging of existing strengths to gain scale in additional geographies, deep penetration in previously launched operations, backward integration of supply chain by setting up company' first pharma formulation facility, and a very strong pipeline of product registrations and regulatory submission across the board."

Ashish Maheshwari
Chairman & Managing Director

Financial Performance (Consolidated):

Particulars (INR Crore)	Q1FY24	Q1FY23	YoY
Revenue	65.96	82.78	(20.3%)
Gross Profit	25.64	34.52	(25.7%)
Gross Margin %	38.9%	41.7%	(280 bps)
EBITDA Before Exceptional Item	7.83	17.03	(54%)
EBITDA Margin % Before Exceptional Item	11.87%	20.6%	(873 bps)
Profit After Tax Before Exceptional Item	5.32	14.15	(62.40%)
PAT Margin % Before Exceptional Item	8.06%	17.1%	(904 bps)
Exceptional Item *	(46.67)	-	-
EBITDA	(38.84)	17.03	(328%)
EBITDA Margin %	(58.9%)	20.6%	(7950 bps)
PAT	(41.34)	14.15	(392.2%)
PAT Margin %	(62.7%)	17.1%	(7980 bps)

*NOTE: During the quarter under review, the Angolan currency Kwanza underwent an unprecedented sharp depreciation, falling from 511.50 AOA/USD to 832.5 AOA/USD. Since the creditors in the books of Balaxi Angola are contracted in and due for settlement in USD, this has resulted in a loss on revaluation of 3.65bn AOA(INR 46.67 cr.) including unrealised loss of 3.46bn AOA(INR 44.35 cr.) as of June 30, 2023. The corresponding INR amount has been shown as an exceptional item in the profit and loss statement for the quarter. Balaxi Healthcare Angola has taken several price corrections during the quarter and inventories lying in the books (carried at historical cost as per conservative accounting principles) is now being sold at much higher prices.

Pharma Product Mix – Q1 FY24

Core Strategy: Enter, Expand & Excel

Balaxi in 2020: Business Consolidation

- Presence across Angola, Guatemala and Dominican Republic
- Effective and efficient supply chain model consisting of 38 warehouses and a fleet of owned vehicles

Balaxi in 2021-23: Expansion into New Geographies

- Aim to capture incremental market share in existing geographies by continuing to pursue various opportunities by leveraging physical assets
- Expanding presence in Honduras, El Salvador, Nicaragua, and Central African Republic
- Focus on offering a comprehensive product portfolio to fulfill consumer demand

Balaxi in 2024 & Beyond

- Foray into other Latin American countries, South-East-Asia and CIS markets, replicating the established and differentiated business model
- Plans to enter new global markets backed by our first pharma formulation manufacturing set up
- Focus on ideal mix of branded and generic medicines, maximizing returns in key geographies
- Targeting strong global presence in top 20 frontier markets over the next five years
