# BIDEN'S 'SUMMIT FOR DEMOCRACY' China's Communists bash US democracy

ASSOCIATED PRESS  
Beijing, December 4

CHINA'S COMMUNIST PARTY took American democracy to task on Saturday, sharply criticising a global democracy summit being hosted by President Joe Biden next week and extolling the virtues of its governing system.

Party officials questioned how a polarised country that botched its response to Covid-19 could lecture others and said that efforts to force others to copy the Western democratic model are "doomed to fail." Tian Peiyan, the deputy director of the party's Policy Research Office, said the pandemic exposed defects in the American system. He blamed the high COVID-19 death toll in the US on political disputes and a divided government from the

wan, a self-governing democracy that China says should be under its rule, has further angered Beijing.

US-China relations remain strained despite a virtual summit between Biden and Chinese leader Xi Jinping last month.

The US president has repeatedly framed differences with China in his broader call for the US and its allies to demonstrate that democracies can offer humanity a better path toward progress than autocracies.

The Communist Party has ruled China single-handedly since 1949. It says that various views are reflected through consultative bodies and residence committees, but silences most public criticism with censorship and sometimes arrest.

highest to the lowest levels.

"Such democracy brings not happiness but disaster to voters," he said at a news conference to release a government report on what the Communist Party calls its form of democracy, which is firmly under party control.

Neither China nor Russia are among about 110 governments that have been invited to Biden's two-day virtual "Summit for Democracy", which starts Thursday.

### Bharti, Vi likely to hike postpaid rates

The postpaid market is worth around ₹22,000 crore in revenue terms and forms 15% of the sector's revenues and 5% of sector's active subscribers, according to estimates by Jefferies. Around 50-60% of these subscribers are enterprise customers, and 34% of postpaid subscribers are situated in the three metros and another 36% in urban centric A-circles. Among operators, Vodafone Idea has the highest 43% market share followed by Bharti Airtel at 28%.

If we take the case of Bharti, around 50-60% of its postpaid subscribers are enterprise customers, so their focus is less on pricing and more on sustained track record of service delivery. Further, if Bharti has so far maintained a premium in tariffs as compared to that of Jio's even in the prepaid segment and managed churn quite well, it is unlikely that it would face risk if it raises tariffs in the postpaid segment. Postpaid users form 5% of Bharti's subscribers and 16% of its India mobile revenues. "I think I will be surprised if postpaid rates are not increased, such tariffs will see a hike. Why would they delay it for too long? It's not in their interest to delay it for too long. If they delay it longer, they only harm themselves," Sanjay Kapoor, technology, media and telecom (TMT) adviser said.

increased shipments into the channel. Besides, they came up with multiple launches and big discount schemes throughout the quarter.

Another reason behind the surge are price points at which smartwatches are available today, Jain said, adding "New smartwatches are available at a price of ₹2,000-3,000. Compared with last year, the ASP (average selling price) has almost halved."

Besides customer preference is growing as they want to experience the device, and the demand is also coming from the smartband side. Smartband users are gradually shifting to smartwatches.

The gap between the ASP of a smartband and smartwatch is also coming down, she explained.

During Q3 2021, the market remained competitive with Noise and Boat together capturing almost 50% of it. Fire-Bolt, Apple and Realme emerged as fastest growing brands during the quarter.

# Very, very difficult for Russia to take military action in Ukraine: Biden

US President Joe Biden pledged on Friday to make it "very, very difficult" for Russia's Vladimir Putin to take military action in Ukraine as US intelligence officials determined that Russian planning

is underway for a possible military offensive that could begin as soon as early 2022.

The new intelligence finding estimates that the Russians are planning to deploy an estimated 175,000 troops and

almost half of them are already deployed along various points near Ukraine's border, according to a Biden administration official who spoke on the condition of anonymity to discuss the finding. —AP
