Indian Railway Finance Corporation (“IRFC”) - Overview

Strong Linkage with the Government of India

Set up in 1986, Indian Railway Finance Corporation Limited has been the sole financial institution to the MoR since inception

Critical role in the Indian Government's economic development plans and policies given its exclusive role as financier to the MoR

Integral linkage with the government as the GoI, which appoints the board of directors and is substantially involved in IRFC's strategic direction, borrowing, operational and financial performance targets. IRFC's annual borrowing targets are determined by the MoR according to the annual budget approved by the Indian Parliament

Unique financing arrangement with GoI – IRFC's loans to the MoR are extended in the form of finance leases. MoR outlay for the same is passed through the annual budget which is approved by the Parliament and therefore carries GoI's commitment

Additionally, In the event the Issuer does not have sufficient funds to redeem bonds or repay term loans owing to inadequate cash flows during the fiscal year, the MoR is required under the Standard Lease Agreement to provide for such shortfall, through bullet payments in advance prior to maturity of the relevant bonds or term. IRFC has not utilized this provision to meet its repayments till now

IRFC is notified as a Public Financial Institution under the Companies Act and registered as NBFC-ND-SI (Non-Deposit taking Systemically Important NBFC) and is sub-classified as NBFC-IFC (Infrastructure Finance Company) with RBI which provides it with better access to funding in the domestic as well as offshore markets.

All **financial risk** such as interest rate risk and exchange rate variation risk is passed onto the MoR

Strategic role in financing growth of Indian Railways

Indian Railways is fairly underpenetrated compared to the Global peers^[1]
