DISCLAIMER

This presentation has been prepared by Rudrabhishek Enterprises Limited (REPL) (the “Company”) solely for information purposes and does not constitute any offer, recommendation or invitation to purchase or subscribe for any securities, and shall not form the basis or be relied on in connection with any contract or binding commitment what so ever. No offering of securities of the Company will be made except by means of a statutory offering document containing detailed information about the Company.

This Presentation has been prepared by the Company based on information and data which the Company considers reliable, but the Company makes no representation or warranty, express or implied, whatsoever, and no reliance shall be placed on, the truth, accuracy, completeness, fairness and reasonableness of the contents of this Presentation. This Presentation may not be all inclusive and may not contain all of the information that you may consider material. Any liability in respect of the contents of, or any omission from, this Presentation is expressly excluded.

Certain matters discussed in this Presentation may contain statements regarding the Company’s market opportunity and business prospects that are individually and collectively forward-looking statements. Such forward-looking statements are not guarantees of future performance and are subject to known and unknown risks, uncertainties and assumptions that are difficult to predict. These risks and uncertainties include, but are not limited to, the performance of the Indian economy and of the economies of various international markets, the performance of the industry in India and world-wide, competition, the Company’s ability to successfully implement its strategy, the Company’s future levels of growth and expansion, technological implementation, changes and advancements, changes in revenue, income or cash flows, the Company’s market preferences and its exposure to market risks, as well as other risks. The Company’s actual results, levels of activity, performance or achievements could differ materially and adversely from results expressed in or implied by this Presentation. The Company assumes no obligation to update any forward-looking information contained in this Presentation. Any forward-looking statements and projections made by third parties included in this Presentation are not adopted by the Company and the Company is not responsible for such third party statements and projections.

Financial Highlights

Q3 Results (FY 2020-21)

Chairman's Message

Commenting on the Q3 FY 2020-21 results-

**Mr. Pradeep Misra,
Chairman & MD (REPL), said:**

“

This year the entire spectrum of economic activities was disrupted by Covid-19 pandemic. In the initial two quarters we had to absorb the heat in terms of the progress on the on-going projects. However after the gradual lifting of lock-down, we have been recovering on a much faster pace. The results of Q3 (FY-2020-21) speak loudly of the same.

***On QoQ basis REPL's revenue has increased by 45%, EIDTA has increased by 43.5%, and PAT has seen an increase of 54.8% during the same period.** Our PAT Margin has seen modest improvement of 137 bps, while basic EPS has increased substantially by the 53.5%. We have been continuously able to maximize the value of our investors, which is also reflecting in the increasing market cap that has crossed Rs. 300 crores mark.*

This great pull-off has been possible due to faster execution of projects, including new consultancy assignments and our operating efficiency. The YoY figures are little subdued due to business coming to quasi-halt position in first two quarters. We are confident that by the end of the current financial year, we will get over with the consolidation activities and REPL will again be geared-up for its robust growth curve in coming year.

*As explicitly spelt out in **Union Budget 2021, The government's focus has increased further on the Infrastructure Investment, as a means to faster recovery of economy and immediate employment generation.** This will directly benefit the REPL's business strategy and future plans. We are aiming for a disruptive growth pattern in our company's business in coming period.*

*In pervious quarter itself we were listed at **NSE main-board**. We are one of its kind company at NSE. We thank our investors, employees, associates, regulatory authorities, and all other stakeholders for continuous support and faith invested in REPL's growth story.”*

Jabalpur Smart City ropes in REPL as consultant

REPL will support Jabalpur Smart City in overall management of Smart City project, including project planning, budgeting, supervising, managing, monitoring & evaluating, reporting and coordination

Mohd Ujaley • ETGovernment • June 09, 2020, 11:01 IST

Delhi-based infrastructure consultancy firm Rudrabhishek Enterprises Limited (REPL) said that it has

THE ECONOMIC TIMES Cities May Take a Year More to Become Smart

New Delhi: About 20 smart city projects will likely see their completion deadlines slip by up to 18 months due to the nationwide lockdown, which is likely to affect all the 99 urban areas the Centre had decided to equip with 21st century conveniences. "Some may even get delayed by 18 months while some might face a delay of six to nine months, depending on the work left. The average delay would be of one year," said Pradeep Misra, CMD, REPL (Rudrabhishek Enterprises Limited).

Minister Narendra Modi's constituency is being reviewed closely and the central government has assured a three-month extension to contractors. The government has committed to any extent though it is unlikely to lay penalty. "Everyone is aware of the situation and we expect to gain momentum if within the contract there is a provision of 'force majeure' by the state government or

COVID-19: Leveraging the great lockdown 2020

Over the last three months, the world has changed drastically. The COVID-19 pandemic has altered not only the way we live, but also the way we work. This has led to a significant increase in the demand for digital services, particularly in the real estate sector. 99acres is leveraging this opportunity to provide a seamless digital experience for its users.

The current global crisis affects the lives and livelihood of people. Moreover, it has almost all the spheres of the Indian economy, including the Micro, Small, and Medium Enterprises (MSMEs). In a recent revelation, the sector had witnessed a 20-30 percent drop in earnings due to the disruptions led by the pandemic.

In order to deal with the challenging times, the Indian MSME sector needs to adopt digital solutions. Sustainable business planning is the key to success in the post-pandemic era.
