TCS Named in the Now Tech Report for Cybersecurity Consulting Services in Asia-Pacific

Tata Consultancy Services' Deep Domain and Technology Expertise, Zero-Trust Framework and Global Network of Threat Management Centers are Driving its Market Success

NEW YORK | MUMBAI, September 14, 2021: Tata Consultancy Services (TCS) (BSE: 532540, NSE: TCS), a leading global IT services, consulting and business solutions organization, has been named in the Forrester Now Tech: Cybersecurity Consulting Providers in Asia Pacific (APAC), Q3 2021¹.

The report provides an overview of 24 cybersecurity consulting providers in the region. It states that clients buy services from APAC security consulting firms to construct security programs, secure executive buy-in and sponsorship, innovate, and accelerate the security program.

Customers are partnering with TCS to proactively defend their digital estate from cyber-attacks and vulnerabilities and secure their digital transformation journeys. TCS' use of automation, investments in innovation and research, comprehensive portfolio of intellectual property, and outcome-based pricing models, help it stay ahead of changing market requirements.

TCS offers cyber security consulting services to customers across major APAC countries. Services include strategy and roadmap advisory, architecture and design consulting, security assessment and transformation, professional services, and technical implementation. These services cover all security domains areas such as managed detection and response, identity and access management, enterprise vulnerability management, governance, risk and compliance, data privacy and protection, digital forensics and incident response, cloud security, data security and IT/OT security services.

Additionally, TCS' global network of Threat Management Centers help customers with rapid and expert security services locally, while ensuring compliance with data protection laws. In APAC, TCS operates seven Threat Management Centers in Australia, Japan and India.

TCS addresses customers' security needs with its Zero Trust framework for business resilience and agility, and its Cyber Defense suite of solutions for consent management, cyber vigilance, vendor risk management, automated vulnerability remediation, identity and access management, and cloud security.

"Cyber security needs to be integrated into the core and very fabric of an enterprise's digital infrastructure. Our security consultants across the globe, work closely with customers in drawing up effective cybersecurity strategies and deploying next-gen solutions that cater to their evolving business needs and help them attain cyber resilience," said **Santha Subramoni, Global Head, Cyber Security, TCS.**

About Tata Consultancy Services (TCS)

Tata Consultancy Services is an IT services, consulting and business solutions organization that has been partnering with many of the world's largest businesses in their transformation journeys for over 50 years. TCS offers a consulting-led, cognitive powered, integrated portfolio of business, technology and engineering services and solutions. This is delivered through its unique Location Independent Agile™ delivery model, recognized as a benchmark of excellence in software development.

¹ Now Tech: Cybersecurity Consulting Services in Asia Pacific, Q3 2021, Jinan Budge, Forrester Research, September 10, 2021

A part of the Tata group, India's largest multinational business group, TCS has over 500,000 of the world's best-trained consultants in 46 countries. The company generated consolidated revenues of US \$22.2 billion in the fiscal year ended March 31, 2021 and is listed on the BSE (formerly Bombay Stock Exchange) and the NSE (National Stock Exchange) in India. TCS' proactive stance on climate change and award-winning work with communities across the world have earned it a place in leading sustainability indices such as the MSCI Global Sustainability Index and the FTSE4Good Emerging Index.
