- 2. Any fluctuation in price and supply of Gold, which account for the majority of our raw material cost could adversely impact our income.***

Gold is the primary raw material used in the manufacturing process of gold jewellery. Price of gold is volatile in nature and is linked to the international commodity indices. Any increase in the prices of raw materials shall result

in the consequent increase in the price of our products. Such increase in price of our products may adversely affect their demand. There is no certainty that such price increase will be sustainable and downward pressure on gross margins and income may occur.

Any adverse decision may render us / promoter/Director liable to liabilities / penalties and may have a material adverse effect on our reputation, business, financial condition and results of operations, which could adversely affect the trading price of our Equity Shares.

For further details regarding these legal proceedings, please refer "Outstanding Litigations and Material Developments" on page 120 of this Prospectus.

4. ***Our dependency on job worker for the performance of our operation may adversely affect our business.***

We are totally dependent on the job worker for the performance of our operation. We have not entered into written arrangements with any of these job workers, and there can be no assurance that these job workers will continue to be associated with us on reasonable terms, or at all. Although we work closely with these job workers, we do not exercise control over them, and our arrangements with these job workers could involve various risks, including potential interruptions to their operations for factor beyond their or our control, any significant adverse changes in their financial or business conditions, as well as low levels of output or efficiency.

5. ***Change in the name of one of our promoter.***

Our Promoter Jawanmal M. Shah was previously known as Jawanmal M. Jain. In the year 2010, the name of our promoter Jawanmal M. Shah has been changed from "Jawanmal M. Jain" to "Jawanmal M. Shah". 6. ***Our Company has deposited cash of Rs. 8.50 lakhs during demonetization period.***

In the event of any penalty/demand is raised by the IT Authorities, it may.

7. ***Our Company had negative cash flow in recent fiscals, details of which are given below. Sustained negative cash flow could adversely impact our business, financial condition and results of operations.***

The detailed break up of cash flows is summarized in below mentioned table and our Company has reported negative cash flow in certain financial years and which could affect our business and growth:

(Rs. in lakhs)

Particulars	As at October 31, 2017	For the Financial Year ended March 31	
		2017	2016
Net Cash Flow from/(used in) Operating Activities	321.06	(262.54)	271.78
Net Cash Flow from/(used in) Investing Activities	2.78	(18.44)	1.39
Net Cash Flow from/(used in) Financing Activities	(293.19)	430.07	(41.19)

For further details, see "Financial Statements as restated" on page 92 of this Prospectus. We cannot assure you that our net cash flows will be positive in the future.

8. ***Our results of operations could be adversely affected by strikes, work stoppages or increased charges by job workers.***

We are unable to assure you that we will not experience disruptions to our operations due to disputes or other problems with our job worker, which may lead to strikes, increased charges. Such issues could have an adverse effect on our business, and results of operations.

9. ***If we are unable to continue to develop innovative, fashionable and popular designs, demand for our jewellery may decrease.***

Our success depends largely on our ability to anticipate, gauge and respond to the changing consumer preferences and trends in a timely manner, while preserving and strengthening the perception and authenticity of our products. We must therefore continue to develop innovative and trend-setting jewellery designs that are different from our competitors. Market acceptance of new designs and products is subject to uncertainty and we cannot assure you that our efforts will be successful. The inability of new designs to gain market acceptance could adversely affect our business and financial condition.

10. ***We have not complied with section 203 of the Company act, 2013 and some of the documents filed by us with RoC have discrepancies which may be subject to regulatory action for such non compliance and discrepancies***

Under the provisions of Section 203 of the Companies Act, 2013 read with Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014, we were required to appoint a whole-time Company Secretary from August 05, 2015. However we have appointed a whole-time Company Secretary with effect from August 01, 2017. Thus we were not compliant with the provisions of the said section read with rules in the intermediate period from August 05, 2015 until July 31, 2017 which may be subject to proceedings which may be initiated for such non-compliance by the Registrar of Companies.

Further, Certain of our documents relating to appointment of directors and allotment of shares capital of our Company filed with the Registrar of Companies, respectively, contain discrepancies such as appointment of independent directors in the board meeting instead of appointing as additional director, share capital details wrongly mentioned in MGT-7 of FY 2014-15, wrong attachments in the PAS-3 form filed for the allotment of shares which may be subject to proceedings which may be initiated for such discrepancies by the Registrar of Companies.

11. ***We are dependent upon third parties for supply of our raw material and any disruption in their supply could disrupt our business and adversely affect our financial results.***

Gold bar is the primary raw material used in the manufacturing process, contributes significantly to our total raw material cost. We do not enter into any long term agreements with our suppliers and our arrangements with them are generally on short term basis. Hence, there is no assurance that in future also we will be able to source such raw material at commercially acceptable prices, or at all. This could affect our ability to fulfill our supply commitments or to fulfill them in an economic manner, which will have an adverse effect on our business, financial condition and results of operations.

12. ***We depend on a limited number of customers, and a loss of or significant decrease in business from them could affect our business and have a material adverse impact on our profitability.***

We have in the past and may in the future derive a significant portion of our revenue from a relatively limited number of customers that vary from year to year. Further, we currently do not have any long term contractual arrangements with our significant customers and conduct business with them on the basis of purchase orders that are placed from time to time. The loss of one or more of our significant customers or a reduction in the amount of business we obtain from them could have an adverse effect on our business, results of operations, financial condition and cash flows. We cannot assure you that we will be able to maintain historic levels of business from our significant customers.

13. ***Our limited operating history makes it difficult to evaluate our business and prospects and may increase the risks associated with your investment.***

We were incorporated in the year 2012 and consequently have a limited operating history upon which our business and future prospects may be evaluated. We may not be able to sustain the rate of growth we have achieved to date, or even maintain our current revenue levels. We have encountered and will continue to encounter risks and difficulties frequently experienced by growing companies in rapidly evolving industries, including challenges related to recruiting, allocating and making effective use of our limited resources, achieving market acceptance of our solutions, competing against companies with greater financial and technical resources, retaining qualified employees, developing

relationships with advertisers and publishers, developing new solutions, and establishing and maintaining our corporate infrastructure, including internal controls relating to our financial and information technology systems.

14. ***We are dependent on third party transportation providers for delivery of raw materials to us from our supplier's, delivery of raw materials to our job workers and delivery of our products to our clients. Any failure on part of such service providers to meet their obligations could have a material adverse effect on our business, financial condition and results of operation.***

Our success depends on the smooth supply and transportation of the raw materials required for our business, delivery of the raw materials to the job worker and transportation of our products to our clients, which are subject to various uncertainties and risks. In addition, raw materials and products may be lost or damaged in transit for various reasons including occurrence of accidents or natural disasters. There may also be delay in delivery of raw materials and products which may also affect our business and our results of operation negatively. A failure to maintain a continuous supply of raw materials or to deliver the products to our clients in an efficient and reliable manner could have a material and adverse effect on our business, financial condition and results of operations.

15. ***We have not been able to locate certain records of the educational qualifications and professional experience of certain of our Directors and have relied on declarations and affidavits furnished by such individuals for certain details of their profiles, as disclosed in the section "Our Management".***

We do not have all the documents evidencing the biographies of our Directors, as disclosed in "Our Management" on page 74 of this prospectus. We and the LM were not able to verify details pertaining to the following:

- Educational qualifications of our Promoters/Directors Amrit J. Shah, Jawanmal M. Shah, & Sangeeta A. Shah; and
- Certain aspects of the professional experience of our Promoters, Amrit J. Shah and Jawanmal M. Shah.

Accordingly, reliance has been placed on declarations, undertakings and affidavits furnished by these Promoters/Director to us and the LM to disclose details of their educational qualifications and professional experience in this Prospectus. We and the LM have been unable to independently verify such information prior to its inclusion in this Prospectus.

16. ***Any failure or disruption or change of our information technology systems may adversely impact our business and operations.***

We use information technology systems to monitor all aspects of our business and rely significantly on such systems for the efficient operations and the security of our information. Our information technology systems may not always operate without interruption and may encounter temporary abnormality or become obsolete. Further, we cannot assure you that the level of security we presently maintain is adequate or that our systems can withstand intrusions from or prevent improper usage by third parties. We may not always be successful in installing, running and migrating to new software or systems as required for the development of our business. Even if we are successful in this regard, significant capital expenditure may be required, and we may not be able to benefit from the investment immediately. All of these may have a material adverse impact on our operations and profitability.

17. ***We have issued Equity Shares during the last one year from the date of filing of this Prospectus at a price that is below the Issue Price.***

During the last one year from the date of filing of this Prospectus we have issued Equity Shares at a price that is lower than the Issue Price as detailed in the following table:

Date of allotment	Number of Equity Shares allotted	Face value (Rs.)	Issue Price (Rs.)	Nature of Consideration	Nature of allotment	Name of allottees
07/08/2017	25,83,337	10.00	-	Other than Cash	Bonus in the ratio of 1 Equity Share for every 2 Equity Share	1. Jawanmal M. Shah 2. Amrit J. Shah 3. Sangeeta A. Shah 4. Vimla J. Shah

For further details of the aforesaid allotment please refer "Capital Structure" on page 39 of this Prospectus.

18. ***We do not register our jewellery designs under the Design Act, 2000 and we may lose revenue if our designs are duplicated by competitors.***

We do not register the design of the jewellery under the Design Act, 2000. As such, it would be difficult for us to enforce our intellectual property rights in our designs and if competitors copy our designs it could lead to a loss of revenue, which could adversely affect our results of our operations.

19. ***If we are unable to service our debt obligations in a timely manner or to comply with various financial and other covenants and other terms and conditions of our financing agreements, it may adversely affect our business, prospects, results of operations and financial condition.***

Our total debt obligations payable on account of cash credit facility availed by our Company from The Bharat Co-operative Bank (Mumbai) Ltd. as on October 31, 2017 is Rs. 1,478.37 Lacs. The said cash credit facility has been secured, inter-alia, by way of hypothecation of stocks, debtors and mortgage of properties (land & building) along with personal guarantee of third parties. The agreement governing the cash credit facility contain restrictive covenants relating to changes in capital structure, making changes to objects, registered office, Directors of the Company etc. There can be no assurance that we will be able to comply with these restrictive covenants, or that we will be able to obtain the consents necessary to proceed with the actions which we believe are necessary to operate and grow our business, which may in turn have a material adverse effect on our business and operations. Any failure to pay our dues in time or comply with any requirement or other condition or covenant under our loan agreements, may lead to a termination of our agreements, and may adversely affect our business, prospects, results of operations and financial condition.

For further information on the indebtedness of our Company, please refer the Section “***Financial Indebtedness***” on page 111 of this Prospectus.

20. ***Our business experiences an increase in sales during seasons of weddings and festivals. Any substantial decrease in our sales during such periods would have a material adverse effect on our results of operations.***

Our sales have historically exhibited certain seasonal fluctuations, reflecting higher sales volumes on festivals and other occasions such as Durga Puja, Dhanteras, Diwali, Christmas and Valentine’s Day which occur in the third and fourth quarter of the fiscal year. This period also coincides with the wedding season in India. While we stock certain inventory to account for this seasonality, our fixed costs such as lease rentals, employee salaries, are relatively constant throughout the year. Consequently, lower than expected net sales during the third or fourth quarters of the fiscal year or more pronounced seasonal variations in sales in the future could have a disproportionate impact on our operating results for the fiscal year, or could strain our resources and impair our cash flows. Any slowdown in demand for our jewellery during peak seasons or failure by us to accurately anticipate and prepare for such seasonal fluctuations could have a material adverse effect on our business, financial condition and results of operations.

21. ***We have not registered the trademarks used by us for our business and our inability to obtain or maintain these registrations may adversely affect our competitive business position. Our inability to protect or use our intellectual property rights may adversely affect our business.***

We have not applied for the registration of our logo “”. The registration of any trademark is a time-consuming process, and there can be no assurance that any such registration will be granted as and when applied. In the absence of such registration, competitors or other companies may challenge the validity or scope of our intellectual property.

These trademarks are integral to our business, and the loss of any of these intellectual property rights could have a material adverse effect on our business. Further, if any of our unregistered trademarks are registered in favour of a third party, we may not be able to claim ownership or make use of such trademarks and consequently, we may be unable to seek remedies for infringement of those trademarks by third parties other than relief against passing off by other entities. Our inability to obtain or maintain these registrations may adversely affect our competitive business position. This may affect our brand value and consequently our business.

22. ***We may fail to attract and retain qualified designers and craftsmen as competition for skilled personnel is intense.***

The industry in which we operate is labour intensive and our success depends in large part upon our ability to attract, hire, train and retain qualified designers and craftsmen or karigars. There is significant demand for karigars in India with skills necessary to perform the services. A significant increase in the job work charges would increase cost of product and decrease our operating efficiency and profit margins and could lead to adversely affect financial condition and results of operations.

23. ***Our business is partly dependent on factors affecting consumer spending habit that are out of our control.***

Jewellery purchases are discretionary and are often considered as luxury purchase. Consequently, our business is sensitive to a number of factors that influence consumer spending habit which includes general economic conditions, consumer confidence in future economic conditions, recession and fears of recession, consumer debt, unstable consumer income, conditions in the housing market, interest rates, inflation. Any fall in demand or a decline in the consumer spending habit could adversely affect our business, financial condition and results of operations.

24. ***Our insurance policies may not adequately cover us against certain risks and hazards, which may have an adverse effect on our business.***

Our insurance policies currently comprise a jeweller's block policy, Money insurance policy, Fidelity guarantee policy and a standard fire and special perils insurance policy. For further information, see "Our Business" on page 63. Notwithstanding the insurance coverage that we carry, we may not be fully insured against some business risks. There are many events that could significantly impact our operations, or expose us to third-party liabilities, for which we may not be adequately insured. There can be no assurance that any claim under the insurance policies maintained by us will be honoured fully, in part, or on time. To the extent that we suffer any loss or damage that is not covered by insurance or exceeds our insurance coverage, our business, financial condition and results of operations could be adversely affected. The extent of the possible effect on our business, financial condition and results of operation is not disclosed as it cannot be quantified.

25. ***We require a number of approvals, licenses, registration and permits for our business and failure to obtain or renew them in a timely manner may adversely affect our operations.***

We may require several statutory and regulatory permits, licenses and approvals in the ordinary course of our business, some of which our Company has either received, applied for or is in the process of application. Many of these approvals are granted for fixed periods of time and need renewal from time to time. There can be no assurance that the relevant authorities will issue any of such permits or approvals in the timeframe anticipated by us or at all. Any failure by us to apply in time, to renew, maintain or obtain the required permits, licenses or approvals, or the cancellation, suspension, delay in issuance or revocation of any of the permits, licenses or approvals may result in the interruption of our operations and may have a material adverse effect on the business. For further details, please see chapters titled "Key Industry Regulations and Policies" and "Government and Other Approvals" at pages 68 and 124 respectively of this Prospectus.

26. ***Our Company has unsecured loans, which are repayable on demand. Any demand from lenders for repayment of such unsecured loans, may adversely affect our business operations and financial condition of our Company.***

As on October 31, 2017, our Company has unsecured loans aggregating to Rs. 300.00 Lacs. For further details of these unsecured loans, please refer to chapter titled "Financial Indebtedness" beginning on page 111 of this Prospectus. Further, Our Company intend to use Rs. 300.00 Lakhs of the issue proceeds to repay the said loan in full. For further reference please refer "Objects of the Issue" on page 49 of this Prospectus.

27. ***We have in the past entered into related party transactions and may continue to do so in the future, which may potentially involve conflicts of interest with the equity shareholders.***

We have entered into related party transactions with our Promoters, Promoter Group, Group Entities and Directors. While we believe that all such transactions have been conducted on the arms length basis, however it is difficult to ascertain whether more favorable terms would have been achieved had such transactions been entered with unrelated parties. Furthermore, it is likely that we may enter into related party transactions in the future. For details of these transactions, please refer to section titled "Related Party Transactions" at page 90 of this Prospectus.

28. ***The requirement of funds in relation to the objects of the Issue has not been appraised.***

We intend to use the proceeds of the Issue for the purposes described in the section titled "Objects of the Issue" on page 49. The objects of the Issue have not been appraised by any bank or financial institution. These are based on management estimates and current conditions and are subject to changes in external circumstances or costs, or in other financial condition, business or strategy. Based on the competitive nature of the industry, we may have to revise our management estimates from time to time and consequently our funding requirements may also change. The deployment of the funds towards the objects of the issue is entirely at the discretion of the Board of Directors/Management and is not subject to monitoring by external independent agency. However, the deployment of funds is subject to monitoring

by our Audit Committee. Any inability on our part to effectively utilize the Issue proceeds could adversely affect our financials.

29. ***We have not made any alternate arrangements for meeting our capital requirements for the Objects of the Issue. Further we have not identified any alternate source of financing the 'Objects of the Issue'. Any shortfall in raising / meeting the same could adversely affect our growth plans, operations and financial performance.***

As on date, we have not made any alternate arrangements for meeting our capital requirements for the Objects of the Issue. We meet our capital requirements through our owned funds, Banks/NBFC and internal accruals. Any shortfall in our net owned funds, internal accruals and our inability to raise debt in future would result in us being unable to meet our capital requirements, which in turn will negatively affect our financial condition and results of operations. Further we have not identified any alternate source of funding and hence any failure or delay on our part to raise money from this Issue or any shortfall in the Issue Proceeds may delay the implementation schedule and could adversely affect our growth plans. For further details please refer "*Objects of the Issue*" on page 49 of this Prospectus.

30. ***Our success largely depends upon the knowledge and experience of our Promoters and our Key Managerial Personnel. Any loss of our key managerial personnel or our ability to attract and retain them could adversely affect our business, operations and financial condition.***

Our Company depends on the management skills and guidance of our Promoters for development of business strategies, monitoring its successful implementation and meeting future challenges. Further, we also significantly depend on the expertise, experience and continued efforts of our key managerial personnel. Our future performance will depend largely on our ability to retain the continued service of our management team. If one or more of our key managerial personnel are unable or unwilling to continue in his/ her present position, it could be difficult for us to find a suitable or timely replacement and our business could be adversely affect our business, operations and financial condition. For further details on our key managerial personnel, please refer to the chapter titled "*Our Management*" on page 74 of this Prospectus.

31. ***We have not entered into any contracts with any of our customers.***

We do not have any contracts with our customers and any change in the buying pattern of the customers could adversely affect the business of our Company. Although we have satisfactory business relations with our customers and have received continued business from them in the past, there is no certainty that the same will continue in the years to come and may affect our profitability.

32. ***We have not made any dividend payments in the past and our ability to pay dividends in the future will depend upon future earnings, financial condition, cash flows, working capital requirements, capital expenditures and restrictive covenants in our financing arrangements.***

In the past, we have not made dividend payments to the shareholders of our Company. The amount of our future dividend payments, if any, will depend upon various factors including our future earnings, financial condition, cash flows and requirement to fund operations and expansion of the business. There can be no assurance that we will be able to declare dividends. Any future determination as to the declaration and payment of dividends will be at the discretion of our Board of Directors. For further details, please refer "*Dividend Policy*" on page 91 of this Prospectus.

33. ***Delay in raising funds from the IPO could adversely impact the implementation schedule.***

The proposed objects, as detailed in the section titled "*Objects of the Issue*" are to be largely funded from the proceeds of the issue. We have not identified any alternate source of funding and hence any failure or delay on our part to mobilize the required resources or any shortfall in the Issue proceeds may delay the implementation schedule. We therefore, cannot assure that we would be able to execute the expansion process within the given timeframe, or within the costs as originally estimated by us. Any time overrun or cost overrun may adversely affect our growth plans and profitability.

34. ***Our inability to manage growth could disrupt our business and reduce profitability***

A principal component of our strategy is to continuously grow by expanding the size and geographical scope of our businesses. This growth strategy will place significant demands on our management, financial and other resources. It will require us to continuously develop and improve our operational, financial and internal controls. Continuous expansion increases the challenges involved in financial management, recruitment, training and retaining high quality human resources, preserving our culture, values and entrepreneurial environment, and developing and improving our internal administrative infrastructure. Any inability on our part to manage such growth could disrupt our business prospects, impact our financial condition and adversely affect our results of operations.

35. ***Our Promoters and certain of our Directors hold Equity Shares in our Company and are therefore interested in our performance in addition to their remuneration and reimbursement of expenses.***

Certain of our Directors including our Promoters are interested in our Company, in addition to regular remuneration or benefits and reimbursement of expenses, to the extent of their shareholding in our Company. We cannot assure you that our Promoters will exercise their rights as shareholders to the benefit and best interest of our Company. Our Promoters will continue to exercise significant control over us, including being able to control the composition of our Board of Directors and determine decisions requiring simple or special majority voting of shareholders, and our other shareholders may be unable to affect the outcome of such voting. Our Promoters may take actions with respect to our business which may conflict with the best interests of our Company or that of minority shareholders. For details on the interest of our Promoters and Directors of our Company, other than reimbursement of expenses incurred or normal remuneration or benefits, see the sections titled “*Our Management*” and “*Our Promoters and Promoter Group*” on pages 74 and 85 respectively of this Prospectus.

36. ***The Promoters and Promoter Group will continue to exercise control post completion of the Issue and will have considerable influence over the outcome of matters.***

Upon completion of this Issue, our Promoters and Promoter Group will continue to own a majority of our Equity Shares. As a result, our Promoters will have the ability to exercise significant influence over all matters requiring shareholders’ approval. Our Promoters will also be in a position to influence any shareholder action or approval requiring a majority vote, except where they may be required by applicable law to abstain from voting. This control could also delay, defer or prevent a change in control of our Company, impede a merger, consolidation, takeover or other business combination involving our Company, or discourage a potential acquirer from obtaining control of our Company even if it is in the best interests of our Company. The interests of our Promoters could conflict with the interests of our other equity shareholders, and the Promoters could make decisions that materially and adversely affect your investment in the Equity Shares.

37. ***We have working capital requirements. If we experience insufficient cash flows to enable us to make required payments on our debt or fund working capital requirements, there may be an adverse effect on our results of operations.***

Our business requires a substantial amount of working capital for our business operations. We would require additional working capital facilities in the future to satisfy our working capital need which is proposed to be met through the IPO proceeds. In case of our inability to obtain the requisite additional working capital finance, our internal accruals/cash flows would be adversely affected to that extent, and consequently affect our operations, revenue and profitability.

38. ***Our success largely depends upon the knowledge and experience of our Employees. Any loss of our employees or our ability to attract and retain them could adversely affect our business, operations and financial condition.***

As on November 30, 2017, Our Company has one Managing Director, one Whole-time Director and eight permanent employees. We significantly depend on the expertise, experience and continued efforts of our Employees. Our future performance will depend largely on our ability to retain the continued service of our team. If one or more of our employees are unable or unwilling to continue in his/ her present position, it could be difficult for us to find a suitable or timely replacement and our business could be adversely affect our business, operations and financial condition.

39. ***Some of the information disclosed in this Prospectus is based on information from industry sources and publications which may be based on projections, forecasts and assumptions that may prove to be incorrect. Investors should not place undue reliance on, or base their investment decision on this information.***

The information disclosed in the “*Industry Overview*” section of this Prospectus on page 59 is based on information from publicly-available industry, Government and research information, publications and websites and has not been verified by us independently and we do not make any representation as to the accuracy of the information. The data may have been re-classified by us for the purposes of presentation. Industry sources and publications generally state that the information contained therein has been obtained from sources generally believed to be reliable, but that their accuracy, completeness and underlying assumptions are not guaranteed and their reliability cannot be assured. Accordingly, investors should not place undue reliance on, or base their investment decision on this information.

40. ***We may require a number of approvals, licenses and registrations in the ordinary course of our business. Some of the approvals are required to be transferred in the name of “Moksh Ornaments Limited” from “Moksh Ornaments Private Limited” pursuant to name change of our company and any failure or delay in obtaining the same in a timely manner may adversely affect our operations.***

We may require a number of approvals, licenses and registrations in ordinary course of our business. Additionally, we need to apply for renewal of approvals which expire, from time to time, as and when required in the ordinary course. Also, we were a private limited company in the name of Moksh Ornaments Private Limited. As per Companies Act, a private limited company can be converted into public limited company. After complying with the relevant procedure of Companies Act, the said private limited company was converted into a public limited company in the year 2017. After conversion there was change in the name of the company from Moksh Ornaments Private Limited to Moksh Ornaments Limited. We shall be taking necessary steps for transferring the approvals in the new name of our company. In case we fail to transfer/obtain the same in name of the company same may adversely affect our business or we may not be able to carry our business. Any failure to renew the approvals that have expired, or to apply for and obtain the required approvals, licenses, registrations or permits, or any suspension or revocation of any of the approvals, licenses, registrations and permits that have been or may be issued to us, could result in delaying the operations of our business, which may adversely affect our business, financial condition, results of operations and prospects. For more information, see chapter “Government and Other Approvals” on page 124 of this Prospectus.

EXTERNAL RISKS

41. ***Political, economic or other factors that are beyond our control may have an adverse effect on our business and results of operations.***

The following external risks may have an adverse effect on our business and results of operations should any of them materialize:

- a change in the central or state governments or a change in the economic and deregulation policies could adversely affect economic conditions prevalent in the areas in which we operate in general and our business in particular;
- high rates of inflation in India could increase our costs without proportionately increasing our revenues, and as such decrease our operating margins; and
- a slowdown in economic growth or financial instability in India could adversely affect our business and results of operations.

42. ***Our business is dependent on economic growth in India.***

The performance and growth of our business are necessarily dependent on economic conditions prevalent in India, which may be materially and adversely affected by centre or state political instability or regional conflicts, a general rise in interest rates, inflation, economic slowdown elsewhere in the world or otherwise.

There have been periods of slowdown in the economic growth of India. India’s economic growth is affected by various factors including domestic consumption and savings, balance of trade movements, namely export demand and movements in key imports (oil and oil products), global economic uncertainty and liquidity crisis, volatility in exchange currency rates.

The Indian financial market and the Indian economy are influenced by economic and market conditions in other countries, particularly in emerging market in Asian countries. Financial turmoil in Asia, Europe, the U.S. and elsewhere in the world in recent years has affected the Indian economy. Although economic conditions are different in each country, investors’ reactions to developments in one country can have adverse effects on the securities of companies in other countries, including India. A loss in investor confidence in the financial systems of other emerging markets may cause increased volatility in Indian financial markets and, indirectly, in the Indian economy in general. Any worldwide financial instability, including the financial crisis and fluctuations in the stock markets in China and further deterioration of credit conditions in the U.S. or European markets, could also have a negative impact on the Indian economy. Financial disruptions may occur again and could harm our business and financial results.

43. ***Changing laws, rules and regulations and legal uncertainties in India, including adverse application of corporate and tax laws, may adversely affect our business and financial results.***

Our business and financial performance could be adversely affected by any change in laws or interpretations of existing laws, or the promulgation of new laws, rules and regulations applicable to us and our business including those relating to the industry in which we operate. There can be no assurance that the Government of India or state governments will not introduce new laws, regulations and policies which will require us to obtain additional approvals and licenses or impose onerous requirements on our business.

For example, the new Companies Act, 2013 contains significant changes to Indian company law, including in relation to the issue of capital by companies, disclosures in offer documents, related party transactions, corporate governance, audit matters, internal controls, shareholder class actions, restrictions on the number of layers of subsidiaries, prohibitions on loans to directors, insider trading and restrictions on directors and key management personnel from engaging in forward dealing. Moreover, effective April 1, 2014, companies exceeding certain net worth, revenue or profit thresholds are required to spend at least 2% of average net profits from the immediately preceding three financial years on corporate social responsibility projects, failing which an explanation is required to be provided in such companies' annual reports. Additionally, the Government of India has implemented a comprehensive national goods and services tax ("GST") regime that combine taxes and levies by the Central and State Governments into a unified rate structure. Further, any disagreements between certain state governments may also create further uncertainty towards the implementation of the GST. Any such future increases or amendments may affect the overall tax efficiency of companies operating in India and may result in significant additional taxes becoming payable.

Further, the Government of India has proposed, the General Anti Avoidance Rules ("GAAR"). The tax consequences of the GAAR provisions being applied to an arrangement could result in denial of tax benefit amongst other consequences. In the absence of any precedents on the subject, the application of these provisions is uncertain. If the GAAR provisions are made applicable to our Company, it may have an adverse tax impact on us.

The impact of any changes to Indian legislation on our business cannot be fully determined at this time. Additionally, our business and financial performance could be adversely affected by unfavourable changes in or interpretations of existing, or the promulgation of new, laws, rules and regulations applicable to us and our business. Such unfavourable changes could decrease demand for our services and products, increase costs and/or subject us to additional liabilities. Any such changes could have an adverse effect on our business and financial results.

44. ***There is uncertainty on the impact of currency demonetization in India on our business.***

The Reserve Bank of India, or RBI, and the Ministry of Finance of the GoI withdrew the legal tender status of Rs.500 and Rs. 1,000 currency notes pursuant to notification dated November 8, 2016. The short-term impact of these developments has been, among other things, a decrease in liquidity of cash in India. There is uncertainty on the long-term impact of this action. The RBI has also established, and continues to refine, a process for holders of affected banknotes to tender such notes for equivalent value credited into the holders' bank accounts. The short and long-term effects of demonetization on the Indian economy and our business are uncertain and we cannot accurately predict its effect on our business, results of operations and financial condition.

Risks Related to the Issue

45. ***Any future issuance of Equity Shares, or convertible securities or other equity linked securities by us and any sale of Equity Shares by our significant shareholders may dilute your shareholding and adversely affect the trading price of the Equity Shares.***

Any future issuance of the Equity Shares, convertible securities or securities linked to the Equity Shares by us may dilute your shareholding in the Company, adversely affect the trading price of the Equity Shares and our ability to raise capital through an issue of our securities. In addition, any perception by investors that such issuances or sales might occur could also affect the trading price of the Equity Shares. No assurance may be given that we will not issue additional Equity Shares. The disposal of Equity Shares by any of our significant shareholders, or the perception that such sales may occur may significantly affect the trading price of the Equity Shares. We cannot assure you that we will not issue Equity Shares or that such shareholders will not dispose of, pledge or encumber their Equity Shares in the future.

46. ***You may be subject to Indian taxes arising out of capital gains on the sale of the Equity Shares.***

Under current Indian tax laws, unless specifically exempted, capital gains arising from the sale of Equity Shares in an Indian company are generally taxable in India. Any gain realized on the sale of listed equity shares on a stock exchange held for more than 12 months will not be subject to capital gains tax in India if Securities Transaction Tax (“STT”) has been paid on the transaction. STT will be levied on and collected by a domestic stock exchange on which the Equity Shares are sold. Any gain realized on the sale of equity shares held for more than 12 months, which are sold other than on a recognized stock exchange and on which no STT has been paid to an Indian resident, will be subject to long term capital gains tax in India. Further, any gain realized on the sale of listed equity shares held for a period of 12 months or less will be subject to short term capital gains tax in India. Capital gains arising from the sale of the Equity Shares will be exempt from taxation in India in cases where the exemption from taxation in India is provided under a treaty between India and the country of which the seller is resident. Generally, Indian tax treaties do not limit India’s ability to impose tax on capital gains. As a result, residents of other countries may be liable for tax in India as well as in their own jurisdiction on a gain upon the sale of the Equity Shares.

47. ***Rights of shareholders under Indian laws may be more limited than under the laws of other jurisdictions.***

Indian legal principles related to corporate procedures, directors’ fiduciary duties and liabilities, and shareholders’ rights may differ from those that would apply to a company in another jurisdiction. Shareholders’ rights including in relation to class actions, under Indian law may not be as extensive as shareholders’ rights under the laws of other countries or jurisdictions. Investors may have more difficulty in asserting their rights as shareholder in an Indian company than as shareholder of a corporation in another jurisdiction.

SECTION III – INTRODUCTION SUMMARY OF INDUSTRY

The information in this section is derived from various publicly available sources, government publications and other industry sources. Neither we nor any other person connected with the Issue has independently verified this information. Industry sources and publications generally state that the information contained therein has been obtained from sources generally believed to be reliable, but that their accuracy, completeness and underlying assumptions are not guaranteed and their reliability cannot be assured. Accordingly, investment decisions should not be based on such information. Unless otherwise specified, references to years are to calendar years in this section.

Indian Economy

India has the fourth largest economy in the world by purchasing power parity. Against a background of global instability, India registered a growth of 7.6% during the financial year 2016, becoming the fastest growing major economy in the world. During the same period, macroeconomic parameters such as inflation, fiscal deficit and current account balance all exhibited signs of improvement. The financial year 2016 has also witnessed the launch of several government programs and initiatives designed to boost manufacturing, industrial growth, foreign direct investment and ease of doing business. Financial, insurance, real estate and professional services are estimated to have achieved double-digit growth for the financial year 2016. The industrial sector, broadly comprising mining, manufacturing, electricity and construction is estimated to have grown to 7.3% of India's economy for the financial year 2016 from 5.9% for the financial year 2015.

Introduction

The Gems and Jewellery sector plays a significant role in the Indian economy, contributing around 6-7 per cent of the country's GDP. One of the fastest growing sectors, it is extremely export oriented and labour intensive.

Based on its potential for growth and value addition, the Government of India has declared the Gems and Jewellery sector as a focus area for export promotion. The Government has recently undertaken various measures to promote investments and to upgrade technology and skills to promote 'Brand India' in the international market.

India is deemed to be the hub of the global jewellery market because of its low costs and availability of high-skilled labour. India is the world's largest cutting and polishing centre for diamonds, with the cutting and polishing industry being well supported by government policies. Moreover, India exports 95 per cent of the world's diamonds, as per statistics from the Gems and Jewellery Export promotion Council (GJEPC). India's Gems and Jewellery sector has been contributing in a big way to the country's foreign exchange earnings (FEEs). The Government of India has viewed the sector as a thrust area for export promotion. The Indian government presently allows 100 per cent Foreign Direct Investment (FDI) in the sector through the automatic route.

Market size

The gems and jewellery market in India is home to more than 500,000 players, with the majority being small players.

India is one of the largest exporters of gems and jewellery and the industry is considered to play a vital role in the Indian economy as it contributes a major chunk to the total foreign reserves of the country. UAE, US, Russia, Singapore, Hong Kong, Latin America and China are the biggest importers of Indian jewellery. The demand for gold in India rose by 15 per cent year-on-year to reach 123.5 tonnes during January-March 2017, according to the World Gold Council (WGC). The Goods and Services Tax (GST) and monsoon will steer India's gold demand going forward.

The overall net exports of Gems & Jewellery during April 2017 stood at US\$ 3.2 billion, whereas exports of cut and polished diamonds stood at US\$ 1.75 billion. Exports of gold coins and medallions stood at US\$ 553.59 million and silver jewellery export stood at US\$ 768.92 million during April 2017.

Growth Drivers And Opportunities

Increasing middle class population is expected drive growth in the future:

- India's current middle class population stands at about 200-250 million and is expected to exceed 500 million by 2025.
- The increasing middle class population symbolises an increase in income of the population; and income is a major driver of demand for gold and jewellery in India.
- Income levels are the most significant long-term determinant of consumer gold demand: holding all else equal, a 1 per cent rise in income leads to a 1 percent rise in gold demand.
- As income rises, so does savings and Indians prefer buying gold with their savings as they consider gold as an important form of investment.
- Also, during festivals like Diwali and Dhanteras as well as during weddings and other significant celebrations, people in India tend to spend a major amount of money on gold and other jewellery, all of which are expected to drive demand of gold in the future.

High gold demand in India acts as a major driver for growth and opportunity:

- India has always been a major country with respect to gold demand.
- Gold accounts for a major part of India's total gems and jewellery imports.
- India's gold demand was the second highest in the world from 2012-2016.
- In 2010 and 2011, India's gold demand was the highest in the world.
- In 2016, India's gold demand stood at 666.1 tonnes; and 298.4 tonnes between January-June 2017.

Increasing FDI inflows into the sector:

- Cumulative Foreign Direct Investment (FDI) in diamond and gold ornaments in India FY08-17 rose at a compound annual growth rate (CAGR) of 21.43 %.
- Cumulative FDI between April 2000-June 2017 in the sector rose from US\$ 167.54 million as of March 2008 to 961.62 million as of June 2017.
- The Government of India has permitted 100 per cent FDI in the sector through the automatic route.

- The Indian Commodity Exchange (ICEX), backed by the Anil Ambani Group has launched the first ever futures contract for diamonds in the world, to create many new opportunities for diamond players.

Challenges faced by the Gems and Jewellery Sector

- Buyers do not have a bargaining power as the price of gold is market regulated and therefore it is fixed. Also, a price of other gems and stones is also fixed by the sellers and is usually similar across sellers.
- Competitive rivalry in this sector is very high as there are a large number of players with similar products and the customers do not have a switching cost.
- Competition Threats.
- Highly Regulated Sector.

Investments/Developments

The Gems and Jewellery sector is witnessing changes in consumer preferences due to adoption of western lifestyle. Consumers are demanding new designs and varieties in jewellery, and branded jewellers are able to fulfil their changing demands better than the local unorganised players. Moreover, increase in per capita income has led to an increase in sales of jewellery, as jewellery is a status symbol in India.

The cumulative Foreign Direct Investment (FDI) inflows in diamond and gold ornaments in the period April 2000 - March 2017 were US\$ 895.96 million, according to Department of Industrial Policy and Promotion (DIPP).

Some of the key investments in this industry are listed below.

- The International Institute of Diamond Grading & Research (IIDGR) has invested US\$ 5 million for expanding its synthetic diamond testing facility in Surat.
- Kalyan Jewellers plans to invest Rs 500 crore (US\$ 75 million) to add 15 new showrooms in 2017, to add to their on-going expansion in Northern and Eastern regions of India as well as expansion in West Asia.
- London's ultra-luxury jeweller for the super-rich, Faberge, owned by the world's top emeralds and rubies-miner Gemfields Plc., has decided to enter India; Delhi and Mumbai, India's economic hotspots will be Faberge's beachhead in the country, where the jeweller will sell its products by select trunk shows for the uber-rich.

Government Initiatives And Regulatory Framework:

The goods and services tax (GST) union

- The Goods and Services Tax (GST) which was rolled out in July 2017 was in favour of the gems and jewellery sector.
- The Government of India has levied 3 per cent Goods and Services Tax (GST) on gold, gold jewellery, silver jewellery and processed diamonds and 0.25 per cent on rough diamonds.

Union budget 2017-18

- In the Union Budget 2017-18, the Government of India, offered tax cuts for the middle class and other sections of society (5 per cent for the Rs 250,000-500,000 tax slab; which was 10 per cent initially). All these measures will drive consumption, which will be favourable to the gems and jewellery industry.

Corporate tax rate

- The Government of India's proposal to cut corporate tax rates to 25 per cent for micro, small and medium enterprises (MSMEs) having annual turnover up to Rs 50 crore (US\$ 7.5 million) will benefit a large number of gems and jewellery exporters from MSME category.

FDI policy

- The Government of India has permitted 100 per cent Foreign Direct Investment (FDI) in the sector under the automatic route.

Demonetisation

- The demonetisation move is encouraging people to use plastic money, debit/ credit cards for buying jewellery. This is good for the industry in the long run and will create more transparency.

Gold spot exchange

- The Government of India's announcement on establishing gold spot exchange could help in India's participation in determining gold price in the international markets.

Gold monetisation scheme

- Mr. Arun Jaitley, Minister of Finance, Government of India, launched the Gold Monetisation Scheme in November 2015. This scheme enables individuals, trusts and mutual funds to deposit gold with banks and earn interest on the same in return.
- The designated banks accept gold deposits under the Short Term (1-3 Years) Bank Deposit as well as Medium (5-7 years) and long (12-15 years) Term Government Deposit Schemes.

Sovereign gold bond scheme

- The Government of India launched the Sovereign Gold Bond Scheme. This scheme enables the Reserve Bank of India (RBI) to issue gold bonds denominated in grams of gold individuals in consultation with Ministry of Finance.
- This scheme provides an alternative to owning physical gold. It is aimed at keeping a check on imports of gold.

Jewellery park

- A jewellery park worth Rs. 50 crore (US\$ 7.8 million) is to be set up in Mumbai by the Government of India where local handmade workers and factories will be relocated to develop their trade, improve their work environment and standard of living. Jewellery

Common facility centres

- The Government of India has approved the setting up of four common facility centres (CFCs) in Ahmedabad, Amreli, Visanagar and Palanpur at a total cost of INR 16.15 crore (US\$ 2.52 million); of which the CFCs at Palanpur and Visanagar have already been inaugurated.
- These CFCs are expected to provide access to a common pool of state-of-the-art machinery and equipment at a cheaper rate to small and medium diamond manufacturers; and it will also be used for transfer of technology and re-skilling and training of existing artisans.
- A total of 200 small and medium manufacturers will receive access to the CFCs.

Road Ahead

In the coming years, growth in Gems and Jewellery sector would be largely contributed by the development of large retailers/brands. Established brands are guiding the organised market and are opening opportunities to grow. Increasing penetration of organised players provides variety in terms of products and designs. Also, the relaxation of restrictions of gold import is likely to provide a fillip to the industry. The improvement in availability along with the reintroduction of low cost gold metal loans and likely stabilisation of gold prices at lower levels is expected to drive volume growth for jewellers over short to medium term. The demand for jewellery is expected to be significantly supported by the recent positive developments in the industry.

Mr. Narendra Modi, Prime Minister of India, encouraged the diamond industry in Surat, Gujarat to come forward in making India number one in the gems and jewellery sector, by focusing on Design in India in addition to the Make in India campaign.

India has the fourth largest economy in the world by purchasing power parity. Against a background of global instability, India registered a growth of 7.6% during the financial year 2016, becoming the fastest growing major economy in the world. During the same period, macroeconomic parameters such as inflation, fiscal deficit and current account balance all exhibited signs of improvement. The financial year 2016 has also witnessed the launch of several government programs and initiatives designed to boost manufacturing, industrial growth, foreign direct investment and ease of doing business. Financial, insurance, real estate and professional services are estimated to have achieved double-digit growth for the financial year 2016. The industrial sector, broadly comprising mining, manufacturing, electricity and construction is estimated to have grown to 7.3% of India's economy for the financial year 2016 from 5.9% for the financial year 2015.

Introduction

The Gems and Jewellery sector plays a significant role in the Indian economy, contributing around 6-7 per cent of the country's GDP. One of the fastest growing sectors, it is extremely export oriented and labour intensive.

Based on its potential for growth and value addition, the Government of India has declared the Gems and Jewellery sector as a focus area for export promotion. The Government has recently undertaken various measures to promote investments and to upgrade technology and skills to promote 'Brand India' in the international market.

India is deemed to be the hub of the global jewellery market because of its low costs and availability of high-skilled labour. India is the world's largest cutting and polishing centre for diamonds, with the cutting and polishing industry being well supported by government policies. Moreover, India exports 95 per cent of the world's diamonds, as per statistics from the Gems and Jewellery Export promotion Council (GJEPC). India's Gems and Jewellery sector has been contributing in a big way to the country's foreign exchange earnings (FEEs). The Government of India has viewed the sector as a thrust area for export promotion. The Indian government presently allows 100 per cent Foreign Direct Investment (FDI) in the sector through the automatic route.

Market size

The gems and jewellery market in India is home to more than 500,000 players, with the majority being small players.

India is one of the largest exporters of gems and jewellery and the industry is considered to play a vital role in the Indian economy as it contributes a major chunk to the total foreign reserves of the country. UAE, US, Russia, Singapore, Hong Kong, Latin America and China are the biggest importers of Indian jewellery. The demand for gold in India rose by 15 per cent year-on-year to reach 123.5 tonnes during January-March 2017, according to the World Gold Council (WGC). The Goods and Services Tax (GST) and monsoon will steer India's gold demand going forward.

The overall net exports of Gems & Jewellery during April 2017 stood at US\$ 3.2 billion, whereas exports of cut and polished diamonds stood at US\$ 1.75 billion. Exports of gold coins and medallions stood at US\$ 553.59 million and silver jewellery export stood at US\$ 768.92 million during April 2017.

Growth Drivers And Opportunities

Increasing middle class population is expected drive growth in the future:

- India's current middle class population stands at about 200-250 million and is expected to exceed 500 million by 2025.
- The increasing middle class population symbolises an increase in income of the population; and income is a major driver of demand for gold and jewellery in India.
- Income levels are the most significant long-term determinant of consumer gold demand: holding all else equal, a 1 per cent rise in income leads to a 1 percent rise in gold demand.
- As income rises, so does savings and Indians prefer buying gold with their savings as they consider gold as an important form of investment.
- Also, during festivals like Diwali and Dhanteras as well as during weddings and other significant celebrations, people in India tend to spend a major amount of money on gold and other jewellery, all of which are expected to drive demand of gold in the future.

High gold demand in India acts as a major driver for growth and opportunity:

- India has always been a major country with respect to gold demand.
- Gold accounts for a major part of India's total gems and jewellery imports.
- India's gold demand was the second highest in the world from 2012-2016.
- In 2010 and 2011, India's gold demand was the highest in the world.
- In 2016, India's gold demand stood at 666.1 tonnes; and 298.4 tonnes between January-June 2017.

- The Government of India has permitted 100 per cent FDI in the sector through the automatic route.

- The Indian Commodity Exchange (ICEX), backed by the Anil Ambani Group has launched the first ever futures contract for diamonds in the world, to create many new opportunities for diamond players.

Challenges faced by the Gems and Jewellery Sector

- Buyers do not have a bargaining power as the price of gold is market regulated and therefore it is fixed. Also, prices of other gems and stones is also fixed by the sellers and is usually similar across sellers.
- Competitive rivalry in this sector is very high as there are a large number of players with similar products and the customers do not have a switching cost.
- Competition Threats.
- Highly Regulated Sector.

Investments/Developments

The Gems and Jewellery sector is witnessing changes in consumer preferences due to adoption of western lifestyle. Consumers are demanding new designs and varieties in jewellery, and branded jewellers are able to fulfil their changing demands better than the local unorganised players. Moreover, increase in per capita income has led to an increase in sales of jewellery, as jewellery is a status symbol in India.

The cumulative Foreign Direct Investment (FDI) inflows in diamond and gold ornaments in the period April 2000 - March 2017 were US\$ 895.96 million, according to Department of Industrial Policy and Promotion (DIPP).

Some of the key investments in this industry are listed below.

- The International Institute of Diamond Grading & Research (IIDGR) has invested US\$ 5 million for expanding its synthetic diamond testing facility in Surat.
- Kalyan Jewellers plans to invest Rs 500 crore (US\$ 75 million) to add 15 new showrooms in 2017, to add to their on-going expansion in Northern and Eastern regions of India as well as expansion in West Asia.
- London's ultra-luxury jeweller for the super-rich, Faberge, owned by the world's top emeralds and rubies-miner Gemfields Plc., has decided to enter India; Delhi and Mumbai, India's economic hotspots will be Faberge's beachhead in the country, where the jeweller will sell its products by select trunk shows for the uber-rich.

Government Initiatives And Regulatory Framework:

The goods and services tax (GST) union

- The Goods and Services Tax (GST) which was rolled out in July 2017 was in favour of the gems and jewellery sector.
- The Government of India has levied 3 per cent Goods and Services Tax (GST) on gold, gold jewellery, silver jewellery and processed diamonds and 0.25 per cent on rough diamonds.

Union budget 2017-18

- In the Union Budget 2017-18, the Government of India, offered tax cuts for the middle class and other sections of society (5 per cent for the Rs 250,000-500,000 tax slab; which was 10 per cent initially). All these measures will drive consumption, which will be favourable to the gems and jewellery industry.

Corporate tax rate

- The Government of India's proposal to cut corporate tax rates to 25 per cent for micro, small and medium enterprises (MSMEs) having annual turnover up to Rs 50 crore (US\$ 7.5 million) will benefit a large number of gems and jewellery exporters from MSME category.

FDI policy

- The Government of India has permitted 100 per cent Foreign Direct Investment (FDI) in the sector under the automatic route.

Demonetisation

- The demonetisation move is encouraging people to use plastic money, debit/ credit cards for buying jewellery. This is good for the industry in the long run and will create more transparency.

Jewellery park

- A jewellery park worth Rs. 50 crore (US\$ 7.8 million) is to be set up in Mumbai by the Government of India where local handmade workers and factories will be relocated to develop their trade, improve their work environment and standard of living. Jewellery

Common facility centres

- The Government of India has approved the setting up of four common facility centres (CFCs) in Ahmedabad, Amreli, Visanagar and Palanpur at a total cost of INR 16.15 crore (US\$ 2.52 million); of which the CFCs at Palanpur and Visanagar have already been inaugurated.
- These CFCs are expected to provide access to a common pool of state-of-the-art machinery and equipment at a cheaper rate to small and medium diamond manufacturers; and it will also be used for transfer of technology and re-skilling and training of existing artisans.
- A total of 200 small and medium manufacturers will receive access to the CFCs.

Road Ahead

In the coming years, growth in Gems and Jewellery sector would be largely contributed by the development of large retailers/brands. Established brands are guiding the organised market and are opening opportunities to grow. Increasing penetration of organised players provides variety in terms of products and designs. Also, the relaxation of restrictions of gold import is likely to provide a fillip to the industry. The improvement in availability along with the reintroduction of low cost gold metal loans and likely stabilisation of gold prices at lower levels is expected to drive volume growth for jewellers over short to medium term. The demand for jewellery is expected to be significantly supported by the recent positive developments in the industry.

Mr. Narendra Modi, Prime Minister of India, encouraged the diamond industry in Surat, Gujarat to come forward in making India number one in the gems and jewellery sector, by focusing on Design in India in addition to the Make in India campaign.

The Government has from time to time made policy pronouncements on FDI through press notes and press releases. The DIPP, issued the consolidated FDI Policy circular of 2017 (“**FDI Policy**”), which with effect from August 28, 2017, consolidates and supersedes all previous press notes, press releases and clarifications on FDI issued by the DIPP that were in force and effect as on August 28, 2017. The Government proposes to update the consolidated circular on FDI Policy once every year and therefore, FDI Policy will be valid until the DIPP issues an updated circular.

The transfer of shares between an Indian resident and a non-resident does not require the prior approval of the FIPB or the RBI, provided that (i) the activities of the investee company are under the automatic route under the foreign direct investment (“**FDI**”) Policy and transfer does not attract the provisions of the Takeover Regulations; (ii) the non-resident shareholding is within the sectoral limits under the FDI policy; and (iii) the pricing is in accordance with the guidelines prescribed by SEBI and RBI.

As per the existing policy of the Government of India, OCBs cannot participate in the Issue.
