PRESENTATION OF FINANCIAL, INDUSTRY AND MARKET DATA

All references to “India” are to the Republic of India and all references to the “Government” are to the Government of India.

FINANCIAL DATA

Unless stated otherwise, the financial data included in this Draft Red Herring Prospectus are extracted from the restated financial statements of our Company, prepared in accordance with the applicable provisions of the Companies Act, Indian GAAP and restated in accordance with SEBI (ICDR) Regulations, as stated in the report of our Peer Reviewed Auditor, set out in the section titled “*Financial Statements as Restated*” beginning on page 172 this Draft Red Herring Prospectus. Our restated financial statements are derived from our audited financial statements prepared in accordance with Indian GAAP and the Companies Act, and have been restated in accordance with the SEBI (ICDR) Regulations.

Our fiscal year commences on April 1st of each year and ends on March 31st of the next year. All references to a particular fiscal year are to the 12 month period ended March 31st of that year. In this Draft Red Herring Prospectus, any discrepancies in any table between the total and the sums of the amounts listed are due to rounding-off. All decimals have been rounded off to two decimal points.

There are significant differences between Indian GAAP, IFRS and US GAAP. The Company has not attempted to quantify their impact on the financial data included herein and urges you to consult your own advisors regarding such differences and their impact on the Company’s financial data. Accordingly to what extent, the financial statements included in this Draft Red Herring Prospectus will provide meaningful information is entirely dependent on the reader’s level of familiarity with Indian accounting practices / Indian GAAP. Any reliance by persons not familiar with Indian Accounting Practices on the financial disclosures presented in this Draft Red Herring Prospectus should accordingly be limited.

Any percentage amounts, as set forth in “*Risk Factors*”, “*Our Business*”, “*Management’s Discussion and Analysis of Financial Condition and Results of Operations*” and elsewhere in this Draft Red Herring Prospectus unless otherwise indicated, have been calculated on the basis of the Company’s restated financial statements prepared in accordance with the applicable provisions of the Companies Act, Indian GAAP and restated in accordance with SEBI (ICDR) Regulations, as stated in the report of our Peer Reviewed Auditor, set out in the section titled “*Financial Statements as Restated*” beginning on page 172 of this Draft Red Herring Prospectus.

CURRENCY OF PRESENTATION

In this Draft Red Herring Prospectus, references to “Rupees” or “Rs.” or “INR” are to Indian Rupees, the official currency of the Republic of India. All references to “\$”, “US\$”, “USD”, “U.S. \$” or “U.S. Dollars” are to United States Dollars, the official currency of the United States of America.

All references to ‘million’ / ‘Million’ / ‘Mn’ refer to one million, which is equivalent to ‘ten lacs’ or ‘ten lakhs’, the word ‘Lacs / Lakhs / Lac’ means ‘one hundred thousand’ and ‘Crore’ means ‘ten million’ and ‘billion / bn./ Billions’ means ‘one hundred crores’.

INDUSTRY AND MARKET DATA

Unless stated otherwise, Industry and Market data and various forecasts used throughout this Draft Red Herring Prospectus have been obtained from publically available information, Industry Sources and Government Publications.

Industry Sources as well as Government Publications generally state that the information contained in those publications has been obtained from sources believed to be reliable but their accuracy and completeness and underlying assumptions are not guaranteed and their reliability cannot be assured.

Although we believe that industry data used in this Draft Red Herring Prospectus is reliable, it has not been independently verified by the Book Running Lead Manager or our Company or any of their affiliates or advisors. Such data involves risks, uncertainties and numerous assumptions and is subject to change based on various factors, including those discussed in the section titled “*Risk Factors*” beginning on page 18 of this

Draft Red Herring Prospectus. Accordingly, investment decisions should not be based solely on such information.

Further, the extent to which the industry and market data presented in this Draft Red Herring Prospectus is meaningful depends on the reader's familiarity with and understanding of the methodologies used in compiling such data. There are no standard data gathering methodologies in the industry in which we conduct our business, and methodologies and assumptions may vary widely among different industry sources.

FORWARD LOOKING STATEMENT

This Draft Red Herring Prospectus contains certain “forward-looking statements”. These forward looking statements can generally be identified by words or phrases such as “aim”, “anticipate”, “believe”, “expect”, “estimate”, “intend”, “objective”, “plan”, “project”, “shall”, “will”, “will continue”, “will pursue” or other words or phrases of similar meaning. Similarly, statements that describe our strategies, objectives, plans or goals are also forward-looking statements. All forward looking statements are subject to risks, uncertainties and assumptions about us that could cause actual results and property valuations to differ materially from those contemplated by the relevant forward looking statement.

Important factors that could cause actual results to differ materially from our expectations include, but are not limited to the following:-

- General economic and business conditions in the markets in which we operate and in the local, regional, national and international economies;
- Changes in laws and regulations relating to the sectors/areas in which we operate;
- Increased competition in the Industry which we operate;
- Factors affecting the Industry in which we operate;
- Our ability to meet our capital expenditure requirements;
- Fluctuations in operating costs;
- Our ability to attract and retain qualified personnel;
- Changes in political and social conditions in India, the monetary and interest rate policies of India and other countries;
- Inflation, deflation, unanticipated turbulence in interest rates, equity prices or other rates or prices;
- The performance of the financial markets in India and globally;
- Any adverse outcome in the legal proceedings in which we are involved;
- Our failure to keep pace with rapid changes in technology;
- The occurrence of natural disasters or calamities;
- Other factors beyond our control;
- Our ability to manage risks that arise from these factors;
- Conflict of Interest with affiliated companies, the promoter group and other related parties; and
- Changes in government policies and regulatory actions that apply to or affect our business.

For a further discussion of factors that could cause our actual results to differ, refer to section titled “*Risk Factors*” and chapter titled “*Management’s Discussion and Analysis of Financial Condition and Results of Operations*” beginning on pages 18 and 173 respectively of this Draft Red Herring Prospectus. By their nature, certain market risk disclosures are only estimates and could be materially different from what actually occurs in the future. As a result, actual future gains or losses could materially differ from those that have been estimated.

Future looking statements speak only as of the date of this Draft Red Herring Prospectus. Neither we, our Directors, Book Running Lead Manager, Underwriter nor any of their respective affiliates have any obligation to update or otherwise revise any statements reflecting circumstances arising after the date hereof or to reflect the occurrence of underlying events, even if the underlying assumptions do not come to fruition. In accordance with SEBI requirements, the BRLM and our Company will ensure that investors in India are informed of material developments until the grant of listing and trading permission by the Stock Exchange.

SECTION II- RISK FACTOR

An investment in Equity Shares involves a high degree of risk. You should carefully consider all the information in this Draft Red Herring Prospectus, including the risks and uncertainties described below, before making an investment in our Equity Shares. In making an investment decision, prospective investors must rely on their own examination of our Company and the terms of this offer including the merits and risks involved. Any potential investor in, and subscriber of, the Equity Shares should also pay particular attention to the fact that we are governed in India by a legal and regulatory environment in which some material respects may be different from that which prevails in other countries. The risks and uncertainties described in this section are not the only risks and uncertainties we currently face. Additional risks and uncertainties not known to us or that we currently deem immaterial may also have an adverse effect on our business. If any of the following risks, or other risks that are not currently known or are now deemed immaterial, actually occur, our business, results of operations and financial condition could suffer, the price of our Equity Shares could decline, and you may lose all or part of your investment. Additionally, our business operations could also be affected by additional factors that are not presently known to us or that we currently consider as immaterial to our operations.

Unless otherwise stated in the relevant risk factors set forth below, we are not in a position to specify or quantify the financial or other implications of any of the risks mentioned herein. Unless otherwise stated, the financial information of our Company used in this section is derived from our restated financial statements prepared in accordance with Indian GAAP and the Companies Act and restated in accordance with the SEBI ICDR Regulations. To obtain a better understanding, you should read this section in conjunction with the chapters titled “Our Business” beginning on page 123, “Our Industry” beginning on page 100 and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” beginning on page 173 respectively, of this Draft Red Herring Prospectus as well as other financial information contained herein.

The following factors have been considered for determining the materiality of Risk Factors:

- Some events may not be material individually but may be found material collectively;*
- Some events may have material impact qualitatively instead of quantitatively;*
- Some events may not be material at present but may have material impact in future.*

The financial and other related implications of risks concerned, wherever quantifiable, have been disclosed in the risk factors mentioned below. However, there are risk factors where the impact may not be quantifiable and hence the same has not been disclosed in such risk factors. Unless otherwise stated, the financial information of the Company used in this section is derived from our financial statements under Indian GAAP, as restated in this Draft Red Herring Prospectus. Unless otherwise stated, we are not in a position to specify or quantify the financial or other risks mentioned herein. For capitalized terms used but not defined in this chapter, refer to the chapter titled “Definitions and Abbreviation” beginning on page 03 of this Draft Red Herring Prospectus. The numbering of the risk factors has been done to facilitate ease of reading and reference and does not in any manner indicate the importance of one risk factor over another.

The risk factors are classified as under for the sake of better clarity and increased understanding:

INTERNAL RISK FACTORS:

BUSINESS SPECIFIC RISKS

1. Currently our Company, Promoter and Director is also involved in certain tax related proceedings; any adverse decision in such proceedings may render us liable to liabilities and penalties and may adversely affect our business and results of operations.

Also, there is no assurance that in future, we, our promoters, our directors or group companies may not face legal proceedings; any adverse decision in such legal proceedings may impact our business. For further details in relation to legal proceedings involving our Company, Promoters, Directors, Group Company and Subsidiaries see the chapter titled “Outstanding Litigation and Material Developments” on page 187 of this Draft Prospectus.

2. ***Our business is dependant on the availability/supply and cost of raw materials i.e Cotton Seeds . Any significant increase in the prices or decrease in the availability of these raw materials may adversely affect our results of operations.***

Our main raw material is Cotton Seeds, and it forms a significant portion of our total expenses. As on date we do not have any long term tie up or agreements for supply of this raw material. Any decrease in the availability of this raw material for whatever reason, including climatic change, could adversely affect our sales and profitability. Further, any price volatility of this raw material and our inability to adjust to the same could adversely affect our results of operations and profitability.

3. ***Our business is not seasonal in nature, but the availability of raw material is seasonal in nature and hence we require substantial working capital.***

The business in which our Company is engaged in not seasonal, however, the availability raw materials are seasonal in nature. Our Company has made adequate arrangement for warehousing to store raw material. The warehousing of raw material to counter its non availability during off season requires substantial investment of our working capital in the inventories.

4. ***We derive a significant portion of our revenue from our animal feed business and any reduction in demand or in the production of such products could have an adverse effect on our business, results of operations and financial condition.***

We derive a significant portion of our revenue from our animal feed business, which primarily comprises the sale of cotton seed de-oil cake, cotton seed husk/hulls, cotton seeds oil cake and Ground nuts oil cake. For the financial years 2017, 2016 and 2015, our revenue from our animal feed business was Rs. 7580.05 Lakhs, Rs. 2,286.13 and Rs. 1,224.5 lakhs i.e 48.11%, 12.49% and 7.02% respectively of our revenue from operations. Consequently, any reduction in demand or a temporary or permanent discontinuation of processing of such products could have an adverse effect on our business, results of operations and financial condition

5. ***We primarily source our raw material from ginning mills and traders network and we have not entered into formalized agreements with them. Any disruption in the supply chain might affect our production processes and consequently our results of operations***

We procure our raw materials from ginning mills and traders network. While we have long term relationships with many of them, we have not entered into any supply contracts with such parties to ensure regular and timely supplies of raw material. In the event our suppliers default in the supply of the raw material required by us, we may have limited legal recourse against them or we shall not be in a position to demand specific performance. We are unable to assure you, in case of such an event, we shall be able to identify alternative source of supply in time. Such disruption in the supply chain would delay our production process and consequently, our results of operations.

6. ***Our Company's inability to maintain distribution network can adversely affect our revenues.***

We sell our products with the help of distribution network of various dealers/retailers/distributors. The distribution network sells our products to end users. Our inability to maintain our existing distribution network or to expand it further, can adversely affect our growth and revenues. In case, if we are not able to market our manufactured products, it may affect our operations and profitability adversely.

7. ***Our Company do not have any long-term contracts with our customers which may adversely affect our results of operations.***

Our Company neither have any long-term contract with any of our buyers/distributors nor any marketing tie up for our products with any of retail chain operators etc. Any change in the buying pattern of our end users

can adversely affect the business of our Company. Our inability to sell our existing products may adversely affect our business and profitability in future.

8. Our Company's failure to maintain the quality standards of the products could adversely impact our business, results of operations and financial condition.

Any failure to maintain the quality standards may affect our business. Although we have put in place strict quality control procedures, we cannot assure that our products will always be able to satisfy quality standards. Any negative publicity regarding our Company, or products, including those arising from any deterioration in quality of our products from our vendors, or any other unforeseen events could adversely affect our reputation, our operations and our results from operations. Introduction of new products or for any other reason and failure on our part to meet their expectation could adversely affect our business, result of operations and financial condition. While, we believe that we have always introduced new products to cater to the growing demand of our customers and also endeavour regularly to update our products, our failure to anticipate or to respond adequately to changing market demands and/or consumer requirements could adversely affect our business and financial results.

9. Our Company requires significant amounts of working capital for a continued growth. Our inability to meet our working capital requirements may have an adverse effect on our results of operations.

Our business is working capital intensive. A significant portion of our working capital is utilized towards trade receivables and inventories. Summary of our working capital position is given below:-

---	---------------	---------------	---------------	---------------	---------------	---------------

We usually supply products on credit to our clients. Our working capital requirement may increase if our credit period is increased or raw material prices are increased etc. All these factors may result in increase in the quantum of current assets particularly inventories and trade receivables.

In the event, we are required to repay any working capital facilities upon receipt of a demand from any lender; we may be unable to satisfy our working capital requirements. Further, our inability to maintain sufficient cash flow, credit facility and other sources of fund, in a timely manner, or at all, to meet the requirement of working capital or pay out debts, could adversely affect our financial condition and result of our operations. For further details regarding working capital requirement, please refer to the chapter titled “*Objects of the Issue*” beginning on page 89 of this Draft Red Herring Prospectus.

10. Ours is a high volume-low margin business

Ours is a high volume low margin business. Our inability to regularly grow our turnover and effectively execute our key business processes could lead to lower profitability and hence adversely affect our operating results, debt service capabilities and financial conditions. Due to the nature of the products we sell, we may not be able to charge higher margins on our products. Hence, our business model is heavily reliant on our ability to effectively grow our turnover and manage our key processes including but not limited to procurement of raw material/ traded goods, timely sales / order execution and continuous cost control of non core activities.

For the financial year 2016-17, 2015-16, 2014-15; our total revenue was Rs. 15,780.08 lakhs, Rs. 18,357.51 lakhs and Rs.17,466.60 lakhs respectively. Our profit before tax Margin and profit after tax margin was lower than or around 1% for each period.

The table below gives details of our operating margins and net profit margin based on restated financials

Particulars	September 30, 2017	2017	2016	2015	2014	2013
Total Income (Rs in lakhs)	4871.59	15780.08	18357.51	17466.60	15754.09	11612.63

PAT Margins (%)	0.80%	0.42%	0.28%	0.78%	0.82%	-0.54%

As part of our growth strategy, we aim to improve our functional efficiency and expand our business operations. Our growth strategy is subject to and involves risks and difficulties, many of which are beyond our control and, accordingly, there can be no assurance that we will be able to implement our strategy or growth plans, or complete them within the timelines. Further, we operate in a dynamic industry, and on account of changes in market conditions, industry dynamics, technological improvements or changes and any other relevant factors, our growth strategy and plans may undergo changes or modifications, and such changes or modifications may be substantial, and may even include limiting or foregoing growth opportunities if the situation so demands.

For further details regarding the discussions and explanations for our past results, please refer to the chapter titled “*Management’s Discussions and Analysis of Financial Condition and Results of Operations*” beginning on page 173 of this Draft Red Herring Prospectus.

11. We have filed form for change in name of our company from Shree Ram Protiens Limited to Shree Ram Proteins Limited with Registrar of Companies (ROC) and the approval for the same is awaited from ROC

There is a spelling error of the word “proteins” in the name of our company in the Certificate of Incorporation dated August 29, 2018 issued by Registrar of Companies Gujarat, Dadra and Nagar Havelli at the time of incorporation. Our company has filed e-form INC 1 with ROC for the confirming the availability of name “Shree Ram Proteins Limited”; thereby reflecting the correct spelling of the word “proteins”. The above

mentioned form has been approved by the ROC vide communication dated November 10, 2017. However the approval for the eform MGT-14 is awaited from the ROC. In case we fail to receive the said approval we won't be able to use the name i.e. "Shree Ram Proteins Limited" as confirmed by ROC in form INC- 1. Further necessary Government approval is also required to be obtained in the new name of the Company and our inability to do so may affect our business and operations.

12. *Our Company faces stiff competition in our business from organized and unorganized players, which may adversely affect our business operation and financial condition.*

Most of the end-users are price conscious. Pricing is one of the factors that play an important role in selection of our products. The market for our products is highly competitive on account of both the organized and unorganized players. Some of our competitors may have longer industry experience and greater financial, technical and other resources, which may enable them to react faster in changing market scenario and remain competitive. Growing competition may result in a decline in our market share and may affect our margins.

13. *The shortage or non-availability of power and fuel may adversely affect the manufacturing processes and our performance may be affected adversely.*

The manufacturing processes of our Company require substantial amount of power and fuel. Our manufacturing facilities may face power interruptions due to power cuts and as a result our operations or financial condition may be adversely affected. The shortage of electricity supply may increase our dependency on the usage of generator sets. The same can increase our cost of power and may have an adverse impact on our profitability.

14. *Technological obsolescence may result in our operation as unviable or may require capital investments which may have an adverse effect on our performance.*

Any changes in technology may render our existing Plant & Machineries obsolete or we may have to incur substantial capital investment to upgrade our Plant & Machineries, which may adversely affect the performance of our Company.

15. *We may not be sufficiently protected or insured for certain losses that we may incur or claims that we may face against us.*

Although we attempt to limit and mitigate our liability for damages arising from negligent acts, errors or omissions through insurance policies, the limitations of liability set forth in our insurance policies may not be enforceable in all instances or may not protect us from liability for damages. These may lead to financial liability and other adverse consequences for us. Further, even where we have availed of insurance cover, we may not be able to successfully assert our claims for any liability or loss under such insurance policies. This may have a material adverse effect on our business, financial condition and results of operation.

16. *We have limited production capabilities. As a result, we might be unable to market our products in an aggressive fashion.*

We have production facilities at Gujarat only, though currently our products are being sold in Haryana, Karnataka, Maharashtra, Punjab, Rajasthan, Uttarakhand, Andhra Pradesh and Madhya Pradesh, we might have to face stiff competition and might not be able to market our products in an aggressive fashion for various reasons, which might effect our results of operations and might impede our growth prospects.

17. *Our industry is labour intensive and our business operations may be materially adversely affected by strikes, work stoppages or increased wage demands by our employees or those of our suppliers.*

Our industry being labour intensive is highly dependent on labour force for carrying out its manufacturing operations. Shortage of skilled/unskilled personnel or work stoppages caused by disagreements with employees could have an adverse effect on our business and results of operations. We have not experienced any major disruptions in our business operations due to disputes or other problems with our work force in the past; however there can be no assurance that we will not experience such disruptions in the future. Such disruptions may adversely affect our business and results of operations and may also divert the management's attention and result in increased costs.

India has stringent labour legislation that protects the interests of workers, including legislation that sets forth detailed procedures for the establishment of unions, dispute resolution and employee removal and legislation that imposes certain financial obligations on employers upon retrenchment. We are also subject to laws and regulations governing relationships with employees, in such areas as minimum wage and maximum working hours, overtime, working conditions, hiring and terminating of employees and work permits. Although our employees are not currently unionized, there can be no assurance that they will not unionize in the future. If our employees unionize, it may become difficult for us to maintain flexible labour policies, and we may face the threat of labour unrest, work stoppages and diversion of our management's attention due to union intervention, which may have a material adverse impact on our business, results of operations and financial condition.

Further due to increased competition for skilled employees in India over the last few years, we may need to increase our levels of employee compensation rapidly to remain competitive in attracting the best possible talent which may result in increased costs and affect our profitability.

18. *Our Company has made non compliances and lapsed/made delay in certain filings under various Statutory Acts applicable to it in the past years.*

Our Company has in past contravened provisions of the Companies Act, 2013. Further, our Company has also lapsed/ made delay in certain filings under various Statutory Acts applicable to it in the past years. Due to these delays in filings, our Company had on several occasions paid the requisite late fees. Although they have not been furnished with any notices by the RoC/any other statutory authority with respect to this non-compliance, such non-compliance may in the future render us liable to statutory penalties and could have serious consequences on our operations. While this could be attributed to technical lapses and human errors, our Company has now appointed a whole time Company Secretary to set up a system to ensure that requisite filings are done within the applicable timelines.

19. *We generally do business with our customers on purchase order basis and do not enter into long term contracts with most of them.*

Our business is dependent on our continuing relationships with our customers. Our Company neither has any long-term contract with any of customers. Any change in the buying pattern of our end users or disassociation of major customers can adversely affect the business of our Company. The loss of or interruption of work by, a significant customer or a number of significant customers or the inability to procure new orders on a regular basis or at all may have an adverse effect on our revenues, cash flows and operations.

20. *Certain agreements may be inadequately stamped or may not have been registered as a result of which our operations may be impaired.*

Few of our agreements may not be stamped adequately or registered. The effect of inadequate stamping is that the document is not admissible as evidence in legal proceedings and parties to that agreement may not be able to legally enforce the same, except after paying a penalty for inadequate stamping. The effect of non-registration, in certain cases, is to make the document inadmissible in legal proceedings. Any potential dispute due to inadequate stamping may adversely affect our operations.

21. *Our company is highly dependent on third party logistics services for the delivery of our raw materials/ finished products and any disruption in their operations or a decrease in the quality of their services could affect our Company's reputation and results of operations*

Our Company uses third party transportation providers for delivery of our raw materials and finished products. Though our business has not experienced any disruptions due to transportation strikes in the past, any future transportation strikes may have an adverse effect on our business. These transportation facilities may not be adequate to support our existing and future operations. In addition raw materials/ finished products may be lost or damaged in transit for various reasons including occurrence of accidents or natural disasters. There may also be delay in delivery of products which may also affect our business and results of operation negatively. An increase in the freight costs or unavailability of freight for transportation of our raw materials may have an adverse effect on our business and results of operations.

Further, disruptions of transportation services due to weather-related problems, strikes, lock-outs, inadequacies in the road infrastructure and port facilities, or other events could impair ability to procure raw materials or deliver finished goods on time. Any such disruptions could materially and adversely affect our business, financial condition and results of operations.

22. We require a number of approvals, NOCs, licences, registrations and permits in the ordinary course of our business. Some of the approvals are required to be transferred in the name of “Shree Ram Proteins Limited” from “Shree Ram Proteins Private Limited” pursuant to name change of our company and any failure or delay in obtaining the same in a timely manner may adversely affect our operations.

We require a number of approvals, licenses, registrations and permits in ordinary course of our business. Additionally, we need to apply for renewal of approvals which expire, from time to time, as and when required in the ordinary course. Also, we were a private limited company in the name of “**Shree Ram Proteins Private Limited**” which was carrying business of of cotton seeds solvent extraction plant as well dealing in cotton seeds, cotton seeds, oil cake, cotton processing, linter, de linter and import and export of the same. As per Companies Act, 1956/2013, a private limited company can be converted into public limited company. After complying with the relevant procedure of Companies Act, 1956/2013, the said private limited company was converted into a public limited company in the year 2017. After conversion there was change of name of the company from “**Shree Ram Proteins Private Limited**” to “**Shree Ram Proteins Limited**”. We shall be taking necessary steps for transferring the approvals in new name of our company. In case we fail to transfer/obtain the same in name of the company same may adversely affect our business or we may not be able to carry our business

Approvals like TAN allotment letter, Employees’ Provident Fund Registration Certificate are currently not traceable by the company. The company has also applied for change of name of these approvals. In case of delay or failure to obtain the same, it could affect our business operations. Any failure to renew the approvals that have expired, or to apply for and obtain the required approvals, licences, registrations or permits, or any suspension or revocation of any of the approvals, licences, registrations and permits that have been or may be issued to us, could result in delaying the operations of our business, which may adversely affect our business, financial condition, results of operations and prospects. For more information, see chapter “Government and Other Statutory Approvals” on page 193 of this Draft Prospectus.

23. We depend on certain brand names and our corporate name and logo that we may not be able to protect and/or maintain.

Our ability to market and sell our products depends upon the recognition of our brand names and associated consumer goodwill. Currently, we do for our own nor our corporate name and logo under the Trade Marks Act, 1999. Consequently, we do not enjoy the statutory protections accorded to registered trademarks in India for the corporate name and logo of our company, which are currently pending. In the absence of such registrations, competitors and other companies may challenge the validity or scope of our intellectual property right over these brands or our corporate name or logo. As a result, we may be required to invest significant resources in developing new brands or names, which could materially and adversely affect our business, financial condition, results of operations and prospects.

In addition to same, our failure to comply with existing or increased regulations, or the introduction of changes to existing regulations, could adversely affect our business, financial condition, results of operations and prospects. We cannot assure you that the approvals, licences, registrations and permits issued to us would not be suspended or revoked in the event of non-compliance or alleged non-compliance with any terms or conditions thereof, or pursuant to any regulatory action.

The material approvals, licences or permits required for our business include trade licence, tax laws, environment laws and shops and establishment licences, as applicable. See “Government and other Statutory Approvals” on page 193 of this Draft Prospectus/Red Herring Prospectus for further details on the required material approvals for the operation of our business.

24. We may not be successful in implementing our business strategies.

The success of our business depends substantially on our ability to implement our business strategies effectively. Even though we have successfully executed our business strategies in the past, there is no guarantee that we can implement the same on time and within the estimated budget going forward, or that we will be able to meet the expectations of our targeted clients. Further, changes in regulations applicable to us may also make it difficult to implement our business strategies. Failure to implement our business strategies in time or at all would have a material adverse effect on our business and results of operations.

25. *Our trademark is not registered and as such we may not be able to effectively protect our intellectual property.*

We operate in an extremely competitive environment, where generating brand recognition is significant element of our business strategy. Currently our Logo is not registered with any certifying authority and therefore we do not enjoy the statutory protection accorded to a registered trademark and are subject to the various risks arising out of the same, including but not limited to infringement or passing off our name and logo by a third party. As our logo is not registered, we would not enjoy the statutory protections accorded to a registered trademark and our ability to use our logo may be impaired. For further details please refer to section titled “Government and Other Approvals” beginning on page 193 of this Draft Red Herring Prospectus.

26. *If we are unable to source business opportunities effectively, we may not achieve our financial objectives.*

Our ability to achieve our financial objectives will depend on our ability to identify, evaluate and accomplish business opportunities. To grow our business, we will need to hire, train, supervise and manage new employees and to implement systems capable of effectively accommodating our growth. However, we cannot assure you that any such employees will contribute to the success of our business or that we will implement such systems effectively. Our failure to source business opportunities effectively could have a material adverse effect on our business, financial condition and results of operations. It also is possible that the strategies used by us in the future may be different from those presently in use. No assurance can be given that our analyses of market and other data or the strategies we use or plans in future to use will be successful under various market conditions.

27. *Failure to manage our inventory could have an adverse effect on our net sales, profitability, cash flow and liquidity.*

The results of operations of our business are dependent on our ability to effectively manage our inventory and stocks. To effectively manage our inventory, we must be able to accurately estimate customer demand and supply requirements and manufacture new inventory accordingly. If our management has misjudged expected customer demand it could adversely impact the results by causing either a shortage of products or an accumulation of excess inventory. Further, if we fail to sell the inventory we manufacture, we may be required to write-down our inventory or pay our suppliers without new purchases or create additional vendor financing, which could have an adverse impact on our income and cash flows. Any increase in sales return beyond the standard levels, may also result in accumulation of inventories and consequently impact our cash flows.

28. *Our lenders have charge over our movable properties in respect of finance availed by us.*

We have secured our lenders by creating a charge over our movable properties in respect of loans / facilities availed by us from banks and financial institutions. The total amounts outstanding and payable by us as secured loans were Rs. 3100.00 lakhs as on September 30, 2017. In the event we default in repayment of the loans / facilities availed by us and any interest thereof, our properties may be forfeited by lenders, which in turn could have significant adverse affect on business, financial condition or results of operations. For further information on the “Financial Indebtedness” please refer page 184 of this Draft Red Herring Prospectus.

29. *Our Company has unsecured loans which are repayable on demand. Any demand from lenders for repayment of such unsecured loans, may adversely affect our cash flows.*

As at September 30, 2017 and March 31, 2017 our Company has unsecured loans amounting to Rs. 1,700.21 lakhs and Rs. 1,497.92 lakhs respectively from certain individuals and entities, including promoters and members of promoter group, that are repayable on demand to the relevant lenders. Such loans are not repayable in accordance with any agreed repayment schedule and may be recalled by the relevant lenders at any time. Any such unexpected demand or accelerated repayment may have a material adverse effect on the

business, cash flows and financial condition of the borrower against which repayment is sought. Any demand from lenders for repayment of such unsecured loans, may adversely affect our cash flows.

For further details of unsecured loans of our Company, please refer 'Annexure VII' 'Details of Long Term Borrowings as Restated' of chapter titled "*Financial Statements*" beginning on page 172 of this Draft Red Herring Prospectus.

30. *Our lenders have imposed certain restrictive conditions on us under our financing arrangements.*

We have entered into agreements for availing debt facilities from lenders. Certain covenants in these agreements require us to obtain approval/permission from our lenders in certain conditions. In the event of default or the breach of certain covenants, our lender has the option to make the entire outstanding amount payable immediately. Further certain agreements also impose financial and other restrictive covenants such as maintenance of financial ratios, submission of results, etc. There can be no assurance that we will be able to comply with the financial or other covenants or that we will be able to obtain the consents necessary to take the actions we believe are necessary to operate and grow our business. Our level of existing debt and any new debt that we incur in the future has important consequences. Any failure to comply with these requirements or other conditions or covenants under our financing agreements that is not waived by our lenders or is not otherwise cured by us, may require us to repay the borrowing in whole or part and may include other related costs. Our Company may be forced to sell some or all of its assets or limit our operations. This may adversely affect our ability to conduct our business and impair our future growth plans. Though these covenants are restrictive to some extent for us, however it ensures financial discipline, which would help us in the long run to improve our financial performance.

For further information, see the chapter titled "*Financial Indebtedness*" on page 184 of the Draft Red Herring Prospectus.

31. *Our insurance policies do not cover all risks, specifically risks like product defect/liability risk, loss of profits and terrorism. In the event of the occurrence of such events, our insurance coverage may not adequately protect us against possible risk of loss.*

Our Company has obtained insurance coverage in respect of certain risks. Our significant insurance policies consist of, among others, standard fire and special perils. While we believe that we maintain insurance coverage in adequate amounts consistent with size of our business, our insurance policies do not cover all risks, specifically risks like product defect/liability risk, loss of profits, losses due to terrorism, etc. There can be no assurance that our insurance policies will be adequate to cover the losses in respect of which the insurance has been availed. If we suffer a significant uninsured loss or if insurance claim in respect of the subject-matter of insurance is not accepted or any insured loss suffered by us significantly exceeds our insurance coverage, our business, financial condition and results of operations may be materially and adversely affected.

32. *Our success depends largely upon the services of our Promoters, Directors and other Key Managerial Personnel and our ability to attract and retain them. Demand for Key Managerial Personnel in the industry is intense and our inability to attract and retain Key Managerial Personnel may affect the operations of our Company.*

Over the years, our Directors and Key Managerial Personnel have built strong relations with clients, employees and other business associates. Our success is substantially dependent on the expertise and services of our Directors and our Key Managerial Personnel. They provide expertise which enables us to make well informed decisions in relation to our business and our future prospects. Our future performance will depend upon the continued services of these persons. We cannot assure you that we will be able to retain any or all, or that our succession planning will help to replace, the key members of our management. The loss of the services of such key members of our management team and the failure of any succession plans to replace such key members could have an adverse effect on our business and the results of our operations.

33. *In addition to normal remuneration or benefits and reimbursement of expenses, some of our Directors and key managerial personnel are interested in our Company to the extent of their shareholding and dividend entitlement in our Company*

Our Directors and Key Managerial Personnel are interested in our Company to the extent of remuneration paid to them for services rendered and reimbursement of expenses payable to them. In addition, some of our Directors and Key Managerial Personnel may also be interested to the extent of their shareholding, loan given by them and dividend entitlement in our Company. For further information, see “Capital Structure” and “Our Management” on pages 74 and 149, respectively, of this Draft Red Herring Prospectus.

34. *Our ability to pay dividends will depend upon future earnings, financial condition, cash flows, working capital requirements, capital expenditures and other factors.*

We may retain all our future earnings, if any, for use in the operations and expansion of our business. As a result, we may not declare dividends in the foreseeable future. Any future determination as to the declaration and payment of dividends will be at the discretion of our Board of Directors and will depend on factors that our Board of Directors deem relevant, including among others, our results of operations, financial condition, cash requirements, business prospects and any other financing arrangements. Additionally, under some of our loan agreements, we may not be permitted to declare any dividends, if there is a default under such loan agreements or unless our Company has paid all the dues to the lender up to the date on which the dividend is declared or paid or has made satisfactory provisions thereof. Accordingly, realization of a gain on shareholders investments may largely depend upon the appreciation of the price of our Equity Shares. There can be no assurance that our Equity Shares will appreciate in value. For details of our dividend history, see “Dividend Policy” on page 171 of this Draft Red Herring Prospectus.

35. *Our future funds requirements, in the form of fresh issue of capital or securities and/or loans taken by us, may be prejudicial to the interest of the shareholders depending upon the terms on which they are eventually raised.*

We may require additional capital from time to time depending on our business needs. Any fresh issue of shares or convertible securities would dilute the shareholding of the existing shareholders and such issuance may be done on terms and conditions, which may not be favourable to the then existing shareholders. If such funds are raised in the form of loans or debt, then it may substantially increase our interest burden and decrease our cash flows, thus prejudicially affecting our profitability and ability to pay dividends to our shareholders.

36. *We have not entered into any technical support service for the maintenance and smooth functioning of our equipment's and machineries, which may affect our performance.*

Our manufacturing processes involve daily use of technical equipment's and machineries. They require periodic maintenance checks and technical support in an event of technical breakdown or malfunctioning. Our company has not entered into any technical support service agreements with any competent third party. Our failure to reduce the downtime in case such events occur may adversely affect our productivity, business and results of operations.

37. *We could be harmed by employee misconduct or errors that are difficult to detect and any such incidences could adversely affect our financial condition, results of operations and reputation*

Employee misconduct or errors could expose us to business risks or losses, including regulatory sanctions and serious harm to our reputation. There can be no assurance that we will be able to detect or deter such misconduct. Moreover, the precautions we take to prevent and detect such activity may not be effective in all cases. Our employees and agents may also commit errors that could subject us to claims and proceedings for alleged negligence, as well as regulatory actions on account of which our business, financial condition, results of operations and goodwill could be adversely affected.

38. *Our Promoters and members of the Promoter Group will continue jointly to retain majority control over our Company after the Issue, which will allow them to determine the outcome of matters submitted to shareholders for approval.*

After completion of the Issue, our Promoters and Promoter Group will collectively own 79.41% of the Equity Shares. As a result, our Promoters together with the members of the Promoter Group will be able to exercise a significant degree of influence over us and will be able to control the outcome of any proposal that can be approved by a majority shareholder vote, including, the election of members to our Board, in accordance with

the Companies Act and our Articles of Association. Such a concentration of ownership may also have the effect of delaying, preventing or deterring a change in control of our Company.

In addition, our Promoters will continue to have the ability to cause us to take actions that are not in, or may conflict with, our interests or the interests of some or all of our creditors or minority shareholders, and we cannot assure you that such actions will not have an adverse effect on our future financial performance or the price of our Equity Shares.

- 39. *Within the parameters as mentioned in the chapter titled ‘Objects of this Issue’ beginning on page 89 of this Draft Red Herring Prospectus, our Company’s management will have flexibility in applying the proceeds of this Issue. The fund requirement and deployment mentioned in the ‘Objects of the Issue’ have not been appraised by any bank or financial institution.***

We intend to use entire fresh Issue Proceeds towards working capital requirements and for general corporate purposes. We intend to deploy the Net Issue Proceeds in financial year 2017-18 and such deployment is based on certain assumptions and strategy which our Company believes to implement in future. The funds raised from the fresh Issue may remain idle on account of change in assumptions, market conditions, strategy of our Company, etc., For further details on the use of the Issue Proceeds, please refer chapter titled "Objects of the Issue" beginning on page 89 of this Draft Red Herring Prospectus.

The deployment of funds for the purposes described above is at the discretion of our Company’s Board of Directors. The fund requirement and deployment is based on internal management estimates and has not been appraised by any bank or financial institution. Accordingly, within the parameters as mentioned in the chapter titled ‘Objects of the Issue’ beginning on page 89 of this Draft Prospectus, the Management will have significant flexibility in applying the proceeds received by our Company from the Issue. However, the Company shall comply with Section 27 of the Companies Act, 2013 before varying the ‘Objects of the Issue’. The Audit Committee will monitor the utilization of the proceeds of this Issue.

- 40. *Our Promoters and members of the Promoter Group have provided personal guarantees to certain loan facilities availed by us, which if revoked may require alternative guarantees, repayment of amounts due or termination of the facilities.***

Our Promoters and members of the Promoter Group have provided personal guarantees in relation to certain loan facilities availed of by us. In the event that any of these guarantees are revoked, the lenders for such facilities may require alternate guarantees, repayment of amounts outstanding under such facilities, or may even terminate such facilities. We may not be successful in procuring alternative guarantees satisfactory to the lenders, and as a result may need to repay outstanding amounts under such facilities or seek additional sources of capital, which may not be available on acceptable terms or at all and any such failure to raise additional capital could affect our operations and our financial condition.

- 41. *Negative publicity could adversely affect our revenue model and profitability.***

Our business is dependent on the trust our customers have in the quality of our products. Any negative publicity regarding our company, brand, or products, including those arising from a drop in quality of merchandise from our vendors, mishaps resulting from the use of our products, or any other unforeseen events could affect our reputation and our results from operations. Further our brand may also be affected if there is any negative publicity associated with our products.

- 42. *We have in the past entered into related party transactions and may continue to do so in the future.***

Our Company has entered into certain transactions with our related parties including our Promoters, the Promoter Group, our Directors and their relatives. We have loans taken from promoter and members of promoter group. While we believe that all such transactions have been conducted on the arm’s length basis, there can be no assurance that we could not have achieved more favourable terms had such transactions not been entered into with related parties. Furthermore, it is likely that we will enter into related party transactions in the future. There can be no assurance that such transactions, individually or in the aggregate, will not have an adverse effect on our financial condition and results of operation. For details on the transactions entered by us, please refer to section “Related Party Transactions” in Chapter “Financial Statements” beginning on page 172 of this Draft Red Herring Prospectus

- **Issue related risk**

43. *After this Issue, the price of the Equity Shares may be highly volatile, or an active trading market for the Equity Shares may not develop.*

The price of the Equity Shares on the Stock Exchange may fluctuate as a result of the factors, including:

- a. Volatility in the Indian and global capital market;
- b. Company's results of operations and financial performance;
- c. Performance of Company's competitors,
- d. Adverse media reports on Company or pertaining to the Industry in which we operate;
- e. Changes in our estimates of performance or recommendations by financial analysts;
- f. Significant developments in India's economic and fiscal policies; and
- g. Significant developments in India's environmental regulations.

Current valuations may not be sustainable in the future and may also not be reflective of future valuations for our industry and our Company. There has been no public market for the Equity Shares and the prices of the Equity Shares may fluctuate after this Issue. There can be no assurance that an active trading market for the Equity Shares will develop or be sustained after this Issue or that the price at which the Equity Shares are initially traded will correspond to the price at which the Equity Shares will trade in the market subsequent to this Issue.

44. *The Issue price of our Equity Shares may not be indicative of the market price of our Equity Shares after the Issue and the market price of our Equity Shares may decline below the issue price and you may not be able to sell your Equity Shares at or above the Issue Price.*

The Issue Price of our Equity Shares has been determined by book building method. This price is based on numerous factors (For further information, please refer chapter titled "Basis for Issue Price" beginning on page 94 of this Prospectus) and may not be indicative of the market price of our Equity Shares after the Issue. The market price of our Equity Shares could be subject to significant fluctuations after the Issue, and may decline below the Issue Price. We cannot assure you that you will be able to sell your Equity Shares at or above the Issue Price. Among the factors that could affect our share price include without limitation. The following:

- Half yearly variations in the rate of growth of our financial indicators, such as earnings per share, net income and revenues;
- Changes in revenue or earnings estimates or publication of research reports by analysts;
- Speculation in the press or investment community;
- General market conditions; and
- Domestic and international economic, legal and regulatory factors unrelated to our performance.

45. *Sale of Equity Shares by our Promoters or other significant shareholder(s) may adversely affect the trading price of the Equity Shares.*

Any instance of disinvestments of equity shares by our Promoters or by other significant shareholder(s) may significantly affect the trading price of our Equity Shares. Further, our market price may also be adversely affected even if there is a perception or belief that such sales of Equity Shares might occur.

Industry Risks

46. *Changes in government regulations or their implementation could disrupt our operations and adversely affect our business and results of operations.*

Our business and industry is regulated by different laws, rules and regulations framed by the Central and State Government. These regulations can be amended/ changed on a short notice at the discretion of the Government. If we fail to comply with all applicable regulations or if the regulations governing our business or their implementation change adversely, we may incur increased costs or be subject to penalties, which could disrupt our operations and adversely affect our business and results of operations.

Other Risks

47. *The Companies Act, 2013 has effected significant changes to the existing Indian company law framework, which may subject us to higher compliance requirements and increase our compliance costs.*

A majority of the provisions and rules under the Companies Act, 2013 have recently been notified and have come into effect from the date of their respective notification, resulting in the corresponding provisions of the Companies Act, 1956 ceasing to have effect. The Companies Act, 2013 has brought into effect significant changes to the Indian company law framework, such as in the provisions related to issue of capital, disclosures in prospectus, corporate governance norms, audit matters, related party transactions, introduction of a provision allowing the initiation of class action suits in India against companies by shareholders or depositors, a restriction on investment by an Indian company through more than two layers of subsidiary investment companies (subject to certain permitted exceptions), prohibitions on loans to directors and insider trading and restrictions on directors and key managerial personnel from engaging in forward dealing. To ensure compliance with the requirements of the Companies Act, 2013, we may need to allocate additional resources, which may increase our regulatory compliance costs and divert management attention.

The Companies Act, 2013 introduced certain additional requirements which do not have corresponding equivalents under the Companies Act, 1956. Accordingly, we may face challenges in interpreting and complying with such provisions due to limited jurisprudence on them. In the event, our interpretation of such provisions of the Companies Act, 2013 differs from, or contradicts with, any judicial pronouncements or clarifications issued by the Government in the future, we may face regulatory actions or we may be required to undertake remedial steps. We may face difficulties in complying with any such overlapping requirements. Further, we cannot currently determine the impact of provisions of the Companies Act, 2013 which are yet to come in force. Any increase in our compliance requirements or in our compliance costs may have an adverse effect on our business and results of operations.

48. *You may be subject to Indian taxes arising out of capital gains on the sale of the Equity Shares.*

Under current Indian tax laws and regulations, capital gains arising from the sale of equity shares in an Indian company are generally taxable in India. Any gain realised on the sale of shares on a stock exchange held for more than 12 months will not be subject to capital gains tax in India if the securities transaction tax (“STT”) has been paid on the transaction. The STT will be levied on and collected by an Indian stock exchange on which equity shares are sold. Further, any gain realised on the sale of listed equity shares held for a period of 12 months or less will be subject to short term capital gains tax in India, if securities transaction tax has been paid on the transaction. Any gain realised on the sale of shares held for more than 36 months to an Indian resident, which are sold other than on a recognised stock exchange and as a result of which no STT has been paid, will be subject to long term capital gains tax in India. Further, any gain realised on the sale of equity shares held for a period of 36 months or less which are sold other than on a recognised stock exchange and on which no STT has been paid, may be subject to short term capital gains tax at a relatively higher rate as compared to the transaction where STT has been paid in India.

49. *Significant differences exist between Indian GAAP and other accounting principles, such as U.S. GAAP and IFRS, which may be material to the financial statements prepared and presented in accordance with SEBI ICDR Regulations contained in this Prospectus.*

As stated in the reports of the Auditor included in this Prospectus under chapter “Financial Statements as restated” beginning on page 197, the financial statements included in this Prospectus are based on financial information that is based on the audited financial statements that are prepared and presented in conformity with Indian GAAP and restated in accordance with the SEBI ICDR Regulations, and no attempt has been made to reconcile any of the information given in this Prospectus to any other principles or to base it on any other standards. Indian GAAP differs from accounting principles and auditing standards with which prospective investors may be familiar in other countries, such as U.S. GAAP and IFRS. Significant differences exist between Indian GAAP and U.S. GAAP and IFRS, which may be material to the financial information prepared and presented in accordance with Indian GAAP contained in this Prospectus. Accordingly, the degree to which the financial information included in this Prospectus will provide meaningful information is dependent on familiarity with Indian GAAP, the Companies Act and the SEBI ICDR Regulations. Any reliance by persons not familiar with Indian GAAP on the financial disclosures presented in this Prospectus should accordingly be limited.

50. *Political instability or a change in economic liberalization and deregulation policies could seriously harm business and economic conditions in India generally and our business in particular.*

The Government of India has traditionally exercised and continues to exercise influence over many aspects of the economy. Our business and the market price and liquidity of our Equity Shares may be affected by interest rates, changes in Government policy, taxation, social and civil unrest and other political, economic or other developments in or affecting India. The rate of economic liberalization could change, and specific laws and policies affecting the information technology sector, foreign investment and other matters affecting investment in our securities could change as well. Any significant change in such liberalization and deregulation policies could adversely affect business and economic conditions in India, generally, and our business, prospects, financial condition and results of operations, in particular.

51. *We cannot guarantee the accuracy or completeness of facts and other statistics with respect to India, the Indian economy and Pharmaceutical industry contained in the Prospectus.*

While facts and other statistics in this Prospectus relating to India, the Indian economy and the Pharmaceutical industry has been based on various government publications and reports from government agencies that we believe are reliable, we cannot guarantee the quality or reliability of such materials. While we have taken reasonable care in the reproduction of such information, industry facts and other statistics have not been prepared or independently verified by us or any of our respective affiliates or advisors and, therefore we make no representation as to their accuracy or completeness. These facts and other statistics include the facts and statistics included in the chapter titled 'Our Industry' beginning on page 100 of this Prospectus. Due to possibly flawed or ineffective data collection methods or discrepancies between published information and market practice and other problems, the statistics herein may be inaccurate or may not be comparable to statistics produced elsewhere and should not be unduly relied upon. Further, there is no assurance that they are stated or compiled on the same basis or with the same degree of accuracy, as the case may be, elsewhere.

52. *Conditions in the Indian securities market may affect the price or liquidity of our Equity Shares.*

The Indian securities markets are smaller than securities markets in more developed economies and the regulation and monitoring of Indian securities markets and the activities of investors, brokers and other participants differ, in some cases significantly, from those in the more developed economies. Indian stock exchanges have in the past experienced substantial fluctuations in the prices of listed securities. Further, the Indian stock exchanges have experienced volatility in the recent times. The Indian stock exchanges have also experienced problems that have affected the market price and liquidity of the securities of Indian companies, such as temporary exchange closures, broker defaults, settlement delays and strikes by brokers. In addition, the governing bodies of the Indian stock exchanges have from time to time restricted securities from trading and limited price movements. A closure of, or trading stoppage on the Emerge Platform of National Stock Exchange of India Limited could adversely affect the trading price of the Equity Shares.

53. *Global economic, political and social conditions may harm our ability to do business, increase our costs and negatively affect our stock price.*

Global economic and political factors that are beyond our control, influence forecasts and directly affect performance. These factors include interest rates, rates of economic growth, fiscal and monetary policies of governments, inflation, deflation, foreign exchange fluctuations, consumer credit availability, fluctuations in commodities markets, consumer debt levels, unemployment trends and other matters that influence consumer confidence, spending and tourism. Increasing volatility in financial markets may cause these factors to change with a greater degree of frequency and magnitude, which may negatively affect our stock prices.

54. *Foreign investors are subject to foreign investment restrictions under Indian law that limits our ability to attract foreign investors, which may adversely impact the market price of the Equity Shares.*

Under the foreign exchange regulations currently in force in India, transfers of shares between non-residents and residents are freely permitted (subject to certain exceptions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or fall under any of the exceptions referred to above, then the prior approval of the RBI will be required. Additionally, shareholders who seek to convert the Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign

currency from India will require a no objection/ tax clearance certificate from the income tax authority. There can be no assurance that any approval required from the RBI or any other government agency can be obtained on any particular terms or at all.

55. *The extent and reliability of Indian infrastructure could adversely affect our Company's results of operations and financial condition.*

India's physical infrastructure is in developing phase compared to that of many developed nations. Any congestion or disruption in its port, rail and road networks, electricity grid, communication systems or any other public facility could disrupt our Company's normal business activity. Any deterioration of India's physical infrastructure would harm the national economy; disrupt the transportation of goods and supplies, and costs to doing business in India. These problems could interrupt our Company's business operations, which could have an adverse effect on its results of operations and financial condition.

56. *Any downgrading of India's sovereign rating by an independent agency may harm our ability to raise financing.*

Any adverse revisions to India's credit ratings for domestic and international debt by international rating agencies may adversely impact our ability to raise additional financing, and the interest rates and other commercial terms at which such additional financing may be available. This could have an adverse effect on our business and future financial performance, our ability to obtain financing for capital expenditures and the trading price of our Equity Shares.

57. *Natural calamities could have a negative impact on the Indian economy and cause our Company's business to suffer.*

India has experienced natural calamities such as earthquakes, tsunami, floods etc. In recent years, the extent and severity of these natural disasters determine their impact on the Indian economy. Prolonged spells of abnormal rainfall or other natural calamities could have a negative impact on the Indian economy, which could adversely affect our business, prospects, financial condition and results of operations as well as the price of the Equity Shares.

58. *Terrorist attacks, civil unrests and other acts of violence or war involving India or other countries could adversely affect the financial markets, our business, financial condition and the price of our Equity Shares.*

Any major hostilities involving India or other acts of violence, including civil unrest or similar events that are beyond our control, could have a material adverse effect on India's economy and our business. Incidents such as the terrorist attacks, other incidents such as those in US, Indonesia, Madrid and London, and other acts of violence may adversely affect the Indian stock markets where our Equity Shares will trade as well the global equity markets generally. Such acts could negatively impact business sentiment as well as trade between countries, which could adversely affect our Company's business and profitability. Additionally, such events could have a material adverse effect on the market for securities of Indian companies, including the Equity Shares

BACKGROUND OF INDIAN FOOD PROCESSING INDUSTRY

The Indian food industry is poised for huge growth, increasing its contribution to world food trade every year. In India, the food sector has emerged as a high-growth and high-profit sector due to its immense potential for value addition, particularly within the food processing industry. The food industry, which is currently valued at US\$ 39.71 billion!, is expected to grow at a Compounded Annual Growth Rate (CAGR) of 11 per cent to US\$ 65.4 billion by 2018. Food and grocery account for around 31 per cent of India’s consumption basket.

Accounting for about 32 per cent of the country’s total food market, The Government of India has been instrumental in the growth and development of the food processing industry. The government through the Ministry of Food Processing Industries (MoFPI) is making all efforts to encourage investments in the business. It has approved proposals for joint ventures (JV), foreign collaborations, industrial licenses, and 100 per cent export oriented units.

GLOBAL ECONOMIC OVERVIEW

For India, three external developments are of significant consequence. In the short run, the change in the outlook for global interest rates as a result of the US elections and the implied change in expectations of US fiscal and monetary policy will impact on India’s capital flows and exchange rates. Markets are factoring in a regime change in advanced countries, especially US macroeconomic policy, with high expectations of fiscal stimulus and unwavering exit from unconventional monetary policies. The end of the 20-year bond rally and end to the corset of deflation and deflationary expectations are within sight. Second, the medium-term political outlook for globalisation and in particular for the world’s “political carrying capacity for globalisation” may have changed in the wake of recent developments. In the short run a strong dollar and declining competitiveness might exacerbate the lure of protectionist policies. These follow on on-going trends—documented widely—about stagnant or declining trade at the global level. This changed outlook will affect India’s export and growth prospects

Third, developments in the US, especially the rise of the dollar, will have implications for China’s currency and currency policy. If China is able to successfully re-balance its economy, the spill over effects on India and the rest of the world will be positive. On, the other hand, further declines in the yuan, even if dollar-induced, could interact with underlying vulnerabilities to create disruptions in China that could have negative spill overs for India. For China, there are at least two difficult balancing acts with respect to the currency. Domestically, a declining currency (and credit expansion) props up the economy in the short run but delay rebalancing while also adding to the medium term challenges. Internationally, allowing the currency to weaken in response to capital flight risks creating trade frictions but imposing capital controls discourages FDI and undermines China’s ambitions to establish the Yuan as a reserve currency. China with its underlying vulnerabilities remains the country to watch for its potential to unsettle the global economy.

REVIEW OF MAJOR DEVELOPMENTS IN INDIAN ECONOMY

The Indian economy has continued to consolidate the gains achieved in restoring macroeconomic stability. Real GDP growth in the first half of the year was 7.2 percent, on the weaker side of the 7.0-7.75 per cent projection in the Economic Survey 2015-16 and somewhat lower than the 7.6 percent rate recorded in the

second half of 2015-16 (Figure 1a). The main problem was fixed investment, which declined sharply as stressed balance sheets in the corporate sector continued to take a toll on firms' spending plans. On the positive side, the economy was buoyed by government consumption, as the 7th Pay Commission salary recommendations were implemented, and by the long-awaited start of an export recovery as demand in advanced countries began to accelerate. Nominal GDP growth recovered to respectable levels, reversing the sharp and worrisome dip that had occurred in the first half of 2015-16 (Figure 1b).

The major highlights of the sectoral growth outcome of the first half of 2016-17 were: (i) moderation in industrial and nongovernment service sectors; (ii) the modest pick-up in agricultural growth on the back of improved monsoon; and (iii) strong growth in public administration and defence services— dampeners on and catalysts to growth almost balancing each other and producing a real Gross Value Addition (GVA) growth (7.2 percent), quite similar to the one (7.1 per cent) in H2 2015-16 (Figure 1b).

Inflation this year has been characterized by two distinctive features. The Consumer Price Index (CPI)-New Series inflation, which averaged 4.9 per cent during April-December 2016, has displayed a downward trend since July when it became apparent that kharif agricultural production in general, and pulses in particular would be bountiful. The decline in pulses prices has contributed substantially to the decline in CPI inflation which reached 3.4 percent at end-December. The second distinctive feature has been the reversal of WPI inflation, from a trough of (-)5.1 percent in August 2015 to 3.4 percent at end-December 2016, on the back of rising international oil prices. The wedge between CPI and WPI inflation, which had serious implications for the measurement of GDP discussed in MYEA (Box 3, Chapter 1, MYEA 2015-16), has narrowed considerably. Core inflation has, however, been more stable, hovering around 4.5 percent to 5 percent for the year so far. The outlook for the year as a whole is for CPI inflation to be below the RBI's target of 5 percent, a trend likely to be assisted by demonetisation.

External Sector

Similarly, the external position appears robust having successfully weathered the sizeable redemption of Foreign Currency Non-Resident (FCNR) deposits in late 2016, and the volatility associated with the US election and demonetisation. The current account deficit has declined to reach about 0.3 percent of GDP in the first half of FY2017. Foreign exchange reserves are at comfortable levels, having risen from around US\$350 billion at end-January 2016 to US\$ 360 billion at end-December 2016 and are well above standard norms for reserve adequacy. In part, surging net FDI inflows, which grew from 1.7 percent of GDP in FY2016 to 3.2 percent of GDP in the second quarter of FY2017, helped the balance-of-payments

The trade deficit declined by 23.5 per cent in April-December 2016 over corresponding period of previous year. During the first half of the fiscal year, the main factor was the contraction in imports, which was far steeper than the fall in exports. But during October- December, both exports and imports started a long-awaited recovery, growing at an average rate of more than 5 per cent. The improvement in exports appears to be linked to improvements in the world economy, led by better growth in the US and Germany. On the import side, the advantage on account of benign international oil prices has receded and is likely to exercise upward pressure on the import bill in the short to medium term. Meanwhile, the net services surplus declined in the first half, as software service exports slowed and financial service exports declined. Net private remittances

declined by \$4.5 bn in the first half of 2016-17 compared to the same period of 2015-16, weighed down by the lagged effects of the oil price decline, which affected inflows from the Gulf region.

Fiscal Position

Trends in the fiscal sector in the first half have been unexceptional and the central government is committed to achieving its fiscal deficit target of 3.5 percent of GDP this year. Excise duties and services taxes have benefitted from the additional revenue measures introduced last year. The most notable feature has been the over-performance (even relative to budget estimates) of excise duties in turn based on buoyant petroleum consumption: real consumption of petroleum products (petrol) increased by 11.2 percent during April-December 2016 compared to same period in the previous year. Indirect taxes, especially petroleum excises, have held up even after demonetisation in part due to the exemption of petroleum products from its scope. More broadly, tax collections have held up to a greater extent than expected possibly because of payment of dues in demonetised notes was permitted. Non-tax revenues have been challenged owing to shortfall in spectrum and disinvestment receipts but also to forecast optimism; the stress in public sector enterprises has also reduced dividend payments.

State government finances are under stress. The consolidated deficit of the states has increased steadily in recent years, rising from 2.5 percent of GDP in 2014-15 to 3.6 percent of GDP in 2015-16, in part because of the UDAY scheme. The budgeted numbers suggest there will be an improvement this year. However, markets are anticipating some slippage, on account of the expected growth slowdown, reduced revenues from stamp duties, and implementation of their own Pay Commissions. For these reasons, the spread on state bonds over government securities jumped to 75 basis points in the January 2017 auction from 45 basis points in October 2016. For the general government as a whole, there is an improvement in the fiscal deficit with and without UDAY scheme.

(Source: Economic Survey 2016-17 www.indiabudget.nic.in)

Fiscal outlook

The fiscal outlook for the central government for next year will be marked by three factors. First, the increase in the tax to GDP ratio of about 0.5 percentage points in each of the last two years, owing to the oil windfall will disappear. In fact, excise-related taxes will decline by about 0.1 percentage point of GDP, a swing of about 0.6 percentage points relative to FY2017.

Second, there will be a fiscal windfall both from the high denomination notes that are not returned to the RBI and from higher tax collections as a result of increased disclosure under the Pradhan Mantra Garib Kalyan Yojana (PMGKY). Both of these are likely to be one-off in nature, and in both cases the magnitudes are uncertain.

A third factor will be the implementation of the GST. It appears that the GST will probably be implemented later in the fiscal year. The transition to the GST is so complicated from an administrative and technology perspective that revenue collection will take some time to reach full potential. Combined with the government's commitment to compensating the states for any shortfall in their own GST collections (relative to a baseline of 14 percent increase), the outlook must be cautious with respect to revenue collections. The fiscal gains from implementing the GST and demonetisation, while almost certain to occur, will probably take time to be fully realized. In addition, muted non-tax revenues and allowances granted under the 7th Pay Commission could add to pressures on the deficit.

GLOBAL MANUFACTURING SECTOR

World Manufacturing Growth in quarter II, 2S017

World manufacturing in the second quarter of 2017 has continued to show signs of expansion, following an upward trend observed throughout 2016 and improved growth rates in the first quarter of 2017. Both industrialized and developing and emerging industrial economies gained further strength in manufacturing production and confirmed their healthy dynamic growth.

Although the pace of growth indicates similar trends in both country groups (Figure 2), developing economies continuously performed better than industrialized ones. The current growth prospects are improving further on account of rising consumer spending and promising investment plans, which are favourably directed towards

developing economies. Changing business conditions are driving industrial production growth and confidence for the overall outlook has been increasing. Moreover, the risks for global growth witnessed last year, such as political instability in Europe, unpredictability of the Brexit aftermath, the rising trade protectionism following the US election and an abrupt slowdown in China have certainly diminished, although they have not disappeared completely.

(*Source: World Manufacturing Production, Statistics for Quarter II, 2017, United Nations Industrial Development Organization, www.unido.org*)

Optimistic results reported in the first quarter have carried over into the second quarter of this year. Global manufacturing output rose by 4.2 per cent in the second quarter of 2017 compared to the same period of the previous year, building on the robust 3.7 per cent increase observed at the beginning of 2017. The major industrialized economies with a significant share in global manufacturing output, namely the United States, Japan, Germany, Italy and France, thrived in the second quarter of 2017. The growth prospects of China, the world's largest manufacturer, remained unchanged.

As depicted in Figure 2, steady progress over several consecutive quarters characterizes all country groups and the prospects for sustained global industrial growth in the coming periods are good.

Manufacturing Growth in Industrialized economies

The manufacturing output growth of industrialized economies has progressively been improving over the last quarters. The upward growth trend-at a relatively moderate pace-is attributable to the robust dynamics in all industrialized regions, namely East Asia, Europe and North America.

The manufacturing sector gained increasing strength due to domestic and external demand in European economies and resulted in the solid performance recorded in the second quarter of 2017. Europe's manufacturing output jumped to 2.7 per cent in the second quarter of 2017 from 1.6 per cent growth in the previous quarter, while the growth rate in the Eurozone witness the same development during the second quarter of 2017 (Figure 3).

The disaggregated data points to continued improvement in the already healthy economic momentum of leading Eurozone economies with growth figures of 2.9 per cent in Germany and Italy, and 2.4 per cent in France and Spain compared to year-to-year developments. The manufacturing production in other economies of the single currency block seemingly remained healthy in the second quarter. Strong growth of over 8.0 per cent was observed in Slovenia, and Estonia, while a fairly robust growth rate was recorded in the Netherlands (3.0 per cent), Austria (3.5 per cent), Belgium (4.2 per cent) and Finland (3.2 per cent). The manufacturing sector in the eurozone ended the second quarter on a strong note. The only exception was Ireland, where manufacturing output fell by 1.1 per cent compared to the same period of the previous year.

Taking a closer look at individual countries beyond the eurozone, manufacturing output remained stagnant in the United Kingdom at only 0.2 per cent growth in the second quarter of 2017. Despite remaining in positive terrain, output dipped significantly considering that the previous quarter's result was the highest one in over two years. On the other hand, the pace of growth in Czechia and Hungary strengthened, where an increase of 7.4 per cent and 4.7 percent was recorded, respectively. Other exceptionally positive results were visible in Switzerland with a 2.4 per cent growth rate as well as in Sweden with a gain of 5.2 per cent compared to the same period of the previous year. Among the other Nordic countries, Denmark expanded its manufacturing production by 3.7 per cent, while Norway significantly moderated its contraction rate to roughly 0.4 per cent. North America's overall manufacturing production grew by 1.6 per cent compared to the same period of 2016. The strengthening of the dollar and the consequent weak demand for U.S. goods caused the American manufacturing sector to go into recession in late 2015. However, the recent weakening of the U.S. dollar combined with a stronger global environment resulted in the opposite effect, and American total manufacturing output rose by 1.5 per cent compared to the same period of the previous year, representing the highest increase since the last recession. Improved performance was also witnessed in Canadian manufacturing, where manufacturing production expanded by 3.5 per cent in the second quarter of 2017.

Another positive result was observed in industrialized East Asian economies in the second quarter of 2017 - a 4.4 per cent improvement compared to the same period of the previous year. The main forces that have been driving growth in Japan's manufacturing sector in recent quarters remained firmly in place in the second quarter of 2017. Japan, the major force behind the entire region's upward trend, reconfirmed the end of a long period of contractions with a growth rate of nearly 5.8 per cent. The Republic of Korea's manufacturing production, on the other hand, remained almost unchanged compared to the same period of the previous year. Malaysia's total manufacturing output recorded a 5.9 per cent rise in the second quarter of 2017; a very strong growth rate of 8.5 per cent was observed in Singapore. The manufacturing production of Taiwan, Province of China lost some steam in the second quarter of 2017 according to the latest figures, although it still expanded at a moderate 2.6 per cent pace on a year-to-year basis.

MANUFACTURING SECTOR IN INDIA

Introduction

Manufacturing has emerged as one of the high growth sectors in India. Prime Minister of India, Mr Narendra Modi, had launched the 'Make in India' program to place India on the world map as a manufacturing hub and give global recognition to the Indian economy. India is expected to become the fifth largest manufacturing country in the world by the end of year 2020*.

The Gross Value Added (GVA) at basic constant (2011-12) prices from the manufacturing sector in India grew 7.9 per cent year-on-year in 2016-17, as per the 2nd provisional estimate of annual national income published by the Government of India. Under the Make in India initiative, the Government of India aims to increase the share of the manufacturing sector to the gross domestic product (GDP) to 25 per cent by 2022, from 16 per cent, and to create 100 million new jobs by 2022. Business conditions in the Indian manufacturing sector continue to remain positive.

Government Initiatives

In a bid to push the 'Make in India' initiative to the global level, Mr Narendra Modi, Prime Minister of India, pitched India as a manufacturing destination at the World International Fair in Germany's Hannover in 2015. Mr Modi showcased India as a business friendly destination to attract foreign businesses to invest and manufacture in the country.

The Government of India has taken several initiatives to promote a healthy environment for the growth of manufacturing sector in the country. Some of the notable initiatives and developments are:

- The Government of India has introduced several policy measures in the Union Budget 2017-18 to provide impetus to the manufacturing sector. Some of which include reduction of income tax rate to 25 per cent for MSME companies having turnover up to Rs 50 crore (US\$ 7.5 million), MAT credit carry forward extended to 15 years from 10 years and abolishment of Foreign Investment Promotion Board (FIPB) by 2017-18.
- The Government of India has launched a phased manufacturing programme (PMP) aimed at adding more smartphone components under the Make in India initiative thereby giving a push to the domestic manufacturing of mobile handsets.
- The Government of India is in talks with stakeholders to further ease foreign direct investment (FDI) in defence under the automatic route to 51 per cent from the current 49 per cent, in order to give a boost to the Make in India initiative and to generate employment.
- The Ministry of Heavy Industries and Public Enterprises, Government of India, has approved the setting up of four Centres of Excellence (CoE) in areas of textile machinery, machine tools, welding technology and smart pumps, which will help raise the technology depth of the Indian Capital Goods Industry.
- The Ministry of Defence, Government of India, approved the "Strategic Partnership" model which will enable private companies to tie up with foreign players for manufacturing submarines, fighter jets, helicopters and armoured vehicles.
- The Union Cabinet has approved the Modified Special Incentive Package Scheme (M-SIPS) in which, proposals will be accepted till December 2018 or up to an incentive commitment limit of Rs 10,000 crore (US\$ 1.5 billion).

Road Ahead

India is an attractive hub for foreign investments in the manufacturing sector. Several mobile phone, luxury and automobile brands, among others, have set up or are looking to establish their manufacturing bases in the country.

The manufacturing sector of India has the potential to reach US\$ 1 trillion by 2025 and India is expected to rank amongst the top three growth economies and manufacturing destination of the world by the year 2020. The implementation of the Goods and Services Tax (GST) will make India a common market with a GDP of US\$ 2 trillion along with a population of 1.2 billion people, which will be a big draw for investors.

With impetus on developing industrial corridors and smart cities, the government aims to ensure holistic development of the nation. The corridors would further assist in integrating, monitoring and developing a conducive environment for the industrial development and will promote advance practices in manufacturing.

INDIAN FOOD PROCESSING INDUSTRY

Introduction

The Indian food industry is poised for huge growth, increasing its contribution to world food trade every year. In India, the food sector has emerged as a high-growth and high-profit sector due to its immense potential for value addition, particularly within the food processing industry. The food industry, which is currently valued at US\$ 39.71 billion!, is expected to grow at a Compounded Annual Growth Rate (CAGR) of 11 per cent to US\$ 65.4 billion by 2018. Food and grocery account for around 31 per cent of India's consumption basket.

Accounting for about 32 per cent of the country's total food market, The Government of India has been instrumental in the growth and development of the food processing industry. The government through the Ministry of Food Processing Industries (MoFPI) is making all efforts to encourage investments in the business. It has approved proposals for joint ventures (JV), foreign collaborations, industrial licenses, and 100 per cent export oriented units.

Market Size

The Indian food and grocery market is the world's sixth largest, with retail contributing 70 per cent of the sales. The Indian food retail market is expected to reach Rs 61 lakh crore (US\$ 915 billion) by 2020.

The Indian food processing industry accounts for 32 per cent of the country's total food market, one of the largest industries in India and is ranked fifth in terms of production, consumption, export and expected growth. It contributes around 14 per cent of manufacturing Gross Domestic Product (GDP), 13 per cent of India's exports and six per cent of total industrial investment. Indian food service industry is expected to reach US\$ 78 billion by 2018. The Indian gourmet food market is currently valued at US\$ 1.3 billion and is growing at a Compound Annual Growth Rate (CAGR) of 20 per cent. India's organic food market is expected to increase by three times by 2020##.

The online food ordering business in India is in its nascent stage, but witnessing exponential growth. The organised food business in India is worth US\$ 48 billion, of which food delivery is valued at US\$ 15 billion. With online food delivery players like FoodPanda, Zomato, TinyOwl and Swiggy building scale through partnerships, the organised food business has a huge potential and a promising future. The online food delivery industry grew at 150 per cent year-on-year with an estimated Gross Merchandise Value (GMV) of US\$ 300 million in 2016.

Government Initiatives

Some of the major initiatives taken by the Government of India to improve the food processing sector in India are as follows:

- In Union Budget 2017-18, the Government of India has set up a dairy processing infra fund worth Rs 8,000 crore (US\$ 1.2 billion).
- Union Budget 2016-17 proposed 100 per cent FDI through FIPB (Foreign Investment Promotion Board) route in marketing of food products produced and manufactured in India.
- The Government of India has relaxed foreign direct investment (FDI) norms for the sector, allowing up to 100 per cent FDI in food product e-commerce through automatic route.

- The Food Safety and Standards Authority of India (FSSAI) plans to invest around Rs 482 crore (US\$ 72.3 million) to strengthen the food testing infrastructure in India, by upgrading 59 existing food testing laboratories and setting up 62 new mobile testing labs across the country.
- The Indian Council for Fertilizer and Nutrient Research (ICFNR) will adopt international best practices for research in fertilizer sector, which will enable farmers to get good quality fertilisers at affordable rates and thereby achieve food security for the common man.
- The Government of India allocated Rs 1,500 crore (US\$ 225.7 million) and announced various measures under the Merchandise Exports from India Scheme (MEIS), including setting up of agencies for aquaculture and fisheries in coastal states and export incentives for marine products.
- Government of India plans to allow two Indian dairy companies, Parag Milk Foods and Schreiber Dynamix Dairies, to export milk products to Russia for six months, after these companies got approval for their products by Russian inspection authorities.
- Ms Harsimrat Kaur Badal, Union Minister for Food Processing Industries, Government of India inaugurated the first of its kind Rs 136 crore (US\$ 20 million) mega international food park at Dabwala Kalan, Punjab. She has also expressed confidence that the decision to allow 100 per cent Foreign Direct Investment (FDI) in multi-brand retail with 100 per cent local sourcing condition, will act as a catalyst for the food processing sector, thereby controlling inflation, uplifting the condition of farmers, and creating more jobs in the country.
- FSSAI has issued new rules for importing products, to address concerns over the entry of sub-standard items and simplify the process by setting shelf-life norms and relaxing labelling guidelines.
- The Ministry of Food Processing Industries announced a scheme for Human Resource Development (HRD) in the food processing sector. The HRD scheme is being implemented through State Governments under the National Mission on Food Processing. The scheme has the following four components:
 - Creation of infrastructure facilities for degree/diploma courses in food processing sector
 - Entrepreneurship Development Programme (EDP)
 - Food Processing Training Centres (FPTC)
 - Training at recognised institutions at State/National level
- FSSAI under the Ministry of Health and Family Welfare has issued the Food Safety and Standards (Food Product Standards and Food Additives) Regulations, 2011 and the Food Safety and Standards (Contaminants, Toxins and Residues) Regulations, 2011 which prescribe the quality and safety standards, respectively for food products.
- Spices Board, set up by the Ministry of Commerce to develop and promote Indian spices worldwide, aims spice exports of US\$ 3 billion by 2017.
- The Government of India has approved the setting up of five numbers of Mega Food Parks in the states of Bihar, Maharashtra, Himachal Pradesh and Chhattisgarh. The Government plans to set up 42 such mega food parks across the country in next three to four years.

Road Ahead

Going forward, the adoption of food safety and quality assurance mechanisms such as Total Quality Management (TQM) including ISO 9000, ISO 22000, Hazard Analysis and Critical Control Points (HACCP), Good Manufacturing Practices (GMP) and Good Hygienic Practices (GHP) by the food processing industry offers several benefits. It would enable adherence to stringent quality and hygiene norms and thereby protect consumer health, prepare the industry to face global competition, enhance product acceptance by overseas buyers and keep the industry technologically abreast of international best practices

INDIAN EDIBLE OIL INDUSTRY

Edible oil production

The edible oil production in India has remained more or less stagnant over the years. During the oil year 2011-12, edible oil production was at 7.3 million tonnes. In the next year, the output remained almost same. However the production increased and touched 8.2 million tonnes in 2013-14. This was backed by a growth in

the country's oilseeds output. It may be noted that the production numbers for edible oil and oilseeds pertains to the year November to October. After recording a growth in edible oil production during 2013-14, the output declined for two years in a row during the period 2014-16 on a y-o-y basis. In 2014-15 and 2015-16, oil production fell by a sharp 14.8% to 7.00 million tonnes and further by 6.5% to 6.54 million tonnes, respectively. A fall in oilseed production due to inadequate rains resulted in lower crushing of oilseeds and, in turn, lowered oil production during these years. During the oil year 2015-16, 6.54 million tonnes of edible oil was produced in India. Of this, majority of the oil output belonged to the four products. Mustard oil, groundnut oil, cottonseed oil and soyabean oil accounted for 30%, 24.5%, 20.2% and 11.8%, respectively, of the total edible oils output in the country during the year. The other varieties, coconut oil, sesamum oil, sunflower oil, nigerseed oil and safflower oil accounted for 7%, 4.6%, 1.5%, 0.3% and 0.2%, respectively.

Increase in share of refined oil imports

In 2015-16 as mentioned above, there was an increase in share of refined palm oil imports and a decline in share of crude palm oil (including crude palm kernel oil) imports compared to that in 2014-15 where their respective shares stood at 11.5% and 54.6% during 2014-15. Similarly, the share of imported refined palm oil in total edible oil imports increased to 19.6% during November 2016-April 2017 from 17.7% in the corresponding period a year ago. At the same time, the share of crude palm oil (including crude palm kernel oil) imports also increased to 41.9% during November 2016-April 2017 compared to 40.2% a year earlier.

An increase in share of refined oil imports hurts the capacity utilization of domestic edible oil refiners in India. The rise in the share of refined oil is primarily on account of inverted duty structure in the exporting countries (Malaysia and Indonesia). The export duty imposed on crude palm oil by these countries is higher compared to that imposed on refined palm oil. This, in turn, makes the import of refined palm oil cheaper compared to the import of crude palm oil which requires further processing. Besides, the industry has been asking the government to increase the import duty differential between crude palm oil and refined palm oil from the current duty difference of 7.5%. The demand of increase in duty difference if accepted is expected to reduce the refined oil imports and will encourage the edible oil refiners to increase their capacity utilization in the country. However, the duty differential remained unchanged at 7.5% when the import duty on crude palm oil was reduced to 7.5% from 12.5% and the import duty on refined palm oil was cut to 15% from 20% in September 2016. SEA, on the other hand, has been demanding to increase the difference duty to 15%.

Prices

Of the total global vegetable oils production, palm oil and soybean oil together account for more than 50% of the vegetable oil production. Thus the movements in prices of these varieties are important to look for. Also, both these varieties are imported by India to meet their respective domestic requirements. As a result, their prices in the domestic market are mainly influenced by the movement in international prices.

In November 2014, the international palm oil price in North-West Europe and crude palm oil price in Malaysia stood at 731 USD/tonne and 2,213.7 RM/tonne, respectively. On a m-o-m basis, the prices in both the markets declined in double-digits by 10%-14% in August 2015 and crude palm oil price in Malaysia reached a low of 1,952 RM/tonne during the month. The palm oil price in North-West Europe was at a low of 538 USD/tonne in September 2015. The fall in prices was on account of a rise in global palm oil production.

During the oil year 2015-16, the prices in both the markets averaged higher compared to the prices in 2014-15. The palm oil price in North-West Europe and Malaysia were higher by 3% to 665.8 USD/tonne and by 15% to 2,492 RM/tonne, respectively, during the year on a y-o-y basis. In August 2016, prices in both the markets grew in double-digits by 12%-13.5% on a m-o-m basis and touched a year high in September 2016. The palm oil price in North-West Europe stood at 756 USD/tonne and in Malaysia it stood at 2,845.9 RM/tonne during the month. This was because of a fall in global palm oil production due to El Nino event.

The prices that touched a high of 809 USD/tonne and 3,270.5 RM/tonne in January 2017 remained depressed and declined in each of the months during February-April 2017 on a m-o-m basis. The prices are expected to remain under pressure in the coming months as well on account of higher supplies from Indonesia and Malaysia. Oil output from these countries account for over 80% of the global palm oil production.

The domestic palm oil prices reflected the trend in international prices. During the oil year 2014-15, the domestic palm oil prices in Kandla declined by 19% on a y-o-y basis and averaged at Rs.431.3 per 10 kg. A 32.4% rise in edible oil imports during the year also created a pressure on prices. In 2015-16, the prices improved and they averaged 16% higher on a y-o-y basis to Rs.499 per 10 kg. This was also supported by lower domestic edible oil production during the year. In November 2014, the international soyabean prices in Netherlands and domestic prices in Mumbai stood at 830 USD/tonne and Rs.5951.1/quintal, respectively. These prices touched a low of 727 USD/tonne in September 2015 and Rs.5682.5/quintal in August 2015. The decline in prices was due to higher global soybean oil production

The international and domestic soybean oil prices that remained subdued during 2012-15 averaged higher on a y-o-y basis during the oil year 2015-16. The international and domestic prices rose by 2% to 783.9 USD/tonne and by 6% to Rs.6,331.1/quintal in 2015-16 compared to the corresponding period a year ago. An increase in requirement of soybean oil for biodiesel production as stated by the U.S. Environmental Protection Agency(EPA) supported the price rise. United States is the second largest producer of soyabean oil in the world followed by China. Also, lower global palm oil production resulted in an increased demand for soyabean oil thus supporting the price rise.

In December 2016, the international and domestic soyabean oil prices touched a high of 907 USD/tonne and Rs.7,264.5/quintal. The prices in both the markets however declined on a m-o-m basis in each of the months during January-April 2017.

Higher global soybean oil production is likely to keep the prices under pressure in the coming months as well. The domestic prices that largely reflect the trend in international prices will also remain subdued on account of higher domestic soybean oil production in 2016-17

Prices of soyabean oil (that is largely imported) reflected the trend in international prices as it remained weak during the period April 2013 to March 2016. The international prices were subdued on account of higher world soyabean oil output during these years. The domestic soyabean oil prices improved thereafter in line with the rise in international soyabean oil prices. However, the prices remained weak in each of the months during January-April 2017 on account of higher soyabean oil production globally as well as domestically.

The domestic groundnut oil prices stayed weak during the period April 2013 to December 2014 driven by a surge in domestic groundnut oil production. After this, the trend in prices improved and the percentage change in prices on a y-o-y basis remained positive during January 2015 to April 2017. However, prices grew in single-digit on a y-o-y basis during September 2016 to April 2017. An expected rise in groundnut oil during the oil year 2016-17 is believed to have created a pressure on the prices

The domestic mustard oil price trend that remained depressed during April 2013-April 2014 gained momentum and the y-o-y percentage change in price trend improved after April 2014. The prices grew in double-digits on a y-o-y basis during May 2015 to December 2015 backed by a drop in domestic mustard oil production. Thereafter, there was a downward trend in yo-y percentage change in prices due to higher mustard oil production in oil year 2015-16 and a likely higher mustard oil output in the current oil year.

Operating and Net margins on an annual basis (in %)

The profit margins reported by the edible oils industry were the weakest in financial year 2015-16 compared to the past four years 2011-15. In 2015-16, the industry's operating margin stood at 2.05% while it had remained in the range of 3.1%-3.6% in each of the past four years. Similarly, the industry made losses at net level in 2015-16 compared to net profits made in each of the years during 2011-15. Aggregate sales of 28 edible oil companies that declined in single-digit in the first two quarters of financial year 2016-17 on a y-o-y basis fell by a steep 24.8% and 30.1%, respectively, in the following two quarters. On the profitability front, the margins of the industry remained weak in the March 2017 quarter compared to the past seven quarters. During the March 2017 quarter, the operating margin of the industry stood at 12.5% and net margin at 13.2%. The financials are impacted by one of the largest players in the industry on account of its significant size.

Concluding remarks

- India's edible oil production is expected to rise by 17.4% on a y-o-y basis in 2016-17. Despite this, the country's high
- dependency on imports will continue as production has been stagnant
- Thus it becomes necessary to encourage the farmers to increase the production of oilseeds
- In 2016-17, edible oil imports are expected to remain more or less stable compared to the previous oil year 2015-16
- backed by an expected growth in edible oil output during the ongoing oil year
- The international palm oil and soyabean oil prices are expected to remain under pressure in the coming months due to
- higher supplies from the producing nations.

GLOBAL FEED INDUSTRY

Animal feeds play a leading role in the global food industry, enabling economic production of animal proteins throughout the world. Feed is the largest and most important component to ensuring safe, abundant and affordable animal proteins.

Livestock raising and the consumption of animal products make a crucial contribution to the economic and nutritional wellbeing of millions of people around the world. Animal feeds play a leading role in the global food industry and feed is the largest and most important component to ensuring safe, abundant and affordable animal proteins.

World compound feed production is fast approaching an estimated 1 billion tonnes annually. Global commercial feed manufacturing generates an estimated annual turnover of over US \$400 billion. Commercial production or sale of manufactured feed products takes place in more than 130 countries and directly employs more than a quarter of a million skilled workers, technicians, manager and professionals.

IFIF and its Members are keenly aware of the demographic and sustainability challenges which lie ahead of the food and feed industry. The UN Food and Agricultural Organisation (FAO) estimates that the world will have to produce ca. 60% more food by 2050 and we believe that animal protein production will grow even more – meats (poultry/swine/beef) will double, as well as dairy, and fish production will almost triple by 2050.

One of the challenges is that on top of the almost 1 billion tonnes of feed produced by the feed industry, around 300 million tonnes of feed is produced directly by on farm mixing. This poses challenges as food safety authorities do not regularly audit mixing by farmers and regulatory authorities only inspect when there is a problem. IFIF believes it is vital for the feed industry and for the sustainability of the whole feed and food chain that clear standards apply throughout the whole feed chain. We believe both industrial and on farm mixers should be controlled and inspected on a regular basis.

World compound feed production is estimated at one billion tonnes annually. Global commercial feed manufacturing generates an estimated annual turnover of over US \$400 billion

In 2016 world compound feed production reached an estimated at one billion tonnes annually. Global commercial feed manufacturing generates an estimated annual turnover of over US \$400 billion. The last years have continued to see an increase in the demand for animal protein worldwide, including for livestock, dairy and fish. Generally we have seen a growth of production particularly in the developing world, with the developed world remaining more or less stable.

The United Nations Food and Agriculture Organization (FAO) estimates that by 2050 the demand for food will grow by 60% and that between 2010 and 2050 production of animal proteins is expected to grow by around 1.7% per year, with meat production projected to rise by nearly 70%, aquaculture by 90% and dairy by 55%. This already marks a growth factor of almost two, however if we were to extrapolate the growth rates of the last forty years forward to 2050, this would in theory quadruple the needs

INDIAN CATTLE FEED INDUSTRY

ABSTRACT

Indian feed industry is about 50 years old and it primarily consists of cattle feed and poultry feed segments. Cattle feed industry in India is gradually evolving into an organized sector and the feed manufacturers are increasingly using modern and sophisticated methods that seek to incorporate best global practices. Indian cattle feed industry has got high growth potential, given the country's top position among the world nations in respect of livestock population and also the high expected growth rate of about 4 per cent. Compounded Cattle

Feed (CCF) products, particularly the branded ones is fast gaining popularity India, including in rural areas. The major drivers for the growing demand for cattle feed are the factors like (i) shrinkage of open land for cattle grazing, urbanization and resultant shortage of conventionally used cattle feeds, and (ii) introduction of high yield cattle requires specialized feeds. Earlier research studies by the present authors based on the feedback from the farmers have revealed the good growth prospects of the branded cattle feed industry, the feed consumption pattern and the relatively high share of branded feeds, feed consumption pattern based on product types (like, pellet and mash), composition of cattle feed market and the relative shares of major brands, the major factors influencing the purchasing decisions etc. As a continuation of the earlier studies, this study makes a closer look into the exact nature of the growth potential of the market from a macro perspective, feedback from the field study with dealers and industry experts and relative significance of factors influencing buying decisions.

INTRODUCTION

Cattle feed industry, a major ingredient of animal feed industry is currently evolving from a fragmented industry into an organized sector. The feed manufacturers are increasingly adopting modern and sophisticated methods in an effort to incorporate best global practices. This industry has got high growth potential in India, given India's top position among the world nations in respect of livestock population.

The cattle population is expected to grow at compounded annual growth rate of 4 per cent. The way the rural farmers makes their purchases of feed and have their buying priorities is quite different from those of their urban counterparts. Thus, the factors influencing the buying behavior of farmers and their relative significance needs to be ascertained for the meaningful formulation of marketing strategies for cattle feed products. Equally important is the need to consider the feedback from dealers of such products and also industry experts in this field.

BRANDED CATTLE FEED INDUSTRY

The concept of branded animal feed as a packaged commodity, though not a very recent concept, is gaining popularity in the rural folks in the recent past. The packaged feed, as a product, possesses special features like hygiene, quality, convenience to handle, etc. to its advantage. The age old feeding pattern practiced in India is a mixed variety consisting of green grass, dry grass, cotton seed cake, coconut cake, rice bran etc. But, as time elapsed, due to changes both environmental and social, there has been gradual shift from the age-old pattern to Compounded Cattle Feed (CCF).

The Indian milk scenario witnessed a total metamorphosis by the advent of Operation Flood; thus greatly increasing the per capita consumption of milk and sparking of high demand for cattle feed. On analyzing the factors related to the cattle feed demand, it is seen that there can be a positive change in the market demand for feeds. The major factors contributing to this are: (i) Shrinkage of open land for cattle grazing, urbanization and resultant shortage of conventionally used cattle feeds, (ii) Introduction of high yield cattle requires specialized feeds, (iii) urbanization has brought about a marked shift in people's eating habits with an increased intake of milk and other cattle-based products, thus resulting in added demand for livestock products. It is estimated that milk consumption will grow at 2.8 percent per annum.

Our actual results may differ materially from those expressed in or implied by these forward-looking statements. Our fiscal year ends on March 31 of each year, so all references to a particular fiscal are to the twelve-month period ended March 31 of that year.

The financial information used in this section, unless otherwise stated, is derived from our Financial Information, as restated prepared in accordance with Indian GAAP, Companies Act and SEBI Regulations. The following information is qualified in its entirety by, and should be read together with, the more detailed financial and other information included in this Draft Red Herring Prospectus, including the information contained in the sections titled “Risk Factors” and “Financial Information” beginning on pages 18 and 172, respectively.

OVERVIEW

We are engaged in the business of de-linting and de-hulling of cotton seeds by mechanical process, oil extraction from cotton seeds and solvent extraction from cotton seeds oil cake and ground nuts. Our manufacturing process is in three stages (I) De-linting and de-hulling of Cotton seeds, this process result in manufacture of shot fiber (linter), and De-linted cotton Seeds (II) Cotton seeds oil extraction process result in pre refine cotton seeds oil and cotton seeds oil cake and (III) Solvent extraction process, result in pre refine wash oil and de-oil cotton seeds cake.

Cotton linter can be use in manufacturing of papers and as raw materials for manufacture of cellulose, this can be further process for medical and cosmetic purpose, linter can be broadly classified as a industrial raw materials. Cotton seeds oil cake, cotton seeds de oil cake and cotton hull are used as animal feeds. Cotton seed pre refine oil further process by refinery to convert in to edible oil.

Our manufacturing facility is situated at Survey No.54 P, At- Bhunava, Rajkot- Gondal Highway, Dist. Rajkot. The Registered office of the Company is situated at Imperial Heights Tower- B, Second Floor, and office No. B- 206, 150ft Ring Road, Opposite Big Bazar, Rajkot-36005, Gujarat.

Our total Income were Rs. 15,756.70 lakhs, Rs.18,326.16 lakhs and Rs. 17,443.76 lakhs and our profit for the period was Rs. 66.70 lakhs , Rs. 50.72 lakhs and Rs. 136.29 lakhs for the financial years 2017, 2016 and 2015, respectively. PROCESS FLOW CHART

The entire cotton seed oil manufacturing process includes several processes. Firstly, cotton seeds are cleaned to remove the foreign matter such as stones, shale, stick and iron etc. The cleaned cotton seeds are then fed into a De-linting line machines in which the tight rolls of seeds are spread over high speed circular saws. The saw scrape off the lint from the seed and the lint is sucked pneumatically into lint beating and cleaning device.

Delinting is generally done in two stages, in the first stage the light cut is taken and in the second stage more severe cut is taken. Long fiber used in paper and artificial silk industry.

The delinting seeds are then feed into hullers wherein the outer hull of the seed is cracked by Knife-edge mounted on high speed rotors, this operation is called as De-linting operation. The mixture of hulls and kernel so produced is passed over reciprocating sieves to separate the kernel and hulls. The kernel portion contains all the oil as well as proteins. The Cotton seeds hulls are used to feed livestock.

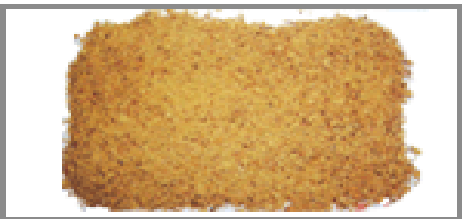

The kernel is fed into a series of expellers consisting of heavy screws working in strong cages. The kernel are squeezed with pressure as high as 5 to 10 tones per sq. inch. At this pressure the oil is squeezed out through the slits in the cage and the kernel which are pressed into cakes, called as oil cakes containing about 7% to 8 % oil are discharged through the cage.

The oil cake is further sent to solvent extraction plant, the oil cake is fed into extractor where it is treated with low boiling petroleum solvent called normal hexane. The hexane dissolves the oil from the cake forming a solution and the oil content of cake is reduced. The solution of oil in hexane is distilled in specially designed distillation equipment under vacuum to evaporate the solvent from the oil. The oil thus separated is stored in the tank.

“cotton seeds cakes”, that are the solid matter that remains once oil has been extracted and pressed from cotton seeds by using “Oil Expellers Machines”, These “De-oil cake cotton seed cakes”, are widely used in the industry for feeding cattle. The left out residual oil cake in the expeller is further completely recovered through solvent extraction process.

PRODUCT PROFILE

 	<p>1st Cut Cotton Linter</p> <p>Cotton Linters are usually obtained by de linting ginned seeds. Cotton Linters are obtained in 2 stages i.e. 1st Cut cotton linter and 2nd Cut, cotton linters.</p> <p>1st Cut Cotton linter have longer fibber length than2nd Cut Cotton Linter</p> <p>2nd Cut, cotton linters. Cotton Linters are used for paper board industry and thus wood pulp and other natural resources are saved. Cotton short fibber is also used for manufacturing specific types of cotton clothes, carpets, curtains, etc.</p>
	<p>Delinted Cotton Seeds</p> <p>After removing the lint from cottonseed by delinting process the delinted Cotton Seed is produced. The Delinted Cotton Seed is further sold to the oil refineries.</p>

	<p>Cottonseed Hulls</p> <p>Cottonseed Hulls are the outer covering of the cottonseed and are separated from the kernel prior to the oil extraction process. Cottonseed hulls are rich in nutritive value as compared to grass hay. Cottonseed hulls are used primarily as feed for livestock. Hulls are easy to store and handle, require no grinding, and can be fed with less waste than hay.</p>
	<p>Cottonseed Oil Cake</p> <p>Cotton seed oil cake is a major source of livestock feed. It is also used as fertilizer, either alone or in mixtures with other ingredients. It is an excellent organic source of nitrogen, phosphorus, potash, and many minor plant food elements.</p>
	<p>Cottonseed Oil</p> <p>We provide un-refined Cotton Seed Crude Oil (Cotton Seed Raw Oil), which is refined and filtered at the refinery.</p>
	<p>Deoil cake/meal(DOM)</p> <p>De Oil cake is joint product of solvent extraction product. De oil cake is further process by and proteins are added for the purpose of cattle feed product.</p>
	<p>Ground nuts oil cake</p> <p>Groundnut Oil Cake is made by extracting the oil completely from the groundnut seeds. The left over is then processed to produce high quality Groundnut Oil Cake. The product is highly nutritious and widely used in as cattle feed.</p>

Since Pantomath Capital Advisors Private Limited is the sole Book Running Lead Manager to this Issue, a statement of inter se allocation of responsibilities among Book Running Lead Manager is not applicable.

APPRAISAL AND MONITORING AGENCY

As per regulation 16(1) of the SEBI ICDR Regulations, the requirement of Monitoring Agency is not mandatory if the Issue size is below Rs. 50,000 Lakhs. Since the Issue size is only of Rs. [●] lakhs, our Company has not appointed any monitoring agency for this Issue. However, as per Section 177 of the Companies Act, 2013, the Audit Committee of our Company, would be monitoring the utilization of the proceeds of the Issue.

EXPERT OPINION

Except the report of the Peer Reviewed Auditor on statement of tax benefits and report on restated financials for the year ended March 31, 2017, 2016, 2015, 2014 and 2013 as included in this Draft Red herring Prospectus, our Company has not obtained any expert opinion.

BOOK BUILDING PROCESS

Book building, with reference to the Issue, refers to the process of collection of Bids on the basis of the Red Herring Prospectus within the Price Band. The Price Band shall be determined by our Company in consultation with the BRLM in accordance with the Book Building Process, and advertised in all editions of a widely circulated English Newspaper, all editions of a widely circulated Hindi Newspaper and a widely circulated Gujarati Newspaper, Gujarati being the regional language of Gujrat, where our registered office is situated at least five working days prior to the Bid/ Issue Opening date. The Issue Price shall be determined by our Company, in consultation with the BRLM in accordance with the Book Building Process after the Bid/Issue Closing Date. Principal parties involved in the Book Building Process are:-

- Our Company;
- The Book Running Lead Manager in this case being Pantomath Capital Advisors Private Limited, the Syndicate Member(s) who are intermediaries registered with SEBI/ registered as brokers with National Stock Exchange of India Limited and eligible to act as Underwriters. The Syndicate Member(s) will be appointed by the BRLM;
- The Registrar to the Issue and;
- The Designated Intermediaries

This Issue is being made through the 100 per cent Book Building Process wherein 50 per cent of the Issue shall be available for allocation to Retail Individual Bidders and the balance shall be offered to QIBs and Non-Institutional Investors. Subject to valid Bids being received at or above the Issue Price, allocation to all categories in the Net Issue, shall be made on a proportionate basis, except for Retail Portion where allotment to each Retail Individual Bidders shall not be less than the minimum bid lot, subject to availability of Equity Shares in Retail Portion, and the remaining available Equity Shares, if any, shall be allotted on a proportionate basis. Under-subscription, if any, in any category, would be allowed to be met with spill-over from any other category or a combination of categories at the discretion of our Company in consultation with the BRLM and the Stock Exchange.

All Bidders (excluding Anchor Investors) can participate in the Issue only through the ASBA process. Anchor Investors are not permitted to participate through the ASBA process. In accordance with the SEBI Regulations, QIBs and Non-Institutional Bidders are not allowed to withdraw or lower the size of their Bids (in terms of the quantity of the Equity Shares or the Bid Amount) at any stage. Retail Individual Bidders can revise or withdraw their Bids prior to the Bid/Issue Closing Date. Further, Anchor Investors cannot withdraw their Bids after the Anchor Investor Bid/Issue Period. The allocation in the net Issue to the public category shall be made as follows:

- a) Minimum fifty percent to retail individual investors; and
- b) Remaining to
 - i. Individual applicants other than retail individual investors; and
 - ii. Other investors including corporate bodies or institutions, irrespective of the number of specified securities applied for;
- c) The unsubscribed portion in either of the categories specified in (a) or (b) above may be allocated to the applicants in the other category.

If the retail individual investor category is entitled to more than fifty per cent on proportionate basis, accordingly the retail individual investors shall be allocated that higher percentage

The process of Book Building under the SEBI ICDR Regulations is subject to change from time to time and the investors are advised to make their own judgment about investment through this process prior to making a Bid or application in the Issue.

For further details on the method and procedure for Bidding, please see section entitled “*Issue Procedure*” on page 220 of this Draft Red Herring Prospectus

Illustration of Book Building and Price Discovery Process (Investors should note that this example is solely for illustrative purposes and is not specific to the Issue) Bidders can bid at any price within the price band. For instance, assume a price band of Rs. 20 to Rs. 24 per equity share, Issue size of 3,000 equity shares and receipt of five bids from bidders, details of which are shown in the table below. A graphical representation of the consolidated demand and price would be made available at the bidding centers during the bidding period. The illustrative book below shows the demand for the equity shares of the issuer company at various prices and is collated from bids received from various investors.

Bid Quantity	Bid Price (Rs.)	Cumulative Bid Quantity	Subscription
500	24	500	16.67%
1,000	23	1,500	50.00%
1,500	22	3,000	100.00%

2,000	21	5,000	166.67%
2,500	20	7,500	250.00%

The price discovery is a function of demand at various prices. The highest price at which the issuer is able to Issue the desired number of shares is the price at which the book cuts off, i.e., Rs. 22 in the above example. The issuer, in consultation with the Book Running Lead Manager will finalize the Issue price at or below such cut-off price, i.e., at or below Rs. 22/-. All bids at or above this Issue price and cut-off bids are valid bids and are considered for allocation in the respective categories.

Steps to be taken by the Bidders for Bidding:

1. Check eligibility for making a Bid (see section titled “*Issue Procedure*” on page 220. of this Draft Red Herring Prospectus);
2. Ensure that you have a demat account and the demat account details are correctly mentioned in the Bid cum Application Form;
3. Ensure correctness of your PAN, DP ID and Client ID mentioned in the Bid cum Application Form. Based on these parameters, the Registrar to the Issue will obtain the Demographic Details of the Bidders from the Depositories.
4. Except for Bids on behalf of the Central or State Government officials, residents of Sikkim and the officials appointed by the courts, who may be exempt from specifying their PAN for transacting in the securities market, for Bids of all values ensure that you have mentioned your PAN allotted under the Income Tax Act in the Bid cum Application Form. The exemption for Central or State Governments and officials appointed by the courts and for investors residing in Sikkim is subject to the Depository Participant’s verification of the veracity of such claims of the investors by collecting sufficient documentary evidence in support of their claims
5. Ensure that the Bid cum Application Form is duly completed as per instructions given in this Draft Red Herring Prospectus and in the Bid cum Application Form;

BID / OFFER PROGRAMME

An indicative timetable in respect of the Issue is set out below:

Event	Indicative Date
Bid/Issue Opened Date	[●]
Bid/Issue Closed Date	[●]
Finalization of Basis of Allotment with the Designated Stock Exchange	[●]
Initiation of Refunds	[●]
Credit of Equity Shares to Demat Accounts of Allottees	[●]
Commencement of trading of the Equity Shares on the Stock Exchange	[●]

The above timetable is indicative and does not constitute any obligation on our Company or the Book Running Lead Manager. Whilst our Company shall ensure that all steps for the completion of the necessary formalities for the listing and the commencement of trading of the Equity Shares on the Stock Exchange are taken within 6 Working Days of the Issue Closing Date, the timetable may change due to various factors, such as extension of the Issue Period by our Company, or any delays in receiving the final listing and trading approval from the Stock Exchange. The Commencement of trading of the Equity Shares will be entirely at the discretion of the Stock Exchange and in accordance with the applicable laws.

Bids and any revision to the same shall be accepted only between 10.00 a.m. and 5.00 p.m. (IST) during the Issue Period. On the Issue Closing Date, the Bids and any revision to the same shall be accepted between 10.00 a.m. and 5.00 p.m. (IST) or such extended time as permitted by the Stock Exchanges, in case of Bids by Retail Individual Bidders after taking into account the total number of bids received up to the closure of timings and reported by the Book Running Lead Manager to the Stock Exchanges. It is clarified that Bids not uploaded on the electronic system would be rejected. Bids will be accepted only on Working Days. Neither our Company nor the Book Running Lead Manager is liable for any failure in uploading the Bids due to faults in any software/hardware system or otherwise.

Non Retail Bidders shall not be allowed to either withdraw or lower the size of their Bid at any stage. Non Retail Bidders may revise their Bids upwards (in terms of quantity of Equity Shares) during the Issue Period. Such upward revision must be made using the Revision Form.

In case of discrepancy in the data entered in the electronic book vis-à-vis the data contained in the physical or electronic Bid cum Application Form, for a particular Bidder, the Registrar to the Issue shall ask the relevant SCsBs / RTAs / DPs / Stock Brokers, as the case may be, for rectified data.

DETAILS OF THE MARKET MAKING ARRANGEMENT

Our Company and the Book Running Lead Manager has entered into an agreement dated [●], with the following Market Maker, duly registered with EMERGE Platform of National Stock Exchange of India Limited to fulfil the obligations of Market Making:-

Pantomath Stock Brokers Private Limited

406-408, Keshava Premises, Behind Family Court, Bandra Kurla Complex, Bandra (East), Mumbai 400 051, Maharashtra, India

Tel: +91 22 6194 6774

Fax: +91 22 2659 8690

Email: broking@pantomathgroup.com

Contact Person: Mahavir Toshniwal

SEBI Registration Number: INZ000068338

Pantomath Stock Brokers Private Limited registered with EMERGE segment of National Stock Exchange of India Limited will act as the Market Maker and has agreed to receive or deliver of the specified securities in

the market making process for a period of three years from the date of listing of our Equity Shares or for a period as may be notified by any amendment to SEBI (ICDR) Regulations.

The Market Maker shall fulfil the applicable obligations and conditions as specified in the SEBI (ICDR) Regulations, as amended from time to time and the circulars issued by National Stock Exchange of India Limited and SEBI in this matter from time to time.

Following is a summary of the key details pertaining to the Market Making arrangement:

1. The Market Maker(s) (individually or jointly) shall be required to provide a 2-way quote for 75% of the time in a day. The price band shall be 20% and the Market Maker Spread (difference between the sell and the buy quote) shall be within 10% or as intimated by Exchange from time to time. The same shall be monitored by the Stock Exchange. Further, the Market Maker(s) shall inform the Exchange in advance for each and every black out period when the quotes are not being offered by the Market Maker(s).
2. The minimum depth of the quote shall be Rs. 1,00,000/-. However, the investors with holdings of value less than Rs. 1,00,000/- shall be allowed to Issue their holding to the Market Maker(s) (individually or jointly) in that scrip provided that he sells his entire holding in that scrip in one lot along with a declaration to the effect to the selling broker. Based on the IPO price of [●]/- the minimum lot size is [●] Equity Shares thus minimum depth of the quote shall be Rs. [●]/- until the same, would be revised by National Stock Exchange of India Limited.
3. After a period of three (3) months from the market making period, the Market Maker would be exempted to provide quote if the Shares of Market Maker in our Company reaches to 25% of Issue Size (including the [●] Equity Shares out to be allotted under this Issue). Any Equity Shares allotted to Market Maker under this Offer over and above 25% Equity Shares would not be taken in to consideration of computing the threshold of 25% of Issue Size. As soon as the Shares of Market Maker in our Company reduce to 24% of Issue Size, the Market Maker will resume providing 2-way quotes.
4. There shall be no exemption / threshold on downside. However, in the event the Market Maker exhausts his inventory through market making process, National Stock Exchange of India Limited may intimate the same to SEBI after due verification.
5. Execution of the order at the quoted price and quantity must be guaranteed by the Market Maker(s), for the quotes given by him.
6. There would not be more than five Market Makers for the Company's Equity Shares at any point of time and the Market Makers may compete with other Market Makers for better quotes to the investors. At this stage, Pantomath Stock Brokers Private Limited is acting as the sole Market Maker.
7. The shares of the company will be traded in continuous trading session from the time and day the company gets listed on EMERGE Platform of National Stock Exchange of India Limited and market maker will remain present as per the guidelines mentioned under National Stock Exchange of India Limited and SEBI circulars.
8. There will be special circumstances under which the Market Maker may be allowed to withdraw temporarily / fully from the market – for instance due to system problems, any other problems. All controllable reasons require prior approval from the Exchange, while force-majeure will be applicable for non-controllable reasons. The decision of the Exchange for deciding controllable and non-controllable reasons would be final.
9. The Market Maker shall have the right to terminate said arrangement by giving one month notice or on mutually acceptable terms to the Book Running Lead Manager, who shall then be responsible to appoint a replacement Market Maker(s).

In case of termination of the above mentioned Market Making agreement prior to the completion of the compulsory Market Making period, it shall be the responsibility of the Book Running Lead Manager to arrange for another Market Maker(s) in replacement during the term of the notice period being served by the Market Maker but prior to the date of releasing the existing Market Maker from its duties in order to ensure compliance with the requirements of regulation 106V of the SEBI (ICDR) Regulations. Further the

Company and the Book Running Lead Manager reserve the right to appoint other Market Maker(s) either as a replacement of the current Market Maker or as an additional Market Maker subject to the total number of Designated Market Makers does not exceed 5 (five) or as specified by the relevant laws and regulations applicable at that particular point of time. The Market Making Agreement is available for inspection at our Registered Office from 11.00 a.m. to 5.00 p.m. on working days.

10. EMERGE Platform of National Stock Exchange of India Limited will have all margins which are applicable on the National Stock Exchange of India Limited Main Board viz., Mark-to-Market, Value-At-Risk (VAR) Margin, Extreme Loss Margin, Special Margins and Base Minimum Capital etc. National Stock Exchange of India Limited can impose any other margins as deemed necessary from time-to-time.
11. EMERGE Platform of National Stock Exchange of India Limited will monitor the obligations on a real time basis and punitive action will be initiated for any exceptions and / or non-compliances. Penalties / fines may be imposed by the Exchange on the Market Maker, in case he is not able to provide the desired liquidity in a particular security as per the specified guidelines. These penalties / fines will be set by the Exchange from time to time. The Exchange will impose a penalty on the Market Maker in case he is not present in the market (offering two way quotes) for at least 75% of the time. The nature of the penalty will be monetary as well as suspension in market making activities / trading membership.

The Department of Surveillance and Supervision of the Exchange would decide and publish the penalties / fines / suspension for any type of misconduct / manipulation / other irregularities by the Market Maker from time to time.

12. Pursuant to SEBI Circular number CIR/MRD/DSA/31/2012 dated November 27, 2012, limits on the upper side for Market Makers during market making process has been made applicable, based on the issue size and as follows:

Issue size	Buy quote exemption threshold (including mandatory initial inventory of 5% of the Issue Size)	Re-Entry threshold for buy quote (including mandatory initial inventory of 5% of the Issue Size)
Up to Rs. 20 Crore	25%	24%
Rs. 20 crore to Rs. 50 crore	20%	19%
Rs. 50 to Rs. 80 crore	15%	14%
Above Rs. 80 crore	12%	11%

The Market Making arrangement, trading and other related aspects including all those specified above shall be subject to the applicable provisions of law and / or norms issued by SEBI / National Stock Exchange of India Limited from time to time.

The Equity Shares that are being locked-in are eligible for computation of Promoter's Contribution under Regulation

33 of the SEBI ICDR Regulations. In this connection, as per Regulation 33 of the SEBI ICDR Regulations, our Company confirms that the Equity Shares locked-in do not consist of:

- (i) Equity Shares acquired during the preceding three years for consideration other than cash and revaluation of assets or capitalization of intangible assets or bonus shares out of revaluations reserves or unrealised profits or bonus shares of shares which are otherwise ineligible for computation of Promoters' Contribution;
- (ii) Equity Shares acquired during the preceding one year, at a price lower than the price at which the Equity Shares are being offered to the public in the Issue;
- (iii) Equity Shares issued to the Promoters upon conversion of a partnership firm;
- (iv) Equity Shares held by the Promoters that are subject to any pledge; and
- (v) Equity Shares for which specific written consent has not been obtained from the respective shareholders for inclusion of their subscription in the Promoters' Contribution subject to lock-in.

The minimum Promoters' Contribution has been brought in to the extent of, not less than the specified minimum lot and from the persons defined as "Promoters" under the SEBI ICDR Regulations.

iii. Details of share capital locked in for one year

Other than the above Equity Shares that would be locked in for 3 (three) years, the entire pre-Issue capital of our Company would be locked-in for a period of 1 (one) year from the date of Allotment in the Issue pursuant to Regulation 36(b) and Regulation 37 of the SEBI ICDR Regulations.

iv. Other requirements in respect of lock-in

Pursuant to Regulation 39 of the SEBI ICDR Regulations, the locked-in Equity Shares held by the Promoters, as specified above, can be pledged only with scheduled commercial banks or public financial institutions as collateral security for loans granted by such scheduled commercial banks or public financial institution, provided that the pledge of the Equity Shares is one of the terms of the sanction of the loan.

Provided that securities locked in as Promoters' Contribution for 3 years under Regulation 36(a) of the SEBI ICDR Regulations may be pledged only if, in addition to fulfilling the above requirement, the loan has been granted by such scheduled commercial bank or public financial institution for the purpose of financing one or more of the objects of the Issue.

Pursuant to Regulation 40 of the SEBI ICDR Regulations, Equity Shares held by the Promoters may be transferred to and amongst the Promoters, the Promoter Group or to new promoters or persons in control of our Company subject to continuation of the lock-in in the hands of the transferees for the remaining period and compliance with the SEBI Takeover Regulations.

Further, pursuant to Regulation 40 of the SEBI ICDR Regulations, the Equity Shares held by persons other than the Promoters prior to the Issue may be transferred to any other person holding the Equity Shares which are locked-in as per Regulation 37 of the SEBI ICDR Regulations, provided that lock-in on such Equity Shares will continue for the remaining period with the transferee and such transferee shall not be eligible to transfer such Equity Shares till the lock-in period stipulated under the SEBI ICDR Regulations has ended, subject to compliance with the SEBI Takeover Regulations, as applicable.

We further confirm that our Promoter's Contribution of 20% of the post Issue Equity Share capital does not include any contribution from Alternative Investment Fund.

Except as mentioned below, there were no shares purchased/sold by the Promoter and Promoter Group, directors and their immediate relatives during last 6 months:

11. Our Company does not have any Employee Stock Option Scheme / Employee Stock Purchase Plan for our employees and we do not intend to allot any shares to our employees under Employee Stock Option Scheme / Employee Stock Purchase Plan from the proposed issue. As and when, options are granted to our employees under the Employee Stock Option Scheme, our Company shall comply with the SEBI (Share Based Employee Benefits) Regulations, 2014.

12. Neither the Book Running Lead Manager viz. Pantomath Capital Advisors Private Limited, nor its associates hold any Equity Shares of our Company as on the date of the Draft Prospectus.
13. Under-subscription in the net issue, if any, in any category, would be allowed to be met with spill over from any other category or a combination of categories at the discretion of our Company in consultation with the Book Running Lead Manager and the National Stock Exchange of India Limited - EMERGE.
14. The unsubscribed portion in any reserved category (if any) may be added to any other reserved category.
15. The unsubscribed portion if any, after such inter se adjustments among the reserved categories shall be added back to the net offer to the public portion.
16. There are no Equity Shares against which depository receipts have been issued.
17. Other than the Equity Shares, there are no other classes of securities issued by our Company.
18. There will be no further issue of capital, whether by way of issue of bonus shares, preferential allotment, and right issue or in any other manner during the period commencing from the date of the Draft Prospectus until the Equity Shares have been listed. Further, our Company does not intend to alter its capital structure within six months from the date of opening of the Issue, by way of split/consolidation of the denomination of Equity Shares. However our Company may further issue Equity Shares (including issue of securities convertible into Equity Shares) whether preferential or otherwise after the date of the listing of equity shares to finance an acquisition, merger or joint venture or for regulatory compliance or such other scheme of arrangement or any other purpose as the Board may deem fit, if an opportunity of such nature is determined by its Board of Directors to be in the interest of our Company
19. None of the persons/entities comprising our Promoter Group, or our Directors or their relatives have financed the purchase by any other person of securities of our Company other than in the normal course of the business of any such entity/individual or otherwise during the period of six months immediately preceding the date of filing of this Draft Prospectus.
20. Our Company, our Promoters, our Directors and the Book Running Lead Manager have not entered into any buy back or standby or similar arrangements for the purchase of Equity Shares being offered through the Issue from any person.
21. There are no safety net arrangements for this public issue.
22. An over-subscription to the extent of 10% of the Issue can be retained for the purpose of rounding off to the nearest multiple of minimum allotment lot, while finalizing the Basis of Allotment. Consequently, the actual Allotment may go up by a maximum of 10% of the Issue, as a result of which, the post-Issue paid up capital after the Issue would also increase by the excess amount of Allotment so made. In such an event, the Equity Shares held by our Promoters and subject to lock- in shall be suitably increased; so as to ensure that a minimum of 20% of the post Issue paid-up capital is locked in.
23. In case of over-subscription in all categories the allocation in the Issue shall be as per the requirements of Regulation 43 (4) of SEBI (ICDR) Regulations, as amended from time to time.
24. As on date of this Draft Prospectus there are no outstanding warrants, options or rights to convert debentures loans or other financial instruments into our Equity Shares.
25. All the Equity Shares of our Company are fully paid up as on the date of this Draft Prospectus. Further, since the entire issue price in respect of the Issue is payable on application, all the successful applicants will be issued fully paid-up equity shares and thus all shares offered through this issue shall be fully paid-up.
26. As per RBI regulations, OCBs are not allowed to participate in this Issue.
27. Our Company has not raised any bridge loans against the proceeds of the Issue.

28. Our Company undertakes that at any given time, there shall be only one denomination for our Equity Shares, unless otherwise permitted by law.
29. Our Company shall comply with such accounting and disclosure norms as specified by SEBI from time to time.
30. An Applicant cannot make an application for more than the number of Equity Shares being issued through this Issue, subject to the maximum limit of investment prescribed under relevant laws applicable to each category of investors.
31. No payment, direct or indirect in the nature of discount, commission, and allowance or otherwise shall be made either by us or our Promoters to the persons who receive allotments, if any, in this Issue.
32. We have 29 shareholders as on the date of filing of this Draft Prospectus.
33. Our Promoters and the members of our Promoter Group will not participate in this Issue.
34. Our Company has not made any public issue since its incorporation.
35. Our Company shall ensure that transactions in the Equity Shares by the Promoters and the Promoter Group between the date of filing the Draft Prospectus and the Issue Closing Date shall be reported to the Stock Exchange within twenty-four hours of such transaction.
36. For the details of transactions by our Company with our Promoter Group, Group Companies for the financial years ended March 31, 2013, 2014, 2015, 2016, 2017 and for the period ended September 30, 2017, please refer to paragraph titled “Details of Related Parties Transactions as Restated” in the chapter titled *‘Financial Statements as restated’* on page [●] of the Draft Prospectus.
37. None of our Directors or Key Managerial Personnel holds Equity Shares in our Company, except as stated in the chapter titled *“Our Management”* beginning on page [●] of the Draft Prospectus.

Justification for “Holding Period” levels

The justifications for the holding levels mentioned in the table above are provided below:

Assets- Current Assets	
Inventories	We have assumed Inventory period of 0.90 month in 2017-18 as against 0.88 months in 2016-17 which is in line with our historic figures and Company’s Policy.
Trade receivables	We have assumed trade receivable period of 3.00 months for trade receivables for FY 2017-18 as against 2.89 months for FY 2016-17 as we intend to give a liberal period to our customers to increase our customer base.
Finished Goods	We have assumed Finished goods of 1.75 month in 2017-18 as against 1.73 months in 2016-17 which is in line with current policy.
Liabilities–Current Liabilities	
Trade Payables	In FY 2017-18, the credit period is expected to be 1.50 months same as FY 2016-17, as the Company will strive to adhere to standard credit policy.

Our Company proposes to utilize Rs. 1500.00 lakhs of the Net Proceeds in Fiscal 2018 towards our working capital requirements. The balance portion of our working capital requirement for the Fiscal 2018 will be arranged from existing Equity, Bank loans and internal accruals.

Pursuant to the certificate dated November 14, 2017 we have compiled the working capital estimates from the Restated Financial Information for the Financial Years 2016 and 2017 and the working capital projections as approved by the Board pursuant to its resolution dated November 14, 2017.

2. General Corporate Purpose

The Net Proceeds will be first utilized towards the Objects as mentioned as mentioned above. The balance is proposed to be utilized for general corporate purposes, subject to such utilization not exceeding 25% of the Net Proceeds, in compliance with the SEBI ICDR Regulations. Our Company intends to deploy the balance Net Proceeds, if any, for general corporate purposes, subject to above mentioned limit, as may be approved by our management, including but not restricted to, the following:

- (i) strategic initiatives
- (ii) brand building and strengthening of marketing activities; and
- (iii) on going general corporate exigencies or any other purposes as approved by the Board subject to compliance with the necessary regulatory provisions.

The quantum of utilization of funds towards each of the above purposes will be determined by our Board of Directors based on the permissible amount actually available under the head “General Corporate Purposes” and the business requirements of our Company, from time to time. We, in accordance with the policies of our Board, will have flexibility in utilizing the Net Proceeds for general corporate purposes, as mentioned above.

ISSUE RELATED EXPENSES

The expenses for this Issue include issue management fees, underwriting fees, registrar fees, legal advisor fees, printing and distribution expenses, advertisement expenses, depository charges and listing fees to the Stock Exchange, among others. #Amount Allotted is the product of the number of Equity Shares Allotted and the Issue Price.

BRIDGE FINANCING

We have not entered into any bridge finance arrangements that will be repaid from the Net Issue Proceeds. However, we may draw down such amounts, as may be required, from an overdraft arrangement / cash credit facility with our lenders, to finance project requirements until the completion of the Issue. Any amount that is drawn down from the overdraft arrangement / cash credit facility during this period to finance project requirements will be repaid from the Net Proceeds of the Issue.

INTERIM USE OF FUNDS

Pending utilization of the Issue Proceeds for the Objects of the Issue described above, our Company shall deposit the funds only in Scheduled Commercial Banks included in the Second Schedule of Reserve Bank of India Act, 1934.

In accordance with Section 27 of the Companies Act, 2013, our Company confirms that, pending utilisation of the proceeds of the Issue as described above, it shall not use the funds from the Issue Proceeds for any investment in equity and/or real estate products and/or equity linked and/or real estate linked products.

MONITORING UTILIZATION OF FUNDS

There is no requirement for the appointment of a monitoring agency, as the Issue size is less than Rs 10,000 lakhs. Our Board will monitor the utilization of the proceeds of the Issue and will disclose the utilization of the Net Proceeds under a separate head in our balance sheet along with the relevant details, for all such amounts that have not been utilized. Our Company will indicate investments, if any, of unutilized Net Proceeds in the balance sheet of our Company for the relevant Fiscal subsequent to receipt of listing and trading approvals from the Stock Exchange.

Pursuant to Regulation 32 of the Listing Regulations, our Company shall on a half yearly basis disclose to the Audit Committee the uses and application of the Issue Proceeds. Until such time as any part of the Issue Proceeds remains unutilized, our Company will disclose the utilization of the Issue Proceeds under separate heads in our Company's balance sheet(s) clearly specifying the amount of and purpose for which Issue Proceeds have been utilized so far, and details of amounts out of the Issue Proceeds that have not been utilized so far, also indicating interim investments, if any, of such unutilized Issue Proceeds. In the event that our Company is unable to utilize the entire amount that we have currently estimated for use out of the Issue Proceeds in a Fiscal Year, we will utilize such unutilized amount in the next financial year. Further, in accordance with Regulation 32(1) (a) of the Listing Regulations our Company shall furnish to the Stock Exchanges on a half yearly basis, a statement indicating material deviations, if any, in the utilization of the Issue Proceeds for the objects stated in this Draft Red Herring Prospectus.

VARIATION IN OBJECTS

In accordance with Section 13(8) and Section 27 of the Companies Act, 2013 and applicable rules, our Company shall not vary the objects of the Issue without our Company being authorised to do so by the Shareholders by way of a special resolution through postal ballot. In addition, the notice issued to the Shareholders in relation to the passing of such special resolution (the "Postal Ballot Notice") shall specify the prescribed details as required under the Companies Act and applicable rules. The Postal Ballot Notice shall simultaneously be published in the newspapers, one in English and one in the vernacular language of the jurisdiction where the Registered Office is situated. Our Promoters or controlling Shareholders will be required to provide an exit opportunity to such Shareholders who do not agree to the proposal to vary the objects, at such price, and in such manner, as may be prescribed by SEBI, in this regard.

OTHER CONFIRMATIONS

No part of the proceeds of the Issue will be paid by us to the Promoters and Promoter Group, the Directors, Associates, Key Management Personnel or Group Companies and in the normal course of business and in compliance with the applicable law.

BASIS FOR ISSUE PRICE

The Issue Price will be determined by our Company in consultation with the Book Running Lead Manager, on the basis of assessment of market demand for the Equity Shares issued through the Book Building Process and on the basis of quantitative and qualitative factors as described below. The face value of the Equity Shares is Rs. 10 each and the Issue Price is [●] times the face value at the lower end of the Price Band and [●] times the face value at the higher end of the Price Band. Investors should also refer to the sections “Our Business”, “Risk Factors” and “Financial Statements” on pages [●], [●] and [●] respectively, to have an informed view before making an investment decision

QUALITATIVE FACTORS

Some of the qualitative factors, which form the basis for computing the price, are:

- Quality Assurance
- Leveraging the experience of our Promoters
- Strategic Location of our Manufacturing Facility

For further details, refer to heading “Our Competitive Strengths” under chapter titled “Our Business” beginning on page 123 of this Draft Red Herring Prospectus.

QUANTITATIVE FACTORS

The information presented below relating to the Company is based on the restated financial statements of the Company for Financial Year 2017, 2016, 2015 and the period ended September 30, 2017 prepared in accordance with Indian GAAP. Some of the quantitative factors, which form the basis or computing the price, are as follows:

1. Basic and Diluted Earnings per Share (EPS) as per Accounting Standard 20 as adjusted for changes in capital

Year Ended	EPS(Rs.)	Weight
March 31, 2015	2.18	1
March 31, 2016	0.37	2
March 31, 2017	0.44	3
Weighted Average		0.71
For the period ended September 30, 2017*		0.26

*Not Annualised

Note:

The earnings per share has been computed by dividing net profit as restated, attributable to equity shareholders by restated weighted average number of equity shares outstanding during the period / year. Restated weighted average number of equity shares has been computed as per AS20. The face value of each Equity Share is Rs. 10/-.

2. Price to Earnings (P/E) ratio in relation to Issue Price of Rs. [●] per Equity Share of Rs. 10 each fully paid up

Particulars	P/E Ratio on Cap Price	P/E on Floor Price
P/E ratio based on Basic EPS for FY 2016-17	[●]	[●]
P/E ratio based on Weighted Average EPS	[●]	[●]
*Industry P/E		N.A.

*We believe that there are no listed companies in India which are purely engaged in the business of de-linting and de-hulling of cotton seeds by mechanical process, oil extraction from cotton seeds and solvent extraction from cotton seeds oil cake and ground nuts. There are no comparable listed companies within the same line of business as our Company. Thus Industry P/E Ratio cannot be ascertained.

3. Return on Net worth (RoNW)

Return on Net Worth (“RoNW”) as per restated financial statements

Year Ended	RoNW (%)	Weight
March 31, 2015	14.33	1
March 31, 2016	2.70	2
March 31, 2017	3.43	3
Weighted average		5.01%
For the period ended September 30, 2017*		1.96%

*Not annualised

Note: The RoNW has been computed by dividing net profit after tax as restated, by Net Worth as at the end of the year.

4. Minimum Return on Total Net Worth post Issue needed to maintain Pre-Issue EPS for the year ended March 31, 2017

To maintain pre-issue basic & diluted EPS

- At the floor price – [●]%
- At the cap price – [●]%

5. Net Asset Value (NAV)

NAV per Equity Share	Restated Financial Statements
Net Asset Value per Equity Share as of March 31, 2017	12.96
Net Asset Value per Equity Share as of September 30, 2017	13.21
Net Asset Value per Equity Share after the Issue	[●]
Issue Price per equity share	[●]

Net Asset Value per Equity Share has been calculated as net worth divided by number of equity shares at the end of the year.

6. Comparison with other listed companies

We believe that there are no listed companies in India which are purely engaged in the business of de-linting and de-hulling of cotton seeds by mechanical process, oil extraction from cotton seeds and solvent extraction from cotton seeds oil cake and ground nuts. Further there are no listed entities which are focused exclusively on the segment in which we operate.

Notes:

- The figures for Shree Ram Proteins Limited are based on the restated results for the year ended March 31, 2017
- The Issue Price of Shree Ram Proteins Limited is Rs. [●] per Equity share. Shree Ram Proteins Limited is a Book Built issue and price band for the same shall be published 5 working days before opening of the Issue in English and Hindi national newspapers and one regional language newspaper with wide circulation.

The Board of Directors

Shree Ram Proteins Limited

Survey No. 54, Paiki 3,
Nr. T. T. Garments, 8B National Highway,
Nr. Bhunava, Dist. Gondal.
Ahmedabad.

Dear Sirs,

Sub: Statement of possible special tax benefits (“the Statement”) available to Shree Ram Proteins Limited (“the Company”) and its shareholders prepared in accordance with the requirements in Schedule VIII-Clause (VII) (L) of the Securities Exchange Board of India (Issue of Capital Disclosure Requirements) Regulations 2009, as amended (“the Regulations”)

We hereby report that the enclosed annexure, prepared by the Management of the Company, states the possible special tax benefits available to the Company and the shareholders of the Company under the Income - Tax Act, 1961 (“Act”) as amended by the Finance Act, 2017 (i.e. applicable to Financial Year 2017-18 relevant to Assessment Year 2018-19), presently in force in India. Several of these benefits are dependent on the Company or its shareholders fulfilling the conditions prescribed under the Act. Hence, the ability of the Company or its shareholders to derive the special tax benefits is dependent upon fulfilling such conditions which, based on business imperatives which the Company may face in the future, the Company may or may not choose to fulfil.

The benefits discussed in the enclosed annexure cover only special tax benefits available to the Company and its Shareholders and do not cover any general tax benefits available to the Company or its Shareholders. This statement is only intended to provide general information to the investors and is neither designed nor intended to be a substitute for professional tax advice. A shareholder is advised to consult his/ her/ its own tax consultant with respect to the tax implications arising out of his/her/its participation in the proposed issue, particularly in view of ever changing tax laws in India.

We do not express any opinion or provide any assurance as to whether:

- the Company or its shareholders will continue to obtain these benefits in future; or
- the conditions prescribed for availing the benefits have been/would be met.

The contents of this annexure are based on information, explanations and representations obtained from the Company and on the basis of our understanding of the business activities and operations of the Company and the provisions of the tax laws.

*No assurance is given that the revenue authorities / courts will concur with the views expressed herein. The views are based on the existing provisions of law and its interpretation, which are subject to change from time to time. We would not assume responsibility to update the view, consequence to such change.

We shall not be liable to Company for any claims, liabilities or expenses relating to this assignment except to the extent of fees relating to this assignment, as finally judicially determined to have resulted primarily from bad faith of intentional misconduct.

The enclosed annexure is intended for your information and for inclusion in the Draft Prospectus /Prospectus in connection with the proposed issue of equity shares and is not to be used, referred to or distributed for any other purpose without our written consent.

BACKGROUND OF INDIAN FOOD PROCESSING INDUSTRY

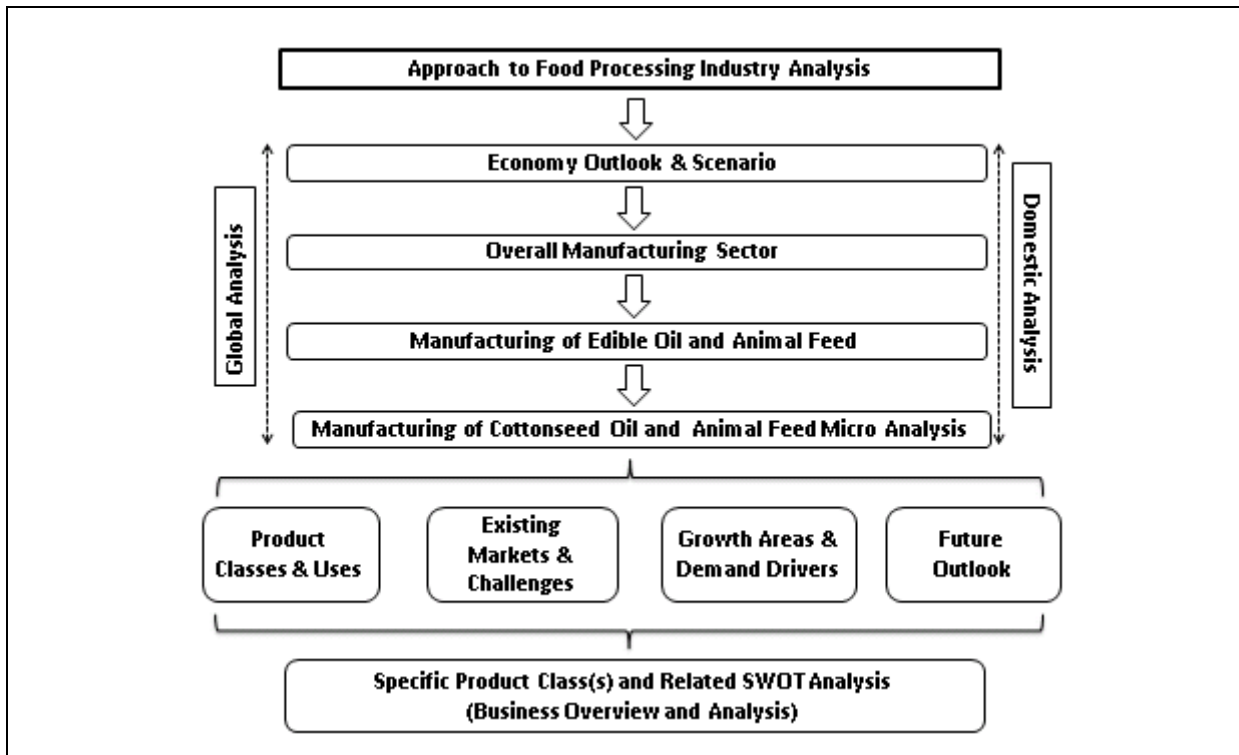

The Indian food industry is poised for huge growth, increasing its contribution to world food trade every year. In India, the food sector has emerged as a high-growth and high-profit sector due to its immense potential for value addition, particularly within the food processing industry. The food industry, which is currently valued at US\$ 39.71 billion!, is expected to grow at a Compounded Annual Growth Rate (CAGR) of 11 per cent to US\$ 65.4 billion by 2018. Food and grocery account for around 31 per cent of India’s consumption basket.

Accounting for about 32 per cent of the country’s total food market, The Government of India has been instrumental in the growth and development of the food processing industry. The government through the Ministry of Food Processing Industries (MoFPI) is making all efforts to encourage investments in the business. It has approved proposals for joint ventures (JV), foreign collaborations, industrial licenses, and 100 per cent export oriented units.

APPROACH TO FOOD PROCESSING INDUSTRY ANALYSIS

Analysis of Food Processing Industry needs to be approached at both macro and micro levels, whether for domestic or global markets. Food Processing Industry forms part of Manufacturing Sector at a macro level. Hence, broad picture of Manufacturing Sector should be at preface while analysing the Food Processing Industry.

Manufacturing sector comprises various industries, which in turn, have numerous sub-classes or products. One such major industry in the overall Manufacturing sector is 'Food Processing Industry', which in turn encompasses various components one of them being 'Manufacturing of Edible Oil' and 'Animal feed'.

Thus, extraction of oil from cotton seeds and manufacturing of animal feed industry both should be analysed in the light of 'Food Processing Industry' at large. An appropriate view on Food Processing Segment then, calls for the overall economy outlook, performance and expectations of Manufacturing Sector, position and outlook of Food Processing Industry segment micro analysis.

This Approach Note is developed by Pantomath Capital Advisors (P) Ltd ('Pantomath') and any unauthorized reference or use of this Note, whether in the context of Food Processing Industry and/or any other industry, may entail legal consequences.

GLOBAL ECONOMIC OVERVIEW

For India, three external developments are of significant consequence. In the short run, the change in the outlook for global interest rates as a result of the US elections and the implied change in expectations of US fiscal and monetary policy will impact on India's capital flows and exchange rates. Markets are factoring in a regime change in advanced countries, especially US macroeconomic policy, with high expectations of fiscal stimulus and unwavering exit from unconventional monetary policies. The end of the 20-year bond rally and end to the corset of deflation and deflationary expectations are within sight. Second, the medium-term political outlook for globalisation and in particular for the world's "political carrying capacity for globalisation" may have changed in the wake of recent developments. In the short run a strong dollar and declining competitiveness might exacerbate the lure of protectionist policies. These follow on on-going trends— documented widely—

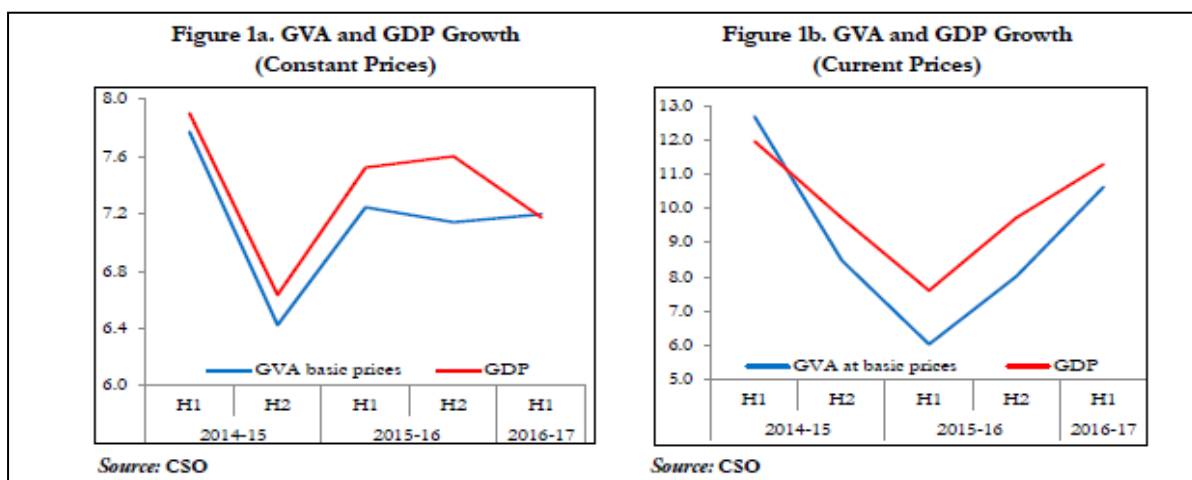

about stagnant or declining trade at the global level. This changed outlook will affect India's export and growth prospects

Third, developments in the US, especially the rise of the dollar, will have implications for China's currency and currency policy. If China is able to successfully re-balance its economy, the spill over effects on India and the rest of the world will be positive. On the other hand, further declines in the yuan, even if dollar-induced, could interact with underlying vulnerabilities to create disruptions in China that could have negative spill overs for India. For China, there are at least two difficult balancing acts with respect to the currency. Domestically, a declining currency (and credit expansion) props up the economy in the short run but delay rebalancing while also adding to the medium term challenges. Internationally, allowing the currency to weaken in response to capital flight risks creating trade frictions but imposing capital controls discourages FDI and undermines China's ambitions to establish the Yuan as a reserve currency. China with its underlying vulnerabilities remains the country to watch for its potential to unsettle the global economy.

REVIEW OF MAJOR DEVELOPMENTS IN INDIAN ECONOMY

The Indian economy has continued to consolidate the gains achieved in restoring macroeconomic stability. Real GDP growth in the first half of the year was 7.2 percent, on the weaker side of the 7.0-7.75 per cent projection in the Economic Survey 2015-16 and somewhat lower than the 7.6 percent rate recorded in the second half of 2015-16 (Figure 1a). The main problem was fixed investment, which declined sharply as stressed balance sheets in the corporate sector continued to take a toll on firms' spending plans. On the positive side, the economy was buoyed by government consumption, as the 7th Pay Commission salary recommendations were implemented, and by the long-awaited start of an export recovery as demand in advanced countries began to accelerate. Nominal GDP growth recovered to respectable levels, reversing the sharp and worrisome dip that had occurred in the first half of 2015-16 (Figure 1b).

The major highlights of the sectoral growth outcome of the first half of 2016-17 were: (i) moderation in industrial and nongovernment service sectors; (ii) the modest pick-up in agricultural growth on the back of improved monsoon; and (iii) strong growth in public administration and defence services—dampeners on and catalysts to growth almost balancing each other and producing a real Gross Value Addition (GVA) growth (7.2 percent), quite similar to the one (7.1 per cent) in H2 2015-16 (Figure 1b).

Inflation this year has been characterized by two distinctive features. The Consumer Price Index (CPI)-New Series inflation, which averaged 4.9 per cent during April-December 2016, has displayed a downward trend since July when it became apparent that kharif agricultural production in general, and pulses in particular would be bountiful. The decline in pulses prices has contributed substantially to the decline in CPI inflation which reached 3.4 percent at end-December. The second distinctive feature has been the reversal of WPI inflation, from a trough of (-)5.1 percent in August 2015 to 3.4

percent at end-December 2016, on the back of rising international oil prices. The wedge between CPI and WPI inflation, which had serious implications for the measurement of GDP discussed in MYEA (Box 3, Chapter 1, MYEA 2015-16), has narrowed considerably. Core inflation has, however, been more stable, hovering around 4.5 percent to 5 percent for the year so far. The outlook for the year as a whole is for CPI inflation to be below the RBI's target of 5 percent, a trend likely to be assisted by demonetisation.

External Sector

Similarly, the external position appears robust having successfully weathered the sizeable redemption of Foreign Currency Non-Resident (FCNR) deposits in late 2016, and the volatility associated with the US election and demonetisation. The current account deficit has declined to reach about 0.3 percent of GDP in the first half of FY2017. Foreign exchange reserves are at comfortable levels, having risen from around US\$350 billion at end-January 2016 to US\$ 360 billion at end-December 2016 and are well above standard norms for reserve adequacy. In part, surging net FDI inflows, which grew from 1.7 percent of GDP in FY2016 to 3.2 percent of GDP in the second quarter of FY2017, helped the balance-of-payments

The trade deficit declined by 23.5 per cent in April-December 2016 over corresponding period of previous year. During the first half of the fiscal year, the main factor was the contraction in imports, which was far steeper than the fall in exports. But during October- December, both exports and imports started a long-awaited recovery, growing at an average rate of more than 5 per cent. The improvement in exports appears to be linked to improvements in the world economy, led by better growth in the US and Germany. On the import side, the advantage on account of benign international oil prices has receded and is likely to exercise upward pressure on the import bill in the short to medium term. Meanwhile, the net services surplus declined in the first half, as software service exports slowed and financial service exports declined. Net private remittances declined by \$4.5 bn in the first half of 2016-17 compared to the same period of 2015-16, weighed down by the lagged effects of the oil price decline, which affected inflows from the Gulf region.

Fiscal Position

Trends in the fiscal sector in the first half have been unexceptional and the central government is committed to achieving its fiscal deficit target of 3.5 percent of GDP this year. Excise duties and services taxes have benefitted from the additional revenue measures introduced last year. The most notable feature has been the over-performance (even relative to budget estimates) of excise duties in turn based on buoyant petroleum consumption: real consumption of petroleum products (petrol) increased by 11.2 percent during April-December 2016 compared to same period in the previous year. Indirect taxes, especially petroleum excises, have held up even after demonetisation in part due to the exemption of petroleum products from its scope. More broadly, tax collections have held up to a greater extent than expected possibly because of payment of dues in demonetised notes was permitted. Non-tax revenues have been challenged owing to shortfall in spectrum and disinvestment receipts but also to forecast optimism; the stress in public sector enterprises has also reduced dividend payments.

State government finances are under stress. The consolidated deficit of the states has increased steadily in recent years, rising from 2.5 percent of GDP in 2014-15 to 3.6 percent of GDP in 2015-16, in part because of the UDAY scheme. The budgeted numbers suggest there will be an improvement this year. However, markets are anticipating some slippage, on account of the expected growth slowdown, reduced revenues from stamp duties, and implementation of their own Pay Commissions. For these reasons, the spread on state bonds over government securities jumped to 75 basis points in the January 2017 auction from 45 basis points in October 2016. For the general government as a whole, there is an improvement in the fiscal deficit with and without UDAY scheme.

OUTLOOK FOR 2016-17

This year's outlook must be evaluated in the wake of the November 8 action to demonetize the high denomination notes. But it is first important to understand the analytics of the demonetisation shock in

the short run. Demonetisation affects the economy through three different channels. It is potentially: 1) an aggregate demand shock because it reduces the supply of money and affects private wealth, especially of those holding unaccounted money; 2) an aggregate supply shock to the extent that economic activity relies on cash as an input (for example, agricultural production might be affected since sowing requires the use of labour traditionally paid in cash); and 3) an uncertainty shock because economic agents face imponderables related to the magnitude and duration of the cash shortage and the policy responses (perhaps causing consumers to defer or reduce discretionary consumption and firms to scale back investments).

Demonetisation is also very unusual in its monetary consequences. It has reduced sharply, the supply of one type of money— cash—while increasing almost to the same extent another type of money— demand deposits. This is because the demonetized cash was required to be deposited in the banking system. In the third quarter of FY2017 (when demonetisation was introduced), cash declined by 9.4 percent, demand deposits increased by 43 percent, and growth in the sum of the two by 11.3 percent.

The price counterparts of this unusual aspect of demonetisation are the surge in the price of cash (inferred largely through queues and restrictions), on the one hand; and the decline in interest rates on the lending rate (based on the marginal cost of funds) by 90 basis points since November 9; on deposits (by about 25 basis points); and on g-secs on the other (by about 32 basis points).

There is yet another dimension of demonetisation that must be kept in mind. By definition, all these quantity and price impacts will self-correct by amounts that will depend on the pace at which the economy is remonetized and policy restrictions eased. As this occurs, consumers will run down their bank deposits and increase their cash holdings. Of course, it is possible, even likely that the self-correction will not be complete because in the new equilibrium, aggregate cash holdings (as a share of banking deposits and GDP) are likely to be lower than before.

Anecdotal and other survey data abound on the impact of demonetisation. But we are interested in a macro-assessment and hence focus on five broad indicators: Agricultural (Rabi) sowing; Indirect tax revenue, as a broad gauge of production and sales; Auto sales, as a measure of discretionary consumer spending and two-wheelers, as the best indicator of both rural and less affluent demand; Real credit growth; and Real estate prices. Contrary to early fears, as of January 15, 2017 aggregate sowing of the two major rabi crops—wheat and pulses (gram)—exceeded last year’s planting by 7.1 percent and 10.7 percent, respectively. Favourable weather and moisture conditions presage an increase in production. To what extent these favourable factors will be attenuated will depend on whether farmers’ access to inputs—fertilizer, credit, and labour—was affected by the cash shortage.

To estimate a demonetisation effect, one needs to start with the counterfactual. Our best estimate of growth in the absence of demonetisation is 11¼ percent in nominal terms (slightly higher than last year’s Survey forecast because of the faster rebound in WPI inflation, but lower than the CSO’s advance estimate of 11.9 percent) and 7 percent in real terms (in line with both projections).

Finally, demonetisation will afford an interesting natural experiment on the substitutability between cash and other forms of money. Demonetisation has driven a sharp and dramatic wedge in the supply of these two: if cash and other forms are substitutable, the impact will be relatively muted; if, on the other hand, cash is not substitutable the impact will be greater.

OUTLOOK FOR 2017-18

Turning to the outlook for 2017-18, we need to examine each of the components of aggregate demand: exports, consumption, private investment and government.

As discussed earlier, India’s exports appear to be recovering, based on an uptick in global economic activity. This is expected to continue in the aftermath of the US elections and expectations of a fiscal stimulus. The IMF’s January update of its World Economic Outlook forecast is projecting an increase in global growth from 3.1 percent in 2016 to 3.4 percent in 2017, with a corresponding increase in growth for advanced economies from 1.6 percent to 1.9 percent. Given the high elasticity of Indian

real export growth to global GDP, exports could contribute to higher growth next year, by as much as 1 percentage point.

The outlook for private consumption is less clear. International oil prices are expected to be about 10-15 percent higher in 2017 compared to 2016, which would create a drag of about 0.5 percentage points. On the other hand, consumption is expected to receive a boost from two sources: catch-up after the demonetisation-induced reduction in the last two quarters of 2016-17; and cheaper borrowing costs, which are likely to be lower in 2017 than 2016 by as much as 75 to 100 basis points. As a result, spending on housing and consumer durables and semi-durables could rise smartly. It is too early to predict prospects for the monsoon in 2017 and hence agricultural production. But the higher is agricultural growth this year, the less likely that there would be an extra boost to GDP growth next year.

Since no clear progress is yet visible in tackling the twin balance sheet problem, private investment is unlikely to recover significantly from the levels of FY2017. Some of this weakness could be offset through higher public investment, but that would depend on the stance of fiscal policy next year, which has to balance the short-term requirements of an economy recovering from demonetisation against the medium-term necessity of adhering to fiscal discipline—and the need to be seen as doing so. Putting these factors together, we expect real GDP growth to be in the 6¾ to 7½ percent range in FY2018. Even under this forecast, India would remain the fastest growing major economy in the world.

There are three main downside risks to the forecast. First, the extent to which the effects of demonetisation could linger into next year, especially if uncertainty remains on the policy response. Currency shortages also affect supplies of certain agricultural products, especially milk (where procurement has been low), sugar (where cane availability and drought in the southern states will restrict production), and potatoes and onions (where sowings have been low). Vigilance is essential to prevent other agricultural products becoming in 2017-18 what pulses was in 2015-16.

Second, geopolitics could take oil prices up further than forecast. The ability of shale oil production to respond quickly should contain the risks of a sharp increase, but even if prices rose merely to \$60-65/barrel the Indian economy would nonetheless be affected by way of reduced consumption; less room for public investment; and lower corporate margins, further denting private investment. The scope for monetary easing might also narrow, if higher oil prices stoked inflationary pressure.

Third, there are risks from the possible eruption of trade tensions amongst the major countries, triggered by geo-politics or currency movements. This could reduce global growth and trigger capital flight from emerging markets. The one significant upside possibility is a strong rebound in global demand and hence in India's exports. There are some nascent signs of that in the last two quarters. A strong export recovery would have broader spill over effects to investment.

Fiscal outlook

The fiscal outlook for the central government for next year will be marked by three factors. First, the increase in the tax to GDP ratio of about 0.5 percentage points in each of the last two years, owing to the oil windfall will disappear. In fact, excise-related taxes will decline by about 0.1 percentage point of GDP, a swing of about 0.6 percentage points relative to FY2017.

Second, there will be a fiscal windfall both from the high denomination notes that are not returned to the RBI and from higher tax collections as a result of increased disclosure under the Pradhan Mantra Garib Kalyan Yojana (PMGKY). Both of these are likely to be one-off in nature, and in both cases the magnitudes are uncertain.

A third factor will be the implementation of the GST. It appears that the GST will probably be implemented later in the fiscal year. The transition to the GST is so complicated from an administrative and technology perspective that revenue collection will take some time to reach full potential. Combined with the government's commitment to compensating the states for any shortfall in their own GST collections (relative to a baseline of 14 percent increase), the outlook must be cautious with respect to revenue collections. The fiscal gains from implementing the GST and

demonetisation, while almost certain to occur, will probably take time to be fully realized. In addition, muted non-tax revenues and allowances granted under the 7th Pay Commission could add to pressures on the deficit.

The macroeconomic policy stance for 2017-18

An economy recovering from demonetisation will need policy support. On the assumption that the equilibrium cash-GDP ratio will be lower than before November 8, the banking system will benefit from a higher level of deposits. Thus, market interest rates—deposits, lending, and yields on g-secs—should be lower in 2017-18 than 2016-17. This will provide a boost to the economy (provided, of course, liquidity is no longer a binding constraint). A corollary is that policy rates can be lower not necessarily to lead and nudge market rates but to validate them. Of course, any sharp uptick in oil prices and those of agricultural products, would limit the scope for monetary easing.

Fiscal policy is another potential source of policy support. This year the arguments may be slightly different from those of last year in two respects. Unlike last year, there is more cyclical weakness on account of demonetisation. Moreover, the government has acquired more credibility because of posting steady and consistent improvements in the fiscal situation for three consecutive years, the central government fiscal deficit declining from 4.5 percent of GDP in 2013-14 to 4.1 percent, 3.9 percent, and 3.5 percent in the following three years. But fiscal policy needs to balance the cyclical imperatives with medium term issues relating to prudence and credibility.

One key question will be the use of the fiscal windfall (comprising the unreturned cash and additional receipts under the PMGKY) which is still uncertain. Since the windfall to the public sector is both one off and a wealth gain not an income gain, it should be deployed to strengthening the government's balance sheet rather than being used for government consumption, especially in the form of programs that create permanent entitlements. In this light, the best use of the windfall would be to create a public sector asset reconstruction company so that the twin balance sheet problem can be addressed, facilitating credit and investment revival; or toward the compensation fund for the GST that would allow the rates to be lowered and simplified; or toward debt reduction. The windfall should not influence decisions about the conduct of fiscal policy going forward.

Perhaps the most important reforms to boost growth will be structural. In addition to those spelt out in Section 1—strategic disinvestment, tax reform, subsidy rationalization—it is imperative to address directly the twin balance sheet problem. The problem is large, persistent and difficult, will not correct itself even if growth picks up and interest rates decline, and current attempts have proved grossly inadequate. It may be time to consider something like a public sector asset reconstruction company.

Another area of reform relates to labour. Given the difficulty of reforming labor laws per se, the thrust could be to move towards affording greater choice to workers which would foster competition amongst service providers. Choices would relate to: whether they want to make their own contribution to the Employees' Provident Fund Organisation (EPFO); whether the employers' contribution should go to the EPFO or the National Pension Scheme; and whether to contribute to the Employee State Insurance (ESI) or an alternative medical insurance program. At the same time, there could be a gradual move to ensure that at least compliance with the central labour laws is made paperless, presence less, and cashless. One radical idea to consider is the provision of a universal basic income. But another more modest proposal worth embracing is procedural: a standstill on new government programs, a commitment to assess every new program only if it can be shown to demonstrably address the limitations of an existing one that is similar to the proposed one; and a commitment to evaluate and phase down existing programs that are not serving their purpose.

GLOBAL MANUFACTURING SECTOR

World Manufacturing Growth in quarter II, 2017

World manufacturing in the second quarter of 2017 has continued to show signs of expansion, following an upward trend observed throughout 2016 and improved growth rates in the first quarter of

2017. Both industrialized and developing and emerging industrial economies gained further strength in manufacturing production and confirmed their healthy dynamic growth.

Although the pace of growth indicates similar trends in both country groups (Figure 2), developing economies continuously performed better than industrialized ones. The current growth prospects are improving further on account of rising consumer spending and promising investment plans, which are favourably directed towards developing economies. Changing business conditions are driving industrial production growth and confidence for the overall outlook has been increasing. Moreover, the risks for global growth witnessed last year, such as political instability in Europe, unpredictability of the Brexit aftermath, the rising trade protectionism following the US election and an abrupt slowdown in China have certainly diminished, although they have not disappeared completely.

(Source: World Manufacturing Production, Statistics for Quarter II, 2017, United Nations Industrial Development Organization, www.unido.org)

Optimistic results reported in the first quarter have carried over into the second quarter of this year. Global manufacturing output rose by 4.2 per cent in the second quarter of 2017 compared to the same period of the previous year, building on the robust 3.7 per cent increase observed at the beginning of 2017. The major industrialized economies with a significant share in global manufacturing output, namely the United States, Japan, Germany, Italy and France, thrived in the second quarter of 2017. The growth prospects of China, the world's largest manufacturer, remained unchanged.

As depicted in Figure 2, steady progress over several consecutive quarters characterizes all country groups and the prospects for sustained global industrial growth in the coming periods are good.

Manufacturing Growth in Industrialized economies

The manufacturing output growth of industrialized economies has progressively been improving over the last quarters. The upward growth trend-at a relatively moderate pace-is attributable to the robust dynamics in all industrialized regions, namely East Asia, Europe and North America.

The manufacturing sector gained increasing strength due to domestic and external demand in European economies and resulted in the solid performance recorded in the second quarter of 2017. Europe's manufacturing output jumped to 2.7 per cent in the second quarter of 2017 from 1.6 per cent growth in the previous quarter, while the growth rate in the Eurozone witness the same development during the second quarter of 2017 (Figure 3).

The disaggregated data points to continued improvement in the already healthy economic momentum of leading Eurozone economies with growth figures of 2.9 per cent in Germany and Italy, and 2.4 per cent in France and Spain compared to year-to-year developments. The manufacturing production in other economies of the single currency block seemingly remained healthy in the second quarter. Strong growth of over 8.0 per cent was observed in Slovenia, and Estonia, while a fairly robust growth rate was recorded in the Netherlands (3.0 per cent), Austria (3.5 per cent), Belgium (4.2 per cent) and Finland (3.2 per cent). The manufacturing sector in the eurozone ended the second quarter on a strong note. The only exception was Ireland, where manufacturing output fell by 1.1 per cent compared to the same period of the previous year.

Taking a closer look at individual countries beyond the eurozone, manufacturing output remained stagnant in the United Kingdom at only 0.2 per cent growth in the second quarter of 2017. Despite remaining in positive terrain, output dipped significantly considering that the previous quarter's result was the highest one in over two years. On the other hand, the pace of growth in Czechia and Hungary strengthened, where an increase of 7.4 per cent and 4.7 per cent was recorded, respectively. Other exceptionally positive results were visible in Switzerland with a 2.4 per cent growth rate as well as in Sweden with a gain of 5.2 per cent compared to the same period of the previous year. Among the other Nordic countries, Denmark expanded its manufacturing production by 3.7 per cent, while Norway significantly moderated its contraction rate to roughly 0.4 per cent.

North America's overall manufacturing production grew by 1.6 per cent compared to the same period of 2016. The strengthening of the dollar and the consequent weak demand for U.S. goods caused the American manufacturing sector to go into recession in late 2015. However, the recent weakening of the U.S. dollar combined with a stronger global environment resulted in the opposite effect, and American total manufacturing output rose by 1.5 per cent compared to the same period of the previous year, representing the highest increase since the last recession. Improved performance was also witnessed in Canadian manufacturing, where manufacturing production expanded by 3.5 per cent in the second quarter of 2017.

Another positive result was observed in industrialized East Asian economies in the second quarter of 2017 - a 4.4 per cent improvement compared to the same period of the previous year. The main forces that have been driving growth in Japan's manufacturing sector in recent quarters remained firmly in place in the second quarter of 2017. Japan, the major force behind the entire region's upward trend, reconfirmed the end of a long period of contractions with a growth rate of nearly 5.8 per cent. The Republic of Korea's manufacturing production, on the other hand, remained almost unchanged compared to the same period of the previous year. Malaysia's total manufacturing output recorded a

5.9 per cent rise in the second quarter of 2017; a very strong growth rate of 8.5 per cent was observed in Singapore. The manufacturing production of Taiwan, Province of China lost some steam in the second quarter of 2017 according to the latest figures, although it still expanded at a moderate 2.6 per cent pace on a year-to-year basis.

Manufacturing sector growth in Developing and emerging industrial economies

The second quarter of 2017 brought upward trends for all developing and emerging industrial regions. Latin America is continuing on the path to full recovery from last year's weak performance, Asian economies continue to prosper and production in Africa is profiting from boosted investor confidence. Stronger foreign demand is helping support manufacturing activity in China. Together with an improvement in domestic demand and support for the development of advanced manufacturing industries, this translated into a 7.4 per cent increase in total manufacturing production in China compared to the same period of the previous year.

Latin American economies have overcome a severe decline in economic growth, which affected the region for a long period with a 1.8 per cent upsurge in the second quarter of 2017 in a year-to-year comparison. Brazilian manufacturers are slowly emerging from the deep recession during which manufacturing production contracted at the beginning of 2014 and shrank uninterruptedly until early 2017. This steep fall was softened by a mild, but ultimately positive upward trend of 0.4 per cent recorded in the second quarter of 2017. Moreover, data for the second quarter of 2017 suggest that the recovery is finally gathering pace in Argentina's manufacturing sector. The country's manufacturing activity recorded a growth of 1.9 per cent - its best performance over the last five years. Production was driven by a broad-based expansion, with the food, automotive and metallurgic industries leading the way.

The positive momentum of manufacturing production in Mexico, the region's powerhouse, was largely retained with a positive increase of nearly 3.9 per cent. Looking at the other countries in the region, Chile recorded a minor upturn of 0.9 per cent, whereas manufacturing output in Colombia remained stagnant compared to the same period of 2016.

The Asia and the Pacific region saw an increase of 6.6 per cent in manufacturing output during the second quarter of 2017. Viet Nam, one of Asia's fast growing economies, maintained a solid growth rate of 11.1 per cent, continuing its long-term trajectory of double-digit year-to-year growth in manufacturing. On the other hand, a subdued export performance dampened the momentum in Indonesia, resulting in the country's manufacturing sector expanding by 3.8 per cent, a slight deceleration compared to the 4.5 per cent average growth rate in 2016. India's manufacturing production expanded by 1.8 per cent in the second quarter of 2017. Very positive developments in

growth were also observed in the Philippines, Pakistan, Kazakhstan and Mongolia. In Thailand, the weak performance of manufacturing production in the first quarter continued into the second quarter of 2017, and the manufacturing sector recorded a 0.1 per cent loss compared to the second quarter of the previous year.

According to UNIDO estimates, Africa's manufacturing output increased to 10.5 per cent in the second quarter of 2017, however, it should be noted that estimates for Africa are based on limited data revealing high instability and volatility. A two-digit growth rate was registered in Egypt; Cote d'Ivoire only barely missed a two-digit growth rate, Morocco experienced a 2.3 per cent growth, while Senegal's and Tunisia's manufacturing output dropped by 3.0 per cent and 0.4 per cent, respectively, compared to the same period of the previous year. South Africa, the region's most industrialized economy, saw a contraction rate of 1.7 per cent in the second quarter of 2017, the third quarter of depressed manufacturing production in a row. Weak manufacturing together with a shrinking trade sector, uncertain political landscape and stunted investment signalizes potentially dim prospects, and perhaps not only for 2017.

Among other developing economies, the manufacturing output of Eastern European countries achieved relatively higher growth rates. Manufacturing output rose by 6.2 per cent in Poland, 10.6 per cent in Romania, 8.5 per cent in Bulgaria, 6.0 per cent in Serbia and 8.7 per cent in Latvia. Turkey's manufacturing sector also performed well, growing by 4.7 percent due to healthy export growth fueled by a weaker lira. Greek manufacturing marked 2.5 per cent growth in the second quarter of 2017 over the same period of 2016.

Introduction

Manufacturing has emerged as one of the high growth sectors in India. Prime Minister of India, Mr Narendra Modi, had launched the 'Make in India' program to place India on the world map as a manufacturing hub and give global recognition to the Indian economy. India is expected to become the fifth largest manufacturing country in the world by the end of year 2020*.

The Gross Value Added (GVA) at basic constant (2011-12) prices from the manufacturing sector in India grew 7.9 per cent year-on-year in 2016-17, as per the 2nd provisional estimate of annual national income published by the Government of India. Under the Make in India initiative, the Government of India aims to increase the share of the manufacturing sector to the gross domestic product (GDP) to 25 per cent by 2022, from 16 per cent, and to create 100 million new jobs by 2022. Business conditions in the Indian manufacturing sector continue to remain positive.

Investments

With the help of Make in India drive, India is on the path of becoming the hub for hi-tech manufacturing as global giants such as GE, Siemens, HTC, Toshiba, and Boeing have either set up or are in process of setting up manufacturing plants in India, attracted by India's market of more than a billion consumers and increasing purchasing power.

Cumulative Foreign Direct Investment (FDI) in India's manufacturing sector reached US\$ 70.51 billion by June 2017.

India has become one of the most attractive destinations for investments in the manufacturing sector. Some of the major investments and developments in this sector in the recent past are:

- JSW Energy has signed a memorandum of understanding (MoU) with the Government of Gujarat, for setting up an electric vehicle (EV) manufacturing unit in Gujarat at an estimated cost of Rs 4,000 crore (US\$ 608.88 million).
- With an aim to increase its presence in India, Denmark-based heating ventilation and air-conditioning (HVAC) giant, Danfoss, is planning to take its manufacturing localisation to 50 per cent as well as double its supplier base in India by 2020.
- Cochin Shipyard Ltd, which recently completed its initial public offer (IPO), will utilize the funds from the issue to implement expansion projects worth Rs 2,800 crore (US\$ 437.3 million), which are already in its pipeline.
- Indian biscuits giant, Britannia Industries Ltd (BIL), is setting up its largest plant ever, in Ranjangaon, Maharashtra, with an investment of Rs 1,000 crore (US\$ 156.89 million). The plant will have an annual capacity of 120,000 tonne and will be completed by FY19.
- IKEA, a Swedish furniture company, aims to manufacture more than 30 per cent of its products in India in the coming years, stated Mr Patrik Antoni, Deputy Country Manager, IKEA.
- Volvo India Pvt Ltd, Swedish luxury car manufacturer, will start assembly operations near Bengaluru in India by the end of 2017. The company is targeting to double its share in India's luxury car segment to 10 per cent by 2020.
- Larsen & Toubro (L&T) has bagged a contract worth US\$ 669.34 million from the Ministry of Defence, Government of India, to supply 100 artillery of 155mm/52 caliber tracked self-propelled guns for the Indian Army, under the Make in India initiative.
- Berger Paints has entered into a partnership with Chugoku Marine Paints (CMP), thereby marking its entry into the marine paints segment, which has an estimated market size of Rs 250 crore (US\$ 38.82 million) and is expected to grow at 25 per cent annually for the next five years.

- SAIC Motor Corp, China's largest automaker, has signed a deal to buy General Motors (GM) India's Halol plant in Gujarat.
- Dabur India Ltd set up its largest manufacturing plant globally, spread over 30 acres, at a cost of Rs 250 crore (US\$ 38.82 million), in Tezpur, Assam, which will produce Dabur's complete range of ayurvedic medicines, health supplements, and personal care products among others.
- Apple Inc is looking to expand its Taiwanese contract manufacturer, Wistron's, production facility in Bengaluru, India, where it started manufacturing iPhone SE in May, 2017.
- China based LCD and touchscreen panel manufacturer, Holitech Technology, has announced plans to investing up to US\$ 1 billion in India by the end of 2017.
- Tristone Flowtech Group, the Germany-based flow technology systems specialist, has set up a new facility in Pune, which will manufacture surge tank as well as engine cooling and aircharge hose for the Indian market. The company plans to start the production at the plant in the fourth quarter of 2017.
- Honda Motorcycle & Scooter India plans to invest around Rs 600 crore (US\$ 90 million) to add a new line to produce additional 600,000 units at its Narsapura facility in Karnataka.
- Hindustan Coca-Cola Beverages plans to set up a bottling plant with an investment of Rs 750 crore (US\$ 112.5 million) in phases at the first industrial area being developed by Government of Madhya Pradesh under the public private partnership in Babai village of Hoshangabad, Bhopal.
- Tata Advanced Systems is collaborating with the world's largest defence contractor Lockheed Martin to manufacture the F-16 fighter jets in India.

Government Initiatives

In a bid to push the 'Make in India' initiative to the global level, Mr Narendra Modi, Prime Minister of India, pitched India as a manufacturing destination at the World International Fair in Germany's Hannover in 2015. Mr Modi showcased India as a business friendly destination to attract foreign businesses to invest and manufacture in the country.

The Government of India has taken several initiatives to promote a healthy environment for the growth of manufacturing sector in the country. Some of the notable initiatives and developments are:

- The Government of India has introduced several policy measures in the Union Budget 2017-18 to provide impetus to the manufacturing sector. Some of which include reduction of income tax rate to 25 per cent for MSME companies having turnover up to Rs 50 crore (US\$ 7.5 million), MAT credit carry forward extended to 15 years from 10 years and abolishment of Foreign Investment Promotion Board (FIPB) by 2017-18.
- The Government of India has launched a phased manufacturing programme (PMP) aimed at adding more smartphone components under the Make in India initiative thereby giving a push to the domestic manufacturing of mobile handsets.
- The Government of India is in talks with stakeholders to further ease foreign direct investment (FDI) in defence under the automatic route to 51 per cent from the current 49 per cent, in order to give a boost to the Make in India initiative and to generate employment.
- The Ministry of Heavy Industries and Public Enterprises, Government of India, has approved the setting up of four Centres of Excellence (CoE) in areas of textile machinery, machine tools, welding technology and smart pumps, which will help raise the technology depth of the Indian Capital Goods Industry.

- The Ministry of Defence, Government of India, approved the “Strategic Partnership” model which will enable private companies to tie up with foreign players for manufacturing submarines, fighter jets, helicopters and armoured vehicles.
- The Union Cabinet has approved the Modified Special Incentive Package Scheme (M-SIPS) in which, proposals will be accepted till December 2018 or up to an incentive commitment limit of Rs 10,000 crore (US\$ 1.5 billion).

Road Ahead

India is an attractive hub for foreign investments in the manufacturing sector. Several mobile phone, luxury and automobile brands, among others, have set up or are looking to establish their manufacturing bases in the country.

The manufacturing sector of India has the potential to reach US\$ 1 trillion by 2025 and India is expected to rank amongst the top three growth economies and manufacturing destination of the world by the year 2020. The implementation of the Goods and Services Tax (GST) will make India a common market with a GDP of US\$ 2 trillion along with a population of 1.2 billion people, which will be a big draw for investors.

With impetus on developing industrial corridors and smart cities, the government aims to ensure holistic development of the nation. The corridors would further assist in integrating, monitoring and developing a conducive environment for the industrial development and will promote advance practices in manufacturing.

INDIAN FOOD PROCESSING INDUSTRY

Introduction

The Indian food industry is poised for huge growth, increasing its contribution to world food trade every year. In India, the food sector has emerged as a high-growth and high-profit sector due to its immense potential for value addition, particularly within the food processing industry. The food industry, which is currently valued at US\$ 39.71 billion!, is expected to grow at a Compounded Annual Growth Rate (CAGR) of 11 per cent to US\$ 65.4 billion by 2018. Food and grocery account for around 31 per cent of India’s consumption basket.

Accounting for about 32 per cent of the country’s total food market, The Government of India has been instrumental in the growth and development of the food processing industry. The government through the Ministry of Food Processing Industries (MoFPI) is making all efforts to encourage investments in the business. It has approved proposals for joint ventures (JV), foreign collaborations, industrial licenses, and 100 per cent export oriented units.

Market Size

The Indian food and grocery market is the world’s sixth largest, with retail contributing 70 per cent of the sales. The Indian food retail market is expected to reach Rs 61 lakh crore (US\$ 915 billion) by 2020.

The Indian food processing industry accounts for 32 per cent of the country’s total food market, one of the largest industries in India and is ranked fifth in terms of production, consumption, export and expected growth. It contributes around 14 per cent of manufacturing Gross Domestic Product (GDP), 13 per cent of India’s exports and six per cent of total industrial investment. Indian food service industry is expected to reach US\$ 78 billion by 2018. The Indian gourmet food market is currently valued at US\$ 1.3 billion and is growing at a Compound Annual Growth Rate (CAGR) of 20 per cent. India's organic food market is expected to increase by three times by 2020##.

The online food ordering business in India is in its nascent stage, but witnessing exponential growth. The organised food business in India is worth US\$ 48 billion, of which food delivery is valued at US\$ 15 billion. With online food delivery players like FoodPanda, Zomato, TinyOwl and Swiggy building

scale through partnerships, the organised food business has a huge potential and a promising future. The online food delivery industry grew at 150 per cent year-on-year with an estimated Gross Merchandise Value (GMV) of US\$ 300 million in 2016.

Investments

According to the data provided by the Department of Industrial Policies and Promotion (DIPP), the food processing sector in India has received around US\$ 7.47 billion worth of Foreign Direct Investment (FDI) during the period April 2000-December 2016. The Confederation of Indian Industry (CII) estimates that the food processing sectors have the potential to attract as much as US\$ 33 billion of investment over the next 10 years and also to generate employment of nine million person-days. Mr Tomasz Lukaszuk, the Ambassador of the Republic of Poland had also highlighted the keen interest shown by Polish companies looking for opportunities in India to expand collaboration and invest food processing. Some of the major investments in this sector in the recent past are:

- US-based food company Cargill Inc, aims to double its branded consumer business in India by 2020, by doubling its retail reach to about 800,000 outlets and increase market share to become national leader in the sunflower oil category which will help the company be among the top three leading brands in India.
- Mad Over Donuts (MoD), outlined plans of expanding its operations in India by opening nine new MOD stores by March 2017.
- Danone SA plans to focus on nutrition business in India, its fastest growing market in South Asia, by launching 10 new products in 2017, and aiming to double its revenue in India by 2020.
- Uber Technologies Inc plans to launch UberEATS, its food delivery service to India, with investments made across multiple cities and regions.
- Di Bella, the Australia-based coffee chain, plans to invest Rs 67 crore (US\$ 10 million) for setting up around 20 new outlets in Mumbai, besides entering Delhi and Bangalore by 2017.
- KKR & Co LP, the US-based private equity firm, plans to invest about Rs 520 crore (US\$ 77.38 million) in dairy company
- Kwaliti Ltd, which will be used to strengthen its milk procurement infrastructure and increase processing capacity.
- Henry Ford Health Systems (HFHS), a US-based health and wellness group, plans to enter India by signing a franchise partnership with Chandigarh-based hospitality and food services firm K Walls Hospitality, and set up 'Culinary Wellness' branded stores across the country.
- Mondelez International, the US-based confectionery, food, and beverage major, inaugurated its new manufacturing plant in Andhra Pradesh set up for Rs 1,265 crore (US\$ 190 million), with an annual production capacity of 250,000 tonnes.
- PureCircle, a Malaysia-based natural sweetener producer, plans to invest around Rs 1,300 crore (US\$ 200 million) in India to set up a manufacturing plant and make the country its regional production and export hub in the next five years.
- Swiggy, a food delivery start-up owned by Bundl Technologies Private Limited, has raised Rs 230.34 crore (US\$ 33.80 million) in a Series C funding round, with its existing investors SAIF Partners, Accel Partners, Norwest Venture Partners and Apoletto Asia Ltd contributing 79 per cent of the new funds raised.
- Gujarat Cooperative Milk Marketing Federation (GCMMF), popularly known as 'Amul', plans to invest Rs 5,000 crore (US\$ 733.6 million) to establish ten new processing plants as well as expand the current capacity to touch 32 million litres per day (MLPD) capacity by 2020.
- Private Equity (PE) firm India Value Fund Advisors (IVFA) plans to invest around US\$ 100-150 million in the food business in India over the next two years.
- Zomato, a restaurant search and discovery platform, has raised US\$ 60 million from Singapore government-owned investment company Temasek, along with existing investor Vy Capital, in order to explore new business verticals.
- ITC Limited plans to invest Rs 800 crore (US\$ 117.4 million) to set up a world-class food

processing facility in Medak, a district located in Telangana. The company has also formulated plans to enter the dairy market.

Government Initiatives

Some of the major initiatives taken by the Government of India to improve the food processing sector in India are as follows:

- In Union Budget 2017-18, the Government of India has set up a dairy processing infra fund worth Rs 8,000 crore (US\$ 1.2 billion).
- Union Budget 2016-17 proposed 100 per cent FDI through FIPB (Foreign Investment Promotion Board) route in marketing of food products produced and manufactured in India.
- The Government of India has relaxed foreign direct investment (FDI) norms for the sector, allowing up to 100 per cent FDI in food product e-commerce through automatic route.
- The Food Safety and Standards Authority of India (FSSAI) plans to invest around Rs 482 crore (US\$ 72.3 million) to strengthen the food testing infrastructure in India, by upgrading 59 existing food testing laboratories and setting up 62 new mobile testing labs across the country.
- The Indian Council for Fertilizer and Nutrient Research (ICFNR) will adopt international best practices for research in fertiliser sector, which will enable farmers to get good quality fertilisers at affordable rates and thereby achieve food security for the common man.
- The Government of India allocated Rs 1,500 crore (US\$ 225.7 million) and announced various measures under the Merchandise Exports from India Scheme (MEIS), including setting up of agencies for aquaculture and fisheries in coastal states and export incentives for marine products.
- Government of India plans to allow two Indian dairy companies, Parag Milk Foods and Schreiber Dynamix Dairies, to export milk products to Russia for six months, after these companies got approval for their products by Russian inspection authorities.
- Ms Harsimrat Kaur Badal, Union Minister for Food Processing Industries, Government of India inaugurated the first of its kind Rs 136 crore (US\$ 20 million) mega international food park at Dabwala Kalan, Punjab. She has also expressed confidence that the decision to allow 100 per cent Foreign Direct Investment (FDI) in multi-brand retail with 100 per cent local sourcing condition, will act as a catalyst for the food processing sector, thereby controlling inflation, uplifting the condition of farmers, and creating more jobs in the country.
- FSSAI has issued new rules for importing products, to address concerns over the entry of sub-standard items and simplify the process by setting shelf-life norms and relaxing labelling guidelines.
- The Ministry of Food Processing Industries announced a scheme for Human Resource Development (HRD) in the food processing sector. The HRD scheme is being implemented through State Governments under the National Mission on Food Processing. The scheme has the following four components:
 - Creation of infrastructure facilities for degree/diploma courses in food processing sector
 - Entrepreneurship Development Programme (EDP)
 - Food Processing Training Centres (FPTC)
 - Training at recognised institutions at State/National level
- FSSAI under the Ministry of Health and Family Welfare has issued the Food Safety and Standards (Food Product Standards and Food Additives) Regulations, 2011 and the Food Safety and Standards (Contaminants, Toxins and Residues) Regulations, 2011 which prescribe the quality and safety standards, respectively for food products.
- Spices Board, set up by the Ministry of Commerce to develop and promote Indian spices worldwide, aims spice exports of US\$ 3 billion by 2017.
- The Government of India has approved the setting up of five numbers of Mega Food Parks in the states of Bihar, Maharashtra, Himachal Pradesh and Chhattisgarh. The Government plans to set up 42 such mega food parks across the country in next three to four years.

Road Ahead

Going forward, the adoption of food safety and quality assurance mechanisms such as Total Quality Management (TQM) including ISO 9000, ISO 22000, Hazard Analysis and Critical Control Points (HACCP), Good Manufacturing Practices (GMP) and Good Hygienic Practices (GHP) by the food processing industry offers several benefits. It would enable adherence to stringent quality and hygiene norms and thereby protect consumer health, prepare the industry to face global competition, enhance product acceptance by overseas buyers and keep the industry technologically abreast of international best practices

INDIAN EDIBLE OIL INDUSTRY

Edible oil production

The edible oil production in India has remained more or less stagnant over the years. During the oil year 2011-12, edible oil production was at 7.3 million tonnes. In the next year, the output remained almost same. However the production increased and touched 8.2 million tonnes in 2013-14. This was backed by a growth in the country's oilseeds output. It may be noted that the production numbers for edible oil and oilseeds pertains to the year November to October. After recording a growth in edible oil production during 2013-14, the output declined for two years in a row during the period 2014-16 on a y-o-y basis. In 2014-15 and 2015-16, oil production fell by a sharp 14.8% to 7.00 million tonnes and further by 6.5% to 6.54 million tonnes, respectively. A fall in oilseed production due to inadequate rains resulted in lower crushing of oilseeds and, in turn, lowered oil production during these years. During the oil year 2015-16, 6.54 million tonnes of edible oil was produced in India. Of this, majority of the oil output belonged to the four products. Mustard oil, groundnut oil, cottonseed oil and soyabean oil accounted for 30%, 24.5%, 20.2% and 11.8%, respectively, of the total edible oils output in the country during the year. The other varieties, coconut oil, sesam oil, sunflower oil, nigerseed oil and safflower oil accounted for 7%, 4.6%, 1.5%, 0.3% and 0.2%, respectively.

Production outlook for oil year 2016-17

In the current oil year 2016-17, CARE expects edible oil production to grow by 17.4% to 7.68 million tonnes. This will be driven by a rise in production of groundnut oil, soyabean oil and mustard oil. According to Department of Agriculture Cooperation & Farmers Welfare, domestic edible oil output is likely to rise by 19.5% on a y-o-y basis in oil year 2016-17.

The increase in the output of these oils during 2016-17 will be on account of a rise in the respective variety's oilseed production. According to Solvent Extractors' Association of India, while groundnut and soyabean oilseed production is expected to increase by a robust 54.8% and 46.7%, respectively, rapeseed & mustard oilseed output is likely to grow by 19.8%. The total oilseed production is estimated to increase by 20.1% to 38.2 million tonnes in 2016-17 on a y-o-y basis.

Edible oil imports by India

The edible oil production in India that remained stagnant over the years is insufficient to fulfil the domestic requirements of edible oil. Consequently, the country's dependence on imports has increased over the years and currently around 65-70% of domestic edible oil requirements are met through imports. The imports stated below are for the oil year November-October. On a y-o-y basis, the edible oil imports grew in each of the years during 2009-16 except for the year 2010-11 where the imports declined by 5.1% to 8.4 million tonnes. After this, the imports increased in double-digits in all the years during 2011-15 except for the year 2012-13 where it grew by 4%. In 2015-16, the growth in imports decelerated and it rose by 0.8% to 14.5 million tonnes. Of the total edible oils imported in India, crude edible oil accounts for about 80-88% of the total imports and refined edible oils account for rest of the imports. For the oil year 2015-16, the share of crude edible oil imports stood at 82.2% and that of refined edible oil at 18%. RBD palmolein (Refined, Bleached and Deodorised palmolein) is the only variety of oil that was imported in refined form during the oil years 2007-16.

Palm oil accounts for a large part of the edible oil imports in India. The other oils imported by the country are sunflower oil, rapeseed oil, soyabean oil. For the year 2015-16, palm oil imports

accounted for 57.9% of the total edible oil imports. Palm oil is imported in crude form as well as refined form. While crude palm oil (CPO) (including crude palm kernel oil) imports accounted for 39.9%, refined palm oil (RBD palmolein) accounted for 18% of the total edible oil imports during the year 2015-16.

Increase in share of refined oil imports

In 2015-16 as mentioned above, there was an increase in share of refined palm oil imports and a decline in share of crude palm oil (including crude palm kernel oil) imports compared to that in 2014-15 where their respective shares stood at 11.5% and 54.6% during 2014-15. Similarly, the share of imported refined palm oil in total edible oil imports increased to 19.6% during November 2016-April 2017 from 17.7% in the corresponding period a year ago. At the same time, the share of crude palm oil (including crude palm kernel oil) imports also increased to 41.9% during November 2016-April 2017 compared to 40.2% a year earlier.

An increase in share of refined oil imports hurts the capacity utilization of domestic edible oil refiners in India. The rise in the share of refined oil is primarily on account of inverted duty structure in the exporting countries (Malaysia and Indonesia). The export duty imposed on crude palm oil by these countries is higher compared to that imposed on refined palm oil. This, in turn, makes the import of refined palm oil cheaper compared to the import of crude palm oil which requires further processing. Besides, the industry has been asking the government to increase the import duty differential between crude palm oil and refined palm oil from the current duty difference of 7.5%. The demand of increase in duty difference if accepted is expected to reduce the refined oil imports and will encourage the edible oil refiners to increase their capacity utilization in the country. However, the duty differential remained unchanged at 7.5% when the import duty on crude palm oil was reduced to 7.5% from 12.5% and the import duty on refined palm oil was cut to 15% from 20% in September 2016. SEA, on the other hand, has been demanding to increase the difference duty to 15%.

Edible oil imports outlook for 2016-17

According to the Solvent Extractor's Association of India, the total edible oil imports declined by 6.8% to 7 million tonnes in the first half (November-April) of the ongoing oil year 2016-17 on a y-o-y basis. During November 2015-April 2016, the edible oil imports were 7.5 million tonnes. The fall in imports was largely driven by a 39.8% fall in imports of crude soybean oil to 1.35 million tonnes. An increase in domestic soybean oil production backed by a bumper soybean crop is the prime reason for the fall in imports.

For the year 2016-17, CARE expects edible oil imports to remain more or less stable compared to the previous oil year 2015-16. This will be primarily backed by a surge in edible oil production during the year on account of higher availability of oilseeds for crushing.

Prices

Of the total global vegetable oils production, palm oil and soybean oil together account for more than 50% of the vegetable oil production. Thus the movements in prices of these varieties are important to look for. Also, both these varieties are imported by India to meet their respective domestic requirements. As a result, their prices in the domestic market are mainly influenced by the movement in international prices.

In November 2014, the international palm oil price in North-West Europe and crude palm oil price in Malaysia stood at 731 USD/tonne and 2,213.7 RM/tonne, respectively. On a m-o-m basis, the prices in both the markets declined in double-digits by 10%-14% in August 2015 and crude palm oil price in Malaysia reached a low of 1,952 RM/tonne during the month. The palm oil price in North-West Europe was at a low of 538 USD/tonne in September 2015. The fall in prices was on account of a rise in global palm oil production.

During the oil year 2015-16, the prices in both the markets averaged higher compared to the prices in 2014-15. The palm oil price in North-West Europe and Malaysia were higher by 3% to 665.8 USD/tonne and by 15% to 2,492 RM/tonne, respectively, during the year on a y-o-y basis. In August

2016, prices in both the markets grew in double-digits by 12%-13.5% on a m-o-m basis and touched a year high in September 2016. The palm oil price in North-West Europe stood at 756 USD/tonne and in Malaysia it stood at 2,845.9 RM/tonne during the month. This was because of a fall in global palm oil production due to El Nino event.

The prices that touched a high of 809 USD/tonne and 3,270.5 RM/tonne in January 2017 remained depressed and declined in each of the months during February-April 2017 on a m-o-m basis. The prices are expected to remain under pressure in the coming months as well on account of higher supplies from Indonesia and Malaysia. Oil output from these countries account for over 80% of the global palm oil production.

The domestic palm oil prices reflected the trend in international prices. During the oil year 2014-15, the domestic palm oil prices in Kandla declined by 19% on a y-o-y basis and averaged at Rs.431.3 per 10 kg. A 32.4% rise in edible oil imports during the year also created a pressure on prices. In 2015-16, the prices improved and they averaged 16% higher on a y-o-y basis to Rs.499 per 10 kg. This was also supported by lower domestic edible oil production during the year. In November 2014, the international soyabean prices in Netherlands and domestic prices in Mumbai stood at 830 USD/tonne and Rs.5951.1/quintal, respectively. These prices touched a low of 727 USD/tonne in September 2015 and Rs.5682.5/quintal in August 2015. The decline in prices was due to higher global soybean oil production

The international and domestic soybean oil prices that remained subdued during 2012-15 averaged higher on a y-o-y basis during the oil year 2015-16. The international and domestic prices rose by 2% to 783.9 USD/tonne and by 6% to Rs.6,331.1/quintal in 2015-16 compared to the corresponding period a year ago. An increase in requirement of soybean oil for biodiesel production as stated by the U.S. Environmental Protection Agency(EPA) supported the price rise. United States is the second largest producer of soyabean oil in the world followed by China. Also, lower global palm oil production resulted in an increased demand for soyabean oil thus supporting the price rise.

In December 2016, the international and domestic soyabean oil prices touched a high of 907 USD/tonne and Rs.7,264.5/quintal. The prices in both the markets however declined on a m-o-m basis in each of the months during January-April 2017. **Higher global soybean oil production is likely to keep the prices under pressure in the coming months as well. The domestic prices that largely reflect the trend in international prices will also remain subdued on account of higher domestic soybean oil production in 2016-17**

Prices of soyabean oil (that is largely imported) reflected the trend in international prices as it remained weak during the period April 2013 to March 2016. The international prices were subdued on account of higher world soyabean oil output during these years. The domestic soyabean oil prices improved thereafter in line with the rise in international soyabean oil prices. However, the prices remained weak in each of the months during January-April 2017 on account of higher soyabean oil production globally as well as domestically.

The domestic groundnut oil prices stayed weak during the period April 2013 to December 2014 driven by a surge in domestic groundnut oil production. After this, the trend in prices improved and the percentage change in prices on a y-o-y basis remained positive during January 2015 to April 2017. However, prices grew in single-digit on a y-o-y basis during September 2016 to April 2017. An expected rise in groundnut oil during the oil year 2016-17 is believed to have created a pressure on the prices

.The domestic mustard oil price trend that remained depressed during April 2013-April 2014 gained momentum and the y-o-y percentage change in price trend improved after April 2014. The prices grew in double-digits on a y-o-y basis during May 2015 to December 2015 backed by a drop in domestic mustard oil production. Thereafter, there was a downward trend in yo-y percentage change

in prices due to higher mustard oil production in oil year 2015-16 and a likely higher mustard oil output in the current oil year.

Operating and Net margins on an annual basis (in %)

The profit margins reported by the edible oils industry were the weakest in financial year 2015-16 compared to the past four years 2011-15. In 2015-16, the industry's operating margin stood at 2.05% while it had remained in the range of 3.1%-3.6% in each of the past four years. Similarly, the industry made losses at net level in 2015-16 compared to net profits made in each of the years during 2011-15. Aggregate sales of 28 edible oil companies that declined in single-digit in the first two quarters of financial year 2016-17 on a y-o-y basis fell by a steep 24.8% and 30.1%, respectively, in the following two quarters. On the profitability front, the margins of the industry remained weak in the March 2017 quarter compared to the past seven quarters. During the March 2017 quarter, the operating margin of the industry stood at 12.5% and net margin at 13.2%. The financials are impacted by one of the largest players in the industry on account of its significant size.

Concluding remarks

- *India's edible oil production is expected to rise by 17.4% on a y-o-y basis in 2016-17. Despite this, the country's high dependency on imports will continue as production has been stagnant*
- *Thus it becomes necessary to encourage the farmers to increase the production of oilseeds*
- *In 2016-17, edible oil imports are expected to remain more or less stable compared to the previous oil year 2015-16*
- *backed by an expected growth in edible oil output during the ongoing oil year*
- *The international palm oil and soyabean oil prices are expected to remain under pressure in the coming months due to higher supplies from the producing nations.*

GLOBAL FEED INDUSTRY

Animal feeds play a leading role in the global food industry, enabling economic production of animal proteins throughout the world. Feed is the largest and most important component to ensuring safe, abundant and affordable animal proteins.

Livestock raising and the consumption of animal products make a crucial contribution to the economic and nutritional wellbeing of millions of people around the world. Animal feeds play a leading role in the global food industry and feed is the largest and most important component to ensuring safe,

abundant and affordable animal proteins.

World compound feed production is fast approaching an estimated 1 billion tonnes annually. Global commercial feed manufacturing generates an estimated annual turnover of over US \$400 billion. Commercial production or sale of manufactured feed products takes place in more than 130 countries and directly employs more than a quarter of a million skilled workers, technicians, managers and professionals.

IFIF and its Members are keenly aware of the demographic and sustainability challenges which lie ahead of the food and feed industry. The UN Food and Agricultural Organisation (FAO) estimates that the world will have to produce ca. 60% more food by 2050 and we believe that animal protein production will grow even more – meats (poultry/swine/beef) will double, as well as dairy, and fish production will almost triple by 2050.

One of the challenges is that on top of the almost 1 billion tonnes of feed produced by the feed industry, around 300 million tonnes of feed is produced directly by on farm mixing. This poses challenges as food safety authorities do not regularly audit mixing by farmers and regulatory authorities only inspect when there is a problem. IFIF believes it is vital for the feed industry and for the sustainability of the whole feed and food chain that clear standards apply throughout the whole feed chain. We believe both industrial and on farm mixers should be controlled and inspected on a regular basis.

World compound feed production is estimated at one billion tonnes annually. Global commercial feed manufacturing generates an estimated annual turnover of over US \$400 billion

In 2016 world compound feed production reached an estimated at one billion tonnes annually. Global commercial feed manufacturing generates an estimated annual turnover of over US \$400 billion. The last years have continued to see an increase in the demand for animal protein worldwide, including for livestock, dairy and fish. Generally we have seen a growth of production particularly in the developing world, with the developed world remaining more or less stable.

The United Nations Food and Agriculture Organization (FAO) estimates that by 2050 the demand for food will grow by 60% and that between 2010 and 2050 production of animal proteins is expected to grow by around 1.7% per year, with meat production projected to rise by nearly 70%, aquaculture by 90% and dairy by 55%. This already marks a growth factor of almost two, however if we were to extrapolate the growth rates of the last forty years forward to 2050, this would in theory quadruple the needs

ABSTRACT

Indian feed industry is about 50 years old and it primarily consists of cattle feed and poultry feed segments. Cattle feed industry in India is gradually evolving into an organized sector and the feed manufactures are increasingly using modern and sophisticated methods that seek to incorporate best global practices. Indian cattle feed industry has got high growth potential, given the country's top position among the world nations in respect of livestock population and also the high expected growth rate of about 4 per cent. Compounded Cattle Feed (CCF) products, particularly the branded ones is fast gaining popularity India, including in rural areas. The major drivers for the growing demand for cattle feed are the factors like (i) shrinkage of open land for cattle grazing, urbanization and resultant shortage of conventionally used cattle feeds, and (ii) introduction of high yield cattle requires specialized feeds. Earlier research studies by the present authors based on the feedback from the farmers have revealed the good growth prospects of the branded cattle feed industry, the feed consumption pattern and the relatively high share of branded feeds, feed consumption pattern based on product types (like, pellet and mash), composition of cattle feed market and the relative shares of major brands, the major factors influencing the purchasing decisions etc. As a continuation of the earlier studies, this study makes a closer look into the exact nature of the growth potential of the market from a macro perspective, feedback from the field study with dealers and industry experts and relative significance of factors influencing buying decisions.

INTRODUCTION

Cattle feed industry, a major ingredient of animal feed industry is currently evolving from a fragmented industry into an organized sector. The feed manufactures are increasingly adopting modern and sophisticated methods in an effort to incorporate best global practices. This industry has got high growth potential in India, given India's top position among the world nations in respect of livestock population.

The cattle population is expected to grow at compounded annual growth rate of 4 per cent. The way the rural farmers makes their purchases of feed and have their buying priorities is quite different from those of their urban counterparts. Thus, the factors influencing the buying behavior of farmers and their relative significance needs to be ascertained for the meaningful formulation of marketing strategies for cattle feed products. Equally important is the need to consider the feedback from dealers of such products and also industry experts in this field.

BRANDED CATTLE FEED INDUSTRY

The concept of branded animal feed as a packaged commodity, though not a very recent concept, is gaining popularity in the rural folks in the recent past. The packaged feed, as a product, possesses special features like hygiene, quality, convenience to handle, etc. to its advantage. The age old feeding pattern practiced in India is a mixed variety consisting of green grass, dry grass, cotton seed cake, coconut cake, rice bran etc. But, as time elapsed, due to changes both environmental and social, there has been gradual shift from the age-old pattern to Compounded Cattle Feed (CCF).

The Indian milk scenario witnessed a total metamorphosis by the advent of Operation Flood; thus greatly increasing the per capita consumption of milk and sparking of high demand for cattle feed. On analyzing the factors related to the cattle feed demand, it is seen that there can be a positive change in the market demand for feeds. The major factors contributing to this are: (i) Shrinkage of open land for cattle grazing, urbanization and resultant shortage of conventionally used cattle feeds, (ii) Introduction of high yield cattle requires specialized feeds, (iii) urbanization has brought about a marked shift in people's eating habits with an increased intake of milk and other cattle-based products, thus resulting

in added demand for livestock products. It is estimated that milk consumption will grow at 2.8 percent per annum.

OUR BUSINESS

Some of the information contained in the following discussion, including information with respect to our business plans and strategies, contain forward-looking statements that involve risks and

Uncertainties. You should read the chapter titled “Forward-Looking Statements” beginning on page 17 of this Draft Red Herring Prospectus, for a discussion of the risks and uncertainties related to those statements and also the section “Risk Factors” for a discussion of certain factors that may affect our business, financial condition or results of operations. Our actual results may differ materially from those expressed in or implied by these forward-looking statements. Our fiscal year ends on March 31 of each year, so all references to a particular fiscal are to the twelve-month period ended March 31 of that year.

The financial information used in this section, unless otherwise stated, is derived from our Financial Information, as restated prepared in accordance with Indian GAAP, Companies Act and SEBI Regulations. The following information is qualified in its entirety by, and should be read together with, the more detailed financial and other information included in this Draft Red Herring Prospectus, including the information contained in the sections titled “Risk Factors” and “Financial Information” beginning on pages 18 and 172, respectively.

OVERVIEW

We are engaged in the business of de-linting and de-hulling of cotton seeds by mechanical process, oil extraction from cotton seeds and solvent extraction from cotton seeds oil cake and ground nuts. Our manufacturing process is in three stages (I) De-linting and de-hulling of Cotton seeds, this process result in manufacture of shot fiber (linter), and De-linted cotton Seeds (II) Cotton seeds oil extraction process result in pre refine cotton seeds oil and cotton seeds oil cake and (III) Solvent extraction process, result in pre refine wash oil and de-oil cotton seeds cake.

Cotton linter can be use in manufacturing of papers and as raw materials for manufacture of cellulose, this can be further process for medical and cosmetic purpose, linter can be broadly classified as a industrial raw materials. Cotton seeds oil cake, cotton seeds de oil cake and cotton hull are used as animal feeds. Cotton seed pre refine oil further process by refinery to convert in to edible oil.

Our manufacturing facility is situated at Survey No.54 P, At- Bhunava, Rajkot- Gondal Highway, Dist. Rajkot. The Registered office of the Company is situated at Imperial Heights Tower- B, Second Floor, and office No. B- 206, 150ft Ring Road, Opposite Big Bazar, Rajkot-36005, Gujarat

Our total Income were Rs. 15,756.70 lakhs, Rs.18,326.16 lakhs and Rs. 17,443.76 lakhs and our profit for the period was Rs. 66.70 lakhs , Rs. 50.72 lakhs and Rs. 136.29 lakhs for the financial years 2017, 2016 and 2015, respectively. OUR BUSINESS ACTIVITY

PROCESS FLOW CHART

The entire cotton seed oil manufacturing process includes several processes. Firstly, cotton seeds are cleaned to remove the foreign matter such as stones, shale, stick and iron etc. The cleaned cotton seeds are then fed into a De-linting line machines in which the tight rolls of seeds are spread over high speed circular saws. The saw scrape off the lint from the seed and the lint is sucked pneumatically into lint beating and cleaning device.

Delinting is generally done in two stages, in the first stage the light cut is taken and in the second stage more severe cut is taken. Long fiber used in paper and artificial silk industry.

The delinting seeds are then feed into hullers wherein the outer hull of the seed is cracked by Knife-edge mounted on high speed rotors, this operation is called as De-linting operation. The mixture of hulls and kernel so produced is passed over reciprocating sieves to separate the kernel and hulls. The kernel portion contains all the oil as well as proteins. The Cotton seeds hulls are used to feed livestock.

The kernel is fed into a series of expellers consisting of heavy screws working in strong cages. The kernel are squeezed with pressure as high as 5 to 10 tones per sq. inch. At this pressure the oil is squeezed out through the slits in the cage and the kernel which are pressed into cakes, called as oil cakes containing about 7% to 8 % oil are discharged through the cage.

The oil cake is further sent to solvent extraction plant, the oil cake is fed into extractor where it is treated with low boiling petroleum solvent called normal hexane. The hexane dissolves the oil from the cake forming a solution and the oil content of cake is reduced. The solution of oil in hexane is distilled in specially designed distillation equipment under vacuum to evaporate the solvent from the oil. The oil thus separated is stored in the tank.

“cotton seeds cakes”, that are the solid matter that remains once oil has been extracted and pressed from cotton seeds by using “Oil Expellers Machines”, These “De-oil cake cotton seed cakes”, are widely used in the industry for feeding cattle. The left out residual oil cake in the expeller is further completely recovered through solvent extraction process.

PRODUCT PROFILE

	<p>1st Cut Cotton Linter</p> <p>Cotton Linters are usually obtained by de linting ginned seeds. Cotton Linters are obtained in 2 stages i.e. 1st Cut cotton linter and 2nd Cut, cotton linters.</p> <p>1st Cut Cotton linter have longer fibber length than 2nd Cut Cotton Linter</p> <p>2nd Cut, cotton linters. Cotton Linters are used for paper board industry and thus wood pulp and other natural resources are saved. Cotton short fibber is also used for manufacturing specific types of cotton clothes, carpets, curtains, etc.</p>
---	--

	<p>Delinted Cotton Seeds</p> <p>After removing the lint from cottonseed by delinting process the delinted Cotton Seed is produced. The Delinted Cotton Seed is further sold to the oil refineries.</p>
	<p>Cottonseed Hulls</p> <p>Cottonseed Hulls are the outer covering of the cottonseed and are separated from the kernel prior to the oil extraction process. Cottonseed hulls are rich in nutritive value as compared to grass hay. Cottonseed hulls are used primarily as feed for livestock. Hulls are easy to store and handle, require no grinding, and can be fed with less waste than hay.</p>
	<p>Cottonseed Oil Cake</p> <p>Cotton seed oil cake is a major source of livestock feed. It is also used as fertilizer, either alone or in mixtures with other ingredients. It is an excellent organic source of nitrogen, phosphorus, potash, and many minor plant food elements.</p>
	<p>Cottonseed Oil</p> <p>We provide un-refined Cotton Seed Crude Oil (Cotton Seed Raw Oil), which is refined and filtered at the refinery.</p>
	<p>Deoil cake/meal(DOM)</p> <p>De Oil cake is joint product of solvent extraction product. De oil cake is further process by and proteins are added for the purpose of cattle feed product.</p>
	<p>Ground nuts oil cake</p> <p>Groundnut Oil Cake is made by extracting the oil completely from the groundnut seeds. The left over is then processed to produce high quality Groundnut Oil Cake. The product is highly nutritious and widely used in as cattle feed.</p>

COMPETITIVE STRNGTH

3. Leveraging the experience of our promoter

Our Promoters Lavjibhai Savaliya and Lalitkumar Vasoya have more than decade of experience and are the guiding force behind all the corporate decisions and is responsible for the entire business operations of the Company along with the team of professionals from various disciplines. Industry knowledge and understanding also gives us the key competitive advantage

enabling us to expand our geographical and customer presence in existing as well as target markets, while exploring new growth avenues. Our Promoters are supported by a management team with several years of experience in their respective domains of sales, marketing, strategy and finance.

4. Strategic Location of our manufacturing facility

Our Manufacturing Facility is strategically located near the source of raw materials to ensure cost savings and optimum logistic benefits. Our Manufacturing plant is situated in Gondal, Gujarat. In Gujarat there are many Ginning Mills from where our raw material Cotton Seed is purchased directly from the Ginning Mills or through the established Distributors network.

BUSINESS STRATEGY

4. Enhancing our customer base

Considering the huge potential of the animal meal/feed, agro food processing and manufacturing industry in India and in order to capitalize on the growth, we intend to expand our operations to other regions of the country, besides the western region where we are currently present in order to expand our business.

5. Improving functional efficiencies

Our Company intends to improve efficiencies to achieve cost reductions and have a competitive edge over our peers. We believe that this can be achieved through continuous process improvement, customer service and technology development.

6. Leveraging our market skills and relationship

Leveraging our market skills and relationships is a continuous process in our organization and the skills that we impart in our people give importance to customers. We aim to do this by leveraging our market skills and relationships and further enhancing customer satisfaction.

COLLABORATIONS

Our Company has not entered into any collaboration agreements as on date of this Draft Red Herring Prospectus.

OUR RAW MATERIALS

Cotton Seeds

Our basic raw material is cotton seeds which are procuring from various ginning units situated in Gujarat and Maharashtra and other parts of India depends on availability, price and quality of cotton seeds. Gujarat is largest cotton producing state and more than hundred cotton Ginning units are surrounding to our units gives competitive advantage of location for procurement of raw materials. Raw Material Cotton Seed is purchased from the Ginning Mills and the distributors dealing in trading of Cotton Seeds.

UTILITIES & INFRASTRUCTURE FACILITIES

Infrastructure Facilities

Our Registered Office situated at B-206, The Imperial Heights Opp. Big Bazaar, 150 Ft. Ring Road, Rajkot – 360005 Gujarat – India is well equipped with computer systems, internet connectivity, other communication equipment, security and other facilities, which are required for our business operations to function smoothly. Our manufacturing facility situated at Survey No. 54 P, N.H. 8 B, Nr. Pan Agri Export at. Bhunava, Ta. Gondal, Dist. Rajkot -360311 (India) is also equipped with requisite utilities and infrastructure facilities

Power

The Registered Offices as well as manufacturing facilities of our Company meets its Power requirements by purchasing electricity from Paschim Gujarat Vij Company Limited

Water

Water is a key and indispensable resource requirement in our manufacturing process. Our Company has made adequate arrangements to meet its water requirements. Water requirements at our manufacturing facilities are met through wells and bore wells.

EXPORT AND EXPORT OBLIGATIONS

As on the date of filing of this Draft Red Herring Prospectus, Our Company does not have any export obligation.

HUMAN RESOURCE

We believe that our employees are key contributors to our business success. We focus on attracting and retaining the best possible talent. Our Company looks for specific skill-sets, interests and background that would be an asset for its kind of business.

As on the date of this Draft Red Herring Prospectus, we have 36 employees on payroll. Our manpower is a prudent mix of the experienced and youth which gives us the dual advantage of stability and growth. Our work processes and skilled/ semi-skilled/ unskilled resources together with our management team have enabled us to implement our growth plans.

COMPETITION

Our Company operates processing of cotton seeds and extraction of cotton oil which faces competition from domestic as well as international players. Competition emerges not only from the organized and unorganized sector but also from small and big players. Its competitiveness depends on several factors including quality, price and customer service. Internationally, competition typically comes from low-cost operations in other emerging countries.

We compete with our competitors on the basis of product quality, price and reliability. We continuously strive to increase our distribution channel to increase our domestic presence. We intend to continue compete to capture more market share and manage our growth in an optimal way by improving our satisfying customer's demands, achieving operating efficiencies, etc.S

END USERS

Our products Cotton seeds de-oil cake, cotton seeds husk/hulls, cotton seeds oil cake form part of the animal feed which are sales through brokers and distributors network in domestic and international market, pre refine oil mainly sold to oil refinery and cotton linter sold to various industry with multiple application, like manufacture of papers, medicated and cosmetic cotton and manufacturer of cellulose.

MARKETING

The efficiency of the marketing and sales network is critical success of our Company. Our success lies in the strength of our relationship with the customers who have been associated with our Company. Our team through their relevant experience and good rapport with these customers owing to timely and quality delivery of service plays an instrumental role in creating and expanding a work platform for our Company.

We believe our relationship with our customers is strong and established as we receive repeated orders. To retain our customers, our team regularly interacts with them and focuses on gaining an insight into the additional needs of customers. We intend to expand our existing customer base by increasing our presence in existing markets and reaching out to other geographical areas. Our marketing team is ready to take up challenge so as to scale new heights.

INSURANCE

Our Company has insurance coverage which we consider reasonably sufficient to cover all normal risks associated with our operations and which we believe is in accordance with the industry standards. We have taken Standard Fire & Special Perils Policy for a substantial majority of our assets at our office and factory. Our policies are subject to customary exclusions and customary deductibles. We believe that our insurance coverage is adequate for our business needs and operations. We will continue to review our policies to ensure adequate insurance coverage is maintained.

OTHER LAWS

The Factories Act, 1948

The Factories Act, 1948 (“Factories Act”) aims at regulating labour employed in factories. A “factory” is defined as “any premises...whereon ten or more workers are working or were working on any day of the preceding twelve months, and in any part of which a manufacturing process is being carried on with the aid of power, or is ordinarily so carried on, or whereon twenty or more workers are working, or were 81 working on any day of the preceding twelve months, and in any part of which a manufacturing process is carried on without the aid of power, or is ordinarily so carried on...”. The main aim of the said Act is to ensure adequate safety measures and to promote the health and welfare of the workers employed in factories initiating various measures from time to time to ensure that adequate standards of safety, health and welfare are achieved at all the places.

Under the Factories Act, the State Government may make rules mandating approval for proposed factories and requiring licensing and registration of factories. The Factories Act makes detailed provision for ensuring sanitary conditions in the factory and safety of the workers and also lays down permissible working hours, leave etc. In addition, it makes provision for the adoption of worker welfare measures. The prime responsibility for compliance with the Factories Act and the rules thereunder rests on the “occupier”, being the person who has ultimate control over the affairs of the factory. The Factories Act states that save as otherwise provided in the Factories Act and subject to provisions of the Factories Act which impose certain liability on the owner of the factory, in the event there is any contravention of any of the provisions of the Factories Act or the rules made thereunder or of any order in writing given thereunder, the occupier and the manager of the factory shall each be guilty of the offence and punishable with imprisonment or with fine. The occupier is required to submit a written notice to the chief inspector of factories containing all the details of the factory, the owner, manager and himself, nature of activities and such other prescribed information prior to occupying or using any premises as a factory. The occupier is required to ensure, as far as it is reasonably practicable, the health, safety and welfare of all workers while they are at work in the factory.

Shops and establishments laws in various states

Under the provisions of local Shops and Establishments laws applicable in various states, establishments are required to be registered. Such laws regulate the working and employment conditions of the workers employed in shops and establishments including commercial establishments and provide for fixation of working hours, rest intervals, overtime, holidays, leave, termination of service, maintenance of shops and establishments and other rights and obligations of the employers and employees.

ENVIRONMENTAL LEGISLATIONS

The Environment Protection Act, 1986 (“Environment Protection Act”)

The purpose of the Environment Protection Act is to act as an "umbrella" legislation designed to provide a frame work for Central government co-ordination of the activities of various central and state authorities established under previous laws. The Environment Protection Act authorizes the central government to protect and improve environmental quality, control and reduce pollution from all sources, and prohibit or restrict the setting and /or operation of any industrial facility on environmental grounds. The Act prohibits persons carrying on business, operation or process from discharging or emitting any environmental pollutant in excess of such standards as may be prescribed. Where the discharge of any environmental pollutant in excess of the prescribed standards occurs or is apprehended to occur due to any accident or other unforeseen act, the person responsible for such discharge and the person in charge of the place at which such discharge occurs or is apprehended to occur is bound to prevent or mitigate the environmental pollution caused as a result of such discharge

and should intimate the fact of such occurrence or apprehension of such occurrence; and (b) be bound, if called upon, to render all assistance, to such authorities or agencies as may be prescribed.

Air (Prevention and Control of Pollution) Act, 1981

Air (Prevention and Control of Pollution) Act 1981 (“the Act”) was enacted with an objective to protect the environment from smoke and other toxic effluents released in the atmosphere by industries. With a view to curb air pollution, the Act has declared several areas as air pollution control area and also prohibits the use of certain types of fuels and appliances. Prior written consent is required of the board constituted under the Act, if a person intends to commence an industrial plant in a pollution control area.

Water (Prevention and Control of Pollution) Act, 1974

The Water (Prevention and Control of Pollution) Act 1974 (“the Act”) was enacted with an objective to protect the rivers and streams from being polluted by domestic and industrial effluents. The Act prohibits the discharge of toxic and poisonous matter in the river and streams without treating the pollutants as per the standard laid down by the Pollution control boards constituted under the Act. A person intending to commence any new industry, operation or process likely to discharge pollutants must obtain prior consent of the board constituted under the Act.

Hazardous Waste (Management and Handling) Rules, 1989

The Hazardous Waste (Management and Handling) Rules, 1989, as amended, impose an obligation on each occupier and operator of any facility generating hazardous waste to dispose of such hazardous wastes properly and also imposes obligations in respect of the collection, treatment and storage of hazardous wastes. Each occupier and operator of any facility generating hazardous waste is required to obtain an approval from the relevant state pollution control board for collecting, storing and treating the hazardous waste.

The Public Liability Insurance Act, 1991

This Act imposes liability on the owner or controller of hazardous substances for any damage arising out of an accident involving such hazardous substances. A list of hazardous substances covered by the legislation has been enumerated by the Government by way of a notification. The owner or handler is also required to take out an insurance policy insuring against liability under the legislation. The rules made under the Public Liability Act mandate that the employer has to contribute towards the environment relief fund, a sum equal to the premium paid on the insurance policies. The amount is payable to the insurer.

National Environmental Policy, 2006

The Policy seeks to extend the coverage, and fill in gaps that still exist, in light of present knowledge and accumulated experience. This policy was prepared through an intensive process of consultation within the Government and inputs from experts. It does not displace, but builds on the earlier policies. It is a statement of India's commitment to making a positive contribution to international efforts. This is a response to our national commitment to a clean environment, mandated in the Constitution in Articles 48 A and 51 A (g), strengthened by judicial interpretation of Article 21. The dominant theme of this policy is that while conservation of environmental resources is necessary to secure livelihoods and well-being of all, the most secure basis for conservation is to ensure that people dependent on particular resources obtain better livelihoods from the fact of conservation, than from degradation of the resource. Following are the objectives of National Environmental Policy:

- Conservation of Critical Environmental Resources
- Intra-generational Equity: Livelihood Security for the Poor
- Inter-generational Equity
- Integration of Environmental Concerns in Economic and Social Development
- Efficiency in Environmental Resource Use
- Environmental Governance
- Enhancement of resources for Environmental Conservation

INTELLECTUAL PROPERTY LEGISLATIONS

In general the Intellectual Property Rights includes but is not limited to the following enactments:

- The Patents Act, 1970
- Indian Copyright Act, 1957
- The Trade Marks Act, 1999

Indian Patents Act, 1970

A patent is an intellectual property right relating to inventions and is the grant of exclusive right, for limited period, provided by the Government to the patentee, in exchange of full disclosure of his invention, for excluding others from making, using, selling, importing the patented product or process producing that product. The term invention means a new product or process involving an inventive step capable of industrial application.

The Copyright Act, 1957

Copyright is a right given by the law to creators of literary, dramatic, musical and artistic works and producers of cinematograph films and sound recordings. In fact, it is a bundle of rights including, inter alia, rights of reproduction, communication to the public, adaptation and translation of the work. There could be slight variations in the composition of the rights depending on the work.

Trade Marks Act, 1999

The Trade Marks Act, 1999 (the “**Trade Marks Act**”) provides for the application and registration of trademarks in India for granting exclusive rights to marks such as a brand, label and heading and obtaining relief in case of infringement for commercial purposes as a trade description. The Trade Marks Act prohibits any registration of deceptively similar trademarks or chemical compounds among others. It also provides for penalties for infringement, falsifying and falsely applying for trademarks.

GENERAL LAWS

- Apart from the above list of laws – which is inclusive in nature and not exhaustive - general laws like the Indian Contract Act 1872, Specific Relief Act 1963, Negotiable Instrument Act 1881, The Information Technology Act, 2000, Sale of Goods Act 1930 and Consumer Protection Act 1986 are also applicable to the company.

OTHER LAWS:

Foreign Trade (Development and Regulation) Act, 1992

The Development and Regulation of foreign trade by facilitating imports and exports from and to India. The Import-Export Code number and licence to import or export includes a customs clearance permit and any other permission issued or granted under this act. The Export and Import policy, provision for development and regulation of foreign trade shall be made by the Central Government by publishing an order. The Central Government may also appoint Director General of Foreign Trade (DGFT) for the purpose of Export-Import Policy formulation.

If any person makes any contravention to any law or commits economic offence or imports/exports in a manner prejudicial to the trade relations of India or to the interest of other person engaged in imports or exports then there shall be no Import Export Code number granted by Director-General to such person and if in case granted shall stand cancelled or suspended. Provision of search and seizure of Code of Criminal Procedure, 1973 shall apply to every search and seizure made under this Act. In case of appeals in a case the order made by the appellate authority shall be considered to be final. The powers of all the civil court under Code of Civil Procedure, 1908 shall vest in him.

The EXIM Policy is a set of guidelines and instructions established by the DGFT in matters related to the export and import of goods in India. This policy is regulated under the said act. Director General of Foreign Trade (herein after referred to as DGFT) is the main governing body in matters related to the EXIM Policy. The Act shall provide development and regulation of foreign trade by facilitating imports into, and augmenting exports from India. Trade Policy is prepared and announced by the Central Government (Ministry of Commerce).

Foreign Exchange Management Act, 1999

Foreign investment in India is primarily governed by the provisions of the Foreign Exchange Management Act, 1999("FEMA") and the rules and regulations promulgated there under. The act aims at amending the law relating to foreign exchange with facilitation of external trade and payments for promoting orderly developments and maintenance of foreign exchange market in India. It applies to all branches, offices and agencies outside India owned or controlled by a person resident in India and also to any contravention there under committed outside India by any person to whom this Act applies. Every exporter of goods is required to a) furnish to the Reserve Bank or to such other authority a declaration in such form and in such manner as may be specified, containing true and correct material particulars, including the amount representing the full export value or, if the full export value of the goods is not ascertainable at the time of export, the value which the exporter, having regard to the prevailing market conditions, expects to receive on the sale of the goods in a market outside India; b) furnish to the Reserve Bank such other information as may be required by the Reserve Bank for the purpose of ensuring the realization of the export proceeds by such exporter. The Reserve Bank may, for the purpose of ensuring that the full export value of the goods or such reduced value of the goods as the Reserve Bank determines, having regard to the prevailing market conditions, is received without any delay, direct any exporter to comply with such requirements as it deems fit. Every exporter of services shall furnish to the Reserve Bank or to such other authorities a declaration in such form and in such manner as may be specified, containing the true and correct material particulars in relation to payment for such services.

FEMA Regulations

As laid down by the FEMA Regulations, no prior consents and approvals are required from the Reserve Bank of India, for Foreign Direct Investment under the automatic route within the specified sectoral caps. In respect of all industries not specified as FDI under the automatic route, and in respect of investment in excess of the specified sectoral limits under the automatic route, approval may be required from the FIPB and/or the RBI. The RBI, in exercise of its power under the FEMA, has notified the Foreign Exchange Management (Transfer or Issue of Security by a Person Resident Outside India) Regulations, 2000 ("FEMA Regulations") to prohibit, restrict or regulate, transfer by or issue security to a person resident outside India. Foreign investment in India is governed primarily by the provisions of the FEMA which relates to regulation primarily by the RBI and the rules, regulations and notifications there under, and the policy prescribed by the Department of Industrial Policy and Promotion, Ministry of Commerce & Industry, Government of India

THE FOREIGN DIRECT INVESTMENT

The Government of India, from time to time, has made policy pronouncements on Foreign Direct Investment (“**FDI**”) through press notes and press releases. The Department of Industrial Policy and Promotion, Ministry of Commerce and Industry, Government of India (“**DIPP**”), has issued consolidated FDI Policy Circular of 2017 (“**FDI Policy 2017**”), which with effect from August 28, 2017, consolidates and supersedes all previous press notes, press releases and clarifications on FDI Policy issued by the DIPP that were in force. The Government proposes to update the consolidated circular on FDI policy once every year and therefore, FDI Policy 2017 will be valid until the DIPP issues an updated circular.

The Reserve Bank of India (“**RBI**”) also issues Master Circular on Foreign Investment in India every year. Presently, FDI in India is being governed by Master Circular on Foreign Investment dated July 01, 2015 as updated from time to time by RBI. In terms of the Master Circular, an Indian company may issue fresh shares to people resident outside India (who is eligible to make investments in India, for which eligibility criteria are as prescribed). Such fresh issue of shares shall be subject to inter-alia, the pricing guidelines prescribed under the Master Circular. The Indian company making such fresh issue of shares would be subject to the reporting requirements, inter-alia with respect to consideration for issue of shares and also subject to making certain filings including filing of Form FC-GPR.

Under the current FDI Policy of 2017, foreign direct investment in micro and small enterprises is subject to sectoral caps, entry routes and other sectoral regulations. At present 100 % foreign direct investment through automatic route is permitted in the sector in which our Company operates. Therefore applicable foreign investment up to 100% is permitted in our company under automatic route.

Aswani & Co., have examined the attached Restated Statement of Assets and Liabilities of **Shree Ram Proteins Limited** (the "Company") as at 30th September, 2017, 31st March 2017, 2016, 2015, 2014 and 2013 and the related Restated Statement of Profit & Loss and Restated Statement of Cash Flow for the years / period ended as at 30th September 2017, 31st March 2017, 2016, 2015, 2014 and 2013, annexed to this report for the purpose of inclusion in the offer document prepared by the Company (collectively the "**Restated Summary Statements**" or "**Restated Financial Statements**"). These Restated Summary Statements have been prepared by the Company and approved by the Board of Directors of the Company in connection with the Initial Public Offering (IPO) in SME Platform of NSE Limited.

1. These Restated Summary Statements have been prepared in accordance with the requirements of:
 - (i) Part I of Chapter III to the Companies Act, 2013 ("**Act**") read with Companies (Prospectus and Allotment of Securities) Rules 2014;
 - (ii) The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations 2009 ("**ICDR Regulations**") issued by the Securities and Exchange Board of India ("**SEBI**") in pursuance to Section 11 of the Securities and Exchange Board of India Act, 1992 and related amendments / clarifications from time to time;
 - (iii) The terms of reference to our engagements with the Company requesting us to carry out the assignment, in connection with the Draft Prospectus/ Prospectus being issued by the Company for its proposed Initial Public Offering of equity shares in SME Platform of NSE. ("**IPO**" or "**SME IPO**"); and
 - (iv) The Guidance Note on Reports in Company Prospectus (Revised) issued by the Institute of Chartered Accountants of India ("**Guidance Note**").

2. The Restated Summary Statements of the Company have been extracted by the management from the Audited Financial Statements of the Company for the financial year / period ended on 30th September, 2017, 31st March 2017, 2016, 2015, 2014 and 2013.
3. In accordance with the requirements of Part I of Chapter III of Act including rules made therein, ICDR Regulations, Guidance Note and Engagement Letter, we report that:
 - (i) The “**Statement of Assets and Liabilities as Restated**” as set out in **Annexure I** to this report, of the Company as at 30th September, 2017, 31st March 2017, 2016, 2015, 2014 and 2013 are prepared by the Company and approved by the Board of Directors. These Statement of Assets and Liabilities, as restated have been arrived at after making such adjustments and regroupings to the individual financial statements of the Company, as in our opinion were appropriate and more fully described in Significant Accounting Policies and Notes to Accounts as set out in **Annexure IV(A)** to this Report.
 - (ii) The “**Statement of Profit and Loss as Restated**” as set out in **Annexure II** to this report, of the Company for the years / period ended 30th September, 2017, 31st March 2017, 2016, 2015, 2014 and 2013 are prepared by the Company and approved by the Board of Directors. These Statement of Profit and Loss, as restated have been arrived at after making such adjustments and regroupings to the individual financial statements of the Company, as in our opinion were appropriate and more fully described in Significant Accounting Policies and Notes to Accounts as set out in **Annexure IV(A)** to this Report.
 - (iii) The “**Statement of Cash Flow as Restated**” as set out in **Annexure III** to this report, of the Company for the years / period ended 30th Septemehr, 2017, 31st March 2017, 2016, 2015, 2014 and 2013 are prepared by the Company and approved by the Board of Directors. These Statement of Cash Flow, as restated have been arrived at after making such adjustments and regroupings to the individual financial statements of the Company, as in our opinion were appropriate and more fully described in Significant Accounting Policies and Notes to Accounts as set out in **Annexure IV(A)** to this Report.
4. Based on the above, we are of the opinion that the Restated Financial Statements have been made after incorporating:
 - a) Adjustments for the changes in accounting policies retrospectively in respective financial period/years to reflect the same accounting treatment as per the changed accounting policy for all reporting periods, if any.
 - b) Adjustments for prior period and other material amounts in the respective financial years/period to which they relate and there are no qualifications which require adjustments.
 - c) There are no extra-ordinary items that need to be disclosed separately in the accounts and qualifications requiring adjustments.
 - d) There were no qualifications in the Audit Reports issued by the Statutory Auditors for the financial period/year ended on 30th Septemehr, 2017, 31st March 2017, 2016, 2015, 2014 and 2013 which would require adjustments in this Restated Financial Statements of the Company.
 - e) These Profits and Losses have been arrived at after charging all expenses including depreciation and after making such adjustments/restatements and regroupings as in our opinion are appropriate and are to be read in accordance with the Significant Accounting Polices and Notes to Accounts as set out in **Annexure IV(A)** to this report.
5. Audit for the financial year / period ended on 31st March 2017, 2016, 2015, 2014 and 2013 was conducted by M/s. H. B. Kalaria & Associates (Chartered Accountants). Accordingly reliance has been placed on the financial information examined by them for the said years. The financial report included for these years is based solely on the report submitted by them. Further financial statements for the period / financial year ended on 31st March, 2017 have been reaudited by us as per the relevant guidelines.

6. We have also examined the following other financial information relating to the Company prepared by the Management and as approved by the Board of Directors of the Company and annexed to this report relating to the Company for the financial period/year ended on 30th Septemebr, 2017, 31st March 2017, 2016, 2015, 2014 and 2013 proposed to be included in the Draft Prospectus/Prospectus (“Offer Document”).

The company is engaged in the business of de-linting and de-hulling of cotton seeds by mechanical process, oil extraction from cotton seeds and solvent extraction from cotton seeds oil cake and ground nuts

(B) Basis of Preparation :

The Restated Summary Statements of Assets and Liabilities of the Company as at Septemebr 30, 2017, March 31, 2017, March 31, 2016, March 31, 2015, March 31, 2014, March 31, 2013 and the related Restated Summary Statements of Profits and Losses and Cash Flows Statement for the period / years ended Septemebr 30, 2017, March 31, 2017, March 31, 2016, March 31, 2015, March 31, 2014, March 31, 2013, have been compiled by management from the financial statements of the company for the period ended on Septemebr 30, 2017, March 31, 2017, March 31, 2016, March 31, 2015, March 31, 2014, March 31, 2013.

"The financial statements are prepared and presented under the historical cost convention and evaluated on a going-concern basis using the accrual system of accounting in accordance with the accounting principles generally accepted in India (Indian GAAP) and the requirements of the Companies Act, 1956 (up to March 31, 2014), and notified sections, schedules and rules of the Companies Act 2013 (with effect from April 01, 2014), including the Accounting Standards as prescribed by the Companies (Accounting Standards) Rules, 2006 as per section 211(3C) of the Companies Act, 1956 (which are deemed to be applicable as Section 133 of the Companies Act, 2013 ("the Act") read with Rule 7 of Companies (Accounts) Rules, 2014).

The presentation of financial statements requires estimates and assumption to be made that affect the reported amount of assets & Liabilities on the date of financial statements and the reported amount of revenue and expenses during the reporting period. Difference between the actual result and estimates are recognized in the period in which results are known/materialized."

(C) Significant Accounting Policies :**(a) Use of Estimates :**

The preparation of financial statements in conformity with Indian GAAP requires management to make judgments, estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities on the date of financial statements and the reported amounts of revenue and expenses during the reported period. Although these estimates are based on management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the Carrying amounts of Assets or Liabilities in future periods.

(b) Fixed Assets :

Fixed Assets are stated at their acquisition cost less accumulated depreciation and impairment losses. Cost comprises of all costs incurred to bring the assets to their location and working condition up to the date the assets are put to use where applicable together with any incidental expenses of acquisition/installation. Cost of acquisition includes borrowing costs that are directly attributable to the acquisition/construction of qualifying assets.

(c) Depreciation:

Up to March 31st, 2014 depreciation on fixed assets is provided on written down value method (WDV) at the rate and manner prescribed in schedule XIV of the Companies Act, 1956 over their useful life. w.e.f April 1st, 2014 depreciation is provided based on useful life of asset as prescribed in schedule II of Companies Act 2013 except non charging of 100% depreciation on assets costing below Rs. 5000/-. The carrying amount as on April 1st, 2014 is depreciated over the balance useful life of asset.

Depreciation on additions to the assets and the assets sold or disposed off, during the year is provided on prorata basis, at their respective useful life or rate of depreciation as prescribed with reference to the date of acquisition / installation or date of sale / disposal.

Depreciation on the Building has not been taken into consideration as per the company policy and the same has been treated as Loan Term Asset eligible for Indexation Benefit as per the Income Tax Act, whenever sold.

(d) Revenue Recognition:

Revenue is recognized when it is earned and no significant uncertainty exists as to its realization or collection. Revenue from sale of goods is recognized on delivery of the products, when all significant contractual obligations have been satisfied, the property in the goods is transferred for price, significant risk and rewards of ownership are transferred to the customers and no effective ownership is retained. Sales comprises sale of goods and services, net of trade discounts and include exchange differences arising on sales transactions.

(D) Foreign Currency Transactions :

Foreign currency transactions are recorded at the exchange rates prevailing on the date of the transaction. Monetary foreign currency assets and liabilities are translated into Rupees at the exchange rate prevailing at the Balance Sheet Date. All exchange differences are dealt with in Profit and Loss Account.

(E) Investments:

Investments, which are readily realizable and intended to be held for not more than one year from the date on which such investments are made, are classified as current investments. All other investments are classified as long-term investments.

On initial recognition, all investments are measured at cost. The cost comprises price and directly attributable acquisition charges such as brokerage, fees and duties.

Current investments are carried in the financial statements at lower of cost and fair value determined on an individual investment basis. Long term investments are carried at cost. However, provision for diminution in value is made to recognize a decline other than temporary in the value of Investments.

On disposal of investment, the difference between its carrying amount and net disposal proceeds is charged or credited to the statement of profit and loss.

(F) Employee Benefits:

Retirement benefit in the form of provident fund is a defined contribution scheme. The contribution to the provident fund is charged to the statement of profit and loss for the year when an employee renders the related services. The company has no obligations, other than the contribution payable to the provident fund.

(G) Taxation :

Tax expenses comprises of current and deferred tax. Current income tax is measured at the amount expected to be paid to the Tax Authorities in accordance with the Income Tax Act'1961 enacted or substantively enacted at the reporting date.

Deferred Tax Assets or Deferred Tax Liability is recognized on timing difference being the difference between taxable income and accounting income. Deferred Tax Assets or Differed Tax Liability is measured using the tax rates and tax laws that have been enacted or substantively enacted at the

Balance Sheet date. Deferred Tax Assets arising from timing differences are recognized to the extent there is a reasonable certainty that the assets can be realized in future.

(H) Borrowing Cost :

Borrowing Cost includes interest and amortization of ancillary costs incurred in connection with the arrangement of borrowings. Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective asset. All other borrowing costs are expensed in the period they occur.

(I) Segment Reporting :

The company is engaged in the business of de-linting and de-hulling of cotton seeds by mechanical process, oil extraction from cotton seeds and solvent extraction from cotton seeds oil cake and ground nuts. Considering the nature of Business and Financial Reporting of the Company, the Company is operating in only one Segment. And hence segment reporting is not applicable.

(J) Provisions and Contingent Liabilities :

A provision is recognized when the company has a present obligation as a result of past event; it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are not discounted to its present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

Contingent Liabilities are not recognized but are disclosed in the notes. Contingent Assets are neither recognized nor disclosed in the financial statements.

SECTION VI – LEGAL AND OTHER INFORMATION
OUTSTANDING LITIGATION AND MATERIAL DEVELOPMENTS

Except, as stated in this section and mentioned elsewhere in this Draft Red Herring Prospectus there are no litigations including, but not limited to suits, criminal proceedings, civil proceedings, actions taken by regulatory or statutory authorities or legal proceedings, including those for economic offences, tax liabilities, show cause notice or legal notices pending against our Company, Directors, Promoters, Subsidiaries, Group Companies or against any other company or person/s whose outcomes could have a material adverse effect on the business, operations or financial position of the Company and there are no proceedings initiated for economic, civil or any other offences (including past cases where penalties may or may not have been awarded and irrespective of whether they are specified under paragraph (a) of Part I of Schedule V of the Companies Act, 2013) other than unclaimed liabilities of our Company, and no disciplinary action has been taken by SEBI or any stock exchange against the Company, Directors, Promoters, Subsidiaries or Group Companies.

Except as disclosed below there are no i) litigation or legal actions, pending or taken, by any Ministry or department of the Government or a statutory authority against our Promoters during the last five years; (ii) direction issued by such Ministry or Department or statutory authority upon conclusion of such litigation or legal action; (iii) pending proceedings initiated against our Company for economic offences; (iv) default and non-payment of statutory dues by our Company; (v) inquiries, inspections or investigations initiated or conducted under the Companies Act, 2013 or any previous companies law in the last five years against our Company and Subsidiaries including fines imposed or compounding of offences done in those five years; or (vi) material frauds committed against our Company in the last five years.

Except as stated below there are no Outstanding Material Dues (as defined below) to creditors; or (ii) outstanding dues to small scale undertakings and other creditors.

Our Board, in its meeting held on November 14, 2017 determined that outstanding dues to creditors in excess of Rs. 10 lakhs as per last audited financial statements shall be considered as material dues (“Material Dues”).

Pursuant to SEBI ICDR Regulations, all other pending litigations except criminal proceedings, statutory or regulatory actions and taxation matters involving our Company, Promoters, Directors and Group Companies, would be considered ‘material’ for the purposes of disclosure if the monetary amount of claim by or against the entity or person in any such pending matter exceeds 10.00 lakhs as determined by our Board, in its meeting held on November 14, 2017.

Accordingly, we have disclosed all outstanding litigations involving our Company, Promoters, Directors and Group Companies which are considered to be material. In case of pending civil litigation proceedings wherein the monetary amount involved is not quantifiable, such litigation has been considered ‘material’ only in the event that the outcome of such litigation has an adverse effect on the operations or performance of our Company.

Unless otherwise stated to contrary, the information provided is as of date of this Prospectus.

Any person who becomes a nominee by virtue of the provisions of Section 72 of the Companies Act, 2013 shall upon the production of such evidence as may be required by the Board, elect either:

- a. to register himself or herself as the holder of the Equity Shares; or
- b. to make such transfer of the Equity Shares, as the deceased holder could have made.

Further, the Board may at any time give notice requiring any nominee to choose either to be registered himself or herself or to transfer the Equity Shares, and if the notice is not complied with within a period of ninety days, the Board may thereafter withhold payment of all dividends, bonuses or other moneys payable in respect of the Equity Shares, until the requirements of the notice have been complied with.

Since the Allotment of Equity Shares in the Issue will be made only in dematerialized mode there is no need to make a separate nomination with our Company. Nominations registered with respective depository participant of the applicant would prevail. If the investor wants to change the nomination,

they are requested to inform their respective depository participant.

WITHDRAWAL OF THE ISSUE

Our Company in consultation with the BRLM, reserve the right to not to proceed with the Issue after the Bid/Issue Opening Date but before the Allotment. In such an event, our Company would issue a public notice in the newspapers in which the pre-Issue advertisements were published, within two days of the Bid/Issue Closing Date or such other time as may be prescribed by SEBI, providing reasons for not proceeding with the Issue. The Book Running Lead Manager through, the Registrar to the Issue, shall notify the SCSBs to unblock the bank accounts of the ASBA Bidders within one Working Day from the date of receipt of such notification. Our Company shall also inform the same to the Stock Exchanges on which Equity Shares are proposed to be listed.

Notwithstanding the foregoing, this Issue is also subject to obtaining (i) the final listing and trading approvals of the Stock Exchange, which our Company shall apply for after Allotment, and (ii) the final RoC approval of the Prospectus after it is filed with the RoC. If our Company withdraws the Issue after the Bid/ Issue Closing Date and thereafter determines that it will proceed with an issue/issue for sale of the Equity Shares, our Company shall file a fresh Draft Red Herring Prospectus with Stock Exchange.

BID/ ISSUE OPENING DATE

Bid / Issue Opening Date	[●]
Bid / Issue Closing Date	[●]
Finalisation of Basis of Allotment with the Designated Stock Exchange	[●]
Initiation of Refunds	[●]
Credit of Equity Shares to demat accounts of Allottees	[●]
Commencement of trading of the Equity Shares on the Stock Exchange	[●]

The above timetable is indicative and does not constitute any obligation on our Company, and the BRLM. Whilst our Company shall ensure that all steps for the completion of the necessary formalities for the listing and the commencement of trading of the Equity Shares on the Stock Exchange are taken within 6 Working Days of the Bid/Issue Closing Date, the timetable may change due to various factors, such as extension of the Bid/Issue Period by our Company, revision of the Price Band or any delays in receiving the final listing and trading approval from the Stock Exchange. The Commencement of trading of the Equity Shares will be entirely at the discretion of the Stock Exchange and in accordance with the applicable laws.

Bids and any revision to the same shall be accepted **only between 10.00 a.m. and 5.00 p.m. (IST)** during the Bid/Issue Period. On the Bid/Issue Closing Date, the Bids and any revision to the same shall be accepted between **10.00 a.m. and 5.00 p.m. (IST)** or such extended time as permitted by the Stock Exchanges, in case of Bids by Retail Individual Bidders after taking into account the total number of Bids received up to the closure of timings and reported by the Book Running Lead Manager to the Stock Exchanges. It is clarified that Bids not uploaded on the electronic system would be rejected. Bids will be accepted only on Working Days, i.e., Monday to Friday (excluding any public holiday).

Due to limitation of time available for uploading the Bids on the Bid/Issue Closing Date, the Bidders are advised to submit their Bids one day prior to the Bid/Issue Closing Date and, in any case, no later than 5.00 p.m. (IST) on the Bid/Issue Closing Date. All times mentioned in this Draft Red Herring Prospectus are Indian Standard Times. Bidders are cautioned that in the event a large number of Bids are received on the Bid/Issue Closing Date, as is typically experienced in public issue, some Bids may not get uploaded due to lack of sufficient time. Such Bids that cannot be uploaded will not be considered for allocation under the Issue. Bids will be accepted only on Business Days. Neither our

Company nor the Book Running Lead Manager is liable for any failure in uploading the Bids due to faults in any software/hardware system or otherwise. Any time mentioned in this Draft Red Herring Prospectus is Indian Standard Time.

Our Company in consultation with the BRLM, reserves the right to revise the Price Band during the Bid/ Issue Period, provided that the Cap Price shall be less than or equal to 120% of the Floor Price and the Floor Price shall not be less than the face value of the Equity Shares. The revision in Price Band shall not exceed 20% on the either side i.e. the floor price can move up or down to the extent of 20% of the Floor Price and the Cap Price will be revised accordingly.

In case of revision of the Price Band, the Bid/Issue Period will be extended for at least three additional working days after revision of Price Band subject to the Bid/ Issue Period not exceeding 10 working days. Any revision in the Price Band and the revised Bid/ Issue Period, if applicable, will be widely disseminated by notification to the Stock Exchange, by issuing a press release and also by indicating the changes on the websites of the Book Running Lead Manager and at the terminals of the Syndicate Member.

In case of any discrepancy in the data entered in the electronic book vis-à-vis the data contained in the Bid cum Application Form, for a particular Bidder, the Registrar to the Issue shall ask for rectified data

MINIMUM SUBSCRIPTION

This Issue is not restricted to any minimum subscription level and is 100% underwritten.

As per Section 39 of the Companies Act, 2013, if the “stated minimum amount” has not be subscribed and the sum payable on application is not received within a period of 30 days from the date of the Red Herring Prospectus, the application money has to be returned within such period as may be prescribed. If our Company does not receive the 100% subscription of the issue through the Issue Document including devolvement of Underwriters, if any, within sixty (60) days from the date of closure of the issue, our Company shall forthwith refund the entire subscription amount received. If there is a delay beyond eight days after our Company becomes liable to pay the amount, our Company and every officer in default will, on and from the expiry of this period, be jointly and severally liable to repay the money, with interest or other penalty as prescribed under the SEBI Regulations, the Companies Act 2013 and applicable law.

In accordance with Regulation 106 P (1) of the SEBI (ICDR) Regulations, our Issue shall be hundred percent underwritten. Further, in case of Bids made by SEBI-registered FIIs or sub-accounts, which are not registered as FPIs, a certified copy of the certificate of registration as an FII issued by SEBI is required to be attached to the Bid cum Application Form, failing which our Company reserves the right to reject any Bid without assigning any reason.

In terms of the SEBI FPI Regulations, the issue of Equity Shares to a single FPI or an investor group (which means the same set of ultimate beneficial owner(s) investing through multiple entities) must be below 10.00% of our post-Issue Equity Share capital. Further, in terms of the FEMA Regulations, the total holding by each FPI shall be below 10.00% of the total paid-up Equity Share capital of our Company and the total holdings of all FPIs put together shall not exceed 24% of the paid-up Equity Share capital of our Company. The aggregate limit of 24% may be increased up to the sectorial cap by way of a resolution passed by the Board of Directors followed by a special resolution passed by the Shareholders of our Company and subject to prior intimation to RBI. In terms of the FEMA Regulations, for calculating the aggregate holding of FPIs in a company, holding of all registered FPIs as well as holding of FIIs (being deemed FPIs) shall be included. The existing individual and aggregate investment limits an FII or sub account in our Company is 10.00% and 24% of the total paid-up Equity Share capital of our Company, respectively.

FPIs are permitted to participate in the Issue subject to compliance with conditions and restrictions which may be specified by the Government from time to time.

Subject to compliance with all applicable Indian laws, rules, regulations, guidelines and approvals in terms of Regulation 22 of the SEBI FPI Regulations, an FPI, other than Category III foreign portfolio and unregulated broad based funds, which are classified as Category II foreign portfolio investor by virtue of their investment manager being appropriately regulated, may issue or otherwise deal in offshore derivative instruments (as defined under the SEBI FPI Regulations as any instrument, by whatever name called, which is issued overseas by an FPI against securities held by it that are listed or proposed to be listed on any recognized stock exchange in India, as its underlying) directly or indirectly, only in the event (i) such offshore derivative instruments are issued only to persons who are regulated by an appropriate regulatory authority; and (ii) such offshore derivative instruments are issued after compliance with know your client' norms. An FPI is also required to ensure that no further issue or transfer of any offshore derivative instrument is made by or on behalf of it to any persons that are not regulated by an appropriate foreign regulatory authority.

FPIs who wish to participate in the Issue are advised to use the Bid cum Application Form for Non-Residents (blue in colour).

BIDS BY SEBI REGISTERED VCFs, AIFs and FVCIs

The SEBI FVCI Regulations and the SEBI AIF Regulations inter-alia prescribe the investment restrictions on the VCFs, FVCIs and AIFs registered with SEBI. Further, the SEBI AIF Regulations prescribe, among others, the investment restrictions on AIFs.

The holding by any individual VCF registered with SEBI in one venture capital undertaking should not exceed 25% of the corpus of the VCF. Further, VCFs and FVCIs can invest only up to 33.33% of the investible funds by way of subscription to an initial public offering.

The category I and II AIFs cannot invest more than 25% of the corpus in one Investee Company. A category III AIF cannot invest more than 10% of the corpus in one Investee Company. A venture capital fund registered as a category I AIF, as defined in the SEBI AIF Regulations, cannot invest more than 1/3rd of its corpus by way of subscription to an initial public offering of a venture capital undertaking. Additionally, the VCFs which have not re-registered as an AIF under the SEBI AIF Regulations shall continue to be regulated by the VCF Regulation until the existing fund or scheme managed by the fund is wound up and such funds shall not launch any new scheme after the notification of the SEBI AIF Regulations.

All FIIs and FVCIs should note that refunds, dividends and other distributions, if any, will be payable in Indian Rupees only and net of Bank charges and commission.

Our Company or the BRLM will not be responsible for loss, if any, incurred by the Bidder on account of conversion of foreign currency.

There is no reservation for Eligible NRIs, FPIs and FVCIs and all Bidders will be treated on the same basis with other categories for the purpose of allocation.

BIDS BY MUTUAL FUNDS

No Mutual Fund scheme shall invest more than 10% of its net asset value in equity shares or equity related instruments of any single company provided that the limit of 10% shall not be applicable for investments in index funds or sector or industry specific funds. No Mutual Fund under all its schemes should own more than 10% of any company's paid-up share capital carrying voting rights.

With respect to Bids by Mutual Funds, a certified copy of their SEBI registration certificate must be lodged with the Bid cum Application Form. Failing this, our Company reserves the right to accept or reject any Bid cum Application in whole or in part, in either case, without assigning any reason thereof.

In case of a mutual fund, a separate Bid cum Application can be made in respect of each scheme of the mutual fund registered with SEBI and such Applications in respect of more than one scheme of the mutual fund will not be treated as multiple applications provided that the Bids clearly indicate the scheme concerned for which the Bids has been made.

The Bids made by the asset management companies or custodians of Mutual Funds shall specifically state the names of the concerned schemes for which the Applications are made.

with the eligibility requirements in terms of Regulation 26/ Regulation 27 of the SEBI ICDR Regulations, 2009. For details of compliance with the eligibility requirements by the Issuer, Bidders/Applicants may refer to the RHP/Prospectus.

The Issuer may also undertake IPO under of chapter XB of the SEBI (ICDR) Regulations, wherein as per,

- Regulation 106M (1): An issuer whose post- issue face value capital does not exceed ten crore rupees shall issue its specified securities in accordance with provisions of this Chapter.
- Regulation 106M (2): An issuer, whose post issue face value capital, is more than ten crore rupees and up to twenty five crore rupees, may also issue specified securities in accordance with provisions of this Chapter.

The present Issue being made under Regulation 106M (2) of Chapter XB of SEBI (ICDR) Regulation.

2.3 OTHER ELIGIBILITY REQUIREMENTS

In addition to the eligibility requirements specified in paragraphs 2.1 and 2.2, an Issuer proposing to undertake an IPO or an FPO is required to comply with various other requirements as specified in the SEBI ICDR Regulations, 2009, the Companies Act, 1956 and the Companies Act, 2013 (the “Companies Act”), The Securities Contracts (Regulation) Rules, 1957 (the “SCRR”), industry-specific regulations, if any, and other applicable laws for the time being in force. Following are the eligibility requirements for making an SME IPO under Regulation 106M (2) of Chapter XB of SEBI (ICDR) Regulation:

- (a) In accordance with regulation 106(P) of the SEBI (ICDR) Regulations, issue has to be 100% underwritten and the BRLM has to underwrite at least 15% of the total issue size.
- (b) In accordance with Regulation 106(R) of the SEBI (ICDR) Regulations, total number of proposed allottees in the issue shall be greater than or equal to fifty, otherwise, the entire application money will be refunded forthwith. If such money is not repaid within eight days from the date the company becomes liable to repay it, than the Company and every officer in default shall, on and from expiry of eight days, be liable to repay such application money, with interest as prescribed under section 40 of the Companies Act, 2013.
- (c) In accordance with Regulation 106(O) the SEBI (ICDR) Regulations, Company is not required to file any Offer Document with SEBI nor has SEBI issue any observations on the Offer Document. The Book Running Lead Manager shall submit the copy of Prospectus along with a Due Diligence Certificate including additional confirmations as required to SEBI at the time of filing the Prospectus with Stock Exchange and the Registrar of Companies.
- (d) In accordance with Regulation 106(V) of the SEBI ICDR Regulations, the BRLM has to ensure compulsory market making for a minimum period of three years from the date of listing of Equity Shares offered in the issue.
- (e) The company should have track record of at least 3 years
- (f) The company should have positive cash accruals (earnings before depreciation and tax) from operations for at least 2 financial years preceding the application and its net-worth should be positive
- (g) The post issue paid up capital of the company (face value) shall not be more than Rs. 25 crore.
- (h) The issuer shall mandatorily facilitate trading in demat securities.
- (i) The issuer should not been referred to Board for Industrial and Financial Reconstruction.

- (j) No petition for winding up is admitted by a court or a liquidator has not been appointed of competent jurisdiction against the Company
- (k) No material regulatory or disciplinary action should have been taken by any stock exchange or regulatory authority in the past three years against the issuer
- (l) The Company should have a website. Issuer shall also comply with all the other requirements as laid down for such an Issue under Chapter XB of SEBI (ICDR) Regulations and subsequent circulars and guidelines issued by SEBI and the Stock Exchange.

As per Regulation 106(M)(3) of SEBI (ICDR) Regulations, 2009, the provisions of Regulations 6(1), 6(2), 6(3), Regulation 7, Regulation 8, Regulation 9, Regulation 10, Regulation 25, Regulation 26, Regulation 27 and Sub regulation (1) of Regulation 49 of SEBI (ICDR) Regulations, 2009 shall not apply to this issue.

Thus Company is eligible for the issue in accordance with regulation 106M (2) and other provisions of chapter XB of the SEBI (ICDR) Regulations as the post issue face value capital does not exceed Rs. 1000 Lakhs. Company also complies with the eligibility conditions laid by the EMERGE Platform of National Stock Exchange of India Limited for listing of our Equity Shares.

2.4 TYPES OF PUBLIC ISSUES – FIXED PRICE ISSUES AND BOOK BUILT ISSUES

In accordance with the provisions of the SEBI ICDR Regulations, 2009, an Issuer can either determine the Issue Price through the Book Building Process (“**Book Built issues**”) or undertake a Fixed Price Issue (“**Fixed Price Issues**”). An issuer may mention Price or Price Band in the Draft Red Herring Prospectus (in case of a fixed price Issue) and Floor price or price band in the Red Herring prospectus (in case of a book built issue) and determine the price at a later date before registering the prospectus with the Registrar of Companies.

The cap on the Price Band should be less than or equal to 120% of the Floor Price. The issuer shall announce the Price or the Floor Price or the Price Band through advertisement in all newspapers in which the pre-issue advertisement was given at least five Working Days before the Bid/ Issue Opening Date, in case of an IPO and at least one Working Day before the Bid/Issue Opening Date, in case of an FPO.

The Floor Price or the Issue price cannot be lesser than the face value of the securities. Bidders should refer to the RHP/ Prospectus or Issue advertisements to check whether the Issue is a Book Built Issue or a Fixed Price Issue.

2.5 ISSUE PERIOD

The Issue may be kept open for a minimum of three Working Days (for all category of Bidders/Applicants) and not more than ten Working Days. Bidders/Applicants are advised to refer to the Bid cum Application Form and Abridged Prospectus or RHP/Prospectus for details of the Bid/Issue Period. Details of Bid/Issue Period are also available on the website of the Stock Exchange(s).

In case of a Book Built Issue, the Issuer may close the Bid/Issue Period for QIBs one Working Day prior to the Bid/Issue Closing Date if disclosures to that effect are made in the RHP. In case of revision of the Floor Price or Price Band in Book Built Issues the Bid/Issue Period may be extended by at least three Working Days, subject to the total Bid/Issue Period not exceeding 10 Working Days. For details of any revision of the Floor Price or Price Band, Bidders/Applicants may check the announcements made by the Issuer on the websites of the Stock Exchanges and the BRLM and the advertisement in the newspaper(s) issued in this regard

2.6 MIGRATION TO MAIN BOARD

SME Issuer may migrate to the Main Board of SE from the SME Exchange at a later date subject

to the following:

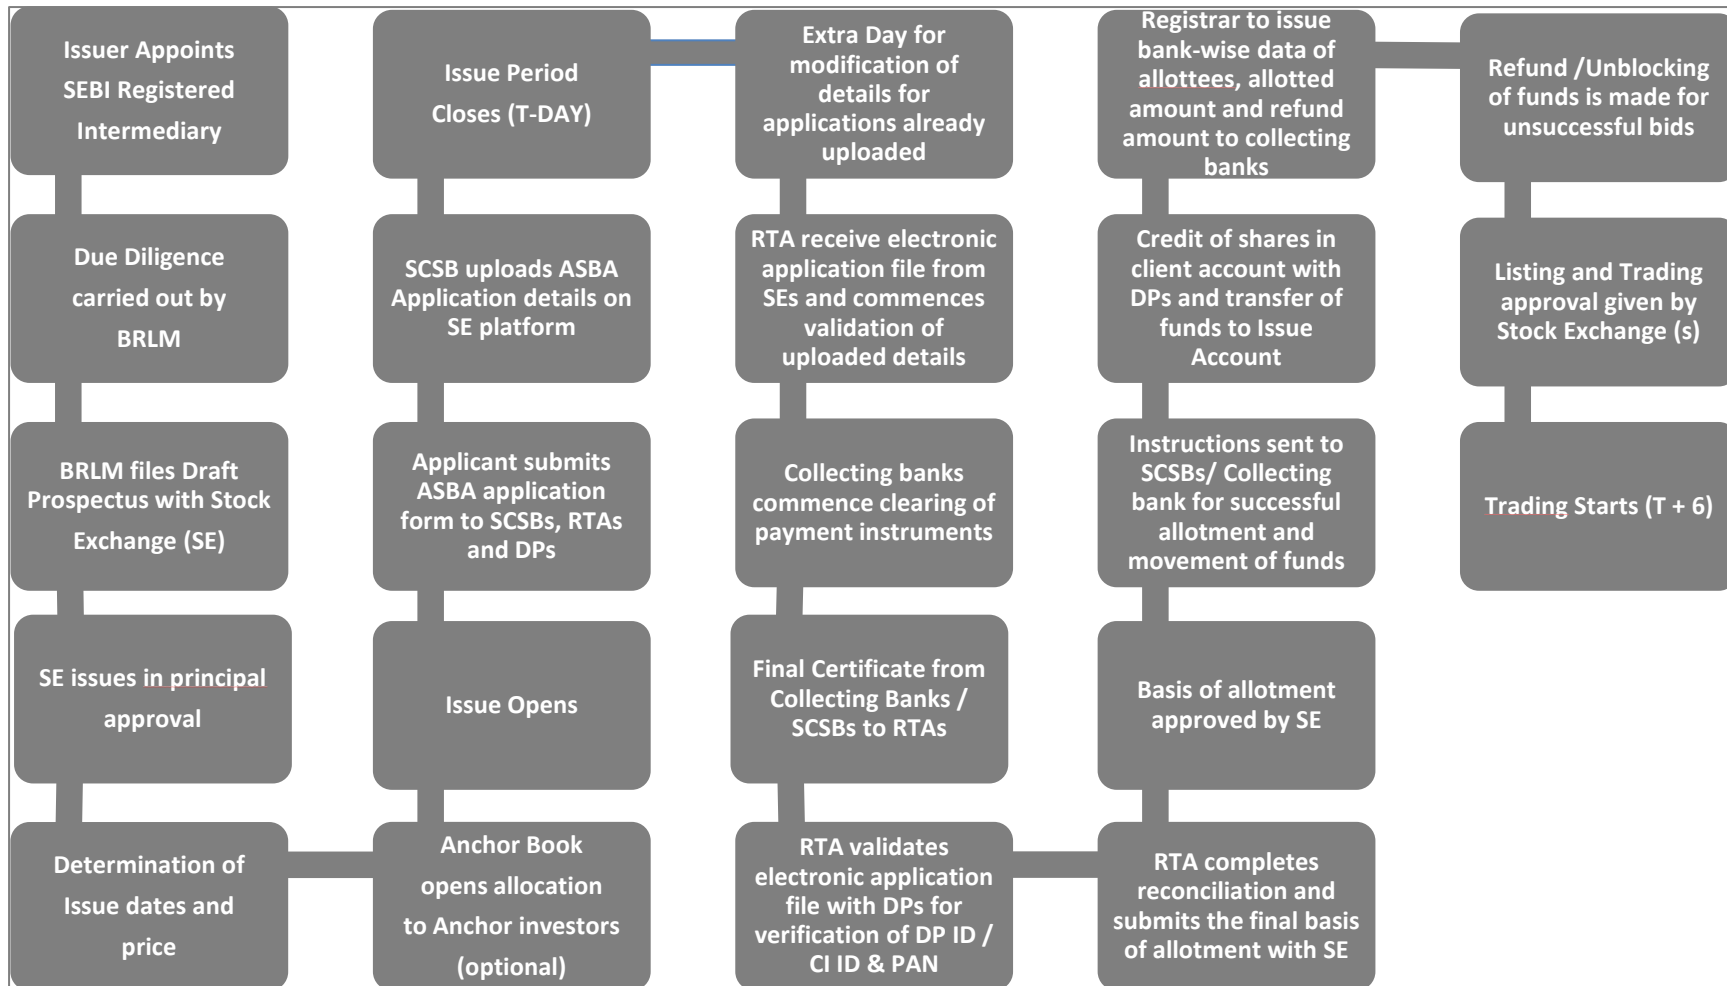

- (a) **If the Paid up Capital of the Company is likely to increase above Rs. 25 crores by virtue of any further issue of capital by way of rights, preferential issue, bonus issue etc. (which has been approved by a special resolution through postal ballot wherein the votes cast by the shareholders other than the Promoter in favor of the proposal amount to at least two times the number of votes cast by shareholders other than promoter shareholders against the proposal and for which the company has obtained in-principal approval from the main board), the Company shall apply to SE for listing of its shares on its Main Board subject to the fulfillment of the eligibility criteria for listing of specified securities laid down by the Main Board.**

OR

- (b) **If the Paid up Capital of the company is more than 10 crores but below Rs. 25 crores, the Company may still apply for migration to the main board if the same has been approved by a special resolution through postal ballot wherein the votes cast by the shareholders other than the Promoter in favour of the proposal amount to at least two times the number of votes cast by shareholders other than promoter shareholders against the proposal.**

2.7 FLOWCHART OF TIMELINES

- d) **Minimum Bid Value and Bid Lot:** The Issuer in consultation with the BRLM may decide the minimum number of Equity Shares for each Bid to ensure that the minimum Bid value is within the range of above Rs.1,00,000. The minimum Bid Lot is accordingly determined by an Issuer on basis of such minimum Bid value.

- e) **Allotment:** The Allotment of specified securities to each RII shall not be less than the minimum Bid Lot, subject to availability of shares in the RII category, and the remaining available shares, if any, shall be Allotted on a proportionate basis. For details of the Bid Lot, Bidders may refer to the DRHP or the advertisement regarding the Price Band published by the Issuer.

4.1.4.1 Maximum and Minimum Bid Size

- a) The Bidder may Bid for the desired number of Equity Shares at a specific price. Bids by Retail Individual Investors, Employees and Retail Individual Shareholders must be for such number of shares so as to ensure that the Bid Amount less Discount (as applicable), payable by the Bidder does not exceed Rs. 200,000.
- b) In case the Bid Amount exceeds Rs. 200,000 due to revision of the Bid or any other reason, the Bid may be considered for allocation under the Non-Institutional Category (with it not being eligible for Discount), then such Bid may be rejected if it is at the Cut-off Price.
- c) For NRIs, a Bid Amount of up to Rs. 200,000 may be considered under the Retail Category for the purposes of allocation and a Bid Amount exceeding Rs. 200,000 may be considered under the Non-Institutional Category for the purposes of allocation.
- d) Bids by QIBs and NIIs must be for such minimum number of shares such that the Bid Amount exceeds Rs. 200,000 and in multiples of such number of Equity Shares thereafter, as may be disclosed in the Bid cum Application Form and the RHP/Prospectus, or as advertised by the Issuer, as the case may be. Non-Institutional Investors and QIBs are not allowed to Bid at Cut off Price.
- e) RII may revise or withdraw their bids until Bid/Offer Closing Date. QIBs and NII's cannot withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after Bidding and are required to pay the Bid Amount upon submission of the Bid.
- f) In case the Bid Amount reduces to Rs. 200,000 or less due to a revision of the Price Band, Bids by the Non-Institutional Investors who are eligible for allocation in the Retail Category would be considered for allocation under the Retail Category.
- g) For Anchor Investors, if applicable, the Bid Amount shall be least Rs 10 crores. One-third of the Anchor Investor Portion shall be reserved for domestic Mutual Funds, subject to valid Bids being received from domestic Mutual Funds at or above the price at which allocation is being done to other Anchor Investors. Bids by various schemes of a Mutual Fund shall be aggregated to determine the Bid Amount. A Bid cannot be submitted for more than 60% of the QIB Category under the Anchor Investor Portion. Anchor Investors cannot withdraw their Bids or lower the size of their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after the Anchor Investor Bid/Offer Period and are required to pay the Bid Amount at the time of submission of the Bid. In case the Anchor Investor Issue Price is lower than the Issue Price, the balance amount shall be payable as per the pay-in-date mentioned in the revised CAN. In case the Issue Price is lower than the Anchor Investor Offer Price, the amount in excess of the Issue Price paid by the Anchor Investors shall not be refunded to them.
- h) A Bid cannot be submitted for more than the issue size.
 - 1. The maximum Bid by any Bidder including QIB Bidder should not exceed the investment limits prescribed for them under the applicable laws.
 - 2. The price and quantity options submitted by the Bidder in the Bid cum Application Form may be treated as optional bids from the Bidder and may not be cumulated. After determination of the issue Price, the number of Equity Shares Bid for by a Bidder at or above the issue Price may be considered for Allotment and the rest of the

Bid(s), irrespective of the Bid Amount may automatically become invalid. This is not applicable in case of FPOs undertaken through Alternate Book Building Process.

4.1.4.2 Multiple Bids

- (a) Bidder should submit only one Bid cum Application Form. Bidder shall have the option to make a maximum of Bids at three different price levels in the Bid cum Application Form and such options are not considered as multiple Bids. Submission of a second Bid cum Application Form to either the same or to another member of the Syndicate, SCSB or Registered Broker and duplicate copies of Bid cum Application Forms bearing the same application number shall be treated as multiple Bids and are liable to be rejected.
- (b) Bidders are requested to note the following procedures may be followed by the Registrar to the Issue to detect multiple Bids:
 - i. All Bids may be checked for common PAN as per the records of the Depository. For Bidders other than Mutual Funds and FII sub-accounts, Bids bearing the same PAN may be treated as multiple Bids by a Bidder and may be rejected.
 - ii. For Bids from Mutual Funds and FII sub-accounts, submitted under the same PAN, as well as Bids on behalf of the PAN Exempted Bidders, the Bid cum Application Forms may be checked for common DP ID and Client ID. Such Bids which have the same DP ID and Client ID may be treated as multiple Bids and are liable to be rejected.
- (c) The following Bids may not be treated as multiple Bids:
 - i. Bids by Reserved Categories Bidding in their respective Reservation Portion as well as bids made by them in the Offer portion in public category.
 - ii. Separate Bids by Mutual Funds in respect of more than one scheme of the Mutual Fund provided that the Bids clearly indicate the scheme for which the Bid has been made.
 - iii. Bids by Mutual Funds, and sub-accounts of FIIs (or FIIs and its sub-accounts) submitted with the same PAN but with different beneficiary account numbers, Client IDs and DP IDs.
 - iv. Bids by Anchor Investors under the Anchor Investor Portion and the QIB Portion.

4.1.5 FIELD NUMBER 5: CATEGORY OF BIDDERS

- (a) The categories of Bidders identified as per the SEBI ICDR Regulations, 2009 for the purpose of Bidding, allocation and allotment in the Issue are RIIs, NIIs and QIBs.
- (b) An Issuer can make reservation for certain categories of Bidders as permitted under the SEBI ICDR Regulations, 2009. For details of any reservations made in the Issue, Bidders may refer to the RHP.
- (c) The SEBI ICDR Regulations, 2009, specify the allocation or allotment that may be made to various categories of Bidders in an Issue depending upon compliance with the eligibility conditions. Details pertaining to allocation are disclosed on reverse side of the Revision Form. For Issue specific details in relation to allocation Bidder may refer to the DRHP.

4.1.6 FIELD NUMBER 6: INVESTOR STATUS

- (a) Each Bidder should check whether it is eligible to apply under applicable law and ensure that any prospective allotment to it in the Issue is in compliance with the investment restrictions under applicable law.

- (b) Certain categories of Bidder, such as NRIs, FPIs and FVCIs may not be allowed to Bid/apply in the Issue or hold Equity Shares exceeding certain limits specified under applicable law. Bidders are requested to refer to the Draft Red Herring Prospectus for more details.
- (c) Bidders should check whether they are eligible to apply on non-repatriation basis or repatriation basis and should accordingly provide the investor status. Details regarding investor status are different in the Resident Bid cum Application Form and Non-Resident Bid cum Application Form.
- (d) Bidders should ensure that their investor status is updated in the Depository records.

4.1.7 FIELD NUMBER 7: PAYMENT DETAILS

- i. The full Bid Amount (net of any Discount, as applicable) shall be blocked in the ASBA Account based on the authorisation provided in the Bid cum Application Form. If discount is applicable in the Issue, the RIIs should indicate the full Bid Amount in the Bid cum Application Form and the funds shall be blocked for the Bid Amount net of Discount. Only in cases where the RHP indicates that part payment may be made, such an option can be exercised by the Bidder. In case of Bidders specifying more than one Bid Option in the Bid cum Application Form, the total Bid Amount may be calculated for the highest of three options at net price, i.e. Bid price less Discount offered, if any.
- ii. Bid Amount cannot be paid in cash, through money order or through postal order or through stock invest.
- iii. Bidders who Bid at Cut-off Price shall DEPOSIT the Bid Amount based on the Cap Price.
- iv. All Bidders can participate in the Offer only through the ASBA mechanism.
- v. Please note that, providing bank account details in the space provided in the Bid cum Application Form is mandatory and Applications that do not contain such details are liable to be rejected.

4.1.7.1. Payment instructions for Bidders

- a) Bidders may submit the Bid cum Application Form either
 - i. in electronic mode through the internet banking facility offered by an SCSB authorizing blocking of funds that are available in the ASBA account specified in the Bid cum Application Form, or
 - ii. in physical mode to any Designated Intermediary.
- b) Bidders must specify the Bank Account number in the Bid cum Application Form. The Bid cum Application Form submitted by Bidder and which is accompanied by cash, demand draft, money order, postal order or any mode of payment other than blocked amounts in the ASBA Account maintained with an SCSB, will not be accepted.
- c) Bidders should ensure that the Bid cum Application Form is also signed by the ASBA Account holder(s) if the Bidder is not the ASBA Account holder.
- d) Bidders shall note that for the purpose of blocking funds under ASBA facility clearly demarcated funds shall be available in the account.
- e) From one ASBA Account, a maximum of five Bid cum Application Forms can be submitted.
- f) Bidders should submit the Bid cum Application Form only at the Bidding Centre i.e. to the respective member of the Syndicate at the Specified Locations, the SCSBs, the Registered Broker at the Broker Centres, the RTA at the Designated RTA Locations or

CDP at the Designated CDP Locations

- g) Bidders bidding through a Designated Intermediary, other than a SCSB, should note that Bid cum Application Forms submitted to such Designated Intermediary may not be accepted, if the SCSB where the ASBA Account, as specified in the Bid cum Application Form, is maintained has not named at least one branch at that location for such Designated Intermediary, to deposit Bid cum Application Forms.
- h) Bidders bidding directly through the SCSBs should ensure that the Bid cum Application Form is submitted to a Designated Branch of a SCSB where the ASBA Account is maintained.
- i) Upon receipt of the Bid cum Application Form, the Designated Branch of the SCSB may verify if sufficient funds equal to the Bid Amount are available in the ASBA Account, as mentioned in the Bid cum Application Form.
- j) If sufficient funds are available in the ASBA Account, the SCSB may block an amount equivalent to the Bid Amount mentioned in the Bid cum Application Form and for application directly submitted to SCSB by investor, may enter each Bid option into the electronic bidding system as a separate Bid.
- k) If sufficient funds are not available in the ASBA Account, the Designated Branch of the SCSB may not accept such Bids and such bids are liable to be rejected.
- l) Upon submission of a completed Bid cum Application Form each Bidder may be deemed to have agreed to block the entire Bid Amount and authorized the Designated Branch of the SCSB to block the Bid Amount specified in the Bid cum Application Form in the ASBA Account maintained with the SCSBs
- m) The Bid Amount may remain blocked in the aforesaid ASBA Account until finalisation of the Basis of Allotment and consequent transfer of the Bid Amount against the Allotted Equity Shares to the Public Issue Account, or until withdrawal or failure of the Issue, or until withdrawal or rejection of the Bid, as the case may be.
- n) SCSBs bidding in the Issue must apply through an Account maintained with any other SCSB; else their Bids are liable to be rejected.
- o) The Bid Amount may remain blocked in the aforesaid ASBA Account until finalization on the Basis of Allotment and consequent transfer of the Bid Amount against the Allotted Equity Shares to the Public Offer Account, or until withdrawal or failure of the Offer, or until withdrawal or rejection of the Bid, as the case may be.
- p) SCSBs bidding in the Offer must apply through an Account maintained with any other SCSB; else their Bids are liable to be rejected.

4.1.8. FIELD NUMBER 8: Unblocking of ASBA Account

- (a) Once the Basis of Allotment is approved by the Designated Stock Exchange, the Registrar to the Issue may provide the following details to the controlling branches of each SCSB, along with instructions to unblock the relevant bank accounts and for successful Bids transfer the requisite money to the Public Issue Account designated for this purpose, within the specified timelines: (i) the number of Equity Shares to be Allotted against each Bid, (ii) the amount to be transferred from the relevant bank account to the Public Issue Account, for each Bid, (iii) the date by which funds referred to in (ii) above may be transferred to the Public Issue Account, and (iv) details of rejected Bids, if any, to enable the SCSBs to unblock the respective bank accounts.
- (b) On the basis of instructions from the Registrar to the Issue, the SCSBs may transfer the requisite amount against each successful Bidder to the Public Issue Account and may unblock the excess amount, if any, in the ASBA Account.

- (c) In the event of withdrawal or rejection of the Bid cum Application Form and for unsuccessful Bids, the Registrar to the Issue may give instructions to the SCSB to unblock the Bid Amount in the relevant ASBA Account within six Working Days of the Bid/Issue Closing Date.
- (d) In the event of withdrawal or rejection of the Bid cum Application Form and for unsuccessful Bidders, the Registrar to the Issue may give instructions to the SCSB to unblock the Bid Amount in the relevant ASBA Account within 6 Working Days of the Bid/Issue Closing Date.

4.1.8.1. Discount (if applicable)

- (a) The Discount is stated in absolute rupee terms.
- (b) Bidders applying under RII category, Retail Individual Shareholder and employees are only eligible for discount. For Discounts offered in the Issue, Bidders may refer to the RHP/Prospectus.
- (c) The Bidders entitled to the applicable Discount in the Issue may make payment for an amount i.e. the Bid Amount less Discount (if applicable).
Bidder may note that in case the net payment (post Discount) is more than two lakh Rupees, the bidding system automatically considers such Bids for allocation under Non-Institutional Category. These Bids are neither eligible for Discount nor fall under RII category.

4.1.8.2. Additional Payment Instructions for NRIs

The Non-Resident Indians who intend to block funds through Non-Resident Ordinary (NRO) accounts shall use the form meant for Resident Indians (non-repatriation basis). In the case of Bids by NRIs applying on a repatriation basis, payment shall not be accepted out of NRO Account.

4.1.9. FIELD NUMBER 9: SIGNATURES AND OTHER AUTHORISATIONS

- (a) Only the First Bidder is required to sign the Bid cum Application Form. Bidders should ensure that signatures are in one of the languages specified in the Eighth Schedule to the Constitution of India.
- (b) If the ASBA Account is held by a person or persons other than the Bidder, then the Signature of the ASBA Account holder(s) is also required.
- (c) In relation to the Bids, signature has to be correctly affixed in the authorization/undertaking box in the Bid cum Application Form, or an authorisation has to be provided to the SCSB via the electronic mode, for blocking funds in the ASBA Account equivalent to the Bid/ amount mentioned in the Bid cum Application Form.
- (d) Bidders must note that Bid cum Application Form without signature of Bidder and /or ASBA Account holder is liable to be rejected.

4.1.10. FIELD NUMBER 10: ACKNOWLEDGEMENT AND FUTURE COMMUNICATION

- (a) Bidders should ensure that they receive the acknowledgment duly signed and stamped by Bid Collecting Intermediary or SCSB, as applicable, for submission of the Bid cum Application Form.
- (b) All communications in connection with Bid made in the Offer should be addressed as under:
 - i. In case of queries related to Allotment, non-receipt of Allotment Advice, credit of allotted equity shares, the Bidders should contact the Registrar to the Issue.
 - ii. In case of ASBA Bids submitted to the Designated Branches of the SCSBs, the Bidders should contact the relevant Designated Branch of the SCSB.
 - iii. Bidders may contact the Company Secretary and Compliance Officer or BRLM in

- case of any other complaints in relation to the Offer.
- iv. In case of queries relating to uploading of Bids by a Syndicate Member, the Bidders should contact the relevant Syndicate Member.
 - v. In case of queries relating to uploading of Bids by a Registered Broker, the Bidders should contact the relevant Registered Broker
 - vi. In case of Bids submitted to the RTA, the Bidders should contact the relevant RTA.
 - vii. In case of Bids submitted to the DP, the Bidders should contact the relevant DP.
- (c) The following details (as applicable) should be quoted while making any queries -
- i. Full name of the sole or First Bidder, Bid cum Application Form number, Bidder' DP ID, Client ID, PAN, number of Equity Shares applied for, amount paid on Bid.
 - ii. name and address of the Designated Intermediary, where the Bid was submitted; or

For further details, Bidder may refer to the Draft Red Herring Prospectus and the Bid cum Application Form.

4.2. INSTRUCTIONS FOR FILING THE REVISION FORM

- (a) During the Bid/Offer Period, any Bidder (other than QIBs and NIIs, who can only revise their Bid amount upwards) who has registered his or her interest in the Equity Shares for a particular number of shares is free to revise number of shares applied using revision forms available separately.
- (b) RII may revise / withdraw their Bid till closure of the Bid/Offer period.
- (c) Revisions can be made only in the desired number of Equity Shares by using the Revision Form.
- (d) The Bidder can make this revision any number of times during the Bid/Offer Period. However, for any revision(s) in the Bid, the Bidders will have to use the services of the SCSB through which such Bidder had placed the original Bid.

4.2.1. FIELDS 1, 2 AND 3: NAME AND CONTACT DETAILS OF SOLE/FIRST BIDDER, PAN OF SOLE/FIRST BIDDER & DEPOSITORY ACCOUNT DETAILS OF THE BIDDER

Bidders should refer to instructions contained in paragraphs 4.1.1, 4.1.2 and 4.1.3.

4.2.2. FIELD 4 & 5: BID OPTIONS REVISION 'FROM' AND 'TO'

- (a) Apart from mentioning the revised number of shares in the Revision Form, the Bidder must also mention the details of shares applied/bid for given in his or her Bid cum Application Form or earlier Revision Form. For example, if a Bidder has Bid for three options in the Bid cum Application Form and such Bidder is changing only one of the options in the Revision Form, the Bidder must still fill the details of the other two options that are not being revised, in the Revision Form. The members of the Syndicate, the Registered Brokers and the Designated Branches of the SCSBs may not accept incomplete or inaccurate Revision Form.
- (b) In case of revision, Bid options should be provided by Bidders in the same order as provided in the Bid cum Application Form.
- (c) In case of revision of Bids by RIIs, Employees and Retail Individual Shareholders, such Bidders should ensure that the Bid Amount, subsequent to revision, does not exceed Rs. 200,000. In case the Bid Amount exceeds Rs. 200,000 due to revision of the Bid or for any other reason, the Bid may be considered, subject to eligibility, for allocation under the Non-Institutional Category, not being eligible for Discount (if applicable) and such Bid may be rejected if it is at the Cut-off Price. The Cut-off Price option is given only to the RIIs, Employees and Retail Individual Shareholders indicating their agreement to Bid for and purchase the Equity Shares at the Issue Price as determined at the end of the Book Building Process.
- (d) In case the total amount (i.e., original Bid Amount plus additional payment) exceeds Rs. 200,000, the Bid will be considered for allocation under the Non-Institutional Category in terms of the RHP. If, however, the RII does not either revise the Bid or make additional payment and the Issue Price is higher than the cap of the Price Band prior to revision, the number of Equity Shares Bid for shall be adjusted downwards for the purpose of allocation, such that no additional payment would be required from the RII and the RII is deemed to have approved such revised Bid at Cut-off Price.
- (e) In case of a downward revision in the Price Band, RIIs and Bids by Employees under the Reservation Portion, who have bid at the Cut-off Price could either revise their Bid or the excess amount paid at the time of Bidding may be unblocked in case of Bidders.

4.2.3. PAYMENT DETAILS

- a) All Bidders are required to make payment of the full Bid Amount (less Discount, if applicable) along with the Bid Revision Form. In case of Bidders specifying more than one Bid Option in the Bid cum Application Form, the total Bid Amount may be calculated for the highest of three options at net price, i.e. Bid price less discount offered, if any.
- b) Bidder may Issue instructions to block the revised amount based on cap of the revised Price Band (adjusted for the Discount (if applicable) in the ASBA Account, to the same Designated Intermediary through whom such Bidder had placed the original Bid to enable the relevant SCSB to block the additional Bid Amount, if any.
- c) In case the total amount (i.e., original Bid Amount less discount (if applicable) plus additional payment) exceeds Rs. 200,000, the Bid may be considered for allocation

under the Non-Institutional Category in terms of the DRHP. If, however, the Bidder does not either revise the Bid or make additional payment and the Issue Price is higher than the cap of the Price Band prior to revision, the number of Equity Shares Bid for may be adjusted downwards for the purpose of Allotment, such that additional amount is required blocked and the Bidder is deemed to have approved such revised Bid at the Cut-off Price.

- d) In case of a downward revision in the Price Band, RIIs, Employees and Retail Individual Shareholders, who have bid at the Cut-off Price, could either revise their Bid or the excess amount paid at the time of Bidding may be unblocked.

4.2.4. FIELD NUMBER 7: SIGNATURES AND ACKNOWLEDGEMENTS

Bidders may refer to instructions contained at paragraphs 4.1.8 and 4.1.9 for this purpose.

4.3. SUBMISSION OF REVISION FORM/ BID CUM APPLICATION FORM /APPLICATION FORM

- 4.3.1. Bidders may submit completed Bid cum Application form / Revision Form in the following manner:-

Mode of Bid	Submission of Bid cum Application Form
All investors Bids	To the Bid cum Application Collecting Intermediaries as mentioned in the Draft Red herring Prospectus/ Bid cum Application Form

BASIS OF ALLOCATION

- a) **The SEBI ICDR Regulations, 2009 specify the allocation or Allotment that may be made to various categories of Bidders in an Issue depending on compliance with the eligibility conditions. Certain details pertaining to the percentage of Issue size available for allocation to each category is disclosed overleaf of the Bid cum Application Form and in the RHP. For details in relation to allocation, the Bidder may refer to the RHP.**
- b) **Under-subscription in any category (except QIB Category) is allowed to be met with spill over from any other category or combination of categories at the discretion of the Issuer and in consultation with the BRLM and the Designated Stock Exchange and in accordance with the SEBI ICDR Regulations, 2009. Unsubscribed portion in QIB Category is not available for subscription to other categories.**
- c) **In case of under subscription in the Issue, spill-over to the extent of such under-subscription may be permitted from the Reserved Portion to the Issue. For allocation in the event of an under-subscription applicable to the Issuer, Bidders may refer to the RHP.**
- d) **Illustration of the Book Building and Price Discovery Process**

Bidders should note that this example is solely for illustrative purposes and is not specific to the Issue; it also excludes Bidding by Anchor Investors.

Bidders can bid at any price within the Price Band. For instance, assume a Price Band of Rs.20 to Rs 24 per share, Issue size of 3,000 Equity Shares and receipt of five Bids from Bidders, details of which are shown in the table below. The illustrative book given below shows the demand for the Equity Shares of the Issuer at various prices and is collated from Bids received from various investors.

Bid Quantity	Bid Amount (Rs.)	Cumulative Quantity	Subscription
500	24	500	16.67%
1,000	23	1,500	50.00%
1,500	22	3,000	100.00%
2,000	21	5,000	166.67%
2,500	20	7,500	250.00%

The price discovery is a function of demand at various prices. The highest price at which the Issuer is able to Offer the desired number of Equity Shares is the price at which the book cuts off, i.e., Rs. 22.00 in the above example. The Issuer, in consultation with the BRLM, may finalise the Issue Price at or below such Cut-Off Price, i.e., at or below Rs. 22.00. All Bids at or above this Issue Price and cut-off Bids are valid Bids and are considered for allocation in the respective categories.

SECTION 6: ISSUE PROCEDURE IN FIXED PRICE ISSUE

This being Book Built Issue, this section is not applicable for this Issue.

SECTION 7: ALLOTMENT PROCEDURE AND BASIS OF ALLOTMENT

The Allotment of Equity Shares to Bidders other than Retail Individual Investors and Anchor Investors may be on proportionate basis. For Basis of Allotment to Anchor Investors, Bidders may refer to DRHP. No Retail Individual Investor will be allotted less than the minimum Bid Lot subject to availability of shares in Retail Individual Investor Category and the remaining available shares, if any will be allotted on a proportionate basis. The Issuer is required to receive a minimum subscription of 90% of the Offer (excluding any Offer for Sale of specified securities). However, in case the Offer is in the nature of Offer for Sale only, then minimum subscription may not be applicable.

7.1 BASIS OF ALLOTMENT

Allotment will be made in consultation with the EMERGE Platform of National Stock Exchange of India Limited (The Designated Stock Exchange). In the event of oversubscription, the allotment will be made on a proportionate basis in marketable lots as set forth hereunder:

- (a) The total number of Shares to be allocated to each category as a whole shall be arrived at on a proportionate basis i.e. the total number of Shares applied for in that category multiplied by the inverse of the oversubscription ratio (number of Bidders in the category x number of Shares applied for).**
- (b) The number of Shares to be allocated to the successful Bidders will be arrived at on a proportionate basis in marketable lots (i.e. Total number of Shares applied for into the inverse of the over subscription ratio).**
- (c) For Bids where the proportionate allotment works out to less than [●] equity shares the allotment will be made as follows:**
 - Each successful Bidder shall be allotted [●] equity shares; and
 - The successful Bidder out of the total bidders for that category shall be determined by the drawl of lots in such a manner that the total number of Shares allotted in that category is equal to the number of Shares worked out as per (b) above.
- (d) If the proportionate allotment to a Bidder works out to a number that is not a multiple of [●] equity shares, the Bidder would be allotted Shares by rounding off to the nearest multiple of [●] equity shares subject to a minimum allotment of [●] equity shares.**
- (e) If the Shares allotted on a proportionate basis to any category is more than the Shares allotted to the Bidders in that category, the balance available Shares or allocation shall be first adjusted against any category, where the allotted Shares are not sufficient for proportionate allotment to the successful Bidder in that category, the balance Shares, if any, remaining after such adjustment will be added to the category comprising Bidder applying for the minimum number of Shares. If as a result of the process of rounding off to the nearest multiple of [●] Equity Shares, results in the actual allotment being higher than the shares offered, the final allotment may be higher at the sole discretion of the Board of Directors, up to 110% of the size of the offer specified under the Capital Structure mentioned in this DRHP.**
- (f) The above proportionate allotment of Shares in an Issue that is oversubscribed shall be subject to the reservation for Retail individual Bidders as described below:**
 - i. As the retail individual investor category is entitled to more than fifty per cent on proportionate basis, the retail individual investors shall be allocated that higher percentage.**
 - ii. The balance net offer of shares to the public shall be made available for allotment to**
 - individual bidders other than retails individual investors and
 - other investors, including corporate bodies/ institutions irrespective of number of shares applied for.
 - iii. The unsubscribed portion of the net offer to any one of the categories specified in a) or b) shall/may be made available for allocation to bidders in the other category, if so required.**

Retail Individual Investor' means an investor who applies for shares of value of not more than Rs. 2,00,000/- .Investors may note that in case of over subscription allotment shall be on proportionate basis and will be finalized in consultation with NSE.

The Executive Director / Managing Director of the Designated Stock Exchange in addition to Book Running Lead Manager and Registrar to the Public Issue shall be responsible to ensure that

the basis of allotment is finalized in a fair and proper manner in accordance with the SEBI (ICDR) Regulations.

7.2 DESIGNATED DATE AND ALLOTMENT OF EQUITY SHARES

- (a) **Designated Date:** On the Designated Date, the SCSBs shall transfer the funds represented by allocation of Equity Shares into the Public Issue Account with the Bankers to the Issue.
- (b) **Issuance of Allotment Advice:** Upon approval of the Basis of Allotment by the Designated Stock Exchange, the Registrar shall upload the same on its website. On the basis of the approved Basis of Allotment, the Issuer shall pass necessary corporate action to facilitate the Allotment and credit of Equity Shares. **Bidders are advised to instruct their Depository Participant to accept the Equity Shares that may be allotted to them pursuant to the Issue.**

Pursuant to confirmation of such corporate actions, the Registrar will dispatch Allotment Advice to the Bidders who have been Allotted Equity Shares in the Issue.

- (c) The dispatch of Allotment Advice shall be deemed a valid, binding and irrevocable contract.
- (d) **Issuer will ensure that: (i) the Allotment of Equity Shares; and (ii) initiate corporate action for credit of shares to the successful Bidders Depository Account will be completed within 4 Working Days of the Issue Closing Date. The Issuer also ensures the credit of shares to the successful Bidder depository account is completed within one Working Day from the date of Allotment, after the funds are transferred from the Public Issue Account on the Designated Date.**

RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991 of the Government of India and Foreign Exchange Management Act, 1999 (“**FEMA**”). While the Industrial Policy, 1991 prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Under the Industrial Policy, unless specifically restricted, foreign investment is freely permitted in all sectors of Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. The government bodies responsible for granting foreign investment approvals are the Reserve Bank of India (“**RBI**”) and Department of Industrial Policy and Promotion, Ministry of Commerce and Industry, Government of India (“**DIPP**”).

The Government of India, from time to time, has made policy pronouncements on Foreign Direct Investment (“**FDI**”) through press notes and press releases. The Department of Industrial Policy and Promotion, Ministry of Commerce and Industry, Government of India (“**DIPP**”), has issued consolidated FDI Policy Circular of 2017 (“**FDI Policy 2017**”), which with effect from August 28, 2017, consolidates and supersedes all previous press notes, press releases and clarifications on FDI Policy issued by the DIPP that were in force. The Government proposes to update the consolidated circular on FDI policy once every year and therefore, FDI Policy 2017 will be valid until the DIPP issues an updated circular.

The Reserve Bank of India (“**RBI**”) also issues Master Circular on Foreign Investment in India every year. Presently, FDI in India is being governed by Master Circular on Foreign Investment dated July 01, 2015 as updated from time to time by RBI. In terms of the Master Circular, an Indian company may issue fresh shares to people resident outside India (who is eligible to make investments in India, for which eligibility criteria are as prescribed). Such fresh issue of shares shall be subject to inter-alia, the pricing guidelines prescribed under the Master Circular. The Indian company making such fresh issue of shares would be subject to the reporting requirements, inter-alia with respect to consideration for issue of shares and also subject to making certain filings including filing of Form FC-GPR.

Under the current FDI Policy of 2017, foreign direct investment in micro and small enterprises is subject to sectoral caps, entry routes and other sectoral regulations. At present 100 % foreign direct investment through automatic route is permitted in the sector in which our Company operates. Therefore applicable foreign investment up to 100% is permitted in our company under automatic route.

In case of investment in sectors through Government Route approval from competent authority as mentioned in Chapter 4 of the FDI Policy 2017 has to be obtained by the Company.

The transfer of shares between an Indian resident to a non-resident does not require the prior approval of the RBI, subject to fulfilment of certain conditions as specified by DIPP/RBI, from time to time. Such conditions include (i) where the transfer of shares requires the prior approval of the Government as per the extant FDI policy provided that: a) the requisite approval of the Government has been obtained; and b) the transfer of shares adheres with the pricing guidelines and documentation requirements as specified by the Reserve Bank of India from time to time. ; (ii) where the transfer of shares attract SEBI (SAST) Regulations subject to the adherence with the pricing guidelines and documentation requirements as specified by Reserve Bank of India from time to time.; (iii) where the transfer of shares does not meet the pricing guidelines under the FEMA, 1999 provided that: a) The resultant FDI is in compliance with the extant FDI policy and FEMA regulations in terms of sectoral caps, conditionalities (such as minimum capitalization, etc.), reporting requirements, documentation etc.; b) The pricing for the transaction is compliant with the specific/explicit, extant and relevant SEBI regulations/guidelines (such as IPO, Book building, block deals, delisting, exit, open offer/substantial

acquisition/SEBI SAST); and Chartered Accountants Certificate to the effect that compliance with the relevant SEBI regulations/guidelines as indicated above is attached to the form FC-TRS to be filed with the AD bank and iv) where the investee company is in the financial sector provided that: a) Any 'fit and proper/due diligence' requirements as regards the non-resident investor as stipulated by the respective financial sector regulator, from time to time, have been complied with; and b) The FDI policy and FEMA regulations in terms of sectoral caps, conditionalities (such as minimum capitalization, pricing, etc.), reporting requirements, documentation etc., are complied with.. As per the existing policy of the Government of India, OCBs cannot participate in this Issue and in accordance with the extant FDI guidelines on sectoral caps, pricing guidelines etc. as amended by Reserve bank of India, from time to time. Investors are advised to confirm their eligibility under the relevant laws before investing and / or subsequent purchase or sale transaction in the Equity Shares of Our Company. Investors will not offer, sell, pledge or transfer the Equity Shares of our Company to any person who is not eligible under applicable laws, rules, regulations, guidelines. Our Company, the Underwriters and their respective directors, officers, agents, affiliates and representatives, as applicable, accept no responsibility or liability for advising any investor on whether such investor is eligible to acquire Equity Shares of our Company.

Investment conditions/restrictions for overseas entities

Under the current FDI Policy 2017, the maximum amount of Investment (sectoral cap) by foreign investor in an issuing entity is composite unless it is explicitly provided otherwise including all types of foreign investments, direct and indirect, regardless of whether it has been made for FDI, FII, FPI, NRI, FVCI, LLPs, DRs and Investment Vehicles under Schedule 1, 2, 2A, 3, 6, 9, 10 and 11 of FEMA (Transfer or Issue of Security by Persons Resident outside India) Regulations. Any equity holding by a person resident outside India resulting from conversion of any debt instrument under any arrangement shall be reckoned as foreign investment under the composite cap.

Portfolio Investment upto aggregate foreign investment level of 49 % or sectoral/statutory cap, whichever is lower, will not be subject to either Government approval or compliance of sectoral conditions, if such investment does not result in transfer of ownership and/or control of Indian entities from resident Indian citizens to non-resident entities. Other foreign investments will be subject to conditions of Government approval and compliance of sectoral conditions as per FDI Policy. The total foreign investment, direct and indirect, in the issuing entity will not exceed the sectoral/statutory cap.

i. Investment by FIIs under Portfolio Investment Scheme (PIS):

With regards to purchase/sale of share/s convertible debentures by a registered FII under PIS the total holding by each FII/SEBI approved sub-account of FII shall not exceed 10 % of the total paid-up equity capital or 10% of the paid-up value of each series of convertible debentures issued by an Indian company and the total holdings of all FIIs/sub-accounts of FIIs put together shall not exceed 24 % of paid-up equity capital or paid-up value of each series of convertible debentures However, this limit of 24 % may be increased up to sectoral cap/statutory ceiling, as applicable, by the Indian company concerned by passing a resolution by its Board of Directors followed by passing of a special resolution to that effect by its general body. For arriving at the ceiling on holdings of FIIs, shares/ convertible debentures acquired both through primary as well as secondary market will be included. However, the ceiling will not include investment made by FII through off-shore Funds, Global Depository receipts and Euro-Convertible Bonds. With regard to convertible debentures, these investments permitted to be made shall not exceed 5 % of the total paid-up equity capital or 5% of the paid-up value of each series of convertible debentures issued by an Indian Company, and shall also not exceed the over-all ceiling limit of 24 % of paid-up equity capital or paid up value of each series of convertible debentures.

ii. Investment by Registered Foreign Portfolio Investor (RFPI) under Foreign Portfolio Investment (FPI) Scheme

With respect to purchase/sale of shares or convertible debentures or warrants, a RFPI registered in accordance with SEBI (FPI) Regulations, 2014 as amended in regular intervals may purchase shares or convertible debentures or warrants of an Indian company under FPI scheme. The total holding by each RFPI shall be below 10 % of the total paid-up equity capital or 10 % of the paid-up value of each series of convertible debentures issued by an Indian company and the total holdings of all RFPI put together shall not exceed 24 % of paid-up equity capital or paid up value of each series of convertible debentures. The said limit of 24 % will be called aggregate limit. However, the aggregate limit of 24 % may be increased up to the sectoral cap/statutory ceiling, as applicable, by the Indian company concerned by passing a resolution by its Board of Directors followed by passing of a special resolution to that effect by its General Body. For arriving at the ceiling on holdings of RFPI, shares or convertible debentures or warrants acquired both through primary as well as secondary market will be included. However, the ceiling will exclude investment made by RFPI through off-shore Funds, Global Depository Receipts and Euro-Convertible Bonds but include holding of RFPI and deemed RFPI in the investee company for computation of 24 % or enhanced limit.

iii. Investment by NRI on repatriation and non-repatriation basis under PIS:

With respect to purchase/sale of shares and/or convertible debentures by a NRI on a stock exchange in India on repatriation and/or non-repatriation basis under PIS is allowed subject to certain conditions under Schedule 3 of the FEMA (Transfer or Issue of security by a person resident outside India) Regulations, 2000. Further, with regard to limits:

- the paid-up value of shares of an Indian company, purchased by each NRI both on repatriation and on non-repatriation basis, does not exceed 5 % of the paid-up value of shares issued by the company concerned;
 - the paid-up value of each series of convertible debentures purchased by each NRI both on repatriation and non-repatriation basis does not exceed 5 % of the paid-up value of each series of convertible debentures issued by the company concerned;
 - the aggregate paid-up value of shares of any company purchased by all NRIs does not exceed 10 % of the paid up capital of the company and in the case of purchase of convertible debentures
 - the aggregate paid-up value of each series of debentures purchased by all NRIs does not exceed 10 % of the paid-up value of each series of convertible debentures;
- However, the aggregate ceiling of 10 % may be raised to 24 % if a special resolution to that effect is passed by the General Body of the Indian company concerned.

iv. Investment by NRI on Non-repatriation basis

As per current FDI Policy 2017, schedule 4 of FEMA (Transfer or Issue of Security by Persons Resident outside India) Regulations – Purchase and sale of shares and convertible debentures or warrants by a NRI on Non-repatriation basis – will be deemed to be domestic investment at par with the investment made by residents. This is further subject to remittance channel restrictions.

The Equity Shares have not been and will not be registered under the U.S. Securities Act of 1933, as amended (“US Securities Act”) or any other state securities laws in the United States of America and may not be sold or offered within the United States of America, or to, or for the account or benefit of “US Persons” as defined in Regulation S of the U.S. Securities Act), except

pursuant to exemption from, or in a transaction not subject to, the registration requirements of US Securities Act and applicable state securities laws.

Accordingly, the equity shares are being offered and sold only outside the United States of America in an offshore transaction in reliance upon Regulation S under the US Securities Act and the applicable laws of the jurisdiction where those offers and sale occur.

Further, no offer to the public (as defined under Directive 2003/71/EC, together with any amendments) and implementing measures thereto, (the “Prospectus Directive”) has been or will be made in respect of the Issue in any member State of the European Economic Area which has implemented the Prospectus Directive except for any such offer made under exemptions available under the Prospectus Directive, provided that no such offer shall result in a requirement to publish or supplement a prospectus pursuant to the Prospectus Directive, in respect of the Issue.

Any forwarding, distribution or reproduction of this document in whole or in part may be unauthorised. Failure to comply with this directive may result in a violation of the Securities Act or the applicable laws of other jurisdictions. Any investment decision should be made on the basis of the final terms and conditions and the information contained in this Prospectus.

The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be offered or sold, and Application may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction.

The above information is given for the benefit of the Applicants. Our Company and the Lead Manager are not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of this Prospectus. Applicants are advised to make their independent investigations and ensure that the Applications are not in violation of laws or regulations applicable to them and do not exceed the applicable limits under the laws and regulations.
