Plants taken on lease and non renewal of such agreement of such premises, we may be required to identify alternative premises and enter into fresh lease or leave and license agreement at less favorable terms and conditions. Such a situation could result in loss of business, time overruns and may adversely affect our operations and profitability.

2. Our business requires us to obtain and renew certain registrations, licenses and permits from government and regulatory authorities and the failure to obtain and renew them in a timely manner may adversely affect our business operations.

Our business operations require us to obtain and renew from time to time, certain approvals, licenses, registration and permits, some of which may expire and for which we may have to make an application for obtaining the approval or its renewal. Some of the permits, licenses and approvals etc. are granted for a fixed period of time and may expire and for which we may have to make an application for obtaining the approval or its renewal. Failure to renew, maintain or obtain the required permits or approvals in time may result in the interruption of our operations and may have a material adverse effect on our business. Moreover, there can be no assurance that the relevant authorities will issue or renew any of such permits or approvals in time or at all. Further, certain statutory and regulatory authority may put certain terms and conditions, which are required to be complied with by us. We may be unable to control the factors affecting the price at which we procure the raw materials. Upward fluctuations in the prices of such raw material may thereby affect our margins and profitability, resulting in a material adverse effect on our business, financial condition and results of operations. Though we enjoy favourable terms from the suppliers both in prices as well as in supplies, our inability to obtain high quality raw materials in a timely and cost-effective manner would cause delays in our production/trade cycles and delivery schedules, which may result in the loss of our customers and revenues.

Our subsidiary company is co-founded to meet the export requirement for tablet, capsules, oral liquids and sachets and other special dosage forms which will be having installed capacity of approx. 30 to 45 lakhs tablets per day and approx. 2.5 lakhs capsules per day. Any decline in our quality standards, growing competition and any change in the demand, may adversely affect our ability to retain them. We cannot assure that we shall generate the same quantum of business, or any business at all, and the loss of business from one or more of them may adversely affect our revenues and results of operations. However, the composition and revenue generated from these customers might change as we continue to add new customers in the normal course of business. Though we believe that we will not face substantial challenges in maintaining our business relationship with them or finding new customers, there can be no assurance that we will be able to maintain long term relationships with such customers or find new customers in time.

Although our company is engaged in Manufacturing of Nutraceutical, Ayurvedic, Cosmeceuticals, Sexual Wellness and Food supplement products of our own and also for third party in Domestic and International market. Our company had reported net profit margins of 0.73%, 0.54% and 0.05% for the financial year ending March 31; 2020, 2019, and 2018 respectively. Due to lower margins, we have lower EPS for our shareholders and it may continue to do so. If the margins do not increase over time, we may continue to earn lower profits on higher revenues resulting in slower growth and affect overall financial condition. The management believes that lower margins are mainly due to non-compromise on quality and compliance which is beneficial in the long run. If we are unable to increase our margins, it may affect our growth prospects, profitability, operations and overall financial condition along with ability to absorb the fixed costs, if any, for the producers of new and innovative products.

9. Our Company requires significant amount of working capital for a continued growth. Our inability to meet our working capital requirements may have an adverse effect on our results of operations.

Our inability to maintain sufficient cash flow, credit facility and other sources of fund, in a timely manner, or at all, to meet the requirement of working capital or pay out debts, could adversely affect our financial condition and result of our operations. For further details regarding incremental working capital requirement, please refer to the chapter titled —OBJECTS OF THE ISSUE beginning on page no. 67 of this Draft Prospectus.

10. Our Company has taken unsecured loans that may be recalled by the Directors cum Promoters or relatives of Directors, NBFC, and financial institution at any time.

Our Company have currently availed unsecured loans which may be called by such lenders at any time. As at December 31, 2020, the unsecured loan amounting ₹ 191.51 Lakh were due to our Directors cum Promoters, relatives of Directors, NBFC/Financial institutions/Banks. In the event that such lenders seeks further repayment of any such loan, our Company would need to find alternative sources of financing, which may not be available on commercially reasonable terms, or at all. Also there is no formal agreement with lenders other than NBFC's. As a result, any such demand may affect our business, cash flows, financial condition and results of operations. For further details on financing arrangements entered into by our Company, please refer chapter titled “RESTATED FINANCIAL INFORMATION” on Page no.162 of Draft Prospectus.

11. If we cannot respond adequately to the increased competition we expect to face, we will lose market share and our profits will decline, which will adversely affect our business, results of operations and financial condition.

Our products face competition from products commercialized or under development by competitors in all of our product portfolios. We compete with local companies, multi-national corporations and companies from the rest of world. If our competitors gain significant market share at our expense, our business, results of operations and financial condition could be adversely affected.

Many of our competitors may have greater financial, manufacturing, research and development, marketing and other resources, more experience in obtaining regulatory approvals, greater geographic reach, broader product ranges and stronger sales forces. Our competitors may succeed in developing products that are more effective, more popular or cheaper than products which we have developed or we may develop, which may render our products obsolete or

uncompetitive and adversely affect our business and financial results. Also, we face pressure on our margins due to pricing competition from several small and organized local players. Presence of such players has resulted in increasing competitive environment characterized by stiff price competition.

12. The availability of counterfeit product could adversely affect our goodwill and results of operations.

Entities in India and abroad could pass off their own products as ours, including counterfeit or pirated products. For example, certain entities could imitate our brand name, packaging materials or attempt to create look-alike products. As a result, our market share could be reduced due to replacement of demand for our products and adversely affect our goodwill. The proliferation of counterfeit and pirated products, and the time and attention lost to defending claims and complaints about counterfeit products could have an adverse effect on our goodwill and our business, prospects, results of operations and financial condition could suffer.

13. If we inadvertently infringe on the patents of others, our business may be adversely affected.

We operate in an industry characterized by extensive patent litigation. Patent litigation can result in significant damages being awarded and injunctions that could prevent the sale of certain products or require us to pay significant royalties in order to continue to sell such products. While it is not possible to predict the outcome of patent litigation, we believe any adverse result of such litigation could include an injunction preventing us from selling our products or payment of significant damages or royalty, which would affect our ability to sell current or future products or prohibit us from enforcing our rights against others. The occurrence of any of these risks could adversely affect our business, financial condition and results of operations.

14. Non-compliance with the bar coding requirements stipulated by the Director General of Foreign Trade, ("DGFT), from time to time, for primary, secondary and tertiary level packaging of finished pharmaceutical products for export, could adversely affect our goodwill, business, financial condition and results of operations.

Pursuant to applicable notices, notifications and circulars issued by the DGFT, from time to time, we are required to comply with bar coding requirements for primary, secondary and tertiary level packaging of finished products for export. As the bar coding requirements mandated by the DGFT, are applicable in addition to the standard labelling requirements under the DCA and the Drug Rules, it may lead to an increase in packaging and other costs, thereby requiring us to allocate more resources and impeding our ability to operate and grow our business. Any non-compliance with the bar coding requirements as stipulated by the DGFT, could result in counterfeiting or piracy of our pharmaceutical products, thereby affecting our goodwill. We cannot assure you that we will be able to comply with all the bar coding requirements as stipulated by the DGFT, from time to time, within the prescribed time, or at all, failing which our goodwill, business, financial condition and results of operations could be adversely affected.

15. We generally do business with our customers on purchase order basis and do not enter into long term contracts with most of them.

Our business is dependent on our continuing relationships with our customers. Our Company neither has any long-term contract with any of customers. Any change in the buying pattern of our end users or disassociation of major customers can adversely affect the business of our Company. The loss of or interruption of work by, a significant customer or a number of significant customers or the inability to procure new orders on a regular basis or at all may have an adverse effect on our revenues, cash flows and operations.

16. Our Company's failure to maintain the quality standards of the products or keep pace with the technological developments could adversely impact our business, results of operations and financial condition.

Our products depend on recent inventions and developments as we market the products as per the market trends. Any failure to maintain the quality standards may affect our business. Although we have put in place strict quality control procedures, we cannot assure that our products will always be able to satisfy our customer's quality standards. Any negative publicity regarding our Company, or products, including those arising from any deterioration in quality of our products from our vendors, or any other unforeseen events could adversely affect our reputation, our operations and our results from operations. Also, rapid change in our customer's expectation on account of changes in technology or introduction of new products or for any other reason and failure on our part to meet their expectation could adversely affect our business, result of operations and financial condition. While, we believe that we have always introduced new products based on consumers need to cater to the growing demand of our customers and also endeavor regularly update our existing technology, our failure to anticipate or to respond adequately to changing technical, market demands and/or client requirements could adversely affect our business and financial results.

17. Our Company is dependent on third party transportation for the delivery of products and any disruption in their operations or a decrease in the quality of their services could affect our Company's reputation and results of operations.

Non-receipt of such “No- Objection” certificate could lead to non-compliance of the terms of loan agreements entered into by our Company with said lenders.

We have entered into agreements for availing debt facilities from lenders. Certain covenants in these agreements require us to obtain approval/permission from our lenders in certain conditions. In the event of default or the breach of certain covenants, our lender has the option to make the entire outstanding amount payable immediately. Expansion into new markets, including in India and overseas, subjects us to various challenges, including those relating to our lack of familiarity with the culture, legal regulations and economic conditions of these new regions, language barriers, difficulties in staffing and managing such operations, and the lack of brand recognition and reputation in such regions.

The risks involved in entering new geographic markets and expanding operations, may be higher than expected, and we may face significant competition in such markets.

By expanding into new markets, we could be subject to additional risks associated with establishing and conducting operations, including: compliance with a wide range of laws, regulations and practices, including uncertainties associated with changes in

- laws, regulations and practices and their interpretation; local preferences and service requirements;
- fluctuations in foreign currency exchange rates;
- inability to effectively enforce contractual or legal rights and adverse tax consequences;

Sr. No.	Name of Promoters	No. of Equity Shares held	Average Cost of Acquisition per equity share (in ₹)*
1.	Mr. Kalpesh Pravinchandra Ladhawala	7,80,000	10.00

22. Our success depends in large part upon the strength of our management team and other skilled professionals. If we fail to attract, retain and manage transition of these personnel, our business may be unable to grow and our revenue could decline.

The continued efforts of the senior members of our management team and other skilled professionals are critical to our success. Our ability to execute engagements and to obtain new clients depends in large part on our ability to attract, train, motivate and retain skilled professionals, especially senior management personnel, senior technical personnel, project managers etc. If we cannot hire and retain additional qualified personnel, our ability to obtain new projects and to continue to expand our business will be impaired and our revenue could decline. We believe that there is significant competition within our industry for professionals with the skills necessary for better performance, particularly in the locations in which we have operations. We may not be able to hire and retain enough skilled and experienced employees to replace those who leave. Increasing competition for technology professionals may also impact our ability to retain personnel. Changes in government policies may also affect our ability to attract hire and retain personnel. If we are unable to offer them higher compensation, we may be unable to attract or retain them. Our business, financial condition and results of operations could be adversely affected if we are unable to manage employee hiring and attrition to achieve a stable and efficient workforce structure.

23. In the event there is any delay in the completion of the Issue, there would be a corresponding delay in the completion of the objects of this Issue which would in turn affect our revenues and results of operations.

The funds that we receive would be utilized for the objects of the Issue as has been stated in the chapter titled “OBJECTS OF THE ISSUE” on Page no. 67 of this Draft Prospectus. The proposed schedule of implementation of the objects of the Issue is based on our management’s estimates. 24. Our operations may be adversely affected by strikes, work stoppages or increased wage demands by our employees or any other industrial unrest or dispute.

While we have not experienced any unrest or dispute in our company in the past, we cannot be certain that we will not suffer any disruption to our operations due to strikes, work stoppages or increased salary demands in the future. Further, if our work force in our unit unionizes in the future, collective bargaining efforts by employee unions may divert our management’s attention and result in increased costs. We may be unable to negotiate acceptable collective wage settlement agreements with those workers who have chosen to be represented by unions, which may lead to union-initiated strikes or work stoppages. Any shortage of skilled and experienced workers caused by such industrial unrest or disputes may adversely affect our business, results of operations and financial condition. Further, under Indian law, we may be held liable for wage payments or benefits and amenities made available to “daily wage” workers. Any requirement to discharge such payment obligations, benefits or amenities or to absorb a significant portion of the salary on our own rolls may adversely affect our business, results of operations and financial condition.

27. Our Object has not been appraised by any Bank or Financial Institution. Any significant deviation in the Object could adversely impact our operations and sustainability in absence of any independent monitoring agency.

We have estimated fund raising to the extent of ₹ 660.00 Lakh to finance the 'Objects of the Issue' (including Issue Expenses). The proposed objects for which the funds are being raised have not been appraised by any Bank or Financial Institution and the fund requirements are based primarily on management estimates. There is no guarantee that our estimates will prove to be accurate and any significant deviation in the project cost could adversely impact our operations and sustainability in the absence of any independent monitoring agency. For details of the "OBJECT OF THE ISSUE", please refer Page no. 67 of this Draft Prospectus.

28. Our insurance coverage may not be adequate to protect us against all potential losses to which we may be subject to and this may have a material adverse effect on our business.

While we believe that we maintain insurance coverage in amounts consistent with industry norms. If any or all of our facilities are damaged in whole or in part and our operations are interrupted for a sustained period, there can be no assurance that our insurance policies will be adequate to cover the losses that may be incurred as a result of such interruption or the cost of repairing or replacing the damaged facilities. If we suffer a large uninsured loss or any insured loss suffered by us significantly exceeds our insurance coverage, our business, financial condition and result of operations may be materially and adversely affected.

29. Our Promoters play key role in our functioning and we heavily rely on their knowledge and experience in operating our business and therefore, it is critical for our business that our Promoters and Executive Directors remain associated with us. Our success also depends upon the services of our key managerial personnel and our ability to attract and retain key managerial personnel and our inability to attract them may affect our operations.

We benefit from our relationship with our Promoters and our success depends upon the continuing services of our Promoters and executive Directors who have been responsible for the growth of our business and is closely involved in the overall strategy, direction and management of our business. Our Promoters and executive Directors have been actively involved in the day to day operations and management. Accordingly, our performance is heavily dependent upon the services of our Promoters and executive Directors. If our Promoters and executive directors unable or unwilling to continue in their present position, we may not be able to replace them easily or at all. Further, we rely on the continued services and performance of our key executives and senior management for continued success and smooth functioning

of the operations of the Company. If we lose the services of any of our key managerial personnel, we may be unable to locate suitable or qualified replacements, and may incur additional expenses to recruit and train new personnel, which could adversely affect our business operations and affect our ability to continue to manage and expand our business. Our Promoters and executive Directors, along with the key managerial personnel, have over the years built relations with various customers and other persons who form part of our stakeholders and are connected with us. The loss of their services could impair our ability to implement our strategy, and our business, financial condition, results of operations and prospects may be materially and adversely affected.

30. Our Company has entered into related party transactions and may continue to do so in the future.

Our Company has entered into related party transactions with our Promoters, Directors, Promoter Group, Group companies/entities during the last three Financial Years. While our Company believes that all such transactions have been conducted on the arm's length basis, there can be no assurance that it could not have been achieved on more favourable terms had such transactions not been entered into with related parties. There can be no assurance that such transactions, individually or in the aggregate, will not have an adverse effect on our financial condition and results of operation. For details, please refer to please refer to the "Annexure – X" - "RELATED PARTY TRANSACTION" of Restated Financial Statements under the Chapter titled "RESTATED FINANCIAL INFORMATION" beginning on Page No. 162 of this Draft Prospectus.

31. Our Promoters and members of the Promoter Group will continue jointly to retain majority control over our Company after the Issue, which will allow them to determine the outcome of matters submitted to shareholders for approval.

Post this Issue, our Promoter and Promoter Group will collectively own 71.02% of our post issue equity share capital. As a result, our Promoter, together with the members of the Promoter Group, will continue to exercise a significant degree of influence over Company and will be able to control the outcome of any proposal that can be approved by a majority shareholder vote, including, the election of members to our Board, in accordance with the Companies Act, 2013 and our Articles of Association. Such a concentration of ownership may also have the effect of delaying, preventing or deterring a change in control of our Company.

In addition, our Promoter will continue to have the ability to cause us to take actions that are not in, or may conflict with, our interests or the interests of some or all of our creditors or other shareholders, and we cannot assure you that such actions will not have an adverse effect on our future financial performance or the price of our Equity Shares.

32. Any variation in the utilization of the Net Proceeds as disclosed in this Draft Prospectus shall be subject to certain compliance requirements, including prior Shareholders' approval.

In accordance with Section 27 of the Companies Act, 2013, we cannot undertake any variation in the utilization of the Net Proceeds as disclosed in this Draft Prospectus without obtaining the shareholders' approval through a special resolution. In the event of any such circumstances that requires us to undertake variation in the disclosed utilization of the Net Proceeds, we may not be able to obtain the Shareholders' approval in a timely manner, or at all. Any delay or inability in obtaining such Shareholders' approval may adversely affect our business or operations. Further, our Promoters or controlling shareholders would be required to provide an exit opportunity to the shareholders who do not agree with our proposal to modify the objects of the Issue as prescribed in the SEBI (ICDR) Regulations. If our shareholders exercise such exit option, our business and financial condition could be adversely affected. Therefore, we may not be able to undertake variation of objects of the Issue to use any unutilized proceeds of the Issue, if any, even if such variation is in the interest of our Company, which may restrict our ability to respond to any change in our business or financial condition and may adversely affect our business and results of operations. For further details of the proposed objects of the Issue, refer chapter titled "OBJECTS OF THE ISSUE" on Page no. 67 of this Draft Prospectus.

33. There is no monitoring agency appointed by Our Company and the deployment of funds are at the discretion of our Management and our Board of Directors, though it shall be monitored by our Audit Committee.

The issue proceeds is entirely at the discretion of the issuer/management. As per SEBI (ICDR) Regulations, 2018, appointment of monitoring agency is required only if Issue size exceeds ₹ 10,000 Lakh. Hence, we have not appointed any monitoring agency to monitor the utilization of Issue proceeds. However, as per the Section 177 of the Companies Act, 2013 the Audit Committee of our Company would be monitoring the utilization of the Issue Proceeds.

34. Our inability to manage growth could disrupt our business and reduce profitability.

A principal component of our strategy is to continuously grow by expanding the size and geographical scope of our businesses. This growth strategy will place significant demands on our management, financial and other resources. It will require us to continuously develop and improve our operational, financial and internal controls. Continuous expansion increases the challenges involved in financial management, recruitment, training and retaining high quality human resources, preserving our culture, values and entrepreneurial environment, and developing and improving our internal administrative infrastructure. Any inability on our part to manage such growth could disrupt our business prospects, impact our financial condition and adversely affect our results of operations.

35. Our ability to pay dividends in the future will depend upon our future earnings, financial condition, cash flows, working capital requirements, capital expenditure and restrictive covenants in our financing arrangements.

We may retain all our future earnings, if any, for use in the operations and expansion of our business. As a result, we may not declare dividends in the foreseeable future. Any future determination as to the declaration and payment of dividends will be at the discretion of our Board of Directors and will depend on factors that our Board of Directors deem relevant, including among others, our results of operations financial condition, cash requirements, business prospects and any other financing arrangements.

Additionally, we may not be permitted to declare any dividends under the loan financing arrangement that our Company may enter into future, if there is a default under such loan agreements or unless our Company has paid all the dues to the lender up to the date on which the dividend is declared or paid or has made satisfactory provisions thereof.

Accordingly, realization of a gain on shareholders investments may largely depend upon the appreciation of the price of our Equity Shares. There can be no assurance that our Equity Shares will appreciate in value.

36. Our future funds requirements, in the form of fresh issue of capital or securities and/or loans taken by us, may be prejudicial to the interest of the shareholders depending upon the terms on which they are eventually raised.

We may require additional capital from time to time depending on our business needs. Any fresh issue of shares or convertible securities would dilute the shareholding of the existing shareholders and such issuance may be done on terms and conditions, which may not be favorable to the then existing shareholders. If such funds are raised in the form of loans or debt, then it may substantially increase our interest burden and decrease our cash flows, thus prejudicially affecting our profitability and ability to pay dividends to our shareholders.

37. Our inability to effectively implement our business and growth strategy may have an adverse effect on our operation and growth.

The success of our business will largely depend on our ability to effectively implement our business and growth strategy. In the past we have generally been successful in execution of our business but there can be no assurance that we will be able to execute our strategy on time and within the estimated budget in the future. If we are unable to implement our business and growth strategy, this may have an adverse effect on our business, financial condition and results of operations.

38. We could be harmed by employee misconduct or errors that are difficult to detect and any such incidences could adversely affect our financial condition, results of operations and reputation.

Employee misconduct or errors could expose us to business risks or losses, including regulatory sanctions and serious harm to our reputation. There can be no assurance that we will be able to detect or deter such misconduct. Moreover, the precautions we take to prevent and detect such activity may not be effective in all cases. Our employees and agents may also commit errors that could subject us to claims and proceedings for alleged negligence, as well as regulatory actions on account of which our business, financial condition, results of operations and goodwill could be adversely affected.

39. Certain data mentioned in this Draft Prospectus has not been independently verified.

We have not independently verified data from industry publications contained herein and although we believe these sources to be reliable, we cannot assure that they are complete or reliable. Such data may also be produced on a different basis from comparable information compiled with regard to other countries. Therefore, discussions of matters relating to India and its economy are subject to the limitation that the statistical and other data upon which such discussions are based have not been verified by us and may be incomplete or unreliable.

40. The requirements of being a public listed company may strain our resources and impose additional requirements.

With the increased scrutiny of the affairs of a public listed company by shareholders, regulators and the public at large, we will incur significant legal, accounting, corporate governance and other expenses that we did not incur in the past. We will also be subject to the provisions of the listing agreements signed with the Stock Exchange. In order to meet our financial control and disclosure obligations, significant resources and management supervision will be required. As a result, management's attention may be diverted from other business concerns, which could have an adverse effect on our business and operations. There can be no assurance that we will be able to satisfy our reporting obligations and/or readily determine and report any changes to our results of operations in a timely manner as other listed companies. In addition, we will need to increase the strength of our management team and hire additional legal and accounting staff with appropriate public company experience and accounting knowledge and we cannot assure that we will be able to do so in a timely manner. Failure of our Company to meet the listing requirements of stock exchange could lead to imposition of huge penalties, if any including suspension of trading, imposed by Stock Exchange.

4. Our 100% Revenue is not derived from India and a decrease in economic growth in respective countries could cause our business to suffer.

We do not derive 100% of revenue from our operations in India and consequently, our performance and the quality and growth of our business are dependent on the health of the economy of respective countries from where we derive income. In addition, the Indian and exporting countries economy may be adversely affected by factors such as adverse changes in liberalization policies, social disturbances, terrorist attacks and other acts of violence or war, natural calamities or interest rates changes, which may also affect the microfinance industry. Prior to this Issue, there has been no public market for our Equity Shares. Our Company and the Lead Manager appointed Designated Market maker for the equity shares of our Company. 7. Taxes and other levies imposed by the Government of India or other State Governments, as well as other financial policies and regulations, may have a material adverse impact on our business, financial condition and results of operations.

Taxes and other levies imposed by the Central or State Governments in India that impact our industry include customs duties, excise duties, sales tax, income tax and other taxes, duties or surcharges introduced on a permanent or temporary basis from time to time. There can be no assurance that these tax rates/slab will continue in the future. Further, with the Introduction of the Goods and Services Act, tax rates and its implication may have material impact on our products. GLOBAL ECONOMY

COVID-19 caused a global recession whose depth was surpassed only by the two World Wars and the Great Depression over the past century and a half. Although global economic activity is growing again, it is not likely to return to business as usual for the foreseeable future. The pandemic has caused a severe loss of life, is tipping millions into extreme poverty, and is expected to inflict lasting scars that push activity and income well below their pre-pandemic trend for a prolonged period.

The incipient recovery was initially supported by a partial easing of stringent lockdowns. Various restrictive measures have been reintroduced, however, as COVID-19 has continued to spread around the world. Some areas have experienced a sharp resurgence of infections, and daily new cases remain high. That said, there has been substantial progress in the development of effective vaccines, and inoculation has begun in some countries. A more general rollout in advanced economies and major emerging market and developing economies (EMDEs) is expected to proceed early this year. Most other EMDEs, however, face greater constraints in vaccine procurement and distribution. Until vaccines are widely distributed, effective containment strategies to limit the spread of COVID-19 remain critical.

Following the initial rebound in mid-2020, the global economic recovery has slowed. Whereas activity and trade in the goods sector have improved, the services sector remains anemic, with international tourism, in particular, still depressed. The fall in global investment has been pronounced, particularly for EMDEs excluding China. Even though financial conditions remain very loose, reflecting exceptional monetary policy accommodation, underlying financial fragilities are mounting. Most commodity prices rebounded from their mid-2020 lows as strict lockdowns were gradually lifted and demand firmed, especially from China; however, the recovery in oil prices was more modest amid concerns over the pandemic's lasting impact on oil demand.

In all, the global economy is estimated to have contracted 4.3 percent in 2020—a 0.9 percentage point smaller collapse than was expected in June forecasts. In advanced economies, the initial contraction was less severe than anticipated, but the ensuing recovery has been dampened by a substantial resurgence of COVID-19 cases. Meanwhile, output in China is estimated to have rebounded last year at a faster-than-expected clip, with particular support from infrastructure spending. China's strength was an exception, however, and disruptions from the pandemic in the majority of other EMDEs were more severe than previously envisioned, resulting in deeper recessions and slower recoveries, especially in countries with recent large COVID-19 outbreaks.

Advanced economies are projected to recover, with growth reaching 3.3 percent and 3.5 percent in 2021 and 2022, respectively, on the back of pandemic containment aided by widespread vaccination and sustained monetary policy accommodation, which is expected to more than offset the partial unwinding of fiscal support. Although aggregate EMDE growth is envisioned to firm to 5 percent in 2021 and to moderate to 4.2 percent in 2022, the improvement largely reflects China's expected rebound. ANSEnt China, the recovery across EMDEs is anticipated to be far more muted, averaging 3.5 percent in 2021-22, as the pandemic's lingering effects continue to weigh on consumption and investment. Despite the recovery, aggregate EMDE output in 2022 is expected to remain 6 percent below its pre-pandemic projection.

The pandemic has caused per capita incomes to fall in more than 90 percent of EMDEs, tipping millions back into poverty. For more than a quarter of EMDEs, the pandemic is expected to erase at least 10 years of per capita income gains—and, in about two-thirds of EMDEs, per capita incomes are projected to be lower in 2022 than they were in 2019. After more than two decades of steady global poverty reduction, the crisis is projected to push poverty rates back

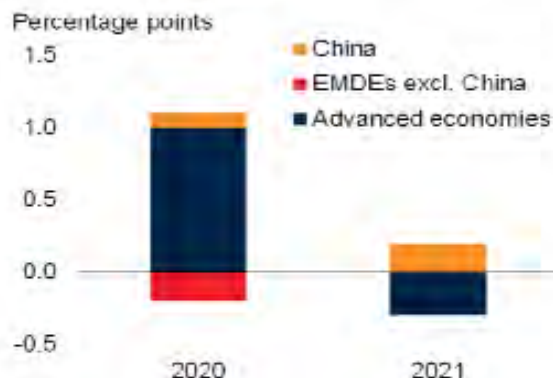

up to levels last seen in 2017. The pandemic has also impeded future prospects for poverty reduction by adversely affecting longer-term productivity growth—the deterioration in confidence has dampened investment, and the loss in learning-adjusted school years and prolonged spells of unemployment have eroded earlier gains in human capital. In low-income countries (LICs), activity in 2020 shrank 0.9 percent—the first aggregate contraction in a generation. Growth is forecast to resume at a moderate pace in 2021–22, averaging 4.3 percent. Nonetheless, output in LICs is expected to remain 5.2 percent below its pre-pandemic projections by 2022. The pandemic has hit fragile and conflict-affected LICs particularly hard, and their recovery is set to be even more sluggish, in part because the large-scale rollout of vaccines among these economies is expected to lag that of advanced economies and major EMDEs. The materialization of a number of downside risks could derail the projected global economic recovery, however. The pandemic could accelerate, and delays in vaccine procurement and distribution could limit the scope for achieving durable containment. Even if the pandemic is brought under control, its effect on potential growth could be longer lasting than expected. Debt has surged above already-high levels and, although banking systems are generally well capitalized, a wave of bankruptcies could erode bank buffers, putting some countries at increased risk of financial crisis. In contrast, stronger-than-expected growth outcomes could result from improved pandemic management, aided by the rapid rollout of highly effective vaccines, which could trigger a sharp rise in consumer confidence and unleash pent-up demand.

In light of these risks, there are various possible scenarios for the ultimate path for global growth. In particular, in a downside scenario, new cases of COVID-19 would remain persistently higher than in the baseline in many parts of the world, and the vaccine rollout process would be slowed by logistical impediments and general reluctance to be immunized. Activity and financial conditions would deteriorate as a result. In these circumstances, global growth would be much more subdued, only recovering to 1.6 percent in 2021 and 2.5 percent in 2022. In a more severe downside scenario including widespread financial stress, global growth could even be negative in 2021.

This exceptional level of uncertainty around the near-term outlook also highlights the role of policy makers in raising the likelihood of better outcomes while warding off worse ones. Effective containment measures are key to avoid disruptive flare-ups of new cases. As such, the top near-term policy priority will continue to be pandemic control, such as sustaining compliance with social distancing and masking guidelines; increasing testing capacity; and, eventually, overcoming challenges in procuring and distributing vaccines, particularly in LICs. Timely and equitable access to vaccines across the world will necessitate global cooperation. Only once the pandemic is contained in all countries will each country be safe from a resurgence.

Before the pandemic, the economy was already decelerating. Real GDP growth had moderated from an average of 7.4 percent in FY16/19 to 4.2 percent in FY19/20 due to long-standing structural rigidities in key input markets; continuing balance sheet stress in the banking and corporate sector, compounded more recently by stress in the non-banking segment of the financial sector; increased risk aversion among banks and corporates; a decline in rural demand; and a subdued global economy. Although the government initiated several policy actions to arrest the slowdown, the pandemic accentuated the down turn and real GDP contracted by an unprecedented 23.9 percent (year-on-year) in Q1 FY21.

In the fiscal year starting in April 2020, India's economy is expected to contract by 9.6 percent, and recover only very gradually thereafter, with risks tilted on the downside. Weak activity, domestically and abroad, is also likely to depress both Indian imports and exports.

The significant fiscal and other policy responses announced by both the federal and state governments are expected to provide some relief, mostly to avoid an even deeper contraction. But, a potential source of risk to this effort stems from preexisting financial sector weaknesses and high levels of NPLs, which have been amplified by the crisis.

The information detailed in this Chapter has been obtained from the various legislations, including rules and regulations promulgated by the regulatory bodies and the bye laws of the respective local authorities that are available in the public domain.

We are subject to a number of Central and State legislations which regulate substantive and procedural aspects of the business. Additionally, the business activities of our Company require sanctions, approval, license, registration etc. from the concerned authorities, under the relevant Central and State legislations and local bye-laws. For details of Government and Other Approvals obtained by the Company in compliance with different regulations, see section titled “GOVERNMENT APPROVALS” beginning on Page no. 210 of this Draft Prospectus. The following description is a summary of the few relevant regulations and policies as prescribed by the Government of India, and the respective bye laws framed by the local bodies, and others incorporated under the laws of India.

INDUSTRY SPECIFIC REGULATIONS

Drugs and Cosmetics Act, 1940 (the “DCA”)

The DCA acts as a regulator for import, manufacture, distribution and sale of drugs in India as well as aspects relating to labelling, packing, testing and licensing. Matters pertaining to drug formulations, biological and APIs are also governed by the DCA. Under the DCA, while regulation of manufacture, sale and distribution of drugs is primarily the responsibility of the state authorities, the central authorities are responsible for approval of new drugs, clinical trials, laying down standards, control over imported drugs and coordination of activities of state drug control organizations. These procedures involve obtaining a series of approvals for different stages at which drugs are tested, before the Drug Controller General of India (the “DCGI”), an authority constituted under the DCA, which is empowered to grant the final license to allow drugs to be manufactured and marketed. The Central Drugs Standard Control Organization (the “CDSCO”) is responsible for testing and approving APIs and formulations in consultation with the DCGI.

The DCA also regulates the import of drugs into India, and prohibits the import of certain categories of drugs into India, for instance (i) any drug which is not of standard quality, (ii) any misbranded drug, (iii) any adulterated or spurious drug, (iv) any drug for the import of which a licence is prescribed, otherwise than under, and in accordance with, such licence, (v) any patent or proprietary medicine, unless there is displayed in the prescribed manner on the label or container thereof the true formula or list of APIs contained in it together with the quantities thereof, (vi) any drug which by means of any statement, design or device accompanying it or by any other means, purports or claims to cure or mitigate any such disease or ailment, or to have any such other effect, as may be prescribed, and (vii) any drug the import of which is prohibited under the DCA or the Drugs Rules. This restriction shall not apply, subject to prescribed conditions, to the import of small quantities of any drug for examination, testing, analysis or personal use. The Government of India may, after consultation with the Drugs Technical Advisory Board, by notification in the official gazette, permit, subject to any conditions specified in the notification, the import of any drug or class of drugs not being of standard quality. Further, if the GoI is satisfied that the use of any drug involves any risk to human beings or animals or that any drug does not have the therapeutic value claimed for it or contains ingredients and in such quantity for which there is no therapeutic justification and that in the public interest it is necessary or expedient so to do, it may, by notification in the official gazette, prohibit the import of such drug or cosmetic.

The Drugs and Cosmetics Rules, 1945 (“DC Rules”)

The Drugs and Cosmetics Rules, 1945 enacted to give effect to the provisions of the DCA to regulate the manufacture, distribution and sale of drugs and cosmetics in India. The DC Rules prescribe the procedure for submission of report to the Central Drugs Laboratory, of samples of drugs for analysis or test, the forms of Central Drugs Laboratory’s reports thereon and the fees payable in respect of such reports. The DC Rules also prescribe the drugs or classes of drugs or cosmetics or classes of cosmetics for the import of which a licence is required, and prescribe the form and conditions of such licences, the authority empowered to issue the same and the fees payable therefore. The DC Rules provide for the cancellation or suspension of such licence in any case where any provisions or rule applicable to the import of drugs and cosmetic is contravened or any of the conditions subject to which the licence is issued is not complied with. The DC Rules further prescribe the manner of labelling and packaging of drugs. The DC Rules lay down the process mechanics and guidelines for clinical trial, including procedure for approval for clinical trials. Clinical trials require obtaining of free, informed and written consent from each study subject. The DC Rules also provide for compensation in case of injury or death caused during clinical trials. The Central Drugs Standard Control Organization has issued the guidance for industry for submission of clinical trial application for evaluating safety and efficacy, for the purpose of submission of

clinical trial application as required under the DC Rules. The Indian Council of Medical Research has issued the Ethical Guidelines for Biomedical Research on Human Participants, 2006 which envisages that medical and related research using human beings as research participants must, necessarily, inter alia, ensure that the research is conducted in a manner conducive to, and consistent with, their dignity, well-being and under conditions of professional fair treatment and transparency. Further such research is subjected to evaluation at all stages of the same.

The Essential Commodities Act, 1955 (the “ECA”)

The ECA gives powers to the Government of India to, among other things, regulate production, distribution and quality of essential commodities including drugs, for maintaining or increasing supplies and for securing their equitable distribution and availability at fair prices. Using the powers under it, various ministries/departments of the Government have issued control orders for regulating production, distribution, quality aspects, movement and prices pertaining to the commodities which are essential and administered by them. The state governments have issued various control orders to regulate various aspects of trading in essential commodities.

The National Pharmaceuticals Pricing Policy, 2012 (the “2012 Policy”)

The 2012 Policy replaces the drug policy of 1994 and presently seeks to lay down the principles for pricing of essential drugs specified in the National List of Essential Medicines – 2011 (“NLEM”) declared by the Ministry of Health and Family Welfare, Government of India and modified from time to time, so as to ensure the availability of such medicines at reasonable price, while providing sufficient opportunity for innovation and competition to support the growth of the Industry. The prices would be regulated based on the essential nature of the drugs rather than the economic criteria/market share principle adopted in the drug policy of 1994. Further, the 2012 Policy will regulate the price of formulations only, through market based pricing which is different from the earlier principle of cost based pricing. The DPCO 2013 prescribes certain instances in which case the provision of the DPCO 2013 will not be applicable. The Employees Provident Funds and Miscellaneous Provisions Act, 1952

The Employees’ Provident Funds and Miscellaneous Provisions Act, 1952 is a social welfare legislation to provide for the institution of Provident Fund, Pension Fund and Deposit Linked Insurance Fund for employees working in factories and other establishments. The Act aims at providing social security and timely monetary assistance to industrial employees and their families when they are in distress.

The Act is administered by the Government of India through the Employees’ Provident Fund Organization (EPFO). The following three schemes have been framed under the Act by the Central Government:

- (a) The Employees’ Provident Fund Schemes, 1952;
- (b) The Employees’ Pension Scheme, 1995; and

(c) The Employees' Deposit – Linked Insurance Scheme, 1976.

The Central Government has constituted Employees' Provident Funds Appellate Tribunal to exercise the powers and discharge the functions conferred on such by Employees' Provident Funds and Miscellaneous Provisions Act, 1952.

The Employees State Insurance Act, 1948

The promulgation of Employees' State Insurance Act, 1948 (ESI Act), by the Parliament was the first major legislation on social Security for workers in independent India. It was a time when the industry was still in a nascent stage and the country was heavily dependent on an assortment of imported goods from the developed or fast developing countries. The deployment of manpower in manufacturing processes was limited to a few select industries such as jute, textile, chemicals etc. The legislation on creation and development of a fool proof multi- dimensional Social Security system, when the country's economy was in a very fledgling state was obviously a remarkable gesture towards the socio economic amelioration of a workforce though limited in number and geographic distribution. India, notwithstanding, thus, took the lead in providing organized social protection to the working class through statutory provisions. The ESI Act 1948 encompasses certain health related eventualities that the workers are generally exposed to; such as sickness, maternity, temporary or permanent disablement, Occupational disease or death due to employment injury, resulting in loss of wages or earning capacity-total or partial. Social security provision made in the Act to counterbalance or negate the resulting physical or financial distress in such contingencies, are thus, aimed at upholding human dignity in times of crises through protection from deprivation, destitution and social degradation while enabling the society the retention and continuity of a socially useful and productive manpower.

The Factories Act, 1948

The Factories Act, 1948 ("Factories Act") aims at regulating labour employed in factories. A "factory" is defined as "any premises...whereon ten or more workers are working or were working on any day of the preceding twelve months, and in any part of which a manufacturing process is being carried on with the aid of power, or is ordinarily so carried on, or whereon twenty or more workers are working, or were 81 working on any day of the preceding twelve months, and in any part of which a manufacturing process is carried on without the aid of power, or is ordinarily so carried on...". The main aim of the said Act is to ensure adequate safety measures and to promote the health and welfare of the workers employed in factories initiating various measures from time to time to ensure that adequate standards of safety, health and welfare are achieved at all the places.

Under the Factories Act, the State Government may make rules mandating approval for proposed factories and requiring licensing and registration of factories. The Factories Act makes detailed provision for ensuring sanitary conditions in the factory and safety of the workers and also lays down permissible working hours, leave etc. In addition, it makes provision for the adoption of worker welfare measures. The prime responsibility for compliance with the Factories Act and the rules thereunder rests on the "occupier", being the person who has ultimate control over the affairs of the factory. The Factories Act states that save as otherwise provided in the Factories Act and subject to provisions of the Factories Act which impose certain liability on the owner of the factory, in the event there is any contravention of any of the provisions of the Factories Act or the rules made thereunder or of any order in writing given thereunder, the occupier and the manager of the factory shall each be guilty of the offence and punishable with imprisonment or with fine. The occupier is required to submit a written notice to the chief inspector of factories containing all the details of the factory, the owner, manager and himself, nature of activities and such other prescribed information prior to occupying or using any premises as a factory. The occupier is required to ensure, as far as it is reasonably practicable, the health, safety and welfare of all workers while they are at work in the factory.

Shops and establishments laws in various states

Under the provisions of local Shops and Establishments laws applicable in various states, establishments are required to be registered. Such laws regulate the working and employment conditions of the workers employed in shops and establishments including commercial establishments and provide for fixation of working hours, rest intervals, overtime, holidays, leave, termination of service, maintenance of shops and establishments and other rights and obligations of the employers and employees.

The UPI Phase I was effective till June 30, 2019.

Subsequently, for applications by Retail Individual Investors through Designated Intermediaries, the process of physical movement of forms from Designated Intermediaries to SCSBs for blocking of funds has been discontinued and only the UPI Mechanism with existing timeline of T+6 days is applicable for a period of three months or launch of five main board public issues, whichever is later (“UPI Phase II”), with effect from July 1, 2019, by SEBI circular (SEBI/HO/CFD/DIL2/CIR/P/2019/76) dated June 28, 2019, read with circular (SEBI/HO/CFD/DIL2/CIR/P/2019/85) dated July 26, 2019. Further, as per the SEBI circular (SEBI/HO/CFD/DCR2/CIR/P/2019/133) dated November 8, 2019, the UPI Phase II had been extended until March 31, 2020. Thereafter, the final reduced timeline of T+3 days may be made effective using the UPI Mechanism for applications by Retail Individual Investors (“UPI Phase III”), as may be prescribed by SEBI. However, the time duration from public issue closure to listing continues to be six Working Days during this phase. Further, pursuant to SEBI circular dated March 30, 2020, this phase has been extended till further notice.

Phase III: The commencement period of Phase III is yet to be notified. In this phase, the time duration from public issue closure to listing is proposed to be reduced to three Working Days.
